[U waived its interest in bargaining with respect to carrier induced changes in health benefit plan, notwithstanding parties did not specifically address issue of mid-term adjustment in health program during their contract deliberations where it was clear that they negotiated complete agreement, and it was also clear that parties desired to commit unresolved issues to management prerogatives as they existed upon entry of agreement]

Suffolk Child Development Center, Inc. 277 NLRB No. 158

(no waiver of right to bargain over change in health insurance plan by agreeing to zipper clause where it was not intended to *wipe slate clean*)

N.L.R.B. v. Americana Healthcare Center 782 F.2d 941 (C.A. 11, Feb. 1986)

[*zipper* clause in instant case must be read with implied exception that it has no application to agreement negotiated (by parties) pursuant to ct order but ommitted from written contract by inadvertence and mistake. Ct's reading of *zipper* clause leaves it ample scope for application, where it will not nullify statutory policy]

8054-6500 Waiver to represent employees

Armco, Inc., Eastern Steel Division, Ashland Works 279 NLRB No. 143

[successor E's contention that incumbent U at new plant had waived right to represent Ees by yielding representational rights to a rival U and failing to request bargaining, rejected, and E's refusal to bargain with incumbent U, unilateral changes in terms and conditions of employment, recognition of rival U and enforcing U security, violative, since bargaining request would have been futile i.e., E had already granted recognition to rival U, Ees at new plant had not been accreted and incumbent U had in no way *clearly and unmistakeably* waived right to represent Ees]

G.M. Trimming, Inc., et al., Debtor-In-Possession, and George Marks 279 NLRB No. 121

[bargaining agreement between U and 1 company, deemed part of single integrated enterprise with other companies, did not extend to Ees of other companies in enterprise which were also held to be alter ego of individual in whom ownership of all companies ultimately vested, and E not obligated to make payments into benefit and pension funds on those Ees behalf, since U acquiesced in Ees' exclusion where U aware of woner's propensity for securing corporate insulation against indebtedness by operating through as many distinct and separate business entities as his needs required]

G.M. Trimming, Inc., et al., Debtor-In-Possession, and George Marks 279 NLRB No. 121

[no violation where E entered into agreement with U other than U with which another E of single intergrated enterprise of which E part had contract, since U had acquiesced in exclusion of Ees of E]

Union Carbide Corporation, Nuclear Division 275 NLRB No. 037

(E's contention that U waived right to be present at adjustment of grievances by *ad hoc* committee formed to review problems in a section of E's plant because E told U official that committee was being formed to look into the general situation, rejected, where E did not tell U that committee would include unit Ees or that committee would interview unit Ees and E did not offer U opportunity to participate on committee; U cannot be said to have received actual notice of committee's planned membership or operations)

Dukes Industries JD-167-85

(no violation where E decided to shut down operations and communicated decision to Ees prior to having any knowledge of U activity. Furthermore, U waived its perogative to bargain with E where, other than delivering its demand letter, it has made absolutely no attempt to meet and negotiate over effects of closing)

8054-7000 Agreeing to management rights clause does not constitute waiver

Challenge-Cook Brothers of Ohio, Inc. 282 NLRB No. 002

[management rights clause, authorizing E to relocate work from one plant to another at will, held not waiver of U's right to bargain about consequences resulting from such work transfer; while management rights clause conferred upon E exclusive decision-making authority regarding relocation of unit work, contract was silent over consequences of such decision; and contract's broad management rights clause, in absence of specific waiver language, did not waive U's right to bargain over effects of E's relocation decision]

EPI Corporation d/b/a Rockford Manor Intermediate Care Facility 279 NLRB No. 170

[U waived its interest in bargaining with respect to carrier induced changes in health benefit plan, notwithstanding parties did not specifically address issue of mid-term adjustment in health program during their contract deliberations where it was clear that they negotiated complete agreement, and it was also clear that parties desired to commit unresolved issues to management prerogatives as they existed upon entry of agreement]

Suffolk Child Development Center, Inc. 277 NLRB No. 158

(no waiver of right to bargain over change in health insurance plan by U's agreeing to management rights clause, which did not mention plan)

Georgia Pacific Corporation 275 NLRB No. 017

(E's refusal to reduce to writing agreement regarding change from 3 shifts a day to *4 shift program*, effect of which was that each Ee worked 7 days and then had 2 days off, where E and U had negotiated change, plan had been agreed to by majority of members of U, and implemented, and when parties agree on a mandatory subject of bargaining Sec. 8(d) requires execution of written agreement; E's contention it had right under management rights clause to make change unilaterally, rejected, since no clear and unmistakable waiver of right to bargain regarding change in shifts)

Continental Telephone Company of California 274 NLRB No. 210

(E's unilaterally instituting new *Positive Discipline* program to deal with Ees' infractionsof its rules, including attendance rules, not violative where U *waived its right* to bargain concerning such policy through management-rights clause in parties' contract; neither U nor its representatives contested E's right to issue unilaterally new rules nor did they request bargaining)

Kobell v. Thorsen Tool Co. F.Supp.——(DC M.D. PA, Dec. 1982)

[management rights clause that stated *company retains sole right to manage its business including but not limited to right to decide on method and place of manufacturing* did not constitute waiver by U of right to bargain regarding transfer of work, and preclude finding of reasonable cause to believe Act violated and issuance of Section 10(j) inj when E unilaterally decided to transfer work since clause might not be interpreted as waiver by Bd, where clause does not specifically reserve to E right to move part of operation to another facility in order to avoid high labor costs imposed by agreement]

8054-9000 Failure to request that employer bargain

Rappazzo Electric Co., Inc. 281 NLRB No. 075

[U did not waive its right to bargain over decrease in wages and benefits and to protest E's actions, where U consistently took position that terms of bargaining agreement were in full force and effect; moreover E could not show that U had clear notice of E's intent to institute changes sufficiently in adherence of actual implementation nor did E demonstrate that U failed to make timely bargaining request before changes were implemented]

Whirlpool Corporation 281 NLRB No. 007

[no violation since U waived right to bargain over alleged unilateral change in suspension hearing procedure by writing to E and requesting witness to be present at hearing w/o subsequently requesting bargaining]

Whirlpool Corporation 281 NLRB No. 007

[U waives right to oppose unilateral change where it is aware of projected change in sufficient time to bargain before change is implemented and fails to request bargaining; U must prosecute its right, not merely protest the change or file ULP charge]

Armour and Company 280 NLRB No. 096

[no waiver of its right to bargain regarding allocation of vacation and severance pay to Ees being terminated to specific periods by U's failure to follow through on request for bargaining once it learned of E's position on allocation from forms sent to Ees, where U had previously requested bargaining, had reason to believe E understood its concern, but had been put off by E, and thus reasonable for U to believe further request would be futile]

8054-9000—Cont.

Armco, Inc., Eastern Steel Division, Ashland Works **279 NLRB No. 143**
[successor E's contention that incumbent U at new plant had waived right to represent Ees by yielding representational rights to a rival U and failing to request bargaining, rejected, and E's refusal to bargain with incumbent U, unilateral changes in terms and conditions of employment, recognition of rival U and enforcing U security, violative, since bargaining request would have been futile i.e., E had already granted recognition to rival U, Ees at new plant had not been accreted and incumbent U had in no way *clearly and unmistakeably* waived right to represent Ees]

Jack Nykiel, A Sole Proprietorship, d/b/a Joey's Stables **279 NLRB No. 097**
[E's unilateral termination of Ees' group insurance coverage, unlawful, notwithstanding E's contention that U waived its right to bargain on ground no U representative ever requested E to bargain over the matter, where U did not learn of insurance coverage change until after it occurred; and U business agent, upon learning of the change, immediately protested to E]

Ventura County Star-Free Press **279 NLRB No. 064**
[unilaterally withholding step increases from eligible Ees not unlawful where U failed to timely demand bargaining and merely protested]

Intersystems Design and Technology Corp. **278 NLRB No. 111**
[E's unilateral layoff of Ees w/o notice to or bargaining with U, violative; further, E's contention that make whole remedy is inappropriate because U waived opportunity to bargain over effects of decision after learning of layoffs because U did not demand effects bargaining, rejected, where U was faced with fait accompli because it did not receive any notice of layoffs and any bargaining demand by U would have been futile where E wrote U a letter in relation to layoffs maintaining it had no obligation to bargain over decision or choice of Ees for layoff]

Southwest Forest Industries, Inc., Las Angeles Container Division **278 NLRB No. 031**
[E's unilateral implementation of various changes in working conditi..es and wages different than those in final contract proposal, on grounds U had notice of changes and would have refused to bargain under any circumstances, violative, since U did not have notice where prior to implementation E advised U only that there would be *other changes*, E's changes were in no way a new contract proposal and there was no evidence that U's steadfast refusal to bargain with E was in any way improper]

Oak Rubber Company **277 NLRB No. 148**
(E's contention that U waived right to bargain over decision to relocate part of its operations because U did not formally request bargaining, rejected, where, w/i two days after receiving word E was bidding on new site, U asked E to *try and work out any problems* which might prompt E to relocate and at same time requested information concerning relocation)

Kansas National Education Association **275 NLRB No. 092**
(once E notifies U of proposed changes in conditions of employment, it is incumbent upon U to act with due deligence in requesting bargaining and U's failure, upon receipt of E's notice, to request bargaining may result in waiver of U's rights)

Kansas National Education Association **275 NLRB No. 092**
(E's implementing position transfer agreement with individual Ee, which allegedly was contrary to U contract, not unlawful, since U acquesced in transfer as evidenced by U's receipt of notice of proposed transfer agreement approximately month before it became effective, U's actions in promoting transfer, and its failure to request bargaining on issue until month after agreement was implemented)

Continental Telephone Company of California **274 NLRB No. 210**
(E's unilaterally instituting new *Positive Discipline* program to deal with Ees' infractionsof its rules, including attendance rules, not violative where U *waived its right* to bargain concerning such policy through management-rights clause in parties' contract; neither U nor its representatives contested E's right to issue unilaterally new rules nor did they request bargaining)

Prime Time Post, Inc. **274 NLRB No. 218**
(successor E held not obligated to contribute to international's health and welfare fund pursuant to U's agreement with predecessor E and cessation of contributions not violative, where successor E at no time assumed obligations of predecessor E and entered into contract with local U of international which did not require it to make contributions to the fund; further, international waived right to bargain over fund contributions when it never requested successor E to bargain and was aware that local U was bargaining with E and entered into contract which did not provide for fund contributions)

Pennsylvania Energy Corporation **274 NLRB No. 174**
(U did not waive its right to bargain over E's subcontracting agreement with contractor to do bargaining unit work, activity of E's of which U had no knowledge; otherwise, U repeatedly pursued meetings with E whenever it became aware of suspicious activity; these actions were consistent with attempts to preserve rights of laid off Ees and could not be considered to be indicative of any abandonment of those rights)

Hawthorn Mellody, Inc. **275 NLRB No. 085**
(E did not unlawfully refuse to bargain over effects of its decision to close facility and transfer production to plant 90 miles away. While no formal notice given to U, U had substantial information from which it must inevitably have been aware of E's intentions but never requested bargaining over effects of its decision, thereby waiving its right to do so)

The Setterlin Company **JD-56-86**
[U's failure to demand negotiations after receiving notice of E's intent to implement unilateral changes after impasse constituted waiver of right]

Everett Yacht Club **JD-(SF)-113-85**
(although U representative heard rumors and received phone calls that E would cease its restaurant and bar business by a certain day, record devoid of *clear and unambiguous evidence* that U waived its right to bargain about effects of E's decision, thus E's decision violative)

My Buddy Products, A Division of S&T Industries, Inc. **JD-114-85**
(U did not waive right to bargain over Ee health insurance contributions when U, when presented with notice of increase, grieved, and E's response to grievance was that E could not afford increased premiums and had to pass them on to Ees; thus, U presented with fait accompli rendering demand for bargaining futile gesture)

Tectonic Industries, Inc. **JD-(NY)-100-84**
(E's contention that U gained knowledge about some of E's unilateral changes, failed to act, and thereby waived its right to bargain about changes, rejected; thus, fact that U agent saw supervisors entering plant during strike did not give notice to U that E had instituted change in working conditions by having supervisors routinely perform unit work, and E's failure to list certain changes in job positions in its contract proposals to U did not constitute notice to U concerning E's actions with regard to those positions)

8063 STRIKES

8063-0100 Generally

8063-0150 Obligation to bargain during strike

Service Electric Company **281 NLRB No. 107**
[E did not violate Act by refusing, after U gave notice that strike over, U's demand that employment terms for replacements be restored to levels prevailing prior to commencement of strike, where economic strikers failed to offer to return to work, coupled with absence of any evidence that Ees had abandoned future employment with E]

Service Electric Company **281 NLRB No. 107**
[E under no obligation to bargain over employment terms of strike replacements, whether terms better or worse than preexisting terms before strike, whether strike has ended, or not, where no resolution of underlying dispute because no agreement on contract, and there are unreinstated strikers who have not abandoned future employment with E but whose jobs continued to be filled by replacements]

Tectonic Industries, Inc. **JD-(NY)-100-84**
(E's defense to unilateral changes in terms and conditions of employment on ground it did not have to bargain about such changes with strike replacements, rejected; E's obligation to bargain with U is not suspended by virtue of strike; E's changes did not concern wages and/or fringe benefits paid to replacements; rather, they affected every term and condition of employment and were not instituted on temporary basis to enable E to cope with effect of strike, and effect of changes continued long after initial impact of strike)

N.L.R.B. v. Platte Valley Plumbing & Heating **748 F.2d 445 (C.A. 8, Nov. 1984)**
(fact that economic strike took place during negotiations does not relieve E of duty to bargain)

8063-1400 Effect on impasse

Brady-Stannard Motor Co., Inc. **273 NLRB No. 178**
(Bd found that after impasse wages paid to striker replacements was consistent with E's final offer to U to continue expired contract for 1 year where Bd looked at *actual* earnings received by replacements over 6 month period and it showed they were equal to or lower than what strikers earned in similar period in prior year notwithstanding wage package of replacements different from strikers. Therefore, no violation by offering replacements higher wage formula but where actual wages same, because it was, in effect, offering same contract to replacements as one that expired and which was offered to U)

8063-5600 Partial strike

Arrow Sash and Door Company **281 NLRB No. 149**
[E's withdrawal from tentative agreements and concessions previously reached during negotiations, assertedly because it believed U had sanctioned or condoned sick out engaged in by some Ees thus breaching no strike agreement, unlawful. Under totality of circumstances test in *Farm Boy Restaurants*, 279 NLRB No. 13, where, despite apparent progress in negotiations, E not only withdrew from all agreements and prior concessions, but also cancelled next bargaining session, and extension of bargaining agreement, ceased payments to benefit funds, and implemented new health plan; issue is not whether E acted in good faith, but whether E had good cause]

8068 GRIEVANCE/ARBITRATION PROCEEDINGS AND/OR AWARD

Springfield Transit Management, Inc. 281 NLRB No. 124
[E's failure to execute contract after impasse and issuance of state ct-ordered arbitration award, unlawful, where E and U reached agreement consisting of old contract, pre-arbitration agreements, and arbitration award, all of which E's prepared document accurately reflected, and U requested that document be signed; E's defense that its pre-arbitration agreements required approval of state authority which retained control over its bargaining process, rejected, since failure by E and authority, which were ordered by ct to submit unresolved issues to arbitration, to submit previously negotiated contract terms constituted approval of agreements

United States Postal Service 281 NLRB No. 032
[bypassing U and dealing directly with Ee by unilaterally adjusting Ee's grievance concerning proposed dismissal of Ee, unlawful, where at time E resolved grievance, while ignoring Ee's request to be accompanied by U representative, E knew that Ee's grievance was pending and that Ee wanted U agent to be present; and Veterans' Preference Act, permitting what would be ULP under Act by giving Ee right to meet with E for discussing problem before being dismissed, did not prevail over Ee's rights under Act]

Asociacion Hospital Del Maestro, Inc. 279 NLRB No. 062
[E's raising at arbitration affirmative defense that it had no duty to arbitrate grievances filed after expiration of contract, not refusal to arbitrate or violation, where E submitted grievances to arbitration, participated in hearings, and did not indicate that it would not comply with an adverse arbitrator's decision; a Bd order prohibiting party from raising arbitrability issue before arbitrator would contravene Bd's policy to favor and defer to voluntary arbitration]

Southern California Edison Company 274 NLRB No. 167
(E's refusal to conduct grievance meetings with Ees or U officials who wore *Stick Your Retro* button concerning retroactive pay raise during contract negotiations between E and U, violative, since wearing of button protected, and no matter what buttons were being worn, E was not privileged to refuse to meet and deal with U on matters being pursued through grievance arbitration process, at least so long as they did not cause unreasonable disruption (of process))

8072 PENDENCY OF BOARD PROCEEDINGS

8072-2900 Filing of decertification petition

Nazareth Literary & Benevolent Institute, Inc., d/b/a Saints Mary and Elizabeth Hospital 282 NLRB No. 010
[filing of decertification ptn, *standing alone*, does not permit E to make unilateral changes]

Rascar, Inc. 274 NLRB No. 001
(E's advising U that a decertification ptn had been filed and that it would not bargain further until that qcr was resolved, not violative under *Telautograph* rule, which was not overruled by *Dresser Industries* until after E's refusal to bargain in instant case, since *Dresser* was not applied retroactively)

Kelly Broadcasting Company d/b/a DCRA--TV 273 NLRB No. 206
(notwithstanding that under *Dresser*, 264 NLRB 1088, E and incumbent U required to bargain and execute any agreed upon contract even though decertification ptn filed, E and U may by mutual agreement defer effective and execution date of any contract reached until decertification ptn is resolved, and refusal of E to sign this contract with incumbent U until such resolution, not violative)

Frederick Davidowitz, D.D.S. Professional Corporation and Martin Goldberg, D.D.S. Professional Corporation, a Partnership d/b/a Union Health Services JD-(SF)-112-85
(withdrawal of recognition based on decertification ptn signed by substantial majority of unit Ees, lawful where there was no evidence of E's involvement with ptn, nor were Ees coerced in signing ptn by E's prior ULP's then pending before Bd, and Ees stated that they were not affected by pending charges but by U's failure to win contract from E)

N.L.R.B. v. Auto Fast Freight, Inc. 793 F.2d 1126 (C.A. 9, July 1986)
[decertification ptn no defense to E's unilateral changes where it was filed after unlawful cessation of health and welfare fund payments, institution of new medical plan, reduction in wages, and constructive discharges of Ees for refusing to resign from U]

8072-3500 Pendency of Regional Director's direction of election or decision on objections

8072-3500 Pendency of Regional Director's direction of election or decision on objections

Specialty Steel Treating, Inc. 279 NLRB No. 067
[unilaterally granting discretionary, rather than regularly scheduled, wage increases and bonuses while objections to election were pending, violation]

8072-4200 Pendency of ULP charges

Dane County Dairy, Inc. 273 NLRB No. 209
(E's unwillingness to negotiate under compulsion of pending ULP proceeding against it no defense to charge of refusal to agree to further date for negotiations)

Frederick Davidowitz, D.D.S. Professional Corporation and Martin Goldberg, D.D.S. Professional Corporation, a Partnership d/b/a Union Health Services JD-(SF)-112-85
(withdrawal of recognition based on decertification ptn signed by substantial majority of unit Ees, lawful where there was no evidence of E's involvement with ptn, nor were Ees coerced in signing ptn by E's prior ULP's then pending before Bd, and Ees stated that they were not affected by pending charges but by U's failure to win contract from E)

N.L.R.B. v. Platte Valley Plumbing & Heating 748 F.2d 445 (C.A. 8, Nov. 1984)
(fact that U filed ULP charges against E alleging refusal to bargain does not relieve E of duty to bargain)

8072-6500 Pendency of UC petition

Save Mart of Modesto, Inc. JD-(SF)-25-85
(notwithstanding UC ptn filed which sought to clarify bargaining unit encompassed by E's current contract with U into proposed unit consisting of Ees employed in meat department of new store before ULP charge alleging unlawful refusal to recognize U, ALJ went ahead with hearing on ULP charge and RD held ptn in abeyance pending disposition of ULP case)

8072-7000 Rival union's RC petition

Oak Rubber Company 277 NLRB No. 148
(E ordered to move transferred work back to original location, notwithstanding Ees at new location had won R election, since whether or not Ees at new plant are organized or unorganized is irrelevant to any remedy to which Ees at original location are entitled)

8072-9200 Pendency of collateral litigations

Lands Cablevision, Inc. and Cablevision Company, Inc. 277 NLRB No. 014
(although joint E met with U on five occasions in order to negotiate contract for E's Ees, Bd found that joint E failed to bargain in good faith with U, since: (1) E failed to respond to U's first two requests for bargaining; (2) as soon as U requested bargaining E proposed closing one of its facilities; (3) E informed U it was not willing to discuss wages until ALJ issued his decision in prior Bd C case involving one of joint Es and same Ees; and (4) other expressions of joint Es' U animus which frustrated bargaining process)

8074 PROVISIONS OF BOARD ORDER

Koenig Iron Works, Inc. 276 NLRB No. 083
(implementing unilateral wage increase called for under terms of contract that Bd had abrogated as violative of Sec. 8(a)(2), unlawful, as Bd will not allow E to resurrect unlawful contract since this would frustrate prior Bd order and would undermine Ees' right to be represented by present bargaining representative)

N.L.R.B. v. Honaker Mills, Division of Top Form Mills, Inc. ———F.2d——— (C.A. 4, Feb. 1986)
[E's contention that its refusal to bargain with U should be excused because Bd's order denying summary judgment was ambiguous and did not state E could not raise issues of U's pre-election misconduct in subsequent ULP hearing and ALJ did not allow it to raise those pre-election issues in ULP hearing, rejected, since Bd's R/R's are clear that issues resolved in *R* proceeding may not be raised in subsequent ULP hearing and E did not show evidence was previously unavailable or newly discovered]

8076 PENDENCY OF COURT PROCEEDINGS

8076-0100 Generally

M. J. Santulli Mail Services, Inc. 281 NLRB No. 170
[E's defense to unlawful unilateral discontinuance of payments to health and welfare fund on ground C should be dismissed because U instituted ct action to collect monies due to fund, rejected, since it is not Bd law to defer or to dismiss due to pendency of ct action]

8076-3300 Review of Board Order of Certification

8072-9200—Cont.

N.L.R.B. v. Honaker Mills, Division of Top Form Mills, Inc. **———F.2d———**

8076-3300 Review of Board Order of Certification

Bryan Memorial Hospital **282 NLRB No. 032**

[mtn for summary judgment granted and E held to have violated Section 8(a)(5) by failing to bargain before making changes in benefits and working conditions, where issue of whether E had properly withdrawn recognition from U was raised in previous case, is res judicata, and may not herein be raised or litigated, nor does pendency of appeal of prior proceeding in federal ct necessitate dismissal of C. Since E is not entitled to refuse to bargain with certified U while it litigates validity of certification in ct of appeals]

8076-6700 Review of Board Finding of ULP

Gentzler Tool & Die Corp. **275 NLRB No. 124**

(notwithstanding Bd has pending ptn for enforcement of its Order requiring execution of contract, retroactive application of contract and that E c/d from dealing directly with Ees, Bd issued another D/O arising from subsequent C finding E violations for refusal to bargain and withdrawal of recognition which are different violations than those found in first decision, and therefore, Order in first decision would not remedy those violations found in second decision; hence need for another Order)

8076-8400 State court proceedings

Medic-Bus Service, Inc. d/b/a A-Medic Ambulance Service **274 NLRB No. 139**

(E's refusal during contract negotiations to discuss U's economic proposals or to sign any new agreement ultimately reached on ground that derivative shareholder's action in state ct placed E in position analogous to that of debtor-in-possession and thereby relieved it of its bargaining obligations, unlawful, since debtor-in-possession vis-a-vis its obligations under Act is unique, being product of Bankruptcy Code's Chapter 11 provisions, and nothing in those provisions, or in S.Ct's *Bildisco* decision interpreting them, can provide similar status to defendant in derivative shareholder's suit)

8081 INVALIDITY OF CERTIFICATION OR RECOGNITION

8081-0800 Employee complement at time of election not representative and substantial

Louis Peppas' Hot Springs Restaurant, Inc. **275 NLRB No. 213**

(date for determining U majority status is date new E commences full scale operations with representative complement of Ees whether or not hoped for expansion has been fully achieved. Here, E, with no hiatus, immediately began full scale operations at restaurant employing majority of Ees who were formerly unit members. Changes to menu and remodeling facilities not so significant as to change date)

N.L.R.B. v. Fall River Dyeing & Finishing Corp. **775 F.2d 425 (C.A. 1, Oct. 1985)**

[in successorship situation, bargaining obligation can normally be determined at time of transfer or when operations begin. In other instances, however, such as when E is rebuilding collapsed business or is operating at substantially reduced capacity, delay in making determination may be appropriate. As S.Ct has noted, determination regarding successor's obligation to bargain may have to wait until successor E has hired full complement of Ees since it will not be evident until then that bargaining representative represents majority of complementing unit required by Sec. 9(a) of Act]

N.L.R.B. v. Fall River Dyeing & Finishing Corp. **775 F.2d 425 (C.A. 1, Oct. 1985)**

[*full complement principle has been interpreted to require that examination of workforce composition be postponed until business is operating at its maximum capacity or until E has completed hiring all of its bargaining unit Ees fixing appropriate date at which bargaining obligation arises involves balancing objective of ensuring maximum Ee participation in selection of bargaining agent against goal of permitting Ees to be represented as quickly as possible Bd has reconciled these interests by applying substantial and representative complement standard*]

N.L.R.B. v. Fall River Dyeing & Finishing Corp. **775 F.2d 425 (C.A. 1, Oct. 1985)**

[successor E obligated to bargain with U that had represented Ees of predecessor when it had employed substantial and representative complement i.e. had hired at least 50% of those it would ultimately employ in majority of Ees it would eventually employ when it reached full complement, notwithstanding at time of original demand for recognition representative complement not employed, since demand continuing and no need to renew later]

N.L.R.B. v. Fall River Dyeing & Finishing Corp. **775 F.2d 425 (C.A. 1, Oct. 1985)**

[in determining whether representative complement existed at a given date and E obligated to bargain, Bd first looks to see whether job classifications for operation were filled or substantially filled and whether operation was in normal or substantially normal production. Bd also considers size of complement on that date time expected substantially larger complement would be hired and relative certainty of expected expansion]

8081-2500 New matter or evidence

General Felt Industries, Inc. **275 NLRB No. 134**

(notwithstanding E's refusal to bargain with U certified following election on ground losing incumbent U had reasonable possibility of prevailing on issue of validity of election in pending 8(b)(7)(B) case, motion for summary judgment granted where in 8(b)(7)(B) case, claiming it belatedly learned Ees did not vote for it because they feared E retaliation and withheld such information for same reason failed to show that such evidence was newly discovered and previously unavailable during prior Bd hearing at which Bd found Ee's unlawful discharge had minimal impact on subsequent election)

General Felt Industries, Inc. **275 NLRB No. 134**

(mtn for summary judgment granted, notwithstanding E's refusal to bargain with U certified following election on ground that E had been informed by several Ees that they would have voted for losing incumbent U had they not been afraid of possible discharge, which fear they based on unlawful discharge of Ee as found by Bd in prior case, where E failed to show that evidence was unavailable at time of ULP hearing or otherwise demonstrated that Ee statements constituted newly discovered or previously unavailable evidence)

N.L.R.B. v. Affiliated Midwest Hospital, Inc., d/b/a Riveredge Hospital **789 F.2d 524 (C.A. 7, Apr. 1986)**

[decertification election which resulted in vote against decertification not set aside and bargaining order issued since E's refusal to bargain not justified by U's misrepresentation that NLRB had issued complaint against E, by omission of Ees from Norris-Thermador list and refusal to allow Ees omitted to vote, erroneous statement of units in decertification election notices and Bd certification and bargaining orders]

8081-3700 Conduct on part of Regional Director or other Board employee

8081-3700 Conduct on part of Regional Director or other Board employee

Castello Packing Co., Inc. and Castello Foods, Inc., d/b/a Holiday Pack Foods **281 NLRB No. 011**

[E's refusal to bargain on ground that Bd attorney assigned to instant ULP and underlying R proceedings was biased and prejudiced to detriment of E, unlawful, where E's claim of being misled by alleged statements of Bd attorney concerning Bd's blocking charge policy with respect to expedited election was, at best, perhaps somewhat due to E's confusion about Bd terminology; and E's claim of bias and prejudice because of Bd attorney's membership in NLRB Ee association was based on pure speculation]

8081-3700—Cont.

N.L.R.B. v. Mississippi Power & Light Company 769 F.2d 276 (C.A. 5, July 1985)

(E's refusal to bargain with U as representative of storeroom and warehouse Ees, violation, notwithstanding E's contention that U was invalidly certified because election was barred by existing contract between E and U as representative of service and maintenance Ees; Bd's contract bar rule applies only to Ees covered by contract and not to unrepresented Ees; nor was unit clarification procedure appropriate for Ees historically and intentionally excluded from bargaining unit)

8081-4300 Union's conflict of interest

North Shore University Hospital 274 NLRB No. 188

(on ct remand, Bd vacated prior D/O, dismissed C and revoked Certification of Representative and found that nurses association should not be considered differently from other labor organizations regarding conflict of interest engendered by supervisors' active participation in association, lack of insulation of collective-bargaining process from governance of organization and lack of mechanism to assist Es from violating Sec. 8(a)(2) through supervisory Ees participation in association's affairs)

Quality Inn Waikiki v. N.L.R.B. 783 F.2d 1444 (C.A. 9, Mar. 1986)

[E's refusal to bargain with local U, on grounds that the son of a competitor's owner was Vice President of International U and thus local U had disqualifying conflict of interest in representing E's Ees, violative, where E did not show local U lacked autonomy in labor relations with Es or that son had any control or authority over local U]

Quality Inn Waikiki v. N.L.R.B. 783 F.2d 1444 (C.A. 9, Mar. 1986)

[E's refusal to bargain with local U on grounds that local U had disqualifying conflict of interest because of its common relationship with another local U that represented Ees of E's direct competitor and both locals were chartered under the same International U, violative, since local U's were separate and distinct organizations and there was no evidence one local tried to exert control or influence over the other local, in fact, although locals at one time shared common officers, they were now rivals]

8081-5000 Fairness of election

Season-All Industries, Inc. 276 NLRB No. 139

(E held obligated to bargain since setting aside of election not warranted where Ee who was held not agent of U stood a few feet from Ees who were waiting to vote in area outside room in which polling booths were located, and held very brief conversations with Ees for 10--20 minutes)

Fruehauf Corporation 274 NLRB No. 067

(E's refusal to bargain on grounds that certification of election was invalid, not violative, and U business agent's threat to majority of Ees, several days before ptn for election was filed, that Ee who crossed a future picket line would be shot, held interference and election set aside, since statement tainted election atmosphere where threat was repeated to other Ees by rank-and-file Ees during critical preelection period and rumors continuously circulated around plant during critical preelection period that strike breakers would be shot, thus destroying required condition of freedom of choice)

The Heil Co. JD-(ATL)-18-85

(no duty to bargain with U where U agent interfered with election by promising that U would waive initiation fees for Ees who signed U authorization cards before election)

The May Department Stores Company JD-(SF)-13-85

(E's refusal to bargain on grounds that certification of election was invalid, not violative, and threats by members of U's *organizing committee*, found herein to be agents of U, that pro-E Hispanic Ees would be victims of immigration sweeps, lose their jobs or find their cars damaged, held interference and election set aside, since threats restrained Ees w/i meaning of 8(b)(1)(A) where character of threats, together with fact they were made shortly before election, led Hispanic Ees to believe they would be deported on election day, thus having potential of affecting voting choice of Ees and willingness of Ees w/i unit to show up at all)

N.L.R.B. v. Rhone-Poulenc, Inc. 789 F.2d 188 (C.A. 3, Apr. 1986)

[U representing to Ees that NLRA precluded reducing any wages or benefits if U won election, and that NLRB region had advised U that E's threat of loss of benefits was unlawful and suggested that U file charge, did not warrant setting aside election and justify E's refusal to bargain, since holding of *Midland National Life Insurance Co.*, 263 NLRB 127, that Bd would not probe truth or falsity of campaign statements by partisans in elections applies also to misrepresentations concerning Bd actions or positions that are recognized as partisan nor do *Midland* rules run afoul of either Sec. 9(c) of Act or Bd's rules]

N.L.R.B. v. Honaker Mills, Division of Top Form Mills, Inc. ———F.2d——— (C.A. 4, Feb. 1986)

[E's contention that its refusal to bargain with U should be excused because Bd's order denying summary judgment was ambiguous and did not state E could not raise issues of U's pre-election misconduct in subsequent ULP hearing and ALJ did not allow it to raise those pre-election issues in ULP hearing, rejected, since Bd's R/R's are clear that issues resolved in *R* proceeding may not be raised in subsequent ULP hearing and E did not show evidence was previously unavailable or newly discovered]

N.L.R.B. v. Affiliated Midwest Hospital, Inc., d/b/a Riveredge Hospital 789 F.2d 524 (C.A. 7, Apr. 1986)

[decertification election which resulted in vote against decertification not set aside and bargaining order issued since E's refusal to bargain not justified by U's misrepresentation that NLRB had issued complaint against E, by omission of Ees from Norris-Thermador list and refusal to allow Ees omitted to vote, erroneous statement of units in decertification election notices and Bd certification and bargaining orders]

N.L.R.B. v. Best Products Co., Inc. 765 F.2d 903 (C.A. 9, July 1985)

(U's alleged campaign misrepresentation invalidating certification no defense to E's refusal to bargain where, before hearing was held on E's objections to U's alleged campaign misrepresentations, Bd issued its decision that it would no longer inquire into such allegations in absence of allegations of use of forged documents -- not alleged herein-- and would apply the decision retroactively, as it did here)

8081-6200 Appropriateness of unit

The Westin Hotel 277 NLRB No. 172

[E's refusal to bargain with separate unit of maintenance workers, on grounds that only an overall unit of hotel workers was appropriate, not violative, since appropriate unit was overall unit which included maintenance workers where there was extensive contact, integration of duties and similar terms and conditions of employment among all hotel personnel and all of E's service Ees were subject to uniform personnel policies regarding recruitment, hiring, orientation and work rules]

Oak Rubber Company 277 NLRB No. 148

(E ordered to move transferred work back to original location, notwithstanding Ees at new location had won R election, since whether or not Ees at new plant are organized or unorganized is irrelevant to any remedy to which Ees at original location are entitled)

Lycee Francais de New York 273 NLRB No. 191

(Bd found improper inclusion of certain Ees (exchange visitors) who are on leave from French Ministry of Education (Ministry) to teach at E for up to 3 years because they did not enjoy community of interest with locally hired Ees as they must comply with French rules of their profession, can be discharged only with permission of Ministry, are evaluated by Ministry, continue their French pension and health care plans, work same hours as in France and no taxes paid first 2 years)

ICI Americas, Inc. JD-328-85

(bargaining for change in scope of unit is *nonmandatory* subject of bargaining; and insistence to bargaining impasse on modification in scope of bargaining unit, whether established by Bd certification or by voluntary recognition, violative)

ICI Americas, Inc. JD-328-85

(E's advising U during negotiations that E controlled matter of split in certified unit, when in actuality split was army decision who had contracted work out to E, violative, since E's advice was conscious course of action intending to deceive U; such conduct (of E) was deceptive bargaining with tendency to inhibit process of collective bargaining)

Landmark Industries, Inc. JD-(SF)-109-85

(unit covered in expired collective bargaining agreement is presumed appropriate)

N.L.R.B. v. Paper Manufacturers Company, et al. 786 F.2d 163 (C.A. 3, Mar. 1986)

[move of medical packaging division to same facility where regular packaging products manufactured w/i certification year not such changed circumstances that would justify E's refusal to bargain with U certified as representative of medical packaging Ees prior to move, where only upper echelons of management consolidated, almost all job descriptions remained intact, working conditions, skills, and functions, with exception of two maintenance Ees, separate and distinct, no interchange of Ees; contention relocated Ees accretion to Ees in other division at same facility and represented by another U, rejected]

N.L.R.B. v. Engineers Constructors, Inc. 756 F.2d 464 (C.A. 6, Mar. 1985)

(E's defense to bargaining order that contracting unit and change in nature of work performed by laborers had made election inappropriate, rejected, since decline of Ees in laborer classification would be gradual, and change in work from primarily construction work with some clean-up duties to primarily clean-up work was not significant since basic nature of work did not change; further, with eight months of work anticipated before project's completion, decision to hold election was reasonable and not contrary to Bd precedent)

N.L.R.B. v. Affiliated Midwest Hospital, Inc., d/b/a Riveredge Hospital **789 F.2d 524 (C.A. 7, Apr. 1986)**

[decertification election which resulted in vote against decertification not set aside and bargaining order issued since E's refusal to bargain not justified by U's misrepresentation that NLRB had issued complaint against E, by omission of Ees from Norris-Thermador list and refusal to allow Ees omitted to vote, erroneous statement of units in decertification election notices and Bd certification and bargaining orders]

N.L.R.B. v. L & B Cooling, Inc. **757 F.2d 236 (C.A. 10, Mar. 1985)**

(Bd's conclusion that *extras* hired by E engaged in lettuce cooling business in prior growing season were not included in bargaining unit, is supported by substantial evidence in record even if E shows that another unit might be more appropriate)

8081-6900 Union merger or affiliation

Canterbury Villa of Waterford, Inc. **282 NLRB No. 072**

[on withdrawal of case from CA, E's refusal to bargain, unlawful, notwithstanding nonmembers' inability to vote on U's change in affiliation, since affiliation is internal U matter with which Bd is precluded from interfering; moreover, there was *substantial continuity* between pre-and-post disaffiliation U, and due process was safeguarded by U members' voting on, and district ct's approval of settlement agreement providing for, change in affiliation]

American National Insurance Company **281 NLRB No. 105**

[E's refusal to recognize and bargain with newly merged U violative, notwithstanding U's disenfranchisement of 2400 nonmember Ees in 3000 Ee unit in affiliation election, since S.Ct in *N.L.R.B. v. Financial Institution Employees*, 106 S.Ct 1007 (1985) held that Act does not require that nonmembers be permitted to vote in U affiliation elections, there was continuity of identity between original U and postmerger bargaining representative and original U provided U members fair and meaningful opportunity to become informed about proposed merger and to cast informed vote]

Eastern Connecticut Health Services, Inc. d/b/a New London Convalescent Home **281 NLRB No. 120**

[E's refusal to bargain with certified local, whose parent organization had disaffiliated with another U and then affiliated directly with AFL-CIO, violative, where there was substantial continuity in operations of certified local, as prescribed in *Seattle-First National Bank* 106 S.Ct 1007, (1986), notwithstanding E's contention that disaffiliation caused disruption of existing intra-U relationship and financial instability in parent organization]

Hydrotherm, Inc. **280 NLRB No. 167**

[refusing to bargain with local U that was certified under unamended premerger title, violation, notwithstanding that U merged with another local prior to election that resulted in change of name to one different from that of certified U, where U retained same character and relationship to Ees, had same international constitution, bylaws, officers, stewards, grievance procedure, methods of servincing contracts, assessing dues, making fund payments, place of business, and way of conducting affairs]

Arizona Pork Products, Inc. **279 NLRB No. 167**

[E's rejecting U's request for recognition and bargaining violation, notwithstanding allegedly inadequate assurance of ballot secrecy in U predecessor's merger election involving U's properly becoming successor to benefits of certification]

Ventura County Star-Free Press **279 NLRB No. 064**

[E estopped from challenging and found to have waived right to challenge U's affiliation with international U on basis that it failed to meet due process requirements where E's spokesman demanded, received, and accepted U's proof of its status as Ees' bargaining representative before commencing negotiations and negotiated with it thereafter]

Insulfab Plastics, Inc., New England Division **274 NLRB No. 126**

(violation where E refused to bargain on ground of allegedly improper affiliation with international U of independent U with which E had bargained for many years; E's contention that two part-time Ees should have been allowed to vote as to affiliation rejected, where they were ineligible, having never been members of unit)

The Cincinnati Enquirer, Inc. **JD-171-85**

(merger of local Us valid and U resulting from merger held successor since adequate notice given of meetings at which merger votes were to take place, voting was by secret ballot in each local, and there was sufficient continuity of representation for premerger Ees since merger did not result in complete loss of identity of pre-merger groups inasmuch as each local U continued to negotiate separate bargaining agreements and each local's officers would continue to serve on joint governing board)

Truck Drivers Local Union No. 807, Teamsters v. N.L.R.B. (Wells Fargo Armored Service Corp.) **755 F.2d 5 (C.A. 2, Feb. 1985)**

(where local U representing only E's guards and other guards in armored car industry was merged into local U representing guards and nonguards, and E voluntarily recognized latter U, E's withdrawing recognition after contract had expired and U had rejected E's final offer, not violative; Sec. 9(b)(3) language and legislative history provide sufficient support for Bd's conclusion that Congress knowingly decreased stability of bargaining relationships involving such Us to protect guards from potential for division of loyalty between E and fellow U members)

United Retail Workers Union Local 881 v. N.L.R.B. (May Department Stores Company, Venture Stores Division) **774 F.2d 752 (C.A. 7, Oct. 1985)**

[in holding that Bd's conclusion that merger election is not solely internal U affair was rational, consistent with Act, and not arbitrary, ct sustained Bd's determination that all unit members must vote before it will sanction results of merger election]

United Retail Workers Union Local 881 v. N.L.R.B. (May Department Stores Company, Venture Stores Division) **774 F.2d 752 (C.A. 7, Oct. 1985)**

[in finding that Bd properly found *members only* merger election invalid, ct held Bd correctly justified its refusal to apply outcome determinative limitation on ground that effects of exclusion cannot be measured by mere numerical tally since group exclusions from election can have effects greater than mere number of excluded voters]

United Retail Workers Union Local 881 v. N.L.R.B. (May Department Stores Company, Venture Stores Division) **774 F.2d 752 (C.A. 7, Oct. 1985)**

[*members only* merger election held invalid, notwithstanding fact that decision to void election would leave Ees w/o representation, at least temporarily, since U was at fault for not letting non-U Ees vote; because non-U Ees did not vote, no recognizable majority of unit Ees had agreed to vote by U and therefore U cannot invoke Bd processes to force E to bargain with it]

8081-8100 Validity of authorization cards

Midwestern Mining & Reclamation, Inc., A Subsidiary of Midwestern Fuels Systems, Inc., etc. **277 NLRB No. 001**

(Ee's asserted revocation of validly signed U authorization card held ineffective, where E engaged in widespread and pervasive unlawful acts in effort to destroy Ees' support for U, which was well under way when Ee attempted to revoke card; under such circumstances, Bd presumes that Ee revocations of authorization cards are direct result of E's unlawful conduct)

Midwestern Mining & Reclamation, Inc., A Subsidiary of Midwestern Fuels Systems, Inc., etc. **277 NLRB No. 001**

(U authorization cards assertedly signed because of representation that only purpose for which cards would be used was to secure election held valid, where before signing Ees read card themselves or had card read to them by solicitors who told them U wanted to represent Ees, and solicitors made no statements to Ees to disregard langauge on card; nor did solicitors make any representation that only purpose for which cards would be used was to secure election)

1115, Nursing Home and Hospital Employees Union, A Division of 1115 Joint Board **275 NLRB No. 045**

(E does not violate Section 8(a)(5) of Act by refusing to recognize U which bases its majority on *tainted* cards)

8081-9000 Recognition coerced by supervisory pressure

N.L.R.B. v. Island Film Processing Co., Inc., d/b/a Kahala Kai Photo Service **784 F.2d 1446 (C.A. 9, Mar. 1986)**

[refusal to bargain with certified U, not violation, since supervisory conduct tainted election where supervisors, who had ability to effectively recommend pay increases, reprimand Ees, and grant overtime, sowed seeds of reprisal by their constant vocal support of U among small group of Ees and assured them of benefits if U won and unfavorable conduct if it lost]

8082 ELIMINATION OF UNIT OR JOB CLASSIFICATION FROM UNIT

Syncor International Corporation **282 NLRB No. 063**

[scope of established bargaining unit is *non-mandatory*. However, party may lawfully propose change in scope of unit and parties may in certain circumstances agree to change or change can be accomplished by Bd proceedings, but never by unilateral action by party]

The Seven-Up/Canada Dry Bottling Company of Pittsburgh, A Division of Beverage Management, Inc. **281 NLRB No. 128**

[E's refusal to recognize U as representative of driver-salesmen, repudiation of contract and unilateral changes, following operational change in which E had eliminated job category's duties into new driver-salesman category, unlawful, notwithstanding E contention that creation of new category created qcr, where change was not technological and required no major hiring, job was similar to former category, no other U claimed to represent the E's

8082—Cont.

and Ees from old category substantially outnumbered additional driver-salesmen, who are viewed as accretion to old unit]

H & H Pretzel Company 277 NLRB No. 143
(withdrawal of recognition after contract expired, violation, since presumption of continued majority status was not rebutted by E's contention that its change to distributor dealerships converted Ees to independent contractors in view of E's retention of right of control and fact that nine out of twelve Ees were new hires which did not establish loss of majority support, as turnover alone cannot do so)

Donnie M. Parris, A Sole Proprietorship d/b/a D & B Masonry 275 NLRB No. 193
(E's cancellation of the contract, withdrawal of recognition and unilateral change in terms of employment not violative where there was only one regular unit Ee, and other Ees were casual Ees w/o expectation of recall from layoff w/i reasonable time and thus lacking community of interest with regular Ee)

Abbott-Northwestern Hospital 274 NLRB No. 162
(withdrawing recognition as to, and unilaterally changing working conditions of, 9 represented psychiatric assistants after transfer to same facility of 63 historically unrepresented psychiatric assistants, not violative, since consolidation obliterated unit of 9 represented Ees and unit of only part of group of Ees in same classification was inappropriate; unrepresented Ees were not accreted to former unit of represented Ees, parties had agreed that U would not represent previously unrepresented Ees, and U had reserved its representative position only as to previously represented Ees and complaint alleged violations only as to them)

8083 LACK OR LOSS OF STANDING OF REPRESENTATIVE

Nazareth Literary & Benevolent Institute, Inc., d/b/a Saints Mary and Elizabeth Hospital 282 NLRB No. 010
[E's refusal to bargain with U in which E's letter purported not to withdraw recognition unconditionally, but only to suspend negotiations *pending a final determination as to whether or not your labor organization represents a majority of nurses at our hospital* not untimely refusal, since, notwithstanding E's letter was over 6-months before any ULP charge as a refusal to bargain which is contingent on other occurrences does not start statute of limitations running]

Southern Lumber Company, Inc. 279 NLRB No. 027
[E's argument that U failed to police its certification because it did not file ULP charge until seven months after initial refusal to bargain, rejected since acceptance of E's reasoning would require certified U to file charge every time it believed ULP had been committed in order to assist risk of losing its certification]

IMS Manufacturing Company, Inc. 278 NLRB No. 079
[successor E's refusal to bargain with U on grounds that bargaining demand was made by International U when local U was certified as bargaining representative in prior decertification election held at predecessor E, violative, since there was no indication E was misled, E did not seek clarification of demand from U or Bd and U in any event amended charge to allege E refused to bargain with both the International and local U]

Louis Pappas' Homosassa Springs Restaurant, Inc. 275 NLRB No. 213
(unit size based upon member of Ees employed for greater part of year, *not* during peak season when (employment) roles are inflated)

8085 STATE CERTIFICATION

William Okie, Jr., et al. d/b/a Standby One Associates Center for Housing Partnerships 274 NLRB No. 140
(E's failure to recognize and bargain with U on ground E had no legal duty to do so because certification issued to U following state bd conducted election was invalid, unlawful, where Bd granted comity to state bd election procedures which reflected true desires of Ees, election irregularities were not involved, and there was no substantial deviation from due process requirements)

8090 CHANGE IN EMPLOYER'S OPERATIONS

8090-0100 Generally

8090-0133 Required by action of third party

ICI Americas, Inc. JD-328-85
(circumstances, such as U.S. Army's action in splitting bargaining unit in instant case, occurring after (Bd) certification may affect appropriateness of unit and negate long history of collective bargaining)

ICI Americas, Inc. JD-328-85
(E's powerlessness to affect Army's determination to cause split in unit (fire fighters *and* guards rather than single unit of combined firefighter-security department Ees) permits Bd to reexamine its existing prior certification (since 1964) and conclude that *essential factors* upon which Bd based its combined unit determination were eliminated due to Army's lawful action)

8090-0167 Pressing economic necessity

ABS Industries, Inc. 275 NLRB No. 145
[unilateral decision to close plant and relocate remaining work, not violation, as there was no duty to bargain where decision was nonmandatory bargaining subject in view of fact it turned, not on reduction of labor costs but on restructuring of company due to heavy losses and requirements of lenders]

American Bank Note Company 281 NLRB No. 099
[decline in business, even to point where volume of business is 1/4 of its previous level does not constitute unusual circumstances which would relieve E of consequences of its failure to give timely notice (of withdrawal from multiE bargaining)]

The Nielsen Lithographing Co. 279 NLRB No. 118
[E telling U that jobs would be lost and that E would go out of business unless economic concessions were made (by U) triggers duty to disclose financial information because by its words and conduct E conveyed to U an inability to pay w/i meaning of *Atlanta Hilton & Tower* 271 NLRB 1600 (1984) and not just mere unwillingness to continue to pay cost of its collective bargaining agreement]

Indianhead Truck Line, Inc. JD-271-85
(E's failure to notify Us of its decision to terminate its freight operations until after implementation of decision, thus denying Us opportunity to bargain over effects of its decision, unlawful; E's contention its failure to give timely notice was justified by fear of theft and its financial situation, rejected)

N.L.R.B. v. Auto Fast Freight, Inc. 793 F.2d 1126 (C.A. 9, July 1986)
[E's poor financial condition no defense where Bd could reasonably conclude from evidence that E's financial difficulties did not suddenly rise to level of urgency justifying unilateral changes]

8090-1000 Closing of plant

ABS Industries, Inc. 275 NLRB No. 145
[unilateral decision to close plant and relocate remaining work, not violation, as there was no duty to bargain where decision was nonmandatory bargaining subject in view of fact it turned, not on reduction of labor costs but on restructuring of company due to heavy losses and requirements of lenders]

Hawthorn Mellody, Inc. 275 NLRB No. 055
(E had no duty to bargain with U over its decision to close plant and transfer production to plant 90 miles away as decision turned upon change in nature or operation of business percipitated by loss of contract with major customer who provided 50-70% of business. Labor costs was one motivating factor, but decision did not *turn upon* it)

8090-2500 Merger

Rosehill Cemetery Association 281 NLRB No. 066
[in summary judgment proceeding, Bd rejected E's defense that unit was inappropriate because E anticipated merger changing its operations and increasing its work force size significantly; although merger was long contemplated by E (9 years), and E claimed recent events made merger likely, E did not assert affirmatively that merger had occurred and therefore claimed merger was too speculative a basis upon which E could refuse to bargain]

8090-4000 Transfer of operations to another location

Central Soya Company, Inc. 281 NLRB No. 173
[E's consolidation/relocation of facilities to a different part of town, withdrawal of recognition from U at new location once Ees at old locations had been transferred to new location and refusal to bargain with U over effects of decision to consolidate/relocate, violative, where there was no substantial change in operations following the consolidation/relocation and once Ees were transferred to new location with other unrepresented Ees, those transferred constituted a majority of Ees who still desired U representation]

St. John's General Hospital of Allegheny County—ADR Center 281 NLRB No. 157
[E's unilateral change from permanent assignment of nurses aides and unit secretaries to certain wing of facility to rotating assignments from one wing to another during strike at E's alcohol and drug treatment center, and continuing policy after strike, violative of Section 8(a)(5), since E obligated to bargain about this substantial and material change]

Molded Acoustical Products, Inc. 280 NLRB No. 163
[E's refusal to recognize and bargain with U during certification year relocated operations on ground unit was limited to old operations, violative where new plant was continuation of same operation]

Drummond Coal Company, Inc. 277 NLRB No. 177
[E's transfer of repair work caused primarily by fundamental change in nature and direction of E's operations and not costs from city to onsite location at mine and closing city repair shop w/o notice to or bargaining with U over decision and its effects, not violative]

8090-4000—Cont.

Oak Rubber Company **277 NLRB No. 148**
(E's refusal to bargain over decision to relocation part of its operations and the effects of that decision, violative, where just at time U was offering concessions in an attempt to meet E's expressed financial needs over labor costs, E closed the door to further negotiations before impasse by announcing that it had finalized plans to relocate; further, E is under obligation to do more than present U with list of predetermined effects of relocation and ask U for comments)

Mack Trucks, Inc. **277 NLRB No. 084**
(E's decision to *transfer and consolidate work* being performed at truck assembly facility to another facility *not mandatory* bargaining subject, since E's decision did not turn on bargaining unit labor costs, but on serious losses for year 1980 and projected future losses because of E's excess productive capacity which led E to believe E had over invested in capital assets and such transfer to larger and more modern facility would cut freight and overhead costs)

Suburban Transit Corp. and Suburban Trails, Inc. **276 NLRB No. 005**
(no violation when E relocated unit work (single E) and thereby brought unit Ees under different bargaining agreement which was less favorable to these Ees, since contract covering original workstation did not contain any provisions preventing E from making such relocation w/o first obtaining consent of U and E bargained in good faith over decision to relocate)

American Fluorescent Corp. **275 NLRB No. 154**
(withdrawal of recognition of U as exclusive Ee bargaining agent, not violative where there is no evidence that E took any action to inhibit transfer of former bargaining unit members, and no evidence to refute evidence of proferred assistance by E. E terminated its operations in one city and resumed operations in another 35 miles north of first city in another county where U did not represent majority of E's work force)

Paper Manufacturers Company **274 NLRB No. 070**
(E's refusal to bargain with U upon its transfer of Ees to new location during certification year, on grounds that transfer involved acquisition of new equipment and an increase in Ee complement, thus constituting *unusual circumstances* warranting its refusal to bargain, violative, where there was no hiatus when Ees were transferred, Ees received same wages, benefits and performed same jobs before and after transfer and transferred Ees remained an identifiable entity separate from Ees at new location; further, fact that transferred unit increased in size was inconsequential since addition of new Ees occurred gradually over a period of 11 months)

Jaydon, Inc. **273 NLRB No. 199**
(transfer of unit work to new location allegedly contrary to terms of existing contract and w/o U's prior consent in order to avoid paying contract wage rates and in retaliation for U's refusal to make or accept mid-term contract modifications, not unlawful, in view of rule, established by *Milwaukee II* and retroactively applied therein, that relocations such as that herein are not unlawful in absence of contract language expressly forbidding such moves)

Patrick Cadillac Company; Hanley Dawson BMW, d/b/a Patrick BMW SAAB; et al. **JD-156-86**
[E's refusal to bargain with U and apply extant contract to relocated bodyshop operations, not violative, since new bodyshop did not have substantially same equipment or utilize substantially same operations where new bodyshop was five times the size of old bodyshop and performed work old bodyshop was incapable of handling and new operation employed many more Ees]

Patrick Cadillac Company; Hanley Dawson BMW, d/b/a Patrick BMW SAAB; et al. **JD-156-86**
[existing agreement remains in effect following relocation providing operations and equipment remain substantially same at new location and substantial percentage (approximately 40% or more) of Ees at old plant have transferred to new location by time relocation substantially completed]

Phillip A. Hunt Corporation **JD-14-86**
[E's decision to relocate certain work performed by unit Ees at plant represented by U to new non-U plant, excluded from limited scope of 8(d) where decision to relocate was not based upon labor costs but instead was based upon change in direction and nature of its business]

8090-4100 Transfer of work outside of unit

Morco Industries, Inc. And All Southern Fabricators, A division of Morco Industries, Inc. **279 NLRB No. 100**
[E's transferring work from one plant to another w/o bargaining with U about transfer, not violative where decision turned entirely on need to expand E's metal fabrication facilities, which involved change in nature and scope of facet of enterprise; E did not seek to undermine status of U or escape labor costs embodied in contract]

ICI Americas, Inc. **JD-328-85**
(E not free to alter composition of bargaining unit under guise of transfer of unit work after impasse on transfer of unit work to Ees outside unit, a mandatory subject of bargaining on which impasse is allowed)

ICI Americas, Inc. **JD-328-85**
]*transfer of unit work*, lawful)

8090-5000 Administrative action eliminating employee category

H & H Pretzel Company **277 NLRB No. 143**
(withdrawal of recognition after contract expired, violation, since presumption of continued majority status was not rebutted by E's contention that its change to distributor dealerships converted Ees to independent contractors in view of E's retention of right of control and fact that nine out of twelve Ees were new hires which did not establish loss of majority support, as turnover alone cannot do so)

8090-5500 Change in administrative structure

Sonat Marine, Inc. **279 NLRB No. 016**
[E's refusal to provide U with information concerning its conclusion that certain Ees in bargaining unit were supervisory and E was refusing to bargain over those Ees, violative, where U had represented contested Ees for years and had formally requested E's factual basis for its conclusion; further, nowhere does the Act require that the U must accept w/o any verification an E's claim that bargaining unit Ees are now out of the bargaining unit]

H & H Pretzel Company **277 NLRB No. 143**
(withdrawal of recognition after contract expired, violation, since presumption of continued majority status was not rebutted by E's contention that its change to distributor dealerships converted Ees to independent contractors in view of E's retention of right of control and fact that nine out of twelve Ees were new hires which did not establish loss of majority support, as turnover alone cannot do so)

8090-6000 Subcontracting

Gar Wood-Detroit Truck Equipment, Inc. **274 NLRB No. 023**
(as stated in *Otis Elevator* 269 NLRB No. 162, critical factor in determining whether specific management decision is subject to mandatory bargaining is essence of decision itself, i.e. whether it turns upon change in nature or direction of business or turns on labor costs; not its effect on Ees nor U's ability to offer alternatives. Further, in *Otis Elevator* Bd specifically stated that *Fibreboard* subcontracting is subject to mandatory bargaining not because decision is labeled *subcontracting* but because decision turns on reduction of labor costs)

8090-6900 Increase or decrease in number of business locations

Mangold Markets, Inc. **280 NLRB No. 090**
[refusal to bargain as successor E, on grounds store it took over was reopened as single store as opposed to multistore chain and Ees of predecessor were not employed at store E took over, violative, where store remained a retail store, Ees performed identical work, E did not show that change in store's operation changed Ees' working conditions and, although Ees were not employed at store E took over, did work for predecessor whose operation was highly integrated with substantial interchange between stores, thus Ees could be assumed to still desire U representation]

8090-8500 Change in industry

Louis Pappas' Homosassa Springs Restaurant, Inc. **275 NLRB No. 213**
(E held successor notwithstanding major thrust of operations changed from hotel, attraction park, and bait store with restaurant only incidental to total operations under previous E, to restaurant under new E since successorship obligations are not defeated by mere fact that only portion of former U-represented operation is subject to sale or transfer to new owners so long as Ees in conveyed portion constitute separate appropriate unit, and they comprise majority of unit under new operation)

8090-9000 Reopening after shutdown

Inland Container Corporation **275 NLRB No. 60**
(E held successor notwithstanding 2 1/2 month hiatus between closing of predecessor and commencement of successor E's operations, where hiatus may have been necessary at least inpart because of E's discriminatory hiring policies and plant renovations; however, renovations E made were insufficient to negotiate *substantial continuity* of employing enterprise as new machinery was introduced and work done did not alter machinery's fundamental character but was in nature of long overdue repairs)

8095 EFFECT OF OTHER STATUTES

United States Postal Service **281 NLRB No. 032**
[bypassing U and dealing directly with Ee by unilaterally adjusting Ee's grievance concerning proposed dismissal of Ee, unlawful, where at time E resolved grievance, while ignoring Ee's request to be accompanied by U representative, E knew that Ee's grievance was pending and that Ee wanted U agent to be present; and Veterans' Preference Act, permitting what would be ULP under Act by giving Ee right to meet with E for discussing problem before being dismissed, did not prevail over Ee's rights under Act]

U.S. Postal Service **280 NLRB No. 080**
[*Privacy Act* constitutes *a defense* to request for information under Section 8(a)(5) and (1) of Act *unless* disclosure of (requested) record would be for *routine use*]

8095—Cont.

U.S. Postal Service **280 NLRB No. 080**
[information in E's records (in instant case) may be disclosed under NLRA, to U as a *routine use* exception to Privacy Act in view of E's own acknowledged, published *routine use* exception under Privacy Act and its (E's) specific warning to applicants]

Lockheed Shipbuilding and Construction Company **278 NLRB No. 006**
[discharge of Ees pursuant to policy of testing Ees for medical fitness for particular job assignments, assertedly because OSHA required such medical tests, violative, where Bd had rejected this defense in previous ULP case involving same parties and E had expressly agreed by contract that such testing would not adversely affect Ees' employment]

BASF Wyandotte Corporation **276 NLRB No. 175**
(it is appropriate for Bd to consider arguments concerning Section 302 of LMRA to extent they support, or raise possible defense to, ULP allegations)

BASF Wyandotte Corporation **276 NLRB No. 175**
(Bd rejected E's argument that paid release time violates Section 302 of LMRA where factually similar case held that paid release time granted by E to U officials or committeemen administering contract did not violate Section 302, as it came w/i exception for payments made *by reason of* one's services as Ee)

BASF Wyandotte Corporation **274 NLRB No. 147**
(ALJ properly considered whether E's grant of privileges to U was violative of Section 302 of LMRA, which generally makes it illegal for E to pay money or other things to U or U officer, notwithstanding Bd has no authority to enforce Section 302; Bd is not precluded, in course of determining whether ULP has occurred, from considering arguments, to extent they support, or raise possible defense to ULP allegations, since if Bd refused to consider such arguments, Bd would risk placing party in position of being required to comply with conflicting statutory mandates)

BASF Wyandotte Corporation **274 NLRB No. 147**
(E's grant of privileges to U chairman which included 4 hours of paid time each workday for conducting U business including processing of grievances, use of office, telephone and copying machine, not violative of Section 302 of LMRA, thus not illegal subject of bargaining justifying unilateral withdrawal of privileges since w/i exception set forth in Section 302 (c)(1) in that privileges were granted by reason of chairman's service as Ee of E, nor did such grant of privileges amount to bribery of Ees' representatives at which Section 302 was aimed)

Indianhead Truck Line, Inc. **JD-271-85**
(E unlawfully refused to bargain over effects of closure of its freight operations where U's secretary-treasurer stated to E *we have to sit down and work out a closing agreement,* and E replied that agreement *had to be worked out by bankruptcy ct,* since E is not relieved of its obligation to bargain over effects of its decision because it has become debtor-in-possession under Bankruptcy Act and believes it would be unable to meet U's financial demands; E's subsequent invitation to U to bargain did not bar finding of violation and ordering remedy for prior violation)

Ambassador Convalescent Center, Inc. Debtor-In-Possession In Bankruptcy **JD-319-85**
(refusing to grant wage increase as required by executed agreement, violative, notwithstanding E's argument that agreement was void because E, debtor-in-possession, did not seek or obtain approval of bankruptcy ct where ct was not required to approve agreement)

536 UNION COERCION OF EMPLOYEES (8(b)(1)(A))

0100 GENERALLY

Nation's Capital Area Local, American Postal Workers (United States Postal Service) — 278 NLRB No. 110

[C dismissed where GC failed to establish that Ee's protected activity of filing charge with Bd was motivating, under *Wright Line*, factor in U's decision to remove Ee from steward's position]

0150 SCOPE OF PROSCRIPTION

0150-7500 Conduct reasonably calculated to coerce

Pattern Makers' League of North America, AFL-CIO v. N.L.R.B. — ———U.S.——— (U.S. SCT, June 1985)

[fining members who have attempted to resign at time such resignations prohibited under U's constitution, violative, as this is restraint on Sec. 7 rights to refrain from engaging in concerted activities and inconsistent with congressional policy of voluntary unionism. *retention of membership* set forth in provison relates to expulsion from membership and not resignation]

Glaziers, Architectural Metal and Glass Workers Local Union No. 558 a/w Painters (Bruce Raney, an Individual) — 279 NLRB No. 023

[conversation between member of U's executive board and 2 other Ees, overheard by Ee, who unsuccessfully sought clearance into local U, in which executive board member stated U had run Ee out of town because he had caused NLRB hearing which gave U some difficulty, and further suggested violent action against girlfriend of Ee who caused U trouble, unlawful. Immaterial whether statements directed at Ee, since statements, implication of which was that U would resort to reprisals if one seeks Bd's assistance, were made in obvious presence of Ee]

Glaziers, Architectural Metal and Glass Workers Local Union No. 558 a/w Painters (Bruce Raney, an Individual) — 279 NLRB No. 023

[member of U's executive board advising Ee that Ee would cause himself a lot of trouble and get hurt if he did not forget about attempting to get clearance into local U, unlawful, since was more than friendly advice, reasonably conveyed impression that E would retaliate, and constituted threat of unspecified injury]

Teamsters Cannery Local No. 670 a/w Teamsters (Stayton Canning Company Cooperative) — 275 NLRB No. 127

(U's refusal to allow financial core members to use services of dental and eye clinics and pharmacy (agents of U), violative, notwithstanding these benefits outside bargaining agreements as it has forseeable effect of coercing these financial core members from exercising their statutory right to refrain from joining U and remain core member. Defense that U's conduct priviledged under 8(b)(1)(A) proviso, rejected as against national policy to promote peaceful settlement of disputes where as part of strike settlement agreement U agreed it would not discriminate against core members)

Building Material and Dump Truck Drivers, Local 420, Teamsters (Gregg Industries) — 274 NLRB No. 085

(U's offers to waive or lower initiation fees for Ee's who joined prior to election, violative of Sec. 8(b)(1)(A), since clear from legislative history Sec. 8(b)(1)(A) was intended to proscribe U solicitation of membership with threats of exacting higher fees later when maintenance of membership may be condition of employment, and Bd also relied on *Savair Mfg. Co.*, 414 U.S. 270, in concluding that conduct had reasonable tendency to coerce Ees who desired to refrain from joining or assisting U at time when they were w/i their Sec. 7 rights to do so and thus was w/i proscription of 8(b)(1)(A))

N.L.R.B. v. Construction and General Laborers' Union Local No. 534, Laborers — 778 F.2d 284 (C.A. 6, Dec. 1985)

[although Sec. 8(b)(1)(A) was modelled after Sec. 8(a)(1), its legislative history shows prohibition of interference with Ees' Sec. 7 rights was deleted lest any conversation or persuasion urging Ees to join U be found a ULP and has been interpreted by S.Ct to reach such *reprehensible* practices as violence, intimidation, reprisals and threats thereof, rather than *methods of peaceful persuasion*, and distinction between coercion and persuasion is explicitly legislated in Sec. 8(c)]

N.L.R.B. v. Local 139, Operating Engineers — 796 F.2d 985 (C.A. 7, July 1986)

[although U's imposition of fines on Ee members for their dissident activities against U officials *restrains* members' exercise of their Sec. 7 rights, terms *restrain or coerce* in 8(b)(1)(A) are not interpreted so literally as to make it an ULP for U to enforce compliance with U rules and policies, since 8(b)(1)(A) was not intended to give Bd power to regulate internal U affairs, including disciplinary charges and fines against members]

0169 DISCIPLINE INCONSISTENT WITH AMNESTY OR SETTLEMENT AGREEMENT

Sheet Metal Workers, Local 208 (Paul Mueller Company) — 278 NLRB No. 087

[U charging and fining members who had crossed picket line, including one member who had not resigned from U prior to crossing picket line, unlawful, since by signing no-retaliation clause in strike settlement agreement U waived any right to discipline member for strike related activity; U's contention agreement signed under duress rejected, and parol evidence regarding U's contention no retaliation provision signed with understanding it was not applicable to internal U affairs, since provision clear and integrated into agreement]

Teamsters Cannery Local No. 670 a/w Teamsters (Stayton Canning Company Cooperative) — 275 NLRB No. 127

(U's refusal to allow financial core members to use services of dental and eye clinics and pharmacy (agents of U), violative, notwithstanding these benefits outside bargaining agreements as it has forseeable effect of coercing these financial core members from exercising their statutory right to refrain from joining U and remain core member. Defense that U's conduct priviledged under 8(b)(1)(A) proviso, rejected as against national policy to promote peaceful settlement of disputes where as part of strike settlement agreement U agreed it would not discriminate against core members)

Teamsters Cannery Local No. 670 a/w Teamsters (Stayton Canning Company Cooperative) — 275 NLRB No. 127

(U unilaterally eliminating financial core members (members who resigned during strike but continue paying dues) access to eye and dental clinics and pharmacy (agents of U), violative, as these are mandatory subjects of bargaining notwithstanding these benefits outside bargaining agreements since strike settlement agreement provided that there would be no discrimination against any Ee because of their actions with respect to financial core status and use of these facilities involve significant aspect of employment relationship between Ees and E, namely, Ees' decision to work or not during strike

Teamsters Cannery Local No. 670 a/w Teamsters (Stayton Canning Company Cooperative) — 275 NLRB No. 127

(U's denial of financial core members' access to its pharmacy and eye and dental clinics in contravention of its strike settlement agreement, violative, even in absence of evidence that U was using dues of financial core members to finance its operation of these facilities)

1200 UNION INTERFERENCE WITH EMPLOYEE REFRAINING FROM ENGAGING IN UNION ACTIVITY

N.L.R.B. v. Local 299, Teamsters — 782 F.2d 46 (C.A. 6, Jan. 1986)

[U representatives initiating work stoppage that was illegal under contract though participants not told one way or other of its illegality, nor did U authorize stoppage did not restrain or coerce Ees in exercise of their Sec. 7 rights, as U could not punish Ees for refusal to commit illegal act (joining in work stoppage), so no coercion; further, as U did not threaten or intimidate members to secure their participation, members were free to not participate in action instigated by U]

N.L.R.B. v. Local 1131, Local 1161, Auto Workers 777 F.2d 1131 (C.A. 6, Dec. 1985)

[U's contention that its filing of a grievance cannot be basis for ULP charge, rejected, since Bd is fully empowered to enjoin pursuit of a grievance where its object is enforcement of illegal contractual provision such as that he rein granting U officials superseniority solely because of their status]

2501-6500 Isolated conduct

Carpenters Union Local No. 25 v. N.L.R.B. 769 F.2d 574 (C.A. 9, Aug. 1985)

(even single instance of discriminatory treatment will support finding of ULP when hiring hall rules are not followed)

2501-8000 Noncoercive circumstances

Glaziers, Architectural Metal and Glass Workers Local Union No. 558 a/w Painters (Bruce Raney, an Individual) 279 NLRB No. 023

[conversation between member of U's executive board and 2 other Ees, overheard by Ee, who unsuccessfully sought clearance into local U, in which executive board member stated U had run Ee out of town because he had caused NLRB hearing which gave U some difficulty, and further suggested violent action against girlfriend of Ee who caused U trouble, unlawful. Immaterial whether statements directed at Ee, since statements, implication of which was that U would resort to reprisals if one seeks Bd's assistance, were made in obvious presence of Ee]

District 30, Mine Workers and Local 1834 (TCH Coal Company) 278 NLRB No. 045

[local U's and District U's endorsement of protest activities of its President and other officers while local U picketed secondary E for not hiring former Ees of primary E, held violative, since any force *that back to work* directives (instructions to U members at U meeting) did carry was belied by local U's officials failure to return to work themselves after issuing such directives and refused to cross U picket lines. U, like an E, acts through its agents, Local U's officers are *admitted agents of U and their conduct, therefore, evidence Local's endorsement of protest activities*]

Sausage Makers' Union, Local 203, Food & Commerical Workers (Western Employer Associates) JD-(SF)-47-86

[U is free to inform Ees of consequences of resigning, or of continuing to remain resigned, on their ability to receive internal U benefits]

Telephone Commercial Employees Union, Local 643, Telecommunications International Union (Illinois Bell Telephone Company) JD-463-84

(U fining individuals for crossing picket line, unlawful, since individuals had resigned from U prior to cossing line, where U steward, agent of U, who knew individuals had resigned prior to crossing picket line, circulated ptn to bring charges before U's executive Bd. Further, even if U had acted in good faith, members' right to resign and then cross picket line would be endangered if U could impose fines in good faith belief individual had crossed picket line while still member)

N.L.R.B. v. Construction and General Laborers' Union Local No. 534, Laborers 778 F.2d 284 (C.A. 6, Dec. 1985)

[U president's speech to referral applicants stating that filing ULP charges would lead to investigation that might result in members losing unemployment compensation for turning down work, not coercive where it truthfully predicted possible consequential action by independent third party w/o U instigation or of assistance from U and beyond U's control]

Carpenters Union Local No. 25 v. N.L.R.B. 769 F.2d 574 (C.A. 9, Aug. 1985)

Local Lodge No. D192, Cement Workers Division of Boilermakers (Riverside Cement/A Gifford-Hill Company) JD-(SF)-77-86

Boilermakers, Local Lodge No. 60 (Henry Valencia, an Individual) JD-13-85

(U's threat to *traveller* that he would not work out of local's hiring hall unless he withdrew charge filed with Bd demonstrates existence of arbitrary and unlawful referral system. In addition, such threat tends to be coercive of member's exercise of his right to file charges)

Chicago Truck Drivers, Helpers and Warehouse Workers Union (Independent) **279 NLRB No. 122**
[U's efforts to apply terms of collective-bargaining agreements to Ees other than those for which agreements were negotiated by insisting on arbitration of grievances seeking to merge three separate units by dovetailing their seniority rights contrary to parties' longstanding bargaining agreements, violation]

Naftali Deutsch and Alexander Coler d/b/a C–D Investment Co. **279 NLRB No. 090**
[District Council's action, and E's acquiescence, in reinstating two duly appointed stewards and causing discharge of steward appointed by U officer w/o authority to do so and in violation of hiring hall rules, not unlawful where District Council was preserving integrity of contractually prescribed referral practice, and discharge of steward appointed w/o proper authority was necessary to effective performance of its representative function]

Helmsley-Spear, Inc. **275 NLRB No. 043**
(U seeking and obtaining discharge of Ee for failure to pay dues violative, since U's notices to Ee of dues delinquency were inadequate where two notices sent to Ee set forth conflicting periods of dues delinquency and failed to specify precise amount of reinstatement fee required of Ee; further, U's contention Ee was *free-rider* because he failed to read U mail, rejected, since negligence and inattention to U concerns are not equivalent to willful attempt to evade financial obligations and Ee followed pattern of sporadic dues payment, becoming delinquent and then paying in lump sum not only arrears but in advance)

Graphic Arts International Union, Local 280 (Belzer-Shapes Litho Plate Company) **274 NLRB No. 119**
(no violation where U did not cause or attempt to cause E to discharge Ee, as alleged; U official was not hostile to Ee because of Ee's apparent suspension by sister local or his failure as yet to join U pursuant to U security clause, as alleged, but, upon being told by E's officer that E was dissatisfied with Ee's conduct, simply asked what E intended to do, and, when E's officer said that E intended to discharge Ee, U official commented that U therefore would not pursue Ee's membership application)

Paper Manufacturers Company **274 NLRB No. 070**
(U's demanding that E recognize it as majority representative for group of Ees that were transferred to plant violative, where transferred Ees did not constitute accretion to existing unit at plant, U did not enjoy majority support of transferred Ees and they were in fact, represented by another U)

Local 807, Teamsters (Paragon Paint & Varnish Corporation) **JD-(NY)-34-85**

[U did not violate 8(b)(1)(A) by statements, made by rank-and-file members at U meeting, allegedly threatening travelers who were linked to declining jobs in area, since U, not its members, was respondent herein, and there was no basis for finding improper conduct on part of U's agents, since U's officers credibly denied that they stood in unison with rank-and-file members and applauded anti-traveler statements at meeting]

Electrical, Local 1547 (Alaska Chapter, National Electrical Contractors Association, Inc.) **280 NLRB No. 097**
[U officer's statement, made at general U meeting, linking declining jobs in area with teavelers, not unlawful, where officer was expressing only his personal opinion, and traveler-witness conceded in his testimony that officer had made a personal statement and had not intimated that action was contemplated against travelers]

Electrical, Local 1547 (Alaska Chapter, National Electrical Contractors Association, Inc.) **280 NLRB No. 097**
[U held not to have violated 8(b)(1)(A) where at general U meeting U's officers had little choice but to permit rank-and-file member, who also directed his remarks to U officers, the same opportunity to *sound off* as other rank-and-file members concerning problem of travelers in face of declining number of jobs in area; and there was no evidence that U invited those remarks, encouraged them, or endorsed spreading fear among travelers]

Glaziers, Architectural Metal and Glass Workers Local Union No. 558 a/w Painters (Bruce Raney, an Individual) **279 NLRB No. 023**
[conversation between member of U's executive board and 2 other Ees, overheard by Ee, who unsuccessfully sought clearance into local U, in which executive board member stated U had run Ee out of town because he had caused NLRB hearing which gave U some difficulty, and further suggested violent action against girlfriend of Ee who caused U trouble, unlawful. Immaterial whether statements directed at Ee, since statements, implication of which was that U would resort to reprisals if one seeks Bd's assistance, were made in obvious presence of Ee]

Local Lodge No. 707, Machinists (Pratt & Whitney Division of United Technologies Corporation) 276 NLRB No. 105
(local and international U's filing and processing to hearing internal U charges against individuals, assertedly because they had engaged in a variety of conduct unbecoming of a U member and which was destructive of the local, violative, since real reason was their involvement in distributing leaflet which was highly critical of incumbent local's leadership, many of the charges against the individuals were either stale, based upon events condoned by the membership or unsubstantiated and internal trial committee was clearly biased against these members)

Communications Workers, Local 6012 (Southwestern Bell Telephone Co.) 275 NLRB No. 210
(fining Ees for failing to honor picket line and returning to work during strike violative where U had effectively prevented them from tendering resignations from membership)

Teamsters Cannery Local No. 670 a/w Teamsters (Stayton Canning Company Cooperative) 275 NLRB No. 127
(U's refusal to allow financial core members to use services of dental and eye clinics and pharmacy (agents of U), violative, notwithstanding these benefits outside bargaining agreements as it has forseeable effect of coercing these financial core members from exercising their statutory right to refrain from joining U and remain core member. Defense that U's conduct priviledged under 8(b)(1)(A) proviso, rejected as against national policy to promote peaceful settlement of disputes where as part of strike settlement agreement U agreed it would not discriminate against core members)

Penn Yan Express, Inc. 274 NLRB No. 057
(U principal officer's causing E to discharge Ee for supporting losing candidate in U election, violative where U official acted with apparent authority of U in that he could reasonably have been believed to be acting on U's behalf)

Operating Engineers Local 478 (Stone & Webster Engineering Corporation) 274 NLRB No. 081
(U's failure and refusal to refer particular Ee to E, at E's request, because Ee had solicited and encouraged Ees to run for position of business manager of U and attempted to oust present U business manager from office by running, himself for that office held violative, since activities of Ees designed to oust incumbent U leadership and to elect different U officers are concerted activities protected by Section 7 of Act)

Teamsters, Local Union 138 (J. Fabian Trucking Corp.) JD-(NY)-97-86
[no unlawful conditioning by E of Ee's reinstatement upon U's consent or unlawful refusal by U to consent to reinstatement due to Ee's concerted activities]

Teamsters Local Union No. 957 a/w Teamsters (Complete Auto Transit, Inc.) JD-144-86
[U's secretary-treasurer/business representative in reply to Ee member that he had list of all members who had attended meeting with government investigator regarding charges of misuse of U funds by secretary-treasurer/business representative, that members were lying regarding charges against him, that he would sue them for libel, that Ee was not going to be member of U, unlawful]

[U representatives initiating work stoppage that was illegal under contract though participants not told one way or other of its illegality, nor did U authorize stoppage did not restrain or coerce Ees in exercise of their Sec. 7 rights, as U could not punish Ees for refusal to commit illegal act (joining in work stoppage), so no coercion; further, as U did not threaten or intimidate members to secure their participation, members were free to not participate in action instigated by U]

Local 594, Auto Workers v. N.L.R.B. 776 F.2d 1310 (C.A. 6, Nov. 1985)
[local U president's causing E to change two members' starting time, an action which reduced overtime worked, violative, since reason was fact that one of the members had complained to local president concerning change in absentee program where immediately after Ee complained, president requested E to change starting time, president told Ee that didn't complain that he wasn't after him but was after the other Ee and disparate treatment was shown by fact that Ee who hadn't complained, eventually had his starting time changed back]

N.L.R.B. v. Local 139, Operating Engineers 796 F.2d 985 (C.A. 7, July 1986)
[where U referred dissident U member to job which U knew he could not accept because he was scheduled to attend Bd hearing on his ULP charges against U on same day, ct held U's action in reporting to state unemployment agency that member had refused job referral, although made in retaliation for member's dissident U activity and contrary to U's nonreporting policy, was internal U affair beyond scope of 8(b)(1)(A), since report had no impact on member's relationship with an E nor interfered with his existing or prospective employment relations]

[local U's and District U's endorsement of protest activities of its President and other officers while local U picketed secondary E for not hiring former Ees of primary E, held violative, since any force *that back to work* directives (instructions to U members at U meeting) did carry was belied by local U's officials failure to return to work themselves after issuing such directives and refused to cross U picket lines. U, like an E, acts through its agents, Local U's officers are *admitted agents of U and their conduct, therefore, evidence Local's endorsement of protest activities*]

Iron Workers, Local No. 111 (Northern States Steel Builders, Inc.) 274 NLRB No. 110

N.L.R.B. v. General Truckdrivers, Warehousemen and Helpers, et al. 778 F.2d 207 (C.A. 5, Dec. 1985)

[U's operation of exclusive hiring hall violative, notwithstanding U had written procedures to follow for referral, since U did not refer by objective standards where referral was based on business agent's personal knowledge of individual's qualifications and circumstances and there existed a set of unwritten irregular procedures which were w/i unfettered discretion of business agent to use or not]

N.L.R.B. v. Ironworkers Local Union No. 505, a/w Ironworkers 794 F.2d 1474 (C.A. 9, July 1986)

[U's challenge to Bd's jurisdiction to regulate its hiring hall practices absent proof of discrimination or animus on U's part, rejected; challenges to Bd's jurisdiction are reviewed de novo, and challenge herein lacked merit since Bd has jurisdiction *to determine* whether any person named in C had committed an ULP, and since C alleged ULP, Bd was empowered to decide issue; view that Bd's jurisdiction depends on specific factual findings relevant to merits confuses issue of jurisdiction with that of merits]

N.L.R.B. v. Ironworkers Local Union No. 505, a/w Ironworkers 794 F.2d 1474 (C.A. 9, July 1986)

[U's contention that Bd improperly determined that U's hiring hall policy had coercive effect on non-U applicants in violation of 8(b)(1)(A) on ground there was no evidence of U animus against applicants, rejected; no specific intent to discriminate on basis of U membership need be shown in order to prevail on claim under 8(b)(1)(A) which U violates if it wields its power invidiously or arbitrarily since such conduct gives notice that its favor must be curried and thereby encourages membership and unquestioned adherence to its policies]

Northern California District Council of Laborers, Local Union No. 294 (Hayward Baker Company) 275 NLRB No. 048

(U's refusal to dispatch Ee who had filed charges against it with Bd, not unlawful, where dispatcher, consistent with contract and its past practice, insisted that Ee personally pick up his referral slip, rather than allowing Ee's wife to take it to him, and U had consistently adhered to this procedure with two exceptions, neither of which applied to Ee)

Plumbers, Local No. 198 v. N.L.R.B. 747 F.2d 326 (C.A. 5, Nov. 1985)

(Bd's holding that local U discriminated against travelers and nonmembers as compared with local U members in operating its hiring hall supported by substantial evidence: U's *A* book was restricted to local U members, and *B* book was used only after *A* book was exhausted; requiring *B* book job applicants to sign list each day burdened travelers and nonmembers; periodic discontinuation of *B* book violated local U's own procedures; U resisted production of *B* book until contempt procedures were initiated; and GC's statistics, though not determinative, at least suggested discrimination)

Plumbers, Local No. 198 v. N.L.R.B. 747 F.2d 326 (C.A. 5, Nov. 1985)

(fact nonmember complainant often signed U's *B* book, which it allowed travelers and nonmembers to sign while reserving *A* book for local U members, w/o receiving hiring hall referrals supported Bd's finding of discrimination against him in referrals; whether he was entitled to monetary redress, however, was left to compliance stage of proceeding)

Carpenters Union Local No. 25 v. N.L.R.B. 769 F.2d 574 (C.A. 9, Aug. 1985)

Carpenters Union Local No. 25 v. N.L.R.B. 769 F.2d 574 (C.A. 9, Aug. 1985)

(District Council (Council) violated Act by preventing member from working overtime because he failed to present Council work card which evidenced member current in his dues. Under U security clause, dues delinquency only reason Ee could not work. But dues could be paid to local, as was case here, and Ee did everything he could to prove he was current. Burden on Council to justify its actions and sanction of unemployment is sufficiently harsh to invoke U's fiduciary obligation which was not met by its reliance on absence of Council's card and its attempt to confirm status with local who refused inquiry)

Plumbers Local No. 305 (Stone & Webster Engineering Corp. et al.) 282 NLRB No. 012

(U's refusal to let traveler take journeyman's exam for local members entitling Ee to get highest priority for referrals, while offering him opportunity to take referral exam for nonmembers, which tested same material and, if passed, would have entitled him to same referrals, not unlawful; contention that other locals would only accept journeyman's exam, rejected, since U's only duty under contract and Act was to preserve Ees' employment interest w/i local U's geographic area)

Electrical Workers, Local Union No. 46 (NECA) 277 NLRB No. 139

(local U's refusing for two months to offer Ee opportunity to take nonmember referral exam qualifying him for highest priority referrals, violation, notwithstanding contractual clause specifying reasonable interval of time for examination as ninety days, since U was obligated to offer Ee referral exam as expeditiously as it would schedule members for journeyman's exam designed for them and there was no evidence that members were not allowed to take the next scheduled exam or were routinely forced to wait the contractually permitted ninety days)

Teamsters, Local Union No. 328 (Flount Brothers Corporation) 274 NLRB No. 160

(refusing to refer job applicants because of nonmembership in U or lesser length of membership, violative)

Iron Workers, Local No. 111 (Northern States Steel Builders, Inc.) 274 NLRB No. 110

(local U's *deliberate pattern of conduct* consisting of threats and coercion designed to force travelers into quitting so that local U's members could be hired, violative, where local U refused to accept properly tendered travel service dues from travelers yet threatened them with internal charges if they worked w/o travel service dues receipts, threatened them with loss of employment after they refused U's request that they quit by stating that U was requesting E to lay them off and strictly applied dues collection policy against travelers when past practice was to have flexible and open-handed policy)

Iron Workers, Local No. 111 (Northern States Steel Builders, Inc.) 274 NLRB No. 110

(local U's requesting travelers that had been previously referred by local U to quit their jobs so that local U's members could work, violative; U has an obligation not to conduct itself in an arbitrary, invidious or discriminatory manner when representing traveler Ees referred out by it; further, U's contention that since no traveler quit his job there was no coercive impact from its action, rejected)

Waterfront Service Co., Inc. JD-171-86

[maintaining and enforcing contractual referral provision which, on its face, conditioned work opportunities on membership in or clearance by U, violation]

Carpenters, Millwright Local 1412 (Oscar J. Boldt Construction Co.) JD-284-85

(U's use of discretionary standards for referral in exclusive hiring hall arrangement, violative since those seeking employment would be hesitant to risk disfavor of U officials either in connection with issues of U membership or their participation in statutorily protected forms of internal U activity)

2545-1500—Cont.

Boilermakers, Local Lodge No. 60 (Henry Valencia, an Individual) **JD-13-85**
(statements by U to job applicants in hiring hall context to effect that referrals would first go to Local U members, violative, since U's method of making referrals was in direct contravention of lawful hiring hall procedure established by collective bargaining agreement then in effect)

Boilermakers, Local Lodge No. 60 (Henry Valencia, an Individual) **JD-13-85**
(U's maintenance of *second out-of-work list* in hiring hall situation which was for use by nonmembers and from which list no referrals made, violative)

Plumbers, Local No. 198 v. N.L.R.B. **747 F.2d 326 (C.A. 5, Nov. 1985)**
(Bd's holding that local U discriminated against travelers and nonmembers as compared with local U members in operating its hiring hall supported by substantial evidence: U's *A* book was restricted to local U members, and *B* book was used only after *A* book was exhausted; requiring *B* book job applicants to sign list each day burdened travelers and nonmembers; periodic discontinuation of *B* book violated local U's own procedures; U resisted production of *B* book until contempt procedures were initiated; and GC's statistics, though not determinative, at least suggested discrimination)

Plumbers, Local No. 198 v. N.L.R.B. **747 F.2d 326 (C.A. 5, Nov. 1985)**
(fact nonmember complainant often signed U's *B* book, which it allowed travelers and nonmembers to sign while reserving *A* book for local U members, w/o receiving hiring hall referrals supported Bd's finding of discrimination against him in referrals; whether he was entitled to monetary redress, however, was left to compliance stage of proceeding)

2545-1600 Preference based on familial relationship

Local 282, Teamsters (The General Contractors Association of New York, Inc.) **280 NLRB No. 086**
[in finding U's refusal to refer job applicants to their requested positions which were equivalent to that of shop steward at jobsite, Bd noted that U's concession that relatives of high U officials had been appointed to such positions did not, by itself, establish arbitrary application of selection criteria]

2545-1800 Refusal to comply with seniority procedures

Carpenters, Local Union No. 1243 (Northern Alaska Associated General Contractors) **281 NLRB No. 015**
[business representative's dispatching travelers as stewards and recommending them as foremen when asked not violation as selection was not arbitrary in view of their recommendation by respected source, favorable impression at interview, and experience as foreman, and other registrants, who were ahead of them on U's referral lists, *passing* short-term jobs or resigning from them so as to retain position on list for long-term jobs, not being more qualified than travelers, not wanting position, or having personal problems]

2545-2000 Job referrals based on group classifications arrived at through journeyman's examinations

Electrical Workers, Local Union No. 46 (NECA) **277 NLRB No. 139**
(U's refusal to let traveler take journeyman's exam for local members entitling Ee to get highest priority for referrals, while offering him opportunity to take referral exam for nonmembers, which tested same material and, if passed, would have entitled him to same referrals, not unlawful; contention that other locals would only accept journeyman's exam, rejected, since U's only duty under contract and Act was to preserve Ees' employment interest w/i local U's geographic area)

Electrical Workers, Local Union No. 46 (NECA) **277 NLRB No. 139**
(local U's refusing for two months to offer Ee opportunity to take nonmember referral exam qualifying him for highest priority referrals, violation, notwithstanding contractual clause specifying reasonable interval of time for examination as ninety days, since U was obligated to offer Ee referral exam as expeditiously as it would schedule members for journeyman's exam designed for them and there was no evidence that members were not allowed to take the next scheduled exam or were routinely forced to wait the contractually permitted ninety days)

2545-2900 Jobs referrals out-of-sequence with names listed on register

Construction and General Labors Union, Local No. 1334 (Western Sign Corp.) **281 NLRB No. 029**
[referring Ees whose names were below that of charging party on referral list, not violation where U was not hostile to charging party and followed posted contractual hiring hall procedures, of which Ees had notice and which were based on objective criteria, and where all non-referrals of charging party were due to Es' requests for named Ees or Ees with particular types of experience, or E's rejection of charging party]

Carpenters, Local Union No. 1243 (Northern Alaska Associated General Contractors) **281 NLRB No. 015**
[business representative's dispatching travelers as stewards and recommending them as foremen when asked not violation as selection was not arbitrary in view of their recommendation by respected source, favorable impression at interview, and experience as foreman, and other registrants, who were ahead of them on U's referral lists, *passing* short-term jobs or resigning from them so as to retain position on list for long-term jobs, not being more qualified than travelers, not wanting position, or having personal problems]

Local Union 468, Plumbers (McAuliffe Mechanical, Inc., et al.) **280 NLRB No. 136**
[referral of persons on seniority lists w/o first offering jobs to those having higher seniority, not unlawful, where U dispatchers reasonably believed they were acting in accord with contract and hiring hall rules; departure from hiring hall procedures was justified since time in which jobs were to be filled was critical, and more senior individuals were either unavailable or were not interested in type of jobs available for referral; and there was no evidence of hositility, arbitrariness, or U preference in dispatch of individuals herein]

Ironworkers Local Union No. 505 (Snelson-Anvil, Inc.) **275 NLRB No. 199**
(referral of previously laid off Ees back to E made out-of-sequence with order of Ees' signatures on out-of-work register, unlawful, where referral rules posted in hiring hall clearly stated applicants will be referred in order of their place on referral list and contained no language indicating that rules were intended to apply only to first time referrals to particular Es)

Ironworkers Local Union No. 505 (Snelson-Anvil, Inc.) **275 NLRB No. 199**
(even assuming posted referral rules did not apply to callback of previously laid off Ees and presence in hiring hall as basis for referral was governing rule, Bd held referrals based on hiring hall presence on date E specified it needed Ees was unlawful; use of such criterion, w/o more, falls short of objective, nondiscrimiatory standard which must be basis for hiring hall referrals, since objectivity of presence as referral criterion would seriously be brought into question in event number of registrants present exceeded number of E requests)

N.L.R.B. v. Ironworkers Local Union No. 505, a/w Ironworkers **794 F.2d 1474 (C.A. 9, July 1986)**
[U's deviation from its written hiring hall rules, resulting in referral of lower listed job applicants over non-U applicants, held unlawful, even though deviation was longstanding exception to rules, since Bd rationally concluded that U wielded its power arbitrarily; although ALJ found no violation on ground that U's referral policy was not deviation from written rules but a supplement to them, ct deferred to Bd's finding of violation based on Bd's interpretation of written rules, since ct could not say it was unreasonable and inconsistent with Act's policies]

N.L.R.B. v. Ironworkers Local Union No. 505, a/w Ironworkers **794 F.2d 1474 (C.A. 9, July 1986)**
[U was not justified in deviating from written hiring hall rules, resulting in referral of lower listed job applicants over non-U applicants, on ground that physical presence in hiring hall was reasonable method of separating interested from disinterested applicants; physical presence in hiring hall was arbitrary basis for making job referrals, since continuing interest was adequately demonstrated by applicant's re-registering on first of each month, and physical presence would not be helpful whenever more applicants were present in hiring hall than there were available jobs]

2545-3100 Denial of access to employment roster and other job referral records

Plumbers, Local Union No. 447 (NPS Energy Services, Inc.) **281 NLRB No. 010**
[refusing to accept travel cards of Ees applying for referral w/o being sent by their local business manager found unlawful departure from international U's contitutional guidelines]

Plumbers, Local Union No. 447 (NPS Energy Services, Inc.) **281 NLRB No. 010**
[refusing to register and dispatch travellers because they were not sent by their local's business manager, violation, as such procuedure failed to comply with international U's constitutional guidelines and contractual exclusive hiring hall procedures and resulted in denying travellers employment]

Local 282, Teamsters (The General Contractors Association of New York, Inc.) **280 NLRB No. 086**
[U's refusal to comply with referral applicants' request for information concerning number of applicants, identity of those referred, and related information, unlawful, since U has obligation to deal with request for referral information by Ee who is entitled to referral lists in order to protect his referral rights; while lacking formal referral list, U did not demonstrate that it had none of the information requested or that it would be unduly burdensome to compile some of it; moreover, hiring lists kept by U officers and agents might fall w/i purview of information request]

Local No. 136, Plumbers (B. F. Shaw Company) **280 NLRB No. 099**

ral from U's hiring hall, unlawful, notwithstanding U's contention that request was improper attempt to assist GC in prosecution of C, rather than good faith effort to obtain hiring hall information, where charging party's action reflected serious intent to pursue his rights under law, and he did not waive his right to U's records by filing charge against U]

Stage Employees IATSE, Local #41 (Theater of the Stars; Andrews-Bartlett and Associates, Inc.) 278 No. 004

[removal of member and non-member's name from referral list because non-member had crossed picket line and both had worked for non-U E while also seeking referrals from U, violative, since non-member was engaged in protected activity, plain language of referral system did not require users to depend exclusively on referral system and both Ees were not employed at time they registered for referral]

Plumbers Local No. 305 (Stone & Webster engineering Corp. et al.) JD-(NY)-23-86

[U's refusal to allow travelers to sign out-of-work book, assertedly because U was not sure of their qualifications for work, violative, where U had not checked other members' qualifications and had referred these travelers out before and had no real reason to question their qualifications]

Boilermakers, Local Lodge No. 60 (Henry Valencia, an Individual) JD-13-85

(Local U's refusal to tell *traveller* where member ranked on Respondent's out-of-work list at hiring hall, violative, since requested information was necessary in order for member to determine whether U was operating contractually established hiring hall in proper manner. Refusal was breach of U's duty of fair R)

N.L.R.B. v. Electrical Workers, Local 575 773 F.2d 746 (C.A. 6, Oct. 1985)

[local U's refusal to grant traveler access to its hiring hall books to determine if U was complying with hiring hall rules, violative, since member has right to monitor performance of his chosen representative]

2545-3900 Denial of overtime

Glaziers, Architectural Metal and Glass Workers Local Union No. 558 a/w Painters (Bruce Raney, an Individual) 279 NLRB No. 023

[U steward informing Ee and E that Ee could not work overtime because he was not member of local U, notwithstanding no local members on job available to do work, unlawful]

Carpenters Union Local No. 25 v. N.L.R.B. 769 F.2d 574 (C.A. 9, Aug. 1985)

(District Council (Council) violated Act by preventing member from working overtime because he failed to present Council work card which evidenced member current in his dues. Under U security clause, dues delinquincy only reason Ee could not work. But dues could be paid to local, as was case here, and Ee did everything he could to prove he was current. Burden on Council to justify its actions and sanction of unemployment is sufficiently harsh to invoke U's fiduciary obligation which was not met by its reliance on absence of Council's card and its attempt to confirm status with local who refused inquiry)

2545-9900 Other

Stage Employees, Local No. 41 (Atlanta Ballet) 280 NLRB No. 065

[forcing discharge of Ee specifically requested by ballet company who was on U's *C* list and refusing to refer Ee in accordance with established procedure and expired contract by which terms parties were still abiding violation, where U took such action because E had not agreed to new contract]

Teamsters Local Union #519 (Rust Engineering Co.) 276 NLRB No. 094

(U's oral modification of referral plan by selectively requiring some of its dissident members to sign or initial referral cards once a month to have their cards renewed after changing from referral book to card system, w/o adequately notifying members of any such requirement, violative)

Northern California District Council of Laborers, Local Union No. 294 (Hayward Baker Company) 275 NLRB No. 048

(allegation that local U unlawfully made Ee's future referrals dependent on his support for local U president, dismissed since U president simply pointed out to job applicant that he had done him a favor and asked him to remember it at election time if still employed w/i U's geographical jurisdiction)

2548 REFUSAL TO FURNISH INFORMATION OR PERMIT INSPECTION OF RECORDS

Local 282, Teamsters (The General Contractors Association of New York, Inc.) 280 NLRB No. 086

[U's refusal to comply with referral applicants' request for information concerning number of applicants, identity of those referred, and related information, unlawful, since U has obligation to deal with request for referral information by Ee who is entitled to referral lists in order to protect his referral rights; while lacking formal referral list, U did not demonstrate that it had none of the information requested or that it would be unduly burdensome to compile some of it; moreover, hiring lists kept by U officers and agents might fall w/i purview of information request]

Carpenters Local 608 (Various Employers) 279 NLRB No. 099

[U's refusal to permit members to inspect job lists of hiring hall, violative, since reason was members' dissident U activity and filing charges with Bd against U where U had told members they would not see any information or answer questions about list since they filed charges and U permitted other members to inspect job list]

Teamsters Local Union #519 (Rust Engineering Co.) 276 NLRB No. 094

(U's refusal to make referral records available to members, unlawful, where individuals who requested to see records had valid reason for doing so, and absent any legitimate or compelling reason for U's refusal; contention refusal justified because referral records contained telephone numbers members wanted kept confidential, and that matter moot since U was currently posting list once a month reflecting correct order for members and applicants to be referred, rejected)

Teamsters, Local Union No. 328 (Flount Brothers Corporation) 274 NLRB No. 160

(refusal to provide job applicants with information they requested as to their relative ranking on referral list, violative)

(U's refusing to let certain travelers examine its dispatch books at exclusive hiring hall to see where their names were registered and how far their names were from the top of the referral list, violative; contentions that books were being used and travelers did not follow U's procedure for such request, rejected where travelers were not informed procedure existed or told to come back another time)

N.L.R.B. v. Local 139, Operating Engineers 796 F.2d 985 (C.A. 7, July 1986)

[U's refusal to comply with member's request for information as to his relative position on job referral list, unlawful, where member was completely dependent on U for protection of his job referral rights; his request was not unduly burdensome; it was reasonable to infer refusal was motivated by bad faith in light of U's retaliatory conduct and harassment of member; and U had no justifiable reason for its refusal which was intentional misconduct in breach of its duty of fair representation in administering contract]

Upholsterer's, Local Union 406 (Boyertown Casket Company) 280 NLRB No. 134
[U's attempting to cause the discharge of Ee who had resigned from U and attempting to refund Ee's dues assertedly because Ee had resigned, violative, where Ee, although having resigned from U, had still complied with U security agreement by tendering dues (Ee was thus only a *financial core* member) and Ee's only obligation to U after resignation, was to tender initiation fees and dues]

Iron Workers, Local No. 111 (Northern States Steel Builders, Inc.) 274 NLRB No. 110
(local U's *deliberate pattern of conduct* consisting of threats and coercion designed to force travelers into quitting so that local U's members could be hired, violative, where local U refused to accept properly tendered travel service dues from travelers yet threatened them with internal charges if they worked w/o travel service dues receipts, threatened them with loss of employment after they refused U's request that they quit by stating that U was requesting E to lay them off and strictly applied dues collection policy against travelers when past practice was to have flexible and open-handed policy)

Teamsters Local Union No. 957 a/w Teamsters (Complete Auto Transit, Inc.) JD-144-86
[U's secretary-treasurer/business representative informing individual who he had alleged had accused him of misuse of U funds, that individual's dues would not be accepted, that he would never belong to U again, directed him to leave U hall, and take his dissident fellow accusers with him, unlawful, since constituted unlawful threat of intra-U disciplinary proceedings]

Teamsters Local Union No. 957 a/w Teamsters (Complete Auto Transit, Inc.) JD-144-86
[U's secretary-treasurer returning member's dues and in enclosed letter informing member that his actions while on withdrawal card were being considered by U as basis for possible U disciplinary action, unlawful]

Iron Workers, Local No. 111 v. N.L.R.B. 792 F.2d 241 (C.A. D.C., June 1986)
[U's refusal to accept traveler's tender of travel service dues because traveler did not have monthly dues receipt from his home local, unlawful, since U's behavior toward traveler was improperly motivated deviation from what had been lenient enforcement of requirement that travelers verify payment of dues to their home local]

2560 ADVISING EMPLOYEES CONCERNING CHECKOFF AUTHORIZATIONS

Glaziers, Architectural Metal and Glass Workers Local Union No. 558 a/w Painters (Bruce Raney, an Individual) 279 NLRB No. 023

Woodcliff Lake Manor Nursing Home, Inc. 276 NLRB No. 084
(violation, where U's business agent, in reply to Ee's question as to whether he could be discharged for refusing to sign dues checkoff authorization form, informed Ee *legally, yes*)

2561 DEMAND FOR CHECKOFF DUES OR DUES EQUIVALENCY OF RESIGNED MEMBERS

The Hearst Corporation, San Antonio Light Division 281 NLRB No. 113
[U's demanding that E continue deducting dues from Ees who lawfully resigned from U, violative, notwithstanding Ees had failed to request revocation of dues deduction, since Ees' dues deduction authorizations made payment of dues a quid pro quo for U membership where contract established E would deduct all *membership dues* levied by U and authorizations assigned all *membership dues* to U, thus, it was clear dues were quid pro quo for U membership and was not intended to meet any other U financial obligations such as *financial core* payments]

Shopmen's Local Union No. 539 (Zurn Industries, Inc.) 278 NLRB No. 024
[U's refusal to give effect to Ees' valid resignations of U membership, and attempt to cause E to withhold resigned Ees' dues, unlawful, since U thereby impaired Ees' Sec. 7 right to resign or otherwise refrain from U or other concerted activities, and dues checkoff authorization, directing deduction of amounts owed by Ee for membership, made payment of dues quid pro quo for U membership, and dues were revoked as matter of law at time Ees' effectively resigned]

Bakery Workers, Local 42 (Gold Kist, Inc.) JD-(ATL)-42-85
(by requesting E to continue dues checkoff after Ees had resigned and by taking steps to grieve refusal of E to continue disputed checkoffs, U violated Act, notwithstanding Ees executed checkoff authorization since authorization directed deduction of dues *in accordance with regular membership dues* making payment of dues a quid pro quo for U membership and thereby revoking dues checkoff assignment as matter of law at time of each effective resignation from U membership. Therefore, by taking such action, U directly impairs Ee's Sec. 7 right to resign when it seeks to delay member's resignation)

Bakery Workers, Local 42 (Gold Kist, Inc.) JD-(ATL)-42-85
(violation where U refused to accept valid written resignations of Ees who had signed checkoff authorizations, requested E to continue dues deductions and took steps to grieve E's refusal to do so)

2562 DEMAND FOR DUES OF MEMBERS WHO HAVE REVOKED CHECKOFF AUTHORIZATION

The Hearst Corporation, San Antonio Light Division 281 NLRB No. 113
[U's demanding that E continue deducting dues from Ees who lawfully resigned from U, violative, notwithstanding Ees had failed to request revocation of dues deduction, since Ees' dues deduction authorizations made payment of dues a quid pro quo for U membership where contract established E would deduct all *membership dues* levied by U and authorizations assigned all *membership dues* to U, thus, it was clear dues were quid pro quo for U membership and was not intended to meet any other U financial obligations such as *financial core* payments]

Rainey Security Agency, Inc. **274 NLRB No. 041**
(E violated 8(a)(2) and U violated 8(b)(1)(A), respectively, by E's proffering recognition to U and executing contract with U, and U's acceptance of recognition and entering into contract with E, where U did not represent uncoerced majority either because it never obtained authorization cards from majority of Ees or because, if it did, authorization cards may have been poisoned by dues deduction forms furnished to applicants to fill out even before E's operations had begun and by accompanying statements made by U's agents that applicants had to join U)

(U's filing ptn in S.Ct of N.Y. to confirm that portion of arbitrator's award determining that U gained majority support of Ees in several previously unrepresented departments of E, violative, since award was based on *tainted authorization cards*, obtained by supervisors' assistance removing them as basis for attaining majority support; no deferral as decision of arbitrator palpably wrong as it seeks to achieve prohibited objective and lacks reasonable basis in fact and law)

2563-5000 Good faith immaterial

Ryder/P.I.E. Nationwide **275 NLRB No. 084**
(E's recognition of U and U's acceptance thereof, and their execution of contract, unlawful, where U never had valid majority in combined regular clerical unit resulting from merger of freight terminal offices of 2 Ees since E's and U's reliance on casual Ee's authorization card to include her in regular Ees' unit was contrived to lend colorable legitimacy to improper inclusion in unit, thereby tipping majority balance in favor of U; and parties' good faith but mistaken belief that Ee was regular Ee did not excuse prohibited conduct)

2563-7500 Subsequent acquisition of majority immaterial

James Nederlander d/b/a Ned West, Inc., d/b/a Pacific Amphitheatre **276 NLRB No. 008**
(fact that assisted U subsequently achieved majority status prior to actual signing of contract held not valid defense to parties' prior commission of ULPs)

Ryder/P.I.E. Nationwide **275 NLRB No. 084**
(where E's and U's execution of contract was unlawful because of improper inclusion of casual Ee in combined regular Ees' unit resulting from merger of 2 Es, thereby tipping majority balance in favor of U, ALJ held fact that casual Ee was made regular Ee retroactive to date before implementation of merger did not cure situation since belated acquisition of majority is of no saving consequence if earlier recognition was unlawful)

2564 UNION'S DEMAND OR ACCEPTANCE OF REPRESENTATIVE STATUS IN INAPPROPRIATE UNIT

Chicago Truck Drivers, Helpers and Warehouse Workers Union (Independent) **279 NLRB No. 122**

Steven Muss, Cynthia Muss Lawrence and Debbie Muss Kushen, A Copartnership, d/b/a Alexander Muss & Sons **274 NLRB No. 193**
(U's entering into contract with E after E withdrew recognition from another U which was striking E over failure of contract negotiations, not violative, since no R ptn had been filed with Bd thus raising qcr, and E had objective considerations for doubting striking U's majority status where striking Ees had been on strike for over a year, all strikers had been permanently replaced and 13 of 17 current Ees had freely sign-cards authorizing instant U to represent them, giving no indication of support for striking U)

2570 ACCEPTANCE OF ASSISTANCE FROM EMPLOYER

Safeway Stores, Inc. 276 NLRB No. 099

(E unlawfully assisted and supported U and U unlawfully accepted such assistance and support during its organizing campaign at E's new chain retail store, where E made store facilities available for U representatives to solicit U membership and health and welfare applications when E had already unlawfully recognized U, thus facilitating U access to store and giving U representatives opportunity to tell Ees U already represented them, which is unlike situation where neutral E's granting access to U to solicit Ees, w/o more, does not constitute unlawful assistance)

2571 DEDUCTION OF DUES WITHOUT CHECKOFF AUTHORIZATION

Safeway Stores, Inc. 276 NLRB No. 099

(E and U violated 8(a)(3) and 8(b)(2), respectively, where E maintained U-security clause in invalid agreement with unlawfully assisted U, pursuant to which E deducted U dues w/o obtaining dues deduction authorization forms from Ees, and U actually or constructively received such dues deductions)

2572 EXECUTION OR MAINTENANCE OF INVALID UNION-SECURITY AGREEMENT

District 30, Mine Workers and Local 1834 (TCH Coal Company) 278 NLRB No. 045 protest activities of its President and other officers while local U picketed secondary E for not hiring former Ees of primary E, held violative, since any force *that back to work* directives (instructions to U members at U meeting) did carry was belied by local U's officials failure to return to work themselves after issuing such directives and refused to cross U picket lines. U, like an E, acts through its agents, Local U's officers are *admitted agents of U and their conduct, therefore, evidence Local's endorsement of protest activities*]

Harte & Company, Inc. 278 NLRB No. 128

[no violation, where E and U agreed to extend bargaining agreement with security clause in effect at former facility to E's newly purchased facility, since new facility was essentially extension of E's old operation where new plant produced same products using same machinery, Ees performed essentially same functions. Contention move not mere relocation since it took too long for substantial percentage of transferees to arrive at new plant, rejected, since transferees constituted more than 40% of new work force on date transfer process *substantially completed*, and 8 month period to complete transfer operations not unreasonable herein]

James Nederlander d/b/a Ned West, Inc., d/b/a Pacific Amphitheatre 276 NLRB No. 008

N.L.R.B. v. Local 1131, Local 1161, Auto Workers 777 F.2d 1131 (C.A. 6, Dec. 1985)

[contention that preferential seniority for non-steward U officials is not so inherently destructive of Ee rights that it should be held unlawful in spite of legitimate justification, rejected, since Bd's finding that only contract administration requiring U officials to be on the job justifies superseniority is not irrational or contrary to the Act, and cases cited in support of contention do not apply where they involve specific legislation, rather than superseniority clauses concerning which Congress did not legislate, and Selective Service Act's, rather than NLRA Sec. 7's, protection of Ee rights]

N.L.R.B. v. Local 1131, Local 1161, Auto Workers 777 F.2d 1131 (C.A. 6, Dec. 1985)

Goodyear Tire and Rubber Company 278 NLRB No. 098

[according U's Executive Board member super-seniority under bargaining agreement with respect to shift preference and thereby causing Ee to be removed from first shift and placed on second shift, violative where Executive Board Member had no responsibility requiring on-the-job presence to further administration of bargaining agreement]

(U's maintaining and attempting to enforce contractual *superseniority*, in its contract with E, for U vice president, recording secretary, and members of U negotiating committee with regard to layoff, recall and protection against job bumping, violative, since their on-the-job presence was not necessary for performance of grievance processing duties or contract administration. Negotiating committee had *only* duty to negotiate contract with E)

Electronic Workers IUE, Local 663 (Gulton Electro Voice) 276 NLRB No. 109

(U's invoking contractual grievance procedure on or after U vice president filed grievance seeking reinstatement to job from which she had been bumped (contract granted U vice president *superseniority* for job bumping purposes) violative, since on-the-job presence of U vice president not necessary for performance of grievance processing duties and if grievant successful, result would displace another Ee)

Electronic Workers IUE, Local 663 (Gulton Electro Voice) 276 NLRB No. 109

(while grant of contractual superseniority to chief steward as to layoff and recall, lawful, lawfulness did not extend to job bumping protection since here, unlike *Scovill*, 266 NLRB 952, E had only one shift, and chief steward had plantwide responsibilities and so did not need to be in any particular job in order to perform plantwide grievance duties effectively)

Electronic Workers IUE, Local 663 (Gulton Electro Voice) 276 NLRB No. 109

(contention that superseniority grant of job bumping protection is lawful because, w/o such protection, chief steward may quit her job or stewardship, rejected, because it remains U's task to build and maintain its own organization, and where immediate problem is simply matter of encouraging Ees to serve as U representative U can handle situation by simply paying Ees or giving them other nonjob benefits)

Automobile Workers, Local No. 1309 (International Harvester Company) **JD-18-86**

[U's invoking superseniority clause of contract to keep pyrometer steward on job, not unlawful discrimination against two Ees who were not allowed to bump steward from sole remaining pyrometer position but were laid off, notwithstanding U's letter stating it did not intend to have steward granted superseniority to represent himself and lack of pyrometer Ees remaining on job for steward to represent, since U letter was not binding contract but statement of intent, and steward was required on job to protect unit work, police its assignment, and represent laid-off Ees' recall rights]

Automobile Workers, Local No. 1309 (International Harvester Company) **JD-18-86**

[U stewards justifiably presumed to have valid lay-off-recall superseniority on basis of U's retaining on-the-job representation for processing grievances; superseniority of nonstewards of officers engaged in no on-the-job, steward-like functions, to whom it was later extended, was evaluated under different criteria]

Automobile Workers, Local No. 1309 (International Harvester Company) **JD-18-86**

(granting U officer superseniority which enabled him to displace more senior Ee, violative, since officer was not necessary to administration of contract on the job; Bd considered Ees' right not to have job benefits tied to U activism more important than right to bargain through chosen representative and adjudged superseniority's lawfulness based on how much it encouraged U activism, not how little it discriminated; promotion of U's effectiveness and efficiency insufficient basis for U officer's superseniority after *Gulton*, and Bd has not endorsed U's allegation that superseniority assisted Ees' exercise of their rights

Local 1384, Auto Workers v. N.L.R.B. **756 F.2d 482 (C.A. 7, Feb. 1985)**

(granting U recording secretary seniority as to shift preference by assigning her to day shift solely because it would make communication with U president easier, violative, since gain in convenience from face-to-face over telephonic or documentary communication did not justify tying seniority-linked job benefit to U office while denying it to Ee whose seniority otherwise entitled her to it)

N.L.R.B. v. Local 139, Operating Engineers 796 F.2d 985 (C.A. 7, July 1986)

[standards pertaining to duty of fair representation may differ when applied to negotiation and to administration of contract; in negotiating contract with E, U is allowed wide range or reasonableness subject always to complete good faith and honesty of purpose in exercise of its discretion; while in administering contract, duty of fair representation requires good faith by U, but range of reasonable conduct is narrowed]

N.L.R.B. v. Local 139, Operating Engineers 796 F.2d 985 (C.A. 7, July 1986)

[breach of U's duty of fair representation occurs as result of arbitrary, discriminatory, or bad faith conduct by U, and to show breach of such duty ct requires intentional U misconduct; but no such breach was found in perfunctory representation of Ee at grievance hearing, absent wrongful intent; in negotiating Ee benefit plan, absent fraud, deceitful action or dishonest conduct; in gross negligence in prosecuting Ee grievance, absent bad faith; in negligent failure to preserve properly Ee's U appeal rights; and in U's negligence in failing to appeal grievance]

Bakery Workers, Local 42 (Gold Kist, Inc.) JD-(ATL)-42-85

(by requesting E to continue dues checkoff after Ees had resigned and by taking steps to grieve refusal of E to continue disputed checkoffs, U violated Act, notwithstanding Ees executed checkoff authorization since authorization directed deduction of dues *in accordance with regular membership dues* making payment of dues a quid pro quo for U membership and thereby revoking dues checkoff assignment as matter of law at time of each effective resignation from U membership. Therefore, by taking such action, U directly impairs Ee's Sec. 7 right to resign when it seeks to delay member's resignation)

N.L.R.B. v. Construction and General Laborers' Union Local No. 534, Laborers 778 F.2d 284 (C.A. 6, Dec. 1985)
[U's call-back referrals, violation, where E was only entitled to receive referrals by customary procedures using U's hiring hall lists, rather than call-back certain Ees who had not worked for E w/i prior six months; contention that E would not accept other referrals, not credited, but, if it were, E would have had to reject Ees at time of referral]

N.L.R.B. v. Local 139, Operating Engineers 796 F.2d 985 (C.A. 7, July 1986)
[U's refusal to comply with member's request for information as to his relative position on job referral list, unlawful, where member was completely dependent on U for protection of his job referral rights; his request was not unduly burdensome; it was reasonable to infer refusal was motivated by bad faith in light of U's retaliatory conduct and harassment of member; and U had no justifiable reason for its refusal which was intentional misconduct in breach of its duty of fair representation in administering contract]

[U's establishing seniority list which placed bargaining unit Ees at E's more recently organized plant behind previously unionized Ees at another of E's facilities, violative, since U could not refuse to consider or negotiate a dovetailing system solely because Ees at E's non-U plant joined U more recently than did Ees at E's unionized plant. By favoring Ees at its unionized plant, U in effect (if not intent) penalized Ees of non-U plant for refraining from engaging in U activity]

Northern California District Council of Laborers, Local Union No. 294 (Hayward Baker Company) 275 NLRB No. 048

(local U's filing internal U charges with district council against Ees for filing ULP charges with Bd alleging that local's hiring hall procedures violated 8(b)(1)(A) and district council's trying and finding them guilty because they failed to exhaust contractual remedies, violative, since these actions were retaliatory)

Auto Workers, Local No. 171 (Mack Trucks, Inc.) JD-33-85

(U's removal of elected recording secretary from his position, unlawful, where he was among members who filed grievance against E and ULP charges with Bd over alleged preferential treatment E gave a U official in accepting his application for posted job; stewards and committeemen, acting as U agents, filed internal charges in retaliation for members' filing of grievance against E; it was clearly evident that U agents' intent was also to punish members' recourse to Bd law; and internal charges were filed with knowledge of members' filing of ULP charge)

Boilermakers, Local Lodge No. 60 (Henry Valencia, an Individual) JD-13-85

[local U's and District U's endorsement of protest activities of its President and other officers while local U picketed secondary E for not hiring former Ees of primary E, held violative, since any force *that back to work* directives (instructions to U members at U meeting) did carry was belied by local U's officials failure to return to work themselves after issuing such directives and refused to cross U picket lines. U, like an E, acts through its agents, Local U's officers are *admitted agents of U and their conduct, therefore, evidence Local's endorsement of protest activities*]

5000 UNION RULES PROVISO

5025 SCOPE OF EXEMPTION

5025-6100 Generally

Iron Workers, Local No. 111 (Northern States Steel Builders, Inc.) 274 NLRB No. 110

(Section 8(b)(1)(A) makes it a ULP for a U to restrain or coerce any Ee in the exercise of his or her Section 7 rights and although the proviso permits a U to prescribe rules with respect to acquisition and retention of membership, a U's ability to enforce such rules in such a way that it affects a member's employment status is restricted)

N.L.R.B. v. Local 139, Operating Engineers 796 F.2d 985 (C.A. 7, July 1986)

[although U's imposition of fines on Ee members for their dissident activities against U officials *restrains* members' exercise of their Sec. 7 rights, terms *restrain or coerce* in 8(b)(1)(A) are not interpreted so literally as to make it an ULP for U to enforce compliance with U rules and policies, since 8(b)(1)(A) was not intended to give Bd power to regulate internal U affairs, including disciplinary charges and fines against members]

5025-3300 Rules respecting acquisition or retention of membership

Pattern Makers' League of North America, AFL-CIO v. N.L.R.B. ———U.S.——— (U.S. SCT, June 1985)

[fining members who have attempted to resign at time such resignations prohibited under U's constitution, violative, as this is restraint on Sec. 7 rights to refrain from engaging in concerted activities and inconsistent with congressional policy of voluntary unionism. *retention of membership* set forth in provison relates to expulsion from membership and not resignation]

Telephone Traffic Union, Upstate Local 212, T.I.U. (New York Telephone Co.) 278 NLRB No. 144

[Ee who had filled out U authorization card at time first employed with E but did not do so when rehired, held member of U when at time of rehire Ee designated the *union dues* box on her checkoff authorizrtion card. Therefore, U could validly enforce fines against these Ees for working during strike]

Auto Workers, Local 376 (Emhart Industries, Hartford Division, etc.) 278 NLRB No. 037

[U's informing Ees through newsletter, that U was *looking into* raising reinstatement fees for members who had not paid dues, not violative, since motivation of U was only to encourage payment of dues, article was not associated with Ees' employment status and even in absence of U security agreement, U would be privileged to increase reinstatement fees]

Sheet Metal Workers Local Union No. 14 (C. L. Linfoot Co.) 275 NLRB No. 153

(U constitutional provision restricting members' right to resign during strike or lockout violative of their Sec. 7 right to refrain from U membership)

Graphic Communications, Local 229 (Imperial Printing Company) JD-183-85

(U's requiring, pursuant to its constitution, executive board approval, membership in good standing, and that Ee not be employed in industry w/i U's jurisdiction before U accepted members' resignations, violative of their Sec. 7 right to refrain from U membership, notwithstanding assertion that U had right to prescribe rules as to retention of membership; however, Ees' attempts to make resignations retroactive found not effective, and resignations were effective from date of U's receipt)

5025-3350 Cannot be prescribed to change employer hiring policy or affect employment status

N.L.R.B. v. Local 139, Operating Engineers 796 F.2d 985 (C.A. 7, July 1986)

[although any disciplinary charge or fine is *coercive* to some degree, Congress did not intend provisions of 8(b)(1)(A) to apply to imposition of fines not affecting E-Ee relationship; Bd has authority to pass on U rules affecting individua's employment status but not rules affecting only his U membership status; and Congress has not empowered Bd to pass judgment on penalties U may impose so long as penalty does not impair member's status as Ee]

Carpenters Union Local No. 25 v. N.L.R.B. 769 F.2d 574 (C.A. 9, Aug. 1985)

(U is free to enforce properly adopted rule which reflects legitimate U interest; but the internal affairs exception to Section 8(b)(1) does not apply when U's application of its rules is contrary to national labor policy; e.g., where it affects member's employment status)

5025-6700 Rules governing conduct of members

Mine Workers, District 31 (Office Employees, Local No. 67) JD-392-85

[where Ee, member of U other than UMWA where she was employed, grieved her discharge and members of UMWA testified on her behalf and adversely to U's position, UMWA violated Act by filing charges against witnesses whether witnesses were employed or retired. Mere fact that individual is charged, tried, fined, or even threatened to be fined for testifying at arbitration hearing, or giving statements during arbitration procedure is sufficient to establish violation]

Laundry Workers, Government and Industrial Service, Local 3 (Virginia Cleaners, Inc.) 275 NLRB No. 098

(Sec. 8(b)(1)(A) of Act makes it unlawful for U to restrain or coerce Ees in exercise of rights protected by Sec. 7. Internal rules proviso to Sec. 8(b)(1)(A), however, expressly reserves to U right to make and enforce rules governing conduct of its members. In attempting to accomodate those facially inharmonious statutory cocommands, S.Ct has said, generally, Sec. 8(b)(1)(A) leaves U free to enforce properly adopted rule which reflects legitimate U interest, impairs no policy Congress has imbedded in labor laws, and is reasonably enforced against members free to leave U and escape rule)

N.L.R.B. v. Local 139, Operating Engineers 796 F.2d 985 (C.A. 7, July 1986)

[no violation by fining member for not accepting referral of employment at U shop since member continued working at non-U shop so fine did not affect E-Ee relationship and falls w/i proviso. Inland Boatmen's Union of The Pacific, Hawaii Region (Dillingham Tug & Barge Company) 276 NLRB No. 141

(U has right to promulgate its own rules and to impose reasonable discipline on members who do not obey such rules, but such enforcement is lawful only when rule reflects legitimate U interest, impairs no policy that Congress has embedded in labor laws, and is reasonably enforced against U members; thus, U may not enforce rule that *invades or frustrates an overriding policy of labor laws*)

(members working under U security agreement who wrote letters to U during strike apprising U that they were changing membership status from *full* member to that of *financial core* member but were not resigning from U, held to have effectively resigned from U; further, U's fining these members for crossing picket line after receipt of those letters, violative. U cannot compel a financial core member by way of court collectible fine to support its strike or other activities)

Communications Workers, Local 9201 (Pacific Northwest Bell) 275 NLRB No. 214

(U's rejecting members' attempts to resign based on its rule prohibiting resignations immediately preceding or during a strike, violative)

Communications Workers, Local 9201 (Pacific Northwest Bell) 275 NLRB No. 214

(Bd will apply an objective standard to determine whether U's conduct reasonably creates impression in members' minds that any attempt to resign would be futile, and a member is not required to attempt to resign when the U has made it clear that the U would reject the resignation; mere existence of restriction on resignations, however, is insufficient to support finding of futility of resigning even when member is aware of restriction)

Plumbers, Local 444 (T.S. Hanson Plumbing) 277 NLRB No. 137

(fining U members employed by neutral E for violating U's bylaws and rules by crossing lawful primary picket line of sister U at common situs, unlawful, since U's right to prescribe own rules under 8(b)(1)(A) proviso requires that rules impair no Congressional policy, and fining members did impair Congressional policy against application of 8(b)(4) secondary pressure on neutral E by having object of forcing fined members to stop working for neutral E and in turn cause latter to c/d/b with primary E)

Plumbers, Local 444 (T.S. Hanson Plumbing) 277 NLRB No. 137

(while Us have legitimate interest in having members honor picket lines whether in direct furtherance of primary labor dispute or in sympathetic support of primary U, and U may lawfully enforce such legitimate interest by fining members who have crossed picket lines; critical inquiry required by S.Ct's *Scofield* test is whether U's fining of members impaired policy Congress has embedded in labor laws, specifically policy against application of secondary pressure on neutral Es embodied in 8(b)(4); if such policy is impaired, 8(b)(1)(A) proviso affords no protection to Us)

Plumbers, Local 444 (T.S. Hanson Plumbing) 277 NLRB No. 137

Plumbers, Local 444 (T.S. Hanson Plumbing) 277 NLRB No. 137
(where U was found to have violated 8(b)(1)(A) by fining U members employed by neutral E for failing to honor primary picket line of sister U at common situs, Bd held that to permit U's fines would lead to anomalous result that secondary U may attempt to influence Ees of neutral E by means denied to primary U itself; if primary U may not put such secondary pressure on neutral Ees at common situs, then it follows that neutral U may not do so either)

(U's maintenance and publication to members of its rule restricting resignations, violative)

Machinists, Local Lodge No. 1374 (Columbia Machine, Inc.) **274 NLRB No. 026**

Inland Boatmen's Union of The Pacific, Hawaii Region (Dillingham Tug & Barge Company) 276 NLRB No. 141

(monetary penalties imposed against U members for engaging in rival U activity during U's election campaign held to constitute fines imposed as punishment to vindicate U's authority over members, rather than assessment against members for election campaign expenses, as evidenced by provisions of U's constitution and by U's disciplinary decision which attempted to circumvent Bd law by referring to monetary penalties imposed by U as reimbursements)

5075 ENFORCEMENT OF RULES WITHIN PROVISO

5075-0100 Generally

Inland Boatmen's Union of The Pacific, Hawaii Region (Dillingham Tug & Barge Company) 276 NLRB No. 141

(U has right to promulgate its own rules and to impose reasonable discipline on members who do not obey such rules, but such enforcement is lawful only when rule reflects legitimate U interest, impairs no policy that Congress has embedded in labor laws, and is reasonably enforced against U members; thus, U may not enforce rule that *invades or frustrates an overriding policy of labor laws*)

Internal rules proviso to Sec. 8(b)(1)(A), however, expresaly reserves to U right to make and enforce rules governing conduct of its members. In attempting to accomodate those facially inharmonious statutory cocommands, S.Ct has said, generally, Sec. 8(b)(1)(A) leaves U free to enforce properly adopted rule which reflects legitimate U interest, impairs no policy Congress has imbedded in labor laws, and is reasonably enforced against members free to leave U and escape rule)

N.L.R.B. v. Local 139, Operating Engineers 796 F.2d 985 (C.A. 7, July 1986)

[although any disciplinary charge or fine is *coercive* to some degree, Congress did not intend provisions of 8(b)(1)(A) to apply to imposition of fines not affecting E-Ee relationship; Bd has authority to pass on U rules affecting individua's employment status but not rules affecting only his U membership status; and Congress has not empowered Bd to pass judgment on penalties U may impose so long as penalty does not impair member's status as Ee]

Telephone Traffic Union, Upstate Local 212, T.I.U. (New York Telephone Co.) **278 NLRB No. 144**

(fining U members employed by neutral E for violating U's bylaws and rules by crossing lawful primary picket line of sister U at common situs, unlawful, since U's right to prescribe own rules under 8(b)(1)(A) proviso requires that rules impair no Congressional policy, and fining members did impair Congressional policy against application of 8(b)(4) secondary pressure on neutral E by having object of forcing fined members to stop working for neutral E and in turn cause latter to c/d/b with primary E)

Plumbers, Local 444 (T.S. Hanson Plumbing) **277 NLRB No. 137**
(fining U members employed by neutral E for failing to honor lawful primary picket line of sister U at common situs held to have unlawful object, since U which induces neutral Ees to stop working must take responsibility for foreseeable consequences of its conduct; here, U knew fined members worked for E who was neutral in sister U's dispute with primary E, and natural and apparent object of U's fining of members was to force them to stop working for neutral E and in turn to cause latter to c/d/b with primary E)

San Francisco Lodge No. 68, Machinists (Holmestic, Inc.) **274 NLRB No. 108**

[U's attempting to cause the discharge of Ee who had resigned from U and attempting to refund Ee's dues assertedly because Ee had resigned, violative, where Ee, although having resigned from U, had still complied with U security agreement by tendering dues (Ee was thus only a *financial core* member) and Ee's only obligation to U after resignation, was to tender initiation fees and dues]

Aeronautical Industrial District No. 91 and its Local Lodge No. 707, Machinists (Pratt & Whitney Division of UTC Technologies Corporation) **278 NLRB No. 008**

[U's bring internal charges against member for allegedly fraudently buying *unemployment stamps* rather than paying full dues when he was fully employed, cancelling his membership and stripping him of his U office and superseniority thus jeopardizing his employment, and preculding him from holding other U office, unlawful, since actions motivated by member internal U activities of distributing leaflets critical of U leadership, and filing ULP charges against U]

Iron Workers, Local No. 111 (Northern States Steel Builders, Inc.) **274 NLRB No. 110**

(local U's *deliberate pattern of conduct* consisting of threats and coercion designed to force travelers into quitting so that local U's members could be hired, violative, where local U refused to accept properly tendered travel service dues from travelers yet threatened them with internal charges if they worked w/o travel service dues receipts, threatened them with loss of employment after they refused U's request that they quit by stating that U was requesting E to lay them off and strictly applied dues collection policy against travelers when past practice was to have flexible and open-handed policy)

Hotel & Restaurant Employees, Local 50 (Plaza Inn Associates d/b/a Plaza International Inn) **JD-(SF)-87-85**

(U security clause does not survive expiration of contract, and therefore U's demand on E to discharge Ees for nonpayment of dues after expiration, violative)

Local 807, Teamsters (Paragon Paint & Varnish Corporation) **JD-(NY)-34-85**

(no violation, where U requested discharge of Ee who was in arrears in payment of dues for period during which he was on sick leave, since U had advised Ee of amount owed, method used to compute amount, when payments were to be made and that discharge would result from failure to pay, and where Ee failed to fulfill agreement made with U for payment)

5075-5083 Removal of member from office

5075-5083-0100 Generally

Aeronautical Industrial District No. 91 and its Local Lodge No. 707, Machinists (Pratt & Whitney Division of UTC Technologies Corporation) **278 NLRB No. 008**

(International U bringing internal U charges, fining, and prohibiting president of local U from holding office, for filing ULP charges in name of local against International, unlawful, since International not entitled even to protect its legitimate institutional interests by restraining access to Bd, since such restraint coercive and against public policy of fostering unimpeded access to Bd, notwithstanding president could have filed charges as individual, and International's contention that president was not disciplined for filing of charges, but for misuse of office by acting w/o authority from membership or executive board)

5075-5083-2537 Recording secretary

Auto Workers, Local No. 171 (Mack Trucks, Inc.) **JD-33-85**

(U's removal of elected recording secretary from his position, unlawful, where he was among members who filed grievance against E and ULP charges with Bd over alleged preferential treatment E gave a U official in accepting his application for posted job; stewards and committeemen, acting as U agents, filed internal charges in retaliation for members' filing of grievance against E; it was clearly evident that U agents' intent was also to punish members' recourse to Bd law; and internal charges were filed with knowledge of members' filing of ULP charge)

5075-5083-2550 Job steward

Mail Handlers, Local Union No. 308 (United States Postal Service) **281 NLRB No. 143**

[U removing Ee from his position as shop steward because he had filed ULP charges previously against U violative, since internal U considerations raised by U-Respondent Ee's alleged dereliction of duty as shop steward and his alleged failure, as treasurer, to properly protect monies belonging to Ee's Social and Recreation committee as well as alleged altercation with U president cannot prevail in face of overriding public interest in unimpeded access to Bd and fact that violation turns on coercive nature of U's conduct rather than on U's motivation which may be factor to be considered]

5075-5095 Reporting employee to government agency

N.L.R.B. v. Local 139, Operating Engineers **796 F.2d 985 (C.A. 7, July 1986)**

5075-5098 Denial of benefits

Mine Workers District 2, and Its Local 2202 (Old Devon Corporation, et al.) **282 NLRB No. 020**

Teamsters Cannery Local No. 670 a/w Teamsters (Stayton Canning Company Cooperative) **275 NLRB No. 127**

(U's refusal to allow financial core members to use services of dental and eye clinics and pharmacy (agents of U), violative, notwithstanding these benefits outside bargaining agreements as it has forseeable effect of coercing these financial core members from exercising their statutory right to refrain from joining U and remain core member. Defense that U's conduct priviledged under 8(b)(1)(A) proviso, rejected as against national policy to promote peaceful settlement of disputes where as part of strike settlement agreement U agreed it would not discriminate against core members)

Teamsters Cannery Local No. 670 a/w Teamsters (Stayton Canning Company Cooperative) **275 NLRB No. 127**

(U's denial of financial core members' access to its pharmacy and eye and dental clinics in contravention of its strike settlement agreement, violative, even in absence of evidence that U was using dues of financial core members to finance its operation of these facilities)

5075-5098—Cont.

Sausage Makers' Union, Local 203, Food & Commerical Workers (Western Employer Associates) **JD-(SF)-47-86**

Carpenters, Local 1597 (W. G. Clark Construction Co.) JD-(SF)-155-85

(U's imposing disciplinary fine and suspension of membership on Ee for performing supervisory work at job site on and after U established picket line at E's job site held unlawful, since when Ee invoked his supervisory status as defense to his disciplinary trial by U trial committee no proof had been offered to committee that Ee had performed any rank-and-file work and Ee could reasonably interpret his U's discipline as being directed at his performance of a purely supervisory function)

Sheet Metal Workers, Local Union No. 162 (Enterprise Mechanical, Inc.) JD-(SF)-114-85

(U fining president of E who was also member of U because he refused to sign collective bargaining agreement, not violative, as clauses involved in controversy were not mandatory subjects of bargaining which could be insisted upon by E to impass; furthermore, president was substantial owner (person owning 25% or more of business), and Sec. 8(b)(1)(B) inapplicable in cases where member is substantial owner since owner not susceptible to requisite subversion of loyalties necessary to find violation)

0125-9000 Preserves employer's right to select representative

Local Union 497, Electrical Workers (Canyon Valley Electric, Inc. 281 NLRB No. 158

[Sec. 8(b)(1)(A) proviso preserving right of Us to prescribe their own rules regarding membership is inapplicable to Sec. 8(b)(1)(B) which protects freedom of Es to choose their representatives unimpleded by coercive U pressures on representatives to cease working for them]

[finding of 8(b)(1)(B) violation will be upheld if 2 distinct factual circumstances appear from record evidence: (1) there must be individual who represents E in collective bargaining or grievance adjustment; and (2) U engaged in conduct restraining or coercing E in selection of that individual as its representative for those purposes]

N.L.R.B. v. Electrical Workers Local Union #46 793 F.2d 1026 (C.A. 9, July 1986)

[both direct U pressure affecting selection of representative or willingness of that individual to act as representative, and indirect pressure on E's representative to coerce manner of conducting negotiations or grievance processing will violate Act]

Carpenters, Local 1098 (Milton J. Womack, Inc.) 280 NLRB No. 102

(U fining supervisor for acting in accordance with his duties as supervisor and laying off men in disregard of seniority and causing E not to employ supervisor assertedly because he was arrears in dues payments, violative, since U's reason for fining Ee and causing his unemployment was based on U's attempt to punish Ee for what U thought was a breach of bargaining agreement, thus infringing on E's control over its choice of bargaining representative)

3333-7100 Refusal to accept fund payments

Carpenters' District Council of St. Louis, an affiliate of Carpenters (Dan Ficken Construction Company) 276 NLRB No. 071

(U's refusal to accept benefit payments from Es, contending such acceptance prohibited by Section 302(b)(1) of Act in absence of signed bargaining agreement or letter of understanding, and bargaining agreement had expired, unlawful, since *written agreement* requirement of Act is not limited to bargaining agreement and there was in effect written trust agreement between parties; further, refusal was to pressure Es to sign letters of understanding with U)

3333-8900 Contractual arbitration provision

Carpenters' District Council of St. Louis, an affiliate of Carpenters (Dan Ficken Construction Company) 276 NLRB No. 071

3333-9300 Fine levied against union member employer

Electrical Workers Local Union #46 (PAC, Inc.) 273 NLRB No. 167

(U discipline (fine) of charging party - member of U and President of E - for refusing to sign bargaining agreement, violative, since action had foreseeable effect of interfering with charging party's duties as E's representative for purposes of collective bargaining or adjustment of grievances)

[supervisor held to have exercised both collective bargaining and grievance handling functions for purposes of 8(b)(1)(B) where he determined what kind of work was maintenance work under bargaining agreement and assigned such work and he was involved in various Ee problems before they became grievances; it is not necessary in the construction of 8(b)(1)(B) that a representative handle contractual grievances to be considered a representative]

[expelling supervisor, who is also representative of E, from U membership for crossing a U picket line to perform his regular supervisory duties, including adjustment of grievances, held violative, since it is clear that E did *not* clearly and unmistakably waive its right under Sec. 8(b)(1)(B) of Act to be free from Respondent's restraint or coercion in selecting Assistant Chief Engineer as its representative for either collective bargaining or grievance adjustment purposes notwithstanding that under contract supervisor included in bargaining unit]

0162 UNION ACQUIESCENCE IN EMPLOYER DISCRIMINATION

Donald Dunn d/b/a D.C. Construction Company 276 NLRB No. 097

(U held not to have unlawfully caused E's denial of reemployment to previously laid off Ee where, apart from single ambiguous confrontation between 2 U officials, which may or not be viewed as suggestive of U causation, there was no corroborative link tending to implicate U in any unlawful hiring scheme by demanding that E take alleged unlawful action)

2000 FORMS OF PRESSURE

2017 INDIRECT AS WELL AS DIRECT PRESSURE PROHIBITED

Graphic Arts International Union, Local 280 (Belzer-Shapes Litho Plate Company) 274 NLRB No. 119

(no violation where U did not cause or attempt to cause E to discharge Ee, as alleged; U official was not hostile to Ee because of Ee's apparent suspension by sister local or his failure as yet to join U pursuant to U security clause, as alleged, but, upon being told by E's officer that E was dissatisfied with Ee's conduct, simply asked what E intended to do, and, when E's officer said that E intended to discharge Ee, U official commented that U therefore would not pursue Ee's membership application)

Iron Workers, Local No. 111 (Northern States Steel Builders, Inc.) 274 NLRB No. 110

(U's requesting E to hire its members to replace travelers and draw up a layoff list when it knew E had no present plans to layoff and asking travelers to quit their job so U's unemployed members could work violative; U, in asking E to hire its members and layoff travelers, was not seeking job availability information but instead was attempting to pressure E into discriminatorily replacing travelers with its members and further, U's actions of coercing travelers to quit was form of *indirect* pressure on E to discriminate against travelers and accede to U request)

2035 UNION LIABLE FOR FORESEEABLE CONSEQUENCES OF CONDUCT

Graphic Arts International Union, Local 280 (Belzer-Shapes Litho Plate Company) 274 NLRB No. 119

N.L.R.B. (Steven R. Lowell, etc.) v. Electrical Workers, Local 11 772 F.2d 571 (C.A. 9, Sep. 1985)

(by setting additional requirements than those provided for in contract for travellers to qualify for preferred group in referral from hiring hall w/o informing members of these requirements, U discriminated against Ees in regard to hire or tenure of employment to encourage or discourage membership in labor organization; no discriminatory intent need be proven by specific evidence of motive or purpose but may be inferred from natural and foreseeable consequences of local's conduct)

Glaziers Local Union 558 v. N.L.R.B. 787 F.2d 1406 (C.A. 10, Mar. 1986)

[while real motive or true purpose underlying challenged conduct is controlling, specific intent to encourage or discourage U membership is not always necessary to sustain violations of Section 8 of the Act; discrimination may be inferred and some conduct may by its very nature contain implications of required intent; natural foreseeable consequences of certain action may warrant inference; however, where intent is inferred from conduct, it may be difficult to identify true motive because of possible complex of motives]

Glaziers Local Union 558 v. N.L.R.B. 787 F.2d 1406 (C.A. 10, Mar. 1986)

[Bd's inference of illegal motive, from U efforts to replace *permit* men who were temporary Ees, with journeymen from U's hiring hall, rejected, since encouragement of U membership is not consequence that *inescapably flows* from U's action such that U is presumed to have intended it, where long-standing practice of E was to seek journeymen from U and in traditional operation of U's referral system, *permit* men were considered temporary Ees with no expectation of permanent employment]

2067 REFUSAL TO REFER EMPLOYEES

Millwright and Machinery Erectors, Local Union 720, Carpenters (Stone & Webster Engineering Corp., etc.) 274 NLRB No. 219

(U business agent's causing contractor to rescind proper name request for referral of Ee, violative notwithstanding business agent was acting in honest effort to spread scarce work more evenly among unemployed Ees and at no time in discussion did U business agent mention Ee's name, since U business agent had no authority to alter name request provisions of labor agreement; that he intended no harm to any specific Ee, but rather sought to aid membership-at-large was no legal defense)

1115, Nursing Home and Hospital Employees Union, A Division of 1115 Joint Board 275 NLRB No. 045

(U's filing ptn in S.Ct of N.Y. to confirm that portion of arbitrator's award determining that U gained majority support of Ees in several previously unrepresented departments of E, violative, since award was based on *tainted authorization cards*, obtained by supervisors' assistance removing them as basis for attaining majority support; no deferral as decision of arbitrator palpably wrong as it seeks to achieve prohibited objective and lacks reasonable basis in fact and law)

Bakery Workers, Local 42 (Gold Kist, Inc.) JD-(ATL)-42-85

(by requesting E to continue dues checkoff after Ees had resigned and by taking steps to grieve refusal of E to continue disputed checkoffs, U violated Act, notwithstanding Ees executed checkoff authorization since authorization directed deduction of dues *in accordance with regular membership dues* making payment of dues a quid pro quo for U membership and thereby revoking dues checkoff assignment as matter of law at time of each effective resignation from U membership. Therefore, by taking such action, U directly impairs Ee's Sec. 7 right to resign when it seeks to delay member's resignation)

4000 MEANS OF ATTEMPTING TO CAUSE DISCRIMINATION

4001 GENERALLY

Glaziers, Architectural Metal and Glass Workers Local Union No. 558 a/w Painters (Bruce Raney, an Individual) 279 NLRB No. 023

[U steward informing Ee in presence of E's superintendent, who was also Ee's supervisor, thatEe could not work without paying *high time* insurance premium, followed by immediate granting Ee time off to go pay premiums, constituted unlawful request to discriminate since motive was Ee's efforts to achieve clearance into local U, in view of previous threats to Ee; notwithstanding no direct demand on E to discriminate where communication could be construed as inducement for action, inasmuch as remarks made in presence of superintendent implied request for cooperation]

Road Sprinkler Fitters Local Union No. 669 a/w Plumbers v. N.L.R.B. 778 F.2d 292 (C.A. D.C., Dec. 1985)

[Bd properly holds that U conduct which causes firing or prevents hiring demonstrates U's power so dramatically that its illegality is presumed; however, U can rebut such presumption by showing that its action *was necessary to effective performance of its function of representing its constituency*; for this purpose, merely demonstrating that it would be convenient for U, in enforcing its own internal rules of conduct, to have available an employment-related sanction, is insufficient]

4001-5000 Where illegal agreement or practice exists

Teamsters Local 42, a/w Teamsters (J.W. Daly, Inc.) 281 NLRB No. 132

[U's estsblishing seniority list which placed bargaining unit Ees at E's more recently organized plant behind previously unionized Ees at another of E's facilities, violative, since U could not refuse to consider or negotiate a dovetailing system solely because Ees at E's non-U plant joined U more recently than did Ees at E's unionized plant. By favoring Ees at its unionized plant, U in effect (if not intent) penalized Ees of non-U plant for refraining from engaging in U activity]

4020 EXECUTION OR MAINTENANCE OF AGREEMENTS CONTAINING ILLEGAL PROVISIONS

4020-3000 Revocation of checkoff

The Hearst Corporation, San Antonio Light Division 281 NLRB No. 113

[U's demanding that E continue deducting dues from Ees who lawfully resigned from U, violative, notwithstanding Ees had failed to request revocation of dues deduction, since Ees' dues deduction authorizations made payment of dues a quid pro quo for U membership where contract established E would deduct all *membership dues* levied by U and authorizations assigned all *membership dues* to U, thus, it was clear dues were quid pro quo for U membership and was not intended to meet any other U financial obligations such as *financial core* payments]

Bakery Workers, Local 42 (Gold Kist, Inc.) JD-(ATL)-43-85

(by requesting E to continue dues checkoff after Ees had resigned and by taking steps to grieve refusal of E to continue disputed checkoffs, U violated Act, notwithstanding Ees executed checkoff authorization since authorization directed deduction of dues *in accordance with regular membership dues* making payment of dues a quid pro quo for U membership and thereby revoking dues checkoff assignment as matter of law at time of each effective resignation from U membership. Therefore, by taking such action, U directly impairs Ee's Sec. 7 right to resign when it seeks to delay member's resignation)

4020-8000 Seniority provisions

Electronic Workers IUE, Local 663 (Gulton Electro Voice) 276 NLRB No. 109

(U's invoking contractual grievance procedure on or after U vice president filed grievance seeking reinstatement to job from which she had been bumped (contract granted U vice president *superseniority* for job bumping purposes) violative, since on-the-job presence of U vice president not necessary for performance of grievance processing duties and if grievant successful, result would displace another Ee)

Electronic Workers IUE, Local 663 (Gulton Electro Voice) 276 NLRB No. 109

(while grant of contractual superseniority to chief steward as to layoff and recall, lawful, lawfulness did not extend to job bumping protection since here, unlike *Scovill*, 266 NLRB 952, E had only one shift, and chief steward had plantwide responsibilities and so did not need to be in any particular job in order to perform plantwide grievance duties effectively)

Electronic Workers IUE, Local 663 (Gulton Electro Voice) 276 NLRB No. 109

(contention that superseniority grant of job bumping protection is lawful because, w/o such protection, chief steward may quit her job or stewardship, rejected, because it remains U's task to build and maintain its own organization, and where immediate problem is simply matter of encouraging Ees to serve as U representative U can handle situation by simply paying Ees or giving them other nonjob benefits)

Hotel and Restaurant Employes, Local 54 (Boardwalk Regency Corp-d/b/a Caesars Atlantic City) JD-104-86

[attempting to enforce shop stewards' contractual superseniority as to shift retention, not violation, since it protects continuity of U representation on shift because, stewards are responsible for processing grievances under contract, and presumption of lawfulness of their superseniority has not been rebutted]

Hotel and Restaurant Employes, Local 54 (Boardwalk Regency Corp-d/b/a Caesars Atlantic City) JD-104-86

[enforcing shop stewards' contractual superseniority for selecting days off, violation where U failed to establish that superseniority would be used to further representation process]

N.L.R.B. v. Local 1131, Local 1161, Auto Workers 777 F.2d 1131 (C.A. 6, Dec. 1985)

[determination of what circumstances justify discrimination inherent in any award of superseniority, w/i Bd's discretion]

N.L.R.B. v. Local 1131, Local 1161, Auto Workers 777 F.2d 1131 (C.A. 6, Dec. 1985)

[contention that preferential seniority for U officials in necessary to promote efficient and effective U representation, rejected, since U is responsible for maintaining its own organization, using job related benefits to do so is contrary to statutory purpose, and U has other means of accomplishing same end]

N.L.R.B. v. Local 1131, Local 1161, Auto Workers 777 F.2d 1131 (C.A. 6, Dec. 1985)

[contention that preferential seniority for non-steward U officials is not so inherently destructive of Ee rights that it should be held unlawful in spite of legitimate justification, rejected, since Bd's finding that only contract administration requiring U officials to be on the job justifies superseniority is not irrational or contrary to the Act, and cases cited in support of contention do not apply where they involve specific legislation, rather than superseniority clauses concerning which Congress did not legislate, and Selective Service Act's, rather than NLRA Sec. 7's, protection of Ee rights]

N.L.R.B. v. Local 1131, Local 1161, Auto Workers 777 F.2d 1131 (C.A. 6, Dec. 1985)

[maintaining and attempting to enforce contractual clauses granting superseniority for layoff to U's recording secretary and financial secretary, respectively, solely because of their status as U officials, violations where their presence on the job was not necessary for contract administration]

Local 1384, Auto Workers v. N.L.R.B. 756 F.2d 482 (C.A. 7, Feb. 1985)

(granting U officer superseniority which enabled him to displace more senior Ee, violative, since officer was not necessary to administration of contract on the job; Bd considered Ees' right not to have job benefits tied to U activism more important than right to bargain through chosen representative and adjudged superseniority's lawfulness based on how much it encouraged U activism, not how little it discriminated; promotion of U's effectiveness and efficiency insufficient basis for U officer's superseniority after *Gulton*, and Bd has not endorsed U's allegation that superseniority assisted Ees' exercise of their rights

4020-8000—Cont.

Local 1384, Auto Workers v. N.L.R.B. 756 F.2d 482 (C.A. 7, Feb. 1985)

(granting U recording secretary seniority as to shift preference by assigning her to day shift solely because it would make communication with U president easier, violative, since gain in convenience from face-to-face over telephonic or documentary communication did not justify tying seniority-linked job benefit to U office while denying it to Ee whose seniority otherwise entitled her to it)

Local 1384, Auto Workers v. N.L.R.B. 756 F.2d 482 (C.A. 7, Feb. 1985)

]*Gulton* rule as to U officer's superseniority not misapplied to U recording secretary's assignment to day shift, notwithstanding her contract administrative duties, since under *Gulton* rule persons with on-the-job contract administrative duties may lawfully be granted only such seniority as is necessary to enable them to stay on the job to carry out those duties, and recording secretary did not have such duties)

Local 1384, Auto Workers v. N.L.R.B. 756 F.2d 482 (C.A. 7, Feb. 1985)

(contention that U has waived Ee rights Bd seeks to vindicate under *Gulton* rule restricting U officers' superseniority to that necessary for on-the-job contract administration, rejected; Bd is protecting, not Ees' economic right, but their right to be free of discrimination that encourages U activism, and U cannot waive it through bargaining, since its purpose is to protect Ees from U conduct that benefits U at expense of Ees' Sec. 7 rights, and waiver would impair Ees' choice of U by enabling incumbent to encourage Ees' support through lure of employment benefits tied to U positions)

4060 ATTEMPTS TO ENFORCE VALID AGREEMENTS OR PRACTICES IN AN ILLEGAL MANNER (SEE 548- 6000)

Bakery Workers, Local 42 (Gold Kist, Inc.) JD-(ATL)-42-85

Retail Delivery Drivers, Driver-Salesmen, and Helpers,Local 278, a/w Teamsters (Labor Management Services, Inc. d/b/a L.M.S. Company) JD-(SF)-61-85

(U insisting upon application of bargaining agreement, including U-security provisions, to E's Ees at new location, violative, as this same issue was subject of UC proceeding in which RD held there was no accretion. E under no obligation to go to arbitration after UC proceeding though contract provides for arbitration)

Glaziers Local Union 558 v. N.L.R.B. 787 F.2d 1406 (C.A. 10, Mar. 1986)

[U's continued efforts to have E replace *permit* men, who were traditionally temporary Ees under U's hiring agreement, with journeymen through U's hiring hall, not violative or inherently destructive of Ee rights, where U and E's referral practice had been in existence for years, U was not motivated by *permit* men's non-U status but rather by need to put experienced journeymen to work and such practice, although not contractually prescribed, is not *per se* illegal or illegitimate]

Glaziers Local Union 558 v. N.L.R.B. 787 F.2d 1406 (C.A. 10, Mar. 1986)

[fact that U's referral system, giving priority in jobs to experienced journeymen rather that inexperienced *permit* men, was not contractually prescribed, does not compel conclusion that U's desire to preserve system by asking E to replace *permit* men who were non-members, was based on illegal motives; U's desire was to protect apprenticeship program and fact U told members they could be fined for working beside *permit* men, was not beyond reasonable action taken to achieve effective representation of U's members]

6010 EXECUTION, MAINTENANCE AND/OR ENFORCEMENT OF AGREEMENT ENTERED INTO BY MINORITY UNION

Ryder/P.I.E. Nationwide 275 NLRB No. 084

(E's and U's execution of contract, found violative of 8(a)(2) and 8(b)(1)(A) because U did not have valid majority in Ee unit at time contract was executed, held not violative of 8(a)(3) or 8(b)(2) since contract did not have U-security provision)

Rainey Security Agency, Inc. 274 NLRB No. 041

(E violated 8(a)(3) and U violated 8(b)(2) by including U security clause in contract which they had unlawfully entered into, and thereafter by enforcing it, where U did not represent uncoerced majority either because it never obtained authorization cards from majority of Ees or because, if it did, authorization cards may have been poisoned by dues deduction forms furnished to applicants to fill out even before E's operations had begun and by accompanying statements made by U's agents that applicants had to join U)

6020 EXECUTION, MAINTENANCE AND/OR ENFORCEMENT OF AGREEMENT MADE WHILE QUESTION OF REPRESENTATION PENDING

Metropolitan Teletronics Corp. 279 NLRB No. 134

[U's acceptance of recognition as representative of E's new plant Ees transferred from E's two old plants and execution of contract covering them, not violation where U had previously represented 63 percent of Ees when employed at old plant, and other U had only represented 5 percent of merged work force and had no colorable claim]

(U's entering into contract with E after E withdrew recognition from another U which was striking E over failure of contract negotiations, not violative, since no R ptn had been filed with Bd thus raising qcr, and E had objective considerations for doubting striking U's majroity status where striking Ees had been on strike for over a year, all strikers had been permanently replaced and 13 of 17 current Ees had freely sign-cards authorizing instant U to represent them, giving no indication of support for striking U)

Haddon House Food Products, Inc. and Flavor Delight, Inc. v. N.L.R.B. 764 F.2d 182 (C.A. 3, June 1985)
(E's recognizing and entering into contract containing U security with U purusuant to card check, and that U's accepting recognition and entering into contract, violative, since, at time above events took place, there was real qcr where another U had on file with Bd a valid R ptn known to E at time it recognized former U; further, former U's defense that it had no knowledge of latter U's R ptn at time it initiated card check, rejected)

6030 HIRING AND EMPLOYMENT AGREEMENTS AND PRACTICES

6030-0100 Generally

Laborers', Local No. 373 (Arrow Enterprises) 282 NLRB No. 053
[in absence of lawful exclusive hiring hall agreement, U violates 8(b)(2) when it causes or attempts to cause E not to hire Ee because of conduct protected by Sec. 7]

Carpenters Local 608 (Various Employers) 279 NLRB No. 099
[U held to operate an exclusive hiring hall, notwithstanding E retained right to hire 50% of total workforce]

Donald Dunn d/b/a D.C. Construction Company 276 NLRB No. 097
(fact that E discriminates to encourage U membership on basis of its own perception of its obligations to U imposes no automatic liability upon U where E's action is *not* taken under compulsion of exclusive hiring arrangement or pursuant to U request)

Millwright and Machinery Erectors, Local Union 720, Carpenters (UMC of Louisiana, Inc.) 276 NLRB No. 010
(even in absence of unlawful motivation, any departure by U from established exclusive hiring hall procedures resulting in denial of employment is discrimination which inherently encourages U membership, breaches duty of fair representation and violates 8(b)(1)(A) and (2), unless U demonstrates that its interference with employment was pursuant to valid U-security clause or was necessary to effective performance of its representative function)

Carpenters Union Local No. 25 v. N.L.R.B. 769 F.2d 574 (C.A. 9, Aug. 1985)

N.L.R.B. (Steven R. Lovsall, etc.) v. Electrical Workers, Local 11 772 F.2d 571 (C.A. 9, Sep. 1985)
(by setting additional requirements than those provided for in contract for travellers to qualify for preferred group in referral from hiring hall w/o informing members of these requirements, U discriminated against Ees in regard to hire or tenure of employment to encourage or discourage membership in labor organization; no discriminatory intent need be proven by specific evidence of motive or purpose but may be inferred from natural and foreseeable consequences of local's conduct)

Plumbers, Local Union No. 447 (NPS Energy Services, Inc.) 281 NLRB No. 010
[changing established contractual exclusive hiring hall procedures to require that travellers be sent by their local U business managers w/o timely notifying users, violation absent evidence change was required for local's effective performance of its representative function; contention that change was necessary for local's reciprocal arrangement with other locals to apportion available jobs among locals rejected]

Plumbers, Local Union No. 447 (NPS Energy Services, Inc.) 281 NLRB No. 010
[refusing to register and dispatch travellers because they were not sent by their local's business manager, violation, as such procuedure failed to comply with international U's constitutional guidelines and contractual exclusive hiring hall procedures and resulted in denying travellers employment]

Big E Leasing and Service Corp. and RJE Leasing, Pittsburgh Division, Corp. 275 NLRB No. 182
(U's referring job applicants under hiring hall provisions of illegal prehire agreement and causing E to refuse to employ Ees w/o U referral, violative)

Local No. 11, Electrical Workers (Kirkwood Electric Co.) JD-(SF)-5-85
(violation where U refused to refer Ee pursuant to U security clause because he could not produce a current dues receipt, notwithstanding U had received and logged his dues a week before, and dropped his name to bottom of referral list because it treated his nonproduction of dues receipt as rejection of referral)

Boilermakers, Local Lodge No. 60 (Henry Valencia, an Individual) JD-13-85

Carpenters Union Local No. 25 v. N.L.R.B. 769 F.2d 574 (C.A. 9, Aug. 1985)
(U that refused to properly dispatch workers is *clearly the cause of the E's refusing to hire these men*)

Glaziers Local Union 558 v. N.L.R.B. 787 F.2d 1406 (C.A. 10, Mar. 1986)
[Bd's inference of illegal motive, from U efforts to replace *permit* men who were temporary Ees, with journeymen from U's hiring hall, rejected, since encouragement of U membership is not consequence that *inescapably flows* from U's action such that U is presumed to have intended it, where long-standing practice of E was to seek journeymen from U and in traditional operation of U's referral system, *permit* men were considered temporary Ees with no expectation of permanent employment]

Glaziers Local Union 558 v. N.L.R.B. 787 F.2d 1406 (C.A. 10, Mar. 1986)
[fact that U's referral system, giving priority in jobs to experienced journeymen rather that inexperienced *permit* men, was not contractually prescribed, does not compel conclusion that U's desire to preserve system by asking E to replace *permit* men who were non-members, was based on illegal motives; U's desire was to protect apprenticeship program and fact U told members they could be fined for working beside *permit* men, was not beyond reasonable action taken to achieve effective representation of U's members]

6030-3330 Preference to union members and/or members of local

Stage Employees, Local No. 41 (Atlanta Ballet) 280 NLRB No. 065
[forcing discharge of Ee specifically requested by ballet company who was on U's *C* list and refusing to refer Ee in accordance with established procedure and expired contract by which terms parties were still abiding violation, where U took such action because E had not agreed to new contract]

Iron Workers, Local No. 111 (Northern States Steel Builders, Inc.) 274 NLRB No. 110
(U's requesting E to hire its members to replace travelers and draw up a layoff list when it knew E had no present plans to layoff and asking travelers to quit their job so U's unemployed members could work violative; U, in asking E to hire its members and layoff travelers, was not seeking job availability information but instead was attempting to pressure E into discriminatorily replacing travelers with its members and further, U's actions of coercing travelers to quit was form of *indirect* pressure on E to discriminate against travelers and accede to U request)

M. W. Kellogg Constructors, Inc. 273 NLRB No. 134
(causing E to discriminate against travelers in assigning unscheduled overtime and selecting Ees for layoff because of nonmembership in local U, violative; discriminatory E-U understanding inferable where both E and U said travelers would not be assigned unscheduled overtime, travelers were laid off while local U members were being hired and were told that fighting it meant not working in area again, travelers could not examine dispatch books to verify their placement and U's adherence to dispatch system, and U said Book I was reserved for local U members and even qualified traveler would not receive Book I status)

Waterfront Service Co., Inc. JD-171-86
[maintaining and enforcing contractual referral provision which, on its face, conditioned work opportunities on membership in or clearance by U, violation]

Boilermakers, Local Lodge No. 60 (Henry Valencia, an Individual) JD-13-85
(U's maintenance of *second out-of-work list* in hiring hall situation which was for use by nonmembers and from which list no referrals made, violative)

M. W. Kellogg Constructors, Inc. v. N.L.R.B. 806 F.2d 1433 (C.A. 9, Dec. 1986)
[ct denies enforcement of Bd decision that found U and E unlawfully preferred local U members over travellers in layoff and overtime decisions, and remands for findings concerning whether statements of supervisors and stewards that locals would receive such preference constituted admissions of unlawful motive or were instead, as Respondents contended, merely descriptions of practical affect of applying lawful 8(f)(4) agreement]

Iron Workers, Local No. 111 v. N.L.R.B. 792 F.2d 241 (C.A. D.C., June 1986)
[Bd properly found that U's direct dealings with E were unlawful efforts to cause E to discriminate against travelers by replacing them with U's mem-

bers, where U made repeated requests of E to hire its members or to prepare *layoff lists*; such requests were inconsistent except as invitation to fire some workers and hire others; there was no reason to believe E had any reason either to hire or fire; and added to all this was background of dispute between travelers and U]

6030-3335 Preference to union officers

Electronic Workers IUE, Local 663 (Gulton Electro Voice) **276 NLRB No. 109**

(U's invoking contractual grievance procedure on or after U vice president filed grievance seeking reinstatement to job from which she had been bumped (contract granted U vice president *superseniority* for job bumping purposes) violative, since on-the-job presence of U vice president not necessary for performance of grievance processing duties and if grievant successful, result would displace another Ee)

Mead Packaging **273 NLRB No. 181**

(E's unilateral discontinuance of insurance and pension benefits to U officers on leaves of absence for purpose of holding U office, not violative; granting such benefits to U officers alone under provision of contract would violate 8(a)(3) and 8(b)(2), since granting such benefits to U officers did not further effective administration of E's bargaining agreement where U officers were on U's payroll and acted as representatives of Ees at other Es premises, engaging in engotiations and arbitrations, and generally monitored compliance with U's bargaining agreements and further, granting of such benefits was not available to other Ees on an equal basis)

N.L.R.B. v. Local 1131, Local 1161, Auto Workers **777 F.2d 1131 (C.A. 6, Dec. 1985)**

[contention that preferential seniority for U officials in necessary to promote efficient and effective U representation, rejected, since U is responsible for maintaining its own organization, using job related benefits to do so is contrary to statutory purpose, and U has other means of accomplishing same end]

N.L.R.B. v. Local 1131, Local 1161, Auto Workers **777 F.2d 1131 (C.A. 6, Dec. 1985)**

[contention that preferential seniority for non-steward U officials is not so inherently destructive of Ee rights that it should be held unlawful in spite of legitimate justification, rejected, since Bd's finding that only contract administration requiring U officials to be on the job justifies superseniority is not irrational or contrary to the Act, and cases cited in support of contention do not apply where they involve specific legislation rather than superseniority clauses concerning which Congress did not legislate, and Selective Service Act's, rather than NLRA Sec. 7's, protection of Ee rights]

N.L.R.B. v. Local 1131, Local 1161, Auto Workers **777 F.2d 1131 (C.A. 6, Dec. 1985)**

[maintaining and attempting to enforce contractual clauses granting superseniority for layoff to U's recording secretary and financial secretary, respectively, solely because of their status as U officials, violations where their presence on the job was not necessary for contract administration]

6030-3340 In selection for hiring

Laborers', Local No. 373 (Arrow Enterprises) **282 NLRB No. 053**

[U operating non-exclusive hiring hall held to have unlawfully attempted to cause and caused E not to hire U member in good standing in order to retaliate against him because he had filed intra-U charges]

Carpenters Union Local No. 25 v. N.L.R.B. **769 F.2d 574 (C.A. 9, Aug. 1985)**

(even single instance of discriminatory treatment will support finding of ULP when hiring hall rules are not followed)

6030-3360 In continued employment

Upholsterer's, Local Union 406 (Boyertown Casket Company) **280 NLRB No. 134**

[U's attempting to cause the discharge of Ee who had resigned from U and attempting to refund Ee's dues assertedly because Ee had resigned, violative, where Ee, although having resigned from U, had still complied with U security agreement by tendering dues (Ee was thus only a *financial core* member) and Ee's only obligation to U after resignation, was to tender initiation fees and dues]

Stage Employees, Local No. 41 (Atlanta Ballet) **280 NLRB No. 065**

[forcing discharge of Ee specifically requested by ballet company who was on U's *C* list and refusing to refer Ee in accordance with established procedure and expired contract by which terms parties were still abiding violation, where U took such action because E had not agreed to new contract]

Shipbuilders, Local No. 9 (Todd Pacific Shipyards) **279 NLRB No. 087**

[U's causing or attempting to cause E to transfer Ee to another ship and attempting to cause E to demote him from shipfitter leadman position, violative]

Penn Yan Express, Inc. **274 NLRB No. 037**

(U principal officer's causing E to discharge Ee for supporting losing candidate in U election, violative where U official acted with apparent authority of U in that he could reasonably have been believed to be acting on U's behalf)

M. W. Kellogg Constructors, Inc. **273 NLRB No. 134**

(causing E to discriminate against travelers in assigning unscheduled overtime and selecting Ees for layoff because of nonmembership in local U, violative; discriminatory E-U understanding inferable where both E and U said travelers would not be assigned unscheduled overtime, travelers were laid off while local U members were being hired and were told that fighting it meant not working in area again, travelers could not examine dispatch books to verify their placement and U's adherence to dispatch system, and U said Book I was reserved for local U members and even qualified traveler would not receive Book I status)

Union Local 20408, United Warehouse, Industrial and Affiliate Trades Employees Union (Dubovsky & Sons, Inc., et al.) **JD-(NY)-54-86**

[incumbent U unlawfully caused transfer/demotion of Ee from driver to order picker where transfer/demotion was on recommendation of shop committee, since shop committee held to be agent of U and action taken because of Ee's support of rival U, where U had previously come to Ee's defense regarding complaints about his driving until he protested incumbent U's waiver of negotiated wage increase and began to support recognition of another U]

M. W. Kellogg Constructors, Inc. v. N.L.R.B. **806 F.2d 1435 (C.A. 9, Dec. 1986)**

[ct denies enforcement of Bd decision that found U and E unlawfully preferred local U members over travellers in layoff and overtime decisions, and remands for findings concerning whether statements of supervisors and stewards that locals would receive such preference constituted admissions of unlawful motive or were instead, as Respondents contended, merely descriptions of practical affect of applying lawful 8(f)(4) agreement]

6030-3380 Union control over hiring and employment

Oil Field Construction Company **JD-(SF)-104-86**

[even assuming foreman, who was also U president and steward, caused or attempted to cause E to discriminate against Ees, ALJ held U did not thereby violate Act, since foreman was not acting w/i scope of his authority as agent of U but was acting as agent of E where, as supervisor he was intimately involved in job assignment process, while, as steward, his sole authority was to adjust Ee grievances, and, as U president, to preside over U meetings and to sign checks and official documents]

Carpenters Union Local No. 25 v. N.L.R.B. **769 F.2d 574 (C.A. 9, Aug. 1985)**

(even single instance of discriminatory treatment will support finding of ULP when hiring hall rules are not followed)

Glaziers Local Union 558 v. N.L.R.B. **787 F.2d 1406 (C.A. 10, Mar. 1986)**

[U's continued efforts to have E replace *permit* men, who were traditionally temporary Ees under U's hiring agreement, with journeymen through U's hiring hall, not violative or inherently destructive of Ee rights, where U and E's referral practice had been in existence for years, U was not motivated by *permit* men's non-U status but rather by need to put experienced journeymen to work and such practice, although not contractually prescribed, is not *per se* illegal or illegitimate]

6030-3380-2500 Hiring or assignment of foreman and leadman

Shipbuilders, Local No. 9 (Todd Pacific Shipyards) **279 NLRB No. 087**

[U's causing Ee to resign his leadman position as result of Ee's performance of leadman's duties, violative where resignation was not truly voluntary act but instead demotion was constructively caused by U's unlawful pressure on E and Ee]

6030-3380-3300 Union stewards

Automobile Workers, Local No. 1309 (International Harvester Company) **JD-18-86**

[U's invoking superseniority clause of contract to keep pyrometer steward on job, not unlawful discrimination against two Ees who were not allowed to bump steward from sole remaining pyrometer position but were laid off, notwithstanding U's letter stating it did not intend to have steward granted superseniority to represent himself and lack of pyrometer Ees remaining on job for steward to represent, since U letter was not binding contract but statement of intent, and steward was required on job to protect unit work, police its assignment, and represent laid-off Ees' recall rights]

6030-3380-3600 Competency tests and apprenticeship requirements

Local No. 136, Plumbers (R. F. Shaw Company) **280 NLRB No. 099**

[individual's availability, dependability, regularity of service as well as competency are all nondiscriminatory considerations in determining order of job referals by U; whether individual maitained his card on deposit and paid traveler card dues is also legitimate nondiscriminatory consideration]

Glaziers Local Union 558 v. N.L.R.B. **787 F.2d 1406 (C.A. 10, Mar. 1986)**

[fact that U's referral system, giving priority in jobs to experienced journeymen rather that inexperienced *permit* men, was not contractually prescribed,

6030-3390 Coercing employer to discriminate in employment

Carpenters Union Local No. 25 v. N.L.R.B. 769 F.2d 574 (C.A. 9, Aug. 1985)

(U that refused to properly dispatch workers is *clearly the cause of the E's refusing to hire these men*)

6030-3390-7500 Discharge nonunion employees

Local 441, International Union of Electrical, Radio & Machine Workers, AFL-CIO (Phelps Dodge Copper Products Company, a Division of Phelps Dodge Industries, Inc.) 281 NLRB No. 137

[U's attempt to restrict member's right to resign even when no strike or lockout present or imminent, violative, as *any* restriction on resignations are invalid, and attempt to cause E to discharge member also violative. Furthermore, U breached its fiduciary duty by not informing member of proper resignation procedure]

Carpenters, Local No. 2310 (Hazex Construction Co.) 280 NLRB No. 047

[where no contract, U sent member to E to fill job already occupied by nonmember, and E laid off one employed earlier to make room for member referred, violative, notwithstanding U did not specifically demand layoff of nonmember already employed. It is cause and effect that is important]

Laborers, Local Union No. 644 (Kellerman Brothers Construction Compan) 278 NLRB No. 163

[U's refusal to refer or consider non-member for referral while members of U were unemployed, violative; further, U's picketing E for employing nonmember, causing E to discharge non-member by threatening to stop construction and threatening non-member with bodily harm if he continued working for E, violative]

Greg Construction Co. 277 NLRB No. 163

(discharge of Ees to avoid paying wage rate in U contract, rather than because U demanded discharged because they were not U members, not unlawful)

Stage Employees IATSE, Local 46 (Joseph Cates Company) JD-(ATL)-55-86

[causing E to hire U members instead of nonU applicants who had been given commitments to be hired by threatening E with informational picketing, violation]

N.L.R.B. v. Electrical Workers, Local 952 758 F.2d 486 (C.A. 9, Apr. 1985)

(violation for fining U member-E as true purpose of fine was to force E to bring improper pressure to bear against his nonunion Ees to join U. Evidence showed that internal U charge against E referred to him as *owner of company*, and magnitude of fine, $20,000, with $5000 suspended if E would not commit further violations of U constitution; namely, working with nonunion Ees)

6030-6700 Discrimination in application of valid provisions and agreements

6030-6701 Generally

6030-6701-5000 Actual discrimination must be shown

Carpenters Union Local No. 25 v. N.L.R.B. 769 F.2d 574 (C.A. 9, Aug. 1985)

(no specific intent to discriminate need be shown to support finding of ULP in improper operation of hiring hall)

6030-6712 In registration for referral

Plumbers, Local No. 198 v. N.L.R.B. 747 F.2d 326 (C.A. 5, Nov. 1985)

(Bd's holding that local U discriminated against travelers and nonmembers as compared with local U members in operating its hiring hall supported by substantial evidence: U's *A* book was restricted to local U members, and *B* book was used only after *A* book was exhausted; requiring *B* book job applicants to sign list each day burdened travelers and nonmembers; periodic discontinuation of *B* book violated local U's own procedures; U resisted production of *B* book until contempt procedures were initiated; and GC's statistics, though not determinative, at least suggested discrimination)

6030-6725 In referral

Millwright and Machinery Erectors, Local Union 720, Carpenters (UBC of Louisiana, Inc.) 276 NLRB No. 010

(even in absence of unlawful motivation, any departure by U from established exclusive hiring hall procedures resulting in denial of employment is discrimination which inherently encourages U membership, breaches duty of fair representation and violates 8(b)(1)(A) and (2), unless U demonstrates that its interference with employment was pursuant to valid U-security clause or was necessary to effective performance of its representative function)

6030-6725-0100 Generally

Local No. 136, Plumbers (B. F. Shaw Company) 280 NLRB No. 059

[while subjective criteria used by U agents in determining whom to refer to jobs leaves referral system open to all kinds of abuses, it is not w/i Bd's province to design or redesign system or lack of system which U may use in operating its hiring hall; rather, Bd is confined to determining whether unlawful discrimination has *in fact* been practiced; if strict rules of operation are to be required in running hiring hall, it is up to legislature, not Bd, to provide such]

Carpenters, Millwright Local 1412 (Oscar J. Boldt Construction Co.) JD-284-85

(violation, where bypass of Ees on out of work list gave rise to *prima facie* case of unlawful discrimination, thus shifting burden to U to show that preference accorded Ees beneath bypassed Ees on list was pursuant to legitimate, objective, hiring hall criteria which U failed to do)

Carpenters Union Local No. 25 v. N.L.R.B. 769 F.2d 574 (C.A. 9, Aug. 1985)

(U that refused to properly dispatch workers is *clearly the cause of the E's refusing to hire these men*)

6030-6725-0200 Failure to maintain records

Local No. 136, Plumbers (B. F. Shaw Company) 280 NLRB No. 059

[U's failure to keep adequate records sufficient to enable GC to prove pattern of discrimination in U's job referrals, standing alone, held not unlawful, since conceivably U could prove by means of other evidence that it had consistently used objective standards for referrals w/o having established any written rules or kept any written records]

Teamsters Local Union #519 (Rust Engineering Co.) 276 NLRB No. 094

(violation, where U discarded referral cards of U dissidents; contention cards discarded because dissidents did not comply with alleged rule which required personally signing card monthly to renew registration, rejected, since other members were allowed to call in to renew their registration)

Plumbers, Local No. 198 v. N.L.R.B. 747 F.2d 326 (C.A. 5, Nov. 1985)

(Bd's holding that local U discriminated against travelers and nonmembers as compared with local U members in operating its hiring hall supported by substantial evidence: U's *A* book was restricted to local U members, and *B* book was used only after *A* book was exhausted; requiring *B* book job applicants to sign list each day burdened travelers and nonmembers; periodic discontinuation of *B* book violated local U's own procedures; U resisted production of *B* book until contempt procedures were initiated; and GC's statistics, though not determinative, at least suggested discrimination)

6030-6725-1700 Preference to union members

Local 426, Laborers (Joseph Brown, an Individual) 280 NLRB No. 074

[violation where U agents admitted preference to members over nonmembers in referrals notwithstanding lawful hiring hall provisions and informed Ee that he would not be referred while suspended from membership, and Ee, while suspended, received only three job referrals in contrast to eight or ten members' receipt of four to five referrals]

Electrical Workers, Local Union No. 46 (NECA) 277 NLRB No. 139

(U's refusal to let traveler take journeyman's exam for local members entitling Ee to get highest priority for referrals, while offering him opportunity to take referral exam for nonmembers, which tested same material and, if passed, would have entitled him to same referrals, not unlawful; contention that other locals would only accept journeyman's exam, rejected, since U's only duty under contract and Act was to preserve Ees' employment interest w/i local U's geographic area)

Electrical Workers, Local Union No. 46 (NECA) 277 NLRB No. 139

(local U's refusing for two months to offer Ee opportunity to take nonmember referral exam qualifying him for highest priority referrals, violation, notwithstanding contractual clause specifying reasonable interval of time for examination as ninety days, since U was obligated to offer Ee referral exam as expeditiously as it would schedule members for journeyman's exam designed for them and there was no evidence that members were not allowed to take the next scheduled exam or were routinely forced to wait the contractually permitted ninety days)

Teamsters, Local Union No. 328 (Flount Brothers Corporation) 274 NLRB No. 140

(refusing to refer job applicants because of nonmembership in U or lesser length of membership, violative)

Plumbers, Local No. 198 v. N.L.R.B. 747 F.2d 326 (C.A. 5, Nov. 1985)

(Bd's holding that local U discriminated against travelers and nonmembers as compared with local U members in operating its hiring hall supported by substantial evidence: U's *A* book was restricted to local U members, and *B* book was used only after *A* book was exhausted; requiring *B* book job

applicants to sign list each day burdened travelers and nonmembers; periodic discontinuation of *B* book violated local U's own procedures; U resisted production of *B* book until contempt procedures were initiated; and GC's statistics, though not determinative, at least suggested discrimination)

Plumbers, Local No. 198 v. N.L.R.B. 747 F.2d 326 (C.A. 5, Nov. 1985)

(fact nonmember complainant often signed U's *B* book, which it allowed travelers and nonmembers to sign while reserving *A* book for local U members, w/o receiving hiring hall referrals supported Bd's finding of discrimination against him in referrals; whether he was entitled to monetary redress, however, was left to compliance stage of proceeding)

6030-6725-3300 Priority based on residence or service in geographical area

Carpenters, Local Union No. 1243 (Northern Alaska Associated General Contractors) 281 NLRB No. 015

[business representative's dispatching travelers as stewards and recommending them as foremen when asked not violation as selection was not arbitrary in view of their recommendation by respected source, favorable impression at interview, and experience as foreman, and other registrants, who were ahead of them on U's referral lists, *passing* short-term jobs or resigning from them so as to retain position on list for long-term jobs, not being more qualified than travelers, not wanting position, or having personal problems]

Local No. 136, Plumbers (B. F. Shaw Company) 280 NLRB No. 099

[giving priority to certain referral applicants over others on basis of geography to insure employment to those living permanently w/i local's jurisdiction not unlawful since it is legitimate exercise of local operating hiring hall]

Local No. 136, Plumbers (B. F. Shaw Company) 280 NLRB No. 099

[U's purpose of supplying permanent local residents on priority basis to contractors doing business in area in order to insure contractors that they have pool of available, reliable and qualified Ees to choose from is corollary to proposition that local may give priority to permanent residents in making referrals to insure their employment]

Local No. 136, Plumbers (B. F. Shaw Company) 280 NLRB No. 099

[criterion of residence in area that can only be met by members of local for referral to jobs held not sufficient basis to warrant conclusion that U's motivation in making referrals is necessarily discrimination based on membership in one local rather than another]

N.L.R.B. (Steven R. Loveall, etc.) v. Electrical Workers, Local 11 772 F.2d 571 (C.A. 9, Sep. 1985)

6030-6725-3800 Referral made arbitrarily without objective criteria

Construction and General Labors Union, Local No. 1334 (Western Sign Corp.) 281 NLRB No. 029

[referring Ees whose names were below that of charging party on referral list, not violation where U was not hostile to charging party and followed posted contractual hiring hall procedures, of which Ees had notice and which were based on objective criteria, and where all non-referrals of charging party were due to Es' requests for named Ees or Ees with particular types of experience, or E's rejection of charging party]

Carpenters, Local Union No. 1243 (Northern Alaska Associated General Contractors) 281 NLRB No. 015

(failing to use objective, consistent, nondiscretionary criteria and standards in choosing which job applicants to refer, violative)

Carpenters, Millwright Local 1412 (Oscar J. Boldt Construction Co.) JD-294-85

(violation, where bypass of Ees on out of work list gave rise to *prima facie* case of unlawful discrimination, thus shifting burden to U to show that preference accorded Ees beneath bypassed Ees on list was pursuant to legitimate, objective, hiring hall criteria which U failed to do)

N.L.R.B. v. General Truckdrivers, Warehousemen and Helpers, et al. 778 F.2d 207 (C.A. 5, Dec. 1985)

[U's operation of exclusive hiring hall violative, notwithstanding U had written procedures to follow for referral, since U did not refer by objective standards where referral was based on business agent's personal knowledge of individual's qualifications and circumstances and there existed a set of unwritten irregular procedures which were w/i unfettered discretion of business agent to use or not]

N.L.R.B. v. Construction and General Laborers' Union Local No. 534, Laborers 778 F.2d 284 (C.A. 6, Dec. 1995)

[U's call-back referrals, violation, where E was only entitled to receive referrals by customary procedures using U's hiring hall lists, rather than call-back certain Ees who had not worked for E w/i prior six months; contention that E would not accept other referrals, not credited, but, if it were, E would have had to reject Ees at time of referral]

Plumbers, Local No. 198 v. N.L.R.B. 747 F.2d 326 (C.A. 5, Nov. 1985)

(Bd's holding that local U discriminated against travelers and nonmembers as compared with local U members in operating its hiring hall supported by substantial evidence: U's *A* book was restricted to local U members, and *B* book was used only after *A* book was exhausted; requiring *B* book job applicants to sign list each day burdened travelers and nonmembers; periodic discontinuation of *B* book violated local U's own procedures; U resisted production of *B* book until contempt procedures were initiated; and GC's statistics, though not determinative, at least suggested discrimination)

Plumbers, Local No. 198 v. N.L.R.B. 747 F.2d 326 (C.A. 5, Nov. 1985)

(fact nonmember complainant often signed U's *B* book, which it allowed travelers and nonmembers to sign while reserving *A* book for local U members, w/o receiving hiring hall referrals supported Bd's finding of discrimination against him in referrals; whether he was entitled to monetary redress, however, was left to compliance stage of proceeding)

Carpenters Union Local No. 25 v. N.L.R.B. 769 F.2d 574 (C.A. 9, Aug. 1985)

Under U security clause, dues delinquincy only reason Ee could not work. But dues could be paid to local, as was case here, and Ee did everything he could to prove he was current. Graphic Communications District Council No. 2, etc. (Ray Cole, Division Manager Data Documents, Inc.) **278 NLRB No. 052**
[resignation from U does not constitute revocation of dues checkoff since U security and dues checkoff are distinct and separate matters; U security pertains to contract between E and U that subjects Ees to obligation of paying dues as condition of employment, while dues-checkoff authorization or wage assignment is contract between Ee and E designed as provision for administrative convenience in collecting dues; because of such distinction, revocation of checkoff must be accomplished during periods set out in checkoff authorization, even during hiatus between contracts]

Contention move not mere relocation since it took too long for substantial percentage of transferees to arrive at new plant, rejected, since transferees constituted more than 40% of new work force on date transfer process *substantially completed*, and 8 month period to complete transfer operations not unreasonable herein]

Miss Elaine, Inc. **274 NLRB No. 036**

(E supported and assisted U in violation of 8(a)(1) and (2) and U violated 8(b)(1)(A) and (2) by entering into, maintaining, and enforcing memorandum agreement which extended coverage of existing U-security contract to Ees who had never before been members of unit, and requiring them to become members of U w/o affording them 30 days grace period w/i which to become U members; Ees were taken into unit w/o designating U through signed cards or election; and they received no explanation nor were they informed of 30-day grace period and were simply told to join U or lose their jobs)

6040-5050 For reasons other than failure to tender dues or initiation fees

Food & Commercial Workers, Local 115 (California Meat Company) **277 NLRB No. 083**

(threatening to seek discharge of Ees, who had resigned from U, unless they paid additional initiation fee, and actually seeking to do so, unlawful, where Ees became *financial core* members inasmuch as their resignations did not revoke their checkoff authorizations or otherwise evidenced intent to sever all of their relationship with U; and motivation behind U's professed concern about violating law with respect to receipt of payments by Us from Es was to mask its desire to retaliate against Ees for resigning)

6040-7500 **Maintenance-of-membership requirements**

Graphic Communications District Council No. 2, etc. (Ray Cole, Division Manager Data Documents, Inc.) **278 NLRB No. 052**

[maintenance of membership obligation is permitted by first proviso of 8(a)(3); but, as is true of all U security provisions, maintenance of membership requirements are subject to literal observation and to strict limitation because they are exceptions to basic statutory right to refrain from U membership]

6040-7530 After expiration of contract

Graphic Communications District Council No. 2, etc. (Ray Cole, Division Manager Data Documents, Inc.) **278 NLRB No. 052**

[U's demand that E discharge Ees for having failed to maintain membership in good standing by payment of dues after expiration of contract, unlawful, where Ees resigned during last month of contract's duration, stating that resignations were effective upon expiration of contract; such result is consistent with literal term of maintenance of membership provision herein and with strict construction accorded to first proviso of 8(a)(3) exception to guarantees of right to refrain from membership and of right to be free from employment discrimination based upon U membership]

Local Lodge No. 1198, District Lodge No. 99, Machinists (Interstate Food Processing Corp.) **278 NLRB No. 025**

[U's demand of members and nonmembers, that they pay initiation fees, reinstatement fees or dues and agency fees and E's subsequent discharge of Ees pursuant to U's demand for Ees' non-payment of fees, violative and deauthorization election which U won set aside, since members and nonmembers were under no obligation to pay such fees at time demand was made where U's old contract had expired and 30 day statutory period in 8(a)(3), under a new contract U had signed, had not yet run]

6040-7550 Resignation during contract hiatus

Graphic Communications District Council No. 2, etc. (Ray Cole, Division Manager Data Documents, Inc.) **278 NLRB No. 052**

[although most terms and conditions of employment continue during hiatus period after expiration of U contract, U security clause does not survive absent contractual provision continuing contract; consequently, during almost 2-month hiatus between contracts herein, Ees who resigned their U membership were relieved of U security obligation imposed by maintenance of membership provision, and nothing in Act gave U right to seek to enforce U security obligation by threat of discharge]

Graphic Communications District Council No. 2, etc. (Ray Cole, Division Manager Data Documents, Inc.) **278 NLRB No. 052**

[resignation from U during hiatus between contracts would not be nullified by subsequent negotiation of contract containing maintenance of membership provision that, by its terms, purports to be effective retroactively, since to construe first proviso to 8(a)(3) as also permitting contracts which require membership in past would bring about very result condemned by S.Ct in *Wallace Corp. v. N.L.R.B.*]

Garage Employees Union Local No. 272, a/w Teamsters (Various Employers) **280 NLRB No. 138**

[U's failure to refer member, unlawful, since based solely on U considerations, where member had been in good standing when he requested withdrawal card; was under no obligation to pay dues while he held withdrawal card, and U refused to refer him out of hiring hall until he turned in his withdrawal card and paid dues for period he held card]

Carpenters Union Local No. 25 v. N.L.R.B. **769 F.2d 574 (C.A. 9, Aug. 1985)**

(District Council (Council) violated Act by preventing member from working overtime because he failed to present Council work card which evidenced member current in his dues. Under U security clause, dues delinquency only reason Ee could not work. But dues could be paid to local, as

Local Union No. 277, Painters (Del E. Webb New Jersey, Inc.) — 278 NLRB No. 027

[violation, where U caused E to discharge Ee for nonpayment of dues for period during which Ee was unemployed; further, U failed to give Ee adequate notice of dues obligations, nor did Ee seek to avoid U security obligations]

Helmsley-Spear, Inc. — 275 NLRB No. 043

(labor organizations seeking to enforce valid U security provisions have a strict fiduciary duty to advise Ees of their contractual obligations to maintain membership in good standing before initiating adverse action against them; this duty includes the obligation to apprise Ee of amount of dues arrearage, the time period in question and the precise amount of any reinstatement fee that may be required)

6050-6709 Requiring payment before expiration of grace period

General Teamsters Local 439, Teamsters (Melvin J. Leandro, III, an Individual) — 281 NLRB No. 037

Local Lodge No. 1198, District Lodge No. 99, Machinists (Interstate Food Processing Corp.) — 278 NLRB No. 025

Helmsley-Spear, Inc. — 275 NLRB No. 043

(U seeking and obtaining discharge of Ee for failure to pay dues violative, since U's notices to Ee of dues delinquency were inadequate where two notices sent to Ee set forth conflicting periods of dues delinquency and failed to specify precise amount of reinstatement fee required of Ee; further, U's contention Ee was *free-rider* because he failed to read U mail, rejected, since negligence and inattention to U concerns are not equivalent to willful attempt to evade financial obligations and Ee followed pattern of sporadic dues payment, becoming delinquent and then paying in lump sum not only arrears but in advance)

Local 807, Teamsters (Paragon Paint & Varnish Corporation) — JD-(NY)-34-85

(no violation, where U requested discharge of Ee who was in arrears in payment of dues for period during which he was on sick leave, since U had advised Ee of amount owed, method used to compute amount, when payments were to be made and that discharge would result from failure to pay, and where Ee failed to fulfill agreement made with U for payment)

6050-6768 Requesting discharge for non-payment of dues obligation incurred at prior job

Hotel & Restaurant Employees (Southbay Limited Partnership d/b/a Sunnyvale Hilton) — 275 NLRB No. 72

6050-6790 Requiring payment for period when no obligation

The Hearst Corporation, San Antonio Light Division — 281 NLRB No. 113

[U's demanding that E continue deducting dues from Ees who lawfully resigned from U, violative, notwithstanding Ees had failed to request revocation of dues deduction, since Ees' dues deduction authorizations made payment of dues a quid pro quo for U membership where contract established E would deduct all *membership dues* levied by U and authorizations assigned all *membership dues* to U, thus, it was clear dues were quid pro quo for U membership and was not intended to meet any other U financial obligations such as *financial core* payments]

Auto Workers, Local 785 (The Dayton Forging & Heat Treating Company) — 281 NLRB No. 102

[causing E to withhold dues pursuant to dues checkoff of current security provision for dues owed during precontract period, and threatening Ees with discharge for failure to pay such dues, violative]

Auto Workers, Local 785 (The Dayton Forging & Heat Treating Company) — 281 NLRB No. 102

[U's request to E that caused deduction of reinstatement fee from Ees, due to their alleged loss of good standing, violative where loss of good standing was caused by lack of payment during contract hiatus period when Ees had no statutory obligation to remit dues to retain their jobs]

Dillingham Tug & Barge Corporation **278 NLRB No. 019**
[attempting to cause and causing E to discharge Ee, who had been suspended for exercising Sec. 7 right of supporting rival U, for failure to pay dues when Ee had no dues obligation violation]

Inland Boatmen's Union of The Pacific, Hawaii Region (Dillingham Tug & Barge Company) **276 NLRB No. 141**
(violation where U attempted to cause E to discharge Ees for failure to pay dues in accordance with contract's U security provision while simultaneously denying them rights and privileges of U membership by suspending them from membership because they joined and/or supported rival U in Bd election)

Bakery Workers, Local 42 (Gold Kist, Inc.) **JD-(ATL)-42-85**
(by requesting E to continue dues checkoff after Ees had resigned and by taking steps to grieve refusal of E to continue disputed checkoffs, U violated Act, notwithstanding Ees executed checkoff authorization since authorization directed deduction of dues *in accordance with regular membership dues* making payment of dues a quid pro quo for U membership and thereby revoking dues checkoff assignment as matter of law at time of each effective resignation from U membership. Therefore, by taking such action, U directly impairs Ee's Sec. 7 right to resign when it seeks to delay member's resignation)

Bakery Workers, Local 42 (Gold Kist, Inc.) **JD-(ATL)-42-85**

6060 ENFORCEMENT OF SENIORITY AGREEMENTS AND PRACTICES

6060-0100 Generally

Mead Packaging **273 NLRB No. 181**
8(a)(3) and 8(b)(2) of the Act prohibit Es and Us, respectively, from discriminating against Ees *in regard to hire or tenure of employment or any term or condition of employment to encourage or discourage membership in any labor organization...,* and absent appropriate justification, E or U policies are unlawful if they treat Ees disparately according to their level of U activity; and in addition, bargaining agreements which discourage or encourage U activities through a disparate grant of benefits are unlawful unless providing the benefit serves legitimate statutory purposes and indirectly benefits all unit Ees)

6060-5000 Enforcement of discriminatory seniority rules

6060-5050 Superseniority

Goodyear Tire and Rubber Company **278 NLRB No. 098**
[granting super-seniority to Executive Board members and Treasure of U for their terms of office for shift preference, surplus and layoff, and maintaining super-seniority clause with respect to Executive Board members and Treasurer of U, violative, where they had no responsibilities requiring on-the-job presence to further administration of bargaining agreement]

Goodyear Tire and Rubber Company **278 NLRB No. 098**
[according U's Executive Board member super-seniority under bargaining agreement with respect to shift preference and thereby causing Ee to be removed from first shift and placed on second shift, violative where Executive Board Member had no responsibility requiring on-the-job presence to further administration of bargaining agreement]

Electronic Workers IUE, Local 663 (Gulton Electro Voice) **276 NLRB No. 109**
(U's invoking contractual grievance procedure on or after U vice president filed grievance seeking reinstatement to job from which she had been bumped (contract granted U vice president *superseniority* for job bumping purposes) violative, since on-the-job presence of U vice president not necessary for performance of grievance processing duties and if grievant successful, result would displace another Ee)

Electronic Workers IUE, Local 663 (Gulton Electro Voice) **276 NLRB No. 109**
(while grant of contractual superseniority to chief steward as to layoff and recall, lawful, lawfulness did not extend to job bumping protection since here, unlike *Scovill,* 266 NLRB 952, E had only one shift, and chief steward had plantwide responsibilities and so did not need to be in any particular job in order to perform plantwide grievance duties effectively)

Electronic Workers IUE, Local 663 (Gulton Electro Voice) **276 NLRB No. 109**
(contention that superseniority grant of job bumping protection is lawful because, w/o such protection, chief steward may quit her job or stewardship, rejected, because it remains U's task to build and maintain its own organization, and where immediate problem is simply matter of encouraging Ees to serve as U representative U can handle situation by simply paying Ees or giving them other nonjob benefits)

Electronic Workers IUE, Local 663 (Gulton Electro Voice) **276 NLRB No. 109**
(grant of superseniority for purposes of recall and layoffs but not for job bumping protection, lawful, where president held impromptu meetings with company officials to discuss problems on plant floor before they became formal grievances which meetings are integral part of grievance procedure, in which she could not participate were she on layoff. In addition, she spends 2 full days per month in step 3 grievance meetings)

Laborers Local Union No. 380 (Mautz & Oren, Inc.) **275 NLRB No. 147**
(by maintaining and enforcing steward superseniority clause in contract, U violates 8(b)(1)(A) and (2) of Act, because clause gives them special economic or other on-the-job benefits, thereby going beyond preference for recall and layoff)

Laborers Local Union No. 380 (Mautz & Oren, Inc.) **275 NLRB No. 147**
(superseniority clause is presumptively unlawful, since it is not limited to layoff and recall of stewards, but extends by contract interpretation of arbitrator to overtime work and wage benefits for stewards on Saturday. Incumbent on Respondents to rebut presumption of unlawfulness, by demonstrating that Saturday overtime work for stewards serves legitimate statutory purpose other than impermissable one of giving stewards additional benefits to exclusion of nonsteward unit Ees)

Laborers Local Union No. 380 (Mautz & Oren, Inc.) **275 NLRB No. 147**
]*superseniority clause* in contract unlawful where Respondents did *not* demonstrate that payment for Saturday overtime work at date of time and one-half to steward would promote administration of collective-bargaining agreement beyond incidental and side benefits of having steward on job to police unit work)

Hotel and Restaurant Employees, Local 54 (Boardwalk Regency Corp-d/b/a Caesars Atlantic City) **JD-104-86**
[attempting to enforce shop stewards' contractual superseniority as to shift retention, not violation, since it protects continuity of U representation on shift because, stewards are responsible for processing grievances under contract, and presumption of lawfulness of their superseniority has not been rebutted]

Hotel and Restaurant Employees, Local 54 (Boardwalk Regency Corp-d/b/a Caesars Atlantic City) **JD-104-86**
[enforcing shop stewards' contractual superseniority for selecting days off, violation where U failed to establish that superseniority would be used to further representation process]

Automobile Workers, Local No. 1309 (International Harvester Company) **JD-18-86**
[U's invoking superseniority clause of contract to keep pyrometer steward on job, not unlawful discrimination against two Ees who were not allowed to bump steward from sole remaining pyrometer position but were laid off, notwithstanding U's letter stating it did not intend to have steward granted superseniority to represent himself and lack of pyrometer Ees remaining on job for steward to represent, since U letter was not binding contract but

statement of intent, and steward was required on job to protect unit work, police its assignment, and represent laid-off Ees' recall rights]

N.L.R.B. v. Niagara Machine & Tool Works and Local 508, Automobile Workers 746 F.2d 143 (C.A. 2, Oct. 1984)

(in considering propriety of Bd's *Gulton* rule pertaining to superseniority provisions and their enforcement by E and U, ct reviewed history of Bd's treatment of superseniority provisions in its prior decisions and affirmed Bd's decision herein that E and U unlawfully enforced superseniority provision causing layoff of Ees with greater seniority than U officials who were retained under superseniority clause)

N.L.R.B. v. Niagara Machine & Tool Works and Local 508, Automobile Workers 746 F.2d 143 (C.A. 2, Oct. 1984)

(however ct might have decided superseniority matter at issue herein, Bd's formulation of new superseniority rule in its *Gulton* decision, after reconsidering *Limpco* line of cases was reasonable in allowing superseniority for layoff purposes only if U officials needed to be present at workplace; Bd is entitled to change its mind, so long as new general standard is applicable to all litigants)

N.L.R.B. v. Niagara Machine & Tool Works and Local 508, Automobile Workers 746 F.2d 143 (C.A. 2, Oct. 1984)

(in affirming Bd's *Gulton* rule allowing enforcement of superseniority clause for layoff purposes only if U officials needed to be on job, ct held S.Ct's *Campbell* decision did not require different result; even if *Campbell*, in which S.Ct held veterans' retention of seniority under Selective Service Act did not invalidate superseniority of U officials over veterans during layoff, had been decided under NLRA, *Gulton* decision would not be inconsistent with *Campbell* since no reason existed to believe U officials therein did not meet *Gulton's* on job criteria)

N.L.R.B. v. Niagara Machine & Tool Works and Local 508, Automobile Workers 746 F.2d 143 (C.A. 2, Oct. 1984)

(ct held Bd's superseniority line of cases proceed from premise that superseniority encourages workers to be good U members so that they might increase their chances of being selected for positions afforded superseniority; such premise, drawn from Bd's experience in labor relations, is reasonable and therefore should not be rejected by reviewing ct; nor does reasonableness of premise depend on whether U officials afforded superseniority are appointed by U hierarchy or are elected by U members)

N.L.R.B. v. Niagara Machine & Tool Works and Local 508, Automobile Workers 746 F.2d 143 (C.A. 2, Oct. 1984)

(superseniority accorded U's recording secretary for layoff purposes held not justified under *Gulton* where secretary had neither significant representational nor contract administration duties requiring her presence in workplace; her duties were essentially clerical outside plant; and her maintenance of plant bulletin board took relatively little time and could be accomplished with only minor inconvenience of occasional trip to plant)

N.L.R.B. v. Niagara Machine & Tool Works and Local 508, Automobile Workers 746 F.2d 143 (C.A. 2, Oct. 1984)

(superseniority accorded sergeant-at-arms held not justified under *Gulton* where his duties involved only regulating U meetings and did not entail representational or contract administration duties at or away from plant; nor did his position on U fair practices committee justify grant of superseniority since it was awarded not because of that position but because of his status as U official; Bd could plainly find that his layoff would not seriously interfere with his duties as executive board member)

N.L.R.B. v. Niagara Machine & Tool Works and Local 508, Automobile Workers 746 F.2d 143 (C.A. 2, Oct. 1984)

(Ees did not waive right to challenge clause providing U officials with superseniority for puposes of layoff by ratifying agreement containing clause; right at issue herein is right to be free from discrimination that encourages U membership and is not *economic* right under S.Ct's *Metropolitan Edison* decision, such as right to strike or to refuse to cross lawful picket line, in attempt by Ees and U to achieve economic advantage and for which waiver is appropriate because Ee and U interests are presumed to coincide; if they do not, Ees remain free to change their representative)

N.L.R.B. v. Niagara Machine & Tool Works and Local 508, Automobile Workers 746 F.2d 143 (C.A. 2, Oct. 1984)

(Ees did not waive right to challenge clause providing U officials with superseniority for puposes of layoff since, unlike economic rights which are subject to waiver, right at issue herein is one in which U and Ee interests are likely to conflict; under *Gulton* superseniority presumably encourages Ees to support U so as to increase their chances of attaining U office and greater job security; on the other hand, Ees have right not to be coerced into supporting incumbent U and, since superseniority encourages such support, Ees' ability to select representative no longer remains free)

N.L.R.B. v. Niagara Machine & Tool Works and Local 508, Automobile Workers 746 F.2d 143 (C.A. 2, Oct. 1984)

(Bd properly retroactively applied its *Gulton* decision setting forth new rule pertaining to superseniority, where instant case was not of first impression nor abrupt departure from well established practice and, instead, resolved uncertainty created by Bd's earlier decisions; there was no reliance by parties on old rule and given uncertainty created by following cases, reliance thereon would have been calculated risk, and so there was nothing to oppose *statutory interest* in applying new rule; nor was it shown retroactive order will work inordinate hardship upon them)

N.L.R.B. v. Ensign Electric Division of Harvey Hubble, Inc., and Steelworkers, Local 5925 (Center on National Labor Policy, Inc.) 767 F.2d 1100 (C.A. 4, July 1985)

(contract provision's grant of superseniority for executive personnel of U, including recording secretary and treasurer, unlawful, notwithstanding U's contention that contract provision was negotiated at time superseniority was lawful under Bd decisions and Bd changed and retroactively applied rule on super seniority)

N.L.R.B. v. Local 1131, Local 1161, Auto Workers 777 F.2d 1131 (C.A. 6, Dec. 1985)

[contention that preferential seniority for U officials in necessary to promote efficient and effective U representation, rejected, since U is responsible for maintaining its own organization, using job related benefits to do so is contrary to statutory purpose, and U has other means of accomplishing same end]

N.L.R.B. v. Local 1131, Local 1161, Auto Workers 777 F.2d 1131 (C.A. 6, Dec. 1985)

[contention that preferential seniority for non-steward U officials is not so inherently destructive of Ee rights that it should be held unlawful in spite of legitimate justification, rejected, since Bd's finding that only contract administration requiring U officials to be on the job justifies superseniority is not irrational or contrary to the Act, and cases cited in support of contention do not apply where they involve specific legislation, rather than superseniority clauses concerning which Congress did not legislate, and Selective Service Act's, rather than NLRA Sec. 7's, protection of Ee rights]

N.L.R.B. v. Local 1131, Local 1161, Auto Workers 777 F.2d 1131 (C.A. 6, Dec. 1985)

[maintaining and attempting to enforce contractual clauses granting superseniority for layoff to U's recording secretary and financial secretary, respectively, solely because of their status as U officials, violations where their presence on the job was not necessary for contract administration]

Local 1384, Auto Workers v. N.L.R.B. 756 F.2d 482 (C.A. 7, Feb. 1985)

(granting U officer superseniority which enabled him to displace more senior Ee, violative, since officer was not necessary to administration of contract on the job; Bd considered Ees' right not to have job benefits tied to U activism more important than right to bargain through chosen representative and adjudged superseniority's lawfulness based on how much it encouraged U activism, not how little it discriminated; promotion of U's effectiveness and efficiency insufficient basis for U officer's superseniority after *Gulton*, and Bd has not endorsed U's allegation that superseniority assisted Ees' exercise of their rights

Local 1384, Auto Workers v. N.L.R.B. 756 F.2d 482 (C.A. 7, Feb. 1985)

(granting U recording secretary seniority as to shift preference by assigning her to day shift solely because it would make communication with U president easier, violative, since gain in convenience from face-to-face over telephonic or documentary communication did not justify tying seniority-linked job benefit to U office while denying it to Ee whose seniority otherwise entitled her to it)

Local 1384, Auto Workers v. N.L.R.B. 756 F.2d 482 (C.A. 7, Feb. 1985)

]*Gulton* rule as to U officer's superseniority not misapplied to U recording secretary's assignment to day shift, notwithstanding her contract administrative duties, since under *Gulton* rule persons with on-the-job contract administrative duties may lawfully be granted only such seniority as is necessary to enable them to stay on the job to carry out those duties, and recording secretary did not have such duties)

Local 1384, Auto Workers v. N.L.R.B. 756 F.2d 482 (C.A. 7, Feb. 1985)

(contention that U has waived Ee rights Bd seeks to vindicate under *Gulton* rule restricting U officers' superseniority to that necessary for on-the-job contract administration, rejected; Bd is protecting, not Ees' economic right, but their right to be free of discrimination that encourages U activism, and U cannot waive it through bargaining, since its purpose is to protect Ees from U conduct that benefits U at expense of Ees' Sec. 7 rights, and waiver

6060-5800 Discriminatory enforcement of valid seniority rules

Automobile Workers, Local No. 1309 (International Harvester Company) JD-18-86

[U's invoking superseniority clause of contract to keep pyrometer steward on job, not unlawful discrimination against two Ees who were not allowed to bump steward from sole remaining pyrometer position but were laid off, notwithstanding U's letter stating it did not intend to have steward granted superseniority to represent himself and lack of pyrometer Ees remaining on job for steward to represent, since U letter was not binding contract but statement of intent, and steward was required on job to protect unit work, police its assignment, and represent laid-off Ees' recall rights]

6060-6700 'Dovetailing' or 'end tailing' of seniority

Teamsters Local 42, a/w Teamsters (J.W. Daly, Inc.) 281 NLRB No. 132

[U's establishing seniority list which placed bargaining unit Ees at E's more recently organized plant behind previously unionized Ees at another of E's facilities, violative, since U could not refuse to consider or negotiate a dovetailing system solely because Ees at E's non-U plant joined U more recently than did Ees at E's unionized plant. By favoring Ees at its unionized plant, U in effect (if not intent) penalized Ees of non-U plant for refraining from engaging in U activity]

6070 ENFORCEMENT OF UNION RULES AS CONDITIONS OF EMPLOYMENT

6070-0100 Generally

Road Sprinkler Fitters Local Union No. 669 a/w Plumbers v. N.L.R.B. 778 F.2d 292 (C.A. D.C., Dec. 1985)

[Bd properly holds that U conduct which causes firing or prevents hiring demonstrates U's power so dramatically that its illegality is presumed; however, U can rebut such presumption by showing that its action *was necessary to effective performance of its function of representing its constituency*; for this purpose, merely demonstrating that it would be convenient for U, in enforcing its own internal rules of conduct, to have available an employment-related sanction, is insufficient]

6070-2500 Prohibition against working with delinquent member or non-member

N.L.R.B. v. Electrical Workers, Local 952 758 F.2d 486 (C.A. 9, Apr. 1985)

(violation for fining U member-E as true purpose of fine was to force E to bring improper pressure to bear against his nonunion Ees to join U. Evidence showed that internal U charge against E referred to him as *owner of company*, and magnitude of fine, $20,000, with $5000 suspended if E would not commit further violations of U constitution; namely, working with nonunion Ees)

Glaziers Local Union 558 v. N.L.R.B. 787 F.2d 1406 (C.A. 10, Mar. 1986)

[fact that U's referral system, giving priority in jobs to experienced journeymen rather that inexperienced *permit* men, was not contractually prescribed, does not compel conclusion that U's desire to preserve system by asking E to replace *permit* men who were non-members, was based on illegal motives; U's desire was to protect apprenticeship program and fact U told members they could be fined for working beside *permit* men, was not beyond reasonable action taken to achieve effective representation of U's members]

6070-7500 Rule against members on travelers cards working while local area residents unemployed

Local No. 136, Plumbers (B. F. Shaw Company) 280 NLRB No. 099

[individual's availability, dependability, regularity of service as well as competency are all nondiscriminatory considerations in determining order of job referals by U; whether individual maitained his card on deposit and paid traveler card dues is also legitimate nondiscriminatory consideration]

Iron Workers, Local No. 111 (Northern States Steel Builders, Inc.) 274 NLRB No. 110

(U's requesting E to hire its members to replace travelers and draw up a layoff list when it knew E had no present plans to layoff and asking travelers to quit their job so U's unemployed members could work violative; U, in asking E to hire its members and layoff travelers, was not seeking job availability information but instead was attempting to pressure E into discriminatorily replacing travelers with its members and further, U's actions of coercing travelers to quit was form of *indirect* pressure on E to discriminate against travelers and accede to U request)

6075 ENFORCEMENT OF DISCRIMINATION IN TERMS OR CONDITIONS OF EMPLOYMENT

6075-5000 Special benefits to stewards and/or union officials (for superseniority see 548-6060-5050)

Mead Packaging 273 NLRB No. 181

(E's unilateral discontinuance of insurance and pension benefits to U officers on leaves of absence for purpose of holding U office, not violative; granting such benefits to U officers alone under provision of contract would violate 8(a)(3) and 8(b)(2), since granting such benefits to U officers did not further effective administration of E's bargaining agreement where U officers were on U's payroll and acted as representatives of Ees at other Es premises, engaging in engotiations and arbitrations, and generally monitored compliance with U's bargaining agreements and further, granting of such benefits was not available to other Ees on an equal basis)

Hotel & Restaurant Employees, Local 5 (Turtle Bay Hilton and Country Club) JD-(SF)-81-86

[maintaining and enforcing clause in bargaining agreement with E, which provided that head shop stewards shall receive 25 cents an hour above their basic wage rate, unlawful]

N.L.R.B. v. Ensign Electric Division of Harvey Hubble, Inc., and Steelworkers, Local 5925 (Center on National Labor Policy, Inc.) 767 F.2d 1100 (C.A. 4, July 1985)

(contract provision's grant of superseniority for executive personnel of U, including recording secretary and treasurer, unlawful, notwithstanding U's contention that contract provision was negotiated at time superseniority was lawful under Bd decisions and Bd changed and retroactively applied rule on super seniority)

6090 DISCRIMINATORY ADMINISTRATION OF INSURANCE, PENSION, AND OTHER BENEFIT PLANS

Mead Packaging 273 NLRB No. 181

(E's unilateral discontinuance of insurance and pension benefits to U officers on leaves of absence for purpose of holding U office, not violative; granting such benefits to U officers alone under provision of contract would violate 8(a)(3) and 8(b)(2), since granting such benefits to U officers did not further effective administration of E's bargaining agreement where U officers were on U's payroll and acted as representatives of Ees at other Es premises, engaging in engotiations and arbitrations, and generally monitored compliance with U's bargaining agreements and further, granting of such benefits was not available to other Ees on an equal basis)

8000 AFFIRMATIVE DEFENSES

8020 COMPLIANCE WITH CONTRACT

Naftali Deutsch and Alexander Coler d/b/a C–D Investment Co. 279 NLRB No. 090

[District Council's action, and E's acquiescence, in reinstating two duly appointed stewards and causing discharge of steward appointed by U officer w/o authority to do so and in violation of hiring hall rules, not unlawful where District Council was preserving integrity of contractually prescribed referral practice, and discharge of steward appointed w/o proper authority was necessary to effective performance of its representative function]

Montgomery Elevator Company 278 NLRB No. 122

[U's insisting on and causing demotion and termination of Ee because of his non-membership in U, unlawful; contention Ee laid off since there were no helper positions available when he was returned to that status pursuant to agreement that Ees who failed mechanic test while working as mechanic with temporary permit be returned to *helper* status for 1 year, rejected, in view of disparate treatment of Ee and timing of termination soon after meeting of U's representative with E]

Local 807, Teamsters (Paragon Paint & Varnish Corporation) JD-(NY)-34-85

(no violation, where U requested discharge of Ee who was in arrears in payment of dues for period during which he was on sick leave, since U had advised Ee of amount owed, method used to compute amount, when payments were to be made and that discharge would result from failure to pay, and where Ee failed to fulfill agreement made with U for payment)

Electrical Workers, Local 328 (Stone and Webster Engineering Corporation) JD-(NY)-17-85

(where E insisted in its hiring hall requisition on only journeymen for work at jobsite and U conveyed this requirement to sister local who, in disregard of this requirement, sent members who were not journeymen to job, no violation of U's duty of fair representation where local U upon learing that these members lacked necessary requirements for job caused them to quit because U had to meet its contractual obligation with E in operating hiring hall to refer only Ees who met E's requirements)

Teamsters Local 959, State of Alaska, a/w Teamsters (Kodiak Oilfield Haulers, Inc.) JD-(NY)-10-85

(U unlawfully failed and refused to meet with E promptly and at reasonable times where U's claim that its only available negotiator was unable to attend meetings scheduled by E because of his *extremely hectic schedule* indicated policy and pattern of delay, procrastination, and avoidance; although U admittedly considered agreement with E of utmost importance, U's negotiator gave greater precedence to negotiation meetings of lesser importance; moreover, Bd has rejected asserted inability to bargain because of other business demands on time)

1433-3300 Authority of representative

Pacific Coast Metal Trades District Council 282 NLRB No. 041

[assertion that ALJ erred in failing to find that trades council had authority under contract to bind constituent locals to terms of subsequent mid-term contract modification agreement held not determinative since, whether or not council had *authority* to reach agreement binding locals, it did not *intend* to do so w/o locals' consent and, consequently, ALJ did not have to decide whether council had binding authority]

Teamsters Local 959, State of Alaska, a/w Teamsters (Kodiak Oilfield Haulers, Inc.) JD-(NY)-10-85

(U unlawfully failed and refused to meet with E where U's contention was perceived as untrue in claiming that its delay in meeting with E was occasioned by need for U official's presence at negotiations because of importance of contract with E and current negotiator's lack of experience and unfamiliarity with E's operations; U's present negotiator said nothing to E's representative to dispel impression that he had anything other than full authority to negotiate agreement; and U was less than diligent in giving directions and guidance to negotiator which he allegedly needed)

1433-3350-8300 Representatives of other employers

Teamsters Local 959, State of Alaska, a/w Teamsters (Kodiak Oilfield Haulers, Inc.) JD-(NY)-10-85

(U's refusal to bargain unless E withdrew individual from its its negotiating committee, which demand U based on his employment by E's main competitor as negotiation consultant, thus purportedly threatening U with multi-E bargaining, unlawful, where U previously made no objection to participation of individual in E's bargaining process until E indicated its strong position on wage rollback; U's negotiator impeded bargaining by leaving negotiation meeting upon departure of individual as demanded by U; and U's reason was to forestall negotiations rather than concern with multi-E bargaining)

Teamsters Local 959, State of Alaska, a/w Teamsters (Kodiak Oilfield Haulers, Inc.) JD-(NY)-10-85

(U's refusal to meet and bargain with E unless E withdrew individual from its negotiating committee, which demand U based on individual's employment by E's main competitor as negotiation consultant, thus purportedly threatening U with multi-E bargaining, unlawful, even assuming that U generally apprehended undesirable multi-E bargaining, it did not excuse U's refusal to meet with E's negotiating committee since U left negotiations before having opportunity to determine whether E's committee had, as it professed, come to negotiate agreement only for unit Ees)

1433-8300 Failure to sign or reduce agreement to writing

Pacific Coast Metal Trades District Council 282 NLRB No. 041

[trades council held not to have unlawfully refused to execute mid-term contract modification agreement, where agreement was susceptible to review by 2 of council's constituent locals one of which raised objections, which were not made in bad faith, to terms of agreement and thereby prevented it from becoming binding on parties, leaving no agreement which council was obligated to sign]

Furniture Workers, Local No. 36 (The Telescope Folding Furniture Co., Inc.) 281 NLRB No. 166

[refusal to execute contract, violation where parties had reached agreement on all substantive terms and U's contentions to contrary were unsupported by evidence]

Electrical Workers Local Union No. 617 (San Mateo Chapter, National Electrical Contractors Association, Inc.) 281 NLRB No. 163

[U's failure to sign Mutual Reciprocal Agreement (MRA) as it had agreed to if collective bargaining agreement signed, which it was, violative. Contention that promise to reinstate MRA was nonbinding as it involved nonmandatory subject of bargaining, rejected, as MRA vitally affects terms and conditions of employment notwithstanding it contains no separate wage or benefit rates schedule]

Steelworkers, and Local 4754 (Warrior and Gulf Navigation Company) 280 NLRB No. 164

1433-9100 Ratification by employees

Steelworkers, and Local 4754 (Warrior and Gulf Navigation Company) 280 NLRB No. 164

Steelworkers, and Local 4754 (Warrior and Gulf Navigation Company) 280 NLRB No. 164

State County Employees AFSCME, Council 71 (Golden Crest Convalescent Centers, Inc.) 275 NLRB No. 013

(U's refusal to honor agreement reached by parties in negotiations not unlawful since agreement was subject to ratification where E was aware, or reasonably should have been aware, that authority of U negotiators was limited to negotiations and could not in absence of ratification bind U to contract; and there was no allegation of bad faith or attempts to deceive on part of U)

Hotel Employees and Restaurant Employees Local No. 8 (Executive Inn) JD-(SF)-101-85

(violation where business agent stated that if contract signed, Ees would not need to ratify, and after agreement executed, business agent said members would have to ratify, which they did not, and which caused U to repudiate contract)

Communications Workers (Chesapeake and Potomac Telephone Company, et al.) **280 NLRB No. 009**
[preparation, use and cost sharing of official transcripts in non-expedited (regular) arbitration hearings constitute mandatory subject of bargaining, since substantive component of grievance arbitration procedure; distinction may be drawn between presence of reporter at or tape recording of negotiating session, which Bd has held not to be mandatory subject of bargaining, and reporter at arbitration hearing]

Teamsters Cannery Local No. 670 a/w Teamsters (Stayton Canning Company Cooperative) **275 NLRB No. 127**
(U unilaterally eliminating financial core members (members who resigned during strike but continue paying dues) access to eye and dental clinics and pharmacy (agents of U), violative, as these are mandatory subjects of bargaining notwithstanding these benefits outside bargaining agreements since strike settlement agreement provided that there would be no discrimination against any Ee because of their actions with respect to financial core status and use of these facilities involve significant aspect of employment relationship between Ees and E, namely, Ees' decision to work or not during strike

1450-0140 Permissible or nonmandatory subjects defined

1450-0160 Prohibited subjects defined

Electrical Workers, Local No. 428 (Kern County Chapter, National Electrical Contractors Association) **277 NLRB No. 048**
(insisting to impasse on relinquishment of clause in prior contract granting Es right to call foremen by name, violation where clause involved E's statutory right to select representative for adjustment of grievances, and insistence on its deletion was illegal)

1450-0800 Scope and work of unit

1450-0875 Composition of unit

Chicago Truck Drivers, Helpers and Warehouse Workers Union (Independent) **279 NLRB No. 122**

1450-3300 Working conditions

1450-3333 Overtime

Local 12, Auto Workers (Teledyne CAE) **JD-236-85**
(violation, where U notified E and bargaining unit Ees that Ees would no longer work overtime on day of U membership meetings, and Ees refusing such overtime would not be charged with time worked for purposes of overtime distribution, informing members that those who worked overtime on U meeting days could be fined, and changing U meeting day to last Saturday of month when it would have greater impact on production, since U under bargaining agreement and past practice was obligated to solicit unit Ees for weekend overtime work and this change amounted to unilateral change in contractual overtime provisions)

1450-4100 Grievance and dispute resolving procedures

1450-4125 Grievances

Communications Workers (Chesapeake and Potomac Telephone Company, et al.) **280 NLRB No. 009**

1467-0150 Obstructing Contractual Grievance-Arbitration Procedures

Communications Workers (Chesapeake and Potomac Telephone Company, et al.) **280 NLRB No. 009**
[U's contention that Voluntary Rules of American Arbitration Association which were incorporated by reference into bargaining agreement gave it option to refuse to order, and share costs of, preparation of official transcript of nonexpedited (regular) arbitration hearings, rejected, since rules incorporated for limited purpose of governing arbitrator's actual conduct of arbitration hearing and did not govern whole arbitration procedure, where parties had in past customarily deviated from rules]

Communications Workers (Chesapeake and Potomac Telephone Company, et al.) **280 NLRB No. 009**
[U's refusal to continue to agree to preparation, use, and cost sharing of official transcripts of non-expedited arbitration hearings conducted pursuant to grievance-arbitration provisions of contract, unlawful, notwithstanding no express provision in contract regarding matter, since consistent past practice for over 30 years history of contractual relationship made it requirement of contract, and thus U's unilateral refusal to continue practice threatened to nullify grievance-arbitration provisions of contract]

Oil Workers, Local Union No. 4--23 (Gulf Oil Corporation) **274 NLRB No. 063**
(expelling supervisor for testifying adversely against grievant at contractual arbitration hearing (though supervisor was only rank-and-file Ee at time of testimony), violative, as any U rules and discipline which are designed to discourage or prevent individuals from testifying or being called as witnesses in grievance arbitration hearings are inherently destructive of contractual arbitral process and are therefore unlawful)

Local 1, Utility Workers (Consolidated Edison Company of New York Inc.) **JD-(NY)-136-85**
[U & E can negotiate manner and means by which grievance procedure shall be established and maintained, therefore they can agree that grievance must be presented to department steward and not to any steward]

1467-1200 Demand for bargaining in inappropriate unit

1467-1250 Broader than certified unit

Chicago Truck Drivers, Helpers and Warehouse Workers Union (Independent) 279 NLRB No. 122

[U's demanding arbitration of grievances seeking to merge three historically separate units by dovetailing seniority lists or otherwise in face of E's refusal to participate, violation, since enlargement of unit is nonmandatory bargaining subject, and U cannot lawfully demand merger of historically separate units w/o E's consent]

Teamsters Local 959, State of Alaska, a/w Teamsters (Kodiak Oilfield Haulers, Inc.) JD-(NY)-10-85

(U unlawfully failed and refused to meet and confer with E promptly and at reasonable times, where U passively waited for E to make almost all requests for bargaining, and w/o counter-proposing any alternate dates; U cancelled and/or failed to attend most negotiation meetings scheduled by E's representative whom U representative usually failed to notify in time of inability to attend scheduled meetings; and U failed to advise E, as promised, when another meeting could be arranged after cancelling or failing to attend E's scheduled meetings)

1467-2433 Behavior in negotiations

Teamsters Local 959, State of Alaska, a/w Teamsters (Kodiak Oilfield Haulers, Inc.) JD-(NY)-10-85

(U unlawfully failed and confer with E where U's intention to impede and delay bargaining process and frustrate negotiations with E was most vividly demonstrated when at first full negotiation meeting in which U's chief negotiator participated, he demanded withdrawal of one of E's negotiators and, when E acceded to demand and challenged negotiator was preparing to leave, ostensibley *indispensable* chief negotiator announced that, since E's negotiator was leaving, he too would leave and that E could negotiate with claimed *inexperienced* negotiator)

1467-2433-5000 Change of position

Pacific Coast Metal Trades District Council 282 NLRB No. 041

(no violation where U had stated after, rather than before, negotiations began that there would not be two contracts and thus had not decided before impasse to demand that local E association accept terms of contract U negotiated with regional E association; although U's statements reflected hard bargaining, its behavior suggested *open,' 'accessible' position* where it met with U four times for two hours each in two months, listened to and gave reasons for rejecting association's proposals and justified its bargaining position)

Teamsters Local 705 (Kankakee-Iroquois County Employers' Association) 274 NLRB No. 177
(no violation where U had stated after, rather than before, negotiations began that there would not be two contracts and thus had not decided before impasse to demand that local E association accept terms of contract U negotiated with regional E association; although U's statements reflected hard bargaining, its behavior suggested *open,' 'accessible' position* where it met with U four times for two hours each in two months, listened to and gave reasons for rejecting association's proposals and justified its bargaining position)

1467-7200 Refusal to sign or reduce agreement to writing

Electrical Workers Local Union No. 617 (San Mateo Chapter, National Electrical Contractors Association, Inc.) 281 NLRB No. 163

[U's refusal to execute bargaining agreement including all terms and conditions to which parties had previously agreed, violative]

Local Union No. 1464, Electrical Workers (Kansas City Power & Light Company) 275 NLRB No. 219
(U's refusal to sign contract which had no U bug, not violative where parties had had U bug on contracts printed by outside parties for past 30 years, and E had told U that including U bug on current contract, which was to be printed inhouse, would be *no problem;* although U bug was not mandatory bargaining subject, its inclusion was agreed on early on in negotiations, and for Bd to order U to execute contract which did not have it would be equivalent to rewriting parties' contract in contravention of Sec. 8(d))

Hotel & Restaurant Employees Local No. 8 (Executive Inn) JD-(SF)-101-85

Communications Workers (Chesapeake and Potomac Telephone Company, et al.) 280 NLRB No. 009
[U's contention that zipper clause in collective bargaining agreement precluded any finding that past practice of parties created any binding contractual obligation, rejected, since past practice concerning preparation, use, cost sharing of transcripts in arbitration hearings was not extrinsic, but served to define provisions in bargaining agreement concerning grievance arbitration]

Communications Workers (Chesapeake and Potomac Telephone Company, et al.) 280 NLRB No. 009
[U's contention that it gave E notice of its intention to change established practice regarding preparation, use and cost sharing of transcripts of nonexpedited arbitration hearings, and by failing to request bargaining E waived its rights, rejected, where E objected to U's proposed change, nor was E under any obligation to bargain about matter; further, supplemental agreement regarding dispensing with transcripts in certain arbitration cases which did not effect E could not be considered effective notice to E that U was considering modifying its arbitration transcript practice with E at some future date]

Communications Workers (Chesapeake and Potomac Telephone Company, et al.) 280 NLRB No. 009
[U's refusal to continue to agree to preparation, use, and cost sharing of official transcripts of non-expedited arbitration hearings conducted pursuant to grievance-arbitration provisions of contract, unlawful, notwithstanding no express provision in contract regarding matter, since consistent past practice for over 30 years history of contractual relationship made it requirement of contract, and thus U's unilateral refusal to continue practice threatened to nullify grievance-arbitration provisions of contract]

Communications Workers (Chesapeake and Potomac Telephone Company, et al.) 280 NLRB No. 009
[no duty imposed on E to request bargaining regarding change in practice regarding transcripts of arbitration hearings, and U's refusal to continue to agree to longstanding practice of preparation, use and cost sharing of official transcripts of such hearings conducted pursuant to contract, unlawful, where during negotiations for new agreement U withdrew its notice that it would no longer routinely agree that arrangements be made for court reporter and official transcript of arbitration hearings or to share cost with E, and did not serve notice until afternew agreement went into effect]

Food & Commercial Workers, Local 274 (Millco, Inc.) 279 NLRB No. 026
[E's contention that U bargained in bad faith by not including most-favored-nations clause in final ratified contract, rejected and U's refusal to include such clause not violative, where such clause was never part of E's last and final offer to U, which was accepted, and issue of clause came up only after E realized that U had negotiated lower wages with a competitor, a fact not indicating mistake or fraud]

(U unilaterally eliminating financial core members (members who resigned during strike but continue paying dues) access to eye and dental clinics and pharmacy (agents of U), violative, as these are mandatory subjects of bargaining notwithstanding these benefits outside bargaining agreements since strike settlement agreement provided that there would be no discrimination against any Ee because of their actions with respect to financial core status and use of these facilities involve significant aspect of employment relationship between Ees and E, namely, Ees' decision to work or not during strike

Teamsters Cannery Local No. 670 a/w Teamsters (Stayton Canning Company Cooperative) 275 NLRB No. 127

(U's denial of financial core members' access to its pharmacy and eye and dental clinics in contravention of its strike settlement agreement, violative, even in absence of evidence that U was using dues of financial core members to finance its operation of these facilities)

Local 12, Auto Workers (Teledyne CAE) JD-236-85

(violation, where U notified E and bargaining unit Ees that Ees would no longer work overtime on day of U membership meetings, and Ees refusing such overtime would not be charged with time worked for purposes of overtime distribution, informing members that those who worked overtime on U meeting days could be fined, and changing U meeting day to last Saturday of month when it would have greater impact on production, since U under bargaining agreement and past practice was obligated to solicit unit Ees for weekend overtime work and this change amounted to unilateral change in contractual overtime provisions)

1467-7800 Actions to compel agreement to contract or contract modification

Chicago Truck Drivers, Helpers and Warehouse Workers Union (Independent) 279 NLRB No. 122

[U's demanding arbitration of grievances seeking to merge three historically separate units by dovetailing seniority lists or otherwise in face of E's refusal to participate, violation, since enlargement of unit is nonmandatory bargaining subject, and U cannot lawfully demand merger of historically separate units w/o E's consent]

1467-7850 Strikes and work stoppages, or threats thereof

Local Union No. 3, Electrical Workers (Burroughs Corp.) 281 NLRB No. 147)

(entering negotiations with closed mind and intransigence as to inclusion of contract clauses demanded by international U with which local U was affiliated, lack of local U negotiator's authority to compromise as to these demands, and threatening to strike if E refused to agree to demands, violation)

1467-7880 Refusal of Employer's tender of contributions to employee benefit fund

(U's refusal to accept benefit payments from Es, contending such acceptance prohibited by Section 302(b)(1) of Act in absence of signed bargaining agreement or letter of understanding, and bargaining agreement had expired, unlawful, since *written agreement* requirement of Act is not limited to bargaining agreement and there was in effect written trust agreement between parties; further, refusal was to pressure Es to sign letters of understanding with U)

1467-8700 Actions nullifying contractual arbitration proceedings

Communications Workers (Chesapeake and Potomac Telephone Company, et al.) 280 NLRB No. 009

[U's contention that it gave E notice of its intention to change established practice regarding preparation, use and cost sharing of transcripts of nonexpedited arbitration hearings, and by failing to request bargaining E waived its rights, rejected, where E objected to U's proposed change, nor was E under any obligation to bargain about matter; further, supplemental agreement regarding dispensing with transcripts in certain arbitration cases which did not effect E could not be considered effective notice to E that U was considering modifying its arbitration transcript practice with E at some future date]

Oil Workers, Local Union No. 4--23 (Gulf Oil Corporation) 274 NLRB No. 063

(expelling supervisor for testifying adversely against grievant at contractual arbitration hearing (though supervisor was only rank-and-file Ee at time of testimony), violative, as any U rules and discipline which are designed to discourage or prevent individuals from testifying or being called as witnesses in grievance arbitration hearings are inherently destructive of contractual arbitral process and are therefore unlawful)

Local 1, Utility Workers (Consolidated Edison Company of New York Inc.) JD-(NY)-136-85

[fact that Ee's grievances were not arbitrated by time instant case came to trial before ALJ *not* indicative of bad faith on U's part, since U demonstrated that there exists large backlog of grievances pending arbitration with Ee's grievance processing in approximately its correct order]

Communications Workers (Chesapeake and Potomac Telephone Company, et al.) 280 NLRB No. 009

5688 INDIVIDUAL BARGAINING WITH EMPLOYER- MEMBERS OF ASSOCIATION

Marble Masons, Local No. 17of California, a/w Bricklayers (Ruhm Tile and Marble, Inc.) 278 NLRB No. 132

[U had no obligation to negotiate new contract with E association, and its refusal to bargain not unlawful where Es were each bound by 3-year short form agreements adopting prior agreement negotiated by one E on behalf of association; while 10 of 11 Es had withdrawn from multi-E bargaining before adopted agreement expired and therefore there was no multi-E agreement, Es nevertheless agreed to be bound by adopted agreement and, consequently, there was no basis for concluding Es would be bound by agreement only if it was multi-E agreement]

Marble Masons, Local No. 17of California, a/w Bricklayers (Ruhm Tile and Marble, Inc.) 278 NLRB No. 132

[U did not unlawfully fail to bargain with E association for new contract where E-members were each bound by 3-year short form agreements which had not expired, adopting prior agreement negotiated by one E-member on behalf of association; U had no obligation to bargain in midterm of short form agreements since members not only voluntarily adopted prior agreement but also successor agreements for period of 3 years; moreover, short form contracts explicitly provided that expiration of current or any succeeding agreement would not terminate 3-year contracts]

[U's 301 suit against neutral subcontractor to enforce arbitration award granting U *time-in-lieu* payments inconsistent with Bd's 10(k) determination held to constitute secondary coercion of primary E since U may not enforce award when effect is to encourage neutral E to pressure primary E to hire U Ees]

(threat of continued picketing of neutral E made to primary E in order to cause primary E to influence neutral E to hire U members, unlawful, even though neutral E was not present when threat was made since such threat coerces not only person threatened but also E from whom work assignment is sought; and threat here made to primary E for relaying to neutrals, was *directed toward* them to exert pressure on them to remove primary E from its lawful function)

Miscellaneous, Drivers Helpers & Public Employees Local Union No. Local 610, a/w Teamsters (Lin Rol Labor Industries, Inc.) JD-86-85
(U's statement to neutral E seeking to get rid of picketing by U that, if neutral E hired laid off U members who had worked for E whom neutral E had replaced, they could negotiate contract, unlawful, since, in substance, statement was threat to have trucking firm c/d/b with primary E to hire laid off U members, which is type of pressure and threat that falls w/i ambit of 8(b)(4)(ii)(B))

2575-6787 Shutdown to require compliance with contract provisions

Sheet Metal Workers, Local Union 263 (James P. Ryan) JD-242-85
(Us' business agent's telling newtral E get rid of primary E, violative; statements were not only evidence of unlawful object of picketing, they contained threat that Us would shut down job)

2575-6790 Penalty to observe contract

Orange Belt district Council of Painters No. 48, AFL-CIO, CLC (Maloney Specialties, Inc.) 276 NLRB No. 156
(contract clause prohibiting signatory Es from subcontracting any work covered by agreement to nonsignatory Es, held w/i construction industry proviso but violative of 8(b)(4)(ii)(A), where self-help provisions of contract allowed U to withhold services, remove workers from jobsites and refuse to refer members and U in fact engaged in work stoppage to protest E's subcontracting and attempted to have E's *working privileges* denied by filing charges against E)

Ironworkers Local 433, a/w Ironworkers (United Steel) 280 NLRB No. 152
[U business agent's statement to secondary E that he could *throw up a line* at primary E's job site, violative, since objective of statement was to coerce secondary E to c/d/b with primary E. Threat made w/o assurance that picketing would be w/i limitations established by Bd law]

5067-2050 Handbilling

Local No. P-9, Food & Commercial Workers (Geo. A. Hormel & Company) 281 NLRB No. 135

Florida Gulf Coast Building Trades Council, AFL-CIO (The Edward J. Debartolo Corporation) 273 NLRB No. 172
(Building Trades Council's distributing handbills requesting public not to patronize shopping mall tenants because contruction company building store for future mall tenant allegedly paid substandard wages and fringe benefits to its Ees found violative since, council thus coerced shopping mall tenants to c/d/b with mall owner so as to force mall owner and/or future tenant with construction company)

Carpenters District Council of Greater St. Louis, AFL-CIO (Rinker and Yocham Construction) JD-107-86
[handbills distributed by U at secondary E's apartment complex at which primary subcontractor was performing work held unlawful since distribution was not for purpose of truthfully advising public w/i meaning of publicity proviso, where handbills failed to adequately identify that U's dispute was with subcontractor and contained material which was unrelated to primary dispute and constituted substantial portion of handbill devoted to extraneous issue of attacking alleged faulty construction of apartments]

Miscellaneous, Drivers Helpers & Public Employees Local Union No. Local 610, a/w Teamsters (Lin Rol Labor Industries, Inc.) JD-86-85
(distribution of handbills addressed to public requesting boycott of products delivered to retail sales company by named trucking firm which leased drivers from primary E held outside protection of proviso where U permitted handbilling knowing that drivers were Ees of primary E and not of trucking firm and therefore handbills were untruthful by incorrectly naming neutral trucking firm as primary E)

Hospital & Service Employees Union, Local 399 v. N.L.R.B. 743 F.2d 1417 (C.A. 9, Oct. 1984)
[U's handbills distributed at secondary E's facility, calling for nonpatronization of secondary E's services, held not w/i protection of publicity proviso since handbills did not advise public of nature of primary dispute and secondary E's relationship to it by failing to identify primary E; distribution of handbills for about 1 week 8 hours a day covered significant period of time and was not *de minimis*; and fact U *voluntarily* withdrew handbills did not render issue moot since cessation of conduct did not ensure that it would not recur]

Hospital & Service Employees Union, Local 399 v. N.L.R.B. 743 F.2d 1417 (C.A. 9, Oct. 1984)

[U's handbill distributed at secondary E's facility calling for nonpatronization of secondary E's services held to have met minimum requirement of publicity proviso by identifying nature of U's dispute with primary-E maintenance company and secondary E's relationship to primary dispute; although handbill did not name primary E specifically but only as *maintenance company*, it sufficiently described nature of dispute by clearly revealing that maintenance company, and not secondary E, was directly responsible for hiring non-U labor]

Hospital & Service Employees Union, Local 399 v. N.L.R.B. 743 F.2d 1417 (C.A. 9, Oct. 1984)

[in finding that U's handbills distributed at secondary-E airline's facility, identifying primary dispute and calling for nonpatronization of airline, were not w/i protection of publicity proviso because they included unrelated consumer complaint and accident information pertaining to operation of airline, ct held legislative history on which U based its claim that it may distribute any information, short of picketing, including consumer complaint and accident information, did not serve as basis for any conclusive interpretation of publicity proviso]

Hospital & Service Employees Union, Local 399 v. N.L.R.B. 743 F.2d 1417 (C.A. 9, Oct. 1984)

[where Bd found U's handbilling and newspaper ads directed at secondary E coercive because U thereby imposed economic pressure against secondary E designed to inflict economic injury, ct declined to review coercion issue since parties did not produce, and Bd did not require, evidence regarding economic pressure; Bd's cursory treatment and resulting ambiguity made it difficult to surmise whether handbilling and ads fit w/i S.Ct's definition of *coercion* as that which encourages consumer boycott of secondary E or that which threatens neutral parties with ruin or substantial loss]

Hospital & Service Employees Union, Local 399 v. N.L.R.B. ——F.2d—— (C.A. 9, Oct. 1984)

[ct declined to examine First Amendment issue as to U's handbills and newspaper ads directed at secondary E; ct must first address preliminary issue of coercion, resolution of which must await Bd's clarification of issue on remand; constitutional issues here are novel and complex, involving use of handbilling; constitutionality of restriction on handbills is more suspect than restraint on picketing which involves elements of conduct as well as communication of ideas; and application of 8(b)(4) to facts herein may infringe on other constitutional guarantees, freedom of press and freedom of association]

Hospital & Service Employees Union, Local 399 v. N.L.R.B. ——F.2d—— (C.A. 9, Oct. 1984)

[upon remanding to Bd for clarification, final resolution, and further hearings, if necessary, regarding 8(b)(4) coercion issue arising from U's handbilling of secondary E, ct held Bd may presume constitutionality of Act, as it did before in instant proceeding; nevertheless, Bd should not ignore constitutional concerns; if statutory definition of what constitutes coercion is legitimately open to more than one interpretation, Bd should choose interpretation that does not create constitutional problems, and such rule serves only to authorize construction of statute in manner that is fairly possible]

Hospital & Service Employees Union, Local 399 v. N.L.R.B. ——F.2d—— (C.A. 9, Oct. 1984)

[upon remanding to Bd for clarification, final resolution, and further hearings, if necessary, regarding 8(b)(4) coercion issue arising from U's handbilling of secondary E, ct noted that not all secondary activity necessarily constitutes coercive activity w/i meaning of 8(b)(4); S.Ct and this ct have recognized distinct differences between handbilling and picketing; therefore, secondary activity here may be subject to different test for coercion than those employed by cts and Bd in picketing cases; on remand Bd should specifically address issue of what constitutes coercion in handbilling cases]

Hospital & Service Employees Union, Local 399 v. N.L.R.B. ——F.2d—— (C.A. 9, Oct. 1984)

[in declining to examine First Amendment issue as to U's handbills and newspaper ads directed at secondary E since ct must await resolution of coercion issue by Bd on remand, ct held regulation of *coercion* publicity in 8(b)(4) is clearly content-based; instead of case in which handbilling is prohibited because handbillers are asking others to do something unlawful or is banned for reasons of public order, handbilling here, otherwise lawful, is prohibited only when it expresses particular views unrelated to primary dispute, thereby making restriction one intended to control speech content]

Hospital & Service Employees Union, Local 399 v. N.L.R.B. ——F.2d—— (C.A. 9, Oct. 1984)

[in declining to examine First Amendment issue as to U's handbills and newspaper ads directed at secondary E since ct must await resolution of coercion issue by Bd on remand, ct held Bd must demonstrate regulation is necessary to serve compelling state interest and that it is narrowly drawn to achieve that end; U's handbills and advertisements may not fit w/i definition of *commercial speech* developed by S.Ct, which presents difficult questions of interpretation which ct need not resolve now]

Production Workers Union of Chicago and Vicinity, Local 707; etc. (Checker Taxi Company, Inc.) **273 NLRB No. 148**

(in enacting 8(b)(4), Congress was concerned with dual objectives of preserving right of labor organizations to bring pressure to bear on offending Es in primary labor disputes and of shielding unoffending Es and others from pressures in controversies not their own, and mere fact that language of this Section comprehends familiar patterns of a labor dispute, does not inexorably dictate that it excludes all variations from those patterns)

[where U picketed general contractors on behalf of independent contractors seeking better leasing agreement terms, ct held intent of Congress was that 8(b)(4) was designed to prohibit only pressure on *third person who is wholly unconcerned in the disagreement*, whether that pressure is called *secondary boycott* or *secondary activity*; moreover, Bd's conclusion that 8(b)(4) prohibits all U-aided picketing by independent contractors would scarcely qualify as *reasonable accomodation* of 8(b)(4)'s policies]

[in finding that Bd erred in concluding that U unlawfully picketed general contractors on behalf of independent contractors for better leasing agreement terms, ct held Bd mimsapprehended Congress' intent in concluding that 8(b)(4) prohibits U involvement in all picketing by independent contractors; and Bd offered no apposite authority to support its conclusion nor adduced single case or shred of legislative history to support notion that pressure directed against party who is not neutral can be secondary]

[where Bd erred in finding U unlawfully picketed general contractors on behalf of independent contractors for better leasing agreement terms, ct held case law and legislative history contain *strong indication* Congress intended *primary activity* to include all picketing against non-neutral parties, whether by independent contractors or by anyone else; and dual Congressional objectives underlying 8(b)(4) of preserving right of labor organization to pressure offending primary Es and of shielding unoffending Es simply are not in tension herein]

[where Bd erred in finding U unlawfully picketed general contractors on behalf of independent contractors for better leasing agreement terms, ct held Congress specified more particular policies for 8(b)(4) than simply background policies of Act relied on by Bd; rather, Act contains specific provisions regarding prohibitions on peaceful picketing; and Bd did not show *clearest indication* nor legislative history of specific policy regarding secondary activity encompassing prohibition of U involvement in all picketing by independent contractors]

[in finding that Bd applied wrong standard in determining that U's picketing of general contractors on behalf of independent contractors for better leasing agreement terms was unlawful, ct remanded to Bd so that it may apply correct standard: 8(b)(4) does not exclude U involvement in all picketing by independent contractors; rather, its proscription is limited to picketing against neutral parties]

[where U picketed general contractors on behalf of independent contractors for better leasing agreement terms, ct held general contractors were not neutral third party *wholly unconcerned* in dispute between 2 other parties, since general contractors were not at all neutral inasmuch as dispute over leasing agreement terms was only with general contractors; ct rejected Bd's interpretation that general contractors were neutrals because dispute with independent contractors was not between Es and Ees]

[where Bd erred in finding U unlawfully picketed general contractors on behalf of independent contractors for better leasing agreement terms, ct held case law and legislative history contain *strong indication* Congress intended *primary activity* to include all picketing against non-neutral parties, whether by independent contractors or by anyone else; and dual Congressional objectives underlying 8(b)(4) of preserving right of labor organization to pressure offending primary Es and of shielding unoffending Es simply are not in tension herein]

[where objective of agreement and its enforcement are clearly one of work preservation, it is lawful under 8(b)(4)(B) and 8(e), absent some other evidence of secondary purpose; relevant inquiry is whether U's efforts are primary in that they are directed at own E as to Ees' wages, hours or working conditions or, instead, are secondary in that U's efforts are directed at affecting business relations of neutral Es and are tactically calculated to achieve U objectives outside primary E-Ee relationship]

[where U picketed general contractors on behalf of independent contractors for better leasing agreement terms, ct held Bd's blanket rule, that secondary activity includes all picketing on behalf of independent contractors, would ban U involvement in picketing by independent contractors not only against neutral parties but also against parties, such as general contractors herein, who are directly and intimately involved in underlying dispute; 8(b)(4) does not prohibit U's picketing against party regardless of party's involvement in underlying issue]

[Bd's distinction between secondary boycott (pressure on neutral third party) and secondary activity (unspecified behavior that may or may not be directed against neutral party) is irrelevant because quality that makes behavior secondary is that it is directed against neutral party; no basis exists in meaning of *boycott* and *picketing* that would account for differential treatment, since picketing is usually means to promote boycott and secondary picketing is picketing initiated to prompt secondary boycott against neutral party]

Production Workers Union of Chicago and Vicinity, Local 707, et al. v. N.L.R.B. (Checker Taxi Co., et al.) 793 F.2d 323 (C.A. D.C., June 1986)

[where U picketed general contractors on behalf of independent contractors seeking better leasing agreement terms, ct held intent of Congress was that 8(b)(4) was designed to prohibit only pressure on *third person who is wholly unconcerned in the disagreement*, whether that pressure is called *secondary boycott* or *secondary activity*; moreover, Bd's conclusion that 8(b)(4) prohibits all U-aided picketing by independent contractors would scarcely qualify as *reasonable accomodation* of 8(b)(4)'s policies]

Production Workers Union of Chicago and Vicinity, Local 707, et al. v. N.L.R.B. (Checker Taxi Co., et al.) 793 F.2d 323 (C.A. D.C., June 1986)

[where Bd erroneously found U unlawfully picketed general contractors on behalf of independent contractors for better leasing agreement terms, ct held Bd's definition of *secondary* was erroneous even under relatively deferential standard that agency's interpretation of statute need only be *permissible construction* that reflects *reasonable accomodation of law's conflicting policies*; such standard requires ct to determine whether agency's interpretation is arguably consistent with statutory scheme and whether issue is adequately reasoned]

N.L.R.B. v. Longshoremen's ILA ——U.S.—— (S.CT, June 1985)

[Rules on Containers agreement negotiated by U pertaining to longshoremens' work of loading and unloading technologically innovative containerized cargo at pier, and enforcement of Rules by U held lawful as applied to *shortstopping* by land motor carriers and as to *traditional* warehousing practices, since Rules were motivated by longshoremens' desire to preserve their jobs; in view of such primary objective, extra-unit effects of agreement are insufficient basis for finding that it has unlawful secondary objective; and elimination of work because of innovation is no reason to find agreement unlawful]

N.L.R.B. v. Longshoremen's ILA ——U.S.—— (S.CT, June 1985)

[work preservation agreements held lawful absent some additional showing of attempt not to preserve, but to aggandize, work; distinction between *work preservation* and *work acquisition* upheld since agreement with objective of work preservation in face of genuine job threat is not *acquisitive* in sense it involves boycott to acquire new job tasks when U members' own jobs are not threatened; and agreement is not *acquisitive* even though it may have incidental effects of displacing work that otherwise might be done elsewhere or not be done at all]

N.L.R.B. v. Longshoremen's ILA ———U.S.——— (S.CT, June 1985)

[Rules on Containers pertaining to longshoremens' work of loading and unloading technologically innovative containerized cargo at piers held not to constitute form of *featherbedding* seeking to block full implementation of modern technological process, since Rules sought to preserve actual work of loading and unloading performed by longshoremen prior to containerization and did not constitute *featherbedding* that Congress has seen fit to prohibit; and it is up to Congress, and not ct, to explore methods for meeting economic problems arising from scientific advances]

N.L.R.B. v. Longshoremen's ILA ———U.S.——— (S.CT, June 1985)

[in finding Rules on Containers agreement in shipping industry and its enforcement by U as having lawful work preservation objective in face of technological changes involving containerized cargo, ct followed normal presumption of *stare decisis* in cases of statutory interpretation, where Congress had not altered statutory provisions at issue in 18 years since ct first ruled thereon, no new evidence was offered regarding Congress original intent, and management and labor have relied on work-preservation doctrine to guide their bargaining]

N.L.R.B. v. Longshoremen's ILA ———U.S.——— (S.CT, June 1985)

[Rules on Containers agreement in shipping industry and its enforcement by U held lawful as having work preservation objective in face of technological changes invo'ving containerized cargo, since nothing in record supported conclusion that U's enforcement of Rules had secondary, rather than primary, objective; basic premise of labor laws is that collective discussions backed by parties' economic weapons will result in decisions that are better for management, labor, and society as a whole; and Rules represent negotiated compromise of volatile problem bearing directly on well-being of national economy]

New Orleans Steamship Association; ILA Local No. 1497; et al., (New Orleans Cold Storage & Warehouse Co., Ltd.) 276 NLRB No. 045

(in view of S.Ct's decision reversing Bd's decision in *Longshoremen ILA (New York Shipping)* and holding that Rules on Containers were lawful work preservation agreement, Bd held that maintaining and enforcing Rules were not violative of 8(b)(4)(ii)(B) and 8(e) as applied to initial unloading of refrigerated containers of frozen meat destined for charging party's warehouse, since no basis existed for distinguishing between longshoremen's traditional work of unloading frozen cooked meat from ships and work of unloading frozen uncooked meat from containers)

American Trucking Associations, Inc. and Tidewater Motor Truck Association v. N.L.R.B. 734 F.2d 966 (C.A. 4, May 1984)

[Rules on Containers negotiated by U with various shipping E associations representing shipping lines had objective of preserving the steadily declining volume of work when U negotiated them and thus have valid work preservation objective where longshoremen had traditionally loaded cargo piece by piece into hold of ship and unloaded it piece by piece; Rules on Containers grant them the right in certain instances to load and unload cargo piece by piece to and from containers and thus, containerization has simply changed locus of the work, moving the operation shoreward]

American Trucking Associations, Inc. and Tidewater Motor Truck Association v. N.L.R.B. 734 F.2d 966 (C.A. 4, May 1984)

[Rules on Containers, negotiated by longshoremen with various shipping E associations representing east coast shipping lines as preservation measure for work involving loading and unloading of containers w/i 50 miles of port not violative, since rules had valid work preservation object and shipping companies retained right to control assignment of work claimed by longshoremen]

American Trucking Associations, Inc. and Tidewater Motor Truck Association v. N.L.R.B. 734 F.2d 966 (C.A. 4, May 1984)

[Bd's conclusion that Rules on Containers negotiated by longshoremen violated Act as applied to *shortstopping* by truckers and some *traditional warehouse functions* was error as a matter of law, since rules had valid work preservation object where truckers and warehousemen do precisely what they did before technological change in containerization and longshoremen have *acquired* none of that work; although rules may duplicate off-pier work of truckers and warehousemen, it is not ct's function to weigh their economic cost]

[where U picketed general contractors on behalf of independent contractors for better leasing agreement terms, ct held general contractors were not neutral third party *wholly unconcerned* in dispute between 2 other parties, since general contractors were not at all neutral inasmuch as dispute over leasing agreement terms was only with general contractors; ct rejected Bd's interpretation that general contractors were neutrals because dispute with independent contractors was not between Es and Ees]

7540-8080-6733 Picket signs describing dispute

Local 87 Service Employees (Pacific Telephone and Telegraph Company) 279 NLRB No. 025

[U's failure to clearly identify on its picket signs primary E whom it was picketing at neutral E's facility, unlawful, where picket signs, mentioning only *Company X*, were undeniably ambiguous as to E being picketed; U, upon learning name of primary E, failed to alter picket sign despite repeated requests by neutral E to have signs reflect name of primary E; and U's failure to identify primary E was not effectively countered by its claiming difficulty in altering waterproofed signs]

Longshoremen's, Local 62-B v. N.L.R.B. 781 F.2d 919 (C.A. D.C., Jan. 1986)

[essence of dispute in 8(b)(4)(D) and 10(k) sense is existence of dispute between 2 or more groups of Ees over which is entitled to do certain work for E and, in most instances, dispute is of so little interest to E that he is willing to assign work to either Ee group; consequently characteristics of problem that 8(b)(4)(D) and 10(k) aim to solve are that, first, E faces jurisdictional dispute that is not of his own making and, two, dispute is between 2 Ee groups]

[Secs. 8(b)(4)(D) and 10(k) held applicable where U was responsible for picketing engaged in by terminated Ees of E who had previously ceased operations at jobsite of E having unrepresented Ees, since E was neutral party thrust into work dispute it did not cause; Bd cases holding that U's picketing to recover terminated Ees' jobs did not involve jurisdicitional dispute distinguished since here, unlike in those cases, E was not responsible for prior E's terminations, and there was no evidence E maintained any legal or contractual relationship with prior E that would allow Bd to infer responsibility]

Mine Workers (Bronzite Mining Company, Inc.) **280 NLRB No. 068**
[in finding U responsible for picketing by terminated Ees of E who had previously ceased operations at jobsite of E having unrepresented Ees, Bd declined to accept position that picketing was lawful attempt to retrieve terminated Ees' jobs, with dispute being between U and prior E and not between competing groups of E's Ees; under such rationale, U whose members have been terminated because E ceased operations would be free to picket all future Es who attempted to perform disputed work with own Ees, w/o being subject to 8(b)(4)(D) and 10(k) proscriptions]

Iron Workers Local 433 (Crescent Corporation) 277 NLRB No. 077
(although Bd ultimately found reasonable cause to believe Act was violated, Bd specifically held that U attorney's statement to E attorney *indicating* U would engage in job action to retain disputed work and E attorney could *have your magic words*, was not *reasonable cause* since threat was clearly intended only as a sham to invoke Bd's authority to determine dispute, nor was letter by U's attorney which stated that U would *exercise all options legally available to them)*

566 EXCESSIVE OR DISCRIMINATORY MEMBERSHIP FEES - (SEC. 8(b)(5))

2000 NATURE AND SCOPE OF PROSCRIPTION

2033 DESIGNED TO PREVENT IMPOSITION OF HIGH FEE TO PROTECT JOB SECURITY

Moving Picture Projectionists Local No. 150, Stage Employees IATSE (Dynasty Theater, Inc. d/b/a Garfield Theater) **274 NLRB No. 006**

(legislative history indicates purpose of Sec. 8(b)(5) is to prevent Us, by exorbitant initiation fees, from circumventing prohibition against closed shops; in attempting to achieve such purpose, Bd has determined that relevant wages are starting wages since Ees who pay initiation fees are those in lowest wage bracket; but Bd has never determined a standard ratio and, rather, has concluded in each case to decide whether under all circumstances, with due consideration for practices and customs, initiation fees required are either excessive or discriminatory)

4000 EXCESSIVE OR DISCRIMINATORY FEE

Moving Picture Projectionists Local No. 150, Stage Employees IATSE (Dynasty Theater, Inc. d/b/a Garfield Theater) **274 NLRB No. 006**

(terms *excessive* and *discriminatory* in 8(b)(5) are used in disjunctive and a finding of either is violative of Act; moreover, determination as to what constitutes an excessive fee is to be made on case-by-case basis)

Moving Picture Projectionists Local No. 150, Stage Employees IATSE (Dynasty Theater, Inc. d/b/a Garfield Theater) **274 NLRB No. 006**

(Bd has declined to make any recommendations as to the amount of any initiation fee which U may establish, deeming that Bd is not empowered to set the amount of U's initiation fees but is charged merely with determining which fees are discriminatory or excessive)

4017 UNLAWFUL IF EITHER EXCESSIVE OR DISCRIMINATORY INITIATION FEES

Moving Picture Projectionists Local No. 150, Stage Employees IATSE (Dynasty Theater, Inc. d/b/a Garfield Theater) **274 NLRB No. 006**

(requiring, as condition of employment, motion picture projectionist in commercial theater to pay $2000 initiation fee, amounting to about 7 weeks salary and 700% in excess of weekly salary of lower paid Ees, unlawful; such amount of fee is presumptively excessive, and U's contention as to reasonableness of fee based on amount of fees paid by members of other locals in area is unpersuasive, since there was no evidence as to such local's prevailing contractual wage rates, and they were not in same industry as local herein)

Moving Picture Projectionists Local No. 150, Stage Employees IATSE (Dynasty Theater, Inc. d/b/a Garfield Theater) **274 NLRB No. 006**

(in finding imposition of initiation fee on motion picture projectionist in commercial theater unlawfully excessive, ALJ held that, even assuming other Us in area, whose initiation fees U proposed as support for reasonableness of its initiation fee, were in same industry, evidence as to practice and customs of such Us was insufficient to overcome impact of U's initiation fee/wage ratio which was so disproportionate as to be considered exorbitant and one which may well be so staggering as to preclude prospective projectionist from accepting employment)

6000-0100 Generally

Moving Picture Projectionists Local No. 150, Stage Employees IATSE (Dynasty Theater, Inc. d/b/a Garfield Theater) **274 NLRB No. 006**

(Bd's decisions in cases involving allegation that fees or increase in fees were excessive as well as discriminatory, or that fees were excessive w/o being discriminatory, indicate that in determining what is excessive Bd looks at what percentage initiation fee is of Ee's weekly salary and how that compares to initiation fee/wage ratio utilized by other Us in the industry)

Iron Workers, Local Union 55 (McCullough Construction, Inc.) **JD-162-86**

4025-5000 What constitutes recognition and bargaining

4025-5050 To obtain initial acceptance as representative

Stage Employees IATSE (Albatross Productions, Inc.) **275 NLRB No. 105**

Stage Employees IATSE (Albatross Productions, Inc.) **275 NLRB No. 105**
(U's picketing violative, notwithstanding U's contention that purpose of picketing was to revive hiring relationship with E, where object of picketing was to obtain recognition from E as bargaining representative of E's stagehands)

Laborers, Local Union No. 1140 (Central States Asphalt Paving Co.) **275 NLRB No. 110**
(E's attempt to strike a deal with a minority U will not *alone* give rise to type of bargaining history contemplated by *Sullivan Electric Co.* 146 NLRB 1086, 1087 (1964), observing that Section 8(b)(7)(C) is designed to *...proscribe picketing having as its target forcing or requiring an E's initial acceptance of the U as the bargaining representative of his Ees*)

Highway Drivers, etc., Local 710, Teamsters (University of Chicago) **274 NLRB No. 142**
(fact that mixed guard-nonguard U, unqualified to represent E's security guards, obtained majority vote in election held not to alter Bd's conclusion that U's threat to picket E for recognition was unlawful; in view of Bd's prior decision overruling *Bally's Park Place* and holding that 9(b)(3) precludes disqualified U from participating in Bd election, U's reliance on results of election is misplaced; and even if *Bally's Park Place* had not been overruled and U's participation in election was proper, result herein would be same)

]Sec. 8(e) addresses itself to what Congress considered a defect in law prior thereto, i.e., law that permitted contractual provisions directed at unoffending Es, rather than to conditions of work of contracting E. Orange Belt District Council of Painters No. 48, AFL-CIO, CLC (Frank A. Calhoun) **277 NLRB No. 173**
[guarantee clauses restricting subcontracting to subcontractors who agree to pay contractual wages or fringe benefits provided for in U agreement held secondary and unlawful where it was consistent practice in enforcing clause to require E to pay delinquencies only when subcontractor did not have contract with U and, consequently, clause was not intended to only protect interests of unit Ees, but rather was directed at furthering general U objectives and regulating labor policies of Es other than E-signatories]

Orange Belt District Council of Painters No. 48, AFL-CIO, CLC (Frank A. Calhoun) **277 NLRB No. 173**
[payment of delinquencies by E-signatory to agreement containing U standards clause restricting subcontracting to subcontractors who agree to pay U wages and fringe benefits held penalty and U standards clause secondary, since payment of delinquencies, which included dues, would not inure to benefit of Ees of subcontractor]

3755 LIMITATION UPON EMPLOYMENT OF PERSONS

Building Material and Dump Truck Drivers, Teamsters Local Union No. 36 (Nelson & Sloan) **277 NLRB No. 102**
(maintaining provision of contract which precluded E from doing business with all subcontractors who employed drivers of equipment owned by those subcontractors, thus permitting subcontracting only if owner-operators were driving trucks, and required subcontractors to obtain clearance from U hall not later than start of second day of U work, unlawful, where maintenance of article had no valid, primary objective, and provision permitted subcontracting only of owner-operator even if unit work and area standards were not involved; further, no evidence subcontracting interfered with unit work)

Operating Engineers, Local No. 701, etc. (Howard S. Lease Construction Co. & Associates) **276 NLRB No. 077**
(applying provision of master agreement between U and multi-E association providing that where equipment belonging to owner-operator of said equipment shall be present on any job operator of said equipment shall be on payroll of agreement as to contributions to benefits funds and premium pay rates, and which further provided that if E failed to make said monetary contributions, U free to take any economic action against contractor, unlawful, where owner-operators held independent contractors, purpose was not preservation of unit work, nor was provision w/i construction industry proviso)

3758 LIMITATION UPON USE OF INDEPENDENT CONTRACTORS

Longshoremen, Local 13 (Robert A. Curry) **278 NLRB No. 020**
[supplements to E association contract with U requiring all disputed work of loading and unloading cargo into and out of containers w/i 50 miles of a port to be performed by Ees represented by U, violation to extent supplements compelled member Es to c/d/b with nonmembers unless they used Ees U represented to perform disputed work where supplements applied to all containers and compelled members to cease handling containers used by nonmembers which were not owned by or leased from members and which members had no right to control]

Orange Belt District Council of Painters No. 48, AFL-CIO, CLC (Frank A. Calhoun) **277 NLRB No. 173**
[U signatory clauses requiring E-signatory to subcontract only to subcontractors who are signatory to agreement held secondary in thrust and unlawful because they are directed at furthering general U objectives and regulating labor policies of Es other than E-signatory]

Newspaper and Mail Deliverers' Union of New York & Vicinity (Raritan Periodical Sales, Inc.) **277 NLRB No. 064**
(U's agreement with Es which forbids Es from using other companies other than those employing U's members to deliver papers to Es, violative)

Newspaper and Mail Deliverers Union; etc. (B & W Distributors Corp.) **274 NLRB No. 136**
(U and two Es, one of which had contract with U, violated 8(b)(4)(i), (ii)(A) and 8(e) by entering into agreement whereby E which didn't have contract with U ceased contracting out pick-up of its product to another neutral E and allowed E which had contract with U to assign that work to its unit Ees, since work of picking up product was not traditional work or work preservation of unit Ees where U and both Es knew that neutral E had picked up this product for at least 6 years and agreement was simply attempt to force that neutral E out of the picture and agree to U's demand for that work)

3760 LIMITATIONS UPON USE OF PRODUCTS OR EQUIPMENT IN OPERATIONS

N.L.R.B. v. Longshoremen's ILA **———U.S.———— (S.Ct, June 1965)**
[Rules on Containers agreement negotiated by U pertaining to longshoremens' work of loading and unloading technologically innovative containerized cargo at pier, and enforcement of Rules by U held lawful as applied to *shortstopping* by land motor carriers and as to *traditional* warehousing practices, since Rules were motivated by longshoremens' desire to preserve their jobs; in view of such primary objective, extra-unit effects of agreement are insufficient basis for finding that it has unlawful secondary objective; and elimination of work because of innovation is no reason to find agreement unlawful]

New Orleans Steamship Association; ILA Local No. 1497; et al., (New Orleans Cold Storage & Warehouse Co., Ltd.) **276 NLRB No. 048**
(in view of S.Ct's decision reversing Bd's decision in *Longshoremen ILA (New York Shipping)* and holding that Rules on Containers were lawful work preservation agreement, Bd held that maintaining and enforcing Rules were not violative of 8(b)(4)(ii)(B) and 8(e) as applied to initial unloading of refrigerated containers of frozen meat destined for charging party's warehouse, since no basis existed for distinguishing between longshoremen's traditional work of unloading frozen cooked meat from ships and work of unloading frozen uncooked meat from containers)

American Trucking Associations, Inc. and Tidewater Motor Truck Association v. N.L.R.B. **734 F.2d 966 (C.A. 4, May 1984)**
[Rules on Containers, negotiated by longshoremen with various shipping E associations representing east coast shipping lines as preservation measure for work involving loading and unloading of containers w/i 50 miles of port not violative, since rules had valid work preservation object and shipping companies retained right to control assignment of work claimed by longshoremen]

American Trucking Associations, Inc. and Tidewater Motor Truck Association v. N.L.R.B. **734 F.2d 966 (C.A. 4, May 1984)**
[Bd's conclusion that Rules on Containers negotiated by longshoremen violated Act as applied to *shortstopping* by truckers and some *traditional warehouse functions* was error as a matter of law, since rules had valid work preservation object where truckers and warehousemen do precisely what they did before technological change in containerization and longshoremen have *acquired* none of that work; although rules may duplicate off-pier work of truckers and warehousemen, it is not ct's function to weigh their economic cost]

3780 DIMINUTION OF UNIT WORK

Longshoremen, Local 13 (Robert A. Curry) **278 NLRB No. 020**
[Bd, in testing validity of work preservation agreement, will focus on unit Ees' work and examine relationship between their work as it existed before innovation and as agreement proposes to preserve it, rather than focusing on work performed after innovation by Ees allegedly displacing unit Ees]

3780-6700 Fairly claimable unit work

Longshoremen, Local 13 (Robert A. Curry) **278 NLRB No. 020**
[supplements to E association contract with U had legitimate work preservation objective where there was close historical and functional relationship between work covered by contract and work traditionally performed by Ees represented by U, but nevertheless constituted violation to the extent that they covered work which E association members had no right to award]

Longshoremen, Local 13 (Robert A. Curry) **278 NLRB No. 020**
[U not precluded from negotiating return of its traditional and historical work to Ees it represented, where, notwithstanding prior agreements covering the work, it had not bargained away unit Ees' right to perform it but had dealt with technological innovation affecting it as ongoing process like that of collective bargaining]

Longshoremen, Local 13 (Robert A. Curry) **278 NLRB No. 020**
[supplements to E association contract with U requiring all disputed work of loading and unloading cargo into and out of containers w/i 50 miles of a port to be performed by Ees represented by U, violation to extent supplements compelled member Es to c/d/b with nonmembers unless they used Ees U represented to perform disputed work where supplements applied to all containers and compelled members to cease handling containers used by nonmembers which were not owned by or leased from members and which members had no right to control]

Orange Belt district Council of Painters No. 48, AFL-CIO, CLC (Maloney Specialties, Inc.) **276 NLRB No. 156**

5014 SCOPE AND PURPOSE, GENERALLY

Orange Belt District Council of Painters No. 48, AFL-CIO, CLC (Frank A. Calhoun) **277 NLRB No. 173**

[contract provision which is exempt from proscription of 8(e) solely because it falls w/i construction industry proviso may be enforced only through lawsuits and not by threats, coercion, or restraint proscribed by 8(b)(4); definition of coercion includes concerted self-enforcement such as strike, picketing, or other economic retaliation or pressure in labor dispute; and contractual clauses which authorize use of proscribed measures to enforce secondary subcontracting provision removes clauses from protection of 8(e) proviso]

Operating Engineers, Local No. 701, etc. (Howard S. Lowe Construction Co. & Associates) **276 NLRB No. 077**

]*construction industry proviso in Section 8(e) is applicable to agreements which are sought and negotiated in context of collective bargaining relationship. However, construction industry proviso does not immunize agreements that permit use of economic pressure to secure compliance with any otherwise exempted agreement. Such secondary clauses can be enforced only through judicial proceedings.* Herein, owner-operator provision incorporated by reference all terms and conditions of contract, including provisions which allow for economic pressure to secure compliance)

5028 LABOR ORGANIZATION AND EMPLOYER IN INDUSTRY

L & J Equipment Company, Inc. **278 NLRB No. 074**

[whether E, not primarily in construction business, may be deemed E in construction industry for purposes of first proviso to 8(e) depends upon degree of control over construction site labor relations it elects to retail, and as its own general contractor E retains absolute control; similarly, where E hires general contractor but regularly makes decisions, including selection of subcontractors, normally w/i general contractor's duties and authority, such E is tantamount to general contractor, regardless of whether E is owner of premises under construction or prospective lessee]

Carpenters, Local 743, et al. (Longs Drug Stores, Inc.) **278 NLRB No. 062**

[whether E not primarily in construction business may be deemed E in construction industry for purposes of first proviso to 8(e) depends upon degree of control over construction site labor relations E elects to retain; similarly, where E hires general constractor but regularly makes decisions, including selection of subcontractors, normally w/i general contractor's duties and authority, such E is tantamount to general contractor, reguardless of whether E is owner of premises under construction or prospective lessee]

Carpenters, Local 743, et al. (Longs Drug Stores, Inc.) **278 NLRB No. 062**

[E operating drug store chain and having new facility built by general contractor held not E in construction industry, where construction work E elected to reserve to itself was of limited scope; E utilized own construction Ees for very limited purpose during final 14 days of 8-month construction project and did not directly become involved with labor relations at project until that time; and sporadic visits by E's project manager and coordinator were to ensure that work was done in compliance with plans and specifications]

Carpenters, Local 743, et al. (Longs Drug Stores, Inc.) **278 NLRB No. 062**

[E operating drug store chain and engaged in having new facility built by general contractor held not E in construction industry w/i meaning of first proviso to 8(e), where construction work E elected to reserve to itself was of limited scope; and fact that E owned building under construction and could have elected to become its own general contractor did not make it become an E in constraction industry]

Carpenters, Local 743, et al. (Longs Drug Stores, Inc.) **278 NLRB No. 062**

[in finding E not in construction industry w/i meaning of first proviso to 8(e), ALJ rejected Us' contention that E, having entered into agreement to hire only U contractors, should be estopped from contesting its status as E in construction industry, particularly since U's in reliance upon E's contractual commitments over years, furnished carpenters to E through their various hiring halls; such contention was unavailing particularly since there was no showing that contracts were entered with mutual understanding that E would act as its own general contractor or would hire only U general contractors]

5042 AGREEMENT RELATING TO CONTRACTING OR SUBCONTRACTING

Associated General Contractors of California, Inc.; et al., Teamsters Local Union Nos. 94, et al. (California Dump Truck Owners Association) **280 NLRB No. 082**

[contract provision requiring signatory E to subcontract work at construction site exclusively to subcontractors who agree to comply with contract, while clearly secondary on its face because it did not limit subcontracting to entities that pay equivalent of contract wages and benefits but, instead, required subcontractors to become contract signatories, held protected by construction industry proviso since it was limited to onsite work; such protection, however, did not extend to related contractual provisions authorizing self-help]

Associated General Contractors of California, Inc.; et al., Teamsters Local Union Nos. 94, et al. (California Dump Truck Owners Association) **280 NLRB No. 082**

[E-association and U unlawfully entered into, maintained, and enforced contract provisions which required E-members to c/d/b with truck owner-operators who did not become U members under contract; its provisions applicable to owner-operators, herein found to be independent contractors, were secondary on their face and applied to work done both on and off jobsite and therefore did not fall w/i protection of construction industry proviso; and provisions did not serve purposes of preserving unit work or employment standards of unit Ees]

Carpenters, Local 743, et al. (Longs Drug Stores, Inc.) **278 NLRB No. 062**

[Us' entering into and enforcing agreement requiring E, operating drug store chain and having new facility built by general contractor, to hire only U subcontractors for its construction projects, unlawful, where E was not E in construction industry w/i meaning of first proviso to 8(e)]

Orange Belt District Council of Painters No. 48, AFL-CIO, CLC (Frank A. Calhoun) **277 NLRB No. 173**

[contention that subcontracting clauses were not protected under construction industry proviso to 8(e) on ground they encompassed work which was not on-site and were not *entered into*, as reaffirmed by U's claims in arbitration, rejected, where basis of claim being arbitrated arose in context of bargaining relationship, and record did not establish that such relationship did not exist]

Orange Belt District Council of Painters No. 48, AFL-CIO, CLC (Frank A. Calhoun) **277 NLRB No. 173**

[U unlawfully entered into, invoked, and gave effect to secondary subcontracting clauses in its joint agreement with E associations because of self-help provisions contained in agreement which gave U right to remove its members from any job to enforce such clauses, thereby removing clauses from construction industry proviso of 8(e)]

Southern California Pipe Trades District Council No. 16, Plumbers, etc. (Jamco Developmentment Corporation) **277 NLRB No. 128**

(construction industry proviso is not absolute and contractual provisions which authorize *self-help* to enforce secondary subcontracting clauses are not authorized by proviso; self-help provisions for enforcing voluntary secondary agreements violate 8(e) in construction industry even though self-help and subcontracting provisions are in different articles of contract, remedy would be same if achieved by lawful judicial means, and means of enforcement reserved by U are not strictly limited to strikes and picketing)

Southern California Pipe Trades District Council No. 16, Plumbers, etc. (Jamco Developmentment Corporation) **277 NLRB No. 128**

(where U unlawfully entered into, maintained, or enforced secondary subcontracting clause permitted under construction industry proviso, Bd reaffirmed its *Ets-Hokin* (154 NLRB 839) concept of severability and held that where self-help enforcement provisions apply to secondary provisions in construction industry contracts, former cannot be protected under 8(e) proviso but latter will not lose such protection and may be enforced by judicial means; no policy reasons exist under Act justifying invalidation of lawful, voluntary bilateral agreement)

Construction, Building Materials & Miscellaneous Drivers, Local No. 83 a/w Teamsters (John Cahill d/b/a Cahill Trucking Company) **277 NLRB No. 133**

(entering into, maintaining, and giving effect to self-help provision applicable to subcontracting clause of master labor agreement, that was classic U signatory clause, violation, notwithstanding subcontracting clause retains protection of 8(e) proviso and may be enforced by resort to grievance-arbitration procedure)

Construction, Building Materials & Miscellaneous Drivers, Local No. 83 a/w Teamsters (John Cahill d/b/a Cahill Trucking Company) 277 NLRB No. 133
(master labor contract clause prohibiting subcontracting of signatory E's work to nonsignatory contractors covered by construction industry exemption although it was U signatory clause, valid neither as work preservation nor work standards clause, and secondary, since it was not concerned primarily with contracting E's labor relations but with those of other Es with which it might choose to do business)

General Teamsters, Local No. 179 (Walter Sally d/b/a Walter and Sons) 277 NLRB No. 074
(clause in contract which forbids Es from contracting or subcontracting work done at construction site to any person, firm or corporation not a party to contract, held violative of Section 8(e), where subsequent clause in same Article of contract relating to restrictions on subcontracting gave U the right to strike in support of violations on subcontracting and thus, those restrictions lost protection of construction industry proviso because of this self-help clause)

Orange Belt district Council of Painters No. 48, AFL-CIO, CLC (Maloney Specialties, Inc.) 276 NLRB No. 156
(contract clause prohibiting signatory Es from subcontracting any work covered by agreement to nonsignatory Es, held w/i construction industry proviso but violative of 8(b)(4)(ii)(A), where self-help provisions of contract allowed U to withhold services, remove workers from jobsites and refuse to refer members and U in fact engaged in work stoppage to protest E's subcontracting and attempted to have E's *working privileges* denied by filing charges against E)

Chicago District Council of Carpenters, AFL-CIO (Polk Bros., Inc.) 275 NLRB N. 051
(subcontracting clauses limiting subcontracting to persons who were covered by bargaining agreement with U or observe same benefits and employment conditions U's contract provides secondary in thrust and violative of 8(e))

N.L.R.B. v. Chauffeurs, Teamsters, Warehousemen & Helpers Local 525, a/w Teamsters 773 F.2d 921 (C.A. 7, Sep. 1985)
(agreements which limit E to subcontracting with businesses that recognize U or have U contract are violative. Clauses at issue here, which require owner-operators to join U by requiring them to be carried on payroll as Ees, are U signatory clauses which focus on U affiliation of, rather than compensation paid, a subcontractor's Ees and are presumptively invalid)

5056 WORK TO BE DONE AT CONSTRUCTION SITE

Associated General Contractors of California, Inc.; et al., Teamsters Local Union Nos. 94, et al. (California Dump Truck Owners Association) 280 NLRB No. 082

Orange Belt district Council of Painters No. 48, AFL-CIO, CLC (Maloney Specialties, Inc.) 276 NLRB No. 156
(though a contractual provision may not be expressly limited to jobsite work, that fact *alone*, will not deprive contractual language of protection of construction industry proviso)

5070 RELATION TO OTHER PROVISIONS OF ACT

Orange Belt District Council of Painters No. 48, AFL-CIO, CLC (Frank A. Calhoun) 277 NLRB No. 173
[Bd applied *Jamco* (277 NLRB No. 128) rationale that, although self-enforcement provisions violate 8(e) to extent that they interrelate with secondary provisions in construction industry bargaining agreements, secondary provisions themselves retain protection of 8(e) proviso and may be enforced by resort to grievance-arbitration or judicial processes; accordingly, Bd modified ALJ's recommended order to make clear limited extent of inj against self-help provisions]

Orange Belt District Council of Painters No. 48, AFL-CIO, CLC (Frank A. Calhoun) 277 NLRB No. 173
[contract provision which is exempt from proscription of 8(e) solely because it falls w/i construction industry proviso may be enforced only through lawsuits and not by threats, coercion, or restraint proscribed by 8(b)(4); definition of coercion includes concerted self-enforcement such as strike, picketing, or other economic retaliation or pressure in labor dispute; and contractual clauses which authorize use of proscribed measures to enforce secondary subcontracting provision removes clauses from protection of 8(e) proviso]

[primary purpose of APA requirement that agency's decisions include reasons or basis for its conclusions on all material issues of law is to impose discipline upon agency itself, assuring that it has undergone process of reasoned decision-making rather than haphazardly reached result that could (on one or another basis of analysis) be sustained; to achieve primary purpose, *post hoc rationalization* of why agency could have come out the way it did will not suffice]

Iron Workers, Local No. 111 v. N.L.R.B. 792 F.2d 241 (C.A. D.C., June 1986)

[in finding that Bd failed to meet APA requirement that agency's decision include its reasons or basis for its conclusions, ct held case herein was not one where legal issue raised is not substantial, e.g., there is no apparent conflict in earlier cases or reasons for departure therefrom are clear so that issue would not be *material* w/i meaning of APA, or failure to address it would come w/i meaning of APA's exemption of harmless error]

0137 APPLICABILITY OF FEDERAL RULES OF EVIDENCE

M. J. Santulli Mail Services, Inc. 281 NLRB No. 170

Maritz Communications Company, A Wholly Owned Subsidiary of Maritz, Inc. 274 NLRB No. 016

(interrogation of Charging Party by Respondent's attorney during deposition in connection with age discrimination suit which Charging Party had also filed against Respondent, not unlawful, since questions asked fell w/i scope of relevance permitted by Rule 26(b)(1) of Federal Rules of Civil Procedure inasmuch as discovery not limited to pleadings, but may encompass any matter that bears on or could bear on or reasonably lead to other matter that could bear on any issue in case, notwithstanding not admissible at trial)

0150 PRESUMPTION OF ADMINISTRATIVE REGULARITY

Lord Jim's v. N.L.R.B. 772 F.2d 1446 (C.A. 9, Oct. 1985)

[Bd's finding that an EAJA application was received on a certain date because it was so marked with an NLRB date-stamp, upheld, since every presumption of regularity attends the action of the Bd]

0175 EFFECT OF PRIOR PROCEEDINGS (See also, RES JUDICATA 750-0000)

Rockwood & Company and W. H. Gonyea Trust No. 1–17 d/b/a Timber Products Co. 281 NLRB No. 117

[issue of U successorship, which arose subsequent to occurrence of E's ULPs herein and which Bd deferred to compliance stage in earlier proceeding involving E and U as parties held not to warrant abatement of Bd review of ALJ's decision in instant case]

Imperial House Condominium, Inc. 279 NLRB No. 154

[E's contention in case involving issue of Bd's jurisdiction over E's operation that prior Bd decision extending jurisdiction to include operation similar to that of E did not constitute precedent because E and U therein agreed that Bd should assert jurisdiction, rejected]

Superior Container, Inc. 276 NLRB No. 086

(GC's request that ALJ take judicial notice of ALJ's decision in prior case involving same E, for purpose of considering ALJ's findings and conclusions in prior case as dispositive of some elements of proof herein, denied, since seeking to attach finality to earlier findings of ALJ is result that can appropriately be accorded only to Bd decisions or those of ct; however, ALJ officially noticed existence of prior ULP proceeding and ALJ's decision to extent legitimately possible)

0175-2500 Where outstanding order prohibits conduct at issue

Dependable Building Maintenance Company; et al. 276 NLRB No. 007

(on remand of case for consideration of additional issues, GC's mtn to strike Es' exception to part of ALJ's order as untimely because Bd had affirmed this part of the order in its original decision, so that res judicata applied, denied, since this issue was not reached in Bd's original disposition of the case)

Springfield Transit Management, Inc. 281 NLRB No. 017

[no relitigation in ULP case of supervisory or confidential-Ee status of individuals stipulated by parties to be unit Ees in R case]

Spring Valley Farms, Inc. 274 NLRB No. 091

(GC's failure to put on evidence in *C* case to support jurisdictional allegations of C under Bd's direct outflow standard, did not prevent Bd from asserting jurisdiciton where ALJ took judicial notice of fact that transcript in prior *R* case involving same E contained a stipulation that E had received goods valued in excess of $50,000 directly from suppliers outside the state, thus satisfying Bd's direct inflow standard for asserting jurisdiction)

0175-5025-7500 Where request for review denied

Accurate Web, Inc. 279 NLRB No. 030

[decision of RD in prior R case precludes, relitigation of issue in instant proceeding, since E's request for review of RD's dismissal was denied by Bd nor has E raised any issue properly litigible in ULP proceeding by using newly discovered or previously unavailable evidence or special circumstances requiring Bd reexamination]

0175-5050 Issues as to which relitigation precluded

0175-5050-3300 Unit determination

N.L.R.B. v. Speedway Petroleum, Division of Emro Marketing Company 768 F.2d 151 (C.A. 7, July 1985)

[ct refused to consider E's argument that Bd erred in R proceeding by failing to review all evidence relied on by RD in finding challenged Ee ineligible to vote, since E waived its argument by failing to raise it at Bd ULP proceeding in either its answer or in its response to GC's mtn for summary judgment, and no extraordinary circumstances excused its failure to do so]

0175-5050-6000 Relitigation at compliance stage of matters previously litigated, decided and enforced

Greyhound Taxi Co., Inc. 274 NLRB No. 060
(amount of weekly reduction in wage rate included in discriminatee's backpay, where E, in instant supplemental proceeding sought to establish that reduction was due to nondiscriminatory reasons; such issue was barred by principle of *res judicata* since E was attempting to relitigate matter which had previously been decided in original ULP proceeding)

0175-5050-6500 Employer status

Western Temporary Services, Inc. and The Classic Company, Inc. 278 NLRB No. 073
[ALJ's granting GC's mtn to strike certain of Es' denials from their individual answers, granting mtn for summary judgment, and deciding certain issues were res judicata because previously determined by Bd in underlying R proceeding, proper, notwithstanding Es' contention that they were denied due process in R proceedings for lack of adequate notice of amendment to ptn naming them as joint Es, where GC issued C alleging them as joint Es over two weeks before R ptn amendment and hearing, one E admitted joint E status in its answer, and other E presented evidence of their relationship at R hearing]

Benjamin Pontiac Inc. JD-(NY)-82-85
(fining by RD in decertification ptn case that individual who circulated ptn was agent of E not binding in ULP proceeding)

0175-7900 Prior court decision

Allbritton Communications Co., The News Printing Co., Inc. and The Hudson Dispatch v. N.L.R.B. 766 F.2d 812 (C.A. 3, July 1985)
(E's contention that collateral estoppel precluded Bd from making findings different than that of district ct as to E-Ee relationship in prior Sec. 301 action involving same parties, rejected, since prior 301 action was improperly removed from state ct to district ct because district ct had no original jurisdiction and therefore any *findings* made by district ct are w/o collateral estoppel effect)

0175-8100 Prior ULP proceeding

Sewell-Allen Big Star, Inc., No. 3 d/b/a Sewell-Allen Big Star No. 52 280 NLRB No. 137
[no inference of U animus or unlawful motivation on E's part held to exist as result of prior decision in which E's other facilities were individually found to have engaged in ULPs; while evidence from prior ULP proceeding may be used as evidence of present U animus, there was no evidence herein that E engaged in any ULP remotely similar to those found in prior decision; and even if some U animus was found in present case, there would still be no basis for finding violation herein]

Alamo Cement company 277 NLRB No. 108
(allegation in C of unlawful work rule barred where GC knew or should have known of rule through investigation of earlier charges; maintenance or enforcement of said rule, however not barred, since it was continuing course of conduct, and charge of E's enforcement of rule against Ee did not occur before proceedings in earlier case and could not have been litigated therein; also, permitting E to maintain and enforce invalid rule, promulgation of which was barred from C, would grant E license to violate Ees' Sec. 7 rights)

Alamo Cement Company 277 NLRB No. 034
]*res judicata* principle foreclosed adjudication of supervisory status of certain individuals in instant case where they had been found nonsupervisory in prior Bd case, and, with one exception, all material evidence was available and could have been litigated in prior proceeding)

Ballou Brick Co. 277 NLRB No. 009
(E's contention that instant C allegations must be dismissed because they were subject of prior settlement agreement, rejected, where prior settlement agreement was merely a private agreement between E and charging party (an individual) and charging party agreed to withdraw charge, no notice was posted and U, as charging party in instant case, was not a party to settlement)

The May Department Stores Company JD-(SF)-13-85
(U was estopped from denying that Ee, found herein to be an agent of U, had committed acts of misconduct where Ee's misconduct was subject of prior ULP hearing brought to contest her discharge and ALJ in prior case, found that Ee had in fact engaged in misconduct which was sufficient to deny her the protection of the Act; fully litigated findings in prior case which were *pro forma* adopted by the Bd, constitute *final determinations*, and are therefore binding)

Road Sprinkler Fitters Local Union No. 669, Plumbers v. N.L.R.B. 789 F.2d 9 (C.A. D.C., Apr. 1986)
[Bd may consider evidence relating to continuing violation. Bd not precluded from dealing with ULPs that occur after filing initial ULP charge if new ULPs are *related to* initial charge and *grew out of them while the proceeding is pending before the Bd*]

0181 EFFECT OF PENDING PROCEEDINGS

Chiappo Bus Company and Its Alter Egos, Comfort Coach and Nicholas Chiappo d/b/a G. R. Coach and Chiappo Bus Company 278 NLRB No. 071
[ptn for advisory opinion to determine whether Bd would assert jurisdiction over petitioning Es, dismissed where there was outstanding ULP proceeding in which binding adjudication of jurisdictional issue could be obtained, no other considerations suggested need for earlier determination of the issue, and Bd's confining itself to statutory proceeding before it would better serve advisory opinion procedure's underlying purpose and avoid unnecessary duplication and possible confusion]

Road Sprinkler Fitters Local Union No. 669, Plumbers v. N.L.R.B. 789 F.2d 9 (C.A. D.C., Apr. 1986)

[fact that E may seek ct review of Bd's earlier decision in case involving E and U as parties held not to warrant suspending Bd action in instant case]

Gentzler Tool & Die Corp. 275 NLRB No. 134
(notwithstanding Bd has pending ptn for enforcement of its Order requiring execution of contract, retroactive application of contract and that E o/d from dealing directly with Ees, Bd issued another D/O arising from subsequent C finding E violations for refusal to bargain and withdrawal of recognition which are different violations than those found in firm decision, and therefore, Order in first decision would not remedy those violations found in second decision; hence, need for another Order)

N.L.R.B. v. Edward Cooper Painting, Inc., and Cooper & Cooper Painting, an alter ego 804 F.2d 934 (C.A. 6, Nov. 1986)
[Bd, acting on belief that its ULP proceeding was excepted from operation of automatic stay under Bankruptcy Act, held to have permissibly proceeded with ULP hearing w/o obtaining relief from stay in bankruptcy ct; however, Bd proceeded at its own risk and, if it was later determined that proceeding was *not* excepted from automatic stay, entire Bd proceeding would be void *ab initio*; nonetheless, exercise of governmental unit's police or regulatory powers is not void merely because used in belief that its action was excepted from automatic stay]

N.L.R.B. v. Edward Cooper Painting, Inc., and Cooper & Cooper Painting, an alter ego 804 F.2d 934 (C.A. 6, Nov. 1986)
[Bd's ULP proceeding held excepted from operation of automatic stay of 362(b)(4) of Bankruptcy Act and not attempt to enforce money judgment, and therefore subject to automatic stay by operation of 362(b)(5), since Bd's adjudication that E violated federal labor law was not proceeding for primary purpose of protecting government's claim to entitlement to pecuniary interest in debtor's estate, and Bd was engaged in enforcing nation's labor laws in exercise of police or regulatory powers placing it w/i 362(b)(4) exemption to automatic stay]

0188 FAILURE TO EXHAUST OTHER REMEDIES

Local 594, Auto Workers v. N.L.R.B. 776 F.2d 1310 (C.A. 6, Nov. 1985)
[U waived defense that discriminatees failed to exhaust internal U remedies where U failed to raise issue before ALJ and addressed issue for first time in its post-hearing briefs to ALJ]

0194 QUALIFICATION OF COUNSEL TO REPRESENT PARTY BEFORE BOARD

Mack Trucks, Inc. 277 NLRB No. 004
(U's mtn to disqualify law firm from serving as E's counsel because of Bd's Regional attorney's prospective affiliation with that firm, denied, since no sufficient warrant had been shown for determination that there should be a substitution of GC's representative, no deficiencies in case record with respect to GC's prosecution of present matter have been shown. A merely conceivable *appearance of impropriety* must be considered too slender a reed upon which to rest a disqualification order)

Storer Communications, Inc. v. N.L.R.B. ———

F.Supp.———— (DC E.D. OH, Oct. 1984)

[district ct lacks subject matter jurisdiction over E's C alleging due process requires Bd to hold evidentiary hearing, prior to ULP proceeding, concerning allegations that U's counsel should be disqualified under ABA's DR 5-102(A) because E has subpoenaed him to testify about substance of ULP charges, since U's counsel is being called by E *as its* witness, and thus is not proscribed from testifying by DR 5-102(A)]

Storer Communications, Inc. v. N.L.R.B. ———

F.Supp.———— (DC E.D. OH, Oct. 1984)

[district ct lacks subject matter jurisdiction over E's C alleging due process requires Bd to hold evidentiary hearing, prior to ULP proceeding, concerning allegations that U's counsel should be disqualified under ABA's DR 5-102(A) because E has subpoenaed him to testify about substance of ULP charges, since, although testimony did not reveal whether U would call counsel as its witness, due process does not require a hearing on this matter, since E has not shown that qualified right to have opposing counsel disqualified is a property right and E may renew mtn to disqualify should U call counsel as its witness]

0400 LIMITATION OF ACTIONS

0420 SECTION 10(b) 6-MONTH LIMITATION

0420-0100 Generally

[Sec. 10(b) does not bar consideration of 8(a)(1) allegations contained in C which are properly raised by printed allegations contained in charge form alleging *other acts* of interference with and coercion of Ees' Sec. 7 rights]

G.M. Trimming, Inc., et al., Debtor-In-Possession, and George Marks 279 NLRB No. 121

Salinas Valley Ford Sales, Inc.; et al. d/b/a Town & Country Olds/Cadillac/Honda 279 NLRB No. 089

[amendment to C which named additional Respondent not named in original C and its Ees whom Respondent allegedly unlawfully refused to reinstate after economic strike, not barred by Section 10(b) since Respondent named in original charge, although its Ees were not, and amended complaint was based solely on matters arising out of same course of events set forth in timely filed charge]

Leward Nursing Home 278 NLRB No. 157

[Section 10(b) timely invoked by Respondent, notwithstanding it did not expressly invoke 10(b), when it stated at hearing *evidence has been before Bd on this issue for over a year. Specific charge has been filed and dismissed* (actually withdrawn), and procedual facts pertinent to 10(b) defense thereafter fully litigated]

Lectromelt Casting and Machinery Company, A Division of Akron Standard Division, Eagle Picher Industries, Inc.; et al. 278 NLRB No. 102

[second amended C properly included allegations concerning discharges of two Ees not mentioned in original charge, where their discharges involved same incident and subject matter as original charge, charge's allegations were sufficiently broad to cover additional discharges, and original charge was filed w/i 10(b) period]

0420-1200 Has effect of statute of limitations

Nazareth Literary & Benevolent Institute, Inc., d/b/a Saints Mary and Elizabeth Hospital 282 NLRB No. 010

[E's refusal to bargain with U in which E's letter purported not to withdraw recognition unconditionally, but only to suspend negotiations *pending a final determination as to whether or not your labor organization represents a majority of nurses at our hospital* not untimely refusal, since, notwithstanding E's letter was over 6-months before any ULP charge as a refusal to bargain which is contingent on other occurrences does not start statute of limitations running]

Kou Fu, Inc. d/b/a Peng Teng 278 NLRB No. 080

[Section 10(b) defense rejected where raised for first time before Bd, since 10(b) provision is statute of limitations, not jurisdictional, thus it is affirmative defense and if not timely raised, waived]

Operating Engineers Local 478 (Stone & Webster Engineering Corporation) 274 NLRB No. 081

(Section 10(b) defense concerning conduct of U which *occurred far beyond six months from the filing and service of the charge herein*———, rejected, since U's present conduct can be considered in light of its earlier illegal conduct; further, activities of dissident U member continued into Section 10(b) (limitation) period)

Central Transport, Inc. JD-114-86

0420-2500 Not jurisdictional

Kou Fu, Inc. d/b/a Peng Teng 278 NLRB No. 080

[Section 10(b) defense rejected where raised for first time before Bd, since 10(b) provision is statute of limitations, not jurisdictional, thus it is affirmative defense and if not timely raised, waived]

Alpine Vending, Inc. JD-(SF)-99-85

(Sec. 10(b) defense is not jurisdictional but may be waived by failure to raise it in timely fashion as an affirmative defense. Must be raised before trial record closes, or if trial waived, then before parties have stipulated to closing of record. Indeed, to extent Federal Rules of Civil Procedures may be deemed to govern in this regard, it is clear under both F.R.C.P. 8(c) and 12(b) that, to be timely, affirmative defenses, must be averred in party's responsive pleading (here, the answer))

0420-5000 Runs from effective date of ULP

Carter-Glogau Laboratories, Inc. 280 NLRB No. 049

[C allegations regarding E's failure to reinstate former economic strikers held barred by 10(b) limitation, since E's letters to U, submitted outside 10(b) period, put U on sufficient notice of alleged ULP where, notwithstanding U's unconditional request to return to work, letters sufficiently indicated that only those former strikers who supplied E with their phone numbers and addresses were offered jobs, and that only those *additional individuals* who fulfilled such requirement would be placed on preferential hiring list and considered for reinstatement in future]

Marin Operating, Inc. d/b/a The Clarion Hotel-Marin; Colorado Marin Associates, A Joint Venture; and Preferred Properties Fund 82, A Limited Partnership 279 NLRB No. 070

[successor E's refusal to bargain on grounds predecessor E unlawfully recognized U in separate units of Ees, violative, since, even though predecessor E's recognition of U in separate units may have been improper in view of that certified by Bd, successor E is barred by 10(b) from challenging that recognition; to allow successor E to challenge that recognition would upset successful 12-year bargaining relationship and revive problems long ago put to rest]

J. K. Cowan Company 274 NLRB No. 031

(charge alleging unlawful failure to hire applicants because of their U affiliation timely filed w/i Sec. 10(b) period, where charge and complaint alleged failure to hire occurred on or about date w/i 10(b) period, GC did not plead or argue discrimination prior to 10(b) period, and absent evidence E ever notified or advised interviewees of its decision not to hire them; further, during interviews outside SEction 10(b) period, some alleged discriminatees were advised they were being considered for future employment)

Alamo Cement company **277 NLRB No. 108**

International Photographers Guild, Local 659, Stage Employees (Paramount Pictures Corp.) **276 NLRB No. 091**
(Sec. 10(b) period on charge against U for causing discharge of Ee commenced, not with notice from U to Ee that Ee's failure to pay dues by certain date would result in Es being informed of Ee's loss of good standing and his ineligibility for employment, but rather upon his subsequent discharge, since notice was conditional rather than final decision, terms of notice were partially satisfied when Ee made partial payment, U accepted payment, U's prior policy of allowing installment payments entitled Ee to believe there was no adverse decision against him, and thus no need to file charge)

Orange Belt district Council of Painters No. 48, AFL-CIO, CLC (Maloney Specialties, Inc.) **276 NLRB No. 156**

Central Transport, Inc. **JD-114-86**
[date of alleged unlawful act rather than date its consequences became effective is controlling date in determining whether period for filing charge under Section 10(b) has expired. When respondent fraudulently conceals its unlawful conduct Section 10(b) period is tolled from date on which respondent's ULP commenced until injured party acquires knowledge of ULP]

N.L.R.B. v. Local 1131, Local 1161, Auto Workers **777 F.2d 1131 (C.A. 6, Dec. 1985)**
[contention that charges based on contractual clauses granting U officials superseniority were time-barred, because negotiation of clauses and acquisition of superseniority occurred outside 10(b) period, rejected, since contracts were invalid on their face where seniority was granted officials solely due to their status, and maintaining and attempting to enforce them during 10(b) period provided all evidence necessary to prove violations concerned events occurring w/i 10(b) period]

N.L.R.B. v. Jack E. Hartman, a Sole Proprietorship, d/b/a Dependable Tile Company **774 F.2d 1376 (C.A. 9, Oct. 1985)**

0827 PLACE OF FILING

Staff Officers Association of America (Delta Steamship Lines) 277 NLRB No. 125

(contention that region where charge was filed was *forum non-conveniens*, as U's office was in another region, and E no longer did business there, rejected, since regional office was located in city which was home port of ship on which Ee worked and Ee's home, and respondent E has not shown prejudice or requested a transfer of charge to other region)

Staff Officers Association of America (Delta Steamship Lines) 277 NLRB No. 125

(contention that charge was *vague and nonspecific*, rejected where charge provided sufficient basis for issuance of C, and respondent did not contend that allegations of C lacked requisite specificity to enable it to defend against them)

George C. Foss Company v. N.L.R.B. 752 F.2d 1407 (C.A. 9, Jan. 1985)

(where C charged that Ees were discharged because they were members of one U and ALJ found they were discharged before end of grace period because they were *not* members of second U, E was not guilty of ULP that was not charged in C because differences largely semantical, charge need not be technically precise as long as it generally informs party charged nature of alleged violations, and moreover, issue fully and fairly litigated)

G. W. Galloway Company 281 NLRB No. 038

[precedent interpreting significance of printed allegations contained in charge form alleging *other acts* of interference with and restraint and coercion of Ees' Sec. 7 rights holds that 8(a)(1) allegations contained in C are properly raised by *other acts* allegation set forth in charge and that Sec. 10(b) does not bar consideration of 8(a)(1) allegations]

0866 AMENDMENT OF CHARGE

0866-0100 Generally

G. W. Galloway Company 281 NLRB No. 038

[Bd stressed importance of following Casehandling Manual guidelines providing that if allegations of charge are too narrow, amendment should be sought, and that if amendment is not filed, case should be reappraised in this light, and C issued, if any, should cover only matters *related* to specifications of charge]

0866-7500 May particularize original charge

0877 WITHDRAWAL OF CHARGE

Redway Carriers, Inc./Cardinal Leasing, Inc., A Joint Employer 274 NLRB No. 198

0877-0100 Generally

Staff Officers Association of America (Delta Steamship Lines) 277 NLRB No. 125

(contention that charge was identical in substance and form to charge withdrawn with RD's approval, rejected, since charge herein concerns events subsequent to filing of prior charge and were not considered in investigating it; further, disposition of prior charge by RD is not res judicata as to subsequent charge filed by same charging party covering identical subject matter)

0877-2500 By RD on his own motion (Rule 102.18)

Olympia Fields Osteopathic Medical Center 278 NLRB No. 119

[RD had discretion to withdraw C w/o leave of Bd notwithstanding case had been before Bd on Motion for Summary Judgment which Bd granted but later vacated and remanded case to RD for further consideration of R proceeding consistent with *St. Francis Hospital* has effect of putting C in prehearing posture; therefore RD may withdraw C on own motion]

0877-7500 Withdrawn charge may not be reinstated to circumvent 10(b) period

Manhattan Eye, Ear and Throat Hospital 280 NLRB No. 011

[where allegation in charge timely, inclusion of allegation in amended C after failing to do so in original C, proper, as initial failure to include does not constitute dismissal by RD, and its subsequent inclusion in amended C does not constitute *revival* of charge already found insupportable in evidence or law. Neither does failure by Charging Party to appeal dropping of allegation in original C constitute waiver]

Garrett Railroad Car & Equipment, Inc. 275 NLRB No. 151

(charge in instant case alleging failure to reinstate strikers not time barred because of charge filed in earlier decided case where amended charge in that case deleted allegation of refusal to recall strikers on or about 7/30/79 as U did not make unconditional offer on part of strikers to return to work until 9/30/79, 2 months after time specified in deleted allegation and E hired new Ees on 10/8/79. Further, E refused until 11/82 to furnish U with requested names of new hires and date of hire, thereby unlawfully concealing from U information necessary to put them on notice of *Laidlaw* violations. New charge timely filed)

Redway Carriers, Inc./Cardinal Leasing, Inc., A Joint Employer 274 NLRB No. 198

(GC's contention that ULP charge, even if subsequently withdrawn, operates to toll 10(b) limitation period and that, therefore, GC may consistently with 10(b), revive withdrawn charge at any time, rejected; Bd has consistently held that withdrawn charge cannot be reinstated more than 6 months after date of alleged ULPs)

0877-8000 Charging party's request for permission to withdraw charge

0877-8000—Cont.

Texaco, Inc. 273 NLRB No. 164
(RD erred in refusing to permit withdrawal of charge alleging E unlawfully withheld accident and sick benefits from Ees who were receiving such benefits prior to economic strike, where parties had reached strike settlement agreement under which U agreed to end strike, withdraw charges, and each Ee was to receive at least $150 in settlement of outstanding contractual claims, since benefits withheld no more than contractual term subsequently negotiated away in good faith, no other ULPs extant and no Ee objected; primary interest served by continual rights of a few Ees rather than public rights)

0888 DISMISSAL OF CHARGE

0888-6700 Appeal to General Counsel from RD dismissal

0888-6750 Motion for reconsideration

Ducane Heating Corporation 273 NLRB No. 175
(GC's office of appeals did not abuse its discretion in accepting U's mtn for reconsideration of dismissal of charge, even if one business day late, and charge was not extinguished by operation of Bd R/R 102.19(c), notwithstanding Region's investigation and C thereon did not issue until 8 months after alleged illegal action, where GC granted mtn for reconsideration w/i 10(b) period and 102.19(c) gives discretion to GC to accept reconsideration mtns submitted w/i 10(b) time limit but beyond the 10-day period allowed by 102.19(c) itself; GC need only act w/i 10(b) period and that action can take the form of mere acceptance of an untimely mtn)

0888-6767 Reinstatement of charge

Norris Concrete Materials, Inc. 282 NLRB No. 045
[RD properly allowed reinstatement of withdrawn charge after expiration of Section 10(b) period, in view of E's post non-Bd settlement misconduct, since E entered into settlement with specific intent to circumvent its terms]

Manhattan Eye, Ear and Throat Hospital 280 NLRB No. 011
[where allegation in charge timely, inclusion of allegation in amended C after failing to do so in original C, proper, as initial failure to include does not constitute dismissal by RD, and its subsequent inclusion in amended C does not constitute *revival* of charge already found insupportable in evidence or law. 1200 PARTIES

1201 GENERALLY

Workroom For Designers, Inc. and Sidney H. Sisselman, an Individual 274 NLRB No. 115
(ALJ's grant of GC's mtn to name E's sole shareholder and officer as respondent, correct, despite lack of evidence that he had disregarded corporate form, where he supervised Ees, managed E's factory, committed most of E's egregious and numerous ULPs, disregarded ct's inj to cease committing ULPs and reinstate strikers and most important, admitted that he planned to arrange his affairs to avoid any liability for backpay; Bd concluded that circumstances of case militated against waiting until backpay proceeding to see if he had acted on his stated intention to avoid backpay obligation to determine his liability)

1220 CHARGING PARTY

M. J. Santulli Mail Services, Inc. 281 NLRB No. 170
[E's contention that charge filed by health and welfare fund was ineffective because fund lacked standing to file refusal to bargain charge, rejected, since anyone for any reason may file charge]

Jaydon, Inc. 273 NLRB No. 199
(where, after hearing but before filing of briefs, Bd reversed prior decision thereby changing law applicable herein and resulting in peculiar procedural process in which GC and E moved to dismiss C over objections of charging party, ALJ held that, in light of charging party's objections to dismissal or withdrawal of C, charging party becomes *de facto* prosecutor of C and, as a result, regular decision must be prepared and issued by ALJ pursuant to Bd's R/R Sec. 102.45, just as if no motions had been filed; however, it must perforce be governed by Bd's revised doctrine)

1260 NECESSARY PARTIES

Workroom For Designers, Inc. and Sidney H. Sisselman, an Individual 274 NLRB No. 115
(ALJ's grant of GC's mtn to name E's sole shareholder and officer as respondent, correct, despite lack of evidence that he had disregarded corporate form, where he supervised Ees, managed E's factory, committed most of E's egregious and numerous ULPs, disregarded ct's inj to cease committing ULPs and reinstate strikers and most important, admitted that he planned to arrange his affairs to avoid any liability for backpay; Bd concluded that circumstances of case militated against waiting until backpay proceeding to see if he had acted on his stated intention to avoid backpay obligation to determine his liability)

1260-2500 Union not necessary party to 8(a)(3) proceeding

Dubose Masonry, Inc. 279 NLRB No. 125
[notwithstanding charge filed against E and U for latter demanding and former discharging Ee for not being member of U in right to work state and RD issued C against E only, independent resolution of instant C against E proper and appropriate, since there is no showing, in instant case that RD has improperly failed to issue C in pending charge against U or that it has improperly failed to seek consolidation of these matters for hearing]

1260-8500 International Union

Kobell v. Thorsen Tool Co. ——— F.Supp.———(DC M.D. PA, Dec. 1982)
[international U has standing to file ULP charges against E, notwithstanding contention that since bargaining agreement only with local U and thus E need only bargain with local, thus, local would be only party with standing to file charges herein, where several sections of contract, such as provision for grievance procedure, require that international play a role, preamble to contract cites local as affiliated with international, international representative participated in negotiations leading to agreement, and signed contract as agent of international]

1260-9800 Primary employer

Louis Pappas' Homosassa Springs Restaurant, Inc. 275 NLRB No. 213
(E, successor not responsible for wrongful conduct of supervisor employed by predecessor E, since statement (—*there would be no U* at new operation) occurred before Respondent (E) became successor and predecessor is not Respondent in instant proceeding)

1270 PARTY IN INTEREST

Texas Bus Lines, Inc. 277 NLRB No. 075
(Ee committee not a party in interest where it was found to have abandoned and disclaimed any interest in representing Ees, and any efficacy it had had was displaced by Ee's election of another representative)

1290 ADEQUACY OF IDENTIFICATION OF PARTIES

Woodline Motor Freight, Inc. 278 NLRB No. 152
[discriminatee entitled to R/O notwithstanding GC did not seek reinstatement of discriminatee in C or at hearing, where consolidated C alleges that respondent *closed facility and terminated its Ees working there.* This allegation broad enought to encompass discriminatee since where there is discrimination against class of Ees, GC is not required to name every discriminatee at this stage of the proceeding. Respondent's contention may be addressed at compliance stage]

Plumbers, Local No. 198 v. N.L.R.B. 747 F.2d 326 (C.A. 5, Nov. 1985)
(U's contention that it was denied due process due to lack of reasonable notice of an identifiable or recognizable group of alleged discriminatees for whom redress was sought, rejected, where C alleged broad discrimination in hiring hall operations generally, not just as to named parties; also, Bd's relegating determination of discriminatees to compliance stage let U contest individual awards and compliance procedures, whereas, if finding of general discrimination were established but redress given only named individuals, collateral estoppel might bar U from relitigating discrimination issue as to unnamed members of the class)

1600 SERVICE OF DOCUMENTS

1601 GENERALLY

M. J. Santulli Mail Services, Inc. 281 NLRB No. 170
[E's claim that subpoenas sent to it by certified mail and returned to Bd marked *refused* were improperly addressed, rejected, where infirmities in address were corrected prior to delivery; subpoenas were delivered and refused by E who was determined to refuse any certified mail from Bd or U; E produced no record evidence denying that it refused delivery of subpoenas, and willful refusal to receive certified or registered mail cannot defeat purposes of Act]

1683 SERVICE OF CHARGE OR COMPLAINT

1683-4700 Service on alter ego

Amateyus, Ltd., d/b/a Volk & Huxley, and Vulcan Typography Co. **280 NLRB No. 021**

[process not defective where E was not served with charge in which it was not named as Respondent, since it had ample notice to prepare for hearing where it was served with amended complaint in which it was named as co-Respondent, and particularly since it was alleged E was alter ego of co-Respondent]

1683-5000 Service on agent

M. L. Witcher Communications Construction Company, Inc. and Manna Steel Corporation, Joint Employers **JD-74-86**

1683-6050 Service by mail sufficient

Abdul Samad Ra'Oof Shabazz and Jacqueline Craig, A Co-Partnership d/b/a Michigan Expediting Service; et al. **282 NLRB No. 030**

[refusal or failure by E, who was properly served copies of charges and Cs, to claim certified mail should not serve to defeat purpose of Act]

Hotel & Restaurant Employees, Local 19 (Vicorp Restaurants, Inc. d/b/a Seasons Restaurant) **277 NLRB No. 090**

(E's original charges and documents certifying that copies of the charges were sent postage paid by certified mail to U, post office documents showing U's receipt, and admission by U's counsel in answer that charges were filed and served held sufficient proof thereof, notwithstanding U's denial)

2000 CONDUCT OF INVESTIGATION

2001 GENERALLY

Pacific Coast Metal Trades District Council **282 NLRB No. 041**

[ALJ disallowed GC's attempt to show that respondent U had not cooperated with GC during investigation of 8(b)(3) case and had not presented any defense until after prosecution rested, thereby making defense arguably more suspect than identical defense raised during investigation; Bd practice prohibits consideration or even introduction of such evidence into record since cooperation by respondent with government during investigation is voluntary, and drawing of adverse inference against respondent for failure to participate in investigation would substantially degrade concept of *voluntary* participation]

Alamo Cement company **277 NLRB No. 108**

(allegation in C of unlawful work rule barred where GC knew or should have known of rule through investigation of earlier charges; maintenance or enforcement of said rule, however not barred, since it was continuing course of conduct, and charge of E's enforcement of rule against Ee did not occur before proceedings in earlier case and could not have been litigated therein; also, permitting E to maintain and enforce invalid rule, promulgation of which was barred from C, would grant E license to violate Ees' Sec. 7 rights)

Radway Carriers, Inc./Cardinal Leasing, Inc., A Joint Employer **274 NLRB No. 198**

(E's contention that manner of GC's preliminary investigation was prejudicial to fair hearing, rejected; adequacy of investigation is administratively tested, not by examination of such investigation, but by GC's ability in open hearing to demonstrate by credible evidence that E has engaged in ULPs alleged in C)

2020 WITHIN GENERAL COUNSEL DISCRETION UNDER SECTION 3(d)

Ducane Heating Corporation **273 NLRB No. 175**

(GC contravened limited proviso of 10(b) and authority under 3(d) of the Act by reinstating dismissed charge 10 months after alleged illegal action occurred, since charge may not be reinstated outside the 6-month limitations period of 10(b) absent special circumstances in which a respondent fraudulently conceals operative facts underlying the alleged violation, of which none were present in instant case; and further, where there is a fraudulent concealment, limitations period begins to run when charging party knows or should have known of the concealed facts, overruling *California Pacific Signs* and *Winer Motors*)

2040 NOT SUBJECT TO ATTACK

Radway Carriers, Inc./Cardinal Leasing, Inc., A Joint Employer **274 NLRB No. 198**

(E's contention that manner of GC's preliminary investigation was prejudicial to fair hearing, rejected; adequacy of investigation is administratively tested, not by examination of such investigation, but by GC's ability in open hearing to demonstrate by credible evidence that E has engaged in ULPs alleged in C)

2400 RULINGS AND AUTHORITY OF REGIONAL DIRECTOR

Allied Lettercraft Company, Inc. **280 NLRB No. 113**

[purported settlement of backpay claim between claimant and E held ineffective, since settlement was conditioned upon approval by RD of claimant's request to partially withdraw charge and, as approval was not given, settlement never came into being; moreover, power of claimant, as non-charging party, to request withdrawal was doubtful, and RD has great deal of discretion in approving or refusing such withdrawal request]

2450 Authority to issue complaint

Springfield Transit Management, Inc. **281 NLRB No. 134**

[E's claim of constitutional disability on part of RD to issue C because of Civil Service Reform Act establishing Senior Executive Service, rejected, since E did not overcome presumption that RD, like other judicial or quasi-judicial officers, are unbiased, nor was it specifically shown that there was either inherently or demonstrably conflict of interest in application of Civil Service Reform Act to RDs, or in impact of that Act on their decisions]

Duff-Norton Company, Inc. **275 NLRB No. 093**

(applying *Ducane Heating* principles, Bd dismissed C where GC contravened purposes of 10(b) limitations proviso by reinstating originally dismissed charge some 16 months after alleged unlawful discharge of U activist for failing to properly inspect production of defective parts, and after second charge, alleging same violation, had failed for improper service; under circumstances herein, there was insufficient nexus between supervisor's asserted tampering with machine to produce defective parts and Ee's performance of his inspection duties so as to conclude E fraudulently concealed operative facts pertaining to discharge)

2800 SETTLEMENTS

2801 GENERALLY

Leeward Nursing Home **278 NLRB No. 197**

[allegations in C alleging pre-settlement conduct as violative barred by settlement, where not specifically reserved, and where reasonably clear that subsequently complained of pre-settlement matters were known to GC, or readily discoverable by investigation at time of settlement, especially matters as herein that were part of investigatory file when original charge settled, and were not of unique or concealed nature]

2801-2000 Purpose and objectives

Service Merchandise Company, Inc. **278 NLRB No. 023**

[Bd upheld ALJ's refusal to approve settlement of allegations of unlawful discharge of its drivers and subcontracting of driving operations, since proposed out of Bd lump sum settlement was not computed in accordance with Bd's backpay formulae, proposed settlement wholly inadequate for effectuating policies of Act in that Bd monitoring of parties' conduct would be required after approval of withdrawal of charge, approval also inappropriate in that would require Bd sanction of release of Respondent from any or all liabilities arising out of Ees' employment or cessation of employment, and sanction of waiver of reinstatement over objections of Ees

Teamsters Local 115 (Gross Metal Products, Inc.) **275 NLRB No. 230**

(formal unilateral settlement reached after hearing closed rejected by ALJ and Bd in view of respondent's failure to provide meaningful defense or present any witnesses to contest evidence of GC, that no remedy, less than the maximum can be accepted. Here, settlement contained narrow order and nonadmission clause and coupled with respondent's proclivity to violate Act settlement would not effectuate policy of Act)

District Council 47, AFSCME **274 NLRB No. 203**

[settlement should essentially remedy ULPs allegedly committed. Generally, notice to Ees should reassure them of their Section 7 rights, refer to how those rights may have been violated and advise them how their rights will be upheld in simple language. Bd has considerable latitude in determining what language will accomplish these goals. Settlement language is as varied as circumstances of cases. Goodman Holding Company, Inc., and Its Wholly-Owned Subsidiaries, Goodman Manufacturing Corp., etc. 276 NLRB No. 098
(E's contention that C allegations of unlawful surveillance should be dismissed and evidence of allegation be disregarded because GC insisted, as precondition to settlement, that she be allowed to present evidence of settled charge in ongoing ULP case involving same parties, rejected, since such issues are proper for background purposes to prove other allegations in C)

[proposed non-Bd settlement agreement in which U and discriminatees were reinbursed for dues and lost wages, respectively approved, where all but 2 of 13 alleged discriminatees signified their assent to settlement agreement. Of 2 remaining discriminatees, one has since joined other alleged discriminatees in signifying his approval to non-Bd settlement while one other discriminatee has not responded to Judge's Order to Show Cause. 2860-8400 Basis of objections

2860-8420 Remedy provisions insufficient

2860-8420-1700 Notice provisions inadequate

District Council 47, AFSCME 274 NLRB No. 203
(Bd rejected Respondent's proposed settlement agreement since proposed notice so inadequate it could not serve as basis for appropriate settlement where its recitation of Ees' rights was attenuated from C allegations, not merely failing to track C but bearing no relation to allegations of C, and this attenuation impacted on propriety of notice's nonadmission clause which stated E had not violated its Ees' rights, which totally obfuscated meaning of notice because unclear whether E did not engage in alleged conduct or that conduct, even if occured, did not violate Ees' statutory right; further, no adverse parties joined in Respondent's proposal)

(Charging Party's objection that notice posting provirion of settlement stipulation which identified him as individual to be made whole as result of U's discrimination against him served to remind and motivate U to further harass him, rejected. (charging party's objection that backpay period should begin when he first met eligibility requirements for highest priority referral group, rather than when he first demanded registration on highest priority referral group, asserting he would have known of his eligibility for that group if Respondent U had not refused to give him copy of bargaining agreement, rejected, since actions asserted by charging party as basis for beginning of backpay period outside Section 10(b) period, and thus had been dismissed and appeal of dismissal denied)

2860-8420-6200 Order provisions inadequate

District Council 47, AFSCME 274 NLRB No. 203
(Bd rejected Respondent's proposed settlement agreement since proposed notice so inadequate it could not serve as basis for appropriate settlement where its recitation of Ees' rights was attenuated from C allegations, not merely failing to track C but bearing no relation to allegations of C, and this attenuation impacted on propriety of notice's nonadmission clause which stated E had not violated its Ees' rights, which totally obfuscated meaning

[Section 10(b) (statute of limitations) defense rejected where GC litigated issues in a settlement that was withdrawn by RD. GC may litigate matters embraced in a settlement agreement later validly set aside]

Universal Blanchers, Inc. 275 NLRB No. 218

(mtn for summary judgment granted E in 8(a)(3) case where RD issued C after approving agreement settling E's alleged independent 8(a)(1) violations, since settlement agreement barred litigation of 8(a)(3) violations which predated settlement agreement and were known to RD when he approved it; RD's withdrawal of approval and issuance of 8(a)(3) C because he had not been notified of appeals on the 8(a)(3) allegations was improper, since he was GC's agent, and GC, through Office of Appeals, had such knowledge, and E had neither breached settlement agreement nor committed postsettlement violations)

2880-6700 Basis for setting aside

Universal Blanchers, Inc. 275 NLRB No. 218

(Bd will not set aside settlement agreement unless charged party breaches agreement or commits post-settlement violation, since settlement agreement disposes of all presettlement conduct unless it was not known to GC or readily discoverable through investigation, or was specifically reserved from settlement agreement by parties' mutual understanding)

[GC's contention that E's unilateral implementation of its wage reduction proposal modified settlement agreement, settling previous charges of failure to bargain in good faith during wage reopener period, which reinstated second year wage rates in attempt to place parties in same position where they were before expiration of wage reopener period, rejected, where contract did not set wages for third year and implementation was pursuant to wage reopener provision, as modified by settlement agreement, which provided E *shall* implement its wage offer if parties do not reach agreement or initiate economic action]

Tom Wignall, Jr. and Billie Williams d/b/a Lovilia Coal Company 275 NLRB No. 186

(RD properly revoked settlement agreement, notwithstanding E's contention that it complied with agreement's requirements by rehiring unlawfully discharged Ees, paid them their backpay and posted required notice, where subsequent to approval of agreement E continued to interfere with Ees' rights by threatening closure of its operation)

City Cab Company of Orlando, Inc.; et al. d/b/a Yellow Cab Company and Dixie Cab Company 273 NLRB No. 131

(setting aside of settlement agreement warranted in view of post settlement violations consisting of unilateral in charges Ees who were taxi drivers were required to pay and increased number of shifts assignments to warrant issuance of cab to driver, and in bidding procedure, which were identical in nature to presettlement violations, and in view of fact no meeting of minds on backpay formula and amount in settlement agreement; E's contention that terms of settlement agreement did not preclude it from making future changes since settlement agreement, rejected)

City Cab Company of Orlando, Inc.; et al. d/b/a Yellow Cab Company and Dixie Cab Company 273 NLRB No. 131

Stanley A. Dash, Jr. v. N.L.R.B. (Lawyers Co-Operative Publishing Co.) 793 F.2d 1062 (C.A. 9, July 1986)

[where ct determined that Ee's postsettlement discharge was unlawful, settlement agreement set aside, and remand to Bd to determine whether E committed presettlement violation by requiring same Ee who was unlawfully discharged to submit to psychiatric examination before returning to work after leave taken due to stress related to Ee's involvement in U organizing campaign]

2880-6760 Presettlement conduct only if unknown to GC, or newly discovered, or specifically reserved

Universal Blanchers, Inc. 275 NLRB No. 218

Universal Blanchers, Inc. 275 NLRB No. 218

(Bd, in refusing to approve RD's withdrawal of approval of 8(a)(1) settlement agreement, rejected GC's contention that retraction of settlement was proper because RD was unaware of pending appeals on dismissals of 8(a)(3) charge and, thus, 8(a)(3) allegations could not have been encompassed w/i settlement agreement because those allegations had already been dismissed; Bd has previously rejected notion that settlement agreement disposes only matters encompassed by it and held that agreement disposes of all presettlement conduct with specified exceptions)

Railway Carriers, Inc./Cardinal Leasing, Inc., A Joint Employer 274 NLRB No. 198
(U was not precluded from filing new or amended charges on withdrawn ULP allegations or GC from subsequently issuing C based on those allegations, where parties had agreed on *quid pro quo* for purposes of establishing basis on which election could be conducted, and agreed upon basis did not constitute settlement or comparable resolution of ULP charges)

Jayden, Inc. 273 NLRB No. 199
(when C is issued administrative process necessitates appropriate administrative and judicial review which, under Bd's R/R, is not to be thwarted; and Bd decisions make it clear that summary dismissal of C over objection of GC or charging party are contrary to its rules)

N.L.R.B. v. Ironworkers Local Union No. 505, a/w Ironworkers 794 F.2d 1474 (C.A. 9, July 1986)
[U's challenge to Bd's jurisdiction to regulate its hiring hall practices absent proof of discrimination or animus on U's part, rejected; challenges to Bd's jurisdiction are reviewed de novo, and challenge herein lacked merit since Bd has jurisdiction *to determine* whether any person named in C had committed an ULP, and since C alleged ULP, Bd was empowered to decide issue; view that Bd's jurisdiction depends on specific factual findings relevant to merits confuses issue of jurisdiction with that of merits]

Mobilab Union, Inc. v. N.L.R.B. 600 F.Supp. 826 (DC NJ, Jan. 1985)
(due process not violated by GC's refusal to issue C; charging party has no right to issuance of a C, in view of Act's limitations, including GC's exercise of discretion; due process rights have been confined to rights to an explanation and to administrative appeal, which have been satisfied here; point-by-point response to each objection seems no more useful or constitutionally mandated for GC than for ct of appeals)

3212-2500 Issuance after reconsideration (Rule 102.19(c))

Ducane Heating Corporation 273 NLRB No. 175
(GC's office of appeals did not abuse its discretion in accepting U's mtn for reconsideration of dismissal of charge, even if one business day late, and charge was not extinguished by operation of Bd R/R 102.19(c), notwithstanding Region's investigation and C thereon did not issue until 8 months after alleged illegal action, where GC granted mtn for reconsideration w/i 10(b) period and 102.19(c) gives discretion to GC to accept reconsideration mtns submitted w/i 10(b) time limit but beyond the 10-day period allowed by 102.19(c) itself; GC need only act w/i 10(b) period and that action can take the form of mere acceptance of an untimely mtn)

Suburban Transit Corp. and Suburban Trails, Inc. 276 NLRB No. 005

Millwright and Machinery Erectors, Local Union 720, Carpenters (UMC of Louisiana, Inc.) 276 NLRB No. 010
(U's filing of internal charges against Ees for violating U's job referral policy, not unlawful, in view of C allegations referring to named Ee other than Ees herein; absence of amendment to C incorporating alleged violation as to them; failure to allege in general way that U unlawfully filed charges against individuals other than named Ee; absence of statement by GC at hearing that charges against Ees herein violated Act; and GC's objection to introduction of evidence that such charges had been filed)

3212-8375 Withdrawal after opening of hearing

Consumers Distributing Company, Limited d/b/a Consumers Distributing 274 NLRB No. 050
(Bd upheld ALJ's granting of GC's posthearing mtn for permission to withdraw C, since mtn was legitimate exercise of GC's prosecutorial authority under Sec. 3(d) to determine, even after close of hearing, that *legal underpinnings* of C no longer existed as result of recent Bd decisions; therefore, treating charging party's request for review and exception as interim appeal of ruling of ALJ under R/R Sec. 102.26, Bd denied appeal because it found that ALJ did not act arbitrarily or capriciously or otherwise abuse his discretion in granting GC's mtn)

3212-8700 Reinstitution of charge after dismissal

Duff-Norton Company, Inc. 275 NLRB No. 093
(applying *Ducane Heating* principles, Bd dismissed C where GC contravened purposes of 10(b) limitations proviso by reinstating originally dismissed charge some 16 months after alleged unlawful discharge of U activist for failing to properly inspect production of defective parts, and after second charge, alleging same violation, had failed for improper service; under circumstances herein, there was insufficient nexus between supervisor's asserted tampering with machine to produce defective parts and Ee's performance of his inspection duties so as to conclude E fraudulently concealed operative facts pertaining to discharge)

Ducane Heating Corporation 273 NLRB No. 175
(GC contravened limited proviso of 10(b) and authority under 3(d) of the Act by reinstating dismissed charge 10 months after alleged illegal action occurred, since charge may not be reinstated outside the 6-month limitations period of 10(b) absent special circumstances in which a respondent fraudulently conceals operative facts underlying the alleged violation, of which none were present in instant case; and further, where there is a fraudulent concealment, limitations period begins to run when charging party knows or should have known of the concealed facts, overruling *California Pacific Signs* and *Winer Motors*)

Leeward Nursing Home **278 NLRB No. 157**
[adverse inference drawn that GC had knowledge of pre-settlement conduct that would bar post settlement allegations that conduct was unlawful, where GC did not make matter of record when regional office knew about pre-settlement matters, since GC presumed to be uniquely possessed of these facts, no Bd rule prohibits agent of GC giving testimony regarding such matters, (only procedural prerequisites) GC is not favored litigant before Bd and is not entitled to any privileges not accorded to any other litigant]

Ballou Brick Co. **277 NLRB No. 009**
(E's contention that instant C allegations must be dismissed because they were subject of prior settlement agreement, rejected, where prior settlement agreement was merely a private agreement between E and charging party (an individual) and charging party agreed to withdraw charge, no notice was posted and U, as charging party in instant case, was not a party to settlement)

Redway Carriers, Inc./Cardinal Leasing, Inc., A Joint Employer **274 NLRB No. 198**
(U was not precluded from filing new or amended charges on withdrawn ULP allegations or GC from subsequently issuing C based on those allegations, where parties had agreed on *quid pro quo* for purposes of establishing basis on which election could be conducted, and agreed upon basis did not constitute settlement or comparable resolution of ULP charges)

Over-The-Road, City Transfer, Inside Employees, Local Union No. 544, a/w Teamsters (Better Home Deliveries, Inc.) **274 NLRB No. 034**
(ALJ rejected evidence proferred by E where C alleged only 8(b)(7)(C) violation and rejected evidence would have been basis for 8(b)(1)(A) and 8(b)(4)(B) charges which had already been unilaterally settled. Further, offers of proof rejected also on grounds that evidence of another object proscribed by Act, such as secondary object, did not show object prohibited by 8(b)(7)(C) and conduct relevant to 8(b)(1)(A) C, such as violence, did not tend to establish recognitioned or organizational object)

3225 FORM AND CONTENT OF COMPLAINT

3225-0800 Scope of complaint

Union Boiler Company **281 NLRB No. 148**
[Bd did not adopt ALJ's implied finding that E's unlawful lockout of Ees also violated 8(a)(3) since C involved solely allegations of 8(a)(1) and (5) and GC did not allege such violation]

Modern Iron Works, Inc. **281 NLRB No. 151**
[charging party's request that E be compelled to bargain with Ee committee, denied; since E had no adequate notice that such relief would be sought or basis therefor, it would be improper to expand C to consider such request]

Alamo Cement Company **281 NLRB No. 110**
[where C only alleged that E's unilateral increase in uniform rental fees violated Act, C allegations held limited to such action and did not put in issue whether E violated 8(a)(5) by overall refusal to bargain with U about *uniforms*, despite evidence and arguments presented at hearing concerning latter issue]

United States Postal Service **281 NLRB No. 138**
[C alleging both that E violated 8(a)(5) by assertion of settlement of Ee's EEO claim as defense in arbitration proceedings on contract grievance involving same subject, and that U did not participate at meeting where EEO claim was settled, found sufficiently broad to support finding that violation occurred at time of claim adjustment rather than at time settlement was asserted as contract grievance defense]

United States Postal Service **281 NLRB No. 139**
[C supports violation found, for reasons stated in *United Postal Workers*, 281 NLRB No. 138]

Richmond Recording Corporation d/b/a PRC Recording Company **280 NLRB No. 077**
[ALJ refused to rule on issue of overall bad faith bargaining since GC declined to amend C notwithstanding possibility that evidence may appear in record to support allegation]

Carter-Glogau Laboratories, Inc. **280 NLRB No. 049**
[in finding C allegations regarding E's failure to reinstate former economic strikers barred by 10(b), ALJ rejected GC's contention that gravamen of E's conduct was its failure to seek out and recall Ees when openings became available and not alleged conditioning of reinstatement, occurring outside 10(b) period, upon satisfaction of E's expressed requirement; such allegation did not constitute merely pleading of supporting evidence; rather, plain language of allegation, in conjunction with related allegations, was intended to be substantive allegation of unlawful conduct]

Millwright and Machinery Erectors, Local Union 720, Carpenters (UMC of Louisiana, Inc.) **276 NLRB No. 010**
(U's filing of internal charges against Ees for violating U's job referral policy, not unlawful, in view of C allegations referring to named Ee other than Ees herein; absence of amendment to C incorporating alleged violation as to them; failure to allege in general way that U unlawfully filed charges against individuals other than named Ee; absence of statement by GC at hearing that charges against Ees herein violated Act; and GC's objection to introduction of evidence that such charges had been filed)

N.L.R.B. v. Ironworkers Local Union No. 505, a/w Ironworkers **794 F.2d 1474 (C.A. 9, July 1986)**
[contrary to U's claim that C alleged only breach of duty of fair representation and that U lacked notice of independent violation of 8(b)(1)(A), ct held that, although C specifically alleged breach of fiduciary duty owed to Ees, it more generally alleged commission of ULPs sufficient to put U on notice that Bd might proceed under both legal theories]

3225-3300 Particularity not required

Woodline Motor Freight, Inc. **278 NLRB No. 152**
[discriminatee entitled to R/O notwithstanding GC did not seek reinstatement of discriminatee in C or at hearing, where consolidated C alleges that respondent *closed facility and terminated its Ees working there.* This allegation broad enought to encompass discriminatee since where there is discrimination against class of Ees, GC is not required to name every discriminatee at this stage of the proceeding. Respondent's contention may be addressed at compliance stage]

Plumbers, Local No. 198 v. N.L.R.B. **747 F.2d 326 (C.A. 5, Nov. 1984)**
(U's contention that it was denied due process due to lack of reasonable notice of an identifiable or recognizable group of alleged discriminatees for whom redress was sought, rejected, where C alleged broad discrimination in hiring hall operations generally, not just as to named parties; also, Bd's relegating determination of discriminatees to compliance stage let U contest individual awards and compliance procedures, whereas, if finding of general discrimination were established but redress given only named individuals, collateral estoppel might bar U from relitigating discrimination issue as to unnamed members of the class)

3225-5000 Sufficient to inform respondent of nature of allegations

Chelsea Laboratories, Inc. **282 NLRB No. 074**
[complaint allegation that Ee was discharged for protesting E's grant of wage increase while election objection was pending found sufficient to encompass Ee's protest over E's apparent decision to renege on promise to engage in dialogue before deciding whether to recognize U, where C put E on notice that case focussed on announcement of wage increase and subsequent conversation, E would not have altered its conduct of case, and its brief addressed law and sufficiency of facts about protesting breach of promise]

Best Western Motor Inn **281 NLRB No. 026**
[question of E's unlawfully asking supervisors to interrogate Ees about their U activities not fully and fairly tried where C only alleged unlawful request that they surveil and gather information about Ees' U activities]

Manhattan Eye, Ear and Throat Hospital **280 NLRB No. 011**
[E's contention that it was not given fair notice of allegation in complaint that its supervisor encouraged Ees to sign card to decertify U, and took actions, including but not limited to initiation, direction, coordination, and implementation of campaign to decertify U, rejected, *since allegation contained in amended complaint and original charge couched in practically identical language*, the relationship is explicit]

Redway Carriers, Inc./Cardinal Leasing, Inc., A Joint Employer **274 NLRB No. 198**
(allegations of unlawful assistance to U dismissed where GC failed to give adequate or timely notice of allegation and it was not fairly litigated where, as result of vague, shifting, and untimely positions taken by GC, E was placed in position where it was forced to speculate as to what matters were alleged to constitute unlawful assistance)

Medallion Kitchens, Inc. v. N.L.R.B. **806 F.2d 185 (C.A. 8, Nov. 1986)**

Hospital & Service Employees Union, Local 399, Service Employees v. N.L.R.B. 798 F.2d 1245 (C.A. 9, Aug. 1986)

[Bd's finding that E did not have actual notice of charges was unsupported by substantial evidence on record as whole where E participated in investigation before C as filed; C was served and answered w/i 6 months; C included statement of charges on which it was based; and record strongly suggested that E was well aware of charges against it from beginning and raised service-of-charge issue to delay proceedings in ct]

3225-9000 Defective complaints

Abdul Samad Ra'Oof Shabazz and Jacqueline Craig, A Co-Partnership d/b/a Michigan Expediting Service; et al. 282 NLRB No. 030

[C did not allege sufficient facts to enable Bd to evaluate pervasiveness of violations and determine whether bargaining order was warranted, where allegations did not indicate size of unit or state number of Ees who witnessed alleged infliction of bodily injury on Ee, heard E's statement about discharge of Ee for U activities, and were subjected to E's threat of bodily injury; nor did C allege extent of dissemination, if any, of such violations among Ees not directly affected by them; accordingly, case remanded to ALJ to determine appropriateness of order]

R. L. Broker & Company, Inc. 274 NLRB No. 101

(GC's mtn for summary judgment denied, notwithstanding absence of *good cause* for E's failure to file ans, since C alleging violations of 8(a)(5) and 8(d) was defective where it was internally inconsistent and failed to establish information necessary to determine whether E violated Act and absent from C were allegations or facts demonstrating contract was in effect when E subcontracted work, whether contract prohibited subcontracting or facts which would enable Bd to determine whether decision to subcontract in fact required bargaining)

3237 RELATIONSHIP TO CHARGE

Railway Carriers, Inc./Cardinal Leasing, Inc., A Joint Employer 274 NLRB No. 198

(Sec. 10(b) did not preclude GC from issuing C based on 8(a)(3) charge which remained intact and pending after U withdrew other allegations, since GC could properly issue C or amended C containing allegations which were closely related to 8(a)(3) charge; and even if original charge were totally withdrawn, no 10(b) problem would be presented because none of alleged ULPs occurred more than 6 months prior to date when U filed charge)

G. W. Galloway Company 281 NLRB No. 038

3237-3300 Legally sufficient relationship between subject matter of charge and complaint only requirement

G. W. Galloway Company 281 NLRB No. 038

[precedent interpreting significance of printed allegations contained in charge form alleging *other acts* of interference with and restraint and coercion of Ees' Sec. 7 rights holds that 8(a)(1) allegations contained in C are properly raised by *other acts* allegation set forth in charge and that Sec. 10(b) does not bar consideration of 8(a)(1) allegations]

La Salle Investment Co., Ltd., d/b/a Cafe La Salle 280 NLRB No. 043

Lucky Stores, Inc. d/b/a Gemco 279 NLRB No. 153

(E's contention that 8(a)(1) violations found herein were barred because they were not included in original charge which merely alleged violation of 8(a)(5), rejected; charge, as here, containing clause stating that E by enumerated and other acts interfered, restrained and coerced Ees, is sufficient to permit inclusion in C of allegations not specifically mentioned in charge)

American Stores Packing Company, A Division of Acme Markets, Inc. 277 NLRB No. 190

3282 AMENDMENT TO INCLUDE ULP'S FULLY LITIGATED

San Antonio Portland Cement Company 277 NLRB No. 036
(Bd refused to make finding that E's employment policies were unlawful where they were not alleged as violation in C or urged at hearing and, therefore, not fully litigated)

Bell Halter, Inc. 276 NLRB No. 136
(mtn to amend C to include supervisor's remark allegedly unlawfully threatening Ee, granted, since Bd may find and remedy violation even in absence of specific allegation in C so long as issue is clearly connected to subject matter of C and has been fully litigated; here, legality of supervisor's remark was put in issue by C with respect to interrogation, and evidence of violation was contained in supervisor's testimonial admission)

Bertolucci's Fender and Body Shop, Inc. JD-(SF)-143-85

3298 DISMISSAL OF COMPLAINT OR ALLEGATIONS THEREIN

M. J. Santulli Mail Services, Inc. 281 NLRB No. 170
[E's defense to unlawful unilateral discontinuance of payments to health and welfare fund on ground C should be dismissed because U instituted ct action to collect monies due to fund, rejected, since it is not Bd law to defer or to dismiss due to pendency of ct action]

M. J. Santulli Mail Services, Inc. 281 NLRB No. 170
[although dispute arising from E's unilateral discontinuance of payments to health and welfare fund was clearly encompassed by contract's grievance-arbitration clause and there was no time limit for E to waive, deferral held inappropriate where E, who sought deferral, never indicated willingness to arbitrate but asked for dismissal of C; dismissal and deferral are distinct remedies, and by asking that C be dismissed, E rejected possibility of arbitration]

Rebel Coal Company, Inc., and Richlands Supply Corp. 279 NLRB No. 022
[E's mtn to dismiss C on grounds that Bankruptcy Ct had discharged E of all liabilities except those approved by ct, of which liability for ULPs was not one, denied since nothing in Order of Bankruptcy Ct precluded E from proceeding further in matter]

Coalite, Inc. 278 NLRB No. 040
[dismissal of C not warranted, notwithstanding 102.9's mandate that C must be dismissed if charge on which it is based is withdrawn, where identical prior charge instead of charge underlying instant C was withdrawn, there was no showing that Bd sought withdrawal of the prior charge or that respondent was prejudiced by any Bd action]

Jaydon, Inc. 273 NLRB No. 199
(when C is issued administrative process necessitates appropriate administrative and judicial review which, under Bd's R/R, is not to be thwarted; and Bd decisions make it clear that summary dismissal of C over objection of GC or charging party are contrary to its rules)

4017-6700 Effect of late filing

N.L.R.B. v. Dane County Dairy, et al. 795 F.2d 1313 (C.A. 7, July 1986)
[E's proposed exception to Bd's rule requiring timely filing of answer, made as defense for delay in filing answer, that filings in opposition to mtn for temporary inj were substitute for written, formal answer, rejected, since acceptance of E's exception would directly contradict Bd's rule that written answer *shall* be filed and would undermine rule's functions of providing notice to parties and of preventing sham answers]

4017-6750 *Good cause* standard

N.L.R.B. v. Dane County Dairy, et al. 795 F.2d 1313 (C.A. 7, July 1986)
[in light of Congress' authorization of Bd to make such rules as may be necessary to carry out provisions of Act, and Bd's power to construe its own rules free from judicial review unless its construction is so arbitrary as to defeat justice, ct held that Bd's determination of what constitutes *good cause* excusing failure to file timely answer must be upheld unless its construction of good cause standard is so arbitrary as to defeat justice]

N.L.R.B. v. Dane County Dairy, et al. 795 F.2d 1313 (C.A. 7, July 1986)
[E held not to have established good cause excusing failure to file timely answer assertedly because of inexperience of E's counsel, in view of E's familiarity with Bd proceedings and awareness of need to file answer, and fact that actual notice of requirement to file answer was given to E and its counsel by Regional Office]

4042 EFFECT OF WITHDRAWAL OF ANSWER

Ofalco Properties, Inc.; The Nautilus Development Corp.; and The Nautilus Management Co., alter egos and/or single employer 281 NLRB No. 016
[E failed to file answer to C issued on day informal settlement agreement was vacated, notwithstanding that E did file answer to earlier C, which was informally settled by agreement that stated that approval of agreement constituted withdrawal of C and answer, since RD's vacating settlement agreement did not revive original C or answer]

Maislin Transport of Delaware, Inc. and Maislin Transport of Delaware, Inc. Debtor-in-Possession 274 NLRB No. 074

Consolidation Coal Company, Burning Star No. 4 & No. 5 **277 NLRB No. 060**

(E allowed to assert Sec. 10(b) defense to ULP charges, notwithstanding such defense was neither affirmatively pleaded in E's answer to C nor expressly asserted as defense at hearing but first set forth in E's brief, since it was litigated *sub silentio* where C anticipated it by referring to lack of notice to charging party, there was no objection to E's cross examination of GC's witnesses in effort to establish such defense, and GC's brief showed that such defense was viable by stating that E was expected to argue it and making legal argument thereon)

Herbert Rogers, Esquire, Trustee In Bankruptcy To Bristol Clothing Manufacturing Co., Inc. **276 NLRB No. 111**

(GC's mtn to strike answer of trustee in bankruptcy to second amended C and mtn for summary judgment based on E's failure, as debtor-in-possession, to answer such C, and on trustee's answer's failure to meet Bd's R/R requirements, denied, where, although trustee, rather than E, filed ans to second amended C, E's answer to first amended C answered allegations in second amended C containing substantially same allegations as those in first, and E's ans thus raised litigable issues; and denial was appropriate in view of special role of trustee)

4067-5000 Sufficiency of statement of defense

M. J. Santulli Mail Services, Inc. **281 NLRB No. 170**

[where E's ans to C denied knowledge sufficient to form belief as to truth or falsity of allegation regarding appropriateness of unit, ALJ held unit description in C was correct and appropriate, consistent with that described in contract between E and U]

United Technologies Corporation **274 NLRB No. 072**

(E properly raised deferral defense at appropriate stage in case where, unlike cases concerning requested deferral for the first time in posthearing brief to ALJ or in exceptions to the Bd, E affirmatively pled deferral in its ans and in its supplemental posthearing brief to ALJ)

Victor Wooten, d/b/a Diablo Paving **JD-(SF)-90-86**

[contention that, because E did not affirmatively plead its defense to alleged violation of its obligation under contract on ground that it signed contract as result of mistake or material representation by U, E could not be permitted to present evidence to that effect, rejected, where E's answer, denying allegation that it entered into contract with U, was sufficient to allow E to present evidence regarding circumstances under which contract was signed]

Mattie C. Hall Health Care Center **280 NLRB No. 129**

[GC's mtn to strike E's denial of C allegations as a *sham and frivilous* answer, denied, since, although answer did not present meritorious defense, the plesdings could be viewed as an endeavor by E to preserve a position, albeit an erroneous one]

Local 1136, Laborers (Southern Illinois Builders Association) **JD-179-86**

[U's defense to backpay specification held frivolous and stricken from ans where U claimed it owed no money to pension and health and welfare funds on discriminatee's account because he was not U's Ee and U was prohibited by Sec. 302 from making such contributions on discriminatee's behalf; U's assertions were unsupported by any facts or argument, and amounts due reflected money which, absent U's discrimination, would have been paid by Es, and there was no indication such payments would have violated Act]

Richard Burgett, A Sole Proprietor, d/b/a Burgett & Son Masonry and its Alter Ego Consumers Energy Savings System, Inc. **JD-25-86**

[GC's mtn to strike portions in E's ans which denied knowledge as to matters which assertedly were w/i E's *obvious direct* knowledge, granted, where matters in question were reasonably w/i E's knowledge as indicated by general experience and common sense, and ans, in certain respects, was not genuine and amounted to sham-like device concealing the truth]

Richard Burgett, A Sole Proprietor, d/b/a Burgett & Son Masonry and its Alter Ego Consumers Energy Savings System, Inc. **JD-25-86**

[in granting GC's mtn to strike portions in E's ans which denied knowledge as to matters which were w/i E's *obvious direct knowledge* and which, in certain respects, constituted sham-like device concealing the truth, ALJ held that while E possibly had no knowledge concerning entire paragraph's allegations which included co-respondent E, it behooved E to divide its ans thereto admitting or denying portion of allegations pertaining to E as to which E obviously had knowledge, rather than entering blanket denial concerning entire allegation]

Western Temporary Services, Inc. and The Classic Company, Inc. **278 NLRB No. 073**

[ALJ's granting GC's mtn to strike certain of Es' denials from their individual answers, granting mtn for summary judgment, and deciding certain issues were res judicata because previously determined by Bd in underlying R proceeding, proper, notwithstanding Es' contention that they were denied due process in R proceedings for lack of adequate notice of amendment to ptn naming them as joint Es, where GC issued C alleging them as joint Es over two weeks before R ptn amendment and hearing, one E admitted joint E status in its answer, and other E presented evidence of their relationship at R hearing]

[in summary judgment proceeding, E's mtn to consolidate instant case with another case involving pending charge in which E intended to litigate status of individual found in underlying R case herein not to be supervisor, denied, since supervisor status issue was fully litigated and resolved in underlying R case; and merely because evidence will be presented regarding individual's supervisory status in another proceeding does not justify further delay in resolving instant case]

5200 DISCOVERY

George Frost Company 279 NLRB No. 124

[upon granting GC's mtn for summary judgment and ordering E to bargain with U, Bd denied GC's request for what appeared to be *visitorial clause*, authorizing Bd, for compliance purposes, to obtain discovery from E under FRCP subject to supervision of ct of appeals enforcing order; under circumstances of case, Bd found it unnecessary to include such clause, citing *Furniture Store of Hazleton*, 278 NLRB No. 34]

5250 NOT PROVIDED FOR BY ACT

G. W. Galloway Company 281 NLRB No. 038

[ALJ properly revoked subpoena duces tecum served by E on Bd agent, seeking all records and documents obtained in investigating charge, in order to adduce evidence that agent improperly expanded investigation from original charge to what was finally alleged in C; limited evidentiary privilege protects Bd's informal investigatorial and trial preparatory processes; and subpoena seeking material directly related to investigatory process would likely have enmeshed Bd agent in proceeding as material witness; moreover, underlying charge on its face sufficed to raise allegation set forth in C]

6060-6735 Immaterial to case

Hoschton Garment Company, A Subsidiary of Spencer Industries, Inc. 279 NLRB No. 081

[ALJ's refusal to enforce E's subpoena duces tecum to Ee to produce records to show that child whom she was granted leave to take care of was under doctor's care and subpoena ad testificandum of Ee's husband regarding his ability to stay home with child, proper where evidence was immaterial to issue of whether Ee was suspended for violatin leave of absence or for U activities]

6800 SUMMARY JUDGMENT

Seth Thomas Division, General Time Corporation 274 NLRB No. 039

(in finding that E's exceptions to RD's report on objections raised substantial and material issues of fact and law warranting remand for hearing, Bd did not rely on affidavits attached to E's exceptions and excluded from R proceeding record by Bd; and Bd found it unnecessary to decide whether examination of affidavits was required herein because they were attached to GC's mtn for summary judgment)

Heck's, Inc. 282 NLRB No. 043

[mtn for partial summary judgment granted where respondent's amended answer asserted that certain allegations of backpay specification were incorrect but failed to offer alternative backpay formula or furnish supporting figures for computing amounts; nor did E explain in what respect duties of comparison Ees differed from those of discriminatee or provide other information indisputably w/i its knowledge]

Harold F. Kidd d/b/a Value Line Company 281 NLRB No. 031

[E's letter which apparently was response to GC's mtn for summary judgment held inadequate as answer and untimely filed, where it did not specifically admit, deny, or explain each allegation of amended C, and GC did not receive letter until after extended deadline date had passed, and after GC had filed for summary judgment]

Mid-State Distributing Co., Inc. 279 NLRB No. 175

[E answer to *technical* 8(a)(5) C raises no litigable issues, where certain matters were litigated in representation proceeding and other assertedly *previously unavailable* evidence of post-election turnover and addition of new Ees to unit through acquisition of another distributorship did not constitute *unusual circumstances* sufficient to relieve E of duty to bargain]

Herbert Rogers, Esquire, Trustee In Bankruptcy To Bristol Clothing Manufacturing Co., Inc. 276 NLRB No. 111

(GC's mtn to strike answer of trustee in bankruptcy to second amended C and mtn for summary judgment based on E's failure, as debtor-in-possession, to answer such C, and on trustee's answer's failure to meet Bd's R/R requirements, denied, where, although trustee, rather than E, filed ans to second amended C, E's answer to first amended C answered allegations in second amended C containing substantially same allegations as those in first, and E's ans thus raised litigable issues; and denial was appropriate in view of special role of trustee)

6867-3300 In absence of answer

Digum Coal, Inc. 282 NLRB No. 080

Transportation By La Mar, Inc., Ready Transportation Co., Inc., La Mar Gouger and Jerome Butler 281 NLRB No. 079

[E failed to file answer to C issued on day informal settlement agreement was vacated, notwithstanding that E did file answer to earlier C, which was informally settled by agreement that stated that approval of agreement constituted withdrawal of C and answer, since RD's vacating settlement agreement did not revive original C or answer]

Antoine's Inc., A California Corporation, d/b/a Antoine's of Beverly Hills 280 NLRB No. 142

[mtn for summary judgment granted where respondent's answer to Notice to Show Cause stated it had filed bankruptcy ptn but failed to deny committing ULP or explain failure to contact Regional Office about answer or extension of time to file answer, and instituting bankruptcy proceedings does not deprive Bd of jurisdiction or authority to process ULP case to final disposition; Bd proceedings fall w/i 11 USC Sec. 362(b)(4) and (5) exception to automatic stay provision for governmental unit proceedings to enforce its police or regulatory powers]

Michele Rena, and Its Alter Ego, Rite Style Merchandising, Inc., T/A Rite Style Fashions 280 NLRB No. 072

Can-Do, Inc. 279 NLRB No. 111

[in absence of any response to mtn for default summary judgment, Bd granted mtn but made no finding what effect E's alleged filing of intervening bankruptcy ptn would have on 8(a)(5) remedy herein since, unlike in companion case, there was no allegation herein of bankruptcy and charging parties were not same; consequently, Bd left matter to compliance proceedings, noting that, if bankruptcy ptn had been filed, remedy shall be limited in same manner as in companion case; cf. *Can-Do, Inc.*, 279 NLRB No. 108]

Can-Do, Inc. 279 NLRB No. 108

[in absence of answer to C and of response to mtn to show cause why mtn for default summary judgment should not be granted against E who filed bankruptcy ptn after C issued, Bd granted summary judgment and extended 8(a)(5) remedy only to date E filed bankruptcy ptn, which was consistent with S.Ct's *Bildisco* opn that E does not violate 8(a)(5) by changing terms and conditions of agreement during period between filing of bankruptcy ptn and bankruptcy ct's determination whether agreement may be rejected; cf. *Can-Do, Inc.*, 279 NLRB No. 111]

CCA Heating & Air Conditioning, Inc. 279 NLRB No. 054

[contrary to dissenting member who would have dismissed C on ground case involved dispute solely over compliance with contract breach of which is not necessarily an ULP absent repudiation of bargaining obligation, panel majority granted mtn for summary judgment, since, in absence of E's answer to C or Bd's mtn to show cause, allegations that E violated Act were deemed admitted and any other matters were not in issue]

Rapid Fur Dressing, Inc. and Rapid Fur Dressing, Inc., Debtor-In-Possession 278 NLRB No. 126

(GC's mtn for summary judgment, based upon E's failure to file ans to amended C which alleged essentially identical cause of action as original C (with the addition of one 8(a)(1) allegation), denied, where E's ans to original C, which raised affirmative defense to the substantive allegation of C, raised substantial and material issues of fact)

Maislin Transport of Delaware, Inc. and Maislin Transport of Delaware, Inc. Debtor-in-Possession **274 NLRB No. 074**
(GC's mtn for summary judgment granted where E withdrew its answer, which had same effect as failure to file answer)

La Boucherie Bernard, Ltd., d/b/a Goldstein Co. **274 NLRB No. 095**
(mtn for summary judgment granted, since E's untimely filed Notice of Reorganization (Automatic Stay) contending that E's filing of ptn for reorganization in bankruptcy acted as automatic stay did not constitute an answer under Sec. 102.20 as it did not specifically admit, explain, or deny each allegation of complaint; and E's response to Notice to Show Cause contending that only bankruptcy ct could lift the automatic stay did not show good cause for failure to file timely answer, since it did not deny commission of ULPs or explain why E did not contact Bd concerning an answer or extension of time to file an answer)

R. L. Broker & Company, Inc. **274 NLRB No. 101**
(GC's mtn for summary judgment denied, notwithstanding absence of *good cause* for E's failure to file ans, since C alleging violations of 8(a)(5) and 8(d) was defective where it was internally inconsistent and failed to establish information necessary to determine whether E violated Act and absent from C were allegations or facts demonstrating contract was in effect when E subcontracted work, whether contract prohibited subcontracting or facts which would enable Bd to determine whether decision to subcontract in fact required bargaining)

John Mahoney Construction Company, Inc. **274 NLRB No. 024**

[E's refusal to pay fringe benefit contributions, on behalf of its Ees who were represented by U, to various contractually established fringe benefits trust funds after expiration of its bargaining agreement with U, violative where not only did E's duty to bargain with U survive expiration of agreement but its obligation to continue making payments to fringe benefit funds continued]

6867-6700 Where issue has or could have been previously resolved

Bryan Memorial Hospital **282 NLRB No. 032**
[mtn for summary judgment granted and E held to have violated Section 8(a)(5) by failing to bargain before making changes in benefits and working conditions, where issue of whether E had properly withdrawn recognition from U was raised in previous case, is res judicata, and may not herein be raised or litigated, nor does pendency of appeal of prior proceeding in federal ct necessitate dismissal of C. Since E is not entitled to refuse to bargain with certified U while it litigates validity of certification in ct of appeals]

Mid-State Distributing Co., Inc. **279 NLRB No. 175**
[E answer to *technical* 8(a)(5) C raises no litigable issues, where certain matters were litigated in representation proceeding and other assertedly *previously unavailable* evidence of post-election turnover and addition of new Ees to unit through acquisition of another distributorship did not constitute *unusual circumstances* sufficient to relieve E of duty to bargain]

Watt Electric Company And Its Alter Ego, Watt Plumbing, Air Conditioning & Electric, Inc. And John O. Watt **279 NLRB No. 129**
[mtn granted where answer to backpay specification inadequate in view of defense based on issues already litigated and failure to specifically dispute GC calculations]

Western Temporary Services, Inc. and The Classic Company, Inc. **278 NLRB No. 073**
[ALJ's granting GC's mtn to strike certain of Es' denials from their individual answers, granting mtn for summary judgment, and deciding certain issues were res judicata because previously determined by Bd in underlying R proceeding, proper, notwithstanding Es' contention that they were denied due process in R proceedings for lack of adequate notice of amendment to ptn naming them as joint Es, where GC issued C alleging them as joint Es over two weeks before R ptn amendment and hearing, one E admitted joint E status in its answer, and other E presented evidence of their relationship at R hearing]

Butchers' Union Local 120, Food & Commercial Workers (Wever Quality Meats, Inc.) **275 NLRB No. 187**

6867-6725 Unit determination

Heuer International Trucks, Inc. **279 NLRB No. 018**
[upon GC's mtn for summary judgment, Bd held its earlier order denying such mtn and granting E's mtn for reconsideration on unit question was improvidently granted and consequently vacated earlier order, where defense was same argument consistently raised by E in underlying R proceeding and, under rule against relitigation, it was not valid basis for staying Bd's certification]

Heuer International Trucks, Inc. **279 NLRB No. 018**
[GC's mtn for summary judgment granted where all issues raised by E were or could have been litigated in prior R proceeding; E did not offer to adduce at hearing any newly discovered and previously unavailable evidence nor allege any special circumstances that would require Bd to reexamine decision made in R proceeding; consequently, E has not raised any issue properly litigable in instant ULP proceeding]

Beacon Light, Inc. d/b/a Beacon Light Christian Nursing Home **277 NLRB No. 109**
(summary judgment appropriate where E sought to litigate supervisory status of LPN's)

6867-6750 Failure to hold hearing on objections to election

Van Leer Containers, Inc. **279 NLRB No. 079**
[E's contention that it was denied due process because Bd allegedly failed to articulate its reasons for adopting RD's recommendation in prior *R* case, rejected, since Bd's Decision and Certification of Representative stated that Bd had considered E's objections, and that adoption of findings and recommendations of RD was based on review of the record, exceptions and briefs; further, RD properly denied E hearing on objections where RD assumed the truth of E's evidence and thus, an ex parte investigation was proper]

Brinks, Incorporated of Florida **276 NLRB No. 001**
(mtn for summary judgment denied, and 8(a)(3) case remanded to RD for evidentiary hearing on issue raised by E's contention that U of police and protection Ees was improperly certified where it was affiliated with organization that admitted nonguards to membership; contention that certification was also improper because of certain officers' criminal background, however, did not warrant a hearing, since that was not basis for denying certification)

6867-6766 Objection to conduct affecting election

National Brands of Ft. Lauderdale, Inc. **277 NLRB No. 089**
(mtn for summary judgment in ULP proceeding granted, notwithstanding E's argument that Bd's Associate Executive Secretary had no standing, in underlying R case, to deny mtn to reopen record on alleged misrepresentations in pre-election letter, since Associate Executive Secretary, who signed denial of mtn, did so *by direction of the Board*

California Teamsters, Local Union 911 (General Felt Industries, Inc.) **275 NLRB No. 136**
(mtn for summary 8(b)(7)(B) judgment granted where, although U claimed it belatedly learned that Ees did not vote for it in election won by rival U because they feared E retaliation and w/held information for same reason, which fear they based on Ee discharge found unlawful by Bd in prior case, there was no evidence U attempted to secure such *newly discovered* evidence before or during ULP hearing and was unsuccessful in doing so; and U being unaware of newly discovered evidence at time of its 8(b)(7)(B) activity, may not justify such conduct based on information not known to it at time of its actions)

General Felt Industries, Inc. 275 NLRB No. 134
(notwithstanding E's refusal to bargain with U certified following election on ground losing incumbent U had reasonable possibility of prevailing on issue of validity of election in pending 8(b)(7)(B) case, motion for summary judgment granted where in 8(b)(7)(B) case, claiming it belatedly learned Ees did not vote for it because they feared E retaliation and withheld such information for same reason failed to show that such evidence was newly discovered and previously unavailable during prior Bd hearing at which Bd found Ee's unlawful discharge had minimal impact on subsequent election)

General Felt Industries, Inc. 275 NLRB No. 134
(mtn for summary judgment granted, notwithstanding E's refusal to bargain with U certified following election on ground that E had been informed by several Ees that they would have voted for losing incumbent U had they not been afraid of possible discharge, which fear they based on unlawful discharge of Ee as found by Bd in prior case, where E failed to show that evidence was unavailable at time of ULP hearing or otherwise demonstrated that Ee statements constituted newly discovered or previously unavailable evidence)

Island Film Processing Co., Inc. d/b/a Kahala Kai Photo Service 274 NLRB No. 175
(although Gc's mtn for summary judgment was granted where E admitted refusing to bargain and to supply U with requested information Ge's mtn to strike E's affirmative defense that certification was erroneous because of U's objectionable conduct was denied although it was no defense to C since it could be viewed as attempt by E to preserve its position)

Davey Compressor Company 274 NLRB No. 107
(E's contention that it had been denied due process by denial of a hearing before an ALJ when it refused to bargain with U on grounds of preelection misconduct, rejected, since in the absence of newly discovered and previously unavailable evidence or special circumstances, a respondent in a proceeding alleging a violation of 8(a)(5) is not entitled to relitigate issues that were or could have been litigated in a prior R proceeding)

Seth Thomas Division, General Time Corporation 274 NLRB No. 039
(where Bd had rejected E's affidavits included with documents submitted with its exceptions to RD's report on objections because they had not been served on U, which E had not done in order to preserve affidavits' confidentiality, but GC provided them to U by appending them to its mtn for summary judgment, Bd denied GC's mtn and remanded case to RD for hearing, since E's exceptions raised substantial and material issues of fact and law and established prima facie showing that U's and third parties' conduct created general atmosphere of fear and coercion)

N.L.R.B. v. Island Film Processing Co., Inc., d/b/a Kahala Kai Photo Service 784 F.2d 1446 (C.A. 9, Mar. 1986)
[E's objection to Bd's finding that individual was not supervisor, adequately preserved for ct review of ULP case, notwithstanding Bd's grant of summary judgment therein because E had simply *reiterated* objections, where Bd had discussed issue of individual's supervisory status in underlying R case in response to E's objection to supervisory involvement in election]

6867-6790 ULP violation by agreed set of actions

SDC Investment, Inc. 278 NLRB No. 097
[summary judgment for consolidated cases--objections to election and ULP allegations that tracked objections to elections--denied, and hearing before ALJ directed, notwithstanding E's attorney filed charge of its own in which he admitted that objections in pending RC case were identical to ULP charge he was filing. Bd held that it did not consider charge filed by E's attorney as admission that ULPs were actually committed and therefore could serve as basis for mtn for summary judgment, but rather was questionable procedural folderol to test hearing officer's authority to rule on matters in objections case which, if proven, would constitute ULP violation]

6867-6793 Defenses raised in prior 10(k) determination proceeding

6867-6800 Failure to litigate present allegations in prior proceeding

Universal Blanchers, Inc. 275 NLRB No. 218
(mtn for summary judgment granted E in 8(a)(3) case where RD issued C after approving agreement settling E's alleged independent 8(a)(1) violations, since settlement agreement barred litigation of 8(a)(3) violations which predated settlement agreement and were known to RD when he approved it; RD's withdrawal of approval and issuance of 8(a)(3) C because he had not been notified of appeals on the 8(a)(3) allegations was improper, since he was GC's agent, and GC, through Office of Appeals, had such knowledge, and E had neither breached settlement agreement nor committed postsettlement violations)

Eastern Connecticut Health Services, Inc. d/b/a New London Convalescent Home 274 NLRB No. 204
(E's defense to refusal to bargain that it was not obligated to do so because of fact that, after certification, U disaffiliated with one national U and reaffiliated with another w/o notifying unit members of, or giving them an opportunity to vote on, reaffiliation raised material issues of fact and law such that Bd ordered hearing limited to issue of whether U's reaffiliation comported with *Amoco Production Co.* due process standards and whether E was obligated to bargain with reaffiliated U)

N.L.R.B. v. Dane County Dairy, et al. 795 F.2d 1313 (C.A. 7, July 1986)

Herbert Halperin distributing Corporation 281 NLRB No. 001
[mtn for summary judgment granted, notwithstanding E's contention that it is entitled to a hearing to determine if U still retains majority support due to lapse of time and alleged high turnover rate among unit Ees, since U's continued majority status is presumed to exist for one-year certification period, and neither Ee turnover lapse of time justifies E's refusal to bargain]

Pittsburgh Testing Laboratory 279 NLRB No. 173
[mtn for summary judgment granted since no material issues of fact existed where E refused to provide U with requested Ees' wage and employment information which was presumptively relevant for bargaining purposes and must be furnished on request, and E failed to rebut relevance of such information]

SDC Investment, Inc. 278 NLRB No. 097
[summary judgment for consolidated cases--objections to election and ULP allegations that tracked objections to elections--denied, and hearing before ALJ directed, notwithstanding E's attorney filed charge of its own in which he admitted that objections in pending RC case were identical to ULP charge he was filing. Bd held that it did not consider charge filed by E's attorney as admission that ULPs were actually committed and therefore could serve as basis for mtn for summary judgment, but rather was questionable procedural folderol to test hearing officer's authority to rule on matters in objections case which, if proven, would constitute ULP violation]

Universal Blanchers, Inc. 275 NLRB No. 218
(mtn for summary judgment granted E in 8(a)(3) case where RD issued C after approving agreement settling E's alleged independent 8(a)(1) violations, since settlement agreement barred litigation of 8(a)(3) violations which predated settlement agreement and were known to RD when he approved it; RD's withdrawal of approval and issuance of 8(a)(3) C because he had not been notified of appeals on the 8(a)(3) allegations was improper, since he was GC's agent, and GC, through Office of Appeals, had such knowledge, and E had neither breached settlement agreement nor committed postsettlement violations)

Machinists, Local 289, and District Lodge 160 (Tacoma and Seattle Trailer Repair, Inc.) 275 NLRB No. 081
(mtn for summary judgment granted where there were no material facts in dispute and no cause to the contrary shown, since U admitted all factual allegations that it brought charges and fined Ees for their postresignation work for E behind U's picket line, and U did so pursuant to its constitutional restriction maintained and enforced against its members' right to resign from U, which was in violation of 8(b)(1)(A))

Watt Electric Company And Its Alter Ego, Watt Plumbing, Air Conditioning & Electric, Inc. And John O. Watt 279 NLRB No. 129

Midwest Motel Management Corp. of Birmingham 278 NLRB No. 060
[while finding, contrary to ALJ, that E's general denial of backpay specification concerning amount of interim earnings was sufficient to raise such issue, Bd nevertheless adopted ALJ's findings with respect to interim earnings, since there was no prejudice from ALJ's rulings at hearing or discussion of such issue in his decision, where discriminatee denied ALJ's and E's counsel's inquiries whether there were any other interim earnings, and E did not attempt to present any additional evidence on issue]

Midtown Service Center, Inc. 278 NLRB No. 067
[Bd in ruling on GC's mtn for summary judgment on backpay specification ordered hearing limited to determination of discriminatee's interim earnings where, although respondent's failure to specifically deny gross backpay allegations resulted in their being deemed admitted as true, its general denial of interim earnings allegations was sufficient under Sec. 102.54 to raise issues warranting a hearing]

Transportation Management Corporation; et al. 277 NLRB No. 046
(GC's mtn for summary judgment in backpay proceeding granted where E's answers to three backpay specifications did not conform to R/R Sec. 102.54 as to those matters w/i E's knowledge, did not specifically dispute accuracy of gross backpay figures or provide any specific alternative formula for computing gross backpay due, but merely denied allegations of backpay specifications or stated that E lacked sufficient knowledge to admit or deny specifications)

Barry S. Sol'of, M.D., d/b/a The Victoria Medical Group, et al. 274 NLRB No. 155
(GC's contention that E's response to specification was not ans w/i meaning of Bd's R/R 102.54(b) and (c) because it was not sworn to, did not include E's address and did not explicitly admit, deny or explain specification's allegations, rejected and summary judgment denied, where, although ans was technically deficient, it was characterized by E as *response* and there was implicit denial of allegations in E's demand for supporting documentation; further, E's filing second ans in response to Notice to Show Cause, cured defects in initial ans; Bd's R/R's are to be liberally construed)

Barry S. Sol[illegible], M.D., A Professional Corporation, d/b/a The Victoria Medical Group and The West Jefferson Medical Group 274 NLRB No. 155
(E's claim, raised in ans to specification, that discriminatees would have been laid off for legitimate business reasons soon after unlawful conduct and claim that E ceased business operations prior to termination of alleged backpay period, held valid matters for compliance stage and summary judgment denied, since both contentions go to issue of discriminatees' job availability during backpay period)

Can-Do, Inc. 279 NLRB No. 111
[in absence of any response to mtn for default summary judgment, Bd granted mtn but made no finding what effect E's alleged filing of intervening bankruptcy ptn would have on 8(a)(5) remedy herein since, unlike in companion case, there was no allegation herein of bankruptcy and charging parties were not same; consequently, Bd left matter to compliance proceedings, noting that, if bankruptcy ptn had been filed, remedy shall be limited in same manner as in companion case; cf. *Can-Do, Inc.*, 279 NLRB No. 108]

Can-Do, Inc. 279 NLRB No. 108
[in absence of answer to C and of response to mtn to show cause why mtn for default summary judgment should not be granted against E who filed bankruptcy ptn after C issued, Bd granted summary judgment and extended 8(a)(5) remedy only to date E filed bankruptcy ptn, which was consistent with S.Ct's *Bildisco* opn that E does not violate 8(a)(5) by changing terms and conditions of agreement during period between filing of bankruptcy ptn and bankruptcy ct's determination whether agreement may be rejected; cf. *Can-Do, Inc.*, 279 NLRB No. 111]

Can-Do, Inc. 279 NLRB No. 108

7250-4533 Adequacy of facts alleged

Alamo Cement Company 277 NLRB No. 034
(mtn that ALJ disqualify himself, denied; fact that ALJ formerly served as counsel for GC in cases in which counsel for respondent and members of his firm were opposing counsel, did not, in absence of evidence of personal bias, disqualify him from presiding over this case, nor did the fact that he supervised the hearing officer in an R case involving respondent and the U, since he was not familiar with the challenges and objections in that case, because hearing officers function independently of their supervisors and report directly to the Bd)

Case remanded for hearing de novo before different ALJ)

The Lawson Company v. N.L.R.B. 753 F.2d (C.A. 6, Jan. 1985)
(ALJ's statement, during hearing as to E witness's discussion of nature of E's Sales Assistant Committee that *I know what a negotiating committee is and so does Bd law,* not objectionable as predisposition to find ULP, since given context of ULPs during hearing, ALJ's statement merely acknowledged what was to him, and is to ct, obvious, and statement made after several witnesses had testified on subject and documents about operation had been introduced)

7250-5040 Intemperate language

Baddour, Inc. 281 NLRB No. 084

N.L.R.B. v. Honaker Mills, Division of Top Form Mills, Inc. ——F.2d——
(C.A. 4, Feb. 1986)
[E's contention Bd's order should not be enforced because ALJ was biased in that he made intemperate and derisive remarks by using the term *scab* during questioning of a U witness, rejected, where prior to using the term, ALJ made it clear he was only using the term because the witness knew what it meant and he used the term only after the witness had used it several times]

The Lawson Company v. N.L.R.B. 753 F.2d (C.A. 6, Jan. 1985)
(harsh language (of ALJ) of itself does not establish prejudice. [E's contention Bd's order should not be enforced because ALJ was biased in that he assumed role of advocate by examining witnesses at the hearing, rejected, where questioning complained of was nothing more than ALJ's attempt to obtain more specific statements from witnesses' broad testimony to determine the weight to be given thereto and ALJ was doing no more than clarifying the record, all actions which ALJ is expressly authorized to do under Bd's R/R 102.35(k)]

N.L.R.B. v. Honaker Mills, Division of Top Form Mills, Inc. ———F.2d——— (C.A. 4, Feb. 1986)

[E's contention Bd's order should not be enforced because ALJ was biased in that he refused to credit uncontradicted testimony of E's witnesses, rejected, where ALJ in fact credited some of E's witnesses and where ALJ discredited uncontradicted testimony, he did so, by pointing out specifically, on basis of logical and factual inconsistencies, lack of corroboration and overall demeanor; further, alleged bias must stem from an extrajudicial source and there was no evidence ALJ's credibility determinations were based on anything other than his participation in the case]

N.L.R.B. v. Honaker Mills, Division of Top Form Mills, Inc. ———F.2d——— (C.A. 4, Feb. 1986)

[E's contention Bd's order should not be enforced because ALJ was biased in that he refused E to elicit testimony in support of its defense, rejected, where actions complained of were merely evidentiary rulings and even if incorrect, they may not establish a sufficient case of bias; rather, E must make showing of bias stemming from sources outside the decisional process]

N.L.R.B. v. Honaker Mills, Division of Top Form Mills, Inc. ———F.2d——— (C.A. 4, Feb. 1986)

[E's contention Bd's order should not be enforced because ALJ was biased in that he disregarded and discounted incriminating conduct on behalf of U, which, if credited, would have established E's defense, rejected, where ALJ did not disregard evidence but only concluded that such evidence did not rise to the level to support E's defense; disagreement alone does not establish bias or suggest ALJ was fatally marred by prejudice]

Plumbers Local No. 305 (Stone & Webster Engineering Corp. et al.) 282 NLRB No. 012

[GC's mtn to strike granted, pursuant to Sec. 102.46 of R/R, where affidavits were not made part of formal record]

Sahara Datsun, Inc. 278 NLRB No. 148

[GC's mtn to strike portion of E's brief pertaining to post-hearing misconduct of U organizer and officer by entering E's premises and injuring E's officers, for which he was arrested, granted and E's mtn to reopen hearing to take additional evidence on issue, denied, since conduct was immaterial where ALJ had concluded that U organizer was not entitled to reinstatement or to deal with E as U representative]

Bakery Workers, Local 42 (Gold Kist, Inc.) JD-(ATL)-42-85

(ALJ reopened record to receive respondent's answer to amendment made by GC at hearing)

7662-4300 Exclusion or admission of evidence

Canterbury Villa of Waterford, Inc. 282 NLRB No. 072

[contention that ALJ erred in denying E leave to present evidence of effect of disaffiliation on U's financial status, and that ALJ also erred in rejecting, on grounds of lack of evidence, E's contention that disaffiliation produced financial instability that would affect unit Ees' representational interests, rejected where E failed to make sufficient proffer to establish that the evidence would tend to show that disaffiliation rendered U financially unstable]

Communications Workers, Local 1101 (New York Telephone Company) 281 NLRB No. 066

[ALJ admitted E's exhibit into evidence, notwithstanding GC's contention that it should not be admitted because document was not made available to GC pursuant to subpoena duces tecum; determination as to whether evidence, which party failed to produce pursuant to subpoena, should be excluded is matter of discretion; and exhibit had previously been made available to GC]

Southwire Company 277 NLRB No. 043

(portion of omitted allegations of second amended C which contained fewer allegations than (first) amended C appear in record in instant proceeding only where necessary to indicate relevant background information)

Cosmano Brothers, Inc. d/b/a Ethnic Produce 275 NLRB No. 038

(ALJ's ruling precluding E's inquiry into legal presence in this country of discriminatees who were ordered to reinstated found not prejudicial, since E may present any evidence bearing on the issue at compliance stage of proceeding pursuant to S.Ct's *Sure-Tan* decision, issued after ALJ's decision, which conditions implementation of Bd's traditional remedies at compliance stage on discriminatee's legal presence in this country)

Advertisers Manufacturing Company 275 NLRB No. 019

(a decision, as public document, is competent for official notice where it otherwise is to be shown properly material to issue in subsequent proceeding; and even contrarily, e.g., where decision is determined not one to be relied upon, initial review of decision for contended purpose served involves neither prejudial error, nor, in law, renders reviewing judge biased)

Arizona Public Company 273 NLRB No. 210

(rejection of affidavit of Ee who did not testify submitted by E after hearing before ALJ, proper, since E's posthearing document was neither newly discovered nor was it unavailable at time of hearing)

N.L.R.B. v. Electrical Workers Local Union #46 793 F.2d 1026 (C.A. 9, July 1986)

[ALJ properly refused to hear evidence on U's defense that, if allowed, U would have shown that individual, disciplined assertedly for operating non-U E as alter ego of U-E, was not entitled to 8(b)(1)(B) protection from U discipline, where individual never had any ownership interest in non-U E nor could he be classified under alter ego theory or otherwise; and non-U E was itself E on whose behalf individual possessed bargaining and grievance adjustment authority]

Road Sprinkler Fitters Local Union No. 669, Plumbers v. N.L.R.B. 789 F.2d 5 (C.A. D.C., Apr. 1986)

[Bd may consider evidence relating to continuing violation. Bd not precluded from dealing with ULPs that occur after filing initial ULP charge *if* new ULPs are *related to* initial charge and *grow out of them while the proceeding is pending before the Bd*]

7662-4900 Effect of stipulation

Highway Drivers, Dockmen, Spotters, Rampmen, Meat Packing House and Allied Products Drivers and Helpers, Office Workers and Miscellaneous Employees, Local Union No. 710, a/w Teamsters (The Santa Fe Trail Transportation Company) 279 NLRB No. 096

[fact that there may have been no picketing on Sundays, or 24 hours a day, does not alter stipulated nature of picketing —that it took place on virtually every working day during 45 days of picketing]

Alpine Vending, Inc. JD-(SF)-89-85

(where E stipulated that U is exclusive representative of unit, it could not in post submission brief argue that E's failure to bargain is justified by U's lack of majority status)

7662-8600 Correction of record

Wilco Business Forms, Inc. 280 NLRB No. 154

[attempt by ALJ through issuance of errata on oral request of GC to add 2 Ees to list of Ees found discriminatorily discharged, improper, as postdecisional errata only for correction of typographical errors, but not to change matters of substance. Further, R/R does not permit ex parte communications between parties and ALJ concerning substantive, although inadvertent, errors in judge's decision. However, Bd considered GC's request to issue errata as mtn for correction to Bd to which Respondent had adequate opportunity to respond through its brief to Bd in support of its exceptions]

7662-7000 Examination of witnesses

Southwire Company 277 NLRB No. 043

7662-8460 Control of conduct of counsel

Buddour, Inc. **281 NLRB No. 084**

[ALJ'slimitation of E's cocounsel's participation at hearing to assisting at counsel's table not abuse of discretion and authority under Sec. 102.35 and 102.44 of Bd's rules and furthered orderly development of issues and evidence where, notwithstanding ALJ's warnings about arguing over evidentiary ruling, objecting to questions ruled proper, interrupting testimony of witnesses, and making unnecessary statements on record, cocounsel persisted in arguing point in issue despite ALJ's instruction to cease]

District No. 1, Pacific Coast District Engineers Beneficial Association, AFL-CIO (Crest Tankers, Inc.) **274 NLRB No. 215**

(Bd granted request by Charging Party to appeal ALJ's order excluding its counsel from ULP hearing because in ALJ's opinion counsel had misrepresented and distorted ALJ's evidentiary ruling excluding certain evidence in its request to appeal that ruling; Bd also granted Charging Party's and GC's mtns to recuse ALJ and remanded matter for hearing de novo before new ALJ, since while appeal did not clearly reflect ALJ's ruling, evidence insufficient to establish Charging Party's filing of appeal and refusal to obey ALJ's directive to correct appeal was attempt to obstruct hearing

7662-9200 Misconduct or error by Administrative Law Judge

Wilco Business Forms, Inc. **280 NLRB No. 154**

The Lawson Company v. N.L.R.B. **753 F.2d (C.A. 6, Jan. 1985)**

(ALJ's statement, during hearing as to E witness's discussion of nature of E's Sales Assistant Committee that *I know what a negotiating committee is and so does Bd, law,* not objectionable as predisposition to find ULP, since given context of ULPs during hearing, ALJ's statement merely acknowledged what was to him, and is to ct, obvious, and statement made after several witnesses had testified on subject and documents about operation had been introduced)

The Lawson Company v. N.L.R.B. **753 F.2d (C.A. 6, Jan. 1985)**

(harsh language (of ALJ) of itself does not establish prejudice. Ct does not, in instant case, approve such statements; ct too.: evidence adduced at open public hearing where both sides were given equal opportunity to present whatever evidence they felt appropriate; given above facts, there is substantial evidence to uphold decision of Bd)

7682 PROCEDURAL DUE PROCESS AT HEARING

7682-3300 Due process not denied by

7682-3301 Generally

N.L.R.B. v. IDAB, Inc. **770 F.2d 991 (C.A. 11, Sep. 1985)**

(ALJ's finding of *proclivity* on part of E to attempt to influence testimony of witnesses which was introduced as collateral charge in refusal to bargain proceeding, which E claimed made up core of ALJ's credibility findings, held not denial of due process to E, since *proclivity* finding was not essential element of ALJ's findings, where ALJ was merely discounting E's explanation for witness' hesitancy in testifying and was referring to allegation of threat of violence by pro-U Ee which was refuted by implausible and inconsistent testimony)

7682-3314 Admission of incompetent evidence

Local 259, Auto Workers (Atherton Cadillac, Inc.) **276 NLRB No. 030**

(on remand Respondent U's mtn to dismiss C and vacate Bd's order, based on contention that at original hearing GC knowingly introduced forged document, purportedly letter from E to Charging Party stating Respondent had coerced E into discharging Charging Party, into record and suppressed information in Regional Office files concerning doubts regarding letter's authenticity, denied, since Respondent did not meet burden of showing letter was forgery or had been altered by Charging Party)

Local 259, Auto Workers (Atherton Cadillac, Inc.) **276 NLRB No. 030**

(on remand Respondent U's mtn to dismiss C and vacate Bd's order based on contention that a original hearing it was denied due process where GC authenticated letter allegedly from E to Charging Party stating Respondent had coerced E into discharging Charging Party, was introduced into evidence, and authenticated by Charging Party rather than by writer of letter, and that Charging Party had perjured himself by testifying falsely as to letter's authenticity, rejected)

Local 259, Auto Workers (Atherton Cadillac, Inc.) **276 NLRB No. 030**

(on remand Respondent U's mtn to dismiss C and vacate Bd's order based on contention that it was denied due process at original hearing where GC failed to disclose exculpatory material from investagatory files i.e. that letter purportedly from E to Charging Party stating Respondent U had coerced E into discharging Charging Party was alleged by E to be forgery, and that counsel for GC had doubts about authenticity of letter, rejected, since Regional Office had good faith belief in authenticity at time and in view of Bd's R/R 102.118 prohibiting disclosure of investigatory files)

Advertisers Manufacturing Company **275 NLRB No. 019**

(a decision, as public document, is competent for official notice where it otherwise is to be shown properly material to issue in subsequent proceeding; and even contrarily, e.g., where decision is determined not one to be relied upon, initial review of decision for contended purpose served involves neither prejudial error, nor, in law, renders reviewing judge biased)

7682-3318 Failure of General Counsel to obtain documents

Abramo Fish Co. Ltd. **JD-222-85**

(where no documentary evidence was proffered regarding E's unchallenged testimony that he paid Ees' wages and payroll taxes, and since credibility attack on E's testimony was launched by GC, it was GC's burden to produce documentary evidence; under the circumstances, attack was considered based upon surmise and speculation)

7682-3320 Failure to comply with subpoena

Communications Workers, Local 1101 (New York Telephone Company) **281 NLRB No. 064**

[ALJ admitted E's exhibit into evidence, notwithstanding GC's contention that it should not be admitted because document was not made available to GC pursuant to subpoena duces tecum; determination as to whether evidence, which party failed to produce pursuant to subpoena, should be excluded is matter of discretion; and exhibit had previously been made available to GC]

7682-3349 Absence of party's counsel at hearing

Plumbers Local No. 305 (Stone & Webster Engineering Corp. et al.) **282 NLRB No. 012**

[due process not denied by proceeding with hearing dispite absence of respondent's counsel where ALJ had already permitted five postponements, and respondent was represented by member of counsel's firm who was assisted by member of another firm who was familiar with issues, and respondent has not shown prejudice]

7682-3356 Denial of motion to file reply brief

Fruehauf Corporation **274 NLRB No. 067**

(GC's mtn to strike E's post-hearing reply brief denied, notwithstanding improper not to accompany reply with mtn for leave to file reply brief, since filing of such matter is w/i ALJ's discretion; brief was only 2 pages long and would not delay ALJ's decision)

7682-3363 Board rules and procedures

Wilco Business Forms, Inc. **280 NLRB No. 154**

[attempt by ALJ through issuance of errata on oral request of GC to add 2 Ees to list of Ees found discriminatorily discharged, improper, as postdecisional errata only for correction of typographical errors, but not to change matters of substance. Further, R/R does not permit ex parte communications between parties and ALJ concerning substantive, although inadvertent, errors in judge's decision. However, Bd considered GC's request to issue errata as mtn for correction to Bd to which Respondent had adequate opportunity to respond through its brief to Bd in support of its exceptions]

7682-3370 Limitation of examination of witnesses

Canterbury Villa of Waterford, Inc. **282 NLRB No. 072**

[E's contention that it was denied due process by ALJ's refusal to allow it to adduce evidence of the organizational and financial impact of disaffiliation on national U, rejected, notwithstanding argument that qcr may arise not only when U disaffiliates from another U but also when U with which it is affiliated looses membership elsewhere, since that argument lacks supporting authority]

Walter N. Yoder & Sons, Inc. **754 F.2d 531 (C.A. 4, Feb. 1985)**

(U need only make formal request based on reasonable belief that information is necessary and show that it is relevant in order to trigger E's obligation to give information; U need not be satisfied with E's assurances that there is no violation once duty to provide information has been triggered; reasonableness of U's belief in making request may not be called into question in light of post hoc information provided by E outside confines of formal response to request; therefore ALJ properly excluded cross examination of U president of what he knew about relationship between 2 entities (alter ego) or could easily have determined)

7682-3375 Conduct of Counsel

Mack Trucks, Inc. **277 NLRB No. 084**

(U's mtn to disqualify law firm from serving as E's counsel because of Bd's Regional attorney's prospective affiliation with that firm, denied, since no sufficient warrant had been shown for determination that there should be a substitution of GC's representative, no deficiencies in case record with respect to GC's prosecution of present matter have been shown. A merely conceivable *apperance of impropriety* must be considered too slender a reed upon which to rest a disqualification order)

7682-3384 Revocation of subpoena

Rainbow Tours, Inc., d/b/a Rainbow Coaches **280 NLRB No. 017**

[revocation of subpoena served on State of Hawaii requesting custodian of records for Unemployment Insurance Office to produce certain records regarding discriminatees, granted on basis of State's statutory priviledge and failure of E to state with specificity any reason State's claim of confidentiality and priviledge should not be honored under circumstances of this case]

7682-3391 Absence of specific allegations or notice where adequate notice exists

Central Broadcast Company **280 NLRB No. 056**

[E's failure to object to introduction of its letter and copy of its president's speech, which it had supplied to GC, found to constitute waiver of formal notice in C where letter and speech were not alleged as violative in C but were fully litigated]

N.L.R.B. v. Ironworkers Local Union No. 505, a/w Ironworkers **794 F.2d 1474 (C.A. 9, July 1986)**

[contrary to U's claim that C alleged only breach of duty of fair representation and that U lacked notice of independent violation of 8(b)(1)(A), ct held that, although C specifically alleged breach of fiduciary duty owed to Ees, it more generally alleged commission of ULPs sufficient to put U on notice that Bd might proceed under both legal theories]

7682-3394 Introduction of collateral unfair labor practice charge

N.L.R.B. v. IDAB, Inc. **770 F.2d 991 (C.A. 11, Sep. 1985)**

(notwithstanding E's contention that it was denied due process because it was not notified of new collateral ULP charge in refusal to bargain proceeding nor given opportunity to fully and fairly litigate such charge at hearing, ct held there was no denial of due process to E, where ALJ used testimony regarding collateral ULP charge alleging E had attempted to influence testimony of potential witnesses at hearing, solely to evaluate credibility of witnesses and did not decide collateral ULP change)

7682-3398 Dual role of GC representative in consolidated complaint and representation proceedings

Freuhauf Corporation **274 NLRB No. 067**

(consolidation of *C* and *R* case by RD was proper where E suffered no prejudice from counsel for GC's dual role of adversary in *C* case and that of nonadversary in case; GC has discretion under 3(d) of the Act to proceed as litigant in consolidated case rather than as neutral third party)

Freuhauf Corporation **274 NLRB No. 067**

(E's contention that it was prejudiced by having to operate in the context of consolidated *C* and *R* case when what was really involved was hearing on its objections and GC's attorney improperly became an advocate during *R* case portion of trial, rejected; in instant case, GC offered the pleadings only and then rested in the *C* case and fact that GC used a *handful* of leading questions during the *R case was insufficient to establish that GC was carrying the ball* for the U or was so partisan as to destroy fairness of the hearing)

7682-6700 Due process denied by

7682-6701 Generally

Hydro Conduit Corporation **278 NLRB No. 144**

[RD's decision in *RM* case, finding that qcr exists and election should be held, cannot control whether E also had objective considerations for refusing to bargain with U in subsequent ULP case, notwithstanding U did not appeal RD's decision, since to hold otherwise would result in a denial of due process; while administrative determination of objective considerations is proper in *R* case since no violation of law is at issue, it is not proper in ULP case since parties must be afforded opportunity to fully litigate all relevant issues]

Evans Plumbing Co. **278 NLRB No. 089**

[due process requirements prevent extension of individual liability to successor E's officers and primary shareholders where neither of them was named a party, and one was neither present nor represented individually at hearing]

7682-6750 Raising issue previously conceded by General Counsel to respondent

Baker Mine Services, Inc., d/b/a Coppinger Machinery Service, Inc. **279 NLRB No. 088**

[Bd held no unlawful E domination in formation of and administration of Es committee, or unlawful execution of bargaining agreement with committee, since those allegations not properly before Bd where (1) not raised in complaint (2) not put in issue at hearing and (3) GC and ALJ effectively assured Respondent that establishment of committee was not to be litigated]

7690 MISCONDUCT OF PARTIES

M. J. Santulli Mail Services, Inc. **281 NLRB No. 170**

[where E's ans denied knowledge concerning truth or falsity of C allegation that U was labor organization, and GC adduced evidence clearly establishing U's labor organization status, but E's counsel litigated issue by attempting to elicit testimony regarding matters wholly unrelated to labor organization status, asked purely argumentative questions, and requested production of documents which could have been subpoenaed months before hearing, Bd, finding such conduct contrary to strictures of R/R Sec. 102.21, expressed strong disapproval thereof and cautioned E's counsel against such conduct in future appearances before Bd]

Castello Packing Co., Inc. and Castello Foods, Inc., d/b/a Holiday Pack Foods **281 NLRB No. 011**

[alleged holding of office in NLRB Ee association by Bd attorney assigned to instant ULP and underlying R proceedings held not to cause attorney to be biased and prejudiced]

District No. 1, Pacific Coast District Engineers Beneficial Association, AFL-CIO (Crest Tankers, Inc.) **274 NLRB No. 213**

(Bd granted request by Charging Party to appeal ALJ's order excluding its counsel from ULP hearing because in ALJ's opinion counsel had misrepresented and distorted ALJ's evidentiary ruling excluding certain evidence in its request to appeal that ruling; Bd also granted Charging Party's and GC's mtns to recuse ALJ and remanded matter for hearing de novo before new ALJ, since while appeal did not clearly reflect ALJ's ruling, evidence insufficient to establish Charging Party's filing of appeal and refusal to obey ALJ's directive to correct appeal was attempt to obstruct hearing

Bertolucci's Fender and Body Shop, Inc. **JD-(SF)-143-86**

(E's mtn to dismiss the case because of GC's alleged *serious breach of ethics* by describing in a footnote of brief an offer of proof concerning relevance of evidence GC sought to adduce, denied, since E was not prejudiced by inappropriate inclusion of material)

7695 REOPEN HEARING

Sahara Datsun, Inc. **278 NLRB No. 148**

[GC's mtn to strike portion of E's brief pertaining to post-hearing misconduct of U organizer and officer by entering E's premises and injuring E's officers, for which he was arrested, granted and E's mtn to reopen hearing to take additional evidence on issue, denied, since conduct was immaterial where ALJ had concluded that U organizer was not entitled to reinstatement or to deal with E as U representative]

Rockwood & Company and W. H. Gonyea Trust No. 1–17 d/b/a Timber Products Co. **281 NLRB No. 117**

[issue of U successorship, which arose subsequent to occurrence of E's ULPs herein and which Bd deferred to compliance stage in earlier proceeding involving E and U as parties held not to warrant abatement of Bd review of ALJ's decision in instant case]

Superior Container, Inc. **276 NLRB No. 056**

(GC's request that ALJ take judicial notice of ALJ's decision in prior case involving same E, for purpose of considering ALJ's findings and conclusions in prior case as dispositive of some elements of proof herein, denied, since seeking to attach finality to earlier findings of ALJ is result that can appro-

priately be accorded only to Bd decisions or those of ct; however, ALJ officially noticed existence of prior ULP proceeding and ALJ's decision to extent legitimately possible)

8001-2500 Recommended decision under APA section 8(a), 5 USC Sec. 557(b)

Governor's Foods Corporation d/b/a Food Park 277 NLRB No. 041
(Bd remanded case to ALJ for supplemental decision where ALJ failed to make any specific factual findings or credibility resolutions regarding alleged unlawful refusal to hire specific named discriminatees, and absent unlawful motivation, that alleged discriminatees would have been hired. Judge summarily found, w/o specific reference to individuals, that E's evidence was not generally credible. Such decision inconsistent with R/R 102.45 and Sec. 557 of APA which requires decision to contain findings of fact, conclusions, and reasons therefor)

8001-4000 Decision must be based on record only

Consolidation Coal Company, Burning Star No. 4 & No. 5 277 NLRB No. 060
(E allowed to assert Sec. 10(b) defense to ULP charges, notwithstanding such defense was neither affirmatively pleaded in E's answer to C nor expressly asserted as defense at hearing but first set forth in E's brief, since it was litigated *sub silentio* where C anticipated it by referring to lack of notice to charging party, there was no objection to E's cross examination of GC's witnesses in effort to establish such defense, and GC's brief showed that such defense was viable by stating that E was expected to argue it and making legal argument thereon)

8001-4400 ALJ's failure to detail conflicts in evidence not indication that such evidence not considered

Grunco, Inc., d/b/a Thriftway Supermarket; et al. 276 NLRB No. 164
(while ALJ did not explicitly state that he was making credibility resolutions where conflict in testimony occurred, Bd held ALJ implicitly credited witnesses whose versions he accepted, since in those instances he found events took place in a way consistent with only one of the versions of conflicting testimony)

Iron Workers, Local 681 (Pepco, Inc.) 276 NLRB No. 142

Regency Electronics, Inc. 276 NLRB No. 002

8001-4700 ALJ's resolution of important factual conflicts against party not bias

Grunco, Inc., d/b/a Thriftway Supermarket; et al. 276 NLRB No. 164
(ALJ's uniformly crediting GC's witnesses over those of respondent, assertedly demonstrating inadequacy of his credibility resolutions, held not improper, since total rejection of one point of view does not, of itself, constitute basis for overturning ALJ's credibility resolutions)

The Lawson Company v. N.L.R.B. 753 F.2d (C.A. 6, Jan. 1985)
[total rejection of an opposed view cannot impugn the integrity or competence of a trier of fact. Each factual finding must be considered on its own merits. Bd's findings (grounded in ALJ's findings) not disturbed (by ct) where E did not develop support for its claim that it did not discriminatorily enforce its no-solicitation policy)

8001-5000 ALJ bound by Board precedent and dispositions

Local 441, International Union of Electrical, Radio & Machine Workers, AFL-CIO (Phelps Dodge Copper Products Company, a Division of Phelps Dodge Industries, Inc.) 281 NLRB No. 137
[regardless of failure of GC to use correct litigation theory and follow Bd law at time of hearing, ALJ should have applied the existing Bd law in his decision]

Operating Engineers Local 501 (Summa corp. d/b/a Desert Inn Hotel, et al.) 281 NLRB No. 065
[where conflict exists between Bd's and ct decision, ALJ must follow Bd]

ACL Corporation d/b/a Atlanta Hilton & Towers 278 NLRB No. 076
[ALJ is bound by Bd's initial certification of U as to appropriateness of unit until modified or reserved by Bd itself or Supreme Court]

Jaydan, Inc. 273 NLRB No. 199
(where, after hearing but before filing of briefs, Bd reversed prior decision thereby changing law applicable herein and resulting in peculiar procedural process in which GC and E moved to dismiss C over objections of charging party, ALJ held that, in light of charging party's objections to dismissal or withdrawal of C, charging party becomes *de facto* prosecutor of C and, as a result, regular decision must be prepared and issued by ALJ pursuant to Bd's R/R Sec. 102.45, just as if no motions had been filed; however, it must perforce be governed by Bd's revised doctrine)

Electrical Workers Local 76 (Ryan Wright, an Individual) JD-(SF)-36-85
(U's argument that ALJ should follow law of the circuit in determining whether it lawfully fined member who had not followed U's procedure for resigning from U, rejected, since ALJ is bound by Bd law until that law is overridden by the Supreme Court even if there is contrary authority in courts of appeals)

8025 FORM AND CONTENT

8025-3300 Specificity of findings and conclusions

Pacific Coast Metal Trades District Council 282 NLRB No. 041
[assertion that ALJ erred in failing to find that trades council had authority under contract to bind constituent locals to terms of subsequent mid-term contract modification agreement held not determinative since, whether or not council had *authority* to reach agreement binding locals, it did not *intend* to do so w/o locals' consent and, consequently, ALJ did not have to decide whether council had binding authority]

Baddour, Inc. 281 NLRB No. 004
[Bd found unlawfully coercive only that pre-election speech statement by E's president that was alleged to be unlawful in C where ALJ found several of E's president's pre-election speech statements unlawful but failed to specify which ones]

Governor's Foods Corporation d/b/a Food Park 277 NLRB No. 041
(Bd remanded case to ALJ for supplemental decision where ALJ failed to make any specific factual findings or credibility resolutions regarding alleged unlawful refusal to hire specific named discriminatees, and absent unlawful motivation, that alleged discriminatees would have been hired. Such decision inconsistent with R/R 102.45 and Sec. 557 of APA which requires decision to contain findings of fact, conclusions, and reasons therefor)

Pottsville Bleaching and Dyeing Company 275 NLRB No. 175

Sentry Armored Courier Corporation 275 NLRB No. 014
(notwithstanding specification included backpay for 8(a)(4) violation that ALJ who heard underlying ULP case held in abeyance pending decision of Ee's other E (worked 2 jobs) as to whether he violated that E's rules by abusing sick leave, which abuse brought to E's attention by Respondent in retaliation for Ee filing charges, and which later resulted in suspension for which backpay alleged in specification; no outstanding order finding this 8(a)(4) violation and ALJ at backpay hearing precluded from making findings of fact and conclusions of law, issuing order and awarding backpay for alleged violation. Case remanded to original ALJ for this)

8075 VARIANCE BETWEEN FINDINGS AND COMPLAINT

Luther Manor Nursing Home 277 NLRB No. 007
(where ALJ found E violated 8(a)(3), as well as 8(a)(5), by refusing to execute written contract, Bd amended conclusions of law and recommended order by deleting reference to 8(a)(3) where GC had not alleged that E committed 8(a)(3) violation by such conduct)

Road Sprinkler Fitters Local Union No. 669 a/w Plumbers v. N.L.R.B. 778 F.2d 292 (C.A. D.C., Dec. 1985)
[Bd improperly expanded U's backpay liability for unlawfully causing E to refuse to hire sister local's members by including in backpay remedy another E whose responsibility for failure to hire was not charged, and neither C nor course of hearing put U on notice that such issue would be raised]

8075-5000 Findings on issues fully litigated

Richmond Recording Corporation d/b/a PRC Recording Company 280 NLRB No. 077
[ALJ refused to rule on issue of overall bad faith bargaining since GC declined to amend C notwithstanding possibility that evidence may appear in record to support allegation]

Service Merchandise Company, Inc. 278 NLRB No. 023

8075-5000—Cont.

unlawful where issue fully litigated and ALJ held subcontracting was also unlawfully motivated]

American Stores Packing Company, A Division of Acme Markets, Inc. 277 NLRB No. 190

[contrary to ALJ who found subcontracting theory had never been alleged, and therefore struck any reference to it in parties' briefs, Bd considered parties' subcontracting arguments where, although C may have been poorly drafted, pleadings raised such issue and it was fully litigated]

Consolidation Coal Company, Burning Star No. 4 & No. 5 277 NLRB No. 060

(E allowed to assert Sec. 10(b) defense to ULP charges, notwithstanding such defense was neither affirmatively pleaded in E's answer to C nor expressly asserted as defense at hearing but first set forth in E's brief, since it was litigated *sub silentio* where C anticipated it by referring to lack of notice to charging party, there was no objection to E's cross examination of GC's witnesses in effort to establish such defense, and GC's brief showed that such defense was viable by stating that E was expected to argue it and making legal argument thereon)

Spring Valley Farms, Inc. JD-(ATL)-54-86

[ALJ not precluded from finding that agreement reached by parties, prior to date alleged in C, or by fact Counsel for GC argued no other date prior to final argument, since facts surrounding U's earlier acceptance were fully litigated, and were argued by parties in briefs; further, Respondent made no mtn to reopen its defense when GC argued alternative date agreement reached]

Medallion Kitchens, Inc. v. N.L.R.B. 806 F.2d 185 (C.A. 8, Nov. 1986)

[mtn to strike GC's brief and to reopen record on basis that Respondent E not given notice that permanent status of strike replacements in issue, denied, where violation alleged was that E failed to reinstate economic strikers, since status of Ees who replaced economic strikers need not be pleaded by GC inasmuch as permanent status of replacements affirmative defense to be raised by E]

George C. Foss Company v. N.L.R.B. 752 F.2d 1407 (C.A. 9, Jan. 1985)

(where C charged that Ees were discharged because they were members of one U and ALJ found they were discharged before end of grace period because they were *not* members of second U, E was not guilty of ULP that was not charged in C because differences largely semantical, charge need not be technically precise as long as it generally informs party charged nature of alleged violations, and moreover, issue fully and fairly litigated)

8075-7500 Findings on issues not fully litigated

Waldon, Incorporated 282 NLRB No. 082

[C did not allege preimpasse unilateral change violation and impasse issue not raised at hearing; therefore, no violation can be found on issue that E unilaterally implemented new wage scale before reaching impasse. Allegation flows from GC's theory that wage reduction resulted from E's refusal to honor contract which Bd found invalid]

Middletown Hospital Association 282 NLRB No. 079

[finding supervisor's statements to Ees unawful held not warranted where there were no allegations that such unlawful statements were made; evidence that statements were made came about incidentally in testimony of Ees, and E lacked notice of any contention that statements were unlawful; consequently, issues were not litigated; moreover, allegations of other unlawful conduct were not so closely related to statements in question that they did not need to be separately alleged]

Wayside Realty Group, Inc. and Georgetown Hotel 281 NLRB No. 045

[whether Ee was unlawfully interrogated as found by ALJ held not fully and fairly litigated at hearing, where ALJ denied GC's mtn to amend C to include such allegation, E did not examine Ee or any other Ee on issue, neither GC nor E briefed issue to ALJ, and GC, in its brief in opposition to E's exceptions, did not dispute E's contention that issue was not fully litigated]

Best Western Motor Inn 281 NLRB No. 026

[question of E's unlawfully asking supervisors to interrogate Ees about their U activities not fully and fairly tried where C only alleged unlawful request that they surveil and gather information about Ees' U activities]

Woodline Motor Freight, Inc. 278 NLRB No. 152

[discriminatee entitled to R/O notwithstanding GC did not seek reinstatement of discriminatee in C or at hearing, where consolidated C alleges that respondent *closed facility and terminated its Ees working there.* This allegation broad enought to encompass discriminatee since where there is discrimination against class of Ees, GC is not required to name every discriminatee at this stage of the proceeding. Respondent's contention may be addressed at compliance stage]

Texas Bus Lines, Inc. 277 NLRB No. 075

(issue that was neither alleged in C nor w/i scope of charges but raised first time in GC's brief not considered by ALJ)

United Artists Theatre Circuit, Inc. 277 NLRB No. 093

(GC's mtn to amend Cs denied where issues and evidence relevant to proposed amendments were not fully litigated, mtn was late, and issues were raised for first time in GC's post hearing brief to which E was not entitled to reply)

McLean Roofing Company 276 NLRB No. 093

(E's challenge to ballot of Ee not employed on eligibility date upheld where there was no C allegation that Ee was unlawfully denied employment, nor was issue litigated as ULP at hearing)

8075-8700 Findings on theory of case not advanced by General Counsel

Waldon, Incorporated 282 NLRB No. 082

[C did not allege preimpasse unilateral change violation and impasse issue not raised at hearing; therefore, no violation can be found on issue that E unilaterally implemented new wage scale before reaching impasse. Allegation flows from GC's theory that wage reduction resulted from E's refusal to honor contract which Bd found invalid]

Chelsea Laboratories, Inc. 282 NLRB No. 074

[complaint allegation that Ee was discharged for protesting E's grant of wage increase while election objection was pending found sufficient to encompass Ee's protest over E's apparent decision to renege on promise to engage in dialogue before deciding whether to recognize U, where C put E on notice that case focussed on announcement of wage increase and subsequent conversation, E would not have altered its conduct of case, and its brief addressed law and sufficiency of facts about protesting breach of promise]

Local 441, International Union of Electrical, Radio & Machine Workers, AFL-CIO (Phelps Dodge Copper Products Company, a Division of Phelps Dodge Industries, Inc.) 281 NLRB No. 137

[regardless of failure of GC to use correct litigation theory and follow Bd law at time of hearing, ALJ should have applied the existing Bd law in his decision]

Government Employees (Office Employees, Local No. 2) 278 NLRB No. 088

[Bd overruled ALJ finding that E unlawfully withheld annual leave from all striking Ees, and instead found violation in withholding of *scheduled* leave, where RD had dismissed charge as to unscheduled leave and complaint had alleged discriminatory denial of scheduled leave only]

Greg Construction Co. 277 NLRB No. 163

(Bd refused to find that Ee discharges were violative of Sec. 8(a)(5) based on E's refusal to pay contractual wage rates, notwithstanding that was found to be real reason for discharges, where C alleged discharges were due to U's demand that E discharge Ees because they were not U members, and E might have changed its answer if C had alleged different reasons for discharges)

Workroom For Designers, Inc. and Sidney H. Simoiman, an Individual 274 NLRB No. 115

(GC's exceptions to ALJ's failure to find that respondents had unlawfully denied work opportunities to reinstated strikers by subcontracting work that they could perform after they were reinstated, overruled, since complaint stating that at various times E had failed to offer work to various Ees and had laid them off did not allege subcontracting)

(Bd refused to make finding that E's employment policies were unlawful where they were not alleged as violation in C or urged at hearing and, therefore, not fully litigated)

N.L.R.B. v. General Tire and Rubber Company 795 F.2d 585 (C.A. 6, July 1986)

[E's unilateral discontinuance of benefits, unlawful, notwithstanding E's contention that U waived its right to bargain over benefits by failing to demand bargaining on issue following E's announcement of its intent to terminate benefits, where E did not raise waiver issue until it moved for reconsideration by Bd, which Bd properly denied since E improperly attempted to rely on new theory and on asserted facts not in stipulation entered into by parties]

8860-8700 Findings of cumulative violations not necessary where order on those found would provide adequate remedy for others alleged

Yashan of California, Inc. 280 NLRB No. 032

[Bd found it unnecessary to pass on allegation of unlawful interrogation because finding of additional interrogation stemming from same incident would be cumulative, since ALJ found other unlawful interrogations, and any additional finding would not affect remedy]

Radio Electric Service Company 278 NLRB No. 078

[in finding that E's unilateral discontinuance of Christmas bonus violated 8(a)(5), Bd deemed it unnecessary to determine whether failure to pay bonus also violated 8(a)(3) because such finding would not affect remedy herein]

Gentzler Tool & Die Corp. 275 NLRB No. 124

(notwithstanding Bd has pending ptn for enforcement of its Order requiring execution of contract, retroactive application of contract and that E c/d from dealing directly with Ees, Bd issued another D/O arising from subsequent C finding E violations for refusal to bargain and withdrawal of recognition which are different violations than those found in first decision, and therefore, Order in first decision would not remedy those violations found in second decision; hence, need for another Order)

8860-9100 Variance between findings and complaint

8860-9101 Generally

Lone Star Industries, Inc. 279 NLRB No. 078

[no universal theory that E *must* follow seniority in recall of economic strikers. GC must establish existence of seniority recall rights by reference to collective-bargaining agreement or binding established past practice. However, even assuming either of above conditions proved, there must be alleged Sec. 8(a)(5) charge; otherwise, E free to devise new recall procedure as long as it is applied consistently. Here, all 8(a)(5) charges (unilateral changes) withdrawn; therefore, E did not violate Sec. 8(a)(3) by failing to recall strikers by seniority]

8860-9150 Findings on issues fully litigated

Central Broadcast Company 280 NLRB No. 056

[E's failure to object to introduction of its letter and copy of its president's speech, which it had supplied to GC, found to constitute waiver of formal notice in C where letter and speech were not alleged as violative in C but were fully litigated]

Brookhurst Professional Building, Inc., Number Three d/b/a Browning Manor Convalescent Hospital 279 NLRB No. 172

[GC's post hearing contention that Respondent falsely advised striking Ees of their permanent replacement, not encompassed by amended C alleging that E discharged striking Ees, and issue not properly before Bd, since issue not fully litigated where no contention made at hearing that E discharged strikers by informing them of their permanent replacement, nor was evidence that E falsely informed strikers of their permanent replacement introduced]

American Stores Packing Company, A Division of Acme Markets, Inc. 277 NLRB No. 190

[contrary to ALJ who found subcontracting theory had never been alleged, and therefore struck any reference to it in parties' briefs, Bd considered parties' subcontracting arguments where, although C may have been poorly drafted, pleadings raised such issue and it was fully litigated]

Maintenance Service Corporation 275 NLRB No. 198

(Bd may not make findings or order remedies on violations not charged in GC's C or litigated in subsequent hearing. Bd may, however, decide material issue fairly tried by parties regardless of whether it was specifically pleaded)

8860-9175 Findings on issues not fully litigated

Union Boiler Company 281 NLRB No. 148

[Bd did not adopt ALJ's implied finding that E's unlawful lockout of Ees also violated 8(a)(3) since C involved solely allegations of 8(a)(1) and (5) and GC did not allege such violation]

Baker Mine Services, Inc., d/b/a Coppinger Machinery Service, Inc. 279 NLRB No. 085

[Bd held no unlawful E domination in formation of and administration of Ee committee, or unlawful execution of bargaining agreement with committee, since those allegations not properly before Bd where (1) not raised in complaint (2) not put in issue at hearing and (3) GC and ALJ effectively assured Respondent that establishment of committee was not to be litigated]

Rockwood & Company and W. H. Gonyea Trust No. 1--17 d/b/a Timber Products Co. 277 NLRB No. 078

(Es to make whole economic strikers only for losses resulting from E's unlawfully conditioning reinstatement on their resigning from U where such conditioning was only issue involving strikers' backpay that was alleged in C and litigated)

Millwright and Machinery Erectors, Local Union 720, Carpenters (UMC of Louisiana, Inc.) 276 NLRB No. 010

(U's filing of internal charges against Ees for violating U's job referral policy, not unlawful, in view of C allegations referring to named Ee other than Ees herein; absence of amendment to C incorporating alleged violation as to them; failure to allege in general way that U unlawfully filed charges against individuals other than named Ee; absence of statement by GC at hearing that charges against Ees herein violated Act; and GC's objection to introduction of evidence that such charges had been filed)

Maintenance Service Corporation 275 NLRB No. 198

(Bd may not make findings or order remedies on violations not charged in GC's C or litigated in subsequent hearing. Bd may, however, decide material issue fairly tried by parties regardless of whether it was specifically pleaded)

Laidlaw Waste Systems of Michigan, Inc. 275 NLRB No. 150

(GC's exceptions to ALJ's failure to find that U-security clause was invalid, unlawfully enforced and could not be relied on to deny laid off Ee his right to recall because the contract was not then in effect as to him, denied where complaint did not contain these allegations, and they were not fully litigated as violations; the first two allegations were merely asserted in GC's opening statement w/o any indication that finding of violations based on the U-security clause itself was sought, and the third allegation was first raised in GC's post-hearing brief)

Local 594, Auto Workers v. N.L.R.B. 776 F.2d 1310 (C.A. 6, Nov. 1985)

[U waived defense that discriminatees failed to exhaust internal U remedies where U failed to raise issue before ALJ and addressed issue for first time in its post-hearing briefs to ALJ]

N.L.R.B. v. Jack E. Hartman, a Sole Proprietorship, d/b/a Dependable Tile Company 774 F.2d 1376 (C.A. 9, Oct. 1985)

[ct declined to consider allegation of unlawful refusal by E to sign contract where not alleged as violation in complaint and raised for first time on appeal. Complaint only alleged E failed to abide by contract]

8860-9175—Cont.

Iron Workers, Local No. 111 v. N.L.R.B. 792 F.2d 241 (C.A. D.C., June 1986)

[Bd improperly found that U's *indirect coercion* of E through pressure on travelers to quit work so that U's members could replace them violated 8(b)(2), since such separate violation was neither included in C nor litigated by parties; while C specified with great precision conduct alleged to violate 8(b)(2), it made no mention of U's behavior toward travelers or of indirect effect of such behavior on E]

8880 ORDERS (See also 600 REMEDIAL ORDERS)

8890-5000 Consistency between order and decision required

Rockwood & Company and W. H. Gonyea Trust No. 1--17 d/b/a Timber Products Co. 277 NLRB No. 078

(Es to make whole economic strikers only for losses resulting from E's unlawfully coaditioning reinstatement on their resigning from U where such conditioning was only issue involving strikers' backpay that was alleged in C and litigated)

8890-8700 Effect of change of policy

Consumers Distributing Company, Limited d/b/a Consumers Distributing 276 NLRB No. 050

(Bd upheld ALJ's granting of GC's posthearing mtn for permission to withdraw C, since mtn was legitimate exercise of GC's prosecutorial authority under Sec. 3(d) to determine, even after close of hearing, that *legal underpinnings* of C no longer existed as result of recent Bd decisions; therefore, treating charging party's request for review and exception as interim appeal of ruling of ALJ under R/R Sec. 102.26, Bd denied appeal because it found that ALJ did not act arbitrarily or capriciously or otherwise abuse his discretion in granting GC's mtn)

Edward Cooper Painting, and Cooper and Cooper Painting, An Alter Ego 273 NLRB No. 224

(Bankruptcy amendments and Federal Judgeship Act of 1984, enacted by Congress on 10 July 1984, does not apply to cases in which bankruptcy ptn was filed prior to its enactment)

8890-8733 Decision effective only to future cases

National Council of Young Israel d/b/a Shalom Nursing Home 276 NLRB No. 118

(under *Telautograph*, 199 NLRB 892, the law at time Judge's decision issued (since overruled by *Dresser Industries*, 264 NLRB 1088 but Bd refrained from giving its new rule retroactive effect) E did not unlawfully refuse to bargain or unlawfully withdraw recognition when it ceased negotiating with U after decertification ptn filed)

9000 COSTS AND FEES

Electrical Workers, Local 453 (Sachs Electric Co.) 277 NLRB No. 122

(charging party's mtn for allowance of legal fees to be paid to himself as an attorney, from funds created for discriminatees which included himself, denied, since Bd's clients are the discriminatees and it is not w/i Bd's province to enforce an agreement to pay backpay which also relates to the payment of legal fees for discriminatees)

9100 AWARDS OF ATTORNEY FEES AND OTHER EXPENSES UNDER EQUAL ACCESS TO JUSTICE ACT

Bardcor Corp. 276 NLRB No. 127

(Bd deemed that Congress, in revising EAJA, did not alter but merely clarified the definition of *substantially justified* which means more than *mere reasonableness*, citing legislative history)

9101 GENERALLY

Thomas Steel Company 281 NLRB No. 060

[E's request for award of attorney's fees and costs *in responding to the General Counsel's bad faith exceptions* in ULP case, denied, since such claim can only be filed under EAJA]

9106 LEGISLATIVE HISTORY

Shrewsbury Motors, Inc. 281 NLRB No. 081

[applicant held prevailing party to refusal to bargain allegation in C when RD issued amended C withdrawing that allegation, and was prevailing party to allegations in amended C when RD withdrew amended C *as legislative history of EAJA makes clear, Congress did not intend to limit its application to those cases in which applicant receives favorable decision after hearing*]

Shrewsbury Motors, Inc. 281 NLRB No. 081

[legislative history reveals that in ULP cases which did not make it to hearing to determine whether government's position substantially justified, ct or adjudicative officer will look at record which will consist of pleadings, affidavits and supporting documents filed by parties in both for producing and case on merits. Thus substantial justification determination will not involve additional evidentiary proceedings or discovery of agency files, solely for EAJA purposes]

Shrewsbury Motors, Inc. 281 NLRB No. 081

[while Congress intended to bar discovery in EAJA proceedings, it did not intend that agency be permitted to shield entirely facts or basis for its action. Agency must produce sufficient material from its files to meet burden of showing substantial justification. If GC decides to file nothing or little, Bd may decide GC's burden has not been met]

Allied Lettercraft Co., Inc. 280 NLRB No. 092

[Congress in revising EAJA did not alter, but merely clarified, definition of *substantially justified* as meaning more than *mere reasonableness*]

University of New Haven 279 NLRB No. 043

[*substantially justified*, means more than *mere reasonableness*, but does not require showing that decision to litigate was based on a *substantial probability of prevailing*, and GC's failure to win does not raise presumption that position not substantially justified.]

Bennington Iron Works, Inc. 278 NLRB No. 159

[since legislative history, discussing defense of substantial justification, stated that *where Government can show that its case had a reasonable basis in law and fact, no award will be made*, Bd did not adopt ALJ's statement that *where there is a showing that the government's case had a reasonable basis in law or* fact, no award will be made]

Bennington Iron Works, Inc. 278 NLRB No. 159

[Bd deemed that definition of *substantially justified* was not altered, but merely clarified, when Congress amended EAJA; as stated in conference report accompanying amendments *substantially justified* means *more than mere reasonableness*]

R & K Caterers, Inc. 277 NLRB No. 082

(Congress, in amending EAJA, did not alter, but merely clarified, definition of *substantially justified* which means more than *mere reasonableness* H.R. Rep. 99--120 at 9)

Best Bread Company, Inc. 276 NLRB No. 145

(in 1985 amendments to EAJA Congress did not alter, but merely clarified definition of *substantially justified*, which means more than *mere reasonableness*)

Sheet Metal Workers, Local Union No. 162 (Enterprise Mechanical, Inc.) JD-(SF)-024-86

[local U applicant, not required to aggregate assets or Ees with those of International U, where local U filed separate LMRDA report with Department of Labor and House Report of EAJA Amendments states clearly it is Committee's intent that local U be considered separate entity for EAJA if it is separate entity under LMRDA; thus, local U was eligible for fees under EAJA]

9112 COVERED PROCEEDINGS

9112-4000 Unfair labor practice proceeding in which complaint issues

Shrewsbury Motors, Inc. 281 NLRB No. 081

[applicant held prevailing party to refusal to bargain allegation in C when RD issued amended C withdrawing that allegation, and was prevailing party to allegations in amended C when RD withdrew amended C *as legislative history of EAJA makes clear, Congress did not intend to limit its application to those cases in which applicant receives favorable decision after hearing*]

9112-4050 Underlying representation proceeding

Sonicraft, Inc. 281 NLRB No. 090

[ptn involving 8(a)(5) C not dismissed, notwithstanding GC's contention that fees and costs are not recoverable in R case proceeding, which is not adversary proceeding and thus not covered by EAJA, since action of Bd in issuing certification provided basis for GC's presecution of refusal to bargain C]

Sonicraft, Inc. 281 NLRB No. 090

[Bd's overruling of objections w/o hearing and certification of U substantially justified, notwithstanding U's use of releaser w/o notice to or agreement by E and imbalance of U observers at the polls in violation of stipulation for certification where E offered no specific evidence of U's use of releaser, and Bd's overruling objection to imbalance in observors was based on existing precedent]

K and I Transfer & Storage Inc. and City Cartage and Moving, Inc. 277 NLRB No. 113

(fees and expenses incurred in representation cares are not covered by EAJA or under Section 102.143 of Bd's R/R)

9118 ELIGIBILITY FOR AN AWARD

9118-2500 Prevailing party

Shrewsbury Motors, Inc. 281 NLRB No. 081

[applicant held prevailing party to refusal to bargain allegation in C when RD issued amended C withdrawing that allegation, and was prevailing party to allegations in amended C when RD withdrew amended C *as legislative history of EAJA makes clear, Congress did not intend to limit its application to those cases in which applicant receives favorable decision after hearing*]

9118-2500—Cont.

Grandon Health Care Center, Inc. 280 NLRB No. 028
[respondent was prevailing party where GC withdrew complaint subsequent to hearing and before any briefs were filed]

R. C. Siebert, Inc. 277 NLRB No. 072
(applicant was not prevailing party where, in settlement agreement, GC agreed to withdraw C and applicant agreed to post a notice consistent with withdrawn allegations of C)

Ronnie McCoy, d/b/a Metro East Cab Company JD-84-85
(GC *substantially justified* in issuing C against cab company alleging drivers were Ees rather than independent contractors and thus E had duty to bargain, where state of law at time C issued supported GC's finding, during investigation, that cab drivers did not possess indicia of independent contractor status; further, applicant was not *prevailing party* since U withdrew charge after E began some collective bargaining with it which was the substance of the charge in the first instance)

Eldridge Truck Line, Inc. JD-400-83
(application dismissed where applicant failed to set forth in application the number of Ees employed by applicant and did not set forth any particulars or assertion that applicant was *prevailing party* or that GC was not *substantially justified* in issuing C)

9118-2550 Significant discrete substantive portion of covered proceeding

Local Union No. 277, Painters (Polis Wallcovering Co., etc.) 281 NLRB No. 119
[applicant did not prevail in *significant and discrete substantive portion* of ULP proceeding involving allegations of 8(b)(1)(A) and 8(b)(2) where applicant succeeded in having 8(b)(2) portion dismissed; GC was successful in alleging U violated 8(b)(1)(A) by operating hiring hall on non-objective basis and 8(b)(2) allegation was simply derivative basis of violation]

R. C. Siebert, Inc. 277 NLRB No. 072
(applicant did not prevail on discrete substantive portion of proceeding by GC withdrawing 1 allegation of C where withdrawn allegation was *closely related* to other allegations and applicant, in its statement of services, made no entries related specifically to allegation which was withdrawn)

Continental Web Press, Inc. v. N.L.R.B. 767 F.2d 321 (C.A. 7, July 1985)
(E is prevailing party notwithstanding ct remanded case back to Bd because ct said that another bargaining order could not be entered so that even if Bd on remand entered c/d order or ordered another election. E would have won substantial part of what he sought; namely, no bargaining order)

Stanley Spencer, et al. v. N.L.R.B. 548 F.Supp. 256 (DC D.C., July 1985)
(where position of U.S. was *substantially justified* no award for attorney fees will be made under EAJA. Test of whether Government action is substantially justified is one of reasonableness both in law and fact. Burden of proof is on Government to show *substantial justification* but does not raise presumption that Government position was not substantially justified simply because it lost the case)

9118-7500 Financial eligibility

9118-7501 Generally

Amer-Cal Industries, Inc. JD-(SF)-166-85
(application dismissed where applicant failed to comply with ALJ's order to submit net worth statements of its subsidiaries)

9118-7548 Sole owner of unincorporated business whose personal and business interest does not exceed $7 million, and no more than 500 employees

Continental Web Press, Inc. v. N.L.R.B. 767 F.2d 321 (C.A. 7, July 1985)
(while Congress did not define term *net worth* ct applied generally accepted accounting principles and used *depreciated* net assets as basis for figuring net worth and not cost of assets)

9118-7596 Any other partnership, corporation, association, or public or private organization with net worth exceeding $7 million and no more than 500 employees

Evergreen Lumber Company, Inc. 278 NLRB No. 099
[EAJA and Bd's R/R fail to define term net worth for determining eligibility for award and legislative history provides virtually no clues to congressional intent. Congressional committee reports define net worth as total assets less total liabilities. But there are numerous ways of measuring assets and liabilities. Only guidance provided by legislative history as to appropriate accounting method to measure net worth is on subject of valuation of assets. Committee reports state that in determining value of assets, cost of acquisition rather than fair market value should be used]

Evergreen Lumber Company, Inc. 278 NLRB No. 099
[applicant met EAJA's net worth eligibility requirement where, under peculiar circumstances of case, Bd treated preferred stock issued by applicant to finance purchase of operating assets of predecessor as liability, and not as stockholders' equity]

Sheet Metal Workers, Local Union No. 162 (Enterprise Mechanical, Inc.) JD-(SF)-024-86
[local U applicant, not required to aggregate assets or Ees with those of International U, where local U filed separate LMRDA report with Department of Labor and House Report of EAJA Amendments states clearly it is Committee's intent that local U be considered separate entity for EAJA if it is separate entity under LMRDA; thus, local U was eligible for fees under EAJA]

Northwest Area Agency On Aging, Inc. JD-(NY)-53-85
(application dismissed since applicant was state governmental agency and thus was not w/i class of parties entitled to reimbursement for fees and expenses under EAJA)

Harry Sann, Jr., and Winton R. Wagner, Partners, d/b/a Briarcliff Pavilion For Specialized Care JD-490-84
(application dismissed, where applicant, a partnership of two individuals, failed to state the personal financial interests of both partners, the nature and net worth of its affiliate and did not verify its application for fees and expenses)

9130 APPLICATION FOR AWARD

9130-0100 Generally

Lord Jim's v. N.L.R.B. 772 F.2d 1446 (C.A. 9, Oct. 1985)
[E's contention that an application should be deemed *submitted* when mailed rather than when received, as required by Bd's R/R's, rejected]

9130-2000 Timeliness

R. C. Siebert, Inc. 277 NLRB No. 072
(application held timely filed from date ALJ issued final order closing the hearing and dismissing C rather than earlier date ALJ adjourned hearing *sine die* pending compliance with settlement agreement)

9130-2001 Generally

Lord Jim's v. N.L.R.B. 772 F.2d 1446 (C.A. 9, Oct. 1985)
[the 30-day period in which to file an application is jurisdictional and the NLRB has no authority to act on applications filed beyond this period]

9130-2050 Extension of time for filing

Lord Jim's v. N.L.R.B. 772 F.2d 1446 (C.A. 9, Oct. 1985)
[E's contention that Bd's failure to notify it more promptly of final disposition denied it due process and that 30-day filing period should not begin to run until an applicant has *actual notice* of the disposition, rejected, since to do so would expand 30-day filing requirement, held herein to be jurisdictional, and failure of Bd to notify parties of disposition on date of entry does not *per se* violate due process]

9130-4000 Place for filing

Lord Jim's v. N.L.R.B. 772 F.2d 1446 (C.A. 9, Oct. 1985)
[E's contention that Bd's requirement that EAJA application be received in Washington, D.C. rather than in regional offices violates due process by preventing equal access to statutory rights, rejected, since Congress permitted each Agency to establish procedures consistent with its organization and Bd's R/R's are consistent with existing Bd procedures]

9130-6000 Net worth exhibit, statement of charges and other supporting documents

Evergreen Lumber Company, Inc. 278 NLRB No. 099
[application held not deficient because financial statements submitted do not show net worth of Applicant as of date C issued, as Applicant furnished only audited financial statements which were available at time it was required to file its application, and thereafter supplemented these records with unaudited financial records for period immediately proceeding issuance of C]

Amer-Cal Industries, Inc. JD-(SF)-166-85
(application dismissed where applicant failed to comply with ALJ's order to submit net worth statements of its subsidiaries)

Eldridge Truck Line, Inc. JD-400-83
(application dismissed where applicant failed to set forth in application the number of Ees employed by applicant and did not set forth any particulars or assertion that applicant was *prevailing party* or that GC was not *substantially justified* in issuing C)

9136 ANSWER

9136-2000 Timeliness

Forest Grove Lumber Company **277 NLRB No. 167**
[date on letter enclosing EAJA application is not proof of service to start 30 day limitation for filing answer by GC]

9136-2580 Motion to dismiss

Central Motor Express, Inc. **276 NLRB No. 135**
(filing of mtn to dismiss application shall stay time for filing answer to date 30 days after issuance of any order denying mtn)

9136-7500 Specificity of facts

Shrewsbury Motors, Inc. **281 NLRB No. 081**
[GC failed to meet burden of showing position substantially justified where contended issue should be decided solely on pleadings in underlying case, and failed to submit any affidavits or supporting documents from underlying case; nor did GC's answer to application for fees and expenses reveal basis of GC's position as to issuance of C alleging successor E's failure to bargain with 1 of 2 units or with applicant's arguments regarding successor's obligations, but was bald summary of contentions accompanied by overly broad citations, nor was question of why C issued when few months later RD considered further proceedings unwarranted answered]

9154 DEFENSES

9154-0100 Generally

Bardcor Corp. **276 NLRB No. 127**
(Bd deemed that Congress, in revising EAJA, did not alter but merely clarified the definition of *substantially justified* which means more than *mere reasonableness*, citing legislative history)

9154-3300 General Counsel's position substantially justified

Local Union No. 277, Painters (Polis Wallcovering Co., etc.) **281 NLRB No. 119**
[GC *substantially justified* is issuing C alleging U violated 8(b)(1)(A) and 8(b)(2) by operating hiring hall on non-objective basis and failing to refer Ee where GC made strong prima facie case by showing animus and discriminatory treatment and ALJ in fact found U violated Act in regard to referral of another Ee]

Local Union No. 277, Painters (Polis Wallcovering Co., etc.) **281 NLRB No. 119**
[presence or absence of a prima facie case is not determinative of whether or not an applicant is entitled to an EAJA award]

National Fire Protection, Inc. and Mutual Sprinkler Contractors and Engineers, Inc. **281 NLRB No. 100**
[C alleging that E violated 8(a)(5) by abrogating alter ego E's contract with U substantially justified, notwithstanding that C was dismissed as time-barred, where determination of whether 10(b) applies in such cases is difficult, hazy, and turns on analysis of many facts and was based here on analysis of Bd's position in like cases and many facts adduced at hearing]

Sonicraft, Inc. **281 NLRB No. 090**
[Bd's overruling of objections w/o hearing and certification of U substantially justified, notwithstanding U's use of releaser w/o notice to or agreement by E and imbalance of U observers at the polls in violation of stipulation for certification where E offered no specific evidence of U's use of releaser, and Bd's overruling objection to imbalance in observors was based on existing precedent]

Shrewsbury Motors, Inc. **281 NLRB No. 081**
[legislative history reveals that in ULP cases which did not make it to hearing to determine whether government's position substantially justified, ct or adjudicative officer will look at record which will consist of pleadings, affidavits and supporting documents filed by parties in both fee producing and case on merits. [while Congress intended to bar discovery in EAJA proceedings, it did not intend that agency be permitted to shield entirely facts or basis for its action. Agency must produce sufficient material from its files to meet burden of showing substantial justification. If GC decides to file nothing or little, Bd may decide GC's burden has not been met]

[GC failed to meet burden of showing position substantially justified where contended issue should be decided solely on pleadings in underlying case, and failed to submit any affidavits or supporting documents from underlying case; nor did GC's answer to application for fees and expenses reveal basis of GC's position as to issuance of C alleging successor E's failure to bargain with 1 of 2 units or with applicant's arguments regarding successor's obligations, but was bald summary of contentions accompanied by overly broad citations, nor was question of why C issued when few months later RD considered further proceedings unwarranted answered]

Shrewsbury Motors, Inc. **281 NLRB No. 081**
[which Congress precluded discovery in EAJA cases, it left to GC to decide whether and how much to provide from investigative files by way of affidavits and supporting documents in support of claim of substantial justification. It may be in appropriate case rather than furnishing investigatory affidavits, GC may furnish affidavits of agents prepared for EAJA proceedings describing facts developed during investigation w/o disclosing identity of witnesses or revealing other information deemed sensitive or confidential]

Supershade Corporation **280 NLRB No. 131**
[GC's position substantially justified and award of fees denied, when GC presented evidence, which if credited, established prima facie case, notwithstanding applicant's contention that GC should have made own credibility resolution adverse to Charging Party and dismissed charge, particularly where she was not fluent in English, and unemployment compensation commission decision held she had quit rather than was discharged, since *credibility issues presented were not of such patent clarity as to be readily susceptible of resolution w/o resort to crucible of evidentiary hearing*]

Allied Lettercraft Co., Inc. **280 NLRB No. 092**
[GC substantially justified in issuing C alleging unlawful discharge, where GC had prepared to proceed on alternate theory of disparate treatment of Ee for such misconduct and withdrew C not only because Ee's testimony was found incredible but also because witness on whose testimony alternate theory was based had not been located and was not available to testify]

Allied Lettercraft Co., Inc. **280 NLRB No. 092**
[GC substantially justified in issuing C for E's refusal to recognize and bargain with U designated representative of majority of unit Ees and engaging in ULPs precluding fair election, notwithstanding inability to show majority designation at hearing, where she withdrew C on finding at hearing that dischargee's card should not be counted, because discharge was for cause, and cards of four of five Ees she had reasonably believed in fact and law should be excluded from unit were not excluded due to testimony at hearing and incredibility and unavailability of witnesses on whose testimony GC had relied]

Grandon Health Care Center, Inc. **280 NLRB No. 028**
[GC not reasonably justified in issuing complaint alleging failure to bargain in good faith on basis of long, repetitive and fruitless collective bargaining sessions]

Country Epicure, Inc. **279 NLRB No. 104**
[award of fees denied since GC substantially justified in believing circumstantial evidence could justify inference that applicant knew about discriminatee's U activities in view of timing 3 weeks after E became aware of U organizing drive, and disparate treatment of discriminatee]

University of New Haven **279 NLRB No. 043**
[*substantially justified*, means more than *mere reasonableness*, but does not require showing that decision to litigate was based on a *substantial probability of prevailing*, and GC's failure to win does not raise presumption that position not substantially justified.]

University of New Haven **279 NLRB No. 043**
[C alleging unlawful withdrawal of recognition from certified representative of fulltime university faculty *substantially justified* in fact and law, notwithstanding Bd finding that they were not Ees based on authority to effectively recommend management policy as to promotion, sabbatical leave, and hiring, where there were areas they did not effectively control, nonmanagerial factors such as hierarchical decision-making network and collective bargaining history, and credibility determinations which, if decided otherwise, might have affected outcome of case; moreover, GC was faced with unsettled case law and few guidelines]

Ponco, Inc. **278 NLRB No. 158**
[application for EAJA award dismissed where GC was *substantially justified* in deciding to litigate Ee's discharge, since whether GC's circumstantial evidence would warrant inference that Applicant knew of Ee's U activity when Ee was discharged is *close question* for trier of fact (ALJ) who dismissed application of E who terminated Ee for Ee's first misfabrication error]

Bunnington Iron Works, Inc. **278 NLRB No. 159**
[since legislative history, discussing defense of substantial justification, stated that *where Government can show that its case had a reasonable basis in law and fact, no award will be made*, Bd did not adopt ALJ's statement that *where there is a showing that the government's case had a reasonable basis in law or* fact, no award will be made]

Bunnington Iron Works, Inc. **278 NLRB No. 159**
[Bd deemed that definition of *substantially justified* was not altered, but merely clarified, when Congress amended EAJA; as stated in conference

report accompanying amendments *substantially justified* means *more than mere reasonableness*]

Bennington Iron Works, Inc. **278 NLRB No. 159**
[test for *substantially justified* under EAJA Sec. 504(a)(1) is one of reasonableness, and where there is a showing that government's case had reasonable basis in law and fact, no award will be made; moreover, no adverse inferences are to be drawn from fact that government did not prevail, nor is fact that Bd and ALJ disagreed sufficient to negate substantial justification]

Bennington Iron Works, Inc. **278 NLRB No. 159**
[application for award dismissed since GC's position was substantially justified, where GC's theory of case was clear, consistent, and based on long established and clear governing law, which GC expeditiously pursued during brief 2-day trial, which was not complex]

Bennington Iron Works, Inc. **278 NLRB No. 159**
[application for award dismissed since GC's position was substantially justified, where GC was not in position to resolve credibility issues, as was ALJ who heard and observed witnesses; and where credibility issues are important to determination of whether to proceed to litigation, GC has little choice but to issue C and, absent settlement, advance to trial; likewise where, as here, more than one set of inferences may be drawn from circumstances, GC has no sure method of evaluating what trier of fact may find or what appellate tribunal may conclude]

Bennington Iron Works, Inc. **278 NLRB No. 159**
[application for award dismissed, since GC's position was substantially justified, where GC's case in ULP proceeding was based on well established precedent and on reasonable and logically arguable legal theory]

Landmark Industries, Inc. **278 NLRB No. 129**
[*Burden of establishing substantial justification is on government, and test of whether or not governmental action justified is one of reasonableness. Government to defeat award, must establish that its position had reasonable basis in fact and law*]

Landmark Industries, Inc. **278 NLRB No. 129**
[attorney fees and expenses denied since GC was substantially justified in issuing and prosecuting complaint where she adduced evidence, which, if credited, inferences adverse to Respondent would have reasonably been drawn, which would have adequately supported GC's position]

Evergreen Lumber Company, Inc. **278 NLRB No. 099**
[applicant awarded fees and expenses, since GC's position not substantially justified, where in prosecuting C alleging that applicant as successor E unlawfully refused to recognize and bargain with U that had represented Ees of predecessor, GC cited no authority for theory on which it relied on that successor E obligated to bargain so long as majority of its complement of unit Ees comprised of Ees of predecessor, regardless of whether in unit at predecessor E at time it ceased business, and since evidence measured against legal theory did not have reasonable basis in fact]

Tajon, Inc. **277 NLRB No. 184**
[*It is immaterial that GC may not establish prima facia case of violation. But where GC presents evidence which if credited by fact finder, would constitute prima facia case of unlawful conduct, GC's position has been deemed to be substantially justified w/i meaning of Section 102.144(a) of Bd's R&R*]

Tajon, Inc. **277 NLRB No. 184**
[Section 102.144(a) of Bd's R&R puts burden on GC to show substantially justified in issuing complaint]

Tajon, Inc. **277 NLRB No. 184**
[where GC advanced in good faith close question of law and fact of whether reasonable time has elapsed after voluntary recognition during which U would enjoy irrebutable presumption of majority status and E was obligated to bargain had expired, pre-complaint investigation indicated reasonable time had not elapsed, ALJ and 1 Bd member agreed, GC deemed substantially justified in issuing complaint and litigating]

Tajon, Inc. **277 NLRB No. 184**
[GC substantially justified in litigating E's refusal to sign bargaining agreement in view of charging party's applicant's pre-trial statements that all terms of contract had been agreed upon, notwithstanding GC did not pursue allegation after Charging Party conceeded at hearing that all terms of contract had not been agreed upon]

Tajon, Inc. **277 NLRB No. 184**
[congress has indicated no adverse inferences were to be drawn or that government position was not substantially justified from fact it did not prevail. Standard does require government to establish that its decision to litigate was based on substantialy probability of prevailing]

East Tennessee Packing Company/Selecto Meats, Inc. **277 NLRB No. 168**

Forest Grove Lumber Company **277 NLRB No. 167**
[causal connection between prolongation of strike and ULPs]

Rapid Rental, Inc., d/b/a Budget Rent-A-Car **277 NLRB No. 129**
(GC *substantially justified* in issuing C alleging E violated 8(a)(3) by discharging active U supporter where E gave shifting reasons during Regional Office investigation and E had shown U animus in prior ULP case by unlawfully discharging U leader, thus providing reasonable factual basis for C; further, no adverse inference is to be drawn from fact RD originally dismissed charge and C issued only upon direction from GC's Office of Appeals)

Carmel Furniture Corp. **277 NLRB No. 119**
(legislative history of EAJA characterizes test of whether government action substantially justified as essentially one of reasonableness. Where government can show its case had reasonable basis, both in law and fact, no award will be made. Burden of establishing substantial justification rests with government. Standard should not be read to raise presumption that government's position was not substantially justified simply because it lost case)

Carmel Furniture Corp. **277 NLRB No. 119**
(no award of fees and expenses, notwithstanding Respondent's contentions no substantial justification to issue C; where no exceptions from ALJ's decision filed, RD canceled trial date with 2 days notice, both E and U requested charges be dismissed, Region had been advised by E and U that E had invited U to organize Ees, thus rendering improbable allegations of C that E had discharged Ees for U reasons, and only credibility conflict was between U representatives, and if investigation had been thorough, it would have been ascertained that charges were filed w/o sufficient knowledge, since there existed credibility issue requiring hearing)

Carmel Furniture Corp. **277 NLRB No. 119**
(no award of fees and expenses, since GC's position substantially justified where there existed credibility issue requiring hearing in that question of E's motivation depended on credibility resolution of whether supervisor who discharged Ees knew E wanted to be represented by U)

Advance Development and Manufacturing Corporation **277 NLRB No. 115**
(no award of fees and expenses since GC's position as to propriety of amendment of C to include allegation which was dismissed, and as to merits of amendment; substantially justified, notwithstanding Respondent's contention amendment barred by Sec. 10(b) since it was unrelated to subject matter of charge or original C, that evidence in support of amendment was insufficient, and GC's failure to depose or produce material witness showed lack of good faith, inasmuch as such failure did not mean pursuit of allegation was in bad faith, and there existed credibility issues which GC was justified in bringing before ALJ for resolution)

K and I Transfer & Storage Inc. and City Cartage and Moving, Inc. **277 NLRB No. 113**
(no award of fees and expenses to prevailing Respondents since GC substantially justified in prosecuting case where findings of no violations of Sections 8(a)(1) and (3), and consequent refusal to issue bargaining order, were based on credibility resolutions)

K and I Transfer & Storage Inc. and City Cartage and Moving, Inc. **277 NLRB No. 113**
]*substantially justified in EAJA, 5 U.S.C. Section 504, means more than mere reasonableness*)

Patrick & Company **277 NLRB No. 051**
(test for substantial justification is not whether an agency strictly adhered to its case handling manual, but rather, whether or not its position was substantially justified)

R & K Caterers, Inc. **277 NLRB No. 002**
(Congress, in amending EAJA, did not alter, but merely clarified, definition of *substantially justified* which means more than *mere reasonableness* H.R. Rep. 99–120 at 9)

R & K Caterers, Inc. **277 NLRB No. 002**
(application for attorney fees and expenses under EAJA dismissed in view of fact that, whether proposed (labor) contract is unlawful is *substantial* question in that article I of proposed contract read in its entirety does not appear to present matter of law susceptible to resolution by GC w/o hearing to resolve credibility issues regarding whether in fact there was consciously arrived at understanding)

Western Newspaper Publishing Co., Inc. **276 NLRB No. 173**
(GC substantially justified in issuing complaint alleging 8(a)(5) violation where decision in case turned on factual inferences which ALJ was only able to draw after hearing lengthy trial testimony subject to cross-examination; moreover, there was also credibility dispute as to crucial issue)

Bardcor Corp. **276 NLRB No. 127**
(in order to be substantially justified in prosecuting case GC must be able to make out prima facie case but he is not insurer that ALJ will agree with him; credibility resolutions are for ALJ to make and, if made contrary to GC, as here, it does not mean that GC was not substantially justified; consequently, E's EAJA application for award denied since decision herein to dismiss C was based on credibility findings)

Phil Smidt & Son, Inc. **276 NLRB No. 122**
(as ultimate burden of proving interim earnings is on E, and not GC, EAJA application dismissed, notwithstanding E made offer of settlement that exceeded eventual backpay award though less than backpay specification, since finding of ULP is presumptive proof that some backpay is owed)

John Keller d/b/a Union Carbide Building Co. and Schmelzer-Wysong Management Co., et al. **276 NLRB No. 160**
(position of GC substantially justified where, if witness' initial testimony had been credited as presented by GC, it would have supported GC's theory but Bd in considering witness' testimony as a whole, including his cross-examination, agreed with ALJ that evidence failed to establish conclusively finding necessary to GC's theory)

Best Broad Company, Inc. **276 NLRB No. 145**
(position of GC substantially justified where GC issued C and prepared for trial based on witnesses' sworn statements and she acted with due dilligence to withdraw C when witnesses recanted two days before hearing)

Graig & Hamilton Meat Company, Inc. **276 NLRB No. 103**
(GC *substantially justified* in issuing C alleging E violated 8(a)(5) by refusing to furnish U financial information where GC's argument that E advanced inability to pay was not unreasonable in law or fact in that line between inability to pay and resolve not to pay is difficult to draw and case was a *close* case)

United Parcel Service, Inc. **273 NLRB No. 205**
(GC *substantially justified* in issuing C alleging E violated 8(a)(5) by refusing to bargain with U where GC could have made case of refusal to bargain had his key U witness been credited in relating events surrounding U's initial request to bargain; further, although GC's key witness was discredited in some respects by ALJ, he was credited in other respects and thus, GC cannot be found to have acted unreasonably in relying on witness is deciding to issue C)

United Parcel Service, Inc. **273 NLRB No. 205**
(GC *substantially justified* in issuing C alleging E violated 8(a)(3) by transferring Ees from day shift to night shift where timing of action raised inference of anti-U considerations and had E not presented credited evidence of nondiscriminatory reasons for the transfers, GC would have made *prima facie* case of discrimination)

Alabama Metal Products, Inc., and its alter ego Delta Laminating, Inc. **JD-(ATL)-69-86**
[attorney fees and expenses denied, since GC substantially justified in issuing C and filing exceptions, where initially threshold issue of whether Es were alter egos or single integrated enterprise involved credibility issues requiring hearing and GC's exceptions to holding that application of alter ego concept not appropriate inasmuch as motivation not necessary element reasonably based in law, as evidenced by different approaches of members of Bd panel in case herein and in other cases]

Shipbuilders (Bethlehem Steel Corporation) **JD-131-86**
[applicant not entitled to award of attorney fees and expenses since GC's position substantially justified, notwithstanding applicant's contention that testimony of U agent adverse to U was incredible and that if regional office had done better job of investigation it would have dismissed charges, since GC's evidence if credited constituted prima facie case and even if regional office interviewed all witnesses suggested by applicant in application there would remain credibility issues which GC had no authority to resolve, thus requiring hearing]

Maintenance Service Corporation **JD-90-86**
[GC not *substantially justified* in issuing C alleging E violated 8(a)(5) by refusing to execute contract where facts were clear U and E had no meeting of the minds on date GC alleged there was a contract]

Professional Maintenance of Long Island, Inc. **JD-(NY)-16-86**
[GC *substantially justified* in issuing C alleging E refused to hire Ees based on U membership, where, had ALJ credited GC's witnesses, inference of discrimination proposed by GC would have been quite reasonable]

Sheet Metal Workers, Local Union No. 162 (Enterprise Mechanical, Inc.) **JD-(SF)-024-86**
[GC *substantially justified* in issuing 8(b)(1)(B) complaint against local U alleging it coerced E in selection of its representative where, had GC's witnesses been credited, ALJ would have found violation; further, GC's case was buttressed by fact Respondent failed to make available sworn testimony or documentary evidence during pre-complaint investigation]

Central Motor Express, Inc. **JD-356-85**
[Region substantially justified in issuing complaint where credibility resolutions played large part in deciding issues in case and absent evidence GC knew or should have known prior to issuance of complaint that sufficient evidence would be adduced to support dismissal of charges]

Pete Crouch Plumbing & Heating Co. **JD-299-85**
(GC substantially justified in issuing C that E failed to supply U with requested information and thereafter dismissing it only after E offered to make available to GC tape recording of meeting where information was offered where, although the E informed GC that it had tape recorded the meeting, it did not make a transcript of it available until two and a half months later, whereupon the GC expeditiously dismissed C w/i six days)

Ronnie McCoy, d/b/a Metro East Cab Company **JD-84-85**
(GC *substantially justified* in issuing C against cab company alleging drivers were Ees rather than independent contractors and thus E had duty to bargain, where state of law at time C issued supported GC's finding, during investigation, that cab drivers did not possess indicia of independent contractor status; further, applicant was not *prevailing party* since U withdrew charge after E began some collective bargaining with it which was the substance of the charge in the first instance)

Hillsamer Painting Contractors, Inc. **JD-73-85**
(GC *substantially justified* in issuing 8(a)(5) C alleging two companies were single E or *alter egos* where companies were owned individually by father and son and a myriad of facts developed at hearing tended to show single E or *alter ego* relationship; further, case was a close case and fact that E and GC cited the same case as controlling further establishes that GC was justified in issuing C)

Inductive Components, Inc. **JD-(NY)-20-85**
(GC *substantially justified* in issuing C alleging E engaged in numerous acts of harrassment against its Ees because of their U activity, notwithstanding some allegations were ultimately dismissed by the Bd, where all allegations of C involved issues of credibility which are the exclusive province of ALJ; further, E's argument that Region conducted *perfunctory* investigation and disregarded its evidence, rejected, since Region still was presented with credibility issues which could not be resolved absent trial)

Millmen, Cabinetmakers and Industrial Carpenters Union, Local No. 42, AFL-CIO (Robert L. Hamilton, an Individual) **JD-(SF)-35-85**
(GC *substantially justified* in issuing C -withdrawn after hearing closed- alleging U violated 8(a)(1)(A) by imposing ct collectible fine on member for post-resignation activity where, based on evidence presented during investigation and proffered at hearing, GC made presumptively *prima facie* case; U's contention that had GC conducted a more thorough investigation she would not have issued C on the merits and because of 10(b) bar, rejected, where U refused to state its position and rejected invitations to proffer exculpatory evidence during investigation)

Stephens College **JD-15-85**
(Respondent college awarded attorney fees and expenses since GC knew or should have known further litigation in underlying ULP proceeding alleging unlawful withdrawal of recognition from U was not substantially justified, after he had all necessary facts and Bd had issued clear decisional standard of factual analysis for determining whether faculty members deemed to be managerial in *Ithaca College*, 261 NLRB 577, and *Duquesne Univeristy*, 261 NLRB 587)

Valu Warehouse Foods, Inc. **JD-(NY)-13-85**
(GC *substantially justified* in issuing C alleging E violated 8(a)(5) by refusing to bargain with U where GC could have made case of refusal to bargain had his key U witness been credited in relating events surrounding U's initial request to bargain; further, although GC's key witness was discredited in some respects by ALJ, he was credited in other respects and thus, GC cannot be found to have acted unreasonably in relying on witness in deciding to issue C)

Tectonic Industries, Inc. **JD-(NY)-3-85**
(GC *substantially justified* in issuing C alleging E violated 8(a)(5) by engaging in surface bargaining and application dismissed, where evidence indicated that E easily could have been found to have engaged in deliberate stalling of negotiations and direct dealing with Ees, showing GC had strong *prima facie* case, and ALJ's credibility resolutions at trial were important factors in his determination of case on the merits)

Westerman, Inc. v. N.L.R.B. **749 F.2d 14 (C.A. 6, Dec. 1984)**
(Bd's denial of attorney's fees and expenses not abuse of discretion, since GC position was substantially justified in alleging unlawful layoffs for U activity in view of proven U activity, E's knowledge thereof, and supervisor's hostility thereto; GC could not have forecast that he would not prevail as to timing of E's knowledge and attribution of supervisor's anti-U hostility to E)

Westerman, Inc. v. N.L.R.B. **749 F.2d 14 (C.A. 6, Dec. 1984)**

Temp Tech Industries, Inc. 756 F.2d 586 (C.A. 7, Mar. 1985)

(if decision to litigate had reasonable basis in law and fact, GC does not have to justify decision to reject settlement offer which, by its terms, could not have provided full relief GC would have achieved had he prevailed, and would have lacked the enforceability of Bd order)

Temp Tech Industries, Inc. 756 F.2d 586 (C.A. 7, Mar. 1985)

(GC substantially justified in litigating issue of striker's discharge for picket line misconduct because discharge in such case only warranted where misconduct *sufficiently egregious*, and GC could not know whether misconduct rose to such level)

Temp Tech Industries, Inc. 756 F.2d 586 (C.A. 7, Mar. 1985)

(GC's decision to litigate issue that turns on credibility is not unreasonable; fact ALJ might make adverse finding on credibility issue does not, in and of itself, deprive GC's position of basis in fact)

9154-3350 Cooperation by respondent in investigation

Patrick & Company 277 NLRB No. 051

(GC was *substantially justified* in issuing C alleging E violated 8(a)(3) by discharging Ee, notwithstanding E submitted evidence during investigation that Ee was 2(11) supervisor and was found at hearing to be 2(11) supervisor, where charging party's affidavit and other evidence produced prior to hearing was in direct conflict with E's evidence on issue of Ee's 2(11) status, thus GC needed to proceed to hearing in order to resolve credibility issues central to Ee's employment status)

Local 702, Electrical Workers (Rayford T. Blankenship, Blankenship and Associates, Inc.) JD-71-85

(GC *substantially justified* in issuing C alleging U violated 8(b)(4)(ii)(B) where GC was presented with evidence at investigatory stage, that U agent had threatened secondary E that it would shut down jobsite to force it to cease doing business with primary E and it was only after ALJ resolved genuine credibility issues, that C was dismissed; further, fact that GC disregarded U's exculpatory evidence during investigation was irrelevant since C was justified in any circumstance)

9233-1600 Consideration of offer of proof

Electrical Workers Local Union 946 (PAC, Inc.) 273 NLRB No. 167
(U's request for remand to consider alter ego status of 2 Es denied where ALJ excluded evidence of such relationship at hearing of alleged violation of Sec. 8(b)(1)(B) and U failed to make offer of proof that charging party held financial interest in 1 E which would make him E at other E rather than E representative)

9233-3300 Previously unavailable evidence

[mtn by E to reopen record to receive in evidence decision of State Employment Security Board of Review concerning Ee's departure from work and his eligibility to receive unemployment benefits, granted, since Board of Review's decision constituted previously unavailable evidence. [Bd's denial of E's mtn to reopen record to receive testimony of U director's testifying in arbitration proceeding involving claim against E similar to that herein found not to warrant remand to Bd where, notwithstanding evidence's availability three weeks after hearing and a month before U submitted brief, E let two years elapse before moving to remand and did not explain delay, as required by Bd rules, and it was doubtful that admitting evidence would have changed result]

(where U in 8(b)(7)(C) proceeding sought to establish defense that picketed E was alter ego of E whose Ees U had represented before former E purchased latter E's operations, ALJ denied U's mtn to reopen hearing in order to develop newly discovered evidence involving purchaser's damage suit brought against seller since closing of hearing; to admit pleadings of damage suit would needlessly burden record herein; also, to reopen hearing would cause unwarranted prolongation of already lengthy case)

Raygle Corporation d/b/a The Dirt Digger, Inc. 274 NLRB No. 157
(E's mtn to reopen record to allow officers of E to testify concerning E's notices denied since E did not state that this was newly discovered or previously unavailable evidence)

(E's mtn to reopen record on ground that posthearing civil action filed in state ct by five Ees, who were found to have been unlawfully laid off in instant proceeding, was *newly discovered evidence* which assertedly impinged on Ees' credibility, denied; civil suit did not affect credibility findings since statements in civil C by Ees in asserting that they were discharged because they made safety complaints to state and federal agencies were conclusionary and self-serving for purposes of seeking award in state ct proceeding)

Northwind Maintenance and Painting Co., Inc. **281 NLRB No. 048**

L & J Equipment Company, Inc. **278 NLRB No. 074**
[U's mtn to reopen record in 8(a)(5) proceeding on remand from ct regarding destruction of one of E's trucks shortly before ptn was filed in underlying R case, on ground U had newly discovered evidence, denied, where there was no showing that evidence, which related to event that occurred nearly 4 years before filing of U's mtn could not have been discovered earlier to reopen record; in view of denial of U's mtn, Bd also denied E's mtn to strike pleadings, in which it moved to strike U's mtn to reopen record]

9258 REMAND FOR DE NOVO HEARING

Superior Fast Freight **275 NLRB No. 53**
(E's mtn for hearing de novo before new ALJ denied, but case remanded to ALJ for credibility determination, since it would be redundant; record contained substantial evidence, unrelated to pertinent witness's testimony, that need not be developed second time at new hearing; moreover, mere fact that ALJ relied on witness's testimony at hearing did not demonstrate that ALJ would not be objective at second hearing)

District No. 1, Pacific Coast District Engineers Beneficial Association, AFL-CIO (Crest Tankers, Inc.) **274 NLRB No. 215**
(Bd granted request by Charging Party to appeal ALJ's order excluding its counsel from ULP hearing because in ALJ's opinion counsel had misrepresented and distorted ALJ's evidentiary ruling excluding certain evidence in its request to appeal that ruling; Bd also granted Charging Party's and GC's mtns to recuse ALJ and remanded matter for hearing de novo before new ALJ, since while appeal did not clearly reflect ALJ's ruling, evidence insufficient to establish Charging Party's filing of appeal and refusal to obey ALJ's directive to correct appeal was attempt to obstruct hearing

N.L.R.B. v. Atlas Microfilming, Division of Sertafilm, Inc. 753 F.2d 313 (C.A. 3, Jan. 1985)
(E's mtn for remand to Bd, concerning issue of E moving its facility and Ee turnover, denied, since ct found that there were no reasonable grounds for E's failure to apprise Bd of its *additional evidence* as required for remand. E offered no excuse for waiting almost 5 months, after all briefs were filed, to move for remand when E knew it was moving even before Bd issued its bargaining order. Delay in filing briefs was abuse of ct's and Bd's processes)

9600 FURTHER CONSIDERATION, RECONSIDERATION OR MODIFICATION OF ORDER

9637 ISSUE NOT RESOLVED AT ARBITRATION

C-E Natco/C-E Invalco 282 NLRB No. 047
[where Bd initially found lockout not unlawful but held E's bargaining with Ees and offering them terms for returning to work different from those offered U, omitting reinstatement and make-whole remedy provisions, Bd, on mtn for reconsideration, held make-whole remedy warranted, because who accepted E's unlawful individual offers returned to work and were paid, but Ees who insisted on right to U representation on issue of resuming work suffered loss of pay; reinstatement not ordered because apparently all locked out Ees were reinstated]

Combustion Engineering Inc. 274 NLRB No. 172
(as Bd decision deferring to arbitration award that found E liable for unilateral changes to absenteeism and tardiness system only involved two Ees, GC's mtn for reconsideration contending that Bd's order was not adequate because it did not provide remedy to numerous other Ees adversely affected by E's conduct, granted and jusisdiction retained to review, upon mtn, grievance proceedings or awards arising from E's unlawful action, where arbitrator had no authority to remedy violation he found)

9650 CIRCUMSTANCES WARRANTING RECONSIDERATION

Onan, A Division of Ona Corporation 277 NLRB No. 146
(mtn to reconsider and dismiss portions of prior decision and order, 270 NLRB 373, in which Bd found unlawful E's refusal to bargain concerning Ee discharge and grievances, granted, since ct of appeals had, in prior proceeding, denied enforcement of Bd's bargaining order against E)

Centre Property Management 274 NLRB No. 029
(remand to ALJ to review record and determine whether Ee, who was allegedly unlawfully discharged for reporting E's plumbing violations to authorities and for U activities, was engaged in concerted activity when he reported violations in view of Bd's holding in *Myers Industries*, 268 NLRB 498, that only activities engaged in with or on authority of other Ees are concerted, and should reporting of violations be deemed not concerted, reanalyze case under *Wright Line* mixed motive test; Bd deferred ruling on additional Sec. 8(a)(1) allegations since one factor relied on by ALJ in finding 8(a)(1) violations was timing viz a viz discharge)

9650-8000 **Denied where all matters raised in motion had been previously considered**

KCW Furniture Company, Inc. 276 NLRB No. 100
(in backpay specification proceeding, E's mtn for reconsideration of Bd's original D/O denied as one which Bd may not properly consider since it concerned matters previously ruled on by ct in enforcing Bd's order)

Carpenters 46 Northern California Counties Conference Board (Arrez Contracting Co., et al.) 274 NLRB No. 181
(U's mtn for reconsideration denied where, in rendering its initial decision to reject proposed unilateral settlement stipulation and memorandum of understanding, Bd considered most of matters Us now raise in mtn for reconsideration; no new matter was added which warranted reversal of original; Bd considered relevant the nature and history of previous settlement agreements, their breaches, and alleged ULPs encompassed by proposed settlement)

Affiliated Midwest Hospital Inc. d/b/a Riveredge Hospital 274 NLRB No. 124
(mtn for reconsideration asserting that Bd did not have entire record compiled by RD before it when it overruled E's exceptions to RD's Supplemental Report on Objections and Certification of Representatives, denied where E proffered no evidence to show RD's finding was erroneous; there was no evidence that alleged discrepancies (between units described in *Norris-Thermador* list and notices of elections) caused disenfranchisement of any Ee, let alone voter confusion)

Affiliated Midwest Hospital Inc. d/b/a Riveredge Hospital 274 NLRB No. 124
(E's failure to timely raise issue of inadequacy of record transmitted to Bd in either R proceeding or in ULP case (in answer to C or in response to *Notice to Show Cause*) constitutes *waiver* precluding E from raising issues in instant case)

9675 CIRCUMSTANCES WARRANTING MODIFICATION OF ORDER

Iron Workers (Walker Construction Company) 279 NLRB No. 123
[Bd order modified to vacate any election held to elect new U president and to reinstate ousted U president to office of presidency for period equal to time left in his term of office before unlawfully removed and he has had sufficient time to conduct campaign for reelection, if he so desires]

9800 COURT REMAND

Lorimar Productions, Inc. 279 NLRB No. 036
[second election directed pursuant to ct remand where ct found that procedure followed by Bd in holding election while request for review was pending on scope of bargaining unit, significantly impaired conduct of election by misleading voters as to scope of unit, an issue essential to voters ability to cast an intelligent, voluntary vote]

Lorimar Productions, Inc. 279 NLRB No. 036
[E's request for hearing to determine U's qualification to represent Ees, in case remanded by ct to Bd, denied, since issue was not raised in underlying *R* proceeding and was not w/i scope of ct's remand]

Baker Manufacturing Company 277 NLRB No. 022
(Bd held, on remand from ct, fact that discriminatees had declined offers of reinstatement and that their jobs no longer existed based on economic reasons, rendered issue of propriety of Bd's order to reestablish those positions moot)

Monark Boat Company 276 NLRB No. 121
(ALJ properly refused to expand scope of hearing where circuit ct specifically remanded certain objections for further hearing and consideration by Bd; and such objections, therefore, were only matters before Bd)

Illinois Bell Telephone Company 275 NLRB No. 27
(where Bd had ordered Ee who had been unlawfully denied representation during investigatory interview and been discharged for misconduct discussed during that interview reinstated with backpay, and E, on remand from ct to determine whether it had independent evidence of Ee's misconduct, showed no such evidence, Bd modified its make-whole remedy to a cease-and-desist order)

E. I. Dupont De Numours 274 NLRB No. 209
(on reconsideration after requested remand from ct, Bd reversed prior decision that E violated 8(a)(1) by refusing unrepresented Ee's request for assistance of coworker at investigatory interview in view of recent Bd decision that only unionized Ees had right to representation at investigatory interviews)

9900 OTHER PROCEDURAL MATTERS

SDC Investment, Inc. 278 NLRB No. 097
[summary judgment for consolidated cases--objections to election and ULP allegations that tracked objections to elections--denied, and hearing before ALJ directed, notwithstanding E's attorney filed charge of its own in which he admitted that objections in pending RC case were identical to ULP charge he was filing. Bd held that it did not consider charge filed by E's attorney as admission that ULPs were actually committed and therefore could serve as basis for mtn for summary judgment, but rather was questionable procedural folderol to test hearing officer's authority to rule on matters in objections case which, if proven, would constitute ULP violation]

Mack Trucks, Inc. 277 NLRB No. 084
(U's mtn to disqualify law firm from serving as E's counsel because of Bd's Regional attorney's prospective affiliation with that firm, denied, since no sufficient warrant had been shown for determination that there should be a substitution of GC's representative, no deficiencies in case record with respect to GC's prosecution of present matter have been shown. A merely conceivable *apperance of impropriety* must be considered too slender a reed upon which to rest a disqualification order)

600 REMEDIAL ORDER PROVISIONS

601 GENERALLY

2500 NATURE AND PURPOSE

2514 EFFECTUATION OF POLICIES OF ACT (10(c))

Sure-Tan, Inc., et al. v. N.L.R.B. ———U.S.———
(US S.CT, June 1984)

[circuit ct's decision ordering Bd to provide minimum backpay for constructively discharged illegal alien Ees w/o regard to their actual losses or legal availability for work after they had left the country rather than be deported reversed, since ct order imposing minimum back pay award which was speculative in absence of evidence of Ees' individual circumstances exceeded unit ct's reviewing authority and compelled Bd to take action not w/i Bd's powers; case remanded to circuit ct with instructions to remand it to Bd for formulation of remedial order consistent with this opn]

Starlite Cutting, Inc. and Its Alter Ego Petal Pink Novelty, Inc.; and Joseph Fornaro, an Individual 280 NLRB No. 120

[backpay to be paid RD to be held in escrow for period not exceeding 1 year from supplemental D/O to afford GC opportunity to locate and examine unavailable discriminatee's interim earnings; if GC fails to do so w/i 1-year period, award to lapse and backpay to be returned to respondent; rule of limitation will effectuate policies of Act by facilitating swift and orderly resolution of backpay proceedings, affording finality and stability to judgments and freeing Bd's time and resources for other cases; *Duncan Foundry & Machine Works*, 222 NLRB 768 (1976) overruled]

Asociacion Hospital Del Maestro, Inc. 279 NLRB No. 062

[E's raising at arbitration affirmative defense that it had no duty to arbitrate grievances filed after expiration of contract, not refusal to arbitrate or violation, where E submitted grievances to arbitration, participated in hearings, and did not indicate that it would not comply with an adverse arbitrator's decision; a Bd order prohibiting party from raising arbitrability issue before arbitrator would contravene Bd's policy to favor and defer to voluntary arbitration]

Sahara Datsun, Inc. 278 NLRB No. 148

[concerted activity loses protection of Act where it involves malicious attack on E's product or reputation, and subsequent discharge is for cause w/i meaning of Sec. 10(c)]

Martin J. Barry Company 278 NLRB No. 056

[order directing E, who was admitted *Burns* successor, to execute and implement contract agreed to by predecessor and make Ees whole for failure to so implement, contravened 10(c) of the Act and Bd was w/o remedial autority to so order, since, under principles of *H.K. Porter*, 397 U.S. 99 (1970), Bd lacks remedial authority to impose contractual terms involuntarily on either party to a collective bargaining agreement]

Midwest Motel Management Corp. of Birmingham 278 NLRB No. 060

[backpay order should stand unless it can be shown that it is patent attempt to achieve ends other than those which can fairly be said to effectuate policies of Act]

Electrical Workers, Local No. 428 (Kern County Chapter, National Electrical Contractors Association) 277 NLRB No. 048

(E associations' contention that contract deleting their right to call foremen by name be rescinded so as to preserve their E-members' statutory right to select their supervisors and grievance adjustment representatives, rejected, since right involved herein is statutory, and recission remedy, in circumstances of this case, would have no practical effect and would not effectuate purposes and policies of the Act)

N.L.R.B. v. DMR Corp. and Harrill Electric Contractors, Inc. 795 F.2d 472 (C.A. 5, July 1986)

[Es' claim that Bd erred in ordering make-whole relief held w/o merit where Es failed to show that order was patent attempt to achieve ends other than those which can fairly be said to effectuate policies of Act; Bd may properly prevent Es from gaining advantage by their unlawful conduct; order requiring that Ees be made whole for unlawful repudiation of bargaining agreement served this end]

2528 PROTECTION OF PUBLIC, NOT PRIVATE, RIGHTS

Starlite Cutting, Inc. and Its Alter Ego Petal Pink Novelty, Inc.; and Joseph Fornaro, an Individual 280 NLRB No. 120

[although rule that backpay held in escrow for unavailable discriminatee be returned to respondent if discriminatee not located w/i 1 year may result in forfeiture, discriminatee has no entitlement to backpay, since it is a remedy that is public, not private right, and discriminatee has no property right in award pending his receipt of it; also on his showing by preponderance of evidence compelling reasons for not coming forward timely, Bd would find exception and let him claim award, so that rule is flexible and consistent with federal practice in class actions]

Jones Plumbing Co., Inc.; et al. d/b/a Instant Plumbing Company 277 NLRB No. 047

(fact Ee received pay for time of unlawful layoff and signed release did not constitute waiver of public remedies of backpay, reinstatement, and notice posting, where record insufficient to determine whether payment constituted full payment of backpay under Bd law, release executed when other discriminatory acts against Ee had not been remedied, nor was charging U involved in execution)

2556 REMOVAL, DISSIPATION, OR AVOIDANCE OF CONSEQUENCES OF ULPS

Ironworkers Local 433, a/w Ironworkers (United Steel) 280 NLRB No. 151

[pattern of conduct that evinces proclivity to violate secondary boycott provisions of Act calls for *Broad Order* in remedy]

O.L. Willis, Inc. 277 NLRB No. 029

[bargaining order accompanied with limited backpay remedy found appropriate where E failed to notify U of its intention to close and thereby deprived U of opportunity to bargain concerning effects of closing on Ees; E ordered to bargain with U concerning effects on unit Ees from closing of E's facility and to pay Ees backpay in manner required by *Transmarine Navigation Corp.*, 170 NLRB 389]

2570 RESTORATION OF STATUS QUO ANTE

United States Postal Service 281 NLRB No. 033

[although Bd customarily directs E to restore status quo ante if it has taken unilateral action to Ee's detriment, Bd held c/d order was insufficient where it was unclear whether E's unilateral grievance adjustment was detrimental or beneficial and, consequently, Bd ordered status quo ante restoration conditioned on Ee's desire expressed through U; accordingly, if U elects with Ee's concurrence to have previous conditions restored, E required to set aside unilaterally adjusted grievance, reactivate grievance, and process it in good faith with all due diligence]

B & P Trucking, Inc. 279 NLRB No. 092

[E to restore status quo ante by resuming trucking portion of its operations absent evidence that doing so would endanger its economic viability where operation was approaching profitability, E had achieved objective of increasing control over timing of deliveries, resumption would require little cash investment, and E's financial position was not precarious]

2570—Cont.

Woodline Motor Freight, Inc. 278 NLRB No. 153
[trucking company ordered to redomicile tractors to terminal from which tractors relocated to remedy unlawful relocation of tractors, layoff of Ees and reduction of some Ees' hours at that terminal, since such remedy will be ordered to restore status quo ante unless it would be so burdensome as not to effectuate Act]

Woodline Motor Freight, Inc. 278 NLRB No. 152
[order to redomicile tractors at original terminal, appropriate, where necessary to restore status quo ante and action would not be unduly burdensome; i.e., require capital investment disproportionate to E's resources, or impose substantial, continuing losses. Here, terminal was profitable before discriminatory relocation, and E has continued to operate terminal]

Electrical Workers, Local No. 428 (Kern County Chapter, National Electrical Contractors Association) 277 NLRB No. 048
(contention that restoration to current contract of foreman-call provision that was included in prior contract was necessary to restore status quo ante, rejected, since it was inappropriate where it would compel E to agree to substantive term of contract concerning which parties had failed to reach consensus during contract negotiations)

Dependable Building Maintenance Company; et al. 276 NLRB No. 007
(where, after Es had unlawfully implemented their final offer in absence of impasse, impasse occurred, and Es lawfully implemented their final offer, status quo ante order requiring E's return to conditions before unlawful implementation of their final offer limited to the periods ending with their respective lawful implementation of final offer)

Rikal West, Inc. 274 NLRB No. 170
(offer of reinstatement to discriminatee *not unconditional* where by terms of reinstatement discriminatee would admit his or her guilt of E's violative rules and accept discipline eminating therefrom since, such admission and its consequences would not have placed discriminatee in status quo ante)

Samuel M. Kaynard, RD (NLRB) v. MMIC, Inc. 734 F.2d 950 (C.A. 2, May 1984)
[interim bargaining order rather than c/d order proper relief in instant case under Section 10(j) of Act, c/d order would have effect only of freezing post-election situation; bargaining order restores status quo of conditions as they existed before E's unlawful campaign; namely, E must bargain with majority representative]

Samuel M. Kaynard, RD (NLRB) v. MMIC, Inc. 734 F.2d 950 (C.A. 2, May 1984)
[bargaining order just and proper in 10(j) proceeding where election process has been rendered so meaningless by E's coercive ULPs that authorization cards are clearly superior gauge of Ee sentiment]

Baker Manufacturing Company v. N.L.R.B. 759 F.2d 1219 (C.A. 5, May 1985)
(basic purpose of reinstatement order is to restore economic status quo that would have existed but for E's illegal activities, not to lock E into maintaining status quo w/o due consideration of economic realities at time remedy is effectuated)

N.L.R.B. v. Jack E. Hartman, a Sole Proprietorship, d/b/a Dependable Tile Company 774 F.2d 1376 (C.A. 9, Oct. 1985)
[ct held Bd abused its discretion by ordering E to comply with bargaining agreement rectroactively to date E unlawfully refused to sign agreement, rather than from date agreement became effective, since Bd has traditionally granted relief in similar cases retroactive to inception of contract, and absent explanation for doing so Bd cannot impose different remedies; further, if make whole relief for whole period of contract not ordered then status quo not restored]

2584 REMEDIAL, NOT PUNITIVE

O.L. Willis, Inc. 277 NLRB No. 029
[bargaining order accompanied with limited backpay remedy found appropriate where E failed to notify U of its intention to close and thereby deprived U of opportunity to bargain concerning effects of closing on Ees; E ordered to bargain with U concerning effects on unit Ees from closing of E's facility and to pay Ees backpay in manner required by *Transmarine Navigation Corp.*, 170 NLRB 389]

Plumbers, Local No. 198 v. N.L.R.B. 747 F.2d 326 (C.A. 5, Nov. 1985)
(although U claimed that Bd's remedy was unduly harsh and might weaken or destroy it, ct enforced Bd's order allowing determination of unnamed discriminatees at compliance stage, but w/o prejudice to the U's right to challenge the awards or procedures and with requirement that Bd articulate reasons for its decision; ct stated that Bd should consider its procedures' capability to determine whether remedy became penal in nature, and thus not permitted under the Act, and the extent of actual damages, which conventional common law or equitable doctrines would require of a ct, but not of the Bd)

N.L.R.B. v. Master Slack and/or Master Trousers Corp., et al. 773 F.2d 77 (C.A. 6, Sep. 1985)
(backpay awards for Ees, who had been wrongfully discharged over year before plant shutdown about which E failed to bargain, cannot continue past shutdown; since any backpay awarded to remedy E's failure to bargain should be awarded equally to all Ees affected by plant shutdown, since all were equally injured by E's failure to bargain, and backpay awards for discharged Ees, insofar as they extend past plant shutdown, appear punitive rather than remedial)

3700 AUTHORITY OF BOARD

3701 GENERALLY

Davis Coal Company Debtor-In-Possession 275 NLRB No. 102
(bonuses excluded from gross backpay where E paid no bonuses to any Ees during backpay period and that decision was attributable to E's poor financial condition that eventually resulted in cessation of business and filing of bankruptcy ptn; further, to order payment of bonuses would put discriminatees in better position than they would have been absent ULP and thus, would exceed Bd's remedial authority)

3750 WHERE NO VIOLATION OF ACT

N.L.R.B. v. Americana Healthcare Center 782 F.2d 941 (C.A. 11, Feb. 1986)
[customary Bd notice requiring E to confess its past ULPs and promise future reform, inappropriate in instant case where equitable reformation of contract language is required. E has not agreed to sick leave benefits in manner to obligate it, and will do so only when it amends contract as ordered]

3750-5000 Retention of jurisdiction

Combustion Engineering Inc. 274 NLRB No. 172
(as Bd decision deferring to arbitration award that found E liable for unilateral changes to absenteeism and tardiness system only involved two Ees, GC's mtn for reconsideration contending that Bd's order was not adequate because it did not provide remedy to numerous other Ees adversely affected by E's conduct, granted and jusisdiction retained to review, upon mtn, grievance proceedings or awards arising from E's unlawful action, where arbitrator had no authority to remedy violation he found)

3775 FRIVOLOUS LITIGATION

Shrewsbury Motors, Inc. 281 NLRB No. 081
[both GC and applicant mtns for relief under *Tidee Products Inc.*, 194 NLRB 1234, on basis that actions of other party *patently frivolous*, rejected, notwithstanding GC did not carry burden to establish that position was substantially justified]

Hydrotherm, Inc. 280 NLRB No. 167
[application for award of attorney's fees based on alleged frivolity of E's defenses, denied where, although E was unaware of local U's merger at time it rejected U's request to bargain and only learned of it on receiving 8(a)(5) C, in absence of pretrial discovery, E was not in position to determine whether U's merger involved more than name change until evidence was presented at hearing; also, there is no record of *clearly aggravated and pervasive misconduct* by E]

5000 SCOPE OF ORDERS

5025 BREADTH IN RELATION TO SPECIFIC VIOLATION

Springfield Transit Management, Inc. 281 NLRB No. 124
[Bd declined to issue broad c/d order, recommended by ALJ, where E was found to have unlawfully refused to sign contract, such refusal occurred after impasse was reached, state ct had ordered arbitration, and arbitration award setting out terms of contract had issued]

Beckley Belt Service, Inc., d/b/a Beckley Belt Services & Roofing Co., Inc. 279 NLRB No. 066
[appropriate in view of extensive and egregious nature of ULPs]

5025-3300 Broad orders

5025-3301 Generally

Smyth Manufacturing Co., Inc.; Beacon Industries 277 NLRB No. 066
(although no exception was taken to ALJ's recommended ban on unilateral subcontracting by E to prevent E from transferring to other shops jobs from which Ees were unlawfully discharged, Bd concluded that words *and forever discontinue* were overly broad; as amended by Bd, Order proscribed such subcontracting for indefinite future but left open possibility of modification of proscription should future events prove that warranted)

5025-3309 Repetition of ULPs likely due to proclivity to violate Act

Ironworkers Local 433, a/w Ironworkers (United Steel) **280 NLRB No. 152**

5025-3332 Violation of fundamental employee rights

Mode O'Day Company, Division of Wickes Companies, Inc. **280 NLRB No. 029**
[narrow, rather than broad, c/d order issued where E's unlawful conduct in requiring Ee to sign dues check off authorization at time of her hire, and in deducting monies for U initiation fees from her wages pursuant to such authorization did not show proclivity to violate Act nor constituted such egregious or widespread misconduct as to demonstrate general disregard for Ees' fundamental statutory rights]

Harold Weine; et al., A Co-Partnership d/b/a Sands Motel and AMM, Inc. **280 NLRB No. 013**

5025-3343 Union has uniform policy or pattern of conduct

5025-3379 Discriminatory conduct of a serious nature

[broad order appropriate since E's ULPs were egregious involving unlawful interrogatons, threats, solicitation of grievances, promise of benefits, surveillance and discharges]

T & T Machine Company, Inc. **278 NLRB No. 139**
[Bd order warranted in view of numerous and overall egregious nature of violations which included unlawful layoffs, threats, warnings, promise of benefits, interrogations, promulgation of no solicitation/no distribution rule, and soliciting Ees to engage in surveillance]

5025-6700 Narrow orders

5025-6760 Isolated ULPs

(narrow order sufficient for single ULP)

5025-6775 No proclivity to violate Act shown

Mode O'Day Company, Division of Wickes Companies, Inc. **280 NLRB No. 029**
[narrow, rather than broad, c/d order issued where E's unlawful conduct in requiring Ee to sign dues check off authorization at time of her hire, and in deducting monies for U initiation fees from her wages pursuant to such authorization did not show proclivity to violate Act nor constituted such egregious or widespread misconduct as to demonstrate general disregard for Ees' fundamental statutory rights]

Rogers Cleaning Contractors, Inc. and Its Alter Ego, Olmsted Cleaning Contractors, Inc. **277 NLRB No. 053**
(broad order unwarranted absent showing of proclivity to violate the Act or general disregard for Ees' fundamental statutory rights)

Teamsters Local 115 (Gross Metal Products, Inc.) **275 NLRB No. 220**
(prior ALJ decision in which Respondent held to have violated Act may be used to show proclivity to violate Act and justify broad order notwithstanding no exceptions taken to decision)

5050 PERSONS BOUND BY ORDER

5050-0100 Generally

Ana Moya De Gaudier; etc. **JD-362-84**
(parties are appropriately added in compliance proceeding even when they are not parties to underlying ULP proceeding, if they are *sufficiently closely related* to original party as in situation where corporation has violated Act and derivative liability is sought against individual)

5050-1200 Foreign nationals

Edgar Mantha and Kathleen Mantha, A Partnership, d/b/a Hopkins Hardware; et al. **280 NLRB No. 146**
[former owners of Respondent-E, Canadian citizens now living in Canada, were properly served with backpay specification and notice of hearing, notwithstanding no express statutory provision for Bd service outside U.S., since backpay specification supplemental step in proceeding to which E had been party from outset, and where copies of documents were sent by registered mail to their Canadian address and to their U.S. Attorney who represented E in underlying case and had not withdrawn, and E admitted actual notice through letter of their Canadian attorney]

5050-1500 Successor employers

Edgar Mantha and Kathleen Mantha, A Partnership, d/b/a Hopkins Hardware; et al. **280 NLRB No. 146**
[successor E had no obligation to reinstate or pay discriminatees backpay since it had no knowledge of ULP litigation before Bd involving discriminatees when it purchased and took over predecessor's business]

Croley Coal Corporation and South Harlan Coal Co., Inc. **280 NLRB No. 104**
[successor E liable to remedy predecessor's unfair labor practices, where successor did not prove lack of knowledge of ULPs and such knowledge was inferred from fact that local newspaper carried front page articles about Ees' picketing of and filing charges against predecessor, location of two of successor's business in close proximity to site of picketing, and successor's admission that he had heard talk about the strike]

Beck Corporation, d/b/a Jessie Beck's Riverside Hotel and Casino **279 NLRB No. 061**
[purchaser held successor-E to seller and obligated to bargain with U to remedy seller's refusal, which was held unlawful in prior case, to bargain with U as representative of unit as certified where majority of Ees in unit at time U demanded bargaining with successor were Ees of predecessor, notwithstanding constituted majority for only short period after take over due to departure of Ees caused by situation in labor market and industry at time. Successor-E's contention it had insufficient knowledge of predecessor's ULPs, rejected]

Woodline Motor Freight, Inc. **278 NLRB No. 181**
[*remedial order in certain circumstances including successor E's awareness of ULP committed may specifically extend requirements or remedy to bona fide purchaser as responsible successor, though in a given circumstance it may also be determined more appropriate that remedial order as to successor not be made as extensive as that placed on perpetrating predecessor*]

Martin J. Barry Company **278 NLRB No. 086**
[order directing E, who was admitted *Burns* successor, to execute and implement contract agreed to by predecessor and make Ees whole for failure to so implement, contravened 10(c) of the Act and Bd was w/o remedial autority to so order, since, under principles of *H.K. Porter*, 397 U.S. 99 (1970), Bd lacks remedial authority to impose contractual terms involuntarily on either party to a collective bargaining agreement]

Martin J. Barry Company **278 NLRB No. 086**
[proper remedial obligations for *Golden State* successor involving predecessor's unlawful refusal to execute and implement contract with U was to make Ees whole for predecessor's ULP up to time predecessor ceased business and then, bargain in good faith with U for contract, since such remedy is sufficient to convince unit Ees that employing enterprise intends to comply with the Act and strikes a balance between interests of successor, the public and the affected Ees]

5050-5700 Partnership or proprietorship

Ana Moya De Gaudier; etc. **JD-362-84**
(in supplemental backpay specification proceeding, individuals operating enterprise as proprietorship, which was named as the only respondent in original specification, held properly added individually as parties responsible for backpay due herein; parties are appropriately added in compliance proceeding even when they are not parties to underlying ULP proceeding if they are *sufficiently closely related* to original party as in situation where corporation has violated Act and derivative liability is sought against individual)

Ana Moya De Gaudier; etc. **JD-362-84**
(in supplemental backpay specification proceeding, individuals operating enterprise as proprietorship, which was named as the only respondent in original specification, held properly added individually as parties responsible for backpay due herein; to refuse to add them would permit wrongdoers to escape their own individual responsibilities for violations of Act, and by finding liability it would ensure that any remedies ordered can be effectuated and avert frustration of policies of Act)

5050-6200 Receiver or trustee in bankruptcy

Ohio Container Service, Inc.; Myron E. Waxerman, Trustee in Bankruptcy **277 NLRB No. 025**
(trustee in bankruptcy of Respondent E ordered to remedy stipulated violations of Sections 8(a)(1) and (3) by Respondent; nothing in *Bildisco* 104 S.Ct 1188 which would preclude ordering this remedy, since *Bildisco* was concerned with alleged Section 8(a)(5) contractual violations)

Edward Cooper Painting, and Cooper and Cooper Painting, An Alter Ego **273 NLRB No. 236**
(Respondent Corporation required to enforce terms and conditions of applicable (labor) contract only until date on which Respondent Corporation filed its ptn for bankruptcy. See *NLRB v. Bildisco & Bildisco*, 104 S.Ct. 1188 (1984). Contractual backpay remedy, awarded by Bd, fully restores status quo prior to filing of bankruptcy ptn)

Martin Arsham Sewing Co., a/k/a Marsco, Inc. 280 NLRB No. 081
[backpay proceeding remanded for hearing on GC's supplemental mtn for determination of personal liability alleging E official wrongfully converted company assets to his personal use with intention to frustrate Bd's backpay order by rendering E bankrupt and insolvent; although GC's original personal liability mtn failed to demonstrate that official committed any act justifying *piercing of corporate veil*, GC's supplemental mtn provided Bd with additional information regarding official's actions with respect to bankruptcy proceeding and thereby raised issues of fact and law requiring further findings by ALJ]

Martin Arsham Sewing Co., a/k/a Marsco, Inc. 280 NLRB No. 081
[in backpay proceeding, E's mtn to strike GC's supplemental mtn for determination of personal liability of official of E involved in bankruptcy proceeding, denied, since GC's supplemental mtn was timely filed where it constituted *re-filing* of original mtn w/i meaning of Bd's order denying mtn but stating that GC was not thereby precluded from re-filing mtn with appropriate evidential support]

Martin Arsham Sewing Co., a/k/a Marsco, Inc. 280 NLRB No. 081
[in directing hearing in backpay proceeding on GC's supplemental mtn for determination of personal liability of official of E involved in bankruptcy proceeding, Bd held that, although GC failed to submit information herein on all items detailed in Bd's original order denying mtn, material submitted was adequate to raise issues appropriately resolved through hearing; however, additional information on items not addressed in GC's supplemental mtn, or lack thereof, may be considered in context of further proceedings]

Martin Arsham Sewing Co., a/k/a Marsco, Inc. 275 NLRB No. 090
(mtn for Determination of Personal Liability, by award or hearing under Bd's backpay order, denied where E filed ptn for voluntary bankruptcy identifying owner of E as sole secured creditor and Bd as unsecured creditor (via its backpay order), since GC made no factual assertion which could warrant finding sole secured creditor perpetrated fraud, dissipated or diverted corporate assets, intermingled personal and corporate assets or otherwise attempted to thwart E's backpay liability)

Workroom For Designers, Inc. and Sidney H. Sisselman, an Individual 274 NLRB No. 113
(ALJ's grant of GC's mtn to name E's sole shareholder and officer as respondent, correct, despite lack of evidence that he had disregarded corporate form, where he supervised Ees, managed E's factory, committed most of E's egregious and numerous ULPs, disregarded ct's inj to cease committing ULPs and reinstate strikers and most important, admitted that he planned to arrange his affairs to avoid any liability for backpay; Bd concluded that circumstances of case militated against waiting until backpay proceeding to see if he had acted on his stated intention to avoid backpay obligation to determine his liability)

N.L.R.B. v. Dane County Dairy, et al. 795 F.2d 1313 (C.A. 7, July 1986)
[alter ego company may be held derivatively liable for backpay obligation of company committing ULP; similarly, personal liability has been imposed where owner and chief operating officer of one E closed it and commenced doing business in name of new entity to avoid effects of Act or of labor contract]

5075 TERRITORIAL SCOPE OF ORDERS

5075-1100 **Limited to plant or plants where ULPs occurred**

Meleolunity, Inc., and Melvin Collings and Ed Collins, a partnership t/a Collins & Collins Associates JD-(NY)-111-83
(violation for refusing to furnish U with information and to remit dues and fringe benefits payable under contract signed by E in construction industry and who, with consent of U, signed in name of defunct entity and not name

5075-1100—Cont.

of entity U certified at, thereby, giving rise to inference that contract applied to members working at specific jobsite and no other)

The Lawson Company v. N.L.R.B. 753 F.2d (C.A. 6, Jan. 1985)
(Bd's disestablishment order enforced only with respect to stores of E which U has sought to organize and in which GC has challenged validity of E's Sales Assistant Committee)

5075-1500 Limited to location of bargaining unit

N.L.R.B. v. L & B Cooling, Inc. 757 F.2d 236 (C.A. 10, Mar. 1985)
(*----bargaining rights conferred upon U are limited to its representation of production unit at Center,* since Bd order identifies L & B (the E) as *L & B Cooling, Inc.*, Center, Colorado and directs posting of remedial notice only at E's cooling facility in Colorado)

6700 CONDITIONAL ORDERS

7500 AFFIRMATIVE DEFENSES

Truck Drivers Union Local 164, Teamsters (Evelyn McCann, an Individual, etc.) 274 NLRB No. 134
(E-local's contention that, as labor organization representing large number of Ees, it should be treated more gently than enterprises for profit and should be sheltered by Bd from impact of backpay liability involved herein, rejected; whether financial distress of local entails greater risk of adverse consequences for individuals and community than would similar financial distress of other types is irrelevant, and there is no legal basis in Act or Bd precedents for treating respondent E-U differently than any other type of E)

7515 LACHES

Armour and Company 280 NLRB No. 096
[dismissal of complaint on basis of laches not required by Bd's extended processing matter over nearly 26 month period from filing of charge to hearing, where Respondent not substantially prejudiced]

7516 DELAY IN BOARD PROCEEDINGS

Armour and Company 280 NLRB No. 096
[dismissal of complaint on basis of laches not required by Bd's extended processing matter over nearly 26 month period from filing of charge to hearing, where Respondent not substantially prejudiced]

7518 TRIVIALITY OF VIOLATION

Timet, A Division of Titanium Metals Corporation of America 274 NLRB No. 100
(no remedial order warranted where unlawful threat in violation of 8(a)(1) was isolated event which took place 15 months prior to trial with no evidence of any other ULP)

7530 SETTLEMENT OR WITHDRAWAL OF CHARGES

Armon Company 279 NLRB No. 158
[reference to discriminatees deleted from remedy absent evidence that E failed to comply with part of strike settlement agreement requiring that they be reinstated with backpay]

Jones Plumbing Co., Inc.; et al. d/b/a Instant Plumbing Company 277 NLRB No. 047
(fact Ee received pay for time of unlawful layoff and signed release did not constitute waiver of public remedies of backpay, reinstatement, and notice posting, where record insufficient to determine whether payment constituted full payment of backpay under Bd law, release executed when other discriminatory acts against Ee had not been remedied, nor was charging U involved in execution)

Goodman Holding Company, Inc., and Its Wholly-Owned Subsidiaries, Goodman Manufacturing Corp., etc. 276 NLRB No. 098
(C allegations of unlawful surveillance were properly dismissed where E unilaterally posted notice for 60 days which fully remedied C allegations)

Texaco, Inc. 273 NLRB No. 164
(RD erred in refusing to permit withdrawal of charge alleging E unlawfully withheld accident and sick benefits from Ees who were receiving such benefits prior to economic strike, where parties had reached strike settlement agreement under which U agreed to end strike, withdraw charges, and each Ee was to receive at least $150 in settlement of outstanding contractual claims, since benefits withheld no more than contractual term subsequently negotiated away in good faith, no other ULPs extant and no Ee objected; primary interest served by continual rights of a few Ees rather than public rights)

7538 NO NEED FOR REMEDY AS INFORMATION WAS DISCLOSED AT HEARING

Sonat Marine, Inc. 279 NLRB No. 016
[ALJ's conclusion that remedial order was unwarranted for E's refusal to provide U with requested information, since much of what U sought was presented in evidence at ULP hearing over E's failure to provide information, rejected, since this in no way excuses E's unlawful conduct nor does it constitute an adequate substitute, in law or fact, for direct and prompt compliance with proper request for information]

7542 ECONOMIC OR OTHER HARDSHIP

Strawsine Manufacturing Co., Inc., et al. 280 NLRB No. 083
[even though E closed facility for unlawful reasons, E was not ordered to reopen facility where its fiscal situation had degenerated since time it closed plant and thus, such remedy would impose a severe financial burden]

Davis Coal Company Debtor-In-Possession 275 NLRB No. 103
(bonuses excluded from gross backpay where E paid no bonuses to any Ees during backpay period and that decision was attributable to E's poor financial condition that eventually resulted in cessation of business and filing of bankruptcy ptn; further, to order payment of bonuses would put discriminatees in better position than they would have been absent ULP and thus, would exceed Bd's remedial authority)

Hood Industries, Inc., and Its Wholly Owned Subsidiary, B & K Transportation, Inc. 273 NLRB No. 197
(E which had unlawfully subcontracted its delivery operation and discharged drivers, not ordered to reestablish operation where E sufficiently proved reestablishment of operation would endanger E's viability; furthermore, ULPs would be sufficiently remedied by make whole order covering Ees of discontinued business)

7548 DURESS OR FRAUD

Hotel Holiday Inn De Isla Verde 278 NLRB No. 147
[in deferring, pursuant to ct remand, to strike settlement agreement restricting conditions of reemployment of economic strikers allegedly discharged for misconduct, and vacating its order requiring reinstatement, Bd, in addition to its stated reasons for so holding, based deferral on absence of evidence or allegation that settlement was entered into fraudulently or under duress]

7554 FEDERAL, STATE OR LOCAL LAWS

Local 1136, Laborers (Southern Illinois Builders Association) JD-179-86
[U's defense to backpay specification held frivolous and stricken from ans where U claimed it owed no money to pension and health and welfare funds on discriminatee's account because he was not U's Ee and U was prohibited by Sec. 302 from making such contributions on discriminatee's behalf; U's assertions were unsupported by any facts or argument, and amounts due reflected money which, absent U's discrimination, would have been paid by Ea, and there was no indication such payments would have violated Act]

7555 PENDENCY OF STATE COURT PROCEEDINGS

Medic-Bus Service, Inc. d/b/a A-Medic Ambulance Service 274 NLRB No. 139
(Bd declined to withhold bargaining order against E until final disposition by state ct of derivative shareholder's action against E; obligations imposed by Act are paramount to any conflicting obligation which state ct might impose upon a party; in any event, E offered no evidence that any such order has or would issue from state ct which has issued no restraining order at all, much less order specifically excusing E from its obligations under Act; and E offered no explanation how its compliance with Act might ultimately subject it to liability in state action)

7563 GENERAL COUNSEL'S FAILURE TO ALLEGE VIOLATION OR TAKE EXCEPTION

Woodline Motor Freight, Inc. 278 NLRB No. 152
[discriminatee entitled to R/O notwithstanding GC did not seek reinstatement of discriminatee in C or at hearing, where consolidated C alleges that respondent *closed facility and terminated its Ees working there.* This allegation broad enought to encompass discriminatee since where there is discrimination against class of Ees, GC is not required to name every discriminatee at this stage of the proceeding. Respondent's contention may be addressed at compliance stage]

7575 RESPONDENT'S SUBSEQUENT COMPLIANCE WITH ACT

George Frost Company 279 NLRB No. 124
[upon granting GC's mtn for summary judgment and ordering E to bargain with U, Bd denied GC's request for what appeared to be *visitorial clause,* authorizing Bd, for compliance purposes, to obtain discovery from E under FRCP subject to supervision of ct of appeals enforcing order; under circumstances of case, Bd found it unnecessary to include such clause, citing *Furniture Store of Hazleton,* 278 NLRB No. 34]

7575—Cont.

Teamsters Local 959, State of Alaska, a/w Teamsters (Kodiak Oilfield Haulers, Inc.) JD-(NY)-10-85

(fact that U was willing to meet with E following its unlawful refusal to do so or that contract may have been negotiated and signed subsequently held not to dissipate ULPs found nor make remedial order unnecessary)

7584 RESPONDENT'S LIMITED FINANCIAL RESOURCES

Hood Industries, Inc., and Its Wholly Owned Subsidiary, B & K Transportation, Inc. 273 NLRB No. 197

(E which had unlawfully subcontracted its delivery operation and discharged drivers, not ordered to reestablish operation where E sufficiently proved reestablishment of operation would endanger E's viability; furthermore, ULPs would be sufficiently remedied by make whole order covering Ees of discontinued business)

Bonanza Hills, Inc., d/b/a Sav-Time Markets #1 and #3 JD-SF)-70-85

[Bd has ruled E's alleged inability to pay is irrelevant in proceedings to determine amounts due discriminatorily discharged Ees)

7585 NO LOSS SUFFERED

St. John's General Hospital of Allegheny County—ADR Center 281 NLRB No. 157

[E ordered, if requested by U, to rescind unlawful unilateral changes in regard to rotating work place assignments, wage increases, and method of determining compensation for certain Ees. Absent such request, however, E shall not rescind changes unilaterally made until it has met its bargaining obligations; further, since change affecting wages was not to detriment of Ees, no restitution or make whole remedy required]

Jones Plumbing Co., Inc.; et al. d/b/a Instant Plumbing Company 277 NLRB No. 047

(fact Ee received pay for time of unlawful layoff and signed release did not constitute waiver of public remedies of backpay, reinstatement, and notice posting, where record insufficient to determine whether payment constituted full payment of backpay under Bd law, release executed when other discriminatory acts against Ee had not been remedied, nor was charging U involved in execution)

7587 RESPONDENT'S OPERATIONS ADVERSELY AFFECTED

Woodline Motor Freight, Inc. 278 NLRB No. 152

[trucking company ordered to redomicile tractors to terminal from which tractors relocated to remedy unlawful relocation of tractors, layoff of Ees and reduction of some Ees' hours at that terminal, since such remedy will be ordered to restore status quo ante unless it would be so burdensome as not to effectuate Act]

7590 MOOTNESS

7590-0900 Compliance with ALJ's decision or settlement agreement

Armco Company 279 NLRB No. 158

[reference to discriminatees deleted from remedy absent evidence that E failed to comply with part of strike settlement agreement requiring that they be reinstated with backpay]

7590-1000 Compliance with Board decision

N.L.R.B. v. Gentzler Tool and Die Company 778 F.2d 1211 (C.A. 6, Dec. 1985)

[Bd's order that E sign bargaining agreement and give retroactive effect to its terms, enforced; E's contention that it is in compliance with Bd's order since it had compensated Ees for any losses and restored benefits, and that U had failed to comply with order by declining to correct contract, rejected]

7590-1400 Revision or rescission of invalid rule

Auburn Foundry, Inc. 274 NLRB No. 192

(where rule in E's handbook prohibiting solicitation and distribution w/o permission was found unlawfully broad, and ALJ accepted representation in E's counsel's brief that E had amended handbooks and posted notice to Ees to inform them that rule had been modified to prohibit solicitation on working time, i.e., time when either Ee was working and found no remedial action required, Bd ordered appropriate remedy and left determination of whether rule had been properly modified to compliance stage of proceeding)

7590-2700 Discontinuance of business

Local 3, Electrical Workers (Telecom Plus of Downstate New York, Inc.) 280 NLRB No. 031

[where C alleged that U had unlawfully insisted on tape recording parties' contract negotiations and generally refused to bargain, issuance of RO was inappropriate, even assuming that U's conduct was unlawful, inasmuch as E, after hearing, ceased its operations and terminated all Ees in unit and there was little likelihood that E would resume operations and that U would resume its representative status; notwithstanding issues were moot, C dismissed w/o prejudice to E's filing new charge if it resumed operations and U resumed its representative status]

Vitek Electronics, Inc. v. N.L.R.B. 763 F.2d 561 (C.A. 3, June 1985)

(fact that E closed down plant and bargaining unit no longer exists did not render bargaining order moot or futile even through bargaining order did not order *effects* bargaining since it did order E to bargain concerning rates of pay, wages, hours and other terms and conditions of employment and S.Ct held in *First National Maintenance*, 452 U.S. 666, that this language mandates bargaining over effects of plant closing)

7590-5900 Execution of contract after bargaining

Teamsters Local 959, State of Alaska, a/w Teamsters (Kodiak Oilfield Haulers, Inc.) JD-(NY)-10-85

(fact that U was willing to meet with E following its unlawful refusal to do so or that contract may have been negotiated and signed subsequently held not to dissipate ULPs found nor make remedial order unnecessary)

7590-8100 Repudiation of conduct

Goodman Holding Company, Inc., and Its Wholly-Owned Subsidiaries, Goodman Manufacturing Corp., etc. 276 NLRB No. 098

(C allegations of unlawful surveillance were properly dismissed where E unilaterally posted notice for 60 days which fully remedied C allegations)

7590-9000 Employees affected by unfair labor practices or those having grievances for processing no longer employed

Baker Manufacturing Company 277 NLRB No. 022

(Bd held, on remand from ct, fact that discriminatees had declined offers of reinstatement and that their jobs no longer existed based on economic reasons, rendered issue of propriety of Bd's order to reestablish those positions moot)

7596 CHANGED CIRCUMSTANCES

7596-0800 Change in Board policy

N.L.R.B. v. Ensign Electric Division of Harvey Hubble, Inc., and Steelworkers, Local 5925 (Center on National Labor Policy, Inc.) 767 F.2d 1100 (C.A. 4, July 1985)

(retroactive application of change in Bd law making application of supersenionity in layoff of recording secretary and treasurer unlawful, found not unjust, since law was not settled and change therein not suprising as shown by number of cases with vocal dissents in which question was debated)

Local Union 1395, Electrical Workers v. N.L.R.B. (Indianapolis Power & Light Co.) 797 F.2d 1027 (C.A. D.C., Aug. 1986)

[in reviewing Bd's orders cts customarily defer to Bd's exercise of its *special function of applying the general principles of industrial life*, and such deference is not withheld simply because Bd has departed from a prior policy]

7596-2400 Bankruptcy

Hawg-N-Action, Inc. & J. L. Excavating, Inc. 281 NLRB No. 013

[C alleging 8(a)(5) violations during pendency of bankruptcyy proceedings of E which continued to do business until proceedings were converted to Chapter 7 liquidation, dismissed as to that E, since, for that relevant period Bd had no jurisdiction over its obligations under executory contract absent evidence it did not agree to assume the contract in Chapter 11 proceedings; however, absent evidence that E's alter ego was brought w/i bankruptcy proceedings' jurisdiction, Bd adopted that part of ALJ's recommended order that alter ego recognize and bargain with U]

J & B Smith Company, Inc. 280 NLRB No. 057

[contention made first time in exception to ALJ's decision that ptn in bankruptcy triggered automatic stay and that Bd's enforcement of ALJ's D/O would be *in derogation* of Bankruptcy Code's protection of respondent, rejected since Bd proceedings fall w/i exceptions to automatic stay provisions]

Can-Do, Inc. 279 NLRB No. 111

[in absence of any response to mtn for default summary judgment, Bd granted mtn but made no finding what effect E's alleged filing of intervening bankruptcy ptn would have on 8(a)(5) remedy herein since, unlike in companion case, there was no allegation herein of bankruptcy and charging parties were not same; consequently, Bd left matter to compliance proceedings, noting that, if bankruptcy ptn had been filed, remedy shall be limited in same manner as in companion case; cf. *Can-Do, Inc.*, 279 NLRB No. 108]

Can-Do, Inc. 279 NLRB No. 108

[in absence of answer to C and of response to mtn to show cause why mtn for default summary judgment should not be granted against E who filed bankruptcy ptn after C issued, Bd granted summary judgment and extended 8(a)(5) remedy only to date E filed bankruptcy ptn, which was consistent

7596-2400—Cont.

with S.Ct's *Bildisco* opn that E does not violate 8(a)(5) by changing terms and conditions of agreement during period between filing of bankruptcy ptn and bankruptcy ct's determination whether agreement may be rejected; cf. *Can-Do, Inc.*, 279 NLRB No. 111]

P.J. Hamill Transfer Company, and Robert Blackwell, Trustee in Bankruptcy, alter ego and/or successor, and Brennan Express, Inc., alter egos — 277 NLRB No. 39

(contention bargaining order violated automatic stay of Bankruptcy Code, 11 U.S.C. Sec. 362)

Wolverine Porcelain Enameling Company and Gregory Crampton, Its Trustee in Bankruptcy Under Chapter 7 of The Bankruptcy Act — JD-299-85

(Bd has authority to adjudicate acts alleged to be ULPs that occurred prior to petition for bankruptcy)

N.L.R.B. v. Edward Cooper Painting, Inc., and Cooper & Cooper Painting, an alter ego — 804 F.2d 934 (C.A. 6, Nov. 1986)

[Bd's order against E in bankruptcy proceeding held not void because Bd failed to ptn bankruptcy ct for relief from automatic stay under Bankruptcy Act before proceeding against E; governmental unit which determines that its police powers or regulatory proceeding is excepted from automatic stay under 362(b)(4) of Bankruptcy Act is not required to ptn bankruptcy ct for relief from stay prior to continuing its proceeding, and legislative history of Bankruptcy Act evinces congressional intent to such effect]

N.L.R.B. v. Edward Cooper Painting, Inc., and Cooper & Cooper Painting, an alter ego — 804 F.2d 934 (C.A. 6, Nov. 1986)

[Bd's determination that E in bankruptcy owed backpay to its former Ees held excepted from automatic stay by operation of 362(b)(4) of Bankruptcy Act; accordingly, *entry* of money judgment affirmed but not *enforced*, since governmental units are allowed to fix amount of penalties up to and including entry of money judgment, and only attempts to enforce money judgments are subject to automatic stay]

Wheeling-Pittsburgh Steel Corporation, et al. v. Pennsylvania Human Relations Commission, et al. — ——— F.2d ——— (BC W.D. PA, Aug. 1986)

[injunctive relief to stay proceedings of Bd and other government agencies against debtor in bankruptcy, denied, where proceedings were excepted from automatic stay provisions of Bankruptcy Act since, in investigating and prosecuting alleged violations, agencies acted pursuant to their police powers; and since agencies only wished to enter, but not execute on, money judgments, and to enforce non-monetary judgments, agencies were permitted under Bankruptcy Act to seek to obtain judgments for backpay and back benefits and to enforce back to work orders]

7596-3800 Death of discriminatee

Radio Electric Service Company — 278 NLRB No. 078

[Bd left to compliance stage determination of validity of E's claim that ULP striker was deceased and that, consequently, any reinstatement order regarding striker would be inappropriate, where Bd had no basis for determining validity of E's claim]

7596-4400 Discontinuance of business, department or operation

Local 3, Electrical Workers (Telecom Plus of Downstate New York, Inc.) — 280 NLRB No. 031

[where C alleged that U had unlawfully insisted on tape recording parties' contract negotiations and generally refused to bargain, issuance of RO was inappropriate, even assuming that U's conduct was unlawful, inasmuch as E, after hearing, ceased its operations and terminated all Ees in unit and there was little likelihood that E would resume operations and that U would resume its representative status; notwithstanding issues were moot, C dismissed w/o prejudice to E's filing new charge if it resumed operations and U resumed its representative status]

Woodline Motor Freight, Inc. — 278 NLRB No. 182

[order to redomicile tractors at original terminal, appropriate, where necessary to restore status quo ante and action would not be unduly burdensome; i.e., require capital investment disproportionate to E's resources, or impose substantial, continuing losses. Here, terminal was profitable before discriminatory relocation, and E has continued to operate terminal]

Hood Industries, Inc., and Its Wholly Owned Subsidiary, B & K Transportation, Inc. — 273 NLRB No. 197

(E which had unlawfully subcontracted its delivery operation and discharged drivers, not ordered to reestablish operation where E sufficiently proved reestablishment of operation would endanger E's viability; furthermore, ULPs would be sufficiently remedied by make whole order covering Ees of discontinued business)

7596-5200 Sale of business

N.L.R.B. v. Honaker Mills, Division of Top Form Mills, Inc. — ———F.2d——— (C.A. 4, Feb. 1986)

[E was not released from bargaining order even though it sold business prior to Bd's order, where buyer of business did not admit it was successor E and E had not had chance to establish it no longer had any relationship to facility in question]

7596-5600 Lapse of time

Star Color Plate Service, Division of Einhorn Enterprises, Inc. — 282 NLRB No. 031

[notwithstanding election held 5 years before Bd issued its decision and Certification of Representative during which time E contends that because of substantial Ee turnover U may not represent majority of Ees, Bd granted summary judgment over E's failure to bargain with U in absence of newly discovered evidence]

625 ORDERS AGAINST EMPLOYERS

1100 CEASE-AND-DESIST ORDERS

1133 OMNIBUS CLAUSES

1133-2500 Broad orders (in any other manner)

Horizon Foods, Inc. **280 NLRB No. 127**
[broad order appropriate since E's ULPs were egregious involving unlawful interrogations, threats, solicitation of grievances, promise of benefits, surveillance and discharges]

T & T Machine Company, Inc. **278 NLRB No. 139**
[Bd order warranted in view of numerous and overall egregious nature of violations which included unlawful layoffs, threats, warnings, promise of benefits, interrogations, promulgation of no solicitation/no distribution rule, and soliciting Ees to engage in surveillance]

1167 CEASE-AND-DESIST ORDERS RELATING TO SPECIFIC VIOLATIONS

1167-5000 Unilateral and various other actions

United States Postal Service **281 NLRB No. 032**
[although Bd customarily directs E to restore status quo ante if it has taken unilateral action to Ee's detriment, Bd held c/d order was insufficient where it was unclear whether E's unilateral grievance adjustment was detrimental or beneficial and, consequently, Bd ordered status quo ante restoration conditioned on Ee's desire expressed through U; accordingly, if U elects with Ee's concurrence to have previous conditions restored, E required to set aside unilaterally adjusted grievance, reactivate grievance, and process it in good faith with all due eiligence]

Smyth Manufacturing Co., Inc.; Beacon Industries **277 NLRB No. 066**
(although no exception was taken to ALJ's recommended ban on unilateral subcontracting by E to prevent E from transferring to other shops jobs from which Ees were unlawfully discharged, Bd concluded that words *and forever discontinue* were overly broad; as amended by Bd, Order proscribed such subcontracting for indefinite future but left open possibility of modification of proscription should future events prove that warranted)

1600 REPETITIVE ORDERS

Gentzler Tool & Die Corp. **275 NLRB No. 124**
(notwithstanding Bd has pending ptn for enforcement of its Order requiring execution of contract, retroactive application of contract and that E c/d from dealing directly with Ees, Bd issued another D/O arising from subsequent C finding E violations for refusal to bargain and withdrawal of recognition which are different violations than those found in first decision, and therefore, Order in first decision would not remedy those violations found in second decision; hence, need for another Order)

1900 ORDERS TO ALLEVIATE EFFECT OF FRIVOLOUS LITIGATION

1933 WHAT CONSTITUTES FRIVOLOUS LITIGATION

Shrewsbury Motors, Inc. **281 NLRB No. 081**
[both GC and applicant mtns for relief under *Tidee Products Inc.*, 194 NLRB 1234, on basis that actions of other party *patently frivolous*, rejected, notwithstanding GC did not carry burden to establish that position was substantially justified]

Hydrotherm, Inc. **280 NLRB No. 167**
[application for award of attorney's fees based on alleged frivolity of E's defenses, denied where, although E was unaware of local U's merger at time it rejected U's request to bargain and only learned of it on receiving 8(a)(5) C, in absence of pretrial discovery, E was not in position to determine whether U's merger involved more than name change until evidence was presented at hearing; also, there is no record of *clearly aggravated and pervasive misconduct* by E]

Workroom For Designers, Inc. and Sidney H. Sisselman, an Individual **274 NLRB No. 115**
(award to U of legal fees and expenses, inappropriate, notwithstanding E's numerous and outrageous ULPs, since respondents' defenses were debatable, rather than frivolous, where merits of several of complaint's allegations turned on credibility resolutions, and issues of individual liability of E's chief officer and shareholder and U's alleged misconduct raised unusual legal issues)

1967 TYPES OF ORDER PROVISIONS (SEE ALSO 625-5570)

1967-4000 Reimbursement to union for organizational and negotiation expenses

Workroom For Designers, Inc. and Sidney H. Sisselman, an Individual **274 NLRB No. 115**
(U's requested award of organizing expenses after date strike began denied, since Respondents' ULPs did not interfere with U's attempt to obtain support of majority of E's Ees where majority had signed valid authorization cards by that date, and Bd's bargaining order resulting from finding that E's rejection of U's bargaining demand two days later was sufficient remedy for respondents' ULPs to extent that they interfered with U's attempt to become E's Ees' representative)

1967-5000 Furnish Board documents and records necessary to police compliance

Horizon Foods, Inc. **280 NLRB No. 127**
[GC's request that Bd include *visatorial clause* in Order which would authorize Bd, for compliance purposes, to obtain discovery from E under FRCP under supervision of ct of Appeals, denied]

Hilton Inn North **279 NLRB No. 009**
[*visitorial clause* appropriate based on possible complexity of computing make-whole remedy and on all facts of this case]

United Cloth Company, Inc. **278 NLRB No. 088**
[GC's request for *visitorial clause* in order, authorizing Bd, for compliance purposes, to obtain discovery from Respondent pursuant to Federal Rules of Civil Procedure under supervision of U.S. Ct of Appeals enforcing this order, denied as unnecessary in circumstances herein]

Smyth Manufacturing Co., Inc.; Beacon Industries **277 NLRB No. 066**
(E required to preserve and furnish to Bd agents, on request, for examination and copying, all documents and records related to *subcontracting or assigning to others the manufacture of parts for or on behalf of* E in order for Bd to police compliance with Bd's subcontracting remedy against E)

Quality Rolls, Inc. **JD-189-86**
[Bd has ruled out possibility that *visitorial* language authorizing Bd to engage in discovery to enable it to monitor compliance with Bd order will be incorporated as standard provision, routinely included in all remedial orders]

Sausage Makers' Union, Local 203, Food & Commerical Workers (Western Employer Associates) **JD-(SF)-47-86**
[GC's request for inclusion of *visitorial provision* in remedial order, denied, since Bd has not ordinarily provided for inclusion of such provision in RO's as remedy nor has it formulated any guidelines for inclusion of such provisions in RO's. Moreover, nothing in instant case appears to give rise to concerns that would warrant inclusion of such provision]

Borden Inc. **JD-(SF)-007-86**
[*visitorial clause* authorizing Bd to initiate discovery under Federal Rules of Civil Procedure in connection with compliance with Bd's order (concerning E's unlawful surveillance) as enforced by Ct of Appeals, not granted to GC, since it should not be difficult, on special facts of this case, for Bd or U to readily ascertain if *compliance* with (remedial) order has been accomplished w/o recourse to discovery]

1967-5600 Reimbursement of litigation expenses (See also 625-5570)

1967-5600—Cont.

Springfield Transit Management, Inc. **281 NLRB No. 124**
[Bd declined to order E to reimburse U for litigation fees and expenses related to trial of cases, where E was found to have unlawfully refused to sign contract, such refusal occurred after impasse was reached, state ct had ordered arbitration, and arbitration award setting out terms of contract had issued]

Leon Arie Edrich and Ignatius Elefant, Co-Partners d/b/a Sanford Home For Adults, Successor, et al. (Local 6, International Federation of Health Professionals, Longshoremen) **280 NLRB No. 140**
[respondent, E, is liable to GC for court costs in connection with an Order of Second Circuit Ct of Appeals enforcing Bd backpay and reimbursement Order]

Batavia Nursing and Convalescent Inn **275 NLRB No. 125**
(U's request that E be required to pay U its reasonable legal fees, denied, since E's defenses were not frivolous and turned partly on credibility resolutions)

Workroom For Designers, Inc. and Sidney H. Sitselman, an Individual **274 NLRB No. 115**
(award to U of legal fees and expenses, inappropriate, notwithstanding E's numerous and outrageous ULPs, since respondents' defenses were debatable, rather than frivolous, where merits of several of complaint's allegations turned on credibility resolutions, and issues of individual liability of E's chief officer and shareholdere and U's alleged misconduct raised unusual legal issues)

EPE, Inc. **273 NLRB No. 169**
(E ordered to reimburse U for costs and expenses incurred in preparation and conduct of contract negotiations and in investigation and preparation of instant proceeding, where E's conduct demonstrated a proclivity to violate the Act and E's litigation of instant proceeding was frivolous)

1967-8400 Reimbursement to employees for lost benefits

Jack Nykiel, A Sole Proprietorship, d/b/a Joey's Stables **279 NLRB No. 097**
[E, who unilaterally and unlawfully terminated group insurance payments to U's welfare fund, ordered to make payments to those Ees who shared in costs of group insurance only if (1) Ee or his beneficiaries incurred expenses or suffered losses because of E's unilateral action, and (2) such expenses or losses exceeded amount Ee would have paid for group insurance coverage; and payments to those meeting foregoing conditions to consist of difference between (i) expenses incurred and/or losses suffered, and (ii) amounts Ees would have paid for group insurance]

Jack Nykiel, A Sole Proprietorship, d/b/a Joey's Stables **279 NLRB No. 097**
[E, who unilaterally and unlawfully terminated group insurance payments to U's welfare fund, ordered to make payments to those Ees for whom E paid entire costs of group insurance for any expenses incurred or losses suffered by Ees or beneficiaries as result of E's unilateral action until E reaches agreement with U concerning insurance with U concerning insurance coverage or until impasse is reached]

Jack Nykiel, A Sole Proprietorship, d/b/a Joey's Stables **279 NLRB No. 097**
[two remedial periods provided for in making Ees whole for losses suffered or expenses incurred as result of E's unlawful discontinuance of group insurance payments to U's welfare fund, with first period ending at date of order herein and second ending at agreement or impasse since, if there was only one remedial period losting until agreement or impasse occurred, (1) E might thereby be encouraged to delay bargaining, and (2) Ees or beneficiaries now entitled to remedial payments might suffer considerable delay before receiving remedial payments]

Truck Drivers Union Local 164, Teamsters (Evelyn McCann, an Individual, etc.) **274 NLRB No. 134**
(where E permitted Ees to make personal long-distance telephone calls at E's expense in partial compensation for unpaid overtime, but paid discriminatee's replacement for overtime work with no compensation for overtime with telephone priveges, Bd, while finding it appropriate that discriminatee's backpay be calculated based on hours worked by her replacement, did not include value of telephone privileges in backpay since to do so would be duplicative)

Truck Drivers Union Local 164, Teamsters (Evelyn McCann, an Individual, etc.) **274 NLRB No. 134**
(where Ees were permitted to fill their automobiles' gasoline tanks at E's expense in exchange for E's access to Ees' automobiles for use on business, such gasoline privileges excluded from discriminatee's backpay, since gasoline was quid pro quo for E's access to Ees' automobiles, rather than aspect of Ee benefits)

2200 ORDERS RELATING TO AGREEMENTS

2201 GENERALLY

Richard Burgett, A Sole Proprietor, d/b/a Burgett & Son Masonry and its Alter Ego Consumers Energy Savings System, Inc. **JD-23-86**
[where E unlawfully refused to execute extension agreement negotiated by multi-E association and filed ptn in bankruptcy but continued its business under guise of alter ego company, ALJ held that since ptn was filed after effective date of enactment of Bankruptcy Amendments and Federal Judgeship Act, extension agreement was enforceable against E; moreover, since E's alter ego company was not shown to have been brought into that proceeding; any remedy pertaining to it was unaffected]

2267 ORDERS CONCERNING CONTRACTUAL BENEFITS

2267-3300 Restoration of benefits

Wheeling-Pittsburgh Steel Corporation, et al. v. Pennsylvania Human Relations Commission, et al. **——— F.2d ——— (BC W.D. PA, Aug. 1986)**
[in denying injunctive relief to stay proceedings of Bd and other government agencies against debtor in bankruptcy, ct held that, as long as agencies are not attempting to enforce any money judgments against debtor, Bankruptcy Act permits agencies to seek to obtain judgments against debtor for backpay and back benefits and to enforce back to work orders]

2267-5000 Arbitration

Combustion Engineering Inc. **274 NLRB No. 172**
(as Bd decision deferring to arbitration award that found E liable for unilateral changes to absenteeism and tardiness system only involved two Ees, GC's mtn for reconsideration contending that Bd's order was not adequate because it did not provide remedy to numerous other Ees adversely affected by E's conduct, granted and jusisdiction retained to review, upon mtn, grievance proceedings or awards arising from E's unlawful action, where arbitrator had no authority to remedy violation he found)

2267-6700 Make employees whole for loss of benefits

Combustion Engineering Inc. **274 NLRB No. 172**
(as Bd decision deferring to arbitration award that found E liable for unilateral changes to absenteeism and tardiness system only involved two Ees, GC's mtn for reconsideration contending that Bd's order was not adequate because it did not provide remedy to numerous other Ees adversely affected by E's conduct, granted and jusisdiction retained to review, upon mtn, grievance proceedings or awards arising from E's unlawful action, where arbitrator had no authority to remedy violation he found)

2283 ORDERS CONCERNING BENEFITS UNLAWFULLY GRANTED

Americana Healthcare Center **273 NLRB No. 213**
(where E unlawfully terminated agreed-upon sick leave provision which, by mutual mistake of parties, was not incorporated into agreement, E ordered to make whole Ees who would have been entitled to sick leave benefits by providing them with sick leave credit since E's unlawful discontinuance thereof)

Americana Healthcare Center **273 NLRB No. 213**
(where E unlawfully terminated agreed-upon sick leave provision which, by mutual mistake of parties, was not incorporated into agreement, E ordered to compensate Ees for unused sick leave in accordance with established procedure; although Ees may not have *requested* compensation, such requests shall be presumed, since requests would have been futile in light of E's unlawful action in discontinuing sick leave benefits)

2291 ORDERS CONCERNING BENEFITS UNLAWFULLY WITHHELD

Government Employees (Office Employees, Local No. 2) **278 NLRB No. 055**
[E must compensate all Ees from whom scheduled annual leave was unlawfully withheld due to strike participation, including those Ees who had not submitted formal leave slips before strike, where E practice was to schedule leave by several methods other than formal slips]

Thomas Sheet Metal Co., Inc.; et al. **JD-(ATL)-86-86**
(Bd does not provide for interest at fixed rate on benefit fund payments due as part of make-whole remedy, since provisions of Ee benefit fund agreements are varable and complex; accordingly, question of amount of interest E must pay into benefit fund in order to satisfy make-whole remedy left to further proceedings)

3300 REINSTATEMENT ORDERS

3301 GENERALLY

Sure-Tan, Inc., et al. v. N.L.R.B. **———U.S.——— (US S.CT, June 1984)**
[circuit ct's modification of Bd's order to require that reinstatement offers to constructively discharged illegal alien Ees, who had left the country rather

3301—Cont.

than be deported, be held open for four years, reversed, since circuit ct had no justifiable basis for displacing Bd's discretionary judgment about proper time period for acceptance of the reinstatement offers; instead, circuit ct was required to remand case to Bd to consider alternative grounds on which ct believed the offers to have been deficient and to decide upon new forms for the reinstatement offers]

3317 ENTITLEMENT OF EMPLOYEES TO REINSTATEMENT

3317-0100 Generally

General Teamsters Local No. 162 v. N.L.R.B. (Western Pacific Construction Materials Co.) 782 F.2d 839 (C.A. 9, Feb. 1986)

[although reinstatement and backpay are conventional remedies ordered to redress unlawful discharge, Bd may withhold such remedies where they would not effectuate purpose of Act]

3317-0600 Employees with substantially equivalent employment elsewhere

Lone Star Industries, Inc. 279 NLRB No. 078

[E's obvious failure to discharge its burden in establishing that Ee had obtained comparable employment as basis for excluding him from possible recall made E's action violative, since E disqualified for reinstatement those Ees it deemed on basis of *insufficient information* to have obtained comparable employment where basis was whether Ee was employed in *same type of job, with competitor,* but no further check as to wages, benefits, job assignments, etc.]

Daniel Construction Company, A Division of Daniel International Corporation 276 NLRB No. 115

(E's responsibility to offer to reinstate unlawfully discharged Ees and to make them whole for losses does not terminate in event Ees obtain substantially equivalent employment elsewhere; fact that E lost maintenance and construction contract at location where Ees were discharged does not terminate backpay liability upon Ees' obtaining equivalent employment where E demonstrated it could transfer Ees, not hired by replacement contractor, to other operations)

3317-0900 Discriminatees

Donald Dunn d/b/a D.C. Construction Company 276 NLRB No. 097

(order requiring E to offer reinstatement and backpay to Ee unlawfully denied reemployment after lawful layoff held not subject to alteration where E had originally hired Ee, even though all vacancies at that time had been filled by referrals; and it was fair to assume E would exhibit same flexibility in connection with recall of Ee as whown upon his initial hire, were it not possessed of intent to discriminate)

Quality Rolls, Inc. JD-189-86

[burden for substantiating facts rendering discriminatees unfit for reinstatement because of misconduct is on party seeking to block reinstatement; while Bd does not condone serious Ee misconduct, it requires actual proof of such misconduct before denying reinstatement to unlawfully discharged Ees]

Quality Rolls, Inc. JD-189-86

[traditional remedy for discriminatory discharge withheld from Ee involved in leaving work early prior to end of shift and from fellow Ee who punched out departing Ee's time card so he could leave early; such misconduct transcends ordinary breaches of work responsibility, raises questions of basic integrity, and presents risk which no E should bear]

3317-1200 ULP strikers

Dublin Town Ltd. 282 NLRB No. 046

[issues regarding reinstatement of ULP strikers, assertedly engaged in post discharge strike misconduct, left to compliance stage because of incomplete record regarding misconduct]

Ashe Brick Company 280 NLRB No. 162

[E ordered to reinstate all strikers who were permanently replaced after economic strike converted to ULP strike. As to strikers who were replaced prior to its conversion to ULP strike, those not permanently replaced are to be offered immediate reinstatement, and those strikers permanently replaced are to be placed on preferential hiring list]

N.L.R.B. v. Charles D. Bonanno Linen Service, Inc. 782 F.2d 7 (C.A. 1, Jan. 1986)

[E ordered to place former strikers replaced during economic phase of strike which subsequently converted to ULP strike, on preferential hiring list; E's contention order punitive and abuse of Bd's discretion since more expansive than violation, rejected, where Bd found both precise violation of Sec. 8(a)(3) for refusing to reinstate strikers replaced after conversion of strike to ULP strike, and a general violation of Secs. 8(a)(3) and (1) in its general disregard of reinstatement rights of all ULP strikers; nor did fact no violation of Ees' preferential hiring rights had yet occured render order inappropriate]

3317-1700 Economic strikers

Aluminum Welding & Machine Works, Inc. 282 NLRB No. 062

[E's argument that economic striker was not entitled to reinstatement because he accepted regular and substantially equivalent employment elsewhere, rejected where E at no time sought to ascertain intention of economic striker concerning recall and striker's intention was shown by his unconditional offer to return to work and his appearance at E's facility when solicited regarding position in another department]

Ashe Brick Company 280 NLRB No. 162

[E ordered to reinstate all strikers who were permanently replaced after economic strike converted to ULP strike. As to strikers who were replaced prior to its conversion to ULP strike, those not permanently replaced are to be offered immediate reinstatement, and those strikers permanently replaced are to be placed on preferential hiring list]

Hotel Holiday Inn De Isla Verde 278 NLRB No. 147

[upon ct remand, Bd deferred to strike settlement agreement restricting conditions of reemployment of economic strikers allegedly discharged for misconduct, and vacated its order requiring reinstatement where at time of settlement, there was no finding strikers had been unlawfully discharged and, thus, they did not have legal right to remedy nor did E have legal obligation to provide remedy; here, in return for meeting on some middle ground, E voluntarily offered to reinstate strikers, and both E and U voluntarily offered to forgo any adjudication rights they might have had]

Hotel Holiday Inn De Isla Verde 278 NLRB No. 147

[in deferring, pursuant to ct remand, to strike settlement agreement restricting conditions of reemployment of economic strikers allegedly discharged for misconduct, and vacating its order requiring reinstatement, Bd, in addition to its stated reasons for so holding, based deferral on absence of evidence or allegation that settlement was entered into fraudulently or under duress]

U.S. Mineral Products Co. 276 NLRB No. 022

]*substantially equivalent* employment includes *same shift*; and had economic striker refused any but first shift (striker's prior work shift) she would not have lost her status on preferential hiring list)

Coastside Scavenger Company 273 NLRB No. 198

(existence of temporary job is not equivalent of vacancy to which striker should have been reinstated)

Coastside Scavenger Company 273 NLRB No. 198

(temporary notice of job *is* critical factor in determining whether it is *substantially equivalent* to what position a striker had held)

3317-1800 Discharged strikers

Auburn Foundry, Inc. 274 NLRB No. 192

(economic strike who began striking in April and was unlawfully discharged in August ordered to be reinstated and his replacement dismissed only if replacement had been hired after striker was discharged)

3317-2300 Supervisors

Advertiser's Manufacturing Company 280 NLRB No. 128

[E to reinstate with backpay supervisor discharged solely because of her son's U activities]

3317-2900 Laid-off employees

The Zack Company 278 NLRB No. 134

[Bd provided its usual reinstatement order where Ees were rehired after unlawful layoff but were again laid off; since issues of their reinstatement and subsequent layoff were not litigated, Bd left to compliance stage resolution of such issues]

3317-3000 Discharged employees

Radisson Muehlebach Hotel 273 NLRB No. 183

(cease and desist order, rather than reinstatement and backpay orders appropriate remedy for dischargee where, although his *Weingarten* rights were violated, he was not discharged as result of the violative interview or for asserting his *Weingarten* rights, but for his own misconduct)

3317-9200 Employees of debtor in bankruptcy

3317-9200 Employees of debtor in bankruptcy

Wheeling-Pittsburgh Steel Corporation, et al. v. Pennsylvania Human Relations Commission, et al. ——— F.2d ——— (BC W.D. PA, Aug. 1986)

[in denying injunctive relief to stay proceedings of Bd and other government agencies against debtor in bankruptcy, ct held that, as long as agencies are not attempting to enforce any money judgments against debtor, Bankruptcy Act permits agencies to seek to obtain judgments against debtor for backpay and back benefits and to enforce back to work orders]

3317-9200—Cont.

Wheeling-Pittsburgh Steel Corporation, et al. v. Pennsylvania Human Relations Commission, et al.
——— F.2d ——— (BC W.D. PA, Aug. 1984)
[in bankruptcy proceeding, ct held enforcement of back to work order was not tantamount to enforcement of money judgment, as in backpay and benefit orders, which is not enforceable in bankruptcy w/o ct order; back to work order is not intended to provide monetary compensation for past injuries but rather to redress future harm arising from continued unemployment as result of wrongful termination, and is not attempt to enforce money judgment; and payment of money to reinstated Ee is consideration for past-reinstatement work and not compensation for past harm]

3317-9400 Illegal alien

Sure-Tan, Inc. and Surak Leather Co. 277 NLRB No. 023
(upon ct of appeals' remand pursuant to S.Ct remand for formulation of appropriate remedial order pertaining to deported undocumented alien discriminatees, Bd held that where Spanish-speaking discriminatees' last known locations were in Mexico it was, as stated by S.Ct, *trivial burden* to require E to draft reinstatement offers in Spanish and to verify their receipt; and that 4 years was reasonable period for holding job offers open given lengthy time required for Mexican nationals to acquire immigrant visas; *General Iron Corp.*, 218 NLRB 770 distg.)

Sure-Tan, Inc. and Surak Leather Co. 277 NLRB No. 023
(upon ct of appeals' remand pursuant to S.Ct remand for formulation of appropriate remedial order pertaining to deported undocumented alien discriminatees, Bd held that E's offers of reinstatement were not valid since offers, which remained open for some 34 days, did not give discriminatees reasonable time to consider offer or to make arrangements for legally entering the United States)

Sure-Tan, Inc. and Surak Leather Co. 277 NLRB No. 023
(upon ct of appeals' remand pursuant to S.Ct remand for formulation of appropriate order pertaining to deported ondocumented alien discriminatees of Mexican origin, Bd ordered that offers of reinstatement be written in Spanish, remain open for 4 years after receipt, and be delivered in manner allowing verification of receipt; and offers must advise discriminatees that E has no obligation to reinstate them unless they are legally present in the United States and are legally free to be employed when they offer themselves for reinstatement)

3333 MANNER OF REINSTATEMENT

3333-2000 Reinstatement to former or substantially equivalent position

3333-2025 Substantially equivalent position acceptable only if former position no longer exists

U.S. Mineral Products Co. 276 NLRB No. 022
]*substantially equivalent* employment includes *same shift*; and had economic striker refused any but first shift (striker's prior work shift) she would not have lost her status on preferential hiring list)

Professional Porter and Window Cleaning Co., A Division of Propoco, Inc.; Professional Services, A Division of Propoco, Inc. 275 NLRB No. 004
(in making offers to reinstate discriminatee to job at different location, E did not even attempt to show that her former job no longer existed)

3333-2037 Only within specified location or unit

Professional Porter and Window Cleaning Co., A Division of Propoco, Inc.; Professional Services, A Division of Propoco, Inc. 275 NLRB No. 004
(offers which were for job at different location, not substantially equivalent; commutation to that job would have cost discriminatee twice as much travel time and far greater expense, and she would have been represented by different U)

3333-2050 Position not substantially equivalent where

3333-2050-0800 Temporary position

Coastside Scavenger Company 273 NLRB No. 198
(temporary nature of job *is* critical factor in determining whether it is *substantially equivalent* to what position a striker had held)

3333-2050-3100 Different shift or hours

U.S. Mineral Products Co. 276 NLRB No. 022
]*substantially equivalent* employment includes *same shift*; and had economic striker refused any but first shift (striker's prior work shift) she would not have lost her status on preferential hiring list)

3333-2050-4700 Different location

Professional Porter and Window Cleaning Co., A Division of Propoco, Inc.; Professional Services, A Division of Propoco, Inc. 275 NLRB No. 004
(offers which were for job at different location, not substantially equivalent; commutation to that job would have cost discriminatee twice as much travel time and far greater expense, and she would have been represented by different U)

N.L.R.B. v. Seligman and Associates, Inc., and Its Wholly Owned Division, Scott Management Company 808 F.2d 1155 (C.A. 6, Dec. 1986)
[*conditional offer* of alternative employment, rather than unconditional offer of reinstatement, does not toll E's backpay obligation, since there was no showing nor finding that caretaker position at E's apartment complex some 30 to 50 miles distant from complex (from which 2 Ees were discharged) had been filled by time E communicated its conditional offer]

3333-6000 Discharge of replacements

Rockwood & Company and W. H. Gonyea Trust No. 1–17 d/b/a Timber Products Co. 281 NLRB No. 117
[contrary to ALJ's recommendation that E be ordered to offer former economic strikers, wrongfully denied opportunity to form machine operating crew, preferential consideration for transfer to such jobs if they so desire, Bd ordered E to offer each Ee immediate transfer to operating crew, displacing, if necessary, new Ees hired to form crew]

3333-8000 Validity of reinstatement offer

IMCO/International Measurement & Control Company, Inc. 277 NLRB No. 096
(E's refusal to pay reinstated discriminatee pay rate which included general raises granted Ees during discriminatee's interim backpay period constituted failure to make valid reinstatement offer; and since, E's offer set discriminatee's wage rate at amount less than that to which she was entitled, her acceptance of offer did not toll E's backpay liability; accordingly, E required to pay discriminatee, in addition to interim backpay, difference between actual rate of pay following return to work and rate which she should have received)

3333-8001 Generally

3333-8001-8000 Must be offer of employment

N.L.R.B. v. Seligman and Associates, Inc., and Its Wholly Owned Division, Scott Management Company 808 F.2d 1155 (C.A. 6, Dec. 1986)
[offer of reinstatement phrased as a question such as *[f (E) offered you your job back with backpay, would you take it?* not invalid. However, offer must still indicate availability of former (job) or comparable position. E's offer, in instant case, did not convey that there was job immediately available. Question put to Ee as to whether he would return to work if offered reinstatement does not present specific, unequivocal offer of reinstatement]

John Cuneo, Inc. v. N.L.R.B. 792 F.2d 1181 (C.A. D.C., June 1986)
[E's offer of reinstatement ineffective since not sufficiently specific nor unequivocal and did not afford Ee adequate time (only 4 days) to consider his reply; further, Bd not precluded from asserting mailgram did not constitute valid offer of reinstatement by fact in earlier briefs Bd referred to mailgram as offer of reinstatement as this issue was neither litigated nor decided in the earlier proceeding]

3333-8033 Mechanics of offer

3333-8033-1200 Receipt of offer

A & T Manufacturing Company 280 NLRB No. 186
[E's letter offering discriminatee reinstatement by specified date held not valid offer where discriminatee, who was out of town, did not respond in timely fashion, but upon receipt of letter immediately called E who, having no intention of reinstating discriminatee, indicated to him that no work was available (Combs)]

O.K. Machine & Tool Corp. And Gyrotronics, Inc. 279 NLRB No. 049
[E was under continuing obligation to reinstate Ee where Ee never received E's valid offer of reinstatement; backpay period ended on date E mailed Ee good-faith offer of reinstatement, but Ee did not recieve offer since he had moved leaving no forwarding address; while E's good faith offer tolled E's backpay liability, it did not relieve E of its obligation to reinstate Ee]

3333-8033-3700 Offer by ordinary mail or telephone

Niagara Falls Sightseeing By Sheridan, Inc. 279 NLRB No. 007
[no valid offer of reinstatement where E allegedly made two telephone calls to discriminatee's family offering reinstatement w/o attempting to communicate directly with discriminatee orally or in writing; moreover, compliance instructions direct that reinstatement offers be made in writing with copy served on Bd's compliance officer]

3333-8033-5600 Offer to foreign language speaking employees

Sure-Tan, Inc., et al. v. N.L.R.B. ———U.S.——— (US S.CT, June 1984)
[circuit ct decision modifying Bd's order to require that reinstatement offers to constructively discharged illegal alien Ees who had left the country rather than be deported be drafted in Spanish and their receipt be verified.

3333-8033-5600—Cont.

reversed, since modification requirement exceeded ct's limited authority of judicial review; appropriate course was to remand case for reconsideration to Bd with its broad powers to fashion remedies to effectuate national labor policy and superior expertise and long experience in doing so; case remanded to ct for remand to Bd for formulation of remedial order consistent with this opn]

Sure-Tan, Inc. and Surak Leather Co. 277 NLRB No. 023

(upon ct of appeals' remand pursuant to S.Ct remand for formulation of appropriate remedial order pertaining to deported undocumented alien discriminatees, Bd held that where Spanish-speaking discriminatees' last known locations were in Mexico it was, as stated by S.Ct, *trivial burden* to require E to draft reinstatement offers in Spanish and to verify their receipt; and that 4 years was reasonable period for holding job offers open given lengthy time required for Mexican nationals to acquire immigrant visas; *General Iron Corp.*, 218 NLRB 770 distg.)

Sure-Tan, Inc. and Surak Leather Co. 277 NLRB No. 023

(upon ct of appeals' remand pursuant to S.Ct remand for formulation of appropriate order pertaining to deported undocumented alien discriminatees of Mexican origin, Bd ordered that offers of reinstatement be written in Spanish, remain open for 4 years after receipt, and be delivered in manner allowing verification of receipt; and offers must advise discriminatees that E has no obligation to reinstate them unless they are legally present in the United States and are legally free to be employed when they offer themselves for reinstatement)

3333-8033-7500 Time limit must be reasonable

A & T Manufacturing Company 280 NLRB No. 106

[offer of reinstatement not valid where offer had expired before it was received by discriminatee and therefore it did not give discriminatee, having fundamental right to consider whether to return to work after receiving reinstatement offer, such reasonable time to consider offer (Adams)]

A & T Manufacturing Company 280 NLRB No. 106

[offer of reinstatement conditioned on discriminatee's returning to work in only 3 days from receipt of letter containing offer held invalid, since it did not give discriminatee reasonable time to consider offer, particularly since there was intervening weekend when discriminatee would have been unable to discuss situation with E (Combs)]

Sure-Tan, Inc. and Surak Leather Co. 277 NLRB No. 023

(upon ct of appeals' remand pursuant to S.Ct remand for formulation of appropriate order pertaining to deported undocumented alien discriminatees of Mexican origin, Bd ordered that offers of reinstatement be written in Spanish, remain open for 4 years after receipt, and be delivered in manner allowing verification of receipt; and offers must advise discriminatees that E has no obligation to reinstate them unless they are legally present in the United States and are legally free to be employed when they offer themselves for reinstatement)

John Cuneo, Inc. v. N.L.R.B. 792 F.2d 1181 (C.A. D.C., June 1986)

3333-8067 Circumstances of offer

3333-8067-1200 Must be in good faith

IMCO/International Measurement & Control Company, Inc. 277 NLRB No. 096

(E failed to make valid bona fide reinstatement offer to discriminatee, where discriminatee's failure to report for work on particular day unilaterally set by E did not indicate waiver of reinstatement rights, particularly where she expressly and continuously indicated desire to return to work; E went through formalities of job offer but rebuffed discriminatee's efforts at every opportunity; E was not damaged by discriminatee's 2-week delay in reporting for work occasioned by trip outside state; and discriminatee's telephone inquiries, when E delayed making reinstatement offer, were routinely rebuffed)

Workroom For Designers, Inc. and Sidney H. Simelman, an Individual 274 NLRB No. 115

(respondents' frequent appeals to strikers to return to their jobs, not valid offers of reinstatement where they were preceded by threats that strikers would never return and followed by threats and verbal and physical abuse, and where respondents reacted to strikers' unconditional offer to return to work with conduct indicating no intention of reinstating substantial number of strikers)

3333-8067-3700 Reinstatement at new location valid if moving expenses are paid

Struwsine Manufacturing Co., Inc., et al. 280 NLRB No. 063

[in case involving E's unlawful removal of operations to another state, E ordered to offer Ees who were terminated substantially equivalent positions at new facility or any of E's other plants, with traveling and moving expenses and backpay; further, backpay period for Ees who are unable to accept offers of employment that require moving is from date of termination to date Ees secures substantially equivalent employment with another E]

3333-8067-4400 What constitutes unconditional offer

Daniel Construction Company, A Division of Daniel International Corporation 276 NLRB No. 115

(valid offer of reinstatement made where E's foreman phoned Ee and inquired into his interest in returning to work; moreover, Ee felt foreman was offering him reinstatement)

N.L.R.B. v. Seligman and Associates, Inc., and Its Wholly Owned Division, Scott Management Company 808 F.2d 1155 (C.A. 6, Dec. 1986)

3333-8067-5025 Withdrawal of charges

Lord Jim's 277 NLRB No. 176

3350 AFFIRMATIVE DEFENSES

3350 AFFIRMATIVE DEFENSES

3350-0700 Refusal of reinstatement offer

Pacific Mutual Door Company 278 NLRB No. 120

[E's offer of reinstatement to two economic strikers were neither invalid, conditional nor discriminatory, notwithstanding facts that offers were made seriatim, not by seniority, and directly to Ees; fact that reinstatement offers were made to less than all eligible former strikers at onetime did not render each offer invalid; thus, rejection of E's reinstatement offers to eligible strikers tolled their backpay and satisfied E's reinstatement obligation with respect to alleged ULPs]

N.L.R.B. v. Seligman and Associates, Inc., and Its Wholly Owned Division, Scott Management Company 808 F.2d 1155 (C.A. 6, Dec. 1986)

[*conditional offer* of alternative employment, rather than unconditional offer of reinstatement, does not toll E's backpay obligation, since there was no showing nor finding that caretaker position at E's apartment complex some 30 to 50 miles distant from complex (from which 2 Ees were discharged) had been filled by time E communicated its conditional offer]

3350-1100 Misconduct during strike

3350-1133 Reinstatement not barred

3350-1133-5000 Minor acts of violence

Olympic Limousine Service, Inc. 278 NLRB No. 133

[Ee is entitled to reinstatement, notwithstanding he pled guilty to assault against supervisor at plant after he was unlawfully discharged, where assault was not pre-planned, action was provoked by supervisor screaming profanities at him and E had allowed other non-Ees to enter premises w/o questioning them and thus, conduct was not so egregious so as to deny him reinstatement]

3350-1133-7500 Other strikers' misconduct

Washington Materials, Inc., t/a Buffalo Concrete; et al. 276 NLRB No. 040
(E's refusal to reinstate striker, assertedly because he had participated in assault upon nonstriking Ee, violative, where striker was not actually involved in assault but rather simply told one of E's drivers who witnessed assault by another striker not to *get on the radio,* which was an ambiguous statement and could not show that striker acted in concert with striker engaged in serious misconduct)

3350-1167 Reinstatement barred

3350-1167-0400 Balancing of misconduct in light of ULPs

Carbo Fuel Oil; Gibralter Heat Corp.; Concord Oil Corp. JD-(NY)-24-85
(Bd's traditional balancing test applied and E, while not required to reinstate discriminatorily discharged Ees, ordered to make them whole for back pay until they obtain substantially equivalent employment elsewhere, where U steward and son, immediately after their unlawful discharges which substantially provoked them, threatened company president with bodily harm; such reaction by Ees, instead of taking recourse to known legal remedies, was less justified as would be case with unsophisticated Ees; and any amicable relationship between parties, should Ees be reinstated, was improbable)

3350-1167-0900 Commission of crime

Olympic Limousine Service, Inc. 278 NLRB No. 133

3350-1167-3600 Damage to property or creating risk thereof

Pacific Mutual Door Company 278 NLRB No. 120
[economic striker's discharging weapon at plant entrance held to be serious strike misconduct which justified E's refusal to reinstate him]

Pacific Mutual Door Company 278 NLRB No. 120
[striker's attempting to slash tire on truck and attempting to slash at security guard until another guard pulled him away held serious strike misconduct which justified E's refusal to reinstate him]

3350-1167-6300 Picket line violence

Pacific Mutual Door Company 278 NLRB No. 120
[striker's attempting to slash tire on truck and attempting to slash at security guard until another guard pulled him away held serious strike misconduct which justified E's refusal to reinstate him]

General Teamsters Local No. 162 v. N.L.R.B. (Western Pacific Construction Materials Co.) 782 F.2d 839 (C.A. 9, Feb. 1986)
[Bd did not abuse its discretion in refusing to order reinstatement or award backpay to striker who was unlawfully discharged for alleged misconduct in which he did not in fact engage, but who later committed egregious acts of strike misconduct in forcing nonstriking Ee's car off road and twice physically assaulting and threatening non-striker]

3350-1167-8100 Threats of bodily harm and other threats

Fiber Glass Systems, Inc. 278 NLRB No. 154
[discriminatee's pointing pistol at Ee and threatening to kill him if he did not vote for U terminated entitlement to backpay and barred reinstatement]

Carbo Fuel Oil; Gibralter Heat Corp.; Concord Oil Corp. JD-(NY)-24-85
(Bd's traditional balancing test applied and E, while not required to reinstate discriminatorily discharged Ees, ordered to make them whole for back pay until they obtain substantially equivalent employment elsewhere, where U steward and son, immediately after their unlawful discharges which substantially provoked them, threatened company president with bodily harm; such reaction by Ees, instead of taking recourse to known legal remedies, was less justified as would be case with unsophisticated Ees; and any amicable relationship between parties, should Ees be reinstated, was improbable)

3350-1500 Violations of other laws

Programming & Systems, Inc. 275 NLRB No. 157
(conventional reinstatement and backpay orders do not preclude respondent, in compliance stage of instant proceeding, from showing that it subsequently would have discharged Ees for lawful reasons of lack of qualifications under state law to hold position of teacher)

3350-1800 Commission of crime

Local 512, Warehouse and Office Workers' Union, Ladies Garment Workers v. N.L.R.B. 795 F.2d 705 (C.A. 9, July 1986)
[undocumented aliens entitled to protection of Act and are entitled to backpay when remaining in U.S. and available for work during backpay period, notwithstanding illegal entry into U.S. and contention such illegal aliens suffered no harm since they were not legally entitled to work]

3350-2100 Falsification of employment application

Fiber Glass Systems, Inc. 278 NLRB No. 154
[discriminatee's lying about employment history on job applicatic.., which was brought out at hearing during cross-examination, not grounds for denying backpay and reinstatement, absent showing E would not have hired him but for reliance on false information]

John Cuneo, Inc. v. N.L.R.B. 792 F.2d 1181 (C.A. D.C., June 1986)
[remand to Bd to decide whether Ee forfeited permanent status with Respondent E, which status would effect his entitlement to backpay, when he deliberately misrepresented to Respondent on employment application that he was unemployed when in fact he was temporarily laid off at another E, and to determine what Respondent E must prove to show it would not have hired Ee had it known his true employment status]

3350-5300 Lack of vacancies

Coastside Scavenger Company 273 NLRB No. 198
(existence of temporary job is not equivalent of vacancy to which striker should have been reinstated)

Coastside Scavenger Company 273 NLRB No. 198
(temporary nature of job *is* critical factor in determining whether it is *substantially equivalent* to what position a striker had held)

3350-5900 Employee would have been discharged or laid off for nondiscriminatory reasons

Programming & Systems, Inc. 275 NLRB No. 157
(conventional reinstatement and backpay orders do not preclude respondent, in compliance stage of instant proceeding, from showing that it subsequently would have discharged Ees for lawful reasons of lack of qualifications under state law to hold position of teacher)

3350-6100 Misconduct constituting cause for discharge

Quality Rolls, Inc. JD-189-86
[burden for substantiating facts rendering discriminatees unfit for reinstatement because of misconduct is on party seeking to block reinstatement; while Bd does not condone serious Ee misconduct, it requires actual proof of such misconduct before denying reinstatement to unlawfully discharged Ees]

Quality Rolls, Inc. JD-189-86
[traditional remedy for discriminatory discharge withheld from Ee involved in leaving work early prior to end of shift and from fellow Ee who punched out departing Ee's time card so he could leave early; such misconduct transcends ordinary breaches of work responsibility, raises questions of basic integrity, and presents risk which no E should bear]

3350-7000 Unavailability of employee for work

3350-7025 Cannot be located

O.K. Machine & Tool Corp. And Gyrotronics, Inc. 279 NLRB No. 069
[E was under continuing obligation to reinstate Ee where Ee never received E's valid offer of reinstatement; backpay period ended on date E mailed Ee good-faith offer of reinstatement, but Ee did not recieve offer since he had moved leaving no forwarding address; while E's good faith offer tolled E's backpay liability, it did not relieve E of its obligation to reinstate Ee]

3350-8100 Employee has regular and substantially equivalent employment elsewhere

Aluminum Welding & Machine Works, Inc. 282 NLRB No. 062
[E's argument that economic striker was not entitled to reinstatement because he accepted regular and substantially equivalent employment elsewhere, rejected where E at no time sought to ascertain intention of economic striker concerning recall and striker's intention was shown by his unconditional offer to return to work and his appearance at E's facility when solicited regarding position in another department]

Lone Star Industries, Inc. 279 NLRB No. 078
[E's obvious failure to discharge its burden in establishing that Ee had obtained comparable employment as basis for excluding him from possible recall made E's action violative, since E disqualified for reinstatement those Ees it deemed on basis of *insufficient information* to have obtained comparable employment where basis was whether Ee was employed in *same type of job, with competitor,* but no further check as to wages, benefits, job assignments, etc.]

3350-9700 Waiver

3350-9700—Cont.

Woodline Motor Freight, Inc. 278 NLRB No. 152
[discriminatee did not waive right to reinstatement by his expressed intent to resign, but did not do so, where offer was invalid, inasmuch as descriminatee reasonably feared further discrimination should they return to E's employ, and were likely to change minds when presented with valid offer. Discriminatee does not waive reinstatement by his response to invalid offer]

3383 SPECIAL TYPES OF REINSTATEMENT ORDERS

3383-0900 Conditional orders

3383-0936 Conditioned on resumption of operations

Institute of Technical Careers, Inc.; Arthur J. Schuh, Trustee in Bankruptcy 279 NLRB No. 105

3383-0972 Conditioned on discriminatees' abandonment of competitive business

Power-Seal Corporation 276 NLRB No. 036
(E may condition reinstatement of one of discharged Ees on divestiture of his interest in competing business and may condition reinstatement of all Ees on divestitue by their father and husband, respectively, of his interest in competing business)

3383-1400 Reinstate economic strikers even though permanently replaced

Rockwood & Company and W. H. Gonyea Trust No. 1--17 d/b/a Timber Products Co. 281 NLRB No. 117
[contrary to ALJ's recommendation that E be ordered to offer former economic strikers, wrongfully denied opportunity to form machine operating crew, preferential consideration for transfer to such jobs if they so desire, Bd ordered E to offer each Ee immediate transfer to opereting crew, displacing, if necessary, new Ees hired to form crew]

3383-2700 To plant or job other than discriminatee's former plant or job

3383-2709 At new plant where former plant closed

3383-2709-5000 With necessary traveling and moving expense

Strawsine Manufacturing Co., Inc., et al. 280 NLRB No. 063
[in case involving E's unlawful removal of operations to another state, E ordered to offer Ees who were terminated substantially equivalent positions at new facility or any of E's other plants, with traveling and moving expenses and backpay; further, backpay period for Ees who are unable to accept offers of employment that require moving is from date of termination to date Ees secures substantially equivalent employment with another E]

3383-2785 To steward's position

Orleans International, Inc. 274 NLRB No. 169
(E not required to recognize as steward upon his reinstatement, individual who had been U steward when he was unlawfully discharged, since E has no authority to designate steward; however, if U should select him as steward E obligated to recognize him as such)

3383-7700 Maintain offer for extended period of time

Sure-Tan, Inc., et al. v. N.L.R.B. ——U.S.——
(US S.CT, June 1984)
[circuit ct's modification of Bd's order to require that reinstatement offers to constructively discharged illegal alien Ees, who had left the country rather than be deported, be held open for four years, reversed, since circuit ct had no justifiable basis for displacing Bd's discretionary judgment about proper time period for acceptance of the reinstatement offers; instead, circuit ct was required to remand case to Bd to consider alternative grounds on which ct believed the offers to have been deficient and to decide upon new forms for the reinstatement offers]

3900 PERSONS ENTITLED TO BACKPAY

3901 GENERALLY

N.L.R.B. v. Ironworkers, Local 480 ——U.S.——
(U.S. S.CT, May 1984)
[ct of appeals' decision modifying Bd's backpay order by limiting class of Ees to whom backpay may be awarded and prohibiting Bd from amending its backpay specification permitted by Bd regulations, reversed and remanded, since ct of appeals may not refuse to enforce backpay order merely because of Bd's delay subsequent to that order in formulating backpay specification; *Rutter-Rex* principles remain applicable, and by restricting beneficiaries of Bd's order for determining amount of backpay, ct of appeals' order punishes Ees for Bd's nonfeasance, which is forbidden by *Rutter-Rex*]

N.L.R.B. v. Ironworkers, Local 480 ——U.S.——
(U.S. S.CT, May 1984)
[in reversing and remanding ct of appeals' decision modifying Bd's backpay order by limiting class of Ees to whom backpay may be awarded and prohibiting Bd from amending its backpay specification, ct did not consider whether ct of appeals may modify its original order enforcing Bd's order on grounds that Bd's long delay in formulating backpay specification demonstrated futility of identifying discriminatees and in performing clacalations required by Bd's backpay formula, and that Bd's order was *punitive* and *confiscatory*; nor did ct foreclose challenges that might be raised in supplemental backpay proceedings]

Hacienda Hotel and Casino 279 NLRB No. 084
[backpay claimant should receive benefit of any doubt rather than E, the wrongdoer responsible for existence of any uncertainty and against whom any uncertainty must be resolved]

General Teamsters Local No. 162 v. N.L.R.B. (Western Pacific Construction Materials Co.) 782 F.2d 839 (C.A. 9, Feb. 1986)
[although reinstatement and backpay are conventional remedies ordered to redress unlawful discharge, Bd may withhold such remedies where they would not effectuate purpose of Act]

3908 EMPLOYEES TERMINATED PRIOR TO DATE OF EMPLOYER'S UNLAWFUL ACTION

Kimball's Motor Dispatch, Inc. and Henry A. Kimball, an Individual 274 NLRB No. 027
(Ee who was terminated prior to date E was held to have unlawfully failed to bargain with U over effects of its decision to close business held entitled to backpay, where Ee's termination was subject of court-enforced arbitration awarding him reinstatement and backpay and thus, he was an *employee* on date of E's discriminatory action)

3912 PROBATIONARY EMPLOYEE

A & T Manufacturing Company 280 NLRB No. 106
[unlawfully laid off probationary Ees held entitled to backpay for period from date of their layoff to date when all other probationary Ees were laid off, notwithstanding E's claimed rules permitting discharge of probationary Ees at any time w/o cause; whatever merit E's contention may have had during Bd and ct proceedings, it cannot be presently litigated since both Bd and ct held E unlawfully laid off Ees who, as probationary Ees, are protected under Act and under Bd order]

3925 UNSPECIFIED BUT SIMILARLY SITUATED DISCRIMINATEES

Heavy and Highway Construction Workers' Local Union No. 158 (Contractors' Association of Eastern Pennsylvania and Worthy Brothers Pipeline Corp.) 280 NLRB No. 134
[recommendation that other unnamed U members whom U may have failed to refer due to intra-U political or protected activities be reimbursed for moneys lost, rejected, since Bd could not find that discriminatees constituted a class or that classwide discrimination occurred where intra-U political dissidents did not form a definite group identifiable by a single, quantifiable characteristic separating them from other Ees; referral system and policy were not shown to discriminate against dissidents]

Woodline Motor Freight, Inc. 278 NLRB No. 152
[discriminatee entitled to R/O notwithstanding GC did not seek reinstatement of discriminatee in C or at hearing, where consolidated C alleges that respondent *closed facility and terminated its Ees working there*. This allegation broad enought to encompass discriminatee since where there is discrimination against class of Ees, GC is not required to name every discriminatee at this stage of the proceeding. Respondent's contention may be addressed at compliance stage]

Plumbers, Local No. 198 v. N.L.R.B. 747 F.2d 326 (C.A. 5, Nov. 1985)
(Bd's award of make-whole remedy to all nonmembers and traveler applicants injured by U's discriminatory operation of hiring hall as well as to named complainants found consistent with precedent for making such awards where specific evidence established a class of unnamed injured discriminatees; such class was established herein by introducing U's referral books, one for local U members and one for travelers and nonmembers, and testimony of U's assistant business agent and others supporting conclution of actual discrimination against such class)

Plumbers, Local No. 198 v. N.L.R.B. 747 F.2d 326 (C.A. 5, Nov. 1985)
(although GC's statistical evidence herein was not as sophisticated or revealing as that in case relied on as precedent for awarding make-whole remedy to a class injured by U's discriminatory operation of hiring hall, it was sufficient to justify Bd in finding that precedent controlling; U's use of two *out-of-work books*, one for local U members and one for travelers and non-

members, U's members-only sign outside hiring hall, its official's testimony about actual job assignments, and its award of emergency work to few travelers or nonmembers substantially supported finding of an injured class)

Plumbers, Local No. 198 v. N.L.R.B. 747 F.2d 326 (C.A. 5, Nov. 1985)

(U's contention that it was denied due process due to lack of reasonable notice of an identifiable or recognizable group of alleged discriminatees for whom redress was sought, rejected, where C alleged broad discrimination in hiring hall operations generally, not just as to named parties; also, Bd's relegating determination of discriminatees to compliance stage let U contest individual awards and compliance procedures, whereas, if finding of general discrimination were established but redress given only named individuals, collateral estoppel might bar U from relitigating discrimination issue as to unnamed members of the class)

3930 SUPERVISOR

Advertiser's Manufacturing Company 280 NLRB No. 128

[E to reinstate with backpay supervisor discharged solely because of her son's U activities]

3937 LIMITED TO EMPLOYEES WHOSE STATUS WAS LITIGATED AT HEARING

Local 426, Laborers (Joseph Brown, an Individual) 280 NLRB No. 074

[make-whole portion of remedy limited to charging party rather than extended to other nonmember applicants similarly discriminated against where record did not identify other nonmember applicants discriminated against in referral or otherwise]

Heavy and Highway Construction Workers' Local Union No. 158 (Contractors' Association of Eastern Pennsylvania and Worthy Brothers Pipeline Corp.) 280 NLRB No. 124

[recommendation that other unnamed U members whom U may have failed to refer due to intra-U political or protected activities be reimbursed for moneys lost, rejected, since Bd could not find that discriminatees constituted a class or that classwide discrimination occurred where intra-U political dissidents did not form a definite group identifiable by a single, quantifiable characteristic separating them from other Ees; referral system and policy were not shown to discriminate against dissidents]

Woodline Motor Freight, Inc. 278 NLRB No. 152

[discriminatee entitled to R/O notwithstanding GC did not seek reinstatement of discriminatee in C or at hearing, where consolidated C alleges that respondent *closed facility and terminated its Ees working there.* This allegation broad enought to encompass discriminatee since where there is discrimination against class of Ees, GC is not required to name every discriminatee at this stage of the proceeding. Respondent's contention may be addressed at compliance stage]

3959 EMPLOYEES ON LEAVE STATUS

Hacienda Hotel and Casino 279 NLRB No. 084

[where E terminated discriminatee who had been reemployed pursuant to prior Bd order as enforced by ct, ALJ rejected E's contention that contract required it to terminate discriminatee because she accepted outside employment while on leave of absence, where E had not yet complied with original reinstatement order, and E's action was one more instance of E harassment of discriminatee]

3970 EMPLOYEES ORDERED REINSTATED

Greyhound Lines, Inc. 273 NLRB No. 180

(make-whole remedy precluded where Ee was disciplined for *just cause* (insubordination) notwithstanding Ee's *Weingarten* rights violated by E's policy of requiring U representative to remain silent during investigatory interview)

3979 EMPLOYEE DISCIPLINED FOLLOWING INVESTIGATORY INTERVIEW

Radisson Muehlebach Hotel 273 NLRB No. 183

(cease and desist order, rather than reinstatement and backpay orders appropriate remedy for dischargee where, although his *Weingarten* rights were violated, he was not discharged as result of the violative interview or for asserting his *Weingarten* rights, but for his own misconduct)

3982 LAID OFF EMPLOYEES

A & T Manufacturing Company 280 NLRB No. 106

[notwithstanding that department in which unlawfully laid off Ee worked had been eliminated and his former duties were being performed by shop leadman, Ee held entitled to back pay from date of layoff through first quarter of current year and, since Ee's backpay was continuing because E failed to offer him reinstatement to available labor job for which he was qualified, further amounts of backpay, beginning with second quarter of current year to date, to be determined in compliance proceeding]

A & T Manufacturing Company 280 NLRB No. 106

[claimant's backpay not tolled as of date of economic strike where at time of strike claimant was discriminatorily laid off Ee, making it impossible to ascertain whether he would have gone on strike absent E's prior discrimination, and such uncertainty must be resolved against E as wrongdoer]

Donald Dean d/b/a D.C. Construction Company 276 NLRB No. 087

(order requiring E to offer reinstatement and backpay to Ee unlawfully denied reemployment after lawful layoff held not subject to alteration where E had originally hired Ee, even though all vacancies at that time had been filled by referrals; and it was fair to assume E would exhibit same flexibility in connection with recall of Ee as whown upon his initial hire, were it not possessed of intent to discriminate)

3985 PERSONS DISCRIMINATORILY DENIED EMPLOYMENT

Electrical Workers, Local Union No. 2148 (Newberry Industrial, Inc.) 281 NLRB No. 111

[Ees found not entitled to backpay assertedly due to being unlawfully bypassed for referral from out-of-work list where, notwithstanding their equivocal or contrary testimony, evidence showed they would have rejected referrals due to job-related disadvantages they would have suffered by giving up their current employment to accept referrals]

J. D. Landscaping, Corp. 281 NLRB No. 004

[successor E to offer predecessor E's six most senior Ees, out of fifteen Ees not hired, employment and make them whole for discriminatorily refusing them employment due to U activities and to place rest of them on preferential hiring list for employment if work force expanded, and, if expansion occurred between events in case and compliance date, to offer predecessor's most senior Ee employment and make him whole, in all cases, discharging other Ees if necessary]

Local 426, Laborers (Joseph Brown, an Individual) 280 NLRB No. 074

[make-whole portion of remedy limited to charging party rather than extended to other nonmember applicants similarly discriminated against where record did not identify other nonmember applicants discriminated against in referral or otherwise]

Greyhound Taxi Co., Inc. 274 NLRB No. 060

(in determining whether unlawfully discharged Ee, who remained out of job market for over 5 years because of psychiatric condition claimed to be caused by E's ULPs, was entitled to backpay, Bd stated it did not know that it should be in business of making open-ended awards for disability in manner of ct in civil tort action)

3985-5000 Failure to use hiring hall

Southwestern Steel & Supply, Inc. 276 NLRB No. 174

(recommended backpay order clarified to cover specifically any Ee applicants who were denied opportunity to work for E because of E's unlawful refusal to continue using (U) hiring hall. Determination of whether or not such Ees exist left to compliance stage of proceeding)

3987 CASUAL EMPLOYEES

John Cuneo, Inc. 276 NLRB No. 012

(E's contentions that Ee was laid-off permanent Ee of another E at time of hire and was not entitled to backpay from date of recall by former E, and that Ee was on layoff status with that E and could only achieve temporary status with E, rejected; Ee's previous job history had no bearing on his entitlement to reinstatement and backpay)

3989 STRIKERS

Northwest Metal Products, Inc. 281 NLRB No. 156

[following remand of backpay case to ALJ to determine whether or not economic striker would have returned to work during strike, Bd affirmed ALJ's conclusion that E failed to establish that striker would have refused valid offer of reinstatement if it had been made during strike]

A & T Manufacturing Company 280 NLRB No. 106

[E may discipline or refuse to reinstate strikers by showing it had honest belief that they were guilty of strike misconduct of sever nature; and while nail strewing at E's facility is serious conduct justifying discharge of strikers who engaged in such conduct, fact that there are tacks on E's property with no evidence of responsibility on part of pickets does not constitute serious misconduct]

3995 FOREIGN NATIONALS OR RESIDENTS

Sure-Tan, Inc. and Sarak Leather Co. 277 NLRB No. 023

(upon ct of appeals' remand pursuant to S.Ct remand for formulation of appropriate remedial order pertaining to deported undocumented alien discriminatees, Bd, in accord with S.Ct's opn, held that it may not order minimum backpay award, as prescribed by ct of appeals, w/o specific regard to discriminatees' economic losses or legal availability for work; accordingly, Bd deleted provision in question from its supplemental order)

3995—Cont.

Sure-Tan, Inc. and Surak Leather Co. 277 NLRB No. 023
(upon ct of appeals' remand pursuant to S.Ct remand for formulation of appropriate order pertaining to deported undocumented alien discriminatees, Bd made order subject to condition that before awarding backpay, Bd determine whether any of the discriminatees were lawfully available for employment during backpay period between date of their illegal discharges and date E mailed valid offers of reinstatement)

Sure-Tan, Inc. and Surak Leather Co. 277 NLRB No. 023
(upon ct of appeals' remand pursuant to S.Ct remand for formulation of appropriate remedial order pertaining to deported undocumented alien discriminatees, Bd tolled e's backpay from date valid reinstatement offers are mailed to discriminatees, and provided that Bd will order hearing to determine backpay liability shortly after offers are made and that E will place in escrow money sufficient to satisfy its potential backpay liability for Ees who do not appear at hearing, but such money will be refunded if discriminatee has not been located w/i 1 year)

3999 OTHERS

Greyhound Taxi Co., Inc. 274 NLRB No. 060
(where Ee's pay consisted of contractual pay rate plus additional amount and E reduced latter amount, such amount included in backpay, notwithstanding E's contention that additional amount should be discontinued because Ee accepted reinstatement at contractual wage rate; aside from fact that Ee's reinstatement was previously found to have been to more onerous shift and was made after Ee rejected discriminatory reinstatement offer, there was no indication that Ee intended to waive his right to have his pay set on basis of nondiscriminatory criteria)

Boland Marine And Manufacturing Company, Inc. 280 NLRB No. 051
[GC required only to demonstrate that backpay claimant was discharged pursuant to E's unlawful, unilaterally promulgated disciplinary work rules, and if that was shown, burden shifted to E to demonstrate that prior to rules promulgation its supervisors discharged or disciplined Ees for similar conduct, which GC may rebut by variety of means, including that E inconsistently implemented its disciplinary practices]

Midwest Motel Management Corp. of Birmingham 278 NLRB No. 060
[backpay order should stand unless it can be shown that it is patent attempt to achieve ends other than those which can fairly be said to effectuate policies of Act]

Daniel Construction Company, A Division of Daniel International Corporation 276 NLRB No. 115
(E's responsibility to offer to reinstate unlawfully discharged Ees and to make them whole for losses does not terminate in event Ees obtain substantially equivalent employment elsewhere; fact that E lost maintenance and construction contract at location where Ees were discharged does not terminate backpay liability upon Ees' obtaining equivalent employment where E demonstrated it could transfer Ees, not hired by replacement contractor, to other operations)

Truck Drivers Union Local 164, Teamsters (Evelyn McCann, an Individual, etc.) 274 NLRB No. 134
(precision is not required in backpay computation; it is only essential that rational basis exist for the computation)

4410 LIMITED BACKPAY ORDER

Challenge-Cook Brothers of Ohio, Inc. 282 NLRB No. 002
[in requiring E to bargain with U over effects of its decision to relocate portion of its operation and to consolidate it with existing operation at another location, Bd accompanied such order with limited backpay requirement designed to make whole Ees for losses sustained and to recreate in some practicable manner situation in which parties' bargaining position was not entirely devoid of economic consequences for E; accordingly, backpay ordered in manner similar to that required in *Trans-Marine Navigation Corp.*, 170 NLRB 389]

Interdel, Inc. 281 NLRB No. 088
[where U requested and E failed and refused to negotiate regarding effects of E's closing of its facility on Ees in unit, Bd provided for payment of limited backpay as is customary in cases where Bd has found only an *effects-bargaining* violation]

Handy Spot, Inc. 279 NLRB No. 177
[in ordering E to bargain over effects of its decision to subcontract unit work, Bd accompanied order with limited backpay requirement designed to both make whole Ees for losses suffered as result of violation and to recreate in some practicable manner situation in which parties' bargaining position is not entirely devoid of economic consequences for E; accordingly, Bd required E to pay backpay to its Ees in manner similar to that required in *Transmarine Navigation Corp.*, 170 NLRB 389 1968]

The Cross Company 274 NLRB No. 065

(E ordered to bargain with U concerning effects of subcontracting on its Ees and to meet limited backpay requirement both to make whole Ees for losses suffered as result of E's ULP and to recreate in practicable manner situation in which parties' positions are not entirely devoid of economic consequences for E. Sum paid shall never exceed amount Ee would have earned from date on which E subcontracted work to time Ees secured equivalent employment elsewhere, or date E shall have offered to bargain, whichever occurs sooner, provided that sum will not be less than Ees would have earned for 2-week period at rate of their normal wages when last in E's employ)

[Bd's determination that E in bankruptcy owed backpay to its former Ees held excepted from automatic stay by operation of 362(b)(4) of Bankruptcy Act; accordingly, *entry* of money judgment affirmed but not *enforced*, since governmental units are allowed to fix amount of penalties up to and including entry of moeny judgment, and only attempts to enforce money judgments are subject to automatic stay]

Wheeling-Pittsburgh Steel Corporation, et al. v. Pennsylvania Human Relations Commission, et al. ——— F.2d ——— (BC W.D. PA, Aug. 1986)
[in denying injunctive relief to stay proceedings of Bd and other government agencies against debtor in bankruptcy, ct held that, as long as agencies are not attempting to enforce any money judgments against debtor, Bankruptcy Act permits agencies to seek to obtain judgments against debtor for backpay and back benefits and to enforce back to work orders]

[predecessor E and both successor Es jointly and severally liable where both consecutive successors admitted actual notice of pending ULP proceedings against predecesaor, and second successor failed to satisfy burden of demonstrating lack of knowledge, as he did not testify or call any witness to testify, put only one limited and unhelpful question to successor E preceding him, and must be charged with knowledge of finding of predecessor's violation during 5 months of employment with firm]

N.L.R.B. v. Southern Florida Hotel and Motel Association, et al. **751 F.2d 1571 (C.A. 11, Feb. 1985)**

(Es' contention that E association should share responsibility for backpay of unlawfully discharged returning economic strikers, because, as Bd found, association's lawyer incorrectly told Es that they were entitled to lay off any Ee they regarded as unqualified -- thus including returning strikers -- rejected, since Es had made a promise to the U to the contrary to induce U to agree on contract and were more culpable than association since, Es, not association, had shown anti-U animus that underscored their selection of strikers as unqualified)

4417-5600 Employer and alter ego

Las Villas Produce, Inc. and Carmelo P. Caldero, Individually **279 NLRB No. 120**

[full backpay liability imposed on individual whose alter ego status was proven]

San Francisco Web Pressmen and Platemakers' Union No. 4 v. N.L.R.B. (Michael Tenorio and Gil Fowler) **794 F.2d 420 (C.A. 9, July 1986)**

[E and U are jointly and proportionately liable for backpay when E has caused damage by wrongfully discharging Ee and U has increased that damage by breaching its duty of fair representation. The E for backpay from date of wrongful termination to date Ee would have been reinstated had U not breached its duty, and U for backpay thereafter]

4417-8425 Jointly and severally liable

James Naderlander d/b/a Nad West, Inc., d/b/a Pacific Amphitheatre **276 NLRB No. 080**

(E held jointly and severally liable with U for reimbursing Ees for U dues, fees and assessments paid to U, notwithstanding that E had sent money it had withheld from Ees' paychecks to U, where E had unlawfully entered into and maintained U security contract with U, told Ee he would be terminated if he did not permit E to withhold U assessments from his wages, as provided in contract with U; and withheld U assessments from Ees' paychecks pursuant to contract w/o any authorization from them)

M. W. Kellogg Constructors, Inc. **273 NLRB No. 134**

(U jointly and severally liable with E for loss of earnings and benefits travelers suffered as result of E's discrimination against them in assignment of unscheduled overtime and selection for layoff caused by U)

N.L.R.B. v. Wayne Transportation, A Division of Wayne Corporation, and Auto Workers, UAW Local 721 **776 F.2d 745 (C.A. 7, Nov. 1985)**

[ct upheld Bd's retroactive application of new rule since the balancing test: the desirable effects of the new rule against possible unfairness by litigants, comes out in *favor* of upholding retroactive application of Bd's new rule on superseniority]

4433 COMPUTATION OF AMOUNT OF BACKPAY

Mid-State Distributing Co., Inc. **276 NLRB No. 172**

(discriminatorily terminated driver's helper held entitled to backpay based on wage rate received by helper preferentially rehired as relief driver at hourly wage rate plus commission, since backpay claimant, by virtue of being at top of seniority list, should have been rehired as relief driver instead of preferentially rehired helper; however, such rate not applicable to remaining terminated helpers who are entitled to backpay at rate they would have received had they not been terminated)

4433-0100 Generally

Searle Auto Glass, Inc. d/b/a Best Glass Company **280 NLRB No. 159**

[finding of ULP presumptive proof that some backpay is owed]

A & T Manufacturing Company **280 NLRB No. 106**

[in backpay proceeding, GC's sole burden is to show gross amounts of backpay due, with burden of proving any mitigation of damages being on E; and any uncertainty is resolved against wrongdoer who made certainty impossible]

Hacienda Hotel and Casino **279 NLRB No. 084**

[any backpay formula which approximates what discriminatees would have earned had they not been discriminated against is acceptable if it is not unreasonable or arbitrary in the circumstances; formula should be representative of discriminatee's employment history and take into account intermittency of employment; and where awards may be only close approximations,

4433-0100—Cont.

Bd may adopt formulas reasonably designed to produce such approximations]

Hacienda Hotel and Casino 279 NLRB No. 084
[in backpay proceeding ALJ has job of considering whether GC's backpay formula is proper one in view of all facts adduced by parties, and of making recommendations to Bd as to most accurate method of determining backpay]

Hacienda Hotel and Casino 279 NLRB No. 084
[overall objective in selecting backpay formula is to restore discriminatee, as accurately as possible, to economic position enjoyed, absent discrimination, during entire backpay period, and time period preceding discrimination is the one ordinarily utilized by Bd]

Midwest Motel Management Corp. of Birmingham 278 NLRB No. 060
[with regard to computation of amount of backpay due, Congress made relation of remedy to policy an administrative matter, subject to limited judicial review, and chose Bd as its agent for the purpose]

Truck Drivers Union Local 164, Teamsters (Evelyn McCann, an Individual, etc.) 274 NLRB No. 134
(E-local's contention that backpay specification amounts were so excessive as to force local into bankruptcy, rejected; although substantial, amounts were computed on reasonable and appropriate basis and were not discriminatees' private claims but result of calculations made under RD's direction; they reflected discriminatees' losses resulting from ULPs and many advantages of employment with local, loss of which increased impact of discrimination; and local as perpetrator of ULPs must bear risk of delay resulting from its postponement of compliance pending further litigation)

Iron Workers Local 118 (Waldo F. Kusterns) v. N.L.R.B. 804 F.2d 1100 (C.A. 9, Nov. 1986)
[where Bd has established ULP and amount of back pay due Ee, burden is on respondent to produce evidence to mitigate its liability; this burden may be satisfied by establishing that Ee has received other earnings or that Ee has willfully incurred losses by, e.g., taking himself out of labor market]

4433-1400 Method of determining what employee would have earned

4433-1410 Employee's earnings prior to discrimination

Hacienda Hotel and Casino 279 NLRB No. 084
[ALJ properly computed backpay on basis of 5-day, rather than 4-day, week claimed by E where, although Ee normally signed out early and worked only 5 hours one day a week, it was not shown that discriminatee was not paid 8-hour daily rate called for by contract, and such rate was also alleged in backpay specification which was admitted by E against whom all doubts must be resolved as wrongdoer for existence of any uncertainty]

Hacienda Hotel and Casino 279 NLRB No. 084
[where discriminatee was regularly scheduled to work 80 hour shifts on 4 days and normally signed out early on 1 day a week after working 5 hours, Bd held discriminatee's daily rate of pay and amount owed to discriminatee's pension account were properly based on 37-hour, rather than 40-hour, week, since discriminatee was paid only for hours worked, and contract provided that Ees voluntarily leaving work early were to be paid only for time worked]

Hacienda Hotel and Casino 279 NLRB No. 084
[year in which discriminatee was found by Bd in earlier decision to have been first discriminated against held not *normal* period and therefore not used as basis in computing backpay; similarly, year in which earlier decision disclosed discriminatee was terminated and later reinstated on 2 occasions was not *normal* period]

O.K. Machine & Tool Corp. And Gyrotronics, Inc. 279 NLRB No. 069
[average monthly earnings of discriminatees during year prior to their termination held proper formula]

Howard R. Singer and Michael E. Davis, A Partnership and /or Howard R. Singer d/b/a Howard R. Singer Legal Services and/or David D. DeAngelis JD-207-86
[Ee's backpay rate and insurance benefits based on secretaries' remuneration, rather than on remuneration in her prior position, where her job was phased out and she had been transferred to secretarial work prior to discharge for U activities]

Mashkin Freight Lines, Inc. and Bari Leasing, Inc. JD-(NY)-22-86
[where E had destroyed all records that could have been used to accurately determine amount of backpay owed, GC's formula using last known representative year as basis for all Ees' earnings and applying yearly contractual raises in wages and benefits Ees would have earned, was proper]

St. Mary's Home, Inc. t/a St. Mary's Infant Home JD-285-85
(E's argument for less backpay than shown in backpay specification rejected where E chose as model period an extraordinary one in which claimants were often absent due to illness and did not submit computation of their or other Ees' work experience over a significant number of years)

Sims-Luse Olds, Buick, Pontiac, GMC Trucks, Inc. JD-247-85
(basis for determining gross backpay was period of approximately three quarters duration, rather than shorter periods as urged by GC and E, where former period was more appropriate for judging hours Ee would normally have worked had he not been discharged)

N.L.R.B. v. Laborers' International Union of North America, AFL-CIO; and Pipeland Local Union No. 38 748 F.2d 1001 (C.A. 5, Dec. 1984)
[Bd's use of hours individual discriminatees had worked in past years, rather than hours worked by hypothetical average worker, appropriate where latter figure would be distorted due to fact that many workers on hiring hall rolls worked for few hours on annual basis; Bd's choice of different base years for computing backpay of each of the individual discriminiatnes appropriate also, since Bd had rational basis for doing so]

N.L.R.B. v. Laborers' International Union of North America, AFL-CIO; and Pipeline Local Union No. 38 748 F.2d 1001 (C.A. 5, Dec. 1984)
(Bd's use of hours individual discriminatees had worked in past years, rather than hours worked by hypothetical average worker, appropriate where latter figure would be distorted due to fact that many workers on hiring hall rolls worked for few hours on annual basis; Bd's choice of different base years for computing backpay of each of the individual discriminatees appropriate also, since Bd had rational basis for doing so)

Food & Commercial Workers, Local No. 304A v. N.L.R.B. 772 F.2d 421 (C.A. 8, Aug. 1985)
(in making whole Ees who were unlawfully denied wage increases, Bd did not order E to restore wage differential to ensure that Ees would earn same percent more than their fellow Ees, since Bd's order places Ees in same position they would have been but for E's unlawful conduct)

4433-1420 Earnings of comparable employee during backpay period

Sourie Auto Glass, Inc. d/b/a Best Glass Company 280 NLRB No. 199
[*representative employee* formula rather than formula computing discriminatee's pretermination work hours as percentage of total work hours available, appropriate where representative Ees relied on by GC were in fact representative of hours discriminatee worked and earnings he would probably have made absent termination; and use of successive representative Ees was appropriate in view of termination and replacement of first representative Ee by second representative Ee and termination and replacement of second representative Ee by third one]

IMCO/International Measurement & Control Company, Inc. 277 NLRB No. 096
(E's pay raises granted Ees during discriminatee's backpay period held properly computed for inclusion in discriminatee's backpay by use of comparable Ee where latter received no preferential treatment on basis of unique skill and efficiency, and E failed to select any of its Ees as being more comparable to discriminatee)

Overseas Motors, Inc. 277 NLRB No. 061
(use of *master* mechanic as representative Ee for discriminatee who was only *specialty* mechanic and considered lower rated than master mechanic, proper, where E considered discriminatee good mechanic who made equal or more money than master mechanic, other specialty mechanics not considered good mechanics by E and master mechanic was employed throughout base period and backpay period)

C-F Air Freight, Inc. 276 NLRB No. 062
(backpay specification which included comparable increases in wages that other Ees, similarly situated, received, found reasonable)

Hinz Store Fixtures & Construction Co., Inc. JD-(SF)-97-86
[gross backpay formula of product of highest number of hours worked by any Ee less senior than discriminatee and applicable contractual hourly wage rate, reasonable where employment with E was based on plant-wide seniority subject to Ee's ability to perform, and Ee had achieved seniority and concededly possessed requisite skills; contention that formula should be limited to inside work, because discriminatee was incapable of performing outside work and of getting along with Ees performing it, rejected absent evidence of incapacity or of reprimand or counseling for latter]

Howard R. Singer and Michael E. Davis, A Partnership and /or Howard R. Singer d/b/a Howard R. Singer Legal Services and/or David D. DeAngelis JD-207-86
[Ee's backpay rate and insurance benefits based on secretaries' remuneration, rather than on remuneration in her prior position, where her job was phased out and she had been transferred to secretarial work prior to discharge for U activities]

4433-1420—Cont.

Local 1134, Laborers (Southern Illinois Builders Association) **JD-179-86**
[backpay for discriminatee, unlawfully refused referal by U, properly computed on basis of U's weekly referral lists used for determining when Ee, lower on referral list than discriminatee, was referred and computing amounts discriminatee would have earned had he been referred in nondiscriminatory manner]

4433-1430 Earnings of replacement during backpay period

Chem Fab Corporation **275 NLRB No. 6**
(Bd agent's use of layoff and recall dates of Ee who had succeeded discriminatee in second position as to seniority in his job classification accepted as rational basis for approximating discriminatee's backpay period where E had selected lowest paid Ees in job classification in department for layoff first, discriminatee's replacement was in approximately same labor grade as he, and discriminatee had less plant seniority, but more departmental seniority, than replacement)

Allied Riggers, Inc. **JD-41-85**
(computation of discriminatee's backpay based on earnings replacement during backpay period and which included replacement's earnings not only at completed project at which discriminatee worked but replacement's earnings at later jobs)

4433-1435 Earnings of representative employee group

Local Union No. 277, Painters (Polis Wallcovering Co. et al.) **282 NLRB No. 060**
[in determining backpay of Ees engaged in wallcovering work, Bd applied construction industry standard rather than production industry standard, and eliminated artificial increase in Ees' estimated hours caused by exclusion of paperhangers with referrals below 60 percent of total average; average number of hours for backpay period should be calculated by dividing total hours worked by all paperhangers having at least one referral by total number of those paperhangers]

Searle Auto Glass, Inc. d/b/a Best Glass Company **280 NLRB No. 159**
[*representative employee* formula rather than formula computing discriminatee's pretermination work hours as percentage of total work hours available, appropriate where representative Ees relied on by GC were in fact representative of hours discriminatee worked and earnings he would probably have made absent termination; and use of successive representative Ees was appropriate in view of termination and replacement of first representative Ee by second representative Ee and termination and replacement of second representative Ee by third one]

4433-1440 Employee's rate of absenteeism prior to discrimination to be considered

Hacienda Hotel and Casino **279 NLRB No. 084**
[in adopting ALJ's ruling in backpay proceeding that E had not shown that backpay calculations should be adjusted to account for discriminatee's absence rate, Bd did not rely on ALJ's finding that specified years, preceding Bd's earlier decision finding unlawful termination of discriminatee, were too remote in time to consider in determining discriminatee's absence rate]

4433-1440-8000 Except when due to specific illness

Greyhound Taxi Co., Inc. **274 NLRB No. 060**
(GC's, rather than E's, backpay formula held most nearly to approximate discriminatee's lost earnings; although GC's formula inaccurately determined that discriminatee was in fact available for employment during entire period of unemployment, such assumption did not render GC's formula invalid since unavailability for employment could be ascertained and would result in reduction of backpay amount; by contrast, E's formula, based on projection of discriminatee's past attendance record through periods of unemployment, could unduly penalize either E or discriminatee)

4433-1470 Terms and conditions of employment in unlawfully terminated or expired contract

Mashkin Freight Lines, Inc. and Bari Leasing, Inc. **JD-(NY)-22-86**
[where E had destroyed all records that could have been used to accurately determine amount of backpay owed, GC's formula using last known representative year as basis for all Ees' earnings and applying yearly contractual raises in wages and benefits Ees would have earned, was proper]

4433-1480 Pay raise which employee would have received absent discrimination

AVI Graphics, Inc. d/b/a Manhattan Graphic Productions **282 NLRB No. 051**
[no valid offer of reinstatement where discriminatee reinstated at predischarge salary rather than salary that would have incorporated general wage increase given to all Ees during backpay period and which Ee would have received but for discriminatory discharge, and such pay raise included in backpay determination]

Kawasaki Motors Corporation, U.S.A. **282 NLRB No. 028**
[discriminatee entitled to higher rate of pay where he would have obtained promotion based on seniority and experience]

IMCO/International Measurement & Control Company, Inc. **277 NLRB No. 096**
(discriminatee held entitled to pay raises she would have received during her interim period between her layoff and reinstatement)

IMCO/International Measurement & Control Company, Inc. **277 NLRB No. 096**
(E's refusal to pay reinstated discriminatee pay rate which included general raises granted Ees during discriminatee's interim backpay period constituted failure to make valid reinstatement offer; and since, E's offer set discriminatee's wage rate at amount less than that to which she was entitled, her acceptance of offer did not toll E's backpay liability; accordingly, E required to pay discriminatee, in addition to interim backpay, difference between actual rate of pay following return to work and rate which she should have received)

IMCO/International Measurement & Control Company, Inc. **277 NLRB No. 096**
(E's pay raises granted Ees during discriminatee's backpay period held properly computed for inclusion in discriminatee's backpay by use of comparable Ee where latter received no preferential treatment on basis of unique skill and efficiency, and E failed to select any of its Ees as being more comparable to discriminatee)

IMCO/International Measurement & Control Company, Inc. **277 NLRB No. 096**
(E's pay raises granted Ees during discriminatee's interim backpay period held properly included in discriminatees' backpay, notwithstanding Ee's contention that pay raises were justified for its present Ees because they were more skilled, efficient, and valuable than discriminatees, since latter may have developed same skill and efficiency if they had remained employed, and present Ees received no training outside plant and only about half of them was employed at time of discriminatees' layoff)

4433-1485 Overtime pay which employee would have received absent discrimination

AVI Graphics, Inc. d/b/a Manhattan Graphic Productions **282 NLRB No. 051**
[overtime worked during predischarge period not used as criteria for figuring amount of overtime Ee would have worked during backpay period because new equipment sharply reduced available overtime]

Daniel Construction Company, A Division of Daniel International Corporation **276 NLRB No. 113**
(E required to pay discriminatee amount reflecting what he would have earned had he been employed by contractor who took over after E's contract expired and worked same number of overtime hours as average Ee in his class)

Truck Drivers Union Local 164, Teamsters (Evelyn McCann, an Individual, etc.) **274 NLRB No. 130**
(where discriminatee worked overtime but was not specifically paid for it, ovetime compensation allowed where replacement Ee was paid for overtime, and there was no evidence that discriminatee would not similarly have performed and been paid for overtime work if she had not been unlawfully discharged)

Truck Drivers Union Local 164, Teamsters (Evelyn McCann, an Individual, etc.) **274 NLRB No. 130**
(discriminatee's overtime compensation computed by multiplying applicable overtime hourly rate by average of overtime worked by discriminatee's replacement; where data for overtime actually worked is not available, overtime compensation is estimated by projecting average from preceding quarter)

4433-1490 Determination of which employees would have been terminated or laid off for nondiscriminatory reasons

4433-1490-3300 Based on employer's past practice

Hinz Store Fixtures & Construction Co., Inc. **JD-(SF)-97-86**
[gross backpay formula of product of highest number of hours worked by any Ee less senior than discriminatee and applicable contractual hourly wage rate, reasonable where employment with E was based on plant-wide seniority subject to Ee's ability to perform, and Ee had achieved seniority and concededly possessed requisite skills; contention that formula should be limited to inside work, because discriminatee was incapable of performing outside work and of getting along with Ees performing it, rejected absent evidence of incapacity or of reprimand or counseling for latter]

4433-1495 Proportional; based on relationship that existed between employees' wages and average hourly earnings of employees working for manufacturers (BLS)

Overseas Motors, Inc. **277 NLRB No. 061**
(use of one week as base period for determining ratio of wages between discriminatee who was *specialty* mechanic and representative Ee who was

4433-1495—Cont.

master mechanic, proper, as week selected was both proximate and prior to E's unlawful conduct and was week E equated their wages for purely business reasons)

4433-2800 Gross backpay

Midwest Motel Management Corp. of Birmingham **278 NLRB No. 060**
[while GC has burden to establish reasonableness and accuracy of its calculation of gross backpay amount, burden of proof with respect to E's affirmative defense rests upon it as original wrongdoer to demonstrate affirmatively that discriminatee has failed to make reasonable effort to find interim employment; and discriminatee is held only to reasonable exertion in such regard and not to standard of highest diligence]

4433-2833 Items included

4433-2833-1800 Free or reduced rental on company housing

Mario Milevoi and Lucia Milevoi, Joint Owners **JD-(NY)-39-86**
[rental value of discriminatees' use of rent-free or reduced rent apartment from E must be figured in as part of Ee's wages]

Washington Beef Producers **JD-(SF)-86**
[where backpay claimant, who had been receiving rent-free use of home supplied by E, but following claimant's job transfer before his discharge, a $200.00 rent for home having market value of $300.00 was assessed against him for which $100.00 a month was deducted from his pay check, ALJ held that the only benefit which should be included in backpay award was $100.00 per month which represented excess of market value of home over rental fee E charged claimant]

4433-2833-2700 Bonuses

Sahara Datsun, Inc. **278 NLRB No. 148**
[Ees to be reimbursed with interest for earnings lost as result of discontinuation of various weekly bonuses]

Davis Coal Company Debtor-In-Possession **275 NLRB No. 102**
(bonuses excluded from gross backpay where E paid no bonuses to any Ees during backpay period and that decision was attributable to E's poor financial condition that eventually resulted in cessation of business and filing of bankruptcy ptn; further, to order payment of bonuses would put discriminatees in better position than they would have been absent ULP and thus, would exceed Bd's remedial authority)

4433-2833-3200 Tips

Louton, Inc., t/a/ The Original Oyster House **281 NLRB No. 154**
[discriminatees' records of prior tips appropriate basis for projecting tip income during backpay period, notwithstanding discrepancy with smaller amounts reported on income tax returns, in view of discriminatees' demeanor, existence of tip entries at time of GC's contact, and adherence to testimony about tips despite possible prosecution for perjury or income tax evasion; also E's failure to produce gross sales receipts prevented checking tip estimates against percentage of sales, and E's production of records of food, w/o non-food, sales and tips reports prepared by its payroll service were insufficient to disturb ALJ's conclusions

Hacienda Hotel and Casino **279 NLRB No. 084**
[ALJ's formula for calculating tip income of unlawfully discharged waitress held neither unreasonable nor arbitrary, where ALJ based claculation on credited testimony of discriminatee and of similarly situated waitresses in E's employ, and found amount alleged in specification reasonable approximation of amount of tips received by discriminatee, notwithstanding E's contention that amount should be limited to understated amount of tips declared on her income tax return and that highest amount should not exceed average tip income received by other waitresses]

Hacienda Hotel and Casino **279 NLRB No. 084**
[tip income not limited to understated amount reported on discriminatee's Federal income tax return, and ALJ's computation based on other considerations held proper; while not condoning discriminatee's action and not unmindful of other considerations, Bd held its responsibility was to restore discriminatee as accurately as possible to former economic position in absence of discrimination; matter was now of public record and best left to IRS which was being furnished copy of decision herein; and to base computation on reported income would allow E as wrongdoer to benefit from inaccurate reporting to IRS]

Niagara Falls Sightseeing By Sheridan, Inc. **279 NLRB No. 007**
[discriminatee's record of tips received while employed as summer tour guide proper basis for estimating portion of backpay ascribed to tips where he had kept daily record of activities and tips, and E's claim that tips were exaggerated was based solely on knowledge of the business and social conversations with Ees before hearing w/o direct observation of tips earned or attempt to discredit Ee's record]

4433-2833-3800 Pension benefits

December 12, Inc.; December 12, Inc. of Nevada **282 NLRB No. 077**
[E liable for U's pension trust fund payments notwithstanding it had not signed any agreement with U, since Ees enter into contracts with radio and TV producers, rather than E and TV and/or videotape performances and the reuse and residual payments related thereto were incident to backpay claimants' employ and trust fund contributions were benefit related to his employment, E obligated to pay such amounts]

4433-2833-5000 Overtime premiums

Barkman Contracting, Inc. **276 NLRB No. 112**
(backpay not awarded to two discriminatees for particular quarter, since specification did not claim such. 4433-2833-5500 Wage increase or decrease

IMCO/International Measurement & Control Company, Inc. **277 NLRB No. 096**
(E's refusal to pay reinstated discriminatee pay rate which included general raises granted Ees during discriminatee's interim backpay period constituted failure to make valid reinstatement offer; and since, E's offer set discriminatee's wage rate at amount less than that to which she was entitled, her acceptance of offer did not toll E's backpay liability; accordingly, E required to pay discriminatee, in addition to interim backpay, difference between actual rate of pay following return to work and rate which she should have received)

IMCO/International Measurement & Control Company, Inc. **277 NLRB No. 096**
(E's pay raises granted Ees during discriminatee's interim backpay period held properly included in discriminatees' backpay, notwithstanding Ee's contention that pay raises were justified for its present Ees because they were more skilled, efficient, and valuable than discriminatees, since latter may have developed same skill and efficiency if they had remained employed; and present Ees received no training outside plant and ouly about half of them was employed at time of discriminatees' layoff)

Chem Fab Corporation **275 NLRB No. 6**
(inclusion of 25 cents wage increase in gross backpay justified where it was found to be medium figure received by Ees in similar classifications and E's officer admitted to grant of pay increases of that amount in certain years;)

Greyhound Taxi Co., Inc. **274 NLRB No. 060**
(amount of weekly reduction in wage rate included in discriminatee's backpay, where E, in instant supplemental proceeding sought to establish that reduction was due to nondiscriminatory reasons; such issue was barred by principle of *res judicata* since E was attempting to relitigate matter which had previously been decided in original ULP proceeding)

4433-2833-9600 Contributions to pension plan

Hacienda Hotel and Casino 279 NLRB No. 084
[where discriminatee was regularly scheduled to work 80 hour shifts on 4 days and normally signed out early on 1 day a week after working 5 hours, Bd held discriminatee's daily rate of pay and amount owed to discriminatee's pension account were properly based on 37-hour, rather than 40-hour, week, since discriminatee was paid only for hours worked, and contract provided that Ees voluntarily leaving work early were to be paid only for time worked]

O.K. Machine & Tool Corp. And Gyrotronics, Inc. 279 NLRB No. 069
[E must pay pension fund contributions to multi-E pension plan on behalf of discriminatees notwithstanding they voluntarily chose not to be in E's employ by refusing E's valid offers of reinstatement since proper allocation of owed contributions should not rest on whether or not discriminatees chose to accept valid offers of reinstatement,no question of Ees' rights in plan might not be adequately restored, and there were no other circumstances in case that warranted departure from Bd's customary procedure of ordering that contributions be paid to pension fund]

American Model & Pattern, Inc. 277 NLRB No. 018
(in computing interest owed Ees on unlawfully discontinued IRA contributions, tax benefits lost by Ees should *not* be taken into account)

4433-2867 Items excluded

Arthur Briggs, Inc. 281 NLRB No. 114
[where ALJ, in calculating gross backpay, correctly credited claimant for 9-hour workdays but improperly used 8-hour basis in making deductions for nonremunerated holidays, estimated absences, and snow closures, Bd recalculated gross and net backpay, since calculations for nonworkdays should be on same basis as workdays]

Davis Coal Company Debtor-In-Possession 275 NLRB No. 102
(bonuses excluded from gross backpay where E paid no bonuses to any Ees during backpay period and that decision was attributable to E's poor financial condition that eventually resulted in cessation of business and filing of bankruptcy ptn; further, to order payment of bonuses would put discriminatees in better position than they would have been absent ULP and thus, would exceed Bd's remedial authority)

Truck Drivers Union Local 164, Teamsters (Evelyn McCann, an Individual, etc.) 274 NLRB No. 134
(where E permitted Ees to make personal long-distance telephone calls at E's expense in partial compensation for unpaid overtime, but paid discriminatee's replacement for overtime work with no compensation for overtime with telephone privileges, Bd, while finding it appropriate that discriminatee's backpay be calculated based on hours worked by her replacement, did not include value of telephone privileges in backpay since to do so would be duplicative)

Truck Drivers Union Local 164, Teamsters (Evelyn McCann, an Individual, etc.) 274 NLRB No. 134
(where Ees were permitted to fill their automobiles' gasoline tanks at E's expense in exchange for E's access to Ees' automobiles for use on business, such gasoline privileges excluded from discriminatee's backpay, since gasoline was quid pro quo for E's access to Ees' automobiles, rather than aspect of Ee benefits)

Midwest Motel Management Corp. of Birmingham 278 NLRB No. 060
[while GC has burden to establish reasonableness and accuracy of its calculation of gross backpay amount, burden of proof with respect to E's affirmative defense rests upon it as original wrongdoer to demonstrate affirmatively that discriminatee has failed to make reasonable effort to find interim employment; and discriminatee is held only to reasonable exertion in such regard and not to standard of highest diligence]

City-Wide Invalid Service, Inc., a/w/a City-Wide Ambulette, Inc. JD-(NY)-123-85
[backpay claimant held entitled to backpay amount set forth in amended specification, where E had burden to establish interim earnings it contended claimant had accumulated during backpay period]

Consolidated Dress Carriers, Inc., et al. JD-(NY)-68-86
[Ee's interim employment consisting of self employment, painting apartments, or driving taxi held adequate attempt by Ee to mitigate his damages; fact that amounts earned therefrom did not result in what E deemed to be sufficient earnings was not significant; and principle of mitigation of damages does not require that Ee's self employment be successful; it only requires good faith effort]

4433-4217-2580 Earnings from work done for friends and relatives

Louton, Inc., t/a/ The Original Oyster House 281 NLRB No. 156
[E's request that discriminatee be made to forfeit backpay for two quarters due to concealment of interim earnings, rejected where Ee testified to filling in for a friend at a restaurant and disclosed her receipt of groceries and cash to GC on direct examination, and the money and groceries were in the nature of a gift in return for a favor, rather than wages]

4433-4217-5045 Overtime earnings

Washington Beef Producers JD-(SF)-86
[backpay claimant's overtime hours worked for interim E in excess of hours he would have worked for respondent E not included in interim earnings on ground that greater efforts of Ee should accrue to his own benefit rather than to benefit of wrongdoing E; however, fact that claimant voluntarily left interim job paying $5.00 an hour for interim job paying $4.50 an hour but with excessive overtime would be unfair to E; accordingly, backpay specification formula modified by assuming that claimant's base hours accrued at $5.00 per hour rather than $4.50]

4433-4217-5050 Collateral benefits

December 12, Inc.; December 12, Inc. of Nevada 282 NLRB No. 077

Searle Auto Glass, Inc. d/b/a Best Glass Company 280 NLRB No. 159

[contention that failure to provide receipts impeached claim for travel and moving expenses, rejected where discriminatee lost receipts in moving several times before finding permanent residence in city where now employed, since fact expense computations were based on estimates did not preclude their acceptance, failure to keep records would not in and of itself defeat a claim, and amounts claimed were reasonable; contention that discriminatee had traveled primarily to visit relatives and secondarily to job hunt not supported by record]

Arthur Briggs, Inc. 281 NLRB No. 114

[backpay claimant did not fail to mitigate backpay where he registered with state unemployment agency and with U's hiring hall from which he received his first job referral and became employed, through no fault of his own, some 8 months after discharge; and in addition to reliance on state agency and U's hiring hall, claimant responded to want ads in various newspapers either by calling or visiting prospective Es]

Allied Lettercraft Company, Inc. 280 NLRB No. 113
[backpay claimant did not fail to look for work during interim period, notwithstanding E's contention claimant enjoyed vacation until his unemployment benefits ran out where, during interim period, claimant moved his family in with relatives, filed in bankruptcy leaving him w/o any credit; and, as unemployed member of depressed industry and with limited skills, he was forced to work at job earning only about $100 a month]

Fugazy Continental Corp. 276 NLRB No. 152

C-F Air Freight, Inc. 276 NLRB No. 062
(no deductions should be made from Ee's backpay for 3-week period immediately after his discharge during which he did not seek employment, since discriminatee need not seek work instantly but rather Ee must seek employment diligently during entire backpay period, and during 3-week period in question Ee spoke to friend in air freight industry about possible employment)

Murbro Parking, Inc. 276 NLRB No. 009
(no willful loss of earnings for periods where discriminatee registered with state employment agency and visisted their office once a week, checked wants ads at least twice a week, and further, made over 75 contacts regarding employment in nearly 2 year and 10 month period from date of discharge to date of operative offer of reinstatement, notwithstanding contention that with due diligence discriminatee could have obtained job, since there were more openings than applicants for positions for which he qualified, and that in survey of classified ads there were hundreds of openings advertised for which he qualified during period)

Murbro Parking, Inc. 276 NLRB No. 009
(E failed to meet burden of proving willful loss of earnings, notwithstanding expert testimony that there were more job openings for which discriminatee qualified than applicants during relevant period, and evidence of survey of newspaper advertisements showing that in 18 months during period there were hundreds of jobs advertiesed in 17 catagories for which discriminatee qualified, absent evidence he was aware of openings cited, would have been hired if had applied, or that terms and conditions of employment at allegedly available jobs were such that discriminatee would have failed to mitigate damages had he refused jobs)

Murbro Parking, Inc. 276 NLRB No. 009

Local 3, Electrical Workers (R.H. Macy & Co., Inc.) 275 NLRB No. 142
(backpay claimant held not entitled to receive any backpay for 4 months that he remained unemployed, since he failed to make reasonably diligent effort to find interim employment where claimant flatly declined several job referrals given him by respondent U because he only wanted to return to his former employment, he visited only 2 Es during entire backpay period, sought jobs for which he was not qualified, made only 3 telephone calls concerning jobs, and refused to follow through on job opportunities listed in newspaper advertisements on mere assumption that Es were non-U)

Davis Coal Company Debtor-In-Possession 275 NLRB No. 102
(fact that discriminatees unsuccessfully filed applications for employment with several Es satisfied burden that they made serious efforts to obtain interim employment)

Truck Drivers Union Local 164, Teamsters (Evelyn McCann, an Individual, etc.) 274 NLRB No. 134
(bits and scraps of paper on which discriminatee made notes when she applied for interim employment and from which she composed running log of her job-seeking efforts held not essential to establish extent of efforts in seeking employment, particularly in view of her availability to testify)

Truck Drivers Union Local 164, Teamsters (Evelyn McCann, an Individual, etc.) 274 NLRB No. 134
(discriminatee's efforts to obtain interim employment during 8-month period limited to 7 applications and to registering with state employment commission held reasonable effort to obtain employment)

Truck Drivers Union Local 164, Teamsters (Evelyn McCann, an Individual, etc.) 274 NLRB No. 134
(discriminatee held to have made reasonable search for interim employment where she made inquiries of friends and acquaintances regarding availability of employment, since personal referrals are frequent source of leads to available jobs and such inquiries tend to show continuing effort to find work)

Truck Drivers Union Local 164, Teamsters (Evelyn McCann, an Individual, etc.) 274 NLRB No. 134
(instances where discriminatee sought work for which she had no qualification or experience held not to constitute outlandish employment applications indicating desire not to succeed; instead, they demonstrated willingness to go beyond her limited background in seeking employment; had she confined her search to jobs substantially equivalent to that from which she was discharged, her effort would have been reasonable; and she is not to be faulted for doing more)

Truck Drivers Union Local 164, Teamsters (Evelyn McCann, an Individual, etc.) 274 NLRB No. 134
(absent some showing that discriminatee would under no circumstances accept employment out-of-state where she intermittently resided, her out-of-state inquiries tend to show expanded effort to obtain interim employment, rather than absence of good faith)

Truck Drivers Union Local 164, Teamsters (Evelyn McCann, an Individual, etc.) 274 NLRB No. 134
(where E discounted discriminatee's trips made in search of interim employment from Es substantially distant from her home than E's workplace w/o first determining whether they were hiring, ALJ held that whether such trips were efficient or not is not issue; rather, issue is whether she made such effort, which she was found to have made)

Truck Drivers Union Local 164, Teamsters (Evelyn McCann, an Individual, etc.) 274 NLRB No. 134

Truck Drivers Union Local 164, Teamsters (Evelyn McCann, an Individual, etc.) 274 NLRB No. 134
(inability to document discriminatee's testimony regarding application for work with particular E held not to imply that discriminatee did not do so, since burden of so proving is on E; and official of E to whom application was made was readily available but was not called to testify)

Truck Drivers Union Local 164, Teamsters (Evelyn McCann, an Individual, etc.) 274 NLRB No. 134
(E's faulting of discriminatee's application for interim work as being limited to daytime shift whereas greater chance for employment existed on night shifts, rejected; even if discriminatee knew about that, she was not required to search for work substantially different from her job with E where she worked days)

Truck Drivers Union Local 164, Teamsters (Evelyn McCann, an Individual, etc.) 274 NLRB No. 134
(E's general showing that during discriminatee's backpay period jobs were available in community where she resided held not to demonstrate discriminatee's failure to make reasonable search for interim employment because there was no indication specifically showing whether available jobs were in fact suitable for her as to pay, location, working conditions, or in relation to her past experience)

Truck Drivers Union Local 164, Teamsters (Evelyn McCann, an Individual, etc.) 274 NLRB No. 134
(E's contention that, because jobs were available in community where discriminatee resided, her lack of success in obtaining interim employment shows she really did not look for work, rejected; while such general circumstances raise a suspicion, they do not disprove specific efforts she did make as her credible testimony showed)

Greyhound Taxi Co., Inc. 274 NLRB No. 060
(no willful loss of earnings where discriminatee, having little experience in endeavors other than in taxi industry, and notwithstanding his reliance on public transportation, searched for other work by visiting unemployment offices more than required, making applications not only with potential interim Es where his experience would be beneficial but also with other Es requiring only minimal skills; and his failure to apply at other taxi companies in area did not make his search not diligent since such Es harbored animus toward him from his prior employment with them)

Greyhound Taxi Co., Inc. 274 NLRB No. 060
(no willful loss of earnings where discriminatee admittedly did not seek other employment in period immediately following his second discharge when his grievance was actively pending nor thereafter when he was awaiting reinstatement; in latter period discriminatee was actively pursuing grievance seeking his reinstatement, and in such circumstances it was not unreasonable for discriminatee to await outcome of grievance proceeding before commencing extensive search for interim employment in view of his prior experience seeking work)

Consolidated Dress Carriers, Inc., et al. JD-(NY)-68-86
[E's burden of establishing that Ee failed to make reasonable search for employment held not supported by E's reliance on its official's vague and unsubstantiated testimony that personnel agencies in applicable industry were having difficulty obtaining Ees during *busy season* and that at various *unspecified* times E and other agencies had problems finding Ees; such testimony failed to establish availability of jobs for Ee or that he would have been hired upon applying at any specified time]

Consolidated Dress Carriers, Inc., et al. JD-(NY)-68-86
[Ee made reasonable search for interim employment by going to various employment agencies, visiting number of companies in industry's center as well as in other locations, seeking assistance at ethnic community center, and enlisting aid of employed friends and relatives which is not an unusual procedure for individuals seeking employment]

N.L.R.B. v. Master Slack and/or Master Trousers Corp., et al. 773 F.2d 77 (C.A. 6, Sep. 1985)
(Ee found entitled to backpay notwithstanding E's contention that Ee's efforts at working were half-hearted and that as consequence she made herself unemployable, where Ee made reasonable effort to mitigate damages and any vagueness and indefiniteness in Ees testimony was probably caused by fact that Ee was rural and uneducated and events occurred over 8 years prior to hearing)

Boland Marine And Manufacturing Company, Inc. 280 NLRB No. 051

[backpay tolled as of date when last of claimants were offered and had opportunity to accept reinstatement, rather than date on which E completed last of its major projects, since it was impossible for Bd to conclude that any particular claimant would have been laid off as of particular date where E failed to show that claimants were hired for particular project, that all Ees working on project, that all Ees working on project were laid off at project's end, or that E's layoff and recall procedures were tied to Ees' seniority]

John Cuneo, Inc. 276 NLRB No. 012

(E's alleged offer of reinstatement to Ee in form of mailgram held invalid since mailgram amounted to nothing more than notice to Ee that there might be future opening at E for employment; moreover, E's mailgram did not allow sufficient time for Ee to properly consider mailgram even if it had been otherwise valid; as such, mailgram was not valid offer of reinstatement such as to toll E's backpay obligations)

Local 512, Warehouse and Office Workers' Union, Ladies Garment Workers v. N.L.R.B. **795 F.2d 705 (C.A. 9, July 1986)**

[ct remanded to Bd for modification of its order which denied backpay to undocumented aliens who had not left U.S. during backpay period nor were subject of deportation proceedings. Ct held Bd erred when it interpreted *Sure-Tan* 467 U.S. 883, which deemed undocumented alien discriminatees who had left U.S. to be unavailable for work, and not entitled to packpay, and conditioned reinstatement on legal reentry, to mean that undocumented aliens never entitled to backpay and would require compliance officer to determine legality of each alien discriminatee's presence in U.S.]

Local 512, Warehouse and Office Workers' Union, Ladies Garment Workers v. N.L.R.B. **795 F.2d 705 (C.A. 9, July 1986)**

[*undocumented aliens are entitled to protection of Act and when remaining in U.S. during backpay period, entitled to backpay. To deny undocumented aliens Bd remedies would encourage unscrupulous Es to hire undocumented workers; Congress intended to protect collective bargaining rights by ensuring that there is no subclass of workers nor would allowing backpay to aliens who work during backpay period encourage illegal entry or reentry to U.S.*]

Local 512, Warehouse and Office Workers' Union, Ladies Garment Workers v. N.L.R.B. **795 F.2d 705 (C.A. 9, July 1986)**

[Bd remedy which would deny backpay to discriminatees who were undocumented aliens would make hiring undocumented workers more attractive to unscrupulous Es thus undermining two major goals of Immigration Act i.d. prevention of loss of American workers' jobs, and protection of American workers' wage rates and working conditions]

4450-5018 Rejection of valid reinstatement offer

Murbro Parking, Inc. **276 NLRB No. 009**

(backpay period not tolled by discriminatee's rejection of offer of reinstatement as parking lot attendant, rather than to job as lot checker from which he had been discharged, since offer to substantially equivalent position not alternative open to E where discrimnatee's former job still extant, and where job offered required handling money and discriminatee feared supervisor might frame him regarding money)

Trident Seafoods Corporation **275 NLRB No. 003**

(strikers not entitled to backpay from time of discharge (termination slips marked *not eligible for rehire* until offered unconditional reinstatement as E established that any earlier offers of reinstatement would have been futile since Ees would not have returned to work even if termination slips marked *eligible for rehire* and were accorded rights of strikers)

4450-5042 Date claimant obtains substantially equivalent employment

4450-5042 Date claimant obtains substantially equivalent employment

Struwine Manufacturing Co., Inc., et al. **280 NLRB No. 063**

[in case involving E's unlawful removal of operations to another state, E ordered to offer Ees who were terminated substantially equivalent positions at new facility or any of E's other plants, with traveling and moving expenses and backpay; further, backpay period for Ees who are unable to accept offers of employment that require moving is from date of termination to date Ees secures substantially equivalent employment with another E]

Boland Marine And Manufacturing Company, Inc. **280 NLRB No. 051**

[claimant's backpay tolled as of date he was validly reinstated, rather than as of date of earlier reinstatement to position not substantially equivalent where at time of earlier reinstatement Ee was employed on E's project pursuant to U job referral w/o E's knowledge; referral was to night, rather than day, shift; and at time of referral, project was almost completed and claimant could have had no expectation of regular employment similar to that he enjoyed at another project prior to discharge]

Daniel Construction Company, A Division of Daniel International Corporation **276 NLRB No. 118**

(E's responsibility to offer to reinstate unlawfully discharged Ees and to make them whole for losses does not terminate in event Ees obtain substantially equivalent employment elsewhere; fact that E lost maintenance and construction contract at location where Ees were discharged does not terminate backpay liability upon Ees' obtaining equivalent employment where E demonstrated it could transfer Ees, not hired by replacement contractor, to other operations)

Carbo Fuel Oil; Gibraltar Heat Corp.; Concord Oil Corp. **JD-(NY)-24-85**

(Bd's traditional balancing test applied and E, while not required to reinstate discriminatorily discharged Ees, ordered to make them whole for back pay until they obtain substantially equivalent employment elsewhere, where U steward and son, immediately after their unlawful discharges which substantially provoked them, threatened company president with bodily harm; such reaction by Ees, instead of taking recourse to known legal remedies, was less justified as would be case with unsophisticated Ees; and any amicable relationship between parties, should Ees be reinstated, was improbable)

John Cuneo, Inc. v. N.L.R.B. **792 F.2d 1181 (C.A. D.C., June 1986)**

[Respondent-E failed to sustain its contention that backpay period ended for striker-Ee, whom it failed to reinstate, at the time Ee returned to work at previous E where he was on layoff status]

4450-5045 Date discriminatee abandoned employment

Holiday Radio, Inc., d/b/a KSLM--AM and KSD--FM **275 NLRB No. 184**

(although discriminatee accepted interim employment paying higher wages, Bd will not presume Ee has abandoned entitlement to reinstatement in the absence of an unconditional offer of reemployment by E)

4450-5048 Date of misconduct barring reinstatement

Richmond Recording Corporation d/b/a PRC Recording Company **280 NLRB No. 077**

[post discharge conduct of breaking glass in roadway grounds for lawfully refusing reinstatement. Backpay runs until time of this conduct and not when wrongfully discharged by E]

Fiber Glass Systems, Inc. **278 NLRB No. 154**

[discriminatee's pointing pistol at Ee and threatening to kill him if he did not vote for U terminated entitlement to backpay and barred reinstatement]

Sahara Datsun, Inc. **278 NLRB No. 148**

[backpay period ended on date that discriminatee first forfeited right to reinstatement by informing bank through which E obtained financing for its customers that E was submitting falsified customer credit applications]

4450-5052 Date discriminatee was medically declared unfit for former employment or was granted permanent disability award

Louton, Inc., t/a/ The Original Oyster House **281 NLRB No. 154**

[discriminatee not physically unfit to perform former waitress job or unavailable for work, notwithstanding her alleged statement that she could not function as waitress due to her back problem, where she had held two waitress jobs during backpay period, her current job required bending over, getting down on her knees, climbing on stools and carrying twenty-pound objects, and E's witness's testimony was indefinite as to whether she had actually said she could not do waitress work]

4450-5060 Date discriminatee would have been terminated or laid off for non-discriminatory reasons

Searle Auto Glass, Inc. d/b/a Best Glass Company **280 NLRB No. 139**

[contention that discriminatee would have been discharged upon return of vacationing Ee he was replacing, rejected where Ee would have probably been kept on had E's ULP not deprived him of permanent employment intended by foreman]

Boland Marine And Manufacturing Company, Inc. **280 NLRB No. 051**

[backpay tolled as of date when last of claimants were offered and had opportunity to accept reinstatement, rather than date on which E completed last of its major projects, since it was impossible for Bd to conclude that any particular claimant would have been laid off as of particular date where E failed to show that claimants were hired for particular project, that all Ees

working on project, that all Ees working on project were laid off at project's end, or that E's layoff and recall procedures were tied to Ees' seniority]

Holiday Radio, Inc., d/b/a KSLM--AM and KSD--FM **275 NLRB No. 184**

(backpay and reinstatement obligation towards two on-the-air announcers held not terminated, notwithstanding E's contention that automation subsequent to Ees' discharge would have required their termination, where E did not show that Ees actually would have been terminated but only that they would have suffered same reduction in wages as other announcers which was result of automation; Ees are entitled to reinstatement and backpay at lower rate of pay as the other announcers)

Holiday Radio, Inc., d/b/a KSLM--AM and KSD--FM **275 NLRB No. 184**

(Ees' rights to reinstatement and backpay terminated on date that new general manager was hired, where manager testified w/o contradiction, that upon his hire, he conducted a review of E's operations and decided that instant Ees' services were no longer needed and thus, Ees would have been terminated subsequent to their unlawful termination for nondiscriminatory reasons)

N.L.R.B. v. Master Slack and/or Master Trousers Corp., et al. **773 F.2d 77 (C.A. 6, Sep. 1985)**

(backpay awards for Ees, who had been wrongfully discharged over year before plant shutdown about which E failed to bargain, cannot continue past shutdown; since any backpay awarded to remedy E's failure to bargain should be awarded equally to all Ees affected by plant shutdown, since all were equally injured by E's failure to bargain, and backpay awards for discharged Ees, insofar as they extend past plant shutdown, appear punitive rather than remedial)

4450-5066 Date discriminatee would have left employ of employer

Niagara Falls Sightseeing By Sheridan, Inc. **279 NLRB No. 007**

[backpay period for college student's employment as summer tour guide continued for all summers while he was in college and after graduation until start of his career where some guides worked two or more seasons, no record evidence established that tour guide might not return after skipping a season, and discriminatee sought employment each summer]

Hutchens Trucking Company, Inc. **JD-164-85**

(backpay continued to run notwithstanding discriminatee turned down recall notice from prior E for whom he had worked on and off for 5 years before being unlawfully denied employment with respondent as discriminatee stated he refused recall because he wanted steady employment which he never had with this prior E)

Lemon Drop Inn, Inc. v. N.L.R.B. **752 F.2d 323 (C.A. 8, Jan. 1985)**

Marbro Parking, Inc. **276 NLRB No. 009**

(backpay period not tolled by discriminatee's rejection of offer of reinstatement as parking lot attendant, rather than to job as lot checker from which he had been discharged, since offer to substantially equivalent position not alternative open to E where discriminatee's former job still extant, and where job offered required handling money and discriminatee feared supervisor might frame him regarding money)

Marbro Parking, Inc. **276 NLRB No. 009**

(E failed to meet burden of proving willful loss of earnings, notwithstanding expert testimony that there were more job openings for which discriminatee qualified than applicants during relevant period, and evidence of survey of newspaper advertisements showing that in 18 months during period there were hundreds of jobs advertiesed in 17 catagories for which discriminatee qualified, absent evidence he was aware of openings cited, would have been hired if had applied, or that terms and conditions of employment at allegedly available jobs were such that discriminatee would have failed to mitigate damages had he refused jobs)

4450-5079 Date discriminatee could have returned to former position

John Cuneo, Inc. **276 NLRB No. 012**

(E's contentions that Ee was laid-off permanent Ee of another E at time of hire and was not entitled to backpay from date of recall by former E, and that Ee was on layoff status with that E and could only achieve temporary status with E, rejected; Ee's previous job history had no bearing on his entitlement to reinstatement and backpay)

Hutchens Trucking Company, Inc. **JD-164-85**

(backpay continued to run notwithstanding discriminatee turned down recall notice from prior E for whom he had worked on and off for 5 years before being unlawfully denied employment with respondent as discriminatee stated he refused recall because he wanted steady employment which he never had with this prior E)

Daniel Construction Company, A Division of Daniel International Corporation **276 NLRB No. 115**

(E held liable for backpay of unlawfully discharged Ees after date E's contract for providing maintenance and construction services to manufacturer expired; backpay was based on what Ees would have earned had they been employed by replacement contractor, where all Ees, except one, were hired by that contractor, and probabilites were *overwhelming* that either E or contractor would have employed discharged Ees)

Edgar Mantha and Kathleen Mantha, A Partnership, d/b/a Hopkins Hardware; et al. **JD-(SF)-127-86**

[Bd presumes that when an E goes completely out of business and terminates its Ees, and there is no evidence that it closed for illegal reasons or that its operations were transferred elsewhere or that it operated at other locations, that Ees discharged for illegal reasons prior to its closure would have been terminated at time of closure and that such presumption pretermits their entitlement to backpay]

Edgar Mantha and Kathleen Mantha, A Partnership, d/b/a Hopkins Hardware; et al. **JD-(SF)-127-86**

[backpay period ended when E went out of business and terminated Ees, absent Bd order or backpay specification that backpay liability continued until discriminatee obtained substantially equivalent employment]

4450-5088 Date discriminatee recovered from unfair labor practice-related physical or pychological injuries

Greyhound Taxi Co., Inc. **279 NLRB No. 144**

[pursuant to ct remand as law of case, Bd held Ee entitled to backpay for entire period of his psychologic disability which ALJ had found proper but which Bd had disallowed; in adopting ALJ's backpay computation, Bd noted that E did not except to ALJ's computation but simply challenged ALJ's finding that Ee incurred no willful loss of earnings during his psychological disability and his conclusion that E was responsible for that disability and for backpay during that period]

Greyhound Taxi Co., Inc. **274 NLRB No. 060**

(where E constructively discharged Ee by threatening and assaulting him causing minor physical injuries incapacitating Ee for about 2 weeks, Bd terminated E's backpay obligation when Ee recovered from injuries and, contrary to ALJ, disallowed backpay for 5 year period Ee remained out of job market because of preexisting psychologic disability; ALJ's conclusion

4450-5088—Cont.

that Ee's disability resulted solely from attack and unlawful termination was completely unjustified, since evidence was insufficient to support conclusion that Ee, who had exhibited erratic behavior before discharge, would have been fit for work had ULPs not occurred)

Harold L. Wakefield v. N.L.R.B. 779 F.2d 1437 (C.A. 9, Jan. 1986)

[E liable not only for period of Ee's physical disavility due to E's agents' assault but also for period of resulting psychological disavility, notwithstanding Ee's pre-existing mental condition, since wrongdoer takes its victim as it finds him]

4450-5090-2500 Termination date of contract in which terms and conditions of employment were unilaterally implemented

KCW Furniture Company, Inc. 276 NLRB No. 100

(where E unilaterally instituted terms and conditions of employment inconsistent with existing contract, Ees held entitled to backpay from date on which E unilaterally implemented changes in contracts terms and conditions of employment, to date on which E effectively terminated automatically renewable contract, rather than earlier date on which E claimed to have terminated contract)

4450-7500 Tolling of backpay

4450-7501 Generally

Modern Iron Works, Inc. 281 NLRB No. 151

[in accordance with its normal practice, Bd deferred to subsequent compliance proceedings question whether E at some later date tolled its backpay liability to any Ees by offering them reinstatement to their former positions, w/o prejudice to their seniority and other rights and privileges]

Hinz Store Fixtures & Construction Co., Inc. JD-(SF)-97-86

[E's reinstatement offer not valid and did not toll backpay liability in view of subsequent events, notwithstanding fact that letter containing offer was not delivered to Ee because he failed to notify E of change of address and that Ee received actual notice of offer in subsequent telephone conversation with E, where E told Ee in telephone conversation that work available when reinstatement offer was made was no longer available, and failed to recall Ee, pursuant to contractual seniority, rather than employ new hire]

4450-7501-3300 8(a)(3) cases

IMCO/International Measurement & Control Company, Inc. 277 NLRB No. 096

(E's refusal to pay reinstated discriminatee pay rate which included general raises granted Ees during discriminatee's interim backpay period constituted failure to make valid reinstatement offer; and since, E's offer set discriminatee's wage rate at amount less than that to which she was entitled, her acceptance of offer did not toll E's backpay liability; accordingly, E required to pay discriminatee, in addition to interim backpay, difference between actual rate of pay following return to work and rate which she should have received)

C-F Air Freight, Inc. 276 NLRB No. 062

(E's contention that backpay period was tolled on date discriminatees were sent unconditional offers of reinstatement, rejected where backpay claimants were given 10 days from date of offer to report for work and GC's backpay specification contended that backpay period ended 7 days after date of offer)

Brown Company; Brown Company, Livingston-Graham Division; et al. 278 NLRB No. 113

[request by E who had violated Act by unilaterally transferring unit work in mid-term of bargaining agreement that it not be liable for backpay during period which it relied on decision of joint labor-management grievance committee, rejected]

4450-7540 Unavailability of work

Maple Tree, Inc. 281 NLRB No. 097

[E's contention that discriminatees would have been laid off approximately 6 weeks after they were unlawfully discharged because of unavailability of work, rejected, where no Ees were laid off at time specified by E and even if there was reduction in available work for discriminatees, E would have transferred them to other jobs]

Hinz Store Fixtures & Construction Co., Inc. JD-(SF)-97-86

[E's reinstatement offer not valid and did not toll backpay liability in view of subsequent events, notwithstanding fact that letter containing offer was not delivered to Ee because he failed to notify E of change of address and that Ee received actual notice of offer in subsequent telephone conversation with E, where E told Ee in telephone conversation that work available when reinstatement offer was made was no longer available, and failed to recall Ee, pursuant to contractual seniority, rather than employ new hire]

4450-7540-5000 Backpay limited to periods when discriminatee was laid off from regular job

Boland Marine And Manufacturing Company, Inc. 280 NLRB No. 051

[backpay tolled as of date when last of claimants were offered and had opportunity to accept reinstatement, rather than date on which E completed last of its major projects, since it was impossible for Bd to conclude that any particular claimant would have been laid off as of particular date where E failed to show that claimants were hired for particular project, that all Ees working on project, that all Ees working on project were laid off at project's end, or that E's layoff and recall procedures were tied to Ees' seniority]

Felbro, Inc. **274 NLRB No. 186**
(in computing backpay, undocumented alien workers must be deemed *unavailable* for work (and accrual of backpay therefore tolled) during any period they were not lawfully entitled to be present and employed in the United States and issue as to availability was left to compliance stage)

Overseas Motors, Inc. **277 NLRB No. 061**
(Respondent E's contention backpay period tolled since discriminatee unavailable for work because he was out of country, rejected, since it provided no evidence contraverting GC's pleadings and compliance officer's testimony that discriminatee was back in country and able to work on dates as stated by GC, and thus Respondent has not met its burden of showing discriminatee not available for work)

4450-7560-8000 Discriminatee in Armed Forces

[issue of whether backpay period tolled as of date discriminatee entered armed forces left to compliance stage]

4450-7575 Rejection of valid offer of reinstatement

Burger Transfer & Storage Co. **281 NLRB No. 155**
[E's operations managers' statement to discharged strikers generally that their actions were hurting company, that company could do better for them, and company wanted them to return to work, was not unconditional offer of reinstatement, was vague, did not clearly rescind their discharges, and thus their failure to return to work after purported *offer* did not toll backpay]

Louton, Inc., t/a/ The Original Oyster House **281 NLRB No. 154**
[backpay period not terminated as of date discriminatee testified that she would not return to work even if offered reinstatement, since backpay is not tolled until discriminatee receives unconditional offer to return to work]

Smyth Manufacturing Co., Inc.; Beacon Industries **277 NLRB No. 066**
(E not relieved of its obligation to make Ee valid offer of reinstatement and E's backpay obligation continued to run until such offer was made, notwithstanding E's contention that any backpay obligation was tolled when Ee told Bd's Regional Office that he would not accept reinstatement with E if it were offered)

Murbro Parking, Inc. **276 NLRB No. 009**
(backpay period not tolled by discriminatee's rejection of offer of reinstatement as parking lot attendant, rather than to job as lot checker from which he had been discharged, since offer to substantially equivalent position not alternative open to E where discriminatee's former job still extant, and where job offered required handling money and discriminatee feared supervisor might frame him regarding money)

Rikal West, Inc. **274 NLRB No. 170**

[*conditional offer* of alternative employment, rather than unconditional offer of reinstatement, does not toll E's backpay obligation, since there was no showing nor finding that caretaker position at E's apartment complex some 30 to 50 miles distant from complex (from which 2 Ees were discharged) had been filled by time E communicated its conditional offer]

4450-7580 Strike

A & T Manufacturing Company **280 NLRB No. 106**
[claimant's backpay not tolled as of date of economic strike where at time of strike claimant was discriminatorily laid off Ee, making it impossible to ascertain whether he would have gone on strike absent E's prior discrimination, and such uncertainty must be resolved against E as wrongdoer]

Hacienda Hotel and Casino **279 NLRB No. 084**
[tip income not limited to understated amount reported on discriminatee's Federal income tax return, and ALJ's computation based on other considerations held proper; while not condoning discriminatee's action and not unmindful of other considerations, Bd held its responsibility was to restore discriminatee as accurately as possible to former economic position in absence of discrimination; matter was now of public record and best left to IRS which was being furnished copy of decision herein; and to base computation on reported income would allow E as wrongdoer to benefit from inaccurate reporting to IRS]

4467-2300 Conduct constituting cause for discharge

JCO Food Corp., d/b/a C-Town **281 NLRB No. 072**
[unlawfully discharged Ee's outburst upon seeing her replacement at work next day that she was a Puerto Rican, not a *shit Dominican,* not so serious or flagrant as to warrant withholding reinstatement where unaccompanied by threats or violence, notwithstanding Bd does not condone such ethnic slurs]

Boland Marine And Manufacturing Company, Inc. **280 NLRB No. 051**
[Ee discharged for stealing, proscribed by one of E's unlawful unilaterally promulgated disciplinary work rules, held not entitled to backpay, notwithstanding GC's contention that Ee was so entitled because E imposed its disciplinary system to Ee's deteriment, where E presented sufficient evidence of its consistent policy of discharging for theft]

Boland Marine And Manufacturing Company, Inc. 280 NLRB No. 051

Arrow Sash and Door Company 281 NLRB No. 149

[E ordered to make Ees whole for any losses they suffered due to unlawful unilateral change in health plan, notwithstanding bargaining agreement reached subsequent to time E unlawfully instituted new health plan provided therein that health plan unlawfully instituted by E would be retroactive covering period during which plan unlawfully in effect]

Searle Auto Glass, Inc. d/b/a Best Glass Company 280 NLRB No. 159

[medical expenses incurred for discriminatee's wife's gallbladder operation not reimbursable, since GC did not show that U health and welfare plan then in effect covered dependents or specific expenses involved where compliance officer could not compare plan's expenses with plan's coverage for lack of complete copy of plan]

Rikal West, Inc. 274 NLRB No. 170

(which would have been covered by Company insurance for losses proximately caused by E's discrimination against Ee)

Richard Burgett, A Sole Proprietor, d/b/a Burgett & Son Masonry and its Alter Ego Consumers Energy Savings System, Inc. JD-25-86

[where E-members of E association, unlawfully refused to execute extension agreement negotiated by E association and made unlawful unilateral changes in working conditions, Es ordered to reimburse Ees for any medical or dental bills they may have paid to health care providers that contractual policies would have covered and for any premiums they may have paid to third party insurance companies to continue medical and dental coverage in absence of Es' required contributions]

N.L.R.B. v. Seligman and Associates, Inc., and Its Wholly Owned Division, Scott Management Company 808 F.2d 1155 (C.A. 6, Dec. 1986)

[Bd Order enforced that required E to reimburse providers of medical treatment for discriminatee even though those charges might now be subject to statute of limitations defense–discriminatee never paid providers–as Order is consistent with S.Ct's holding that *make whole* remedial power of Bd is *broad discretionary one subject to limited judicial review*]

5549 SICK LEAVE

Americana Healthcare Center 273 NLRB No. 213

(where E unlawfully terminated agreed-upon sick leave provision which, by mutual mistake of parties, was not incorporated into agreement, E ordered to make whole Ees who would have been entitled to sick leave benefits by providing them with sick leave credit since E's unlawful discontinuance thereof)

Americana Healthcare Center 273 NLRB No. 213

(where E unlawfully terminated agreed-upon sick leave provision which, by mutual mistake of parties, was not incorporated into agreement, E ordered to compensate Ees for unused sick leave in accordance with established procedure; although Ees may not have *requested* compensation, such requests shall be presumed, since requests would have been futile in light of E's unlawful action in discontinuing sick leave benefits)

5550 CONTRIBUTIONS TO WELFARE, PENSION AND OTHER FUNDS

Arrow Sash and Door Company 281 NLRB No. 149

[E not ordered to make contributions to pension funds for period it unlawfully failed to make contributions, since U waived Ees' right to contributions for that period by virtue of subsequent bargaining agreement terminating any pension coverage retroactive to date E ceased making contributions]

Health Enterprises of America, Inc. d/b/a Calson Tower Geriatric Center and Geriatric Center of St. Louis, Inc., a Successor to Health Enterprises of America, Inc., d/b/a Calson Tower Geriatric Center 281 NLRB No. 052

[predecessor and successor jointly and severally liable as to dischargee for health and welfare contributions pursuant to arbitration award with interest or penalty on arrearages computed as in *Merriweather Optical Co.*, 240 NLRB 1213 (1979)]

Health Enterprises of America, Inc. d/b/a Calson Tower Geriatric Center and Geriatric Center of St. Louis, Inc., a Successor to Health Enterprises of America, Inc., d/b/a Calson Tower Geriatric Center 281 NLRB No. 052

[health and welfare contributions for discriminatee to be paid, notwithstanding contention that they had been settled by consent decree, where discriminatee had not been reinstated at time of agreement, and consent decree provided that E's ultimate liability would not be settled until all appeals (including backpay proceeding) had been exhausted; further, contribution on behalf of discriminatee's replacement could not be substituted on behalf of discriminatee]

Health Enterprises of America, Inc. d/b/a Calson Tower Geriatric Center and Geriatric Center of St. Louis, Inc., a Successor to Health Enterprises of America, Inc., d/b/a Calson Tower Geriatric Center 281 NLRB No. 052

[contention that arbitration award and consent decree merely stated that discriminatee should be *reinstated with backpay* and by omitting provision for health and welfare contribution inferentially excluded them, rejected where both required that discriminatee be made whole with amounts to be fixed by Bd, and such contributions are generally required as part of Bd make-whole remedies]

Hawg-N-Action, Inc. & J. L. Excavating, Inc. 281 NLRB No. 013

[E to pay contractually agreed upon trust fund payments in amounts it failed to make and reimburse Ees for expenses incurred as result]

Grand Flooring & Plastering Company 280 NLRB No. 052

[upon granting GC's mtn for summary judgment in backpay proceeding, Bd applied, to amounts of fringe benefit contributions and vacation pay E was ordered to pay, amount of proceeds RD received, pursuant to protective restraining order issued by ct of appeals, from public sale of E's assets currently being held in interest-bearing escrow account]

Cascade Painting Company, Inc. 277 NLRB No. 103

(Bd left to compliance stage question whether Es must pay any additional amounts into fringe benefit funds in order to satisfy Bd's make-whole

5550—Cont.

remedy; because Ee benefit fund provisions are variable and complex, Bd does not provide at adjudicatory stage of proceeding for addition of interest at fixed rate on unlawfully withheld fund payments; at compliance stage additional amounts may be determined by provisions governing funds and, absent such provisions, by evidence of any loss directly attributable to unlawful withholding, but not on collateral losses)

Smyth Manufacturing Co., Inc.; Beacon Industries **277 NLRB No. 066**
(E required to recompense discriminatees for pension contributions for period dating from time current Ees were given retroactive contributions to date E and U agreed to profit-sharing program in lieu of their previous pension plan)

Richard Burgett, A Sole Proprietor, d/b/a Burgett & Son Masonry and its Alter Ego Consumers Energy Savings System, Inc. **JD-25-86**
[where E-members of E association unlawfully refused to execute extension agreement negotiated by E association and made unlawful unilateral changes in working conditions, Es ordered to make contractually established payments to various trust funds; in accordance with Bd policy, amount of interest due on such payments is to be determined at compliance stage of proceedings]

Richard Burgett, A Sole Proprietor, d/b/a Burgett & Son Masonry and its Alter Ego Consumers Energy Savings System, Inc. **JD-25-86**
[where E-members of E association unlawfully refused to execute extension agreement negotiated by E association and made unlawful unilateral changes in working conditions, Es ordered to reimburse their Ees for contributions they themselves may have made for maintenance of contractual health and welfare, pension, industry and apprenticeship funds after Es unlawfully discontinued or failed to make contributions to those funds]

E. G. Sprinkler Corporation and its alter ego Goodman Piping Products, Inc. **JD-168-85**
(fact that E paid alternative health insurance benefits for its Ees or set up its own training program did not entitle it to an offset against its obligations to jointly administer E-U trust funds, and fact that funds were established by instruments other than bargaining agreement is irrelevant)

5550-5000 Credit to pension fund for past service

Truck Drivers Union Local 164, Teamsters (Evelyn McCann, an Individual, etc.) **274 NLRB No. 134**
(order requiring E-local, which unlawfully discharged Ees, and international and pension plan, as agents of local, to give discriminatees credit under plan, even though they did not perform services for local during backpay period, held not to conflict with fiduciary duty of plan nor with ERISA; record did not establish that plan will thereby lose its tax-empt status; backpay specification stated course of action against international and plan as to which relief may be ordered; and whatever remedies Ees may have under plan are not a substitute for statutory remedy for ULPs)

5570 LITIGATION COSTS AND EXPENSES (SEE ALSO 625-1967-5600)

Leon Arie Edrich and Ignatius Elefant, Co-Partners d/b/a Sanford Home For Adults, Successor, et al. (Local 6, International Federation of Health Professionals, Longshoremen) **280 NLRB No. 140**
[respondent, E, is liable to GC for court costs in connection with an Order of Second Circuit Ct of Appeals enforcing Bd backpay and reimbursement Order]

Garland Coal & Mining Co. **276 NLRB No. 102**
(E's request for reimbursement of fees and expenses incurred by all parties in preparation and presentation of initial consolidated hearing involving both U and individual as charging parties in their respective cases, denied; while there were unique factors involved in remand and reopening of record in case involving individual, in which C was dismissed, Bd lacked statutory authority to grant fees and expenses under circumstances of instant case)

Batavia Nursing and Convalescent Inn **275 NLRB No. 125**
(U's request that E be required to pay U its reasonable legal fees, denied, since E's defenses were not frivolous and turned partly on credibility resolutions)

5570-0100 Generally

Electrical Workers, Local 453 (Sachs Electric Co.) **277 NLRB No. 122**
(charging party's mtn for allowance of legal fees to be paid to himself as an attorney, from funds created for discriminatees which included himself, denied, since Bd's clients are the discriminatees and it is not w/i Bd's province to enforce an agreement to pay backpay which also relates to the payment of legal fees for discriminatees)

Workroom For Designers, Inc. and Sidney H. Slaselman, an Individual **274 NLRB No. 115**
(award to U of legal fees and expenses, inappropriate, notwithstanding E's numerous and outrageous ULPs, since respondents' defenses were debatable, rather than frivolous, where merits of several of complaint's allegations turned on credibility resolutions, and issues of individual liability of E's chief officer and shareholders and U's alleged misconduct raised unusual legal issues)

5570-5000 Types of litigation expenses

Springfield Transit Management, Inc. **281 NLRB No. 130**
[Bd declined to order E to reimburse U for litigation fees and expenses related to trial of cases, where E was found to have unlawfully refused to sign contract, such refusal occurred after impasse was reached, state ct had ordered arbitration, and arbitration award setting out terms of contract had issued]

Rosehill Cemetery Association **281 NLRB No. 046**
[in granting GC's mtn for summary judgment against E, Bd denied GC's request that it order E to reimburse Bd and U for expenses related to instant proceeding]

EPE, Inc. **273 NLRB No. 169**
(E ordered to reimburse U for costs and expenses incurred in preparation and conduct of contract negotiations and in investigation and preparation of instant proceeding, where E's conduct demonstrated a proclivity to violate the Act and E's litigation of instant proceeding was frivolous)

5578 VACATION PAY

Grand Flooring & Plastering Company **280 NLRB No. 052**
[upon granting GC's mtn for summary judgment in backpay proceeding, Bd applied, to amounts of fringe benefit contributions and vacation pay E was ordered to pay, amount of proceeds RD received, pursuant to protective restraining order issued by ct of appeals, from public sale of E's assets currently being held in interest-bearing escrow account]

Hacienda Hotel and Casino **279 NLRB No. 084**
[discriminatee who, upon being denied vacation because she failed to submit timely request, took leave of absence instead, held entitled to vacation pay where at the time she had been reemployed by E pursuant to Bd order as enforced by ct, but he had not done so in full compliance therewith; discriminatee failed to make timely request because of E's unlawful conduct; and E, in addition to failing to reinstate discriminatee to former position, further failed to comply with Bd's order and ct's judgment in denying her vacation to which she was entitled]

5584 JOINT LIABILITY OF UNION AND EMPLOYER

R. Waldo, Inc. **280 NLRB No. 138**
[U and E jointly and severally liable to reimburse present and former members of U for all monies deducted under U security provision of unlawful contract from date said contract executed]

Safeway Stores, Inc. **276 NLRB No. 089**
(where Ees at new store were coerced to support unlawfully assisted U solely on basis of unlawful entry into contract by E and U, contract's U-security provisions, and U references to such provisions in soliciting Ees, E and U ordered, jointly and severally to reimburse Ees for all initiation fees, dues, or other moneys, except Ees who were U members before they transferred to, or otherwise commenced work at new store)

Rainey Security Agency, Inc. **274 NLRB No. 041**
(where E and minority U unlawfully entered into U-security contract following E's unlawful recognition of U and U's unlawful acceptance thereof, Bd, contrary to ALJ, who recommended that E be secondarily liable for reimbursement of initiation fees and membership dues, found nothing so unusual about facts herein as to warrant imposition of other than traditional order making E and U jointly and severally liable)

5596 ORGANIZING AND NEGOTIATING EXPENSES OF UNION

The Cincinnati Enquirer, Inc., A Division of Gannett, Inc. **279 NLRB No. 149**
[ordering E to reimburse U for postal expenses where E discriminatorily denied U use of E-maintained Ee mailboxes to distribute U literature, not warranted absent *sufficient nexus* between discriminatory conduct and expenses incurred by U where U voluntarily used postal service to distribute literature; cease and desist order appropriate instead]

5598 MAKE WHOLE REMEDY

St. John's General Hospital of Allegheny County—ADR Center **281 NLRB No. 157**
[E ordered, if requested by U, to rescind unlawful unilateral changes in regard to rotating work place assignments, wage increases, and method of determining compensation for certain Ees. Absent such request, however, E shall not rescind changes unilaterally made until it has met its bargaining obligations; further, since change affecting wages was not to detriment of Ees, no restitution or make whole remedy required]

5598—Cont.

J. D. Landscaping, Corp. **281 NLRB No. 004**
[successor E to offer predecessor E's six most senior Ees, out of fifteen Ees not hired, employment and make them whole for discriminatorily refusing them employment due to U activities and to place rest of them on preferential hiring list for employment if work force expanded, and, if expansion occurred between events in case and compliance date, to offer predecessor's most senior Ee employment and make him whole, in all cases, discharging other Ees if necessary]

Advertiser's Manufacturing Company **280 NLRB No. 128**
[E to make whole Ees who suffered loss of earnings due to E's unilateral changes in piece rates, methods of payment, date of annual wage increases, and reduction in hours of work]

Watson-Rummell Electric Co. **277 NLRB No. 162**
[E to make Ees whole for loss of pay or benefits due to E's refusal to honor expired contract or unilateral changes]

Daniel Construction Company, A Division of Daniel International Corporation **276 NLRB No. 115**
(E's responsibility to offer to reinstate unlawfully discharged Ees and to make them whole for losses does not terminate in event Ees obtain substantially equivalent employment elsewhere; fact that E lost maintenance and construction contract at location where Ees were discharged does not terminate backpay liability upon Ees' obtaining equivalent employment where E demonstrated it could transfer Ees, not hired by replacement contractor, to other operations)

Truck Drivers Union Local 164, Teamsters (Evelyn McCann, an Individual, etc.) **274 NLRB No. 134**
(E's defense attacking character of discriminatees as being unworthy, vindictive persons who did not deserve to be made whole held irrelevant; discriminatees either are or are not entitled to claimed remedies by application of established backpay standards; E, not discriminatees, is respondent herein, and remedies ordered are vindication of public, not private, rights)

Greyhound Lines, Inc. **273 NLRB No. 180**
(make-whole remedy precluded where Ee was disciplined for *just cause* (insubordination) notwithstanding Ee's *Weingarten* rights violated by E's policy of requiring U representative to remain silent during investigatory interview)

N.L.R.B. v. DMR Corp. and Harrill Electric Contractors, Inc. **795 F.2d 472 (C.A. 5, July 1986)**
[Es' claim that Bd erred in ordering make-whole relief held w/o merit where Es failed to show that order was patent attempt to achieve ends other than those which can fairly be said to effectuate policies of Act; Bd may properly prevent Es from gaining advantage by their unlawful conduct; order requiring that Ees be made whole for unlawful repudiation of bargaining agreement served this end]

5598-5600 **Interest**

Manhattan Eye, Ear and Throat Hospital **280 NLRB No. 011**
[Bd leaves to compliance addition of interest at fixed rate on unlawfully withheld payments to benefit funds and any additional amounts to be paid into benefit funds after referencing provisions in documents governing funds at issue and, where there are no governing provisions, to evidence of any loss directly attributable to withholding action, which might include loss of return on investment of funds withheld, additional administrative costs, etc., but not collateral losses]

Smyth Manufacturing Co., Inc.; Beacon Industries **277 NLRB No. 066**
(interest on retained backpay should not inure to benefit of E rather than to benefit of those former Ees which it wronged)

Richard Burgett, A Sole Proprietor, d/b/a Burgett & Son Masonry and its Alter Ego Consumers Energy Savings System, Inc. **JD-25-86**
[where E-members of E association unlawfully refused to execute extension agreement negotiated by E association and made unlawful unilateral changes in working conditions, Es ordered to make contractually established payments to various trust funds; in accordance with Bd policy, amount of interest due on such payments is to be determined at compliance stage of proceedings]

Thomas Sheet Metal Co., Inc.; et al. **JD-(ATL)-86-84**
(Bd does not provide for interest at fixed rate on benefit fund payments due as part of make-whole remedy, since provisions of Ee benefit fund agreements are varable and complex; accordingly, question of amount of interest E must pay into benefit fund in order to satisfy make-whole remedy left to further proceedings)

5599 OTHER FEES

Electrical Workers, Local 453 (Sachs Electric Co.) **277 NLRB No. 122**
(charging party's mtn for allowance of legal fees to be paid to himself as an attorney, from funds created for discriminatees which included himself, denied, since Bd's clients are the discriminatees and it is not w/i Bd's province to enforce an agreement to pay backpay which also relates to the payment of legal fees for discriminatees)

Fugazy Continental Corp. **276 NLRB No. 152**
(R ordered to reimburse unlawfully discharged chauffeurs for cost of their franchises as well as backpay where they were not reinstated, and E not only refused to repuchase their franchises or help them resell them but sold their franchises to others, thus eliminating their chances of resale)

6600 BARGAINING ORDERS

6601 GENERALLY

Modern Iron Works, Inc. **281 NLRB No. 151**
[charging party's request that E be compelled to bargain with Ee committee, denied; since E had no adequate notice that such relief would be sought or basis therefor, it would be improper to expand C to consider such request]

Watson-Rummell Electric Co. **277 NLRB No. 162**
[E which effectively withdrew from multi-E association to bargain with U on individual basis]

N.L.R.B. v. Atlas Microfilming, Division of Sertafilm, Inc. **753 F.2d 313 (C.A. 3, Jan. 1985)**
(ct's *narrow scope of review* of Bd's R/Os exceeded if ct required Bd to independently articulate its reasons for imposing a bargaining order. S.Ct admonished lower cts to allow agencies to fashion their own rules of procedure)

N.L.R.B. v. Atlas Microfilming, Division of Sertafilm, Inc. **753 F.2d 313 (C.A. 3, Jan. 1985)**
(bargaining order appropriate where record amply justifies denomination of ULPs by E as *serious, extensive, pervasive* and *coercive*; ULPs consisted of threats of plant closing and layoffs, impression of surveillance created, discharge of U adherent and senior manager involved in persistent campaign of ULPs which satisfied standards for *Gissel II* order and are of kind that are unlikely to dissipate)

N.L.R.B. v. Atlas Microfilming, Division of Sertafilm, Inc. **753 F.2d 313 (C.A. 3, Jan. 1985)**
(requirement of a reasoned analysis setting forth factors justifying imposition of bargaining order was meant neither to burden Bd nor to limit issuance of bargaining orders whenever necessary. Sufficient for Bd to provide extensive list giving rise to recommendation that bargaining order be issued)

6607 APPROPRIATE ONLY FOR MAJORITY REPRESENTATIVE

The Well-Bred Loaf, Inc. **280 NLRB No. 036**
[nonmajority bargaining order not remedial option]

Stop N' Go Inc. **279 NLRB No. 052**
[8(a)(5) violation finding and bargaining order inappropriate, notwithstanding E's numerous ULPs, where 27 cards of alleged 41-card majority in 69-Ee unit were not properly authenticated]

Southern Illinois Petrol, Inc. **277 NLRB No. 017**
(bargaining order held inappropriate where, notwithstanding that U authorization cards clearly and unambiguously authorized U to act as Ees bargaining representative, cards were invalid for purpose of establishing that U represented majority of Ees in light of Ees being solicited and signing cards solely for purpose of obtaining election)

Superior Container, Inc. **276 NLRB No. 055**
(in finding contrary to ALJ, that U did not have card majority, Bd did not, for reasons expressed in *Gourmet Foods*, 270 NLRB 578, adopt ALJ's recommended remedy insofar as it provided for bargaining order)

Limpert Brothers, Inc. **276 NLRB No. 037**
(E's refusal to recognize U, violative, and bargaining order appropriate, since U had obtained card majority and E's conduct precluded fair election where E interrogated Ees shortly after gaining knowledge of U activity, threatened them with plant closure, discriminatorily laid off large percentage of workforce one day after learning of U campaign and discharged other Ees for refusing to cross ULP picket line set up by laid off Ees)

Roskin Brothers, Inc. **274 NLRB No. 053**
(bargaining order for separate unit of warehouse Ees held inappropriate, and unit composed of warehouse Ees and other Ees would negate the possibility of U's majority status, where E's entire facility consisted of a single one-story building and all categories of Ees--warehouse, sales and office--have occasion to be in all areas performing their jobs, warehouse Ees' duties are substantially integrated with other Ees, all Ees share common fringe benefits, are subject to common work rules and hiring, and discharge policies)

6612 TO REMEDY ULP'S WHICH PRECLUDE FAIR ELECTION

Cartridge Actuated Devices, Inc. **282 NLRB No. 066**
[appropriate, where E's violations, which were swift, severe in nature and extensive in number, included threats of plant closure which are among types of ULPs which destroy election conditions for longer period of time

6612—Cont.

than other ULPs; and coercive effect was heightened even further by fact that threats began week following advent of U campaign]

Cartridge Actuated Devices, Inc. **282 NLRB No. 066**
[appropriate, where E's violations included discharge of 2 Ees at *forefront of strike movement* and illegal promise of benefit; and such violations, committed by top management official readily perceived as representing company policy, heightened coercive effect of ULPs]

Cartridge Actuated Devices, Inc. **282 NLRB No. 066**
[appropriate, where E's violations, consisting of threat to close down plant, illegal promise of benefit, and coercive interrogation, directly affected significant number of Ees]

Cartridge Actuated Devices, Inc. **282 NLRB No. 066**
[appropriate, notwithstanding claim that there was no evidence that E's conduct influenced any Ees to alter their support for U or that they were coerced into revoking their authorization cards since, in determining whether bargaining order is appropriate, Bd examines severity of violations committed, as well as present effects of coercive ULPs; and although authorization cards were signed after E engaged in unlawful 8(a)(1) conduct, unlawful discharges of leading U adherents, long considered *hallmark* violations, justified issuance of bargaining order]

Abdul Samad Ra'Oof Shabazz and Jacqueline Craig, A Co-Partnership d/b/a Michigan Expediting Service; et al. **282 NLRB No. 030**
[C did not allege sufficient facts to enable Bd to evaluate pervasiveness of violations and determine whether bargaining order was warranted, where allegations did not indicate size of unit or state number of Ees who witnessed alleged infliction of bodily injury on Ee, heard E's statement about discharge of Ee for U activities, and were subjected to E's threat of bodily injury; nor did C allege extent of dissemination, if any, of such violations among Ees not directly affected by them; accordingly, case remanded to ALJ to determine appropriateness of order]

Bridgeway Oldsmobile, Inc. **281 NLRB No. 165**
[bargaining order appropriate where upon E's opening of new dealership, Ees were requested to withdraw from U and told U was not wanted after U had obtained majority and demanded recognition, E interrogated Ees and threatened to close shop and finally, prior to election, E packed unit with anti-U Ees to ensure its success in defeating U; such conduct strikes at *core* of Ees' organizational rights and because acts were executed by E's top management and unit is small, fair rerun election is not possible and there is no evidence E had taken any subsequent remedial steps to disavow its unlawful acts]

Alaska Cummins Services, Inc. d/b/a Goves Truck and Trailer **281 NLRB No. 161**
[bargaining order appropriate where, within a period of a little over one month after U filed *R* ptn, E interrogated Ees, told Ees that no planned changes in many benefits could be pursued while ptn was pending, solicited grievances, threatened to deny use of company equipment, threatened to close shop and discriminatorily laid off 40% of bargaining unit]

United Artists Communications, Inc., Operating Capri Theatre **280 NLRB No. 119**
[order to bargain with the one of competing Us which did not have contract with E, appropriate, in view of E's unlawful interrogations, assistance to favored U by soliciting Ees to sign authorization cards for that U, threats of discharge if Ees did not sign authorization cards for that U, and subsequent discharge of almost half Ees out of small unit who signed cards for competing U with which E least preferred to deal; bargaining order not foreclosed by fact that there were competing Us or by contract where contract had not been enforced at facility involved, nor by passage of time, particularly absent Ee turnover]

The Well-Bred Loaf, Inc. **280 NLRB No. 036**
[appropriate in view of unlawful interrogation, threats of discharge, and actual discharge of six out of twenty-three Ees in small unit, including two U leaders; any mitigating effect by reinstating two Ees overcome by additional interrogation and discharge of two more Ees afterwards]

Judy Hornby Designs, Inc. **279 NLRB No. 168**
[bargaining order not required to remedy threat made to U representative and overheard by Ee and later disseminated by U official to 4 other Ees--there was a total of 7 unit Ees--that E would close the plant before recognizing or having anything to do with U, as remark was heated and isolated reaction to forcible entry by U representative unto its premises rather than calculated threat to unit Ees that would tend to undermine majority strength and impede election process]

Times Wire & Cable Company **280 NLRB No. 003**
[bargaining order inappropriate, notwithstanding Bd was directing third election, where U won first election in spite of E's ULPs but election was set aside because of U's misconduct and although second election was also set aside because E withheld an expected wage increase, such ULP cannot be viewed as sufficiently serious to warrant bargaining order especially since ULPs were 5 years old]

Armon Company **279 NLRB No. 188**
[Bargaining order from date of U demand for recognition, appropriate notwithstanding strike and signing of one additional authorization card after commission of ULPs, where E committed more ULPs thereafter including *hallmark* violations of unlawful discharges, layoffs, reduction in hours, more onerous working conditions, as well as interrogation, discouragement of wearing of U insignia, and threats to close facility and discharge Ees; moreover ULPs were committed by top management and affected majority of unit Ees]

The Tribune Company **279 NLRB No. 138**
[in light of dismissal of C]

United States Aviex Company **279 NLRB No. 110**
[inappropriate, in view of few isolated 8(a)(1) violations involving unlawful promise affecting one Ee and his family member, unlawful interrogation not accompanied with threats of reprisal or promises of benefit, attempts on several occasions to create impression of surveillance having minimal effect, and limited attempt to demean Ees because of their U support]

B & P Trucking, Inc. **279 NLRB No. 092**
[bargaining order appropriate in view of E's unlawful threats to close facility, discharge of Ees' appointed spokesman, and closing of facility and discharge of all Ees, where violations emanated from high-level management officials, affected all Ees, and were so serious that no circumstances could be discerned that would mitigate them]

Stop N' Go Inc. **279 NLRB No. 052**
[8(a)(5) violation finding and bargaining order inappropriate, notwithstanding E's numerous ULPs, where 27 cards of alleged 41-card majority in 69-Ee unit were not properly authenticated]

Fiber Glass Systems, Inc. **278 NLRB No. 154**
[bargaining order, inappropriate where unlawful interrogation, threats, formation of grievance committee, no-solicitation rule, and prohibition of wearing U insignia were not so substantial that their effects could not be erased by traditional remedies and qcr resolved by rerun election, and lone unlawful discharge would not tend to have lasting inhibiting effect in view of peculiar circumstances supporting denial of reinstatement and limitation of backpay]

Sahara Datsun, Inc. **278 NLRB No. 148**
[appropriate in view of unlawful threats, interrogation, discharges, and unilateral discontinuation of bonuses and institution of written, in place of oral, warnings; order to operate from date E's misconduct began]

Dayton Auto Electric, Inc. **278 NLRB No. 080**
[appropriate, where U had card majority and in view of E's calculated campaign to discourage support for U, unlawful interrogation, unlawful discharge or layoff of 7 out of 12 Ees after U's demand for recognition, and threat to discharge ULP strikers, since while ULPs not so outrageous and pervasive fair election impossible, ULPs herein still have tendency to undermine majority status and impede election process]

Clark Equipment Company **278 NLRB No. 085**
[pre-election interrogation, threats of loss of benefits or other reprisals, interference with and threats of arrest for distribution of campaign literature, surveillance of Ee's personal property for evidence of U activity, and post-election interference with Bd's processes by twice advising Ee he was not legally required to honor Bd subpoenas, not violation of 8(a)(5) nor sufficiently egregious in name or number to warrant bargaining order, particularly where unit was large, misconduct involved few Ees and was not disseminated, U adherents were not discriminated against, and election was not close]

Quality Aluminum Products, Inc. **278 NLRB No. 049**
[appropriate in view of severity and pervasiveness of hallmark violations of layoff of 30 percent of unit, threats of discharge and plant closure, and creation of impression of surveillance directly affecting 41 percent of small unit; lingering impact on reinstated Ees comprising half of small unit and subject to seasonal layoff; and faint likelihood of fair election]

Reeves Brothers, Inc. **277 NLRB No. 153**
[bargaining order inappropriate since GC failed to demonstrate U's majority status]

Uniontown Hospital Association **277 NLRB No. 144**
(bargaining order inappropriate where E's ULPs, though numerous, involved only oral and written communications to Ees which were not the type to linger in Ees' minds and preclude free and uncoerced election, and did not involve threats of closure, discharge of even one U adherent, or unlawful grant of benefits)

Studio S.J.T., Limited **277 NLRB No. 126**
(bargaining order appropriate where widespread, repetitive, and blatant violations by top management officials demonstrated seriousness of E's overall commitment to eliminate U by any means; E's willingness to engage in extreme misconduct to thwart Ee support for U was revealed by its physical abuse and threats of bodily harm againstmost prominent U proponent)

6612—Cont.

Long-Airdox Company, A Division of Marmon Group, Inc. **277 NLRB No. 124**
(bargaining order appropriate where E's violations were severe in nature, extensive in number, and affected significant number of unit Ees; thus, E's threats to discharge Ees, to close plant, and to refuse to bargain with U and force Ees out on strike and then replace them, as well as statements concerning loss of customers because of unionization of plant, constituted long recognized *hallmark violations;* moreover, such violations affected 9 of 28 unit Ees and were committed by E's top officials thus heightening effect of violations since officials are readily perceived as representing company policy)

Long-Airdox Company, A Division of Marmon Group, Inc. **277 NLRB No. 124**
(bargaining order appropriate where, after election U lost, E continued its pre-election unlawful conduct by telling Ees that if U got in, E would have refused to negotiate with U and forced Ees out on strike and then replaced them, and that pay cut would have been completely restored sooner if Ees had not attempted unionization; and by such conduct, E eroded possibility of ensuring fair election)

Radio Broadcasting Co. **277 NLRB No. 121**
(bargaining order not warranted where most of E's unlawful conduct took place during one meeting held 3 weeks before election and there were no postelection violations; only ULPs were violations of 8(a)(1) and they were not highly coercive)

Kona 60 Minute Photo **277 NLRB No. 092**
(appropriate, since E's unlawful conduct struck at very core of Ees' organizational efforts, where E's repeated threats to discharge Ees for U activity were widely disseminated and had profound impact on Ees; seriousness of E's conduct was underscored by small size of unit and high level of management officials involved; and, as a whole, E's acts involved type of severe and pervasive coercion which has lingering effects not readily dispelled)

Kona 60 Minute Photo **277 NLRB No. 092**
(appropriate where, in light of violations found, possibility of erasing effects of E's ULPs and of conducting fair election by use of traditional remedies was slight; requiring E to refrain from such conduct would not eradicate lingering effects of violations nor would election reliably reflect genuine, uncoerced Ee sentiment; thus, Ees' representation desires expressed through authorization cards would be better protected by issuance of bargaining order than by traditional remedies)

Kona 60 Minute Photo **277 NLRB No. 092**
(appropriate, even though there had been some turnover in unit and significant passage of time since ULPs occurred; in circumstances of case, particularly seriousness of violations and their impact on entire unit, to withhold bargaining order would, in effect, reward E for its own wrongdoing)

Marion Center Supply, Inc. **277 NLRB No. 026**
(appropriate in view of E's committing four *hallmark* violations including discharge of main U adherent and active U supporter, and threats of discharge and plant closure and refusal to bargain)

Midwestern Mining & Reclamation, Inc., A Subsidiary of Midwestern Fuels Systems, Inc., etc. **277 NLRB No. 001**
(bargaining order appropriate, where E engaged in pervasive ULPs in order to dissipate support of U; and E's numerous threats of shutdown of its operations and unlawful discharges demonstrated propensity to engage in unlawful conduct which *goes to te very heart of the Act;* moreover, E's conduct precluded holding of fair election, since possibility of success fully eradicating lingering effects of E's unlawful conduct, and insuring fair election by use of traditional remedies, was slight, if not nonexistent)

Granco, Inc., d/b/a Thriftway Supermarket; et al. **276 NLRB No. 164**
(appropriate, where E's ULPs were sufficiently extensive and grave to foreclose likelihood that fair election can be held in foreseeable future; E's ULPs, both before and after election, served to dissipate U's card majority; E's managers and supervisors made concerted effort to identify U supporters and coercively to persuade them to relinquish their U support through unlawful interrogation, polling, and prehire screening; E's discharge of U's organizing committee members demonstrated E's enduring hostility toward U supporters; and E's continued willingness to violate Act indicated that Bd's usual remedies will be ineffective)

Granco, Inc., d/b/a Thriftway Supermarket; et al. **276 NLRB No. 164**
(in finding bargaining order warranted, Bd held threats of closure of E's operation and discharge of leading U activists were particular violations which were likely to have lasting inhibitive effect on substantial percentage of work force)

Granco, Inc., d/b/a Thriftway Supermarket; et al. **276 NLRB No. 164**
(in finding bargaining order warranted, Bd relied on E's extensive interrogation about Ees' U activities and threats of reprisal, conducted by management from top to bottom, and directed at almost all Ees, both individually and in groups, with some Ees subject of repeated interrogations and threats)

Granco, Inc., d/b/a Thriftway Supermarket; et al. **276 NLRB No. 164**
(in finding E's extensive and grave ULPs to warrant bargaining order, Bd held that, despite Ee turnover, inhibitive effects of ULPs were likely to persist; while supervisors who perpetrated majority of ULPs and number of victims of E's violation had left E's employ, one remaining supervisor had demonstrated willingness to carry out threat to eliminate U at all cost; and Ee turnover of about 12 percent was no reason to assume that other Ees were unaffected since unlawful discharges were likely to be common knowledge among Ees and E's unlawful polling touched majority of them)

Magic Island, Inc. **276 NLRB No. 107**
(bargaining order appropriate since fair election could not be held where E engaged in campaign consisting of violent obscenities coupled with threats directed at principal U organizers during critical period, promised benefits to those not supporting the U, terminated 5 of 9 U sympathizers by the time of the election, disseminated to entire unit false accusations concerning U supporters, and threatened to blackball all Ees who supported the U in election)

Walter Garson, Jr & Associates **276 NLRB No. 137**
(bargaining order not appropriate, notwithstanding E's unlawful threats of closure, since Ees sought confrontation with E, threats had little impact inasmuch as Ees subsequently signed U authorization cards, nor did Ees' attempted disavowal of U evidence coercion where decision to abandon unionization was result of Ees' own deliberations)

Lionel G. Sullivan and Ralph A. Fattore, A Partnership d/b/a Downtown Toyota **276 NLRB No. 106**
(bargaining order appropriate where lingering effects of E's past conduct render uncertain possibility that imposition of traditional c/d, reinstatement, and backpay orders and posting of notices to remedy ULP's would permit holding of fair election)

McLean Roofing Company **276 NLRB No. 093**
(bargaining order appropriate where clear majority of Ees expressed their desire to be represented by U, E committed ULPs impact of which was heightened by small number of Ees in unit and owner's participation in ULPs)

Brocal Corp. d/b/a Alert Medical Transport **276 NLRB No. 066**
(bargaining order issued where ULPs included unlawful discharges, abolishing job classification and laying off Ees w/i classification, interrogations, giving turkeys to influence vote, surveillance and threat to shut down)

Angelica Corporation **276 NLRB No. 038**
(inappropriate, where GC failed to demonstrate that preelection promises were so extraordinary or that postelection benefits granted were so substantial that their effects could not be resolved by preferred method of fair Bd rerun election)

Churchill's Catering Corporation d/b/a Churchill's Restaurant **276 NLRB No. 087**
(bargaining order not appropriate where majority status of U was not demonstrated; and even assuming U had attained majority status, remedial bargaining order not warranted since ULPs were not sufficiently extensive and of such nature as to have lingering effect that could not be erased by Bd's traditional remedies)

Superior Container, Inc. **276 NLRB No. 055**
(in finding contrary to ALJ, that U did not have card majority, Bd did not, for reasons expressed in *Gourmet Foods,* 270 NLRB 578, adopt ALJ's recommended remedy insofar as it provided for bargaining order)

Limpert Brothers, Inc. **276 NLRB No. 037**
(E's refusal to recognize U, violative, and bargaining order appropriate, since U had obtained card majority and E's conduct precluded fair election where E interrogated Ees shortly after gaining knowledge of U activity, threatened them with plant closure, discriminatorily laid off large percentage of workforce one day after learning of U campaign and discharged other Ees for refusing to cross ULP picket line set up by laid off Ees)

Ednor Home Care, Inc. **276 NLRB No. 042**
(inappropriate, notwithstanding U's majority status, and E's owner's embarkation upon course of conduct designed to destroy U's majority, since traditional remedies would suffice, where E had long history of voluntary acquiesence in U representation at his other enterprises, and absent U animus)

Crest Industries Corp. **276 NLRB No. 067**
(bargaining order not appropriate where only ULP found was single threat to discharge Ees if they spoke to U representatives)

Moe Warehouse & Accessory **275 NLRB No. 165**

Redway Carriers, Inc./Cardinal Leasing, Inc., A Joint Employer **274 NLRB No. 198**
(ALJ properly found that there was no conduct on part of E which would tend to preclude probability of fair rerun election after applying traditional remedies and no bargaining order was required where U, by withdrawing C allegations, in effect waived its contract claim as bar to election and left only alleged discriminatory job transfer of Ee to be considered as objectionable conduct)

6612—Cont.

Redway Carriers, Inc./Cardinal Leasing, Inc., A Joint Employer 274 NLRB No. 198
(not appropriate, where only ULPs committed by E during post election period consisted of contract violations; instead, in view of E's ULPs as weighed against U's misconduct consisting of threats and acts of violence during strike against E, first election set aside and second election directed)

Steffer Brothers JD-269-86
[appropriate, in view of E's pervasive and flagrant ULPs, their lasting inhibitive effect, and E's continued willingness to violate Act even after U had lost election]

Morning Star International, Inc. JD-209-86
[appropriate, where E's unlawful conduct struck at very core of Ees' organizational effort and consisted of no-holds-barred verbal assault against U by E, followed by rule making and production reviews which incorporated their own threats of discharge or other reprisals; threats disseminated by top management officials which had profound impact on Ees; and, as a whole, E's reaction to U organizing efforts involved type of severe and pervasive coercion with lingering effects not readily dispelled by ordinary remedies]

Morning Star International, Inc. JD-209-86
[E's letter offering to recall unlawfully laid off Ees held not to obviate necessity for *Gissel* bargaining order, where letter was not declaration of unqualified assurances that Ees' statutory rights will be honored; while disavowing and repudiating all alleged conduct, letter denied any misconduct; and offers to recall Ees, while effective to cut off E's backpay liability, hardly assured Ees they will not suffer same fate, especially since offers were made only after C herein issued]

Mattiace Petrochemical Company A Division of Mattiace Industries Inc., and Petro Chemical Haulers Co., Inc. JD-(NY)-34-86
[order appropriate because E's pervasive ULPs affected at least half of unit Ees and facts herein were very similar to those in *Quality Aluminum Products*, 278 NLRB No. 49]

Apple Glass Company JD-89-86
[appropriate in view of discharge of chief U organizer on very day Ees started signing cards and threats to close plant; Ee turnover not factor to be considered as mitigating need for order]

Maureen Erickson, Stewart Muller et al., A Limited Partnership d/b/a Dickerson Pond Associates, Ltd. JD-(NY)-7-86
[bargaining order issued where E had unlawfully discharged 4 out of 5 unit Ees]

Brenal Electric, Inc. JD-(NY)-21-84
[bargaining order appropriate, where E upon learning of Ees' support for U embarked upon course of conduct which included unlawful interrogations, soliciting grievances and bypassing U, promising Ees benefits if they would withdraw support from U, threats to close plant, and discharges]

Robert W. Wise, d/b/a Robert W. Wise Cabinetry JD-(SF)-157-85
(appropriate in view of unlawful interrogation, threats, solicitation of grievances, promises, discharges and refusal to bargain)

N.L.R.B. v. Eli Gordon, Gerald Tillinger and Seymour Tillinger, a Copartnership d/b/a Balsam Village Management Company 792 F.2d 29 (C.A. 2, May 1986)
[appropriate in view of unlawful threats to discharge, discharges, and refusal to bargain, notwithstanding E's contention that Bd did not adequately articulate basis for order and that there was 100% Ee turnover]

N.L.R.B. v. J. Coty Messenger Service, Inc. ———F.2d——— (C.A. 2, May 1985)
[ct vacated portion of Bd's order directing E to bargain with U where Bd failed to *show that bargaining order is appropriate when it is issued, not at some earlier date and to give reasoned analysis of impact Ee turnover would have on chances for fair election*]

N.L.R.B. v. Atlas Microfilming, Division of Sertafilm, Inc. 753 F.2d 313 (C.A. 3, Jan. 1985)
(bargaining order appropriate where record amply justifies denomination of ULPs by E as *serious, extensive, pervasive* and *coercive*; ULPs consisted of threats of plant closing and layoffs, impression of surveillance created, discharge of U adherent and senior manager involved in persistent campaign of ULPs which satisfied standards for *Gissel II* order and are of kind that are unlikely to dissipate)

6612-0100 Generally

Plateau Coal Sales, Inc. 279 NLRB No. 156
[bargaining order required where U represented majority of normal complement of Ees whom E agreed to hire and ULPs implicated highest management officials and affected every member of small unit where entire unit of Ees was unlawfully denied employment because they refused to work nonU which conduct would continue to undermine U support and impede election process]

N.L.R.B. v. Horizon Air Services, Inc. 761 F.2d 22 (C.A. 1, Apr. 1985)
(bargaining order, rather than election, is most salutary response by Bd where record exhibited occurrence of serious coercive practices, reasonably likely to have severe and lasting effects -threats of plant closure star chamber interrogation tactics, written admonitions, withholding of overtime, loss of employment, grant of benefits, reassignment and discharge- even in absence of direct proof of probability of recurrence)

6612-7500 Order operates from date of issuance by Board

Loose Leaf Hardware, Inc. v. N.L.R.B. 748 F.2d 347 (C.A. 6, Nov. 1984)
(E's contention that reaffirmed bargaining order could not be applied from initial date of entry rejected where, after hearing was held on E's objections to election pursuant to ct remand, objections were overruled, and bargaining order was reaffirmed; E's bargaining obligation arose at time of election, not when Bd reaffirmed its order on remand)

6612-8700 Order operates from date of either employer's misconduct precluding fair election or union's demand for recognition

Central Broadcast Company 280 NLRB No. 086
[date E began ULPs where ULPs did not start until after demand for recognition]

B & P Trucking, Inc. 279 NLRB No. 092
[appropriate from date U requested recognition]

Lionel G. Sullivan and Ralph A. Fattore, A Partnership d/b/a Downtown Toyota 276 NLRB No. 106
(E to bargain from date of demand for recognition)

Jean Foust, Sole Proprietor, d/b/a Regency Manor Nursing Home 275 NLRB No. 171
(bargaining order held appropriate from date E engaged in unlawful campaign, where E engaged in serious ULPs i.e., threats of plant closure, discharge and actual discharge of U supporters and in particular, concocted and implemented a scheme whereby E coerced Ees into accepting *supervisory* positions in an attempt to preclude pro-U Ees from voting, thereby seriously impairing integrity of Bd's electoral process, making it highly unlikely that a free and fair election could be held)

6615 RETROACTIVE BARGAINING ORDER

N.L.R.B. v. Jack E. Hartman, a Sole Proprietorship, d/b/a Dependable Tile Company 774 F.2d 1376 (C.A. 9, Oct. 1985)
[ct held Bd abused its discretion by ordering E to comply with bargaining agreement retroactively to date E unlawfully refused to sign agreement, rather than from date agreement became effective, since Bd has traditionally granted relief in similar cases retroactive to inception of contract, and absent explanation for doing so Bd cannot impose different remedies; further, if make whole relief for whole period of contract not ordered then status quo not restored]

6618 APPROPRIATE DESPITE INCREASE OR TURNOVER IN UNIT EMPLOYEES SINCE ULPs

N.L.R.B. v. Newly Weds Foods, Inc. 758 F.2d 4 (C.A. 1, Mar. 1985)
(E's contention that Ee turnover since election warrants new election given the closeness of result, rejected, since Ee turnover during delay caused by E's challenge of R election is not proper basis for ordering new election)

6625 BARGAINING CONCERNING PARTICULAR SUBJECT

6625-0200 Initial terms and conditions of employment

Martin J. Barry Company 278 NLRB No. 056
[proper remedial obligations for *Golden State* successor involving predecessor's unlawful refusal to execute and implement contract with U was to make Ees whole for predecessor's ULP up to time predecessor ceased business and then, bargain in good faith with U for contract, since such remedy is sufficient to convince unit Ees that employing enterprise intends to comply with the Act and strikes a balance between interests of successor, the public and the affected Ees]

6625-2900 Effect of subcontracting on unit employees

Everett Yacht Club JD-(SF)-115-85
(E ordered to bargain with U concerning effects of subcontracting on its Ees and to meet limited backpay requirement both to make whole Ees for losses suffered as result of E's ULP and to recreate in practicable manner situation in which parties' positions are not entirely devoid of economic consequences for E. Sum paid shall never exceed amount Ee would have earned from date on which E subcontracted work to time Ees secured equivalent employment elsewhere, or date E shall have offered to bargain, whichever occurs sooner,

6625-2800—Cont.

provided that sum will not be less than Ees would have earned for 2-week period at rate of their normal wages when last in E's employ)

6625-4000 **Change to independent distributorship system**

Alamo Cement Company d/b/a San Antonio Portland Cement Company 277 NLRB No. 033
(bargain over effects of unilateral changes)

6625-4400 **Effect of change in operations on unit employees**

Road Sprinkler Fitters Local Union No. 669, Plumbers v. N.L.R.B. 789 F.2d 9 (C.A. D.C., Apr. 1986)
[Bd's remedy confirms that U has bargaining rights with respect to all mandatory subjects of bargaining for all current and future Ees of E's unionized facility and for all previous Ees of E's unionized facility improperly displaced by virtue of illegal diversion of bargaining unit work]

6625-4800 **Effect of termination of operations on employees**

Borden, Inc., Chemical Division Thermoplastic Products 279 NLRB No. 059
[on U's request, E to bargain over severance pay issue w/o insisting on Ee execution of E general release of Ees' civil and statutory health and safety complaints as a condition of agreement]

Vitek Electronics, Inc. v. N.L.R.B. 763 F.2d 561 (C.A. 3, June 1985)
(fact that E closed down plant and bargaining unit no longer exists did not render bargaining order moot or futile even through bargaining order did not order *effects* bargaining since it did order E to bargain concerning rates of pay, wages, hours and other terms and conditions of employment and S.Ct held in *First National Maintenance*, 452 U.S. 666, that this language mandates bargaining over effects of plant closing)

6650 BARGAIN IN GOOD FAITH

6650-1200 **Execute agreed contract**

6650-1201 Generally

Martin J. Barry Company 278 NLRB No. 056
[order directing E, who was admitted *Burns* successor, to execute and implement contract agreed to by predecessor and make Ees whole for failure to so implement, contravened 10(c) of the Act and Bd was w/o remedial autority to so order, since, under principles of *H.K. Porter*, 397 U.S. 99 (1970), Bd lacks remedial authority to impose contractual terms involuntarily on either party to a collective bargaining agreement]

Martin J. Barry Company 278 NLRB No. 056
[proper remedial obligations for *Golden State* successor involving predecessor's unlawful refusal to execute and implement contract with U was to make Ees whole for predecessor's ULP up to time predecessor ceased business and then, bargain in good faith with U for contract, since such remedy is sufficient to convince unit Ees that employing enterprise intends to comply with the Act and strikes a balance between interests of successor, the public and the affected Ees]

6650-1205 As of original agreement date

Rockwood & Company and W. H. Gonyea Trust No. 1–17 d/b/a Timber Products Co. 277 NLRB No. 078
(E to execute and give retroactive effect to agreed on contract on request by U, with determination of whether effective date for purposes of retroactive effect should be the date from which the prior agreement would be renewed or the date on which parties reached agreement on the new contract left to compliance stage of proceeding)

N.L.R.B. v. Jack E. Hartman, a Sole Proprietorship, d/b/a Dependable Tile Company 774 F.2d 1376 (C.A. 9, Oct. 1985)
[ct held Bd abused its discretion by ordering E to comply with bargaining agreement rectroactively to date E unlawfully refused to sign agreement, rather than from date agreement became effective, since Bd has traditionally granted relief in similar cases retroactive to inception of contract, and absent explanation for doing so Bd cannot impose different remedies; further, if make whole relief for whole period of contract not ordered then status quo not restored]

6650-2500 **Honor contract**

Watson-Rummell Electric Co. 277 NLRB No. 162
[E to give retroactive and continuing effect to expired contract until E and U reach impasse or execute new contract or U refuses to bargain]

Rockwood & Company and W. H. Gonyea Trust No. 1–17 d/b/a Timber Products Co. 277 NLRB No. 078
(E to honor prior contract's U-security provision that was incorporated by reference in new contract it was ordered to execute)

Rockwood & Company and W. H. Gonyea Trust No. 1–17 d/b/a Timber Products Co. 277 NLRB No. 078
(E to comply with dues-checkoff provision of contract, where E refused to sign agreed-upon contract incorporating checkoff provision from expired contract)

N.L.R.B. v. Jack E. Hartman, a Sole Proprietorship, d/b/a Dependable Tile Company 774 F.2d 1376 (C.A. 9, Oct. 1985)
[ct held Bd abused its discretion by ordering E to comply with bargaining agreement rectroactively to date E unlawfully refused to sign agreement, rather than from date agreement became effective, since Bd has traditionally granted relief in similar cases retroactive to inception of contract, and absent explanation for doing so Bd cannot impose different remedies; further, if make whole relief for whole period of contract not ordered then status quo not restored]

6650-3700 **Furnish information**

6650-3714 All relevant and necessary information

Smyth Manufacturing Co., Inc.; Boscon Industries 277 NLRB No. 066
(E required to preserve and furnish to Bd agents, on request, for examination and copying, all documents and records related to *subcontracting or assigning to others the manufacture of parts for or on behalf of* E in order for Bd to police compliance with Bd's subcontracting remedy against E)

6650-3735 Wage and financial data

E. I. Du Pont De Nemours & Company 276 NLRB No. 034
(where E contended that supplying bargaining agent with requested information would compromise confidentiality of proprietary information, Bd ordered E to furnish requested information subject to bargaining in good faith regarding conditions under which information would be furnished, so that access would be provided in manner consistent with monitoriing appropriate safeguards protective of E's confidentiality concerns)

6650-3750 Health and safety data

Bloomsburg Craftsmen, Inc. 276 NLRB No. 043
(E ordered to furnish requested information despite conclusion of grievance procedure for which U originally requested it)

6662 CONDITIONAL ORDERS

E. I. Du Pont De Nemours & Company 276 NLRB No. 034
(where E contended that supplying bargaining agent with requested information would compromise confidentiality of proprietary information, Bd ordered E to furnish requested information subject to bargaining in good faith regarding conditions under which information would be furnished, so that access would be provided in manner consistent with monitoriing appropriate safeguards protective of E's confidentiality concerns)

6662-7000 **Conditioned on request for recission of unilateral change**

St. John's General Hospital of Allegheny County—ADR Center 281 NLRB No. 157
[E ordered, if requested by U, to rescind unlawful unilateral changes in regard to rotating work place assignments, wage increases, and method of determining compensation for certain Ees. Absent such request, however, E shall not rescind changes unilaterally made until it has met its bargaining obligations; further, since change affecting wages was not to detriment of Ees, no restitution or make whole remedy required]

6675 EXTENSION OF CERTIFICATION YEAR

Mediterranean Diner, Inc., t/a Bay Diner, Inc., and New Bay Diner, Inc., t/a Mediterranean Lounge 279 NLRB No. 077
[extension of certification year unwarranted where predecessor met with U on 3 occasions, predecessor was never charged with overall refusal to bargain, and successor's acquisition of predecessor and its refusal to bargain with U followed expiration of initial certification year]

Accurate Web, Inc. 279 NLRB No. 030
[certification year for U extended, (where U not accorded full certification year) *to embrace that time in which the E has engaged in its unlawful refusal to bargain,* inasmuch as there should have been bargaining since certified U requested same w/i certification year]

Alamo Cement Company d/b/a San Antonio Portland Cement Company 277 NLRB No. 033
(Bd ordered E to bargain for a reasonable time after remedying ULPs where ordering complete renewal of certification year and requiring E to bargain a full year was too much and extension of certification year by three and a half weeks inadequate)

6687 AFFIRMATIVE DEFENSES

6687-0300 **Bargaining order inappropriate due to lapse of time**

6687-0300—Cont.

Star Color Plate Service, Division of Einhorn Enterprises, Inc. **282 NLRB No. 031**
[notwithstanding election held 5 years before Bd issued its decision and Certification of Representative during which time E contends that because of substantial Ee turnover U may not represent majority of Ees, Bd granted summary judgment over E's failure to bargain with U in absence of newly discovered evidence]

United Artists Communications, Inc., Operating Capri Theatre **280 NLRB No. 119**
[order to bargain with the one of competing Us which did not have contract with E, appropriate, in view of E's unlawful interrogations, assistance to favored U by soliciting Ees to sign authorization cards for that U, threats of discharge if Ees did not sign authorization cards for that U, and subsequent discharge of almost half Ees out of small unit who signed cards for competing U with which E least preferred to deal; bargaining order not foreclosed by fact that there were competing Us or by contract where contract had not been enforced at facility involved, nor by passage of time, particularly absent Ee turnover]

6687-0500 Cessation or removal of operations

Woodline Motor Freight, Inc. **278 NLRB No. 152**
[order to redomicile tractors at original terminal, appropriate, where necessary to restore status quo ante and action would not be unduly burdensome, i.e., require capital investment disproportionate to E's resources, or impose substantial, continuing losses. Here, terminal was profitable before discriminatory relocation, and E has continued to operate terminal]

Vitek Electronics, Inc. v. N.L.R.B. **763 F.2d 561 (C.A. 3, June 1985)**
(fact that E closed down plant and bargaining unit no longer exists did not render bargaining order moot or futile even through bargaining order did not order *effects* bargaining since it did order E to bargain concerning rates of pay, wages, hours and other terms and conditions of employment and S.Ct held in *First National Maintenance*, 452 U.S. 666, that this language mandates bargaining over effects of plant closing)

6687-1300 Change in ownership or management

Martin J. Barry Company **278 NLRB No. 056**
[order directing E, who was admitted *Burns* successor, to execute and implement contract agreed to by predecesor and make Ees whole for failure to so implement, contravened 10(c) of the Act and Bd was w/o remedial autority to so order, since, under principles of *H.K. Porter*, 397 U.S. 99 (1970), Bd lacks remedial authority to impose contractual terms involuntarily on either party to a collective bargaining agreement]

Martin J. Barry Company **278 NLRB No. 056**
[proper remedial obligations for *Golden State* successor involving predecesor's unlawful refusal to execute and implement contract with U was to make Ees whole for predecessor's ULP up to time predecessor ceased business and then, bargain in good faith with U for contract, since such remedy is sufficient to convince unit Ees that employing enterprise intends to comply with the Act and strikes a balance between interests of successor, the public and the affected Ees]

Martin J. Barry Company **278 NLRB No. 056**
[E's contention that it was not *Golden State* successor and liable for predecessor's ULPs because it had no contractual relationship with predecessor nor did it purchase predecesor's assets, rejected, since E agreed to substantially reduce management fees charged to predecessor (who remained a customer of E) and such arrangement *effectively constituted payment* for predecessor's business]

N.L.R.B. v. Honaker Mills, Division of Top Form Mills, Inc. **———F.2d——— (C.A. 4, Feb. 1986)**
[E was not released from bargaining order even though it sold business prior to Bd's order, where buyer of business did not admit it was successor E and E had not had chance to establish it no longer had any relationship to facility in question]

6687-2500 Loss of union's majority

6687-2550 Employee turnover

Star Color Plate Service, Division of Einhorn Enterprises, Inc. **282 NLRB No. 031**
[notwithstanding election held 5 years before Bd issued its decision and Certification of Representative during which time E contends that because of substantial Ee turnover U may not represent majority of Ees, Bd granted summary judgment over E's failure to bargain with U in absence of newly discovered evidence]

Granco, Inc., d/b/a Thriftway Supermarket; et al. **276 NLRB No. 164**
(in finding E's extensive and grave ULPs to warrant bargaining order, Bd held that, despite Ee turnover, inhibitive effects of ULPs were likely to persist; while supervisors who perpetrated majority of ULPs and number of victims of E's violation had left E's employ, one remaining supervisor had demonstrated willingness to carry out threat to eliminate U at all cost; and Ee turnover of about 12 percent was no reason to assume that other Ees were unaffected since unlawful discharges were likely to be common knowledge among Ees and E's unlawful polling touched majority of them)

Apple Glass Company **JD-89-86**
[appropriate in view of discharge of chief U organizer on very day Ees started signing cards and threats to close plant; Ee turnover not factor to be considered as mitigating need for order]

N.L.R.B. v. Eli Gordon, Gerald Tillinger and Seymour Tillinger, a Copartnership d/b/a Balsam Village Management Company **792 F.2d 29 (C.A. 2, May 1986)**
[Ee turnover not mitigating factor where it was caused by very discharge violations sought to be remedied, E's reinstatement offer conditioned on renouncing U did not alleviate discharges for failure to do so, and reinstatement offer four months after discharges was so belated as to be properly construed as not in good faith]

6687-5000 Prior bargaining order

Gentzler Tool & Die Corp. **275 NLRB No. 124**
(notwithstanding Bd has pending ptn for enforcement of its Order requiring execution of contract, retroactive application of contract and that E c/d from dealing directly with Ees, Bd issued another D/O arising from subsequent C finding E violations for refusal to bargain and withdrawal of recognition which are different violations than those found in first decision, and therefore, Order in first decision would not remedy those violations found in second decision; hence, need for another Order)

6687-5400 Employer's contractual obligations

United Artists Communications, Inc., Operating Capri Theatre **280 NLRB No. 119**
[order to bargain with the one of competing Us which did not have contract with E, appropriate, in view of E's unlawful interrogations, assistance to favored U by soliciting Ees to sign authorization cards for that U, threats of discharge if Ees did not sign authorization cards for that U, and subsequent discharge of almost half Ees out of small unit who signed cards for competing U with which E least preferred to deal; bargaining order not foreclosed by fact that there were competing Us or by contract where contract had not been enforced at facility involved, nor by passage of time, particularly absent Ee turnover]

6687-7800 Settlement agreement

Hotel Holiday Inn De Isla Verde **278 NLRB No. 147**
[upon ct remand, Bd deferred to strike settlement agreement restricting conditions of reemployment of economic strikers allegedly discharged for misconduct, and vacated its order requiring reinstatement where at time of settlement, there was no finding strikers had been unlawfully discharged and, thus, they did not have legal right to remedy nor did E have legal obligation to provide remedy; here, in return for meeting on some middle ground, E voluntarily offered to reinstate strikers, and both E and U voluntarily offered to forgo any adjudication rights they might have had]

Hotel Holiday Inn De Isla Verde **278 NLRB No. 147**
[in deferring, pursuant to ct remand, to strike settlement agreement restricting conditions of reemployment of economic strikers allegedly discharged for misconduct, and vacating its order requiring reinstatement, Bd, in addition to its stated reasons for so holding, based deferral on absence of evidence or allegation that settlement was entered into fraudulently or under duress]

Workroom For Designers, Inc. and Sidney H. Sisselman, an Individual **274 NLRB No. 115**
(order that respondents bargain from date of U demand for recognition in view of respondents' outrageous and pervasive ULPs not precluded by misconduct of U and strikers in delaying vehicles entering and leaving plant, following some vehicles to see if they were taking work from plant to be performed elsewhere, single act of vandalism, and kicking of one of E's officers twice)

6687-9000 Union's inflexible negotiation demands

Southwest Forest Industries, Inc., Los Angeles Container Division **278 NLRB No. 031**
[E ordered to make Ees whole by restoring status quo for unilateral changes, notwithstanding U would not have bargained with E under any circumstances, since U had filed ULP charge over changes and linked continued bargaining to resolution of ULP and changes had not been subject of prior bargaining between U and E, which distinguished case from *Dependable Maintenance*, 274 NLRB No. 37, where status quo remedy was found inappropriate; thus, conclusion that U would not have bargained even absent ULP was purely speculative and wrongdoer bears the risk of any uncertainty its wrong has created]

Moving Picture Projectionists Local No. 150, Stage Employees IATSE (Dynasty Theater, Inc. d/b/a Garfield Theater) **274 NLRB No. 006**
(U ordered to refund portion of all excessive initiation fees as of specified date, but exact amount of refund left to compliance stage where, in contrast to prior Bd cases pertaining to excessive fees involving recent increase of prior existing fee not alleged to be excessive and resulting in Bd order requiring rfund of amount of increase, here U has been charging same excessive fee for several years, no recent increase was involved, and there was no evidence of what reasonable fee should be)

Haddon House Food Products, Inc. and Flavor Delight, Inc. v. N.L.R.B. **764 F.2d 182 (C.A. 3, June 1985)**
(Bd's order granting rival U access to E's premises and ordering another U to reimburse dues withheld after it entered into illegal U security contract with E during real qcr, held not an abuse of discretion, since such remedy restores climate of neutrality in which Ees free choice may be made Us competing for representation or for no representation at all)

5512 SERVICE FEES OR ASSESSMENTS IMPOSED ON NONMEMBERS

Ellis et al. v. Railway Clerks, et al. **———U.S.——— (U.S. S.CT, Apr. 1984)**
[where Ees, such as agency-fee-paying nonmembers in U shop, object to particular U expenditures, test must be whether expenditures are necessarily or reasonably incurred for performing duties of exclusive Ee representative in dealing with E on labor-management issues; under this standard, objecting Ees may be compelled to pay their fair share of not only direct costs of negotiating and administering contract and of settling grievances and disputes, but also of expenses of activities or undertakings normally or reasonably employed to implement or effectuate duties of U as exclusive representative]

Ellis et al. v. Railway Clerks, et al. **———U.S.——— (U.S. S.CT, Apr. 1984)**
[agency-fee-paying nonmembers in U shop must help defray costs of U's national conventions at which members elect officers, establish bargaining goals and priorities, and formulate overall U policy; conventions are essential to U's discharge of its duties as bargaining agent, and are directly related to its effectiveness in negotiating labor agreements; and U, which is required to hold either referendum or convention at least every 5 years for election of

5512—Cont.

officers, cannot be faulted for choosing to do so at convention rather than by referendum]

Ellis et al. v. Railway Clerks, et al. ———U.S.———
(U.S. S.CT, Apr. 1984)

[where agency-fee-paying nonmembers in U shop claimed that U's expenditures toward purchasing refreshments for U business meetings and occasional social activities are entirely unrelated to U's function as bargaining agent and therefore could not be charged to them, ct held that, while such affairs are not central to collective bargaining, small expenditures involved are important to U's members because they bring about harmonious working relationships, promote closer ties among Ees, and create more pleasant environment for U meetings]

Ellis et al. v. Railway Clerks, et al. ———U.S.———
(U.S. S.CT, Apr. 1984)

[agency-fee-paying nonmembers in U shop must help pay for costs of publication of U's monthly magazine whose contents are varied and include articles about negotiations, contract demands, strikes, etc.; magazine is important to U in carrying out its representational obligation and is reasonable way of reporting to its constituents; inasmuch as U cannot spend nonmembers' funds for particular activities, such as U organizing or litigation, it has no justification for spending nonmembers' funds for writing about such activities, but U is allowed to charge them for reporting on activities it can charge them for doing]

Ellis et al. v. Railway Clerks, et al. ———U.S.———
(U.S. S.CT, Apr. 1984)

[agency-fee-paying nonmembers in U shop held not required to pay for U's organizing expenses to which they objected; organizational efforts were not what Congress aimed to enhance by authorizing U shop; using objecting Ees' dues to recruit members among workers outside bargaining unit affords only most attenuated benefits to bargaining on behalf of dues payer; and *free rider* Congress had in mind was Ee whom U was required to represent and from whom it could not withhold benefits obtained for its members, but nonbargaining unit organizing is not directed at such Ee]

Ellis et al. v. Railway Clerks, et al. ———U.S.———
(U.S. S.CT, Apr. 1984)

[agency-fee-paying nonmembers in U shop held chargeable for litigation expenses incident to negotiating and administering contract or to settling grievances and disputes, representation litigation, jurisdictional disputes with other Us, and agency or ct litigation that concerns unit Ees and is normally conducted by U; litigation expenses not having such connection are not to be charged to nonmembers; therefore nonmembers need not share costs of U's challenge to legality of industry mutual aid pact, bankruptcy litigation seeking to protect Ees' rights, or defending suits alleging discrimination]

Ellis et al. v. Railway Clerks, et al. ———U.S.———
(U.S. S.CT, Apr. 1984)

[finding it unnecessary to pass on issue of whether agency-fee-paying nonmembers in U shop were required to participate in death benefit program, ct held they were not entitled to refund of past contributions to program; even if they had right to injunction to prevent future collections from them for death benefits, and although they objected to use of their funds to support plan, they remained entitled to its benefits as long as they paid their dues, and thus they enjoyed form of insurance for which U collected a premium]

Ellis et al. v. Railway Clerks, et al. ———U.S.———
(U.S. S.CT, Apr. 1984)

[where agency-fee-paying nonmembers in U shop objected to use of their contributions to particular U activities, ct held there was no constitutional barrier to allowing U to use their contributions for U's national conventions, U's social activities, and its monthly publication; U shop countenances significant infringement on First Amendment rights, and such interference is justified by governmental interest in industrial peace]

Ellis et al. v. Railway Clerks, et al. ———U.S.———
(U.S. S.CT, Apr. 1984)

[where agency-fee-paying nonmembers in U shop objected to making contributions to U's social activities on basis of First Amendment rights, ct held it need not determine whether contributing money to such affairs is an act triggering First Amendment protection; to the extent it is, communicative content is not inherent in the act but stems from U's involvement in it; since the objection is that these are *Union* social hours, fact that Ee is forced to contribute does not increase infringement of First Amendment rights already resulting from compelled contributions to U]

Ellis et al. v. Railway Clerks, et al. ———U.S.———
(U.S. S.CT, Apr. 1984)

[where agency-fee-paying nonmembers in U shop objected to making contributions to publication of U's monthly magazine and to U's national conventions on basis of First Amendment rights, ct held that, while both have direct communicative content and involve expression of ideas, there was little infringement of First Amendment rights beyond that already accepted, and none that is not justified by governmental interests behind U shop itself; expenses involved relate to U's collective bargaining work; and governmental interest in overcoming free-rider problem requires flexibility in U's use of compelled funds]

Ellis et al. v. Railway Clerks, et al. ———U.S.———
(U.S. S.CT, Apr. 1984)

[where agency-fee-paying nonmembers in U shop objected to particular U contributions they were required to make, ct held fact that objecting Ees invoked First Amendment was insufficient reason to impose heightened standard of clear and convincing standard of proof rather than preponderance of evidence proof normally applicable in civil suits for damages; ct has held that U bears burden of proving what proportion of expenditures went to activities that could be charged to objecting Ees, and that no heightened standard is appropriate in such a situation]

5534 MEDICAL INSURANCE OR EXPENSE

Local 87 Service Employees (Pacific Telephone and Telegraph Company) 279 NLRB No. 025

[request for reimbursement of medical expenses nonstriking Ee may have suffered as result of misconduct by pickets denied, since such expenses are better sought through private remedies traditionally used for recovery of such damages inasmuch as such remedies place Ees before tribunals which have more experience and are better equipped than Bd to measure impact of tortious conduct]

Local 1136, Laborers (Southern Illinois Builders Association) JD-179-86

[U's defense to backpay specification held frivolous and stricken from ans where U claimed it owed no money to pension and health and welfare funds on discriminatee's account because he was not U's Ee and U was prohibited by Sec. 302 from making such contributions on discriminatee's behalf; U's assertions were unsupported by any facts or argument, and amounts due reflected money which, absent U's discrimination, would have been paid by Es, and there was no indication such payments would have violated Act]

(no backpay due where Ee refused to pay supplemental back dues resulting from employment with member Es of multi-E unit thereby making Ee ineligible for dispatch to jobs with member Es, notwithstanding claim the bankruptcy ptn he had filed prohibited it and payment would compromise pending lawsuit challenging legality of dues; Sec. 8(b)(2) and U-security clause precluded U's referring one Ee, and not the others, w/o payment of dues, and there were several ways he could have paid them w/o abandoning his position as a plaintiff in the Ees' lawsuit challenging the dues' legality)

Electrical Workers, Local No. 428 (Kern County Chapter, National Electrical Contractors Association) 277 NLRB No. 048

(E associations' contention that contract deleting their right to call foremen by name be rescinded so as to preserve their E-members' statutory right to select their supervisors and grievance adjustment representatives, rejected, since right involved herein is statutory, and recission remedy, in circumstances of this case, would have no practical effect and would not effectuate purposes and policies of the Act)

1000 BACKPAY SPECIFICATION PROCEEDINGS

Noah Robinson; Master Food Services, Inc.; et al. **276 NLRB No. 123**
(backpay specification proceeding against multiple Es remanded to RD for hearing limited to taking evidence on single E/alter ego issue and on discriminatees' interim earnings and offsets, where Es contended one E filed in bankruptcy and others were not in business during relevant period; to find Es responsible during such period would require finding Es jointly and severally liable with E who was not party to underlying ULP proceeding herein, and consequently there was nothing in record to support such finding; and GC did not seek summary judgment herein on Es' joint and several liability)

Sentry Armored Courier Corporation **275 NLRB No. 014**
(notwithstanding specification included backpay for 8(a)(4) violation that ALJ who heard underlying ULP case held in abeyance pending decision of Ee's other E (worked 2 jobs) as to whether he violated that E's rules by abusing sick leave, which abuse brought to E's attention by Respondent in retaliation for Ee filing charges, and which later resulted in suspension for which backpay alleged in specification; no outstanding order finding this 8(a)(4) violation and ALJ at baccpay hearing precluded from making findings of fact and conclusions of law, issuing order and awarding backpay for alleged violation. Case remanded to original ALJ for this)

Midtown Service Center, Inc. **JD-(ATL)-28-86**
[alleged interim earnings correct and backpay figure set forth in specification accurate in view of E's failure to appear at (backpay) hearing and contradict interim earnings set forth in backpay specification]

Washington Beef Producers **JD-(SF)-86**
[memo to file prepared by Bd agent in conjunction with filling out backpay claimant's compliance form received into evidence by ALJ in backpay specification proceeding, where GC supplied memo to E, and compliance forms filled out by Bd agent incorporated by reference memo at issue, and thus converted it from purported confidential document to essential portion of relevant, admitted document]

Washington Beef Producers **JD-(SF)-86**
[in backpay specification proceeding ALJ considered memo to file prepared by Bd agent in conjunction with filling out backpay claimant's compliance form as being portion of relevant admitted document, and as proper substitute testimony of Bd agent concerning conduct of claimant; and since GC is party in backpay proceeding, GC agent's statements are admissions of party opponent, falling w/i Rule 801(d)(2) of FRCP, which defines as *not hearsay* admissions of party opponent]

Goodman Piping Products, Inc. **JD-168-85**
(Bd enforcement proceeding in ct of appeals has been held to be proceeding by governmental unit to enforce its regulatory power w/i meaning of provisions of Bankruptcy Act, and hence is not subject to automatic stay provision of that Act; and instant backpay proceeding is part and parcel of process leading to enforcement ptn filed in ct of appeals and, hence, falls under same exemption)

San Francisco Web Pressmen and Platemakers' Union No. 4 v. N.L.R.B. (Michael Tenorio and Gil Fowler) **794 F.2d 420 (C.A. 9, July 1986)**

Martin Arsham Sewing Co., a/k/a Marsco, Inc. **280 NLRB No. 081**
[backpay proceeding remanded for hearing on GC's supplemental mtn for determination of personal liability alleging E official wrongfully converted company assets to his personal use with intention to frustrate Bd's backpay order by rendering E bankrupt and insolvent; although GC's original personal liability mtn failed to demonstrate that official committed any act justifying *piercing of corporate veil*, GC's supplemental mtn provided Bd with additional information regarding official's actions with respect to bankruptcy proceeding and thereby raised issues of fact and law requiring further findings by ALJ]

Martin Arsham Sewing Co., a/k/a Marsco, Inc. **280 NLRB No. 081**
[in backpay proceeding, E's mtn to strike GC's supplemental mtn for determination of personal liability of official of E involved in bankruptcy proceeding, denied, since GC's supplemental mtn was timely filed where it constituted *re-filing* of original mtn w/i meaning of Bd's order denying mtn but stating that GC was not thereby precluded from re-filing mtn with appropriate evidential support]

Martin Arsham Sewing Co., a/k/a Marsco, Inc. **280 NLRB No. 081**
[in directing hearing in backpay proceeding on GC's supplemental mtn for determination of personal liability of official of E involved in bankruptcy proceeding, Bd held that, although GC failed to submit information herein on all items detailed in Bd's original order denying mtn, material submitted was adequate to raise issues appropriately resolved through hearing; however, additional information on items not addressed in GC's supplemental mtn, or lack thereof, may be considered in context of further proceedings]

Grand Flooring & Plastering Company **280 NLRB No. 082**
[upon granting GC's mtn for summary judgment in backpay proceeding, Bd applied, to amounts of fringe benefit contributions and vacation pay E was ordered to pay, amount of proceeds RD received, pursuant to protective restraining order issued by ct of appeals, from public sale of E's assets currently being held in interest-bearing escrow account]

Evans Plumbing Co. **278 NLRB No. 009**
[allegations of gross backpay found true and accurate where E failed to specifically deny backpay specification and state basis for disagreement or to bring inaccuracy to ALJ's attention at hearing when given opportunity to do so, relying instead on its mtn to dismiss because its filing of ptn in bankruptcy allegedly operated as stay to backpay proceeding]

Ohio Container Service, Inc.; Myron E. Wasserman, Trustee in Bankruptcy **277 NLRB No. 025**
(trustee in bankruptcy of Respondent E ordered to remedy stipulated violations of Sections 8(a)(1) and (3) by Respondent; nothing in *Bildisco* 104 S.Ct 1188 which would preclude ordering this remedy, since *Bildisco* was concerned with alleged Section 8(a)(5) contractual violations)

4014 SERVICE OF BACKPAY SPECIFICATION, NOTICE OF HEARING

Edgar Mantha and Kathleen Mantha, A Partnership, d/b/a Hopkins Hardware; et al. **280 NLRB No. 146**
[former owners of Respondent-E, Canadian citizens now living in Canada, were properly served with backpay specification and notice of hearing, notwithstanding no express statutory provision for Bd service outside U.S., since backpay specification supplemental step in proceeding to which E had been party from outset, and where copies of documents were sent by registered mail to their Canadian address and to their U.S. Attorney who represented E in underlying case and had not withdrawn, and E admitted actual notice through letter of their Canadian attorney]

4015 IMPROPER OR LATE FILING OF, OR FAILURE TO FILE ANSWER

Transportation By La Mar, Inc., Ready Transportation Co., Inc., La Mar Googer and Jerome Butler **281 NLRB No. 079**
[summary judgment granted against Respondent who failed to file answer to backpay specification, however, insofar as answers filed by other Respondents in case raised issue of discriminatees' interim earnings, final amount of backpay liability will be determined at hearing, in which non-answering Respondent will not be permitted to participate]

Great Lakes Coal Company **280 NLRB No. 070**
[mtn for summary judgment granted where respondent withdrew answer and objection to backpay specification and failed to reply to mtn]

Watt Electric Company And Its Alter Ego, Watt Plumbing, Air Conditioning & Electric, Inc. And John O. Watt **279 NLRB No. 129**
[E's amended answer to amended backpay specification deemed timely, notwithstanding it was late, since respondent is permitted to amend its answer where RD has amended backpay specification, Bd has in past viewed attempts to cure technical defects in original answer as timely, and Act calls

Howard R. Singer and Michael E. Davis, a Partnership and/or Howard R. Singer d/b/a Howard R. Singer Legal Services and/or David D. DeAngelis **278 NLRB No. 123**

[in backpay specification proceeding on mtn for summary judgment where Es' answers were filed w/i 10 days of date of GC's letter notifying Es of their obligation to file answers and informing them that unless ans was received *immediately* mtn for summary judgment would be filed, Bd agreed with E's contention that inasmuch as *immediately* would be absurd if taken literally, it should be taken to mean *w/i reasonable time*; and since answers were filed w/i 10 days of date of GC's letter, filing time was reasonable and timely]

Howard R. Singer and Michael E. Davis, a Partnership and/or Howard R. Singer d/b/a Howard R. Singer Legal Services and/or David D. DeAngelis **278 NLRB No. 123**

[in backpay specification proceeding Bd, in finding E's filing of ans timely, held that Bd's R/R 102.121 stating that its rules *shall be liberally construed to effectuate purposes and provisions of Act*, although not stating that Bd's deadlines can be disregarded, Bd could not strictly enforce R/R 102.54 requiring filing by certain date where GC's letter waived deadline and granted Es time in which to file their answers]

Howard R. Singer and Michael E. Davis, a Partnership and/or Howard R. Singer d/b/a Howard R. Singer Legal Services and/or David D. DeAngelis **278 NLRB No. 123**

[GC's mtn to strike Es' answers to backpay specification denied where Es filed amended answers which purportedly superseded initial answers and/or cured technical defects; amended answers were sworn to and contained mailing address]

Barry S. Solaf, M.D., d/b/a The Victoria Medical Group, et al. **274 NLRB No. 155**

(GC's contention that E's response to specification was not ans w/i meaning of Bd's R/R 102.54(b) and (c) because it was not sworn to, did not include E's address and did not explicitly admit, deny or explain specification's allegations, rejected and summary judgment denied, where, although ans was technically deficient, it was characterized by E as *response* and there was implicit denial of allegations in E's demand for supporting documentation; further, E's filing second ans in response to Notice to Show Cause, cured defects in initial ans; Bd's R/R's are to be liberally construed)

4025 SUFFICIENCY OF PLEADINGS

4025-0100 Generally

Transportation Management Corporation; et al. **277 NLRB No. 046**

(GC's mtn for summary judgment in backpay proceeding granted where E's answers to three backpay specifications did not conform to R/R Sec. 102.54 as to those matters w/i E's knowledge, did not specifically dispute accuracy of gross backpay figures or provide any specific alternative formula for computing gross backpay due, but merely denied allegations of backpay specifications or stated that E lacked sufficient knowledge to admit or deny specifications)

San Francisco Web Pressmen and Platemakers' Union No. 4 v. N.L.R.B. (Michael Tenorio and Gil Fowler) **794 F.2d 420 (C.A. 9, July 1986)**

[Ees must show both wrongful discharge by E and breach of duty by U before Bd can order backpay remedy]

4025-2000 General denial insufficient

Transportation By La Mar, Inc., Ready Transportation Co., Inc., La Mar Gouger and Jerome Butler **281 NLRB No. 079**

[Es' answer to amended backpay specification did not conform to requirements of Sec. 102.54(b) where answer did not specifically dispute accuracy of gross backpay figures contained in amended backpay specification; answer merely stated that Es would not use discriminatees' tax returns as absolute gauge of amount of backpay they were due]

Noah Robinson; Master Food Services, Inc.; et al. **276 NLRB No. 123**

(multiple Es' answers to backpay specification's allegations pertaining to gross backpay during relevant period held insufficient general denials, where answers, disputing accuracy of specification's figures, did not provide any alternative formula for computing gross backpay; number of hours Ees worked presumed fact w/i E's knowledge; Es, claiming lack of specificity in answers because they could not locate one E's payroll records, failed to request them from Bd, which had subpoenaed them; and Es were on prior notice that GC contended answers were not sufficiently specific)

Barry S. Solaf, M.D., A Professional Corporation, d/b/a The Victoria Medical Group and The West Jefferson Medical Group **274 NLRB No. 155**

(E's general denial of GC's gross backpay calculations striken from ans and its alternative backpay computation also striken, where E did not specifically explain basis for disagreement with RD's formula, did not set forth in detail its position as to premises of alternative formula and did not furnish appropriate supporting figures)

E. G. Sprinkler Corporation and its alter ego Goodman Piping Products, Inc. **JD-168-85**

(respondents in backpay proceeding have burden of proof that backpay specification is incorrect either with respect to formula used or computation made, and general denial of specification is insufficient)

4025-2050 Sufficient as to interim earnings

Midwest Motel Management Corp. of Birmingham **278 NLRB No. 060**

[while finding, contrary to ALJ, that E's general denial of backpay specification concerning amount of interim earnings was sufficient to raise such issue, Bd nevertheless adopted ALJ's findings with respect to interim earnings, since there was no prejudice from ALJ's rulings at hearing or discussion of such issue in his decision, where discriminatee denied ALJ's and E's counsel's inquiries whether there were any other interim earnings, and E did not attempt to present any additional evidence on issue]

Midtown Service Center, Inc. **278 NLRB No. 067**

[Bd in ruling on GC's mtn for summary judgment on backpay specification ordered hearing limited to determination of discriminatee's interim earnings where, although respondent's failure to specifically deny gross backpay allegations resulted in their being deemed admitted as true, its general denial of interim earnings allegations was sufficient under Sec. 102.54 to raise issues warranting a hearing]

Barry S. Solaf, M.D., A Professional Corporation, d/b/a The Victoria Medical Group and The West Jefferson Medical Group **274 NLRB No. 155**

(E's denials for lack of information and/or belief, of allegations concerning discriminatees' interim earnings, held sufficient general denials to raise factual issues warranting hearing)

4025-2500 Adequacy of answer

Heck's, Inc. **282 NLRB No. 043**

[mtn for partial summary judgment granted where respondent's amended answer asserted that certain allegations of backpay specification were incorrect but failed to offer alternative backpay formula or furnish supporting figures for computing amounts; nor did E explain in what respect duties of comparison Ees differed from those of discriminatee or provide other information indisputably w/i its knowledge]

Transportation By La Mar, Inc., Ready Transportation Co., Inc., La Mar Gouger and Jerome Butler **281 NLRB No. 079**

[hearing ordered to determine discriminatees' net interim earnings where Es' denial of knowledge of discriminatees' efforts to mitigate their losses was sufficient to place in issue amount of interim earnings]

Watt Electric Company And Its Alter Ego, Watt Plumbing, Air Conditioning & Electric, Inc. And John O. Watt **279 NLRB No. 129**

[answer asserting that E owed no backpay because it had offered discriminatees substantially equivalent employment, it would have ceased doing business if prevailing rates of pay and benefits had continued, U had refused to bargain, and Bd's order was vague and ambigous, insufficient, as it did not specifically dispute adequacy of gross backpay figures or provide specific alternative formula and only raised issues litigated and determined in ULP proceeding and precluded from further litigation]

Watt Electric Company And Its Alter Ego, Watt Plumbing, Air Conditioning & Electric, Inc. And John O. Watt **279 NLRB No. 129**

[E's alternative backpay calculation, unacceptable as matter of law where it was based on wage rate found in underlying ULP proceeding to have been unlawfully negotiated directly with Ees, and where E recited alternative computation of discriminatees' hours w/o expressly disputing formula GC used to compute hours or adequately explaining basis for disagreeing with GC's figures]

Howard R. Singer and Michael E. Davis, a Partnership and/or Howard R. Singer d/b/a Howard R. Singer Legal Services and/or David D. DeAngelis **278 NLRB No. 123**

[GC's mtn to strike Es' answers to backpay specification denied where Es filed amended answers which purportedly superseded initial answers and/or cured technical defects; amended answers were sworn to and contained mailing address]

Howard R. Singer and Michael E. Davis, a Partnership and/or Howard R. Singer d/b/a Howard R. Singer Legal Services and/or David D. DeAngelis 278 NLRB No. 123
[Es amended answers to backpay specification framed certain factual issues sufficient to require hearing concerning issues of successorship, when backpay obligation was tolled, and amount of backpay due discriminatee, but not as to three paragraphs of E's answers pertaining to method of calculating gross backpay which were stricken and pertinent allegations of backpay specification deemed to be admitted as true pursuant to GC's mtn for summary judgment and R/R 102.54(c)]

Noah Robinson; Master Food Services, Inc.; et al. 276 NLRB No. 123
(GC's mtn to strike portion of multiple Es' answers to backpay specification, and for partial summary judgment against them, granted with respect to specification's allegations pertaining to number of hours Ees worked and gross backpay during relevant period, where Es' answers to such allegations constituted insufficient general denials; however, Es granted 20 days from date of order herein to file mtn enabling them to answer allegations with appropriate specificity)

Barry S. Solof, M.D., d/b/a The Victoria Medical Group, et al. 274 NLRB No. 155
(GC's contention that E's response to specification was not ans w/i meaning of Bd's R/R 102.54(b) and (c) because it was not sworn to, did not include E's address and did not explicitly admit, deny or explain specification's allegations, rejected and summary judgment denied, where, although ans was technically deficient, it was characterized by E as *response* and there was implicit denial of allegations in E's demand for supporting documentation; futher, E's filing second ans in response to Notice to Show Cause, cured defects in initial ans; Bd's R/R's are to be liberally construed)

Edgar Mantha and Kathleen Mantha, A Partnership, d/b/a Hopkins Hardware; et al. JD-(SF)-127-86
[allegations of backpay specification deemed admitted to be true, where respondent failed to state bases for disagreement as to back-period and gross backpay or produce evidence in support of its allegation that discriminatee was incarcerated during backpay period and that specification did not include all discriminatee's interim earnings]

Local 1136, Laborers (Southern Illinois Builders Association) JD-179-86
[U's defense to backpay specification held frivolous and stricken from ans where U claimed it owed no money to pension and health and welfare funds on discriminatee's account because he was not U's Ee and U was prohibited by Sec. 302 from making such contributions on discriminatee's behalf; U's assertions were unsupported by any facts or argument, and amounts due reflected money which, absent U's discrimination, would have been paid by Es, and there was no indication such payments would have violated Act]

4025-3000 Abandonment of defense

Midtown Service Center, Inc. JD-(ATL)-28-86

Evans Plumbing Co. 278 NLRB No. 009
[allegations of gross backpay found true and accurate where E failed to specifically deny backpay specification and state basis for disagreement or to bring inaccuracy to ALJ's attention at hearing when given opportunity to do so, relying instead on its mtn to dismiss because its filing of ptn in bankruptcy allegedly operated as stay to backpay proceeding]

Rikal West, Inc. 274 NLRB No. 170

Northwest Metal Products, Inc. 281 NLRB No. 156

(E's claim, raised in ans to specification, that discriminatees would have been laid off for legitimate business reasons soon after unlawful conduct and claim that E ceased business operations prior to termination of alleged backpay period, held valid matters for compliance stage and summary judgment denied, since both contentions go to issue of discriminatees' job availability during backpay period)

Steelworkers, Local 15063 (Geraldine Shanks, an individual) 281 NLRB No. 169

[U cannot relitigate in backpay proceeding its contentions raised in underlying ULP proceeding that it was not liable for discharged Ee's losses because, allegedly, the E had right to discharge Ee under contract, Ee's grievance was untimely and E had refused to arbitrate, since Bd had determined in ULP proceeding that Ee's losses were due to U's unlawful failure to fairly represent her]

Rainbow Tours, Inc., d/b/a Rainbow Coaches 280 NLRB No. 017

[GC met burden notwithstanding claimants were discharged in 1977 and Bd failed to solicit information from discriminatees until 1982 which made it difficult for individual discriminatees to list with specificity and accuracy details of their job search and led to last minute disclosures and recollections since no showing of willful concealment. Consolidated Dress Carriers, Inc., et al. JD-(NY)-68-86

[in backpay proceeding, E's contention that it should be permitted to litigate issue of backpay claimant's status as discriminatee, rejected, where contention was not based on any authority but on arguments relative to preventing windfall to claimant and avoiding punitive remedies; logical extension of E's arguments could lead to impermissible result of allowing respondent, making similar contentions at backpay stage of proceeding, to adduce significant evidence that for one reason or another it did not introduce at underlying trial]

Consolidated Dress Carriers, Inc., et al. JD-(NY)-68-86

[in supplemental backpay proceeding, E's contention that it should be permitted to litigate issue of backpay claimant's status as discriminatee, rejected, where E not only failed to raise issue in underlying trial or in exceptions to Bd and ct, but it also entered into stipulation during initial backpay hearing; stipulation was entered into when E had all relevant documents, and yet it

signed agreement listing claimant as discriminatee and limiting issues it may raise in instant proceeding]

Steelworkers, Local 15063 (Geraldine Shanks, an individual) 281 NLRB No. 169

[U's contention in backpay proceeding that it should be relieved of liability for discharged Ee's losses because of Bd's allegedly prejudicial acceptance of settlement of Ee's related charge against E, which settlement did not require E to pay any backpay, rejected where U had not raised this defense in ULP proceeding or ct enforcement proceeding, had advanced no equitable reasons warranting relief from enforced remedy, and was simultaneously contending that it should bear no liability because E had acted lawfully in discharging Ee]

[raising of jurisdictional issue at backpay hearing, improper, where in underlying ULP proceeding E admitted it was E engaged in commerce]

Consolidated Dress Carriers, Inc., et al. JD-(NY)-68-86

[in backpay proceeding, E's contention that issue whether economic striker, refused reinstatement upon unconditional offer to return to work, had been terminated prior to strike, was not *litigated,* rejected; E could have and should have raised such affirmative defense before ALJ; records introduced herein were in E's possession and/or available to it when trying underlying case; issue was peculiarly w/i E's knowledge and control with no explanation offered why it did not raise issue at appropriate time; and res judicata bars all claims and defenses that were or could have been raised]

Rainbow Tours, Inc., d/b/a Rainbow Coaches 280 NLRB No. 017

Hacienda Hotel and Casino 279 NLRB No. 084

[finding of ULP is presumptive proof that some backpay is owed, and in backpay proceeding sole burden of GC is to show gross amounts of backpay due which is amount Ees would have received but for E's illegal conduct; once that is established burden is upon E to establish facts that would mitigate such liability]

[*it rests upon the tort-feasor to disentangle the consequences for which it was chargeable from those from which it was immune*]

Rainbow Tours, Inc., d/b/a Rainbow Coaches 280 NLRB No. 017

[Bd rejected E's contention that time it took from original decision adjudicating issue of discrimination until start of backpay hearing--over 4 years--was so great as to render accumulation of information sufficient to sustain the burden of proving mitigation an impossibility as Board is not required to place consequences of its own delay, even if inordinate, upon wronged Ees to the benefit of wrongdoing E]

Boland Marine And Manufacturing Company, Inc. 280 NLRB No. 051

[in backpay proceeding, unlawfully discharged or suspended Ee is presumed entitled to backpay, and E and not GC, bears burden of establishing facts which would negative or mitigate existence of liability to Ee; adherence to such general allocation of burdens in determining backpay is especially compelling where evidence of E's disciplinary practices relevant to determination of backpay, is peculiarly in possession of E, and it would be inequitable to require GC to ferret out information from sources available to E]

Niagara Falls Sightseeing By Sheridan, Inc. 279 NLRB No. 007

[respondent has burden of establishing facts which negative existence of liability or mitigate it, and evidence that individual in E's employ informed E that reinstatement offer was made by telephone to member of discriminatee's family is insufficient to overcome credited testimony that discriminatee was never informed of reinstatement offer; moreover, pursuant to compliance instructions, reinstatement offer was to be made in writing with copy served on Bd compliance officer]

Smyth Manufacturing Co., Inc.; Beacon Industries **277 NLRB No. 066**
(E failed to meet its burden of proving that Ee did not make reasonably diligent search for work after unlawful termination where GC proffered affidavit from Ee, who was unable to testify, in which Ee named 4 companies where he had sought work and referred to two employment interviews, thereby providing E with specific information that it could have checked to determine truth of Ee's assertions concerning his search for interim work)

Fugazy Continental Corp. **276 NLRB No. 152**
(exceptions to backpay awards because Ees were not produced by GC and did not testify overruled where E had specifically informed GC that it had no interest in examining Ees and neither objected at hearing to their absence nor sought to subpeona them nor reconsidered its prior acquiescence in amounts they claimed)

Midwest Motel Management Corp. of Birmingham **278 NLRB No. 060**
[while GC has burden to establish reasonableness and accuracy of its calculation of gross backpay amount, burden of proof with respect to E's affirmative defense rests upon it as original wrongdoer to demonstrate affirmatively that discriminatee has failed to make reasonable effort to find interim employment; and discriminatee is held only to reasonable exertion in such regard and not to standard of highest diligence]

[mtn to strike discriminatee's testimony concerning earnings because she attempted to shield herself against discrepancy between her testimony and income reported on her income tax returns by invoking fifth amendment as to her tax returns, denied where discriminatee subsequently signed form permitting E to obtain her tax returns, and E thus was not prejudiced by her original stance]

Rainbow Tours, Inc., d/b/a Rainbow Coaches **280 NLRB No. 017**
[willful loss of earnings is affirmative defense]

Rainbow Tours, Inc., d/b/a Rainbow Coaches **280 NLRB No. 017**

Rainbow Tours, Inc., d/b/a Rainbow Coaches **280 NLRB No. 017**
[claim of willful concealment of interim earnings because claimant only revealed earnings one week before trial while under subpoena thereby making disclosure *involuntary*, rejected. Newport News Shipbuilding & Dry Dock Company **278 NLRB No. 150**
[discriminatee who quits interim employment, in which he has secured substantially equivalent employment with comparable wages, hours and working conditions (granted by E), w/o good cause has willful loss of earnings warranting reduction of backpay]

Overseas Motors, Inc. **277 NLRB No. 061**
(no inference that discriminatee who claimed he lived on loans, interim earnings from self employment and unemployment compensation during backpay period was not disclosing interim earnings, notwithstanding large gap between earnings, unemployment compensation and discriminatee's expenses to be filled by loans, absent evidence of failure to disclose earnings; burden on Respondent is not merely to litigate question of existence or non existence of loans, but to show that there were other interim earnings)

Washington Beef Producers **JD-(SF)-86**
[E may limit its backpay liability by establishing that backpay claimant *willfully incurred* losses by a *clearly unjustifiable refusal to take desirable new employment;* to establish such mitigation, E's burden is to show that claimant *neglected to make reasonable efforts to find interim work*]

Washington Beef Producers **JD-(SF)-86**
[success in efforts to find interim work is not measure of sufficiency when discriminatees seek to achieve interim earnings; law *only requires an honest good-faith effort;* while evidence may leave question whether backpay claim-

Washington Beef Producers **JD-(SF)-86**
[compliance form questionnaire evidence regarding backpay claimants' search for interim employment viewed with skepticism by ALJ where claimant witnesses produced indirect answers to examination by E, who asked if entries they made on questionnaire constituted all Es they recalled contacting but were not asked how many Es they contacted on daily, weekly, or monthly basis]

Washington Beef Producers **JD-(SF)-86**
[backpay claimant held to have made reasonable search for interim employment over entire backpay period where, although his compliance questionnaire form listed fewer than 3 Es a month in his employment search, claimant contacted more Es than his questionnaire reflected, since questionnaire did not constitute complete record of such search, and E failed to meet its burden of proof in showing that claimant failed to make good faith interim employment]

[backpay to be paid RD to be held in escrow for period not exceeding 1 year from supplemental D/O to afford GC opportunity to locate and examine unavailable discriminatee's interim earnings; if GC fails to do so w/i 1-year period, award to lapse and backpay to be returned to respondent; rule of limitation will effectuate policies of Act by facilitating swift and orderly resolution of backpay proceedings, affording finality and stability to judgments and freeing Bd's time and resources for other cases; *Duncan Foundry & Machine Works*, 222 NLRB 768 (1976) overruled]

Starlite Cutting, Inc. and Its Alter Ego Petal Pink Novelty, Inc.; and Joseph Fornaro, an Individual **280 NLRB No. 120**
[although rule that backpay held in escrow for unavailable discriminatee be returned to respondent if discriminatee not located w/i 1 year may result in forfeiture, discriminatee has no entitlement to backpay, since it is a remedy that is public, not private right, and discriminatee has no property right in award pending his receipt of it; also on his showing by preponderance of evidence compelling reasons for not coming forward timely, Bd would find exception and let him claim award, so that rule is flexible and consistent with federal practice in class actions]

O.K. Machine & Tool Corp. And Gyrotronics, Inc. **279 NLRB No. 069**
[notwithstanding GC's assumption that backpay issues as to Ee might be unresolved at end of year, where parties knew location of Ee, Bd saw no reason for any direction as to E's liability after 1 year since Bd expected issue to be resolved w/i year]

L & J Equipment Company, Inc. 278 NLRB No. 074
[Bd accepted ct's opinion on remand as law of the case test for determining whether member of Ee organizing committee is U agent with respect to particular conduct, and noted that with respect to one of four criterions of test set forth by ct that acts of member must fall w/i scope of his role as member of committee ct had stated that U may be held accountable for unauthorized acts of member if acts would be generally regarded by reasonable third parties as connected with election campaign as w/i authority conferred by U on member]

L & J Equipment Company, Inc. 278 NLRB No. 074
[applying ct's agency test in its opinion on remand as law of the case, Bd held references by chairman of Ee organizing committee to possible future violence on picket line were attributable to U, where U assisted in forming committee, instructed it regarding organizing campaign, and entrusted it with organizing duties; chairman, authorized to act on behalf of committee with major role in campaign, was widely viewed by Ees as acting on U's behalf; his statements fell w/i ambit of his role as chairman; and U did not repudiate his conduct]

L & J Equipment Company, Inc. 278 NLRB No. 074
[applying ct's agency test in its opinion on remand as law of the case, Bd held statement by chairman of Ee organizing committee to Ee, regarded as anti-U, that if Ee signed U card pressures on him might cease was attributable to U]

The May Department Stores Company JD-(SF)-13-85
(Ees who were members of U's in-plant *steering committee* and *organizing committee* held agents of U, since, members were clothed by U with *apparent authority*, where members were told by U to carry U's message to their respective departments, U's paid staff agents were not allowed on E's premises and members were the only way U had to disseminate its message, U gave members distinctive shirts and other trappings denoting their special status and U publicly portrayed members as being well-tutored in U's affairs and told voters to look to them for answers to their questions)

Avis Rent-A-Car System, Inc. **280 NLRB No. 060**
[U is responsible for the acts of its authorized pickets even if not specifically authorized or if act is specifically forbidden; it is not necessary to establish identity of the picket engaged in misconduct or show he acted as U's agent, rather, U has affirmative obligation to control actions of unidentified pickets and cannot escape responsibility by contending that neither its business agent or picket captain were present when misconduct occurred]

Congreso De Uniones Industriales De Puerto Rico (Rice Growers Association of California (P.R.) Inc.) **279 NLRB No. 088**
[threat to physically attack, and later attack on Ee at E's plant gate in order to impede his access to work violation, where U picket captain observed conduct and permitted picket to remain on picket line after attack and where U did not repudiate his conduct and accepted him as U delegate, thereby silently adopting and approving violence]

Local 87 Service Employees (Pacific Telephone and Telegraph Company) **279 NLRB No. 025**
[U held not responsible for actions of unidentified individual on picket line who kicked nonstriking Ee; although U is responsible for actions of pickets on U-established picket line, it is not responsible for actions of mere passers-by who have no connection whatever to U]

[if U calls strike, or otherwise authorizes picketing, any acts by pickets in furtherance of strike or picketing will normally be attributable to U, even if U had not authorized those particular acts or had specifically forbade them. It is responsibility of U to retain control over pickets to insure that they do not act improperly, and is not enough to give oral and written instructions to strikers not to commit acts of violence to absolve U of responsibility. There is not need to identify U officers at the picket line to impute wrongdoing to U]

(U steward who threatened Ee with fine if Ee testified against fellow Ee at grievance hearing, held agent of U, notwithstanding U constitution provided that stewards were not officers or agents of U, since U clothed stewards with apparent authority, where U had published article concerning disciplining of U members for testifying in favor of Es w/o consulting U steward)

Redway Carriers, Inc./Cardinal Leasing, Inc., A Joint Employer **274 NLRB No. 198**
(although chief steward's failure to notify U representative of *ad hoc* resolutions regarding grievances and contractual matters constituted breach of his fiduciary obligation to U, he had both actual and apparent authority to enter into agreements with E on behalf of U, and such agreements, even to extent they in effect modified contract, became part of negotiated terms and conditions of employment)

Indiana & Michigan Electric Company **273 NLRB No. 193**
(in finding no violation where E imposed more severe disciplinary suspensions on U stewards for violating no-strike provision, Bd held that, with regard to specificity requirement for naming of U officials as opposed to specificity regarding what affirmative action can be expected of U in event of unlawful strike, it has long been established that U, like an E, acts through its agents and it would be radical departure from longstanding precedent to hold that U's contractual or other obligations must be explicitly designated as responsibility of specified officials or agents)

Oil Field Construction Company **JD-(SF)-104-86**
[even assuming foreman, who was also U president and steward, caused or attempted to cause E to discriminate against Ees, ALJ held U did not thereby violate Act, since foreman was not acting w/i scope of his authority as agent of U but was acting as agent of E where, as supervisor he was intimately involved in job assignment process, while, as steward, his sole authority was to adjust Ee grievances, and, as U president, to preside over U meetings and to sign checks and official documents]

Fruehauf Corpoartion 274 NLRB No. 067

(rank-and-file Ee was not an agent for U where Ee was no more than a *contact* at plant for U during organizing campaign, albeit Ee initiated U campaign, distributed authorization cards and was U's only in plant *contact*, and U did not hold Ee out as its agent or pay him for his efforts)

5070-2000 Capacity of agent

United States Postal Service 275 NLRB No. 057

(threat by low-level supervisor to file lawsuit against U on grounds of blocking goals of supervisor and personal harassment, not violative since E *not* accountable for temporary supervisor's remarks while acting as temporary *low-level* supervisor; remarks concerned filing civil suit on supervisor's own personal behalf and did not involve any threatened retaliation by E who had no knowledge of remarks and were not attributable to E or w/i supervisor's responsibilities)

Woodlawn Hospital 274 NLRB No. 123

(E's letter to U representing Ees on strike which informed U that Ees were discharged, held effective notice to Ees; contention that E must give actual notice to Ees themselves, rejected, since U was acting as agent of Ees; knowledge of discharge is imputed to Ees, where letter contained clear notice that strikers were discharged and where U asserted itself an agent of Ees by responding to letter on behalf of Ees as collective-bargaining agent; further, it is particularly appropriate in a strike situation, that a U be deemed to have broad authority to make and receive offers and proposals on behalf of strikers)

Teamsters Local Union No. 688, a/w Teamsters v. N.L.R.B. (Crown Cork and Seal Company, Inc.) **756 F.2d 659 (C.A. 8, Mar. 1985)**

(E's offer in settlement of outstanding claims arising from plant closing did not lapse notwithstanding offer rejected immediately by U and remained outstanding at least 5 months, as offer never explicitly withdrawn, E did not have reasonable belief offer had lapsed since it asked U to put its acceptance in writing after U orally accepted it, and E never told U it considered acceptance *too late*; furthermore, even if original offer lapsed, E's request for written acceptance construed as recognition of existing and open offer or renewal of previous offer that expired

(E's refusal to sign bargaining agreement until U's long time shop chairman fulfills his promise to sign letter resigning from E's employ, unlawful, absent express agreement that conditioned E's signing of agreement on resignation letter; E's contention agreement to sign retirement letter was *side agreement* and integral part of renewal contract, thus refusal to execute letter abrogated entire agreement, barred by parol evidence rule in that E thereby would seek to change term of contract)

Teamsters Local Union No. 688, a/w Teamsters v. N.L.R.B. (Crown Cork and Seal Company, Inc.) 756 F.2d 699 (C.A. 8, Mar. 1985)

(E's offer in settlement of outstanding claims arising from plant closing did not lapse notwithstanding offer rejected immediately by U and remained outstanding at least 5 months, as offer never explicitly withdrawn, E did not have reasonable belief offer had lapsed since it asked U to put its acceptance in writing after U orally accepted it, and E never told U it considered acceptance *too late*; furthermore, even if original offer lapsed, E's request for written acceptance construed as recognition of existing and open offer or renewal of previous offer that expired

3325-6750 Revocation of offer

Inner City Broadcasting Corporation 281 NLRB No. 162

[under labor law, open ended offer may be accepted after reasonable period of time even if accepting party has earlier rejected offer or made counter-proposal, and such acceptance will be binding upon both parties, provided offer has not been withdrawn prior to acceptance; on the other hand, offering party may condition offer upon acceptance by specified deadline, thereby precluding making of contract if other party fails to accept prior to deadline; in such case, offer is construed as being withdrawn if acceptance does not come by expressed deadline]

Felbro, Inc. 274 NLRB No. 186

(E's refusal to abide by contract, on grounds that it revoked its offer before it was notified of contract's ratification by membership, violative, where E and U had agreed on all terms of contract and Ees ratified contract; further, fact that E was not notified of ratification was immaterial to its attempt to revoke offer)

Norsk Hydro Aluminum, Inc. JD-(ATL)-14-86

[E's refusal to execute contract, not violative, since there was no meeting of the minds on major issue of wages where although e had made offer on wages, offer was withdrawn before acceptance by U]

Local 512, Warehouse and Office Workers' Union, Ladies Garment Workers v. N.L.R.B. 795 F.2d 705 (C.A. 9, July 1986)

[E's refusal to execute agreed upon contract upon ratification by Ees, which was only condition to execution of contract agreed to, unlawful; E's contention that it have effectively revoked offer by its mailgram sent to U prior to U's mailing notification of ratification vote, rejected, since ratification, not notification of vote, was critical act]

3350 ACCEPTANCE

3350-0100 Generally

Hydro Conduit Corporation 278 NLRB No. 164

[mere filing and service of ULP charge alleging E refused to execute an agreement does not constitute notice of acceptance of an offer in collective bargaining negotiations between private parties so as to make E's failure to execute agreement, when there has otherwise not been a valid acceptance, a violation of Section 8(a)(5)]

Americana Healthcare Center 273 NLRB No. 213

(in determining whether underlying oral agreement has been reached, Bd is not strictly bound by technical rules of contract law but is free to use general contract principles adopted to bargaining context; thus, acceptance of final offer of complete bargaining agreement manifests mutual assent, creating binding bargaining agreement, and therefore triggers duty to execute written contract on request embodying that agreement)

Jack Nyhiel, A Sole Proprietorship, d/b/a Joey's Stables 279 NLRB No. 097

[E's contention that under technical rules of contract law it was not obligated to execute contract, since U's acceptance of E's offer was not effective until U's mailgram of acceptance was received, which was after expiration of certification year, rejected, since technical rules of contract law do not control collective bargaining, and further, assuming arguendo applicability of technical contract rules, U's acceptance was opeative when its mailgram of acceptance was dispatched]

6700 CONSTRUCTION OF CONTRACT

6717 WRITTEN TERMS OF CONTRACT ARE CONCLUSIVE

6717-1200 Ordinary meaning of language is given to words

Local Union 1395, Electrical Workers v. N.L.R.B. (Indianapolis Power & Light Co.) 797 F.2d 1027 (C.A. D.C., Aug. 1986)

[words parties use in drafting contracts are only evidence of their intent; words are not themselves the parties' intent; Bd may not, in guise of enforcing *plain meaning* of contractual language, erect inflexible presumption on issue turning on parties' *actual* intent; intent of parties to bargaining agreements is not to be discerned by reference to abstract definitions unrelated to context in which parties bargained, especially where bargaining history is crucial to understanding of that intent]

6717-7500 Where words are ambiguous or have more than one meaning they are construed against one who drafted contract

Ballou Brick Co. 277 NLRB No. 009

(where E had printed two rules in Ee handbook, one of which flatly forbids any solicitation or distribution at any time and the other which allowed solicitation or distribution on *non-work time*, Bd held that first rule was clearly unlawful and was not saved by second rule since Ees were never told that second rule was E's real rule and further, any ambiguity in two rules was solely the responsibility of E and therefore, E bears the risk the ambiguity will be held against it)

6733 CONTRACT INTERPRETATION

6733-0100 Generally

Local Union 1395, Electrical Workers v. N.L.R.B. (Indianapolis Power & Light Co.) 797 F.2d 1027 (C.A. D.C., Aug. 1986)

[while Bd may interpret bargaining agreements when they are raised as defenses in ULP proceedings, ct's approach is to extend deference to Bd's factual findings on matters bearing on intent of parties, but not to ultimate legal conclusions attached to parties' words and conduct]

Local Union 1395, Electrical Workers v. N.L.R.B. (Indianapolis Power & Light Co.) 797 F.2d 1027 (C.A. D.C., Aug. 1986)

[Bd's interpretation of contractual provisions is entitled to no particular deference; if deference were afforded Bd's intrepretation of bargaining agreements, it would be free to apply different standards of interpretation than those applied by cts in Sec. 301 suits, thereby undermining voluntary bargaining process and exerting disruptive influence upon both negotiation and administration of collective agreements]

Local Union 1395, Electrical Workers v. N.L.R.B. (Indianapolis Power & Light Co.) 797 F.2d 1027 (C.A. D.C., Aug. 1986)

[standards governing question whether contract *waives* statutory rights and provides defense to ULP charge do not differ from those cts apply in Sec. 301 breach of contract suits; it is not appropriate in either context to interpret agreements in vacuum; rather, they must be read in light of realities of labor relations and federal labor policy; *clear and unmistakable* test dictates that waiver of statutory rights may not be inferred casually, but it also cannot be applied woodenly; whether rights have been waived depends on circumstances of each case]

6733-1000 Board not compelled to decide between conflicting, reasonable interpretations of contract

Operating Engineers, Local No. 701, etc. (Howard S. Lease Construction Co. & Associates) 276 NLRB No. 077

(where depending on whether *owner-operators* are Ees or independent contractors, agreement alleged to violate Section 8(e) may be primary in nature and lawful, or secondary and unlawful, Bd applies rules of construction. If meaning of clause clear Bd will determine validity under 8(e) and where clause not clearly unlawful, Bd will interpret it to require no more than required by law. But, if ambiguous, Bd will not presume unlawfulness, and absent extrinsic evidence of whether clause intended to be administered in lawful or unlawful manner, Bd will not pass on its validity)

Cement Masons, Local 627, Plasterers (Jack Hart Concrete Construction) 274 NLRB No. 187

(Bd dismissed C alleging U unlawfully refused to bargain with E where both parties had reasonable, though differing, interpretation of ambiguous termination provision of original contract agreed to by parties, and Bd refused to endorse any of parties' interpretation)

6733-1500 Board may resolve questions of contract interpretation to determine whether unfair labor practice committed

Operating Engineers, Local No. 701, etc. (Howard S. Lease Construction Co. & Associates) 276 NLRB No. 077

(where depending on whether *owner-operators* are Ees or independent contractors, agreement alleged to violate Section 8(e) may be primary in nature and lawful, or secondary and unlawful, Bd applies rules of construction. If meaning of clause clear Bd will determine validity under 8(e) and where clause not clearly unlawful, Bd will interpret it to require no more than required by law. But, if ambiguous, Bd will not presume unlawfulness, and absent extrinsic evidence of whether clause intended to be administered in lawful or unlawful manner, Bd will not pass on its validity)

Railway Carriers, Inc./Cardinal Leasing, Inc., A Joint Employer 274 NLRB No. 198

(where case presented allegations that E had unlawfully repudiated both contract and U's representative status resulting in breakdown of contractual relationship, ALJ invoked Bd's *superior authority* to decide such issues of contract interpretation, or subject matter of pending or potential grievances, in order to pass upon and if necessary remedy alleged ULPs)

N.L.R.B. (Steven R. Lovell, etc.) v. Electrical Workers, Local 11 772 F.2d 571 (C.A. 9, Sep. 1985)

N.L.R.B. v. Construction and General Laborers' Union Local No. 534, Laborers — 778 F.2d 284 (C.A. 6, Dec. 1985)

[confining discussion of alleged U steward exception to referral process to analysis of *four corners* of agreement erroneous in labor agreement context, since, notwithstanding exception was not explicity stated in agreement, Bd could have found that law of shop governed selection of stewards]

N.L.R.B. v. Americana Healthcare Center — 782 F.2d 941 (C.A. 11, Feb. 1986)

[Bd order enforced where E and U duly negotiated contract for unit Ees which negotiations, inter alia, included Ee sick leave benefits were omitted from parties' written contract by inadvertence and mutual mistake, substantial evidence supported Bd's determination that parties agreed to continue sick leave benefits according to previous practice]

6733-7500 Extrinsic evidence not admissible to impeach written terms

N.L.R.B. (Steven R. Lovell, etc.) v. Electrical Workers, Local 11 — 772 F.2d 571 (C.A. 9, Sep. 1985)

6733-8010 Duration and termination

The Gateway Theatre Corporation d/b/a Senator Threatre, Capitol Hill Cinemas — 277 NLRB No. 186 one work there had been no complaint, unlawful, since motivated by E's U animus, notwithstanding E's offer to rehire Ee and Ee's refusal because he did not wish to cross picket line, inasmuch as E's offer was not to retain Ee, but to rehire him and does not detract from fact E discharged Ee for no valid reason]

Cement Masons, Local 627, Plasterers (Jack Hart Concrete Construction) — 274 NLRB No. 187

(Bd dismissed C alleging U unlawfully refused to bargain with E where both parties had reasonable, though differing, interpretation of ambiguous termination provision of original contract agreed to by parties, and Bd refused to endorse any of parties' interpretation)

6733-8020 No strike clause

Nicholas, Inc. and Nicholas, Inc., Debtor in Possession — JD-(NY)-31-86

[in cases arising before amendments to Bankruptcy Act effective, E, debtor-in-possession, lawfully discharged Ees for striking in violation of no-strike provision in contract where strike occurred during interim period of E petitioning court approval to reject contract and prior to court granting petition, and E continued to abide by terms of contract during this period, thus affirming contract]

Local Union 1392, Electrical Workers v. N.L.R.B. (Indiana & Michigan Electric Co.) — 786 F.2d 733 (C.A. 6, Mar. 1986)

[where E imposing more severe disciplinary suspensions on U stewards for violating no-strike provision, not unlawful where contractual language showed U intent for its officials to attempt to prevent unauthorized work stoppages, and this language constituted *clear and unmistakable waiver* of officials right to be free from selective discipline]

International Molders and Allied Workers Union, Local No. 164 v. N.L.R.B. — 765 F.2d 858 (C.A. 9, July 1985)

(blanket no-strike clause held waiver of right to strike during both arbitration proceeding and judicial review of arbitration decision, since no-strike clause presumed coterminous with arbitration process, and judicial review is part of final and binding arbitration process; contention waiver not clear and unmistakable, as required by Bd rule, as no evidence parties contemplated question of whether no-strike clause would apply to pending judicial review of arbitration award, thus clause applies only to contingencies individually identified previously as being w/i its coverage, rejected)

Local Union 1395, Electrical Workers v. N.L.R.B. (Indianapolis Power & Light Co.) — 797 F.2d 1027 (C.A. D.C., Aug. 1986)

[ct rejected U's contention that Bd's treatment of sympathy strikes as matter of contract interpretation of no-strike clause was inconsistent with *clear and unmistakable* standard which is addressed to Ee's subjective intention to give up a statutory right rather than to objectively reasonable construction of contract that binds Ee; S.Ct has held that general no-strike clause which turns upon proper interpretation of contract, and relevant cases do not support proposition that waiver hinges upon Ee's subjective intent rather than mutual consent reflected in contract]

Local Union 1395, Electrical Workers v. N.L.R.B. (Indianapolis Power & Light Co.) — 797 F.2d 1027 (C.A. D.C., Aug. 1986)

[rejecting U's contention that Bd's treatment of waiver of sympathy strikes as matter of contract interpretation of no-strike clause was inconsistent with *clear and unmistakable* standard addressed to Ees' subjective intent to give up statutory right, ct held federal labor policy is more threatened by interposition of artificial rules of construction upon parties' mutual intent when *waiver* of sympathy strikes is at stake, than by Bd's giving effect to clear impact of contractual language]

Local Union 1395, Electrical Workers v. N.L.R.B. (Indianapolis Power & Light Co.) — 797 F.2d 1027 (C.A. D.C., Aug. 1986)

[Bd or ct is not prevented by Act from finding waiver of right to honor picket lines in contractual no-strike clause of sufficient breadth; in assessing whether broad no-strike clause covers sympathy strikes, however, unexpressed reservations of Ees cannot be treated as dispositive, and ct's task is simply to interpret parties' manifestation of mutual consent; and in determining meaning of general no-strike clause, ct is guided by S.Ct's holding that sympathy strike was w/i purview of general no-strike clause, which S.Ct based primarily on language of clause itself]

Local Union 1395, Electrical Workers v. N.L.R.B. (Indianapolis Power & Light Co.) — 797 F.2d 1027 (C.A. D.C., Aug. 1986)

[where U contended that sympathy strikes are not covered by general no-strike clause because U's no-strike obligation has been held *quid pro quo* for E's agreement to arbitrate disputes, ct held that in some situations it will be apparent from agreement that its no-strike and arbitration clauses are functionally linked, but in other contexts no-strike clause may evidence parties' intent to reach *beyond* arbitral matters, such as E's promise not to engage in lockouts or other concessions; question ultimately depends on intent of contracting parties]

Local Union 1395, Electrical Workers v. N.L.R.B. (Indianapolis Power & Light Co.) — 797 F.2d 1027 (C.A. D.C., Aug. 1986)

[U's contention that it was entitled to Bd's prior approach in *Davis-Mckee* (238 NLRB 652), that sympathy strike was not covered by no-strike clause, rejected, since at time no-strike clause was drafted Bd was willing to find that no-strike clause waived right to honor picket line; in effect U's argument was that parties, in later ratifying pre-existing contractual language, necessarily intended to incorporate changes in law *sub silentio*; even if such speculation was appropriate, *Davis-Mckee* was not *the law* in circuit where agreement was entered]

Local Union 1395, Electrical Workers v. N.L.R.B. (Indianapolis Power & Light Co.) — 797 F.2d 1027 (C.A. D.C., Aug. 1986)

[U's contention that it was entitled to Bd's prior approach in *Davis-Mckee* (238 NLRB 652), that sympathy strike was not covered by no-strike clause, rejected; it is simply wrong to assume that *the law* to which parties refer in entering bargaining agreement's is exclusively, or even primarily, Bd law; such agreements are interpreted by arbitrators and cts as well, and cts must give broad, and virtually complete, deference to arbitrator's interpretation of agreement]

6733-8030 Effective date of contract

6733-8036 Recognition in futuro of bargaining representative

Liquid Carbonic Corporation **277 NLRB No. 091**

(Bd held that contract clause requiring E to have its Ees employed by whomever E may choose to subcontract unit work to, and which required any subcontractor employing E's Ees to agree to entire contract covering unit Ees, was not violative on its face of Section 8(e); therefore, C was dismissed and deferral was appropriate to arbitrator's finding that E violated contract by subcontracting unit work since arbitrator expressly considered allegations of C)

6733-8045 Checkoff

United States Postal Service **280 NLRB No. 169**

[E's and U's refusing to honor Ees' revocations of dues-checkoffs, violative where checkoff authorizations were revoked by operation of law when U membership ceased to exist by virtue of effective resignation from membership]

United States Postal Service **279 NLRB No. 008**

[agreement to assign membership dues to U ceased to exist for purposes of dues checkoff when Ee resigned from U and revoked authorization, notwithstanding revocation was not w/i *open* annual period designated in checkoff authorization and governing bargaining agreement, since authorization provided for payment of dues as quid pro quo for U membership, and valid resignation from U revoked authorization by operating of law]

6733-8047 Seniority

Automobile Workers, Local No. 1309 (International Harvester Company) **JD-18-86**

[U letter of agreement stating that it did not intend to have steward granted superseniority to represent himself--apparently no other unit Ees remained--notwithstanding superseniority provisions of contract, and that agreement was voidable by E or U by written notification at any time, not binding contract but statement of intent voidable by U at will and thus no basis for holding violative E's retention of U steward pursuant to U's invocation of superseniority clause]

6733-8060 Bargaining *zipper* clause

BASF Wyandotte Corporation **278 NLRB No. 028**

[unilaterally restricting U representatives to cafeteria, rather than allowing them to walk around plant, and prohibiting them from talking to supervisors during U time, not violation, where alleged past practice of walking about plant was not proved, nor was it controlling where there was *complete agreement* clause that abolished past practices, and restrictions did not have substantial impact on U representatives' ability to investigate grievances or represent Ees]

Suffolk Child Development Center, Inc. **277 NLRB No. 158**

N.L.R.B. v. Americana Healthcare Center **782 F.2d 941 (C.A. 11, Feb. 1986)**

[*zipper* clause in instant case must be read with implied exception that it has no application to agreement negotiated (by parties) pursuant to ct order but ommitted from written contract by inadvertence and mistake. 6733-8065 Management rights clause

BASF Wyandotte Corporation **278 NLRB No. 028**

[unilateral implementation of respirator seal rule that had effect of prohibiting wearing of facial hair by Ees whose jobs necessitated their wearing respiratory protective equipment, not violation where U waived right to bargain over rule by agreeing to management rights clause allowing E to make and enforce rules deemed necessary or proper for conduct of Ees and operation of plant]

Suffolk Child Development Center, Inc. **277 NLRB No. 158**

(no waiver of right to bargain over change in health insurance plan by U's agreeing to management rights clause, which did not mention plan)

Kansas National Education Association **275 NLRB No. 092**

(contract's management-rights provision standing alone held at best vague and as such insufficient to meet standard of *clear and unmistakable waiver* of U's right to be consulted about Ee transfer arrangements and did not privilege E to negotiate directly with Ee or to enter into transfer agreement with Ee; transfer rights were not necessarily contemplated by provision's broad reference to *ordinary and customary functions* of management nor was implementation of transfer agreement encompassed by provision's granting E right to adopt unspecified policies in furtherance of management functions)

Georgia Pacific Corporation **275 NLRB No. 017**

(no waiver of U's right to bargain regarding change in shift schedules by management rights clause which provided E retained right *to manage plant and direct working forces, including right to hire, suspend, discharge, promote, or transfer Ees, providing that such power vested in company shall not be used in violation of terms of this agreement*, since change in shift schedule conflicted with work week provision of agreement, and potentially with overtime provision that was based on seniority)

Kobell v. Thorsen Tool Co. **F.Supp.——(DC M.D. PA, Dec. 1982)**

[management rights clause that stated *company retains sole right to manage its business including but not limited to right to decide on method and place of manufacturing* did not constitute waiver by U of right to bargain regarding transfer of work, and preclude finding of reasonable cause to believe Act violated and issuance of Section 10(j) inj when E unilaterally decided to transfer work since clause might not be interpreted as waiver by Bd, where clause does not specifically reserve to E right to move part of operation to another facility in order to avoid high labor costs imposed by agreement]

6733-8075 Primary in nature (protect unit work) or secondary in nature (affect persons or employers not party to contract)

Operating Engineers, Local No. 701, etc. (Howard S. Lease Construction Co. & Associates) **276 NLRB No. 077**

If meaning of clause clear Bd will determine validity under 8(e) and where clause not clearly unlawful, Bd will interpret it to require no more than required by law. But, if ambiguous, Bd will not presume unlawfulness, and absent extrinsic evidence of whether clause intended to be administered in lawful or unlawful manner, Bd will not pass on its validity)

6733-8080 Union representation at disciplinary hearing

Prudential Insurance Company of America **275 NLRB No. 030**

(contract provision which provides that neither U nor its members shall interfere with E's right *to interview any Ee with respect to any phase of his work without the grievance committee being present*, held waiver of unit Ees' *Weingarten* rights, notwithstanding arguments that clause predated S.Ct's *Weingarten* decision and referred to grievance committee rather than a representative, and that U had sought removal of clause from contract; if clause did not waive *Weingarten* rights, then it would have no meaning at all)

6733-9000 **Modification of contract**

Automobile Workers, Local No. 1309 (International Harvester Company) **JD-18-86**

[U letter of agreement stating that it did not intend to have steward granted superseniority to represent himself--apparently no other unit Ees remained--notwithstanding superseniority provisions of contract, and that agreement was voidable by E or U by written notification at any time, not binding contract but statement of intent voidable by U at will and thus no basis for holding violative E's retention of U steward pursuant to U's invocation of superseniority clause]

6733-9050 Strike settlement agreement

Sheet Metal Workers, Local 208 (Paul Mueller Company) **278 NLRB No. 087**

[U charging and fining members who had crossed picket line, including one member who had not resigned from U prior to crossing picket line, unlawful, since by signing no-retaliation clause in strike settlement agreement U waived any right to discipline member for strike related activity; U's contention agreement signed under duress rejected, and parol evidence regarding U's contention no retaliation provision signed with understanding it was not applicable to internal U affairs, since provision clear and integrated into agreement]

(E's refusal to sign bargaining agreement until U's long time shop chairman fulfills his promise to sign letter resigning from E's employ, unlawful, absent express agreement that conditioned E's signing of agreement on resignation letter; E's contention agreement to sign retirement letter was *side agreement* and integral part of renewal contract, thus refusal to execute letter abrogated entire agreement, barred by parol evidence rule in that E thereby would seek to change term of contract)

6750-2567 To prove facts rendering agreement void or voidable for illegality, fraud, duress, mistake or insufficiency of consideration

Waldon, Incorporated 282 NLRB No. 082

NDK Corporation 278 NLRB No. 151

6750-6700 To show agreement never reached

R.E.C. Corporation 277 NLRB No. 120
(E's refusal to sign bargaining agreement until U's long time shop chairman fulfills his promise to sign letter resigning from E's employ, unlawful, absent express agreement that conditioned E's signing of agreement on resignation letter; E's contention agreement to sign retirement letter was *side agreement* and integral part of renewal contract, thus refusal to execute letter abrogated entire agreement, barred by parol evidence rule in that E thereby would seek to change term of contract)

6750-7500 Where language employed leaves meaning obscure, parties' previous negotiations are admissible to show meaning of agreement

Whitley Products, Inc. JD-251-86
[toolroom Ee eligible for retirement under pension plan who voluntarily retired found eligible to receive payments provided by settlement agreement which included toolroom Ees whose employment ended for any reason other than voluntary resignation or discharge for joint cause where the term *voluntary resignation* was ambiguous with respect to its application to retirees, and external parol evidence showed that the parties intended to include voluntary retirees]

N.L.R.B. v. Americana Healthcare Center 782 F.2d 941 (C.A. 11, Feb. 1986)
[Bd order enforced where E and U duly negotiated contract for unit Ees which negotiations, inter alia, included Ee sick leave benefits were omitted from parties' written contract by inadvertence and mutual mistake, substantial evidence supported Bd's determination that parties agreed to continue sick leave benefits according to previous practice]

8300 WITHDRAWAL FROM CONTRACT

8375 CONTRACT RESCISSION

8375-5000 Unilateral mistake

Waldon, Incorporated 282 NLRB No. 082
[no valid contract where at time E executed contract it pointed out fact that there were errors in contract's wage clause, and that they should be corrected to reflect agreed upon wages; thus, there was no meeting of minds over essential element of contract, and thus, no contract]

Food & Commercial Workers, Local 274 (Millco, Inc.) 279 NLRB No. 026
[E's contention that U bargained in bad faith by not including most-favored-nations clause in final ratified contract, rejected and U's refusal to include such clause not violative, where such clause was never part of E's last and final offer to U, which was accepted, and issue of clause came up only after E realized that U had negotiated lower wages with a competitor, a fact not indicating mistake or fraud]

Orange Belt District Council of Painters and Allied Trades No. 48, et al. (Ghianni Drywall Construction, Inc., et al.) **275 NLRB No. 164**
(U's claim that it was prejudiced by admission of improper hearsay evidence, on grounds that facts of instant case do not show *proper circumstance* to admit evidence, rejected where evidence in issue was properly admitted either because Bd was not strictly bound by Federal Rules of Evidence or because evidence was exception to hearsay rule)

Orange Belt District Council of Painters and Allied Trades No. 48, et al. (Ghianni Drywall Construction, Inc., et al.) **275 NLRB No. 164**
(general information brochure that was sales tool to acquaint people with supplies, was properly admitted, to permit witness to testify, as to origin of product, as business record pursuant to Federal Rules of Evidence 803(6), since it was report or record of supplier's business activities kept in regular course of its business activity)

1400 JUDICIAL AND OFFICIAL NOTICE

1401 GENERALLY

Advertisers Manufacturing Company **275 NLRB No. 019**
(a decision, as public document, is competent for official notice where it otherwise is to be shown properly material to issue in subsequent proceeding; and even contrarily, e.g., where decision is determined not one to be relied upon, initial review of decision for contended purpose served involves neither prejudial error, nor, in law, renders reviewing judge biased)

Advertisers Manufacturing Company **275 NLRB No. 019**
(where GC requested that official notice be taken of prior ALJ decisions which were pending on appeal to Bd, ALJ held *unqualified* reliance on official notice of decisional findings subject of unresolved exceptions is unwarranted, and that purpose is just as clearly unwarranted even where exceptions have not been pursued; however, it is unwarranted as well to hold that it is never appropriate to do so where central issue is related and controlling when it may be appropriate to do so *qualifiedly* to expedite a decision)

1401-3000 APA, Effect of

1401-5050 Official notice permissible

Advertisers Manufacturing Company **275 NLRB No. 019**
(Bd will take official notice of its own proceedings and decisions which it may rely on; where material issue of fact is identical and parties are same, finding in one proceeding may be evidence of finding in later proceeding and be considered as direct evidence of same where not prohibited by 10(b); or, if relevant fact e.g. be pre-10(b), although it may not be given independent and controlling weight, such fact may be used as background evidence for bearing on E motivation or U animus in regard to E's conduct w/i 10(b) period)

Superior Container, Inc. **276 NLRB No. 056**
(GC's request that ALJ take judicial notice of ALJ's decision in prior case involving same E, for purpose of considering ALJ's findings and conclusions in prior case as dispositive of some elements of proof herein, denied, since seeking to attach finality to earlier findings of ALJ is result that can appropriately be accorded only to Bd decisions or those of ct; however, ALJ officially noticed existence of prior ULP proceeding and ALJ's decision to extent legitimately possible)

Superior Container, Inc. **276 NLRB Nos. 055, 056**
(while denying GC's mtn to consolidate cases involving same parties, Bd held that, to the extent such cases involve related issues, taking of judicial notice of respective decisions in each case was appropriate)

Bronx Metal Polishing Co., Inc. **276 NLRB No. 031**
(GC's request that ALJ take *judicial notice* of prior Bd decision involving same parties and similar issues, granted, but such proof of E's prior misconduct not given dispositive weight)

United States Postal Service **273 NLRB No. 217**

2810-3300 On General Counsel--preponderance of evidence

Harry Hoffman & Son Printing 278 NLRB No. 101
[*condonation is factual matter which GC must prove by preponderance of evidence*]

2810-6700 On Respondent--rebut or meet presumption that violation occurred

American Bakeries Company and Local Union No. 51, Teamsters (Local No. 326, Bakery Workers) 280 NLRB No. 160
[while *ultimate burden* of persuasion of elements of an ULP and to show appropriateness of bargaining unit by a *preponderance of the testimony taken* (Section 10(b)) never shifts from GC, satisfaction of this burden may be accomplished by establishing an *unrebutted prima facie* case. *An unrebutted prima facie case necessarily amounts to proof by a preponderance of the evidence*]

Garrison Valley Center, Inc. 277 NLRB No. 164
(discharge of Ee who was most active Ee on behalf of U during U's organizing campaign allegedly because Ee left patient at E's nursing home unattended while performing other work, violative, since E failed to meet burden of establishing that E would have discharged Ee even in absence of her U activities. Record evidence demonstrated that E had tolerated brief absences for work-related reasons and would discharge an Ee *only* when serious injury or death resulted from Ee's conduct)

2810-7500 Abuse of discretion

N.L.R.B. v. Affiliated Midwest Hospital, Inc., d/b/a Riveredge Hospital 789 F.2d 524 (C.A. 7, Apr. 1986)
[*It is well settled that direct judicial review of Bd decision to certify bargaining representation on basis of election is extremely limited. We may assume soundness of election is not business of reviewing ct. Substantial evidence on record as whole standard applied to factual determinations should also apply to application of Bd's election rules to facts of given case. Abuse of discretion* standard applies only to applications of Bd policy and not to application of law to facts]

2810-9000 Substantial evidence

N.L.R.B. v. Affiliated Midwest Hospital, Inc., d/b/a Riveredge Hospital 789 F.2d 524 (C.A. 7, Apr. 1986)
[E has heavy burden establishing grounds for not enforcing Bd's bargaining order. In order to challenge Bd's policies directly, as opposed to application of these policies, movant must establish Bd's interpretation of law is unreasonable; i.e., E must establish that there is substantial evidence supporting conclusion that *any election irregularities or misconduct so impaired integrity of ballot result that invalidation of election is necessary*]

2810-9500 On union in establishing lack of knowledge in 8(b)(4) case that E lacked control of disputed work

United Scenic Artists, Local 829, Painters (Theatre Techniques, Inc.) 278 NLRB No. 046
[no violation found by Bd, applying law of case on remand, in U's coercion of neutral E lacking control of disputed work, where there was no *new credible evidence* to support inference that U knew that E other than neutral E contractually controlled disputed work]

2850 BURDEN OF GOING FORWARD WITH PROOF

2850-0100 Generally

B & W Machine & Welding Company JD-(SF)-107-86
[burden of proving supervisory status rests on party asserting such status]

2850-0800 In objections to election proceeding

Local 295-295C, Operating Engineers (Weather Wise Conditioning Corp.) 282 NLRB No. 044
[E has burden of proving that alleged objectionable threat to Ees was made by U representative during critical period after election ptn was filed]

Bo-Ed Inc. d/b/a Golden Fan Inn 281 NLRB No. 035
[party seeking to exclude an individual from voting has the burden of establishing that the individual is, in fact, ineligible to vote]

Collins Industries, Inc. JD-33-86
[even if E's contention was valid that, since U lost election by wide margin, it had greater burden of proof than had result been close, ALJ held such high burden was met where E's vitriolic anti-U speech to Ees day before election included various violations of Act and reached substantially all eligible voters day before election]

2850-1100 Beginning burden rests on General Counsel

2850-1133 Discriminatory reason for discharge or other action

Nation's Capital Area Local, American Postal Workers (United States Postal Service) 278 NLRB No. 110
[C dismissed where GC failed to establish that Ee's protected activity of filing charge with Bd was motivating, under *Wright Line*, factor in U's decision to remove Ee from steward's position]

United Cloth Company, Inc. 278 NLRB No. 088
[burden on GC to establish causal relationship between Ee's engaging in U or other protected activities and actions on part of their E which detrimentally affects such Ees' employment, and to provide prima facie showing sufficient to support inference that protected conduct was motivating factor in E's action against Ees]

Activ Industries, Inc. 277 NLRB No. 040
(in adopting ALJ's conclusion that E unlawfully terminated more than third of its work force, Bd emphasized that it was E's mass discharge, and not its selection of Ees for discharge that was unlawful; accordingly, GC was not required to show correlation between each Ee's U activity and his or her discharge)

Pullman Power Products Corporation 275 NLRB No. 112
(U activities of Ee, plus Ee's layoff, w/o causal connection do not alone make out case of prohibited discrimination; rather Bd must evaluate all relevant evidence to determine if GC has affirmatively shown that layoffs were unlawfully motivated)

Herrick & Smith v. N.L.R.B. 802 F.2d 565 (C.A. 1, Sept. 1986)
[Bd's initial burden is to make prima facie showing that Ee's protected conduct was substantial or motivating factor for discharge, after which burden of going forward shifts to E; amd Bd's showing must stand if supported by substantial evidence on the record, viewed as a whole]

ARA Leisure Services, Inc. v. N.L.R.B. 782 F.2d 456 (C.A. 4, Jan. 1986)
[*GC bears burden throughout to demonstrate that E's anti-U animus contributed to its decision to discharge Ees. He must demonstrate that Ees were engaged in protected activity, that E was aware of activity in that such activity was substantial or motivating reason for E's action. E faced with such evidence may then prove by preponderant evidence that worker would have been fired even in absence of U activity*]

Stanley A. Dash, Jr. v. N.L.R.B. (Lawyers Co-Operative Publishing Co.) 793 F.2d 1062 (C.A. 9, July 1986)

2850-1133-5000 General Counsel may not rely on inferences

Enterprise Aggregates Corporation **276 NLRB No. 011**
(no violation when E who had paid retirement benefits previously refused to pay these benefits to strikers, in view of failure by GC to make out prima facie case that denial of benefits was based on Ees' protected activities GC relied solely on earlier case against E on same issue in which Bd found that E's refusal to pay benefits was based on E's animosity towards participants in strike. Absent any other evidence, Bd refused to infer same proximate cause in instant case especially in light of passage of more than year from end of strike and E ceasing operations until Ees requested benefits)

2850-1142 Arbitration award

Sawin & Co., Inc. **277 NLRB No. 044**
(burden is on GC to establish that arbitrator was not presented with facts relevant to resolving ULP issue)

Sawin & Co., Inc. **277 NLRB No. 044**
(burden of proof in discharge and discipline arbitrations is generally on E)

Cone Mills Corporation-White Oak Plant **273 NLRB No. 188**
(Bd reiterated *Olin Corp. clearly repugnant* standard that it would not require arbitrator's award to be totally consistent with Bd precedent; unless GC sustains his burden of proof that award is *palpably wrong*, i.e., that arbitrator's decision is not susceptible to interpretation consistent with Act, Bd will defer)

2850-1150 Justification of superseniority contractual provision

Dravo Corporation, Dravo Marine Equipment Company **276 NLRB No. 128**
(C dismissed where record insufficient to establish that U's vice-president and members of U's negotiating team were entitled to *contractual superseniority*, since they did not perform steward-like on-the-job grievance processing or contract administration; majority of negotiating meetings involved bargaining over such matters as contract concessions and subcontracting out work)

Laborers Local Union No. 380 (Mautz & Oren, Inc.) **275 NLRB No. 147**
(superseniority clause is presumptively unlawful, since it is not limited to layoff and recall of stewards, but extends by contract interpretation of arbitrator to overtime work and wage benefits for stewards on Saturday. Incumbent on Respondents to rebut presumption of unlawfulness, by demonstrating that Saturday overtime work for stewards serves legitimate statutory purpose other than impermissable one of giving stewards additional benefits to exclusion of nonsteward unit Ees)

Laborers Local Union No. 380 (Mautz & Oren, Inc.) **275 NLRB No. 147**
]*superseniority clause* in contract unlawful where Respondents did *not* demonstrate that payment for Saturday overtime work at date of time and one-half to steward would promote administration of collective-bargaining agreement beyond incidental and side benefits of having steward on job to police unit work)

2850-1185 Appropriateness of unit

American Bakeries Company and Local Union No. 51, Teamsters (Local No. 326, Bakery Workers) **280 NLRB No. 160**
[while *ultimate burden* of persuasion of elements of an ULP and to show appropriateness of bargaining unit by a *preponderance of the testimony taken* (Section 10(b)) never shifts from GC, satisfaction of this burden may be accomplished by establishing an *unrebutted prima facie* case. *An unrebutted prima facie case necessarily amounts to proof by a preponderance of the evidence*]

2850-1186 Majority status of union

S.M.S. Automotive Products, Inc. **282 NLRB No. 006**
[ptn signed by majority of Ees, held to be a valid indicator that U had lost majority support, where caption at top of ptn stated in clear and unambiguous language that purpose of ptn was to declare that incumbent U was no longer wanted; further, although U argued that foreign speaking individuals may not have understood ptn, argument was w/o merit and GC satisfied burden of proving ptn was understood by all Ees where there was unrebutted testimony that ptn was explained to all eer in their foreign language]

Stop N' Go Inc. **279 NLRB No. 052**
[majority status in 69-Ee unit not established where, of alleged 41-card majority, 27 cards were only authenticated by U representatives who neither witnessed signing nor received cards from signers]

Rainey Security Agency, Inc. **274 NLRB No. 041**
(in cases alleging unlawful 8(a)(2) recognition, it is the burden of proof of GC to estalbish that U accorded exclusive recognition was not majority representative; however, it is not always incumbent upon GC to affirmatively prove, with anything approaching mathematical precision, that U did not represent majority at critical time, if there is evidence which reasonably tends to cast doubt upon majority status claimed by U)

2850-1187 Unilateral change in terms and conditions of employment

M. J. Santulli Mail Services, Inc. **281 NLRB No. 170**
[while underlying trust agreement pertaining to pension, health, and welfare fund is not essential part of GC's case, and Bd has found Es violated 8(a)(5) w/o underlying trust agreement in evidence, such agreement may provide defense for E; however, once GC has proven contractual requirements of payment into fund and unilateral discontinuance of such payments, it is E's burden to establish that payments need not be made, and any such waiver must generally be clear and unmistakable]

2850-1189 Continuity of employing enterprise where successorship alleged

Croley Coal Corporation and South Harlan Coal Co., Inc. **280 NLRB No. 104**

2850-1190 Refusal to refer

Local No. 136, Plumbers (B. F. Shaw Company) **280 NLRB No. 099**
[GC has burden of proving that job referral applicants were treated differently or discriminatorily by U's application of criteria in determining order of job referrals by U]

2850-1195 General Counsel's burden in establishing *prima facie* showing of violation in 8(b)(4) case

Local Union No. 501, Electrical Workers v. N.L.R.B. **756 F.2d 888 (C.A.D.C., Apr. 1985)**
(Bd's conclusion that U indicated unlawful secondary intent by picketing neutral gate, not based on substantial evidence, since GC and Charging Party bear burden of proving secondary boycott violation, and presumably bore burden of demonstrating that U failed to avail itself of reasonable and appropriate picketing location other than neutral gate where primary reserved gate located on dead end alley, thus its location denied U opportunity to convey message to public)

2850-1196 In proceeding on application for fees under EAJA

Shrewsbury Motors, Inc. **281 NLRB No. 081**
[legislative history reveals that in ULP cases which did not make it to hearing to determine whether government's position substantially justified, ct or adjudicative officer will look at record which will consist of pleadings, affidavits and supporting documents filed by parties in both fee producing and case on merits. Thus substantial justification determination will not involve additional evidentiary proceedings or discovery of agency files, solely for EAJA purposes]

Shrewsbury Motors, Inc. **281 NLRB No. 081**
[while Congress intended to bar discovery in EAJA proceedings, it did not intend that agency be permitted to shield entirely facts or basis for its action. Agency must produce sufficient material from its files to meet burden of showing substantial justification. If GC decides to file nothing or little, Bd may decide GC's burden has not been met]

Landmark Industries, Inc. **278 NLRB No. 129**
[*Burden of establishing substantial justification is on government, and test of whether or not governmental action justified is one of reasonableness. Government to defeat award, must establish that its position had reasonable basis in fact and law*]

Tajon, Inc. **277 NLRB No. 184**
[Section 102.144(a) of Bd's R&R puts burden on GC to show substantially justified in issuing complaint]

2850-1199 Other

D & D Development Co., Inc. d/b/a Anaheim Town and Country Inn **282 NLRB No. 034**
[burden of proof with regard to individual's supervisory status alleged by E held to rest on E and not GC]

2850-1700 Burden on party seeking to overturn results of election

Bekins Moving & Storage Co. **279 NLRB No. 109**
[*even though hearing on objections investigative in nature, objecting party nevertheless has burden to bring forth evidence which will sustain allegations. Absent meeting such burden objections are to be overruled*]

Bauer Welding and Metal Fabricators, Inc. v. N.L.R.B. **758 F.2d 308 (C.A. 8, Mar. 1985)**
(party objecting to election has burden of proof and must show that misconduct interfered with Ees' exercise of free choice to such extent that it materially affected election results)

2850-1700—Cont.

N.L.R.B. v. IDAB, Inc. 770 F.2d 991 (C.A. 11, Sep. 1985)

2850-1900 Burden on party seeking to overturn results of arbitration decision

United Parcel Service, Inc. 274 NLRB No. 066

(burden of proof upon party advocating rejection of deferral)

United Parcel Service, Inc. 274 NLRB No. 066

(C dismissed where GC's evidence which augmented that (ULP evidence) presented to arbitration panel, is not of such probative value as to necessitate conclusion that arbitration panel did not have before it essential facts as to issues (Ee's discharge etc.) litigated. GC failed to carry his burden of proof for rejection of arbitration decision)

Timothy Nevins v. N.L.R.B. 796 F.2d 14 (C.A. 2, June 1986)

[burden is on party requesting Bd to ignore earlier arbitration decision to establish inadequacy of that proceeding]

2850-2200 Failure to sustain burden justifies adverse inference

2850-2233 Nonproduction of material evidence in one's possession raises adverse inference

Dasal Caring Centers, Inc., d/b/a Lemay Caring Center and Dasal Caring Centers, Inc., d/b/a Walton Caring Center 280 NLRB No. 007

[although ALJ may draw adverse inference from E's refusal to produce subpoenaed documents, here employment applications, that documents unfavorable to E's position, ALJ's specific finding that Ees hired were less qualified than predecessor's Ees was improper use of adverse inference rule since it is not proper to draw such specific conclusions from employment applications which might give rise to more than one inference regarding their substantive content]

Local 3, Electrical Workers (Mike G. Electric Corp.) 279 NLRB No. 072

[hearing officer did not abuse discretion in excluding wage and efficiency evidence about E's operation which was unrelated to job site where dispute arose, which was elicited to compare efficiency of Ees represented by Us claiming disputed work since exclusion of elicited evidence consistent with adjudicative accuracy and efficiency, where proponent U declined to come forward with either its own witnesses or other data concerning its own wage rates to substantiate comparison]

Phil Smidt & Son, Inc. JD-482-84

(where discriminatee claimed deductions from her self-employed business, E has right to documentary proof of deductions and discriminatee must produce proof or reason why proof unavailable)

2850-2267 Nonproduction of material witness

Kokomo Tube Company 280 NLRB No. 035

[E's failure to produce or explain absence from witness stand of E's owner, who had best knowledge of reason unlawful wage increase was granted, while producing other *weak* evidence of why increase granted, warrants inference that owners *strong* evidence of why increase granted would have been adverse; further, evidence produced could not be relied on since it was owner who granted increases, and thus E has failed to carry burden of proving increase was not tied to U activities]

Southern Maryland Hospital Center 276 NLRB No. 153

(where allegations of discrimination against Ees are sustained by the record, the testimony of the alleged discriminatee is not a *sine qua non* for relief)

Sheet Metal Workers, Local Union No. 162 (Enterprise Mechanical, Inc.) JD-(SF)-114-85

(unexplained failure to provide corroboration by witness, present at hearing, to relevant facts warranted drawing adverse inference from testimony, since it was apparent attempt to obfuscate inaccuracy of testimony of E)

2850-4400 Shifts to respondent union or employer to establish affirmative defense

Teamsters Local 42, a/w Teamsters (J.W. Daly, Inc.) 281 NLRB No. 132

[in order to trigger 10(b) period, notice to Charging Party is required. Notice whether actual or constructive, must be clear and unambiguous and burden of showing such notice is on party raising affirmative defense of Section 10(b)]

Uniglass Industries, Div. United Merchants & Mfrs. 276 NLRB No. 035

(Section 10(b) is subject to equity principals and is tolled where Respondent has fraudulently concealed unlawful conduct and person adversely affected by Respondent's actions is not put on notice of such actions. 6-month period of limitations runs from time discriminatees were put on notice, actual or constructive, of E's anti-nepotism rule which precluded their rehire. As 10(b) is affirmative defense, burden is on Respondent to establish facts that defense rests upon)

Carpenters, Millwright Local 1412 (Oscar J. Boldt Construction Co.) JD-284-85

(violation, where bypass of Ees on out of work list gave rise to *prima facie* case of unlawful discrimination, thus shifting burden to U to show that preference accorded Ees beneath bypassed Ees on list was pursuant to legitimate, objective, hiring hall criteria which U failed to do)

Electrical Workers, Local 387 v. N.L.R.B. (Arizona Public Service Co.) 788 F.2d 1412 (C.A. 9, May 1986)

[general no-strike clause waives Ees' statutory right to engage in sympathy strikes absent extinsic evidence that parties intended otherwise; rule is not substantive, and, rather than establishing irrebuttable presumption that broad no-strike rule bars sympathy strikes, shifts burden of proof to party making that claim and requires consideration of available evidence such as contract's other terms, negotiation of no-strike clause, and parties' bargaining history and past practices]

2850-5500 Shifts to respondent where prima facie case established

American Bakeries Company and Local Union No. 51, Teamsters (Local No. 326, Bakery Workers) 280 NLRB No. 160

[while *ultimate burden* of persuasion of elements of an ULP and to show appropriateness of bargaining unit by a *preponderance of the testimony taken* (Section 10(b)) never shifts from GC, satisfaction of this burden may be accomplished by establishing an *unrebutted prima facie* case. *An unrebutted prima facie case necessarily amounts to proof by a preponderance of the evidence*]

Herrick & Smith v. N.L.R.B. 802 F.2d 565 (C.A. 1, Sept. 1986)

[Bd's initial burden is to make prima facie showing that Ee's protected conduct was substantial or motivating factor for discharge, after which burden of going forward shifts to E; amd Bd's showing must stand if supported by substantial evidence on the record, viewed as a whole]

2850-5550 Nondiscriminatory motive must be affirmatively shown by Employer where General Counsel's evidence permits inference of discrimination

Kokomo Tube Company 280 NLRB No. 035

[E's failure to produce or explain absence from witness stand of E's owner, who had best knowledge of reason unlawful wage increase was granted, while producing other *weak* evidence of why increase granted, warrants inference that owners *strong* evidence of why increase granted would have been adverse; further, evidence produced could not be relied on since it was owner who granted increases, and thus E has failed to carry burden of proving increase was not tied to U activities]

Garrison Valley Center, Inc. 277 NLRB No. 164

(discharge of Ee who was most active Ee on behalf of U during U's organizing campaign allegedly because Ee left patient at E's nursing home unattended while performing other work, violative, since E failed to meet burden of establishing that E would have discharged Ee even in absence of her U activities. Record evidence demonstrated that E had tolerated brief absences for work-related reasons and would discharge an Ee *only* when serious injury or death resulted from Ee's conduct)

2850-5575 Same disciplinary action would have taken place in absence of protected conduct

ARA Leisure Services, Inc. v. N.L.R.B. 782 F.2d 456 (C.A. 4, Jan. 1986)

[*GC bears burden throughout to demonstrate that E's anti-U animus contributed to its decision to discharge Ees. He must demonstrate that Ees were engaged in protected activity, that E was aware of activity in that such activity was substantial or motivating reason for E's action. E faced with such evidence may then prove by preponderant evidence that worker would have been fired even in absence of U activity*]

Stanley A. Dash, Jr. v. N.L.R.B. (Lawyers Co-Operative Publishing Co.) 793 F.2d 1062 (C.A. 9, July 1986)

[*where discharged Ee alleges that his discharge constitutes ULP, GC bears burden of proving Ee's exercise of protected activity was motivating factor in termination. As affirmative defense, E may show by preponderance of evidence that it would have terminated Ee despite protected activity*]

2850-7000 Employer has burden of establishing existence of objective considerations on which good faith doubt of union's majority is based

Manhattan Eye, Ear and Throat Hospital 280 NLRB No. 011

[testimony of only 4 Ees out of complement of approximately 100 Ees sufficient to carry burden that supervisor's conduct was unlawful. Nor does it satisfy E's burden of establishing that its asserted objective considerations

Wilder Construction **276 NLRB No. 104**
(proof that economic strikers permanently severed their employment relationship or abandoned their strikers' status must be unequivocal in relation to time of withdrawal or recognition)

Louis Pappas' Homosassa Springs Restaurant, Inc. **275 NLRB No. 213**
(burden of proof upon Respondent (successor E in instant proceeding) to prove good faith doubt of (U's) majority status)

Bay Area-Los Angeles Express, Inc. **275 NLRB No. 152**
]where E engages in conduct reasonably calculated to cause Ees to repudiate U and shortly thereafter majority of Ees, after learning of E's misconduct, in fact repudiate U, E must show that intended effect of his misconduct was not proximate cause of Ees' decision to repudiate U)

2850-7700 On employer to show replacement of economic strikers for legitimate business reasons

Medallion Kitchens, Inc. v. N.L.R.B. **806 F.2d 185 (C.A. 8, Nov. 1986)**
[mtn to strike GC's brief and to reopen record on basis that Respondent E not given notice that permanent status of strike replacements in issue, denied, where violation alleged was that E failed to reinstate economic strikers, since status of Ees who replaced economic strikers need not be pleaded by GC inasmuch as permanent status of replacements affirmative defense to be raised by E]

Medallion Kitchens, Inc. v. N.L.R.B. **806 F.2d 185 (C.A. 8, Nov. 1986)**
[E who refused to reinstate economic strikers violates Act unless he shows that his action was based on legitimate and substantial business justifications. Burden of proof is on E]

2850-7900 Burden is on union to show relevance of information that is not presumptively relevant (See also 530-6067-6001-0000)

Washington Materials, Inc., t/a Buffalo Concrete; et al. **276 NLRB No. 040**
(some information is presumed relevant such as information concerning the terms and conditions of employment of Ees represented by the U, however, this presumption of relevance does not apply to information concerning financial data and the relevance of that type of information must be established by the U)

2850-8000 Burden on employer to establish affirmative defense of unavailability of jobs preventing reinstatement of strikers

Radio Electric Service Company **278 NLRB No. 078**

2850-8800 To show gross amount of backpay due

Arthur Briggs, Inc. **281 NLRB No. 114**
[since it is GC's sole burden to establish gross backpay, it is therefore GC's burden to establish that Ees were paid for holidays, absences and snow day closures]

Rainbow Tours, Inc., d/b/a Rainbow Coaches **280 NLRB No. 017**
[GC met burden notwithstanding claimants were discharged in 1977 and Bd failed to solicit information from discriminatees until 1982 which made it difficult for individual discriminatees to list with specificity and accuracy details of their job search and led to last minute disclosures and recollections since no showing of willful concealment. Claimants not penalized solely because of poor record keeping or uncertain memories]

Hacienda Hotel and Casino **279 NLRB No. 084**
[finding of ULP is presumptive proof that some backpay is owed, and in backpay proceeding sole burden of GC is to show gross amounts of backpay due which is amount Ees would have received but for E's illegal conduct; once that is established burden is upon E to establish facts that would mitigate such liability]

Hacienda Hotel and Casino **279 NLRB No. 084**
[any backpay formula which approximates what discriminatees would have earned had they not been discriminated against is acceptable if it is not unreasonable or arbitrary in the circumstances; formula should be representative of discriminatee's employment history and take into account intermittency of employment; and where awards may be only close approximations, Bd may adopt formulas reasonably designed to produce such approximations]

Midwest Motel Management Corp. of Birmingham **278 NLRB No. 060**
[while GC has burden to establish reasonableness and accuracy of its calculation of gross backpay amount, burden of proof with respect to E's affirmative defense rests upon it as original wrongdoer to demonstrate affirmatively that discriminatee has failed to make reasonable effort to find interim employment; and discriminatee is held only to reasonable exertion in such regard and not to standard of highest diligence]

Greyhound Taxi Co., Inc. **274 NLRB No. 060**
(when respondent in backpay proceeding meets its burden for tolling of backpay by showing that discriminatee was unavailable for employment, burden shifts to GC to rebut respondent's defense by showing that unavailability was due to respondent's unlawful conduct)

2850-9300 To show net backpay or interim earnings

2850-9300 To show net backpay or interim earnings

Arthur Briggs, Inc. **281 NLRB No. 114**
[E failed to meet its burden of establishing that backpay claimant received higher interim earnings for specified period than was alleged where ground for claiming excess in earnings was based merely on conversation E's private investigator had with claimant]

Boland Marine And Manufacturing Company, Inc. **280 NLRB No. 051**
[in backpay proceeding, unlawfully discharged or suspended Ee is presumed entitled to backpay, and E and not GC, bears burden of establishing facts which would negative or mitigate existence of liability to Ee; adherence to such general allocation of burdens in determining backpay is especially compelling where evidence of E's disciplinary practices relevant to determination of backpay, is peculiarly in possession of E, and it would be inequitable to require GC to ferret out information from sources available to E]

Overseas Motors, Inc. **277 NLRB No. 061**
(no inference that discriminatee who claimed he lived on loans, interim earnings from self employment and unemployment compensation during backpay period was not disclosing interim earnings, notwithstanding large gap between earnings, unemployment compensation and discriminatee's expenses to be filled by loans, absent evidence of failure to disclose earnings; burden on Respondent is not merely to litigate question of existence or non existence of loans, but to show that there were other interim earnings)

Truck Drivers Union Local 164, Teamsters (Evelyn McCann, an Individual, etc.) **274 NLRB No. 134**
(E's implication that discriminatee was not forthright in her testimony about efforts to obtain interim employment in order to mitigate backpay losses held endeavor to shift burden to discriminatee who over 4 years later is asked to describe details of her search for employment; uncertainties arising in situation such as here are resolved in favor of discriminatee against E responsible for ULPs)

City-Wide Invalid Service, Inc., a/w/a City-Wide Ambulette, Inc. **JD-(NY)-123-85**
[backpay claimant held entitled to backpay amount set forth in amended specification, where E had burden to establish interim earnings it contended claimant had accumulated during backpay period]

Iron Workers Local 118 (Waldo F. Kusterns) v. N.L.R.B. **804 F.2d 1100 (C.A. 9, Nov. 1986)**
[where Bd has established ULP and amount of back pay due Ee, burden is on respondent to produce evidence to mitigate its liability; this burden may be satisfied by establishing that Ee has received other earnings or that Ee has willfully incurred losses by, e.g., taking himself out of labor market]

2850-9500 To show lack of knowledge of predecessor employer's unfair labor practices

Creley Coal Corporation and South Harlan Coal Co., Inc. **280 NLRB No. 104**
[successor E liable to remedy predecessor's unfair labor practices, where successor did not prove lack of knowledge of ULPs and such knowledge was inferred from fact that local newspaper carried front page articles about Ees' picketing of and filing charges against predecessor, location of two of successor's business in close proximity to site of picketing, and successor's admission that he had heard talk about the strike]

4267-0150 Board can draw permissible inferences from credible testimony

United Scenic Artists, Local 829, Painters (Theatre Techniques, Inc.) **278 NLRB No. 046**

[no violation found by Bd, applying law of case on remand, in U's coercion of neutral E lacking control of disputed work, where there was no *new credible evidence* to support inference that U knew that E other than neutral E contractually controlled disputed work]

D & D Distribution Company, A Division of D & D Sewing Company v. N.L.R.B. **801 F.2d 636 (C.A. 3, Sept. 1986)**

[reasonable inferences are entitled to acceptance on review is rule, notwithstanding E's contention that, based on law of another circuit, factual inferences drawn by ALJ and Bd should not be granted same high level of deference applied to findings based on direct evidence and credibility determinations]

N.L.R.B. v. Health Care Logistics, Inc. **784 F.2d 232 (C.A. 6, Feb. 1986)**

[E's knowledge of Ees' U activities and anti-U animus based on small plant doctrine, properly inferred where Ees openly discussed U representation in main room of small facility in presence of management and supervisors, decision to terminate Ees was made evening after one Ee told other Ees that U representative would visit plant later in week, reasons for discharges were inconsistent and inadequate, and new Ees were hired two months after discharges]

N.L.R.B. v. L & B Cooling, Inc. **757 F.2d 236 (C.A. 10, Mar. 1985)**

(NLRB is empowered to draw permissable inferences from credible testimony)

4267-2000 Where uncertainty exists as to merits of action, issue resolved against party creating uncertainty

The Hearst Corporation, San Antonio Light Division **281 NLRB No. 113**

[where E was found to have unlawfully tainted decertification ptn by various 8(a)(1) conduct including specific remarks made to some Ees to undermine support for U, it was no defense that E produced Ee witnesses that had never heard E's unlawful remarks since it was fair to presume some of E's remarks were disseminated among Ees; E is a wrongdoer who must bear responsibility for consequences that flow from unlawful conduct and bears the burden of disentangling consequences from which it is chargeable from those which it is not]

4267-2200 Failure to produce evidence peculiarly within party's knowledge raises adverse inference

Local 3, Electrical Workers (Mike G. Electric Corp.) **279 NLRB No. 072**

[hearing officer did not abuse discretion in excluding wage and efficiency evidence about E's operation which was unrelated to job site where dispute arose, which was elicited to compare efficiency of Ees represented by Us claiming disputed work since exclusion of elicited evidence consistent with adjudicative accuracy and efficiency, where proponent U declined to come forward with either its own witnesses or other data concerning its own wage rates to substantiate comparison]

Leeward Nursing Home **278 NLRB No. 157**

[adverse inference drawn that GC had knowledge of pre-settlement conduct that would bar post settlement allegations that conduct was unlawful, where GC did not make matter of record when regional office knew about pre-settlement matters, since GC presumed to be uniquely possessed of these facts, no Bd rule prohibits agent of GC giving testimony regarding such matters, (only procedural prerequisites) GC is not favored litigant before Bd and is not entitled to any privileges not accorded to any other litigant]

Ryder/P.I.E. Nationwide, Inc. **278 NLRB No. 109**

[supervisors' efforts to conceal their knowledge that Ee had prevailed in many grievances costly to E supported inference that E was aware of and hostile to Ee's grievance activity]

Safeway Stores, Inc. **276 NLRB No. 099**

(ALJ drew adverse inferences from failure to produce results of U card check conducted by neutral party, since no weight was assigned to card check because of lack of foundation and its hearsay nature, where there was no showing how neutral party arrived at conclusion U had majority; number of cards given to neutral party and number of names on Ee list had not been proven; and since GC at no time conceded validity of card check, GC's challenge thereto was continuing and pervasive)

Van Gas, Inc. **JD-(SF)-33-85**

(adverse inference drawn where E failed to produce leave records, which were solely w/i its control, to support claim that there was abuse of sick leave justifying change in sick leave policy; *failure to subpoena evidence in no way diminished impact of adverse inference rule*)

4267-2700 Failure to comply with subpena or to obtain subpenaed records raises adverse inference

The Standard Products Company, Rocky Mount Division **281 NLRB No. 013**

[refusal of Ee to appear in spite of GC's subpoena held not to raise adverse inference that Ee's testimony would have been adverse to GC; adverse interest will be drawn against party only when that party has testimony or documentary evidence available to it which it fails to offer w/o sufficient justification; adverse inference is not warranted where GC has taken reasonable steps to make evidence available at trial by having witness subpoenaed]

Allied Lettercraft Company, Inc. **280 NLRB No. 113**

[E's contention that backpay claimant's failure to obtain state records concerning his unemployment benefits, after GC had refused to enforce E's subpoena to obtain them from agency, should lead to adverse inference regarding claimant's alleged search for interim work, rejected; as a rule, Bd quashes subpoenas served on other governmental agencies where disclosure is prohibited, as here, under applicable state law; and claimant had authorized state agency to release records to Regional Office which turned over to E all such records in its possession]

Dasal Caring Centers, Inc., d/b/a Lemay Caring Center and Dasal Caring Centers, Inc., d/b/a Walton Caring Center **280 NLRB No. 007**

[although ALJ may draw adverse inference from E's refusal to produce subpoenaed documents, here employment applications, that documents unfavorable to E's position, ALJ's specific finding that Ees hired were less qualified than predecessor's Ees was improper use of adverse inference rule since it is not proper to draw such specific conclusions from employment applications which might give rise to more than one inference regarding their substantive content]

Electronic Data Systems International Corporation **278 NLRB No. 014**

[denial of mtns to delay start of hearing and of continuance of hearing did not impair Respondent's ability to comply with subpoena duces tecum and E responsible for any resulting adverse evidentiary rulings since Respondent made no good faith effort to comply]

Redway Carriers, Inc./Cardinal Leasing, Inc., A Joint Employer **274 NLRB No. 198**

(E's failure to question its official about negotiations with U held not to warrant inference that had official testified truthfully he would not have corroborated another official's testimony; such adverse inference was improper because nontestifying official was available to all parties or GC could have called him to testify about matters in question)

Consolidated Dress Carriers, Inc., et al. **JD-(NY)-68-86**

[although it would have been appropriate for ALJ in backpay proceeding to draw adverse inference from E's failure to call supervisor intimately connected with crucial events and evidence in case, ALJ found it unnecessary to do so and found it sufficient to conclude that in context of case, with such heavy burden on E to prove its contention that backpay claimant was not discriminatee, E's unexplained failure to call supervisor could not be countenanced nor excused]

Statewide Industrial Catering, Inc. **JD-(NY)-139-85**

(superseniority clause is presumptively unlawful, since it is not limited to layoff and recall of stewards, but extends by contract interpretation of arbitrator to overtime work and wage benefits for stewards on Saturday. Incumbent on Respondents to rebut presumption of unlawfulness, by demonstrating that Saturday overtime work for stewards serves legitimate statutory purpose other than impermissable one of giving stewards additional benefits to exclusion of nonsteward unit Ees)

Laborers Local Union No. 380 (Mautz & Oren, Inc.) 275 NLRB No. 147

]*superseniority clause* in contract unlawful where Respondents did *not* demonstrate that payment for Saturday overtime work at date of time and one-half to steward would promote administration of collective-bargaining agreement beyond incidental and side benefits of having steward on job to police unit work)

4267-8200 Solicitation of grievances raises inference of corrective action

Clark Equipment Company 278 NLRB No. 085

[distributing survey questionnaire to Ees, not violation, since there was no express promise to remedy grievances, and no promise could be implied where E had practice of conducting surveys, however different from survey herein, and survey was made eleven months after election when nothing but instant litigation was pending]

Clark Equipment Company 278 NLRB No. 085

[promise to remedy grievances disclosed by E's solicitation of grievances may be implied when there has been no previous solicitation, and solicitation occurs in context of organizational campaign]

4267-8800 Miscellaneous

Northwind Maintenance and Painting Co., Inc. 281 NLRB No. 048

[factual interference that E engaged new hires to replace Ees laid off in violation of 8(a)(3) supported by E's payroll records]

Heavy and Highway Construction Workers' Local Union No. 158 (Contractors' Association of Eastern Pennsylvania and Worthy Brothers Pipeline Corp.) 280 NLRB No. 124

[general atmosphere of tension created by intra-U politics not sufficient to support reasonable inference that U had requested E to lay off Ee whom U business manager had rebuked for voting with dissident faction and replaced as U steward six years before]

Local 87 Service Employees (Pacific Telephone and Telegraph Company) 279 NLRB No. 025

[failure to comply with *Moore Dry Dock* standards does not establish *per se* violation; it does, however, create a strong but rebuttable presumption that picketing had an unlawful secondary purpose]

Ryder/P.I.E. Nationwide, Inc. 278 NLRB No. 109

[supervisors' efforts to conceal their knowledge that Ee had prevailed in many grievances costly to E supported inference that E was aware of and hostile to Ee's grievance activity]

Activ Industries, Inc. 277 NLRB No. 040

(direct evidence of discriminatory motivation is not necessary to support finding of discrimination and such intent may be inferred from record as a whole)

Local Union No. 1464, Electrical Workers (Kansas City Power & Light Company) 275 NLRB No. 219

(where for past 30 years parties' contracts printed by outside contractors had contained a U bug, and E, when asked by U if current contract, which was to be printed in-house, would include a U bug, replied, *No problem*, it was reasonable to infer that E assented to inclusion of U bug on current contract and that U understood his remark as assent)

Edgar Mantha and Kathleen Mantha, A Partnership, d/b/a Hopkins Hardware; et al. JD-(SF)-127-86

[Bd presumes that when an E goes completely out of business and terminates its Ees, and there is no evidence that it closed for illegal reasons or that its operations were transferred elsewhere or that it operated at other locations, that Ees discharged for illegal reasons prior to its closure would have been terminated at time of closure and that such presumption pretermits their entitlement to backpay]

N.L.R.B. v. Health Care Logistics, Inc. 784 F.2d 232 (C.A. 6, Feb. 1986)

[small plant doctrine does not give rise to presumption of knowledge that E must rebut to prevent establishment of prima facie case but rather permits inference of E knowledge only if Bd establishes by other evidence, direct or circumstantial, E had reason to notice U activities; other evidence necessary to permit inference of E knowledge is often same as that allowing inference that E was motivated by anti-U animus, such as (1) open discussions about U on premises during work hours, (2) timing of discharge, (3) adequacy of E's reasons for discharge, and (4) hiring replacement after discharge for asserted economic reasons]

N.L.R.B. v. Allcoast Transfer, Inc. and Ward Moving and Storage, Inc. 780 F.2d 576 (C.A. 6, Jan. 1986)

[moving and storage company held alter ego of company that organized it where two enterprises had identical management and supervision, centralized control of operational and labor relations policies, substantially identical business purpose and operations as well as substantially identical equipment and Ees; circumstances so strongly supported finding of alter ego status that Bd could infer that E intended to avoid U obligations w/o further inquiry into E intent]

Electrical Workers, Local 387 v. N.L.R.B. (Arizona Public Service Co.) 788 F.2d 1412 (C.A. 9, May 1986)

[general no-strike clause waives Ees' statutory right to engage in sympathy strikes absent extinsic evidence that parties intended otherwise; rule is not substantive, and, rather than establishing irrebuttable presumption that broad no-strike rule bars sympathy strikes, shifts burden of proof to party making that claim and requires consideration of available evidence such as contract's other terms, negotiation of no-strike clause, and parties' bargaining history and past practices]

N.L.R.B. v. IDAB, Inc. 770 F.2d 991 (C.A. 11, Sep. 1985)

(because of its expertise, Bd has broad discretion in conducting elections and resolving R matters; and there is presumption that ballots cast under specific safeguards provided by Bd procedures reflect Ees' true desires)

Road Sprinkler Fitters Local Union No. 669 a/w Plumbers v. N.L.R.B. 778 F.2d 292 (C.A. D.C., Dec. 1985)

[whether particular E conduct caused by U actually encourages U membership need not be proved by direct evidence but may be presumed as *an inherent effect of certain discrimination*]

5600 WITNESSES

5601 GENERALLY

Turnbull Cone Baking Company of Tennessee v. N.L.R.B. 778 F.2d 8 (C.A. 6, Dec. 1985)

[E's contention that ALJ erred in crediting testimony of single interested party, an Ee, over testimony of supervisors, rejected; while reliability of uncorroborated testimony of interested witness is open to question where it is directly contradicted by testimony of disinterested witness, there was no basis herein for overturning ALJ's credibility determinations, since management personnel may not have been completely disinterested, and ALJ's credibility findings were consistent with reasonable reading of record]

N.L.R.B. v. IDAB, Inc. 770 F.2d 991 (C.A. 11, Sep. 1985)

(ALJ's finding of *proclivity* on part of E to attempt to influence testimony of witnesses which was introduced as collateral charge in refusal to bargain proceeding, which E claimed made up core of ALJ's credibility findings, held not denial of due process to E, since *proclivity* finding was not essential

5601—Cont.

element of ALJ's findings, where ALJ was merely discounting E's explanation for witness' hesitancy in testifying and was referring to allegation of threat of violence by pro-U Ee which was refuted by implausible and inconsistent testimony)

5601-3300 Foreign language witness

N.L.R.B. v. Del Rey Tortilleria, Inc. 787 F.2d 1118 (C.A. 7, Apr. 1986)

[testimony of GC's Spanish-speaking witnesses held not too untrustworthy to constitute substantial evidence supporting Bd's findings; while ct may disregard ALJ's credibility determinations where found unreasonably self-contradictory or based on inadequate reasoning, such was not case herein where, although testimony of witnesses in Spanish was taken through interpreter, and language barrier complicated hearing process, ALJ very carefully monitored translation process to ensure accurate interpretation]

5601-5800 Board agent

Washington Beef Producers JD-(SF)-86

[in backpay specification proceeding ALJ considered memo to file prepared by Bd agent in conjunction with filling out backpay claimant's compliance form as being portion of relevant admitted document, and as proper substitute testimony of Bd agent concerning conduct of claimant; and since GC is party in backpay proceeding, GC agent's statements are admissions of party opponent, falling w/i Rule 801(d)(2) of FRCP, which defines as *not hearsay* admissions of party opponent]

5601-8300 Writing used to refresh memory

Embossing Printers, Inc. JD-19-85

(failure to produce notes, reviewed by GC's witness prior to witness testifying at hearing, factor weighed in assessing credibility of witness)

5650 CREDIBILITY

5650-0100 Generally

Granco, Inc., d/b/a Thriftway Supermarket; et al. 276 NLRB No. 164

(ALJ's uniformly crediting GC's witnesses over those of respondent, assertedly demonstrating inadequacy of his credibility resolutions, held not improper, since total rejection of one point of view does not, of itself, constitute basis for overturning ALJ's credibility resolutions)

Bronx Metal Polishing Co., Inc. 276 NLRB No. 031

(witness's obstruction of proceedings by threatening to leave the stand has bearing on his credibility)

Abramo Fish Co. Ltd. JD-222-85

(where no documentary evidence was proffered regarding E's unchallenged testimony that he paid Ees' wages and payroll taxes, and since credibility attack on E's testimony was launched by GC, it was GC's burden to produce documentary evidence; under the circumstances, attack was considered based upon surmise and speculation)

Herrick & Smith v. N.L.R.B. 802 F.2d 565 (C.A. 1, Sept. 1986)

[disbelief of testimony does not warrant affirmative finding to the contrary; otherwise, any plaintiff could prove any case by simply calling his opponent and getting him to deny it, and then arguing he was a liar]

Turnbull Cone Baking Company of Tennessee v. N.L.R.B. 778 F.2d 8 (C.A. 6, Dec. 1985)

[E's contention that ALJ erred in crediting testimony of single interested party, an Ee, over testimony of supervisors, rejected; while reliability of uncorroborated testimony of interested witness is open to question where it is directly contradicted by testimony of disinterested witness, there was no basis herein for overturning ALJ's credibility determinations, since management personnel may not have been completely disinterested, and ALJ's credibility findings were consistent with reasonable reading of record]

5650-0900 Corroboration

Zartic, Inc. 277 NLRB No. 171

[GC's mtn to strike testimony of E's personnel director, excepting admissions against interest, for alleged violation of sequestration rule by reading transcript of another witness's testimony before testifying and speaking with E's Ees overnight between two days of testifying, denied as unwarranted; rather, personnel director's testimony not credited to extent it was not corroborated by credible evidence]

SCA Services of Georgia, Inc. 275 NLRB No. 120

(testimony of pro U witness not corroborated by GC's witnesses where chief corroborating witness's testimony was ambiguous and conclusionary, and other corroborating witnesses were not asked to give their own account of events in question)

SCA Services of Georgia, Inc. 275 NLRB No. 120

(chief U witness's testimony that checkoff was issue keeping parties from agreement eroded, rather than corroborated, by failure of U's letter to E addressing issues and U picket signs to refer to checkoff issue)

Sheet Metal Workers, Local Union No. 162 (Enterprise Mechanical, Inc.) JD-(SF)-114-85

(unexplained failure to provide corroboration by witness, present at hearing, to relevant facts warranted drawing adverse inference from testimony, since it was apparent attempt to obfuscate inaccuracy of testimony of E)

5650-1500 Uncontradicted testimony

Shore Pointe Associates, Inc., d/b/a Americare Convalescent Center 280 NLRB No. 130

[self serving statements of E, or of Ee, are not to be accepted merely because they are uncontradicted where record as a whole casts doubt on those statements]

Shore Pointe Associates, Inc., d/b/a Americare Convalescent Center 280 NLRB No. 130

[where E denied making alleged statements to supervisor, and E's denial was uncontroverted since supervisor did not testify, ALJ nevertheless held that E did make alleged statements to supervisor, since E's entire testimony was too self serving, always showing that E's intentions were virtuous and that others misinterpreted E's meaning]

Abramo Fish Co. Ltd. JD-222-85

(where no documentary evidence was proffered regarding E's unchallenged testimony that he paid Ees' wages and payroll taxes, and since credibility attack on E's testimony was launched by GC, it was GC's burden to produce documentary evidence; under the circumstances, attack was considered based upon surmise and speculation)

N.L.R.B. v. Seligman and Associates, Inc., and Its Wholly Owned Division, Scott Management Company 808 F.2d 1155 (C.A. 6, Dec. 1986)

[Bd in error when it refused to take *undisputed* evidence into account--newspaper ads showing jobs were available during backpay period]

5650-1800 Demeanor

5650-1833 Credibility based on demeanor within discretion of ALJ

SCA Services of Georgia, Inc. 275 NLRB No. 120

(ALJ's crediting of testimony of U witness based on factors other than demeanor rejected where witness was conficted of crimes involving making of false statements, and testimony was not, contrary to ALJ, corroborated by GC's witnesses)

5650-2400 Employment relationship not sufficient to disregard testimony

Lassen Community Hospital, A Division of Eskaton Health Corporation, Division of Eskaton 278 NLRB No. 053

[in resolving credibility between two seemingly equal witnesses, fact that one witness was E's supervisor with direct interest in outcome and other witness was completely disinterested and not working for E, was sufficient to *tip the scales* in favor of crediting latter witness]

5650-3700 Failure to credit some testimony does not justify rejection of witness' entire testimony

Dorothy Shamrock Coal Company 279 NLRB No. 174

[erroneous testimony does not preclude ALJ from relying on other portions of what ALJ believes to be credible testimony]

Genwal Coal Co., Inc. 275 NLRB No. 077

5650-4900 Impeachment

5650-4910 For criminal activity

5650-4910-2500 Only for felony or misdemeanor convictions involving deceit or falsification

Georjan, Inc. and/or Fort Mason Enterprises, Inc. and/or Latrobe Speedway 281 NLRB No. 129

[evidence that witness was convicted of income tax evasion is admissable for purposes of assessing credibility]

Craley Coal Corporation and South Harlan Coal Co., Inc. 280 NLRB No. 104

[statement of E's president in prehearing Bd affidavit is party admission, rather than hearsay, and is credited over inconsistent statements made on witness stand in view of his conviction of a felony, evasiveness, lack of recall of important business events, and some impossible testimony]

SCA Services of Georgia, Inc. 275 NLRB No. 120

(veracity of chief U witness found highly questionable in light of his conviction for federal crimes involving making of false and fictitious statements intended and likely to deceive obtaining and transporting firearms and explosives, and maliciously damaging E's property, all of which occurred during strike against E)

5650-4910-5000 Convictions before hearing

Iron Workers, Local 601 (Papco, Inc.) **276 NLRB No. 142**
(for fraud and embezzlement)

5650-4940 Contradictory statements

Croley Coal Corporation and South Harlan Coal Co., Inc. **280 NLRB No. 104**
[statement of E's president in prehearing Bd affidavit is party admission, rather than hearsay, and is credited over inconsistent statements made on witness stand in view of his conviction of a felony, evasiveness, lack of recall of important business events, and some impossible testimony]

Zartic, Inc. **277 NLRB No. 171**
[two challenged ballots, not counted, where voters could not be located, and testimony of individual claiming to be one voter discredited due to discrepancies between it and known facts about voter, and only testimony about other voter was by discredited witnesses]

Genwal Coal Co., Inc. **275 NLRB No. 077**
]*what a prospective witness will tell a prehearing investigator will often depend upon how searching the questions of the investigator are*)

5650-4970 On collateral issue to alleged ULP

N.L.R.B. v. IDAB, Inc. **770 F.2d 991 (C.A. 11, Sep. 1985)**
(ALJ's finding of *proclivity* on part of E to attempt to influence testimony of witnesses which was introduced as collateral charge in refusal to bargain proceeding, which E claimed made up core of ALJ's credibility findings, held not denial of due process to E, since *proclivity* finding was not essential element of ALJ's findings, where ALJ was merely discounting E's explanation for witness' hesitancy in testifying and was referring to allegation of threat of violence by pro-U Ee which was refuted by implausible and inconsistent testimony)

5650-5500 Miscellaneous reasons for crediting or discrediting testimony

Airport Distributors, Inc. **280 NLRB No. 091**
[E's contention that Ee should be discredited as witness because of admission that he had pleaded guilty to assault and battery charge, rejected, since admission enhanced witness' credibility in that it was spontaneously offered as to why he related alleged coercive conversation with E to particular date, i.e., date concurrent with assault incident; and Ee gave impression of being extremely candid witness]

Grunco, Inc., d/b/a Thriftway Supermarket; et al. **276 NLRB No. 166**
(while ALJ did not explicitly state that he was making credibility resolutions where conflict in testimony occurred, Bd held ALJ implicitly credited witnesses whose versions he accepted, since in those instances he found events took place in a way consistent with only one of the versions of conflicting testimony)

Bell Halter, Inc. **276 NLRB No. 136**
(where E's former supervisor, resident of another state, testified as E's witness prior to GC's case pursuant to parties' agreement, so that he could return home after first day of hearing, and GC's failure to deliver subpoena properly prevented E from enforcing supervisor's extended attendance at hearing, Bd held admission of Ee's specific testimony, in face of supervisor's general denial of interrogating Ees, that supervisor had interrogated him, did not prejudice E, and ALJ properly credited Ee's testimony because of his general persuasiveness)

Genwal Coal Co., Inc. **275 NLRB No. 077**
]*what a prospective witness will tell a prehearing investigator will often depend upon how searching the questions of the investigator are*)

5650-5550 Leading questions

Moving Picture Projectionists Local No. 150, Stage Employees IATSE (Dynasty Theater, Inc. d/b/a Garfield Theater) **274 NLRB No. 006**
(alleged statement by U official to Ee at settlement conference that if matter at hand were litigated, Ee would never work in industry again, not unlawful, since Ee's prehearing affidavit could not be relied upon particularly in view of Ee's uncontradicted testimony that his recollection required refreshing by way of leading questions by GC's counsel less than 1 hour after statement was allegedly made)

5650-6900 Self-serving nature of testimony affects credibility

Polymer Prints Ltd. Formerly Known as Subliflex, Inc. **281 NLRB No. 068**
[self-serving statements need not be treated as conclusive even if not contradicted by direct evidence]

Shore Pointe Associates, Inc., d/b/a Americare Convalescent Center **280 NLRB No. 130**
[self serving statements of E, or of Ee, are not to be accepted merely because they are uncontradicted where record as a whole casts doubt on those statements]

Embossing Printers, Inc. **JD-19-85**
(failure to produce notes, reviewed by GC's witness prior to witness testifying at hearing, factor weighed in assessing credibility of witness)

5650-7400 Testimony of witnesses where sequestration violated

Zartic, Inc. **277 NLRB No. 171**
[GC's mtn to strike testimony of E's personnel director, excepting admissions against interest, for alleged violation of sequestration rule by reading transcript of another witness's testimony before testifying and speaking with E's Ees overnight between two days of testifying, denied as unwarranted; rather, personnel director's testimony not credited to extent it was not corroborated by credible evidence]

Boldemann Chocolate Company, Inc. a wholly-owned subsidiary of Blommer Chocolate Company, Inc. **JD-(SF)-99-86**
[GC's mtn to strike testimony of one of E's witnesses who violated sequestration rule by discussing testimony of other witnesses who had already testified, denied and less severe remedy of scrutinizing testimony with great care held appropriate where there was no evidence that counsel had participated in violation of the sequestration order]

5650-7800 Testimony against employer by employee while in employ of employer not likely false

Molded Acoustical Products, Inc. **280 NLRB No. 163**

Resistance Technology, Inc. **280 NLRB No. 117**

Midwestern Mining & Reclamation, Inc., A Subsidiary of Midwestern Fuels Systems, Inc., etc. **277 NLRB No. 001**
(where ALJ based credibility findings on fact that number of Ee witnesses were currently working for E and testifying against their employment interests, Bd noted that other Ee witnesses, who were on layoff status, also testified against their own employment interests)

Carbo Fuel Oil; Gibraltar Heat Corp.; Concord Oil Corp. **JD-(NY)-24-85**

Genwal Coal Co., Inc. **275 NLRB No. 077**

Herrick & Smith **275 NLRB No. 062**

East Central Communications, Inc. **JD-116-86**
[it is not unusual for ALJ to credit parts of certain witnesses' testimony while rejecting parts of same testimony for *nothing is more common in all kinds of judicial decisions than to believe some and not all*]

Embossing Printers, Inc. **JD-19-85**

Carrier Corporation v. N.L.R.B. **768 F.2d 778 (C.A. 6, July 1985)**

5650-8100 Testimony of biased witness may be disregarded

Airport Distributors, Inc. **280 NLRB No. 091**
[E's contention that witness who was no longer employed as its manager must be credited as disinterested party, rejected; former managerial Ee cannot be presumed to be free of bias in favor of his former E particularly where, as here, his own conduct is entwined in litigation; and it was in his interest to maintain good will of E who, as work reference, had potential influence on his future employment]

Airport Distributors, Inc. **280 NLRB No. 091**
[E's contention that discharged Ee should be discredited as disgruntled Ee biased against E, rejected, where witness had equal reason to be disgruntled with GC who had found ULP, alleging witness' discharge as discriminatory, not meritorious; witness will derive no personal gain from instant litigation; and, on balance, he was found to be more convincing witness than E's witness]

5650-8700 Testimony of witnesses found unreliable as to one issue may be disregarded as to other issues

5650-8700—Cont.

Zartic, Inc. 277 NLRB No. 171

6300 WEIGHT AND SUFFICIENCY

6301 GENERALLY

Bronx Metal Polishing Co., Inc. 276 NLRB No. 031
(GC's request that ALJ take *judicial notice* of prior Bd decision involving same parties and similar issues, granted, but such proof of E's prior misconduct not given dispositive weight)

N.L.R.B. v. Health Care Logistics, Inc. 784 F.2d 232 (C.A. 6, Feb. 1986)
[operations manager's statements that he would run any U representative out and that e had threatened to close facility in face of unionization could be viewed as one element supporting GC's case of unlawful discharge notwithstanding they were isolated and made five months before discharge]

6325 SUSPICION, CONJECTURE OR BELIEF

Tri-State Culvert Manufacturing, Inc. 280 NLRB No. 087
[while circumstances might well prompt suspicion or evoke suggestion of misdeeds, such sentiments are no substitute for proof, the vital element necessary for finding of unlawful activity]

Robins Federal Credit Union 273 NLRB No. 165
(although sequence of events, particularly timing of discharge of Ee on eve of election and method by which Ee was summarily dismissed gave rise to suspicion as to whether E terminated Ee because of her U activities, mere suspicion is not sufficient to support finding of violation)

Stewart-Warner Corporation/Thor Power Tool Company JD-(ATL)-62-86
[suspicion raised by Ee's U activities, E's knowledge thereof, and limited evidence of E's U animus held not proof of unlawful motivation in discharge of active U adherent]

Quality Rolls, Inc. JD-189-86
[suspicion generated by evidence that E was not above use of discharge in its effort to weaken newly certified U held not to outweigh evidence that alleged discriminatee would have been terminated even if he had not engaged in U activity]

6350 EFFECT OF CORROBORATION

Plateau Coal Sales, Inc. 279 NLRB No. 156
[witness's (superintendant) uncoroborated testimony, concerning Ee's reinstatement not waiver of Ee's reinstatement, since there was no showing that Ee was offered employment and/or asked to report to work after his examination]

Plateau Coal Sales, Inc. 279 NLRB No. 156
[no waiver of reinstatement by discriminatee where uncorroborated testimony by superintendent who testified he phoned discriminatee to confirm rumor that he wasn't returning to work and later told him it was true, since no showing that discriminatee was offered employment and/or asked to report to work]

[statements by counsel in course of their representational duties held attributable to client as admission against interest]

Greg Construction Co. 277 NLRB No. 163
(E's alleged admission against interest, that it discharged nonmembers pursuant to U demand, not binding on U and diminished in persuasiveness by E's contention in its brief that it should not be required to remedy any ULPs because it was victim of U coercion)

(Ee turnover not valid basis of assertion of doubt of U majority status by successor E where it admitted that it did not consider this factor in determining Ees' support for U)

[E's telling another Ee that discharged driver's grievances *got him* constituted not only admission but unlawful statement that driver's grievances were the reason for his discharge]

Southern Illinois Petrol, Inc. 277 NLRB No. 017
(Ee's testimony that the foreman had told him that the foreman had not told E's vice president that Ee had stolen a CB radio admissable as admission by a party opponent rather than hearsay, since foreman was an admitted supervisor and agent of E)

Robert W. Wise, d/b/a Robert W. Wise Cabinetry JD-(SF)-157-85
(E's statement that he had gotten rid of troublemakers and telling Ees that other Ees had been discharged for their U activities constituted *confession* of unlawful reason for discharges)

7006-2500 By conduct

East Central Communications, Inc. JD-116-86
[supervisor's affirmative nod made in agreement with Ee's statement that discharge of terminated Ee was because of his U activity held statement by E's agent concerning matter w/i scope of his agency, since it was made during discharge interview with terminated Ee, reason for which was known to supervisor, and was, as matter of law, admission by E]

7006-3700 By affidavit

Croley Coal Corporation and South Harlan Coal Co., Inc. 280 NLRB No. 104
[statement of E's president in prehearing Bd affidavit is party admission, rather than hearsay, and is credited over inconsistent statements made on witness stand in view of his conviction of a felony, evasiveness, lack of recall of important business events, and some impossible testimony]

7012 AFFIDAVITS

Moving Picture Projectionists Local No. 150, Stage Employees IATSE (Dynasty Theater, Inc. d/b/a Garfield Theater) 274 NLRB No. 006
(alleged statement by U official to Ee at settlement conference that if matter at hand were litigated, Ee would never work in industry again, not unlawful, since Ee's prehearing affidavit could not be relied upon particularly in view of Ee's uncontradicted testimony that his recollection required refreshing by way of leading questions by GC's counsel less than 1 hour after statement was allegedly made)

7012-2500 Of witnesses who did not testify

Arizona Public Company 273 NLRB No. 210
(rejection of affidavit of Ee who did not testify submitted by E after hearing before ALJ, proper, since E's posthearing document was neither newly discovered nor was it unavailable at time of hearing)

7012-7500 Repudiation by affiant

Middletown Hospital Association 282 NLRB No. 079
[Ee's conflicting representations at trial and in pre-trial affidavit whether or not it appeared to him supervisor engaged in threatening conduct held immaterial and not relied on in finding unlawful coercion]

Salem Leasing Corporation v. N.L.R.B. 774 F.2d 85 (C.A. 4, Oct. 1985)
[in affirming Bd's decision, ct does not rely on affidavit, made prior to Bd hearing, of testifying witness, since though ALJ admitted affidavit under Sec. 801(d)(1) of F.R. Evid. notwithstanding affiant stated he was drunk when he gave affidavit and didn't remember doing it, Bd declined to rely on affidavit]

7015 BUSINESS RECORDS

Benmit Division, U.S. Tubular, Inc. 280 NLRB No. 083
[E's records of Ees' tardiness and absences, not reliable, probative evidence as to whether an Ee had called regarding work attendance where the only call recorded was one by an Ee whose father had died, and several Ees testified that they had called in, although their calls were not recorded]

Inland Container Corporation 273 NLRB No. 236
(in case where Bd reopened record and remanded case involving allegations that successor-E employed discriminatory hiring practices, U was precluded from introducing E's training manual to prove U animus since manual was in existence at time of original ULP hearing and there was no showing it was concealed from U)

7016 UNION RECORDS

Plumbers, Local No. 198 v. N.L.R.B. 747 F.2d 326 (C.A. 5, Nov. 1985)
(Bd's award of make-whole remedy to all nonmembers and traveler applicants injured by U's discriminatory operation of hiring hall as well as to named complainants found consistent with precedent for making such awards where specific evidence established a class of unnamed injured discriminatees; such class was established herein by introducing U's referral books, one for local U members and one for travelers and nonmembers, and

testimony of U's assistant business agent and others supporting conclusion of actual discrimination against such class)

Plumbers, Local No. 198 v. N.L.R.B. 747 F.2d 326 (C.A. 5, Nov. 1985)

(although GC's statistical evidence herein was not as sophisticated or revealing as that in case relied on as precedent for awarding make-whole remedy to a class injured by U's discriminatory operation of hiring hall, it was sufficient to justify Bd in finding that precedent controlling; U's use of two *out-of-work books*, one for local U members and one for travelers and nonmembers, U's members-only sign outside hiring hall, its official's testimony about actual job assignments, and its award of emergency work to few travelers or nonmembers substantially supported finding of an injured class)

[E's exhibit of its speech received in evidence with express qualification that it not be shown as full and complete document prepared and in existence at time it was given at meeting where E failed to reveal copy of speech to Bd investigator at time of investigation, since such failure reputed exhibit's reliability and validity as true copy of a document in existence and contemporaneous with delivery of speech]

(E's original charges and documents certifying that copies of the charges were sent postage paid by certified mail to U, post office documents showing U's receipt, and admission by U's counsel in answer that charges were filed and served held sufficient proof thereof, notwithstanding U's denial)

7024-1700 Commerce data

Orange Belt District Council of Painters and Allied Trades No. 48, et al. (Ghianni Drywall Construction, Inc., et al.) 275 NLRB No. 164

(U's argument that it was not proper to permit assistant manager for major supplier to Es to testify regarding interstate shipments on grounds that supplier's bills of lading that were basis of his testimony were prepared in state of origin of shipment and not by him or under his direction and control, rejected since assistant manager's testimony, based in part on his knowledge of documents, and; in part on his general performance of duties was admissible pursuant to Federal Rules of Evidence 406 (Habits; Routine Practice))

Orange Belt District Council of Painters and Allied Trades No. 48, et al. (Ghianni Drywall Construction, Inc., et al.) 275 NLRB No. 164

(general information brochure that was sales tool to acquaint people with supplies, was properly admitted, to permit witness to testify, as to origin of product, as business record pursuant to Federal Rules of Evidence 803(6), since it was report or record of supplier's business activities kept in regular course of its business activity)

Orange Belt District Council of Painters and Allied Trades No. 48, et al. (Ghianni Drywall Construction, Inc., et al.) 275 NLRB No. 164

7024-2100 District Court records

Inland Container Corporation 273 NLRB No. 226

(record reopened and case remanded to ALJ where U presented evidence in form of an E-ans to interrogatory in a federal district ct proceeding under ADEA, which constituted newly discovered evidence concerning material fact raised at prior ULP hearing, raised a substantial question whether key E witness had committed perjury and Bd's original D/O, which dismissed C, was issued in reliance on testimony of key E witness)

7024-2200 State and local courts records and decisions

Catalytic, Inc. 275 NLRB No. 016

(illegal anonymous phone call under state criminal law (such as in case at bar) not dispositive of issues raised under Act, since it is Bd's burden to evaluate striker's conduct under NLRA rather than under state criminal law)

Local 796, Electronic Workers IUE (Michael P. Barrow, an Individual) JD-162-86

[decision of state ct dismissing charging party's complaint against U president for assault and battery, not dispositive of whether U president's actions were violative of Act, since criminal standard more exacting than civil one applicable in ULP procedure; further, ct's decision based on holding that action was accompanied by legitimate revocation of charging party's license to be on U's premises, but under Act such revocation not lawful since discriminatorily motivated]

7024-3000 Job application forms

Dasal Caring Centers, Inc., d/b/a Lemay Caring Center and Dasal Caring Centers, Inc., d/b/a Walton Caring Center 280 NLRB No. 007

[although ALJ may draw adverse inference from E's refusal to produce subpoenaed documents, here employment applications, that documents unfavorable to E's position, ALJ's specific finding that Ees hired were less qualified than predecessor's Ees was improper use of adverse inference rule since it is not proper to draw such specific conclusions from employment applications which might give rise to more than one inference regarding their substantive content]

7024-3300 Events occurring before ULP alleged in complaint may be given weight

Lamar Industrial Plastics Co. 281 NLRB No. 080

[where E disciplined Ees for solicitation for U during worktime, and policy remains in effect, and GC's theory of case is one of selective enforcement, it is relevant to show that E permitted non-U solicitations both before and after incident Ees disciplined for]

Photo Plastics Company 275 NLRB No. 188

(facts adduced at hearing which could have been violations of the Act but for Section 10(b), may be considered as backgound evidence and relied on to shed light on timely allegations of C)

7024-4200 Offers of settlement or compromise

Goodman Holding Company, Inc., and Its Wholly-Owned Subsidiaries, Goodman Manufacturing Corp., etc. 276 NLRB No. 098

(E's contention that C allegations of unlawful surveillance should be dismissed and evidence of allegation be disregarded because GC insisted, as precondition to settlement, that she be allowed to present evidence of settled charge in ongoing ULP case involving same parties, rejected, since such issues are proper for background purposes to prove other allegations in C)

Conte Sand and Gravel Company, Inc. and its alter egos Calan Concrete Corp. and Tycon, Inc. 274 NLRB No. 082

(GC's offer of proof regarding contracts that E allegedly unlawfully refused to execute after having agreed during settlement negotiations to execute said contracts, properly rejected, since alleged contract agreement was so intertwined with ULPs under discussion at settlement negotiations as to be inseparable from them and not admissible under FRE 408 excluding conduct or statements made during compromise or settlement negotiations)

7024-5000 Facts established at hearing before other agencies

7024-5033 Arbitration tribunal

Save Mart of Modesto, Inc. JD-(SF)-25-85

(mtns by GC and U to reopen record to admit arbitrator's opinion and award in case concerning different Butchers' Local and Respondent denied, since arbitrator's opinion is not relevant to this proceeding. Opinion did not involve store located w/i territorial jurisdiction of charging party U, nor was U party to contract before arbitrator, and arbitrator's interpretation of article in contract before him was based upon Respondent's past practice w/ i other Local's jurisdiction)

7024-8067 Unemployment compensation agency

[mtn by E to reopen record to receive in evidence decision of State Employment Security Board of Review concerning Ee's departure from work and

his eligibility to receive unemployment benefits, granted, since Board of Review's decision constituted previously unavailable evidence. Decision of State Board of Review. *not controlling* because State agency's determinative rendercd under statute with different definitions, policies, and purposes from NLRA

Garrison Valley Center, Inc. **277 NLRB No. 164**
(state agency's decision (Maryland Dept. of Employment and Training Board of Appeals) which found Ee guilty of gross misconduct, not controlling (on Bd), since determination rendered under statute with different definitions, policies, and purpose from NLRA; Bd decision, as well as that of ALJ *must be based upon independent consideration and evaluation of the evidence received in this ULP proceeding*)

Rayglo Corporation d/b/a The Dirt Digger, Inc. **274 NLRB No. 157**
(decision of state unemployment compensation agency involving same work stoppage to protest change in working conditions involved in alleged ULP admitted in evidence, but decision not controlling as to whether Ees quit for purpose of NLRA)

Supershade Corporation **JD-(NY)-67-85**
(state unemployment agency's decision denying Ee benefits and finding after hearing that Ee voluntarily left work held admissible into evidence; while such decisions are not controlling as to findings of fact or conclusions of law, they do have some probative value)

7024-6700 Facts established at hearing in other Board cases

7024-6742 10(k) proceeding

Local 3, Electrical Workers (Mike G. Electric Corp.) **279 NLRB No. 072**

7024-6783 Where present parties were parties to earlier proceedings

Ducane Heating Corporation **273 NLRB No. 175**
(previously determined animus from prior Bd hearing tends to establish that respondent's conduct in instant case was unlawfully motivated)

7024-7500 Interim employment during backpay period

Louton, Inc., t/a/ The Original Oyster House **281 NLRB No. 154**
[mtn to strike discriminatee's testimony concerning earnings because she attempted to shield herself against discrepancy between her testimony and income reported on her income tax returns by invoking fifth amendment as to her tax returns, denied where discriminatee subsequently signed form permitting E to obtain her tax returns, and E thus was not prejudiced by her original stance]

Allied Lettercraft Company, Inc. **280 NLRB No. 113**
[report from private investigative company that its surveillance of backpay claimant for one week showed he had not been seen to leave his apartment to look for work rejected as hearsay, notwithstanding claim that report constituted business record under FRE, where report was not offered through persons who engaged in surveillance but rather through agency's official who wrote report based on his Ees' observations; and since report was made for purpose of litigation, it lacked necessary trustworthiness required by FRE so as to enable its introduction by party responsible for report's preparation]

Consolidated Dress Carriers, Inc., et al. **JD-(NY)-68-86**
[in order to mitigate its backpay liability, E has burden of proving that Ee willfully concealed his interim earnings for quarters during which he was self employed, and such burden must be met by introduction of probative evidence and not by mere speculation and inference]

Washington Beef Producers **JD-(SF)-86**
[compliance form questionnaire evidence regarding backpay claimants' search for interim employment viewed with skepticism by ALJ where claimant witnesses produced indirect answers to examination by E, who asked if entries they made on questionnaire constituted all Es they recalled contacting but were not asked how many Es they contacted on daily, weekly, or monthly basis]

Washington Beef Producers **JD-(SF)-86**
[memo to file prepared by Bd agent in conjunction with filling out backpay claimant's compliance form received into evidence by ALJ in backpay specification proceeding, where GC supplied memo to E, and compliance forms filled out by Bd agent incorporated by reference memo at issue, and thus converted it from purported confidential document to essential portion of relevant, admitted document]

7024-8500 Majority status of union

N.L.R.B. v. L & B Cooling, Inc. **757 F.2d 236 (C.A. 10, Mar. 1985)**
(majority status (of Ee bargaining representative) can be established by means other than NLRB-conducted election such as *informal-election* in instant case where with E present and consent, Ees secretly marked ballot *yes* or *no* and put ballot in hat)

7024-8700 Texts of pre-election speeches

Bennit Division, U.S. Tubular, Inc. **280 NLRB No. 083**
[E's exhibit of its speech received in evidence with express qualification that it not be shown as full and complete document prepared and in existence at time it was given at meeting where E failed to reveal copy of speech to Bd investigator at time of investigation, since such failure reputed exhibit's reliability and validity as true copy of a document in existence and contemporaneous with delivery of speech]

Central Broadcast Company **280 NLRB No. 056**
[E's failure to object to introduction of its letter and copy of its president's speech, which it had supplied to GC, found to constitute waiver of formal notice in C where letter and speech were not alleged as violative in C but were fully litigated]

7024-9900 Other

Mine Workers (Bronzite Mining Company, Inc.) **280 NLRB No. 068**
[in finding U responsible for picket line activity through its strike coordinator acting as its agent, Bd held that, although coordinator denied U's involvement in picketing activity at jobsite and that U sent him to picketing site only to *evaluate situation*, contrary to other witness' testimony, such conflict in testimony did not prevent Bd from proceeding under 10(k), since Bd is charged only with determining that reasonable cause exists for finding violation of 8(b)(4)(D), not that violation occurred]

7025 IDENTIFICATION EVIDENCE

Ironworkers Local 433, a/w Ironworkers (United Steel) **280 NLRB No. 152**
[where telephone caller identified himself as individual known to be business agent, conversation admitted as admission and is not hearsay since *substance of a telephone conversation may itself be enough to make prima facie proof of the identity of the caller, based on circumstantial evidence* in order to establish GC's *prima facie* case]

7042-0100 Generally

Orange Belt District Council of Painters and Allied Trades No. 48, et al. (Ghianni Drywall Construction, Inc., et al.) **275 NLRB No. 164**
(U's claim that it was prejudiced by admission of improper hearsay evidence, on grounds that facts of instant case do not show *proper circumstance* to admit evidence, rejected where evidence in issue was properly admitted either because Bd was not strictly bound by Federal Rules of Evidence or because evidence was exception to hearsay rule)

7042-0120 What constitutes hearsay

Ironworkers Local 433, a/w Ironworkers (United Steel) **280 NLRB No. 152**
[where telephone caller identified himself as individual known to be business agent, conversation admitted as admission and is not hearsay since *substance of a telephone conversation may itself be enough to make prima facie proof of the identity of the caller, based on circumstantial evidence* in order to establish GC's *prima facie* case]

Shore Pointe Associates, Inc., d/b/a Americare Convalescent Center 280 NLRB No. 130

Croley Coal Corporation and South Harlan Coal Co., Inc. 280 NLRB No. 104
[statement of E's president in prehearing Bd affidavit is party admission, rather than hearsay, and is credited over inconsistent statements made on witness stand in view of his conviction of a felony, evasiveness, lack of recall of important business events, and some impossible testimony]

Donald Dean d/b/a D.C. Construction Company 276 NLRB No. 097
(although E's unlawful denial of reemployment to Ee after layoff created strong suspicion implicating U in conspiratorial effort to prefer U members for employment, and it may seem anomolous that U herein be exonerated as having failed to make request, ALJ held that supervisor's testimony that E's action was taken on U's demand, while primary and probative evidence as to E's intent, was hearsay and incompetent evidence as far as U was concerned)

Richard Burgett, A Sole Proprietor, d/b/a Burgett & Son Masonry and its Alter Ego Consumers Energy Savings System, Inc. JD-25-86
[ALJ did not rely on U official's testimony regarding omission of E from E association's list of E members submitted to U, thereby purportedly evidencing omitted E's intention not to be bound by multi-E bargaining, where U official's testimony described what he had been told concerning alleged occurrences by association's president who was out of ct declarant whose credibility could not therefore be put to test of examination on stand in respect to such attribution so that U official's testimony was totally unreliable hearsay]

Best Cast, Inc. JD-(NY)-1-86
[E's summary of Ees' comments to E and supervisors about U excluded, since it was hearsay and, in addition, not reliable]

Walter N. Yoder & Sons, Inc. 754 F.2d 531 (C.A. 4, Feb. 1985)
(E's challenge of much of testimony of local U's president as hearsay on grounds it concerned reports made to him by others, rejected where testimony concerning reports as to relationship between 2 entities was not hearsay inasmuch as evidence of reports was offered not to establish proof of E's alter ego status, but rather to establish that request for information by president of local U was not totally unfounded)

7042-0140 District Court rules of evidence applicable

Allied Lettercraft Company, Inc. 280 NLRB No. 113

7042-0160 Hearsay may be excluded

Safeway Stores, Inc. 276 NLRB No. 099
(ALJ drew adverse inferences from failure to produce results of U card check conducted by neutral party, since no weight was assigned to card check because of lack of foundation and its hearsay nature, where there was no showing how neutral party arrived at conclusion U had majority; number of cards given to neutral party and number of names on Ee list had not been proven; and since GC at no time conceded validity of card check, GC's challenge thereto was continuing and pervasive)

Bombay Palace of Westchester, Inc. JD-(NY)-81-85

Best Cast, Inc. JD-(NY)-1-86
[E's summary of Ees' comments to E and supervisors about U excluded, since it was hearsay and, in addition, not reliable]

Bombay Palace of Westchester, Inc. JD-(NY)-81-85

Supershade Corporation JD-(NY)-67-85
(in assessing credibility of various witnesses, ALJ relied on hearsay evidence which is not per se inadmissible in Bd proceeding and can be relied upon if not objected to; even where appropriate objection is made to receipt of hearsay evidence, it can still be admitted if rationally probative and if corroborated by something more than the slightest amount of other evidence; and Bd has discretion to rely on hearsay testimony in proper circumstances)

7042-0180-5000 Where corroborated

Local 3, Electrical Workers (Mike G. Electric Corp.) 279 NLRB No. 072
[hearing officer did not err in admitting hearsay testimony since hearsay corroborated nor double hearsay which solely supported finding of reasonable cause to believe Section 8(b)(4)(D) of Act violated]

Bombay Palace of Westchester, Inc. JD-(NY)-81-85
[hearsay evidence not excluded where it was not objected to and was rationally probative and corroborative of credited direct testimony]

Supershade Corporation JD-(NY)-67-85
(in assessing credibility of various witnesses, ALJ relied on hearsay evidence which is not per se inadmissible in Bd proceeding and can be relied upon if not objected to; even where appropriate objection is made to receipt of hearsay evidence, it can still be admitted if rationally probative and if corroborated by something more than the slightest amount of other evidence; and Bd has discretion to rely on hearsay testimony in proper circumstances)

7042-0180-8700 Res gestae

Felbro, Inc. 274 NLRB No. 186

7042-0190 Exceptions to the hearsay rule

James Nederlander d/b/a Ned West, Inc., d/b/a Pacific Amphitheatre 276 NLRB No. 008
(charging party Ee's testimony concerning his conversation with management official held admissible since it was received into evidence not for truth of matter asserted by official and therefore was not hearsay under FRE)

7042-0190-7500 Record of regularly conducted activity or absence of entry therein

Pacific Coast Metal Trades District Council 282 NLRB No. 041
[records maintained by charging party E concerning both attendances and discussions during bargaining sessions, and offered as substantial evidence falling w/i exception to hearsay rule incorporated in FRE 803(6) admitted into evidence]

[statement of E's president in prehearing Bd affidavit is party admission, rather than hearsay, and is credited over inconsistent statements made on witness stand in view of his conviction of a felony, evasiveness, lack of recall of important business events, and some impossible testimony]

Yaohan of California, Inc. 280 NLRB No. 032
[Ee's testimony concerning supervisor's statement to him concerning fellow Ee's discharge held not hearsay, since remarks attributed to supervisor constituted admission which linked discharge of Ee with U organizing activities]

Southern Illinois Petrol, Inc. 277 NLRB No. 017
(Ee's testimony that the foreman had told him that the foreman had not told E's vice president that Ee had stolen a CB radio admissable as admission by a party opponent rather than hearsay, since foreman was an admitted supervisor and agent of E)

Granco, Inc., d/b/a Thriftway Supermarket; et al. 276 NLRB No. 164
(supervisor's statement to Ee that E had to discharge another Ee because of his U activities held not admission against interest by E where there was no proof that supervisor was privy to reasons for discharge or that he was offering more than surmise; however, statement reasonably reflected understanding by E's agent that E might, and probably did, fire Ee for his U activities and, as such, statement has some relevance and weight reflecting E's state of mind with respect to discharges for U activities)

James Nederlander d/b/a Ned West, Inc., d/b/a Pacific Amphitheatre 276 NLRB No. 008
(charging party Ee's testimony concerning his conversation with management official held admissible into evidence under FRE as admissions by E who was party-opponent to GC)

[list of E-members of E association submitted to U by E acting as official of association and constituting out of ct declarant, which included E's own company held exception to hearsay rule, since such was admission by E that his company was thereby bound by multi-E bargaining]

Washington Beef Producers JD-(SF)-86
[in backpay specification proceeding ALJ considered memo to file prepared by Bd agent in conjunction with filling out backpay claimant's compliance form as being portion of relevant admitted document, and as proper substitute testimony of Bd agent concerning conduct of claimant; and since GC is

7045 BEST EVIDENCE

McAllister Brothers Inc. and Outreach Marine Corporation, Alter Egos **278 NLRB No. 091**
[Bd has not historically taken a dim view of personnel who tape record meetings with their E because Bd has sometimes found tape recordings of Ee meetings to be the best evidence of what was said]

7048 INCOMPETENT EVIDENCE

Donald Dean d/b/a D.C. Construction Company **276 NLRB No. 097**
(although E's unlawful denial of reemployment to Ee after layoff created strong suspicion implicating U in conspiratorial effort to prefer U members for employment, and it may seem anomolous that U herein be exonerated as having failed to make request, ALJ held that supervisor's testimony that E's action was taken on U's demand, while primary and probative evidence as to E's intent, was hearsay and incompetent evidence as far as U was concerned)

Local 259, Auto Workers (Atherton Cadillac, Inc.) **276 NLRB No. 030**
(on remand Respondent U's mtn to dismiss C and vacate Bd's order, based on contention that at original hearing GC knowingly introduced forged document, purportedly letter from E to Charging Party stating Respondent had coerced E into discharging Charging Party, into record and suppressed information in Regional Office files concerning doubts regarding letter's authenticity, denied, since Respondent did not meet burden of showing letter was forgery or had been altered by Charging Party)

7051 IMMATERIAL OR IRRELEVANT EVIDENCE

Arizona Portland Cement Company, A Division of California Portland Cement Company, A Division of Calmat **281 NLRB No. 030**
[contention that U was exercising countering tactic of harassing E by filing *innumerable* grievances, rejected on ground of insufficient materiality to key issue of who may be U representative at grievance meeting, since E's position would be subject to same test regardless of number of grievances filed where statutory right was involved]

Dorothy Shamrock Coal Company **279 NLRB No. 174**
[refusal to admit into evidence newspaper article about financially troubled trucking industry, proper, as article published after layoff of Ees, therefore, it could not have played role in decision by E]

Hoschton Garment Company, A Subsidiary of Spencer Industries, Inc. **279 NLRB No. 081**
[ALJ's refusal to enforce E's subpoena duces tecum to Ee to produce records to show that child whom she was granted leave to take care of was under doctor's care and subpoena ad testificandum of Ee's husband regarding his ability to stay home with child, proper where evidence was immaterial to issue of whether Ee was suspended for violatin leave of absence or for U activities]

Sahara Datsun, Inc. **278 NLRB No. 148**
[GC's mtn to strike portion of E's brief pertaining to post-hearing misconduct of U organizer and officer by entering E's premises and injuring E's officers, for which he was arrested, granted and E's mtn to reopen hearing to take additional evidence on issue, denied, since conduct was immaterial where ALJ had concluded that U organizer was not entitled to reinstatement or to deal with E as U representative]

Pottsville Bleaching and Dyeing Company **275 NLRB No. 175**
(ALJ's failure to include certain testimony not prejudicial where testimony failed to contradict ALJ's conclusion and was thus irrelevant)

7054 OFFER OF PROOF

Holiday Radio, Inc., d/b/a KSLM–AM and KSD–FM **275 NLRB No. 184**
(where discriminatee quit interim employment because of *political and philosophical* problems with interim E, Bd held it was error for ALJ to refuse to admit testimony offered by GC regarding nature of Ee's interim employment, where GC made offer of proof that Ee would testify she resigned because interim E required her to engage in political activities on her own time and thus, such testimony was relevant to issue of whether Ee failed to mitigate loss of earnings by leaving interim E)

7054-8100 Generally

Bertolucci's Fender and Body Shop, Inc. **JD-(SF)-143-85**
(E's mtn to dismiss the case because of GC's alleged *serious breach of ethics* by describing in a footnote of brief an offer of proof concerning relevance of evidence GC sought to adduce, denied, since E was not prejudiced by inappropriate inclusion of material)

7054-5000 Failure to make

Regency Electronics, Inc. **276 NLRB No. 002**
(de novo hearing denied notwithstanding ALJ erroneously prevented counsel from questioning witness about conversation where counsel failed to make offer of proof at hearing as to what witness would testify to, and in posthearing breif counsel makes vague assertions as to precise nature of testimony that would be given)

Electrical Workers Local Union #46 (PAC, Inc.) **273 NLRB No. 167**
(U's request for remand to consider alter ego status of 2 Es denied where ALJ excluded evidence of such relationship at hearing of alleged violation of Sec. 8(b)(1)(B) and U failed to make offer of proof that charging party held financial interest in 1 E which would make him E at other E rather than E representative)

N.L.R.B. v. Electrical Workers Local Union #46 **793 F.2d 1026 (C.A. 9, July 1986)**
[where U failed to make offer of proof regarding alter ego evidence excluded at hearing, on which it based its defense in 8(b)(1)(B) proceeding for disciplining individual assertedly for operating non-U E as alter ego of U-E, and now attempted to excuse its failure to do so assertedly because of ALJ's broad ruling, ct agreed with Bd that U, having failed to make offer of proof concerning individual's financial interest in non-U E, cannot now claim prejudicial error if it is asserting evidence of such interest]

7066 TESTIMONY OF PRESENT OR FORMER BOARD AGENTS

Local 814, a/w Teamsters (Beth Israel Medical Center) **281 NLRB No. 153**
[U respondent's contention that Bd agent's testimony concerning conversations with U's agents prior to time any charge had been filed should be excluded, rejected, since Bd agent was only attempting to help Ee resolve problem with U before any charge was filed and U's agents at no time requested the presence of counsel nor did counsel show that their presence would have altered the U's conduct]

Drukker Communications, Inc., and Its Wholly Owned Subsidiary The Daily Advance, Inc. **277 NLRB No. 032**
(on remand pursuant to ct instructions to allow testimony of Bd agent, who had presided over conference leading to stipulation for certification upon consent election, as to whether parties had orally agreed to exclude individuals from unit, Bd adhered to previous finding that parties did not reach such agreement inasmuch as Bd agent could not testify with certainty that parties had orally agreed to exclude individuals)

7069 EVIDENCE AS TO STATE OF MIND

Granco, Inc., d/b/a Thriftway Supermarket; et al. **276 NLRB No. 164**
(supervisor's statement to Ee that E had to discharge another Ee because of his U activities held not admission against interest by E where there was no proof that supervisor was privy to reasons for discharge or that he was offering more than surmise; however, statement reasonably reflected understanding by E's agent that E might, and probably did, fire Ee for his U activities and, as such, statement has some relevance and weight reflecting E's state of mind with respect to discharges for U activities)

7072 SELF-SERVING STATEMENTS

Polymer Prints Ltd. Formerly Known as Subliflex, Inc. **281 NLRB No. 068**
[self-serving statements need not be treated as conclusive even if not contradicted by direct evidence]

Eskaton Sunrise Community **279 NLRB No. 013**
[self-serving declarations need not be treated as conclusive, even if not contradicted by any direct testimony]

7078 STIPULATIONS

7078-5000 Effect of stipulation on stipulating parties

The Commissary of The Great Race Pizza Shoppes, Inc. **277 NLRB No. 130**
(settlement stipulation which contained admission that parties were single E is conclusive and binding in all further litigation bearing on issue notwithstanding E alleged that admission made only to provide Bd with jurisdiction in underlying settlement agreement)

7078-5000—Cont.

AAL, Inc., d/b/a River Oaks Nursing Home 275 NLRB No. 012
(GC's mtn to strike E's brief because it sets forth *facts* not included in parties' stipulation, denied, since Bd relied solely on stipulated facts)

Alpine Vending, Inc. JD-(SF)-99-85
(where E stipulated that U is exclusive representative of unit, it could not in post submission brief argue that E's failure to bargain is justified by U's lack of majority status)

7080 STATEMENTS OF PARTY'S COUNSEL

Granco, Inc., d/b/a Thriftway Supermarket; et al. 276 NLRB No. 164
(GC's exhibit constituting position statement by E's counsel in response to ULP charge and assertedly containing admissions with respect to job evaluation of allegedly unlawfully discharged Ee received into evidence on basis of *Steve Alvi Ford, Inc.* 179 NLRB 229, and *Warren L. Rose Castings, Inc.*, 231 NLRB 912)

Retail Delivery Systems, Inc. JD-(NY)-15-86
[letter by E's counsel to filed examiner setting forth E's position statement with respect to charges filed, admissable]

7084 STATEMENTS OF WITNESSES TO COUNSEL OR BOARD AGENT IN PREPARATION OF TRIAL

7084-8400 Affidavits of employees not involved in hearing - confidential and privileged matter

Affiliated Midwest Hospital Inc. d/b/a Riveredge Hospital 274 NLRB No. 124
(Bd *excludes from record investigatory affidavits of witnesses who have not testified at a hearing* in order to protect their *confidentiality* But see Bd's R/R Section 102.69(g)(3) concerning parties' opportunity to supplement record before Bd with documents including affidavits, previously submitted to RD which have not been forwarded to Bd)

7087 STATISTICAL DATA

Plumbers, Local No. 198 v. N.L.R.B. 747 F.2d 326 (C.A. 5, Nov. 1985)
(although GC's statistical evidence herein was not as sophisticated or revealing as that in case relied on as precedent for awarding make-whole remedy to a class injured by U's discriminatory operation of hiring hall, it was sufficient to justify Bd in finding that precedent controlling; U's use of two *out-of-work books*, one for local U members and one for travelers and nonmembers, U's members-only sign outside hiring hall, its official's testimony about actual job assignments, and its award of emergency work to few travelers or nonmembers substantially supported finding of an injured class)

7090 TELEPHONE CONVERSATION

Ironworkers Local 433, a/w Ironworkers (United Steel) 280 NLRB No. 152
[where telephone caller identified himself as individual known to be business agent, conversation admitted as admission and is not hearsay since *substance of a telephone conversation may itself be enough to make prima facie proof of the identity of the caller, based on circumstantial evidence* in order to establish GC's *prima facie* case]

7096 TAPE RECORDINGS

McAllister Brothers Inc. and Outreach Marine Corporation, Alter Egos 278 NLRB No. 091
[Bd has not historically taken a dim view of personnel who tape record meetings with their E because Bd has sometimes found tape recordings of Ee meetings to be the best evidence of what was said]

Collins Industries, Inc. JD-33-86
[transcript of 2 cassette tapes, offered into evidence by E, of its preelection speech received into evidence, even though 1 tape was incomplete for which there was no explanation and portions of it were inaudible; and there was no indication that second tape, inaudible unless reproduced on special equipment, was so processed and submitted to GC, and there was no explanation why that was not done; however, transcript was offered by E and although incomplete, it demonstrated E's unlawful and objectionable conduct]

Local 1, Utility Workers (Consolidated Edison Company of New York Inc.) JD-(NY)-136-85
[tape recordings of conversations between agents of U and charging party and their transcriptions admitted into evidence]

7099 OTHER

Quality Rolls, Inc. JD-189-86
[evidence developed in course of undercover investigation of Ees designed to develop facts to support discharges which would weaken U's strength among remaining workforce cannot be used to exonerate E from charge of unlawful discrimination]

8400 ADMISSIBILITY

8401 GENERALLY

8401-1600 Effect of form and order of evidence offered

United Artists Communications, Inc., Operating Capri Theatre 280 NLRB No. 119
[reports on alleged misbehavior of Ees discharged properly not admitted into evidence, where reports did not identify Ees but only gave descriptions, and sponsoring witness for introducing reports unable to identify unnamed Ees]

Bell Halter, Inc. 276 NLRB No. 136
(where E's former supervisor, resident of another state, testified as E's witness prior to GC's case pursuant to parties' agreement, so that he could return home after first day of hearing, and GC's failure to deliver subpoena properly prevented E from enforcing supervisor's extended attendance at hearing, Bd held admission of Ee's specific testimony, in face of supervisor's general denial of interrogating Ees, that supervisor had interrogated him, did not prejudice E, and ALJ properly credited Ee's testimony because of his general persuasiveness)

Orange Belt District Council of Painters and Allied Trades No. 48, et al. (Ghianni Drywall Construction, Inc., et al.) 275 NLRB No. 164
(U's argument that it was not proper to permit assistant manager for major supplier to Es to testify regarding interstate shipments on grounds that supplier's bills of lading that were basis of his testimony were prepared in state of origin of shipment and not by him or under his direction and control, rejected since assistant manager's testimony, based in part on his knowledge of documents, and; in part on his general performance of duties was admissible pursuant to Federal Rules of Evidence 406 (Habits; Routine Practice))

Collins Industries, Inc. JD-33-86
[transcript of 2 cassette tapes, offered into evidence by E, of its preelection speech received into evidence, even though 1 tape was incomplete for which there was no explanation and portions of it were inaudible; and there was no indication that second tape, inaudible unless reproduced on special equipment, was so processed and submitted to GC, and there was no explanation why that was not done; however, transcript was offered by E and although incomplete, it demonstrated E's unlawful and objectionable conduct]

Washington Beef Producers JD-(SF)-86
[memo to file prepared by Bd agent in conjunction with filling out backpay claimant's compliance form received into evidence by ALJ in backpay specification proceeding, where GC supplied memo to E, and compliance forms filled out by Bd agent incorporated by reference memo at issue, and thus converted it from purported confidential document to essential portion of relevant, admitted document]

8401-5600 Illegally obtained evidence

Local 814, a/w Teamsters (Beth Israel Medical Center) 281 NLRB No. 153
[U respondent's contention that Bd agent's testimony concerning conversations with U's agents prior to time any charge had been filed should be excluded, rejected, since Bd agent was only attempting to help Ee resolve problem with U before any charge was filed and U's agents at no time requested the presence of counsel nor did counsel show that their presence would have altered the U's conduct]

8401-6600 Parol evidence

N.L.R.B. (Steven R. Lovell, etc.) v. Electrical Workers, Local 11 772 F.2d 571 (C.A. 9, Sep. 1985)
(where contractual provisions are unambiguous, NLRB need not consider extrinsic evidence. Parol evidence is therefore not only unnecessary but irrelevant)

8401-8000 Respondent's statement of position

Granco, Inc., d/b/a Thriftway Supermarket; et al. 276 NLRB No. 164
(GC's exhibit constituting position statement by E's counsel in response to ULP charge and assertedly containing admissions with respect to job evaluation of allegedly unlawfully discharged Ee received into evidence on basis of *Steve Alvi Ford, Inc.* 179 NLRB 229, and *Warren L. Rose Castings, Inc.*, 231 NLRB 912)

Retail Delivery Systems, Inc. JD-(NY)-15-86
[letter by E's counsel to field examiner setting forth E's position statement with respect to charges filed, admissable]

8401-8200 Evidence contained in newspaper article

Dorothy Shamrock Coal Company 279 NLRB No. 174
[refusal to admit into evidence newspaper article about financially troubled trucking industry, proper, as article published after layoff of Ees, theefore, it could not have played role in decision by E]

8401-8200—Cont.

N.L.R.B. v. Seligman and Associates, Inc., and Its Wholly Owned Division, Scott Management Company 808 F.2d 1155 (C.A. 6, Dec. 1986)

[Bd in error when it refused to take *undisputed* evidence into account--newspaper ads showing jobs were available during backpay period]

8401-8400 Affidavit of decedent

Rainey Security Agency, Inc. 274 NLRB No. 041

(affidavit of now deceased president of 1 of 2 respondent Es, purportedly constituting joint E, received into evidence as admission by party-opponent pursuant to FRE Rule 801(d)(2) and possible applicability of Rule 804(b)(3); Bd has approved practice of receiving affidavits made by since deceased persons)

8401-8500 Affidavit of unavailable witness

Construction and General Labors Union, Local No. 1334 (Western Sign Corp.) 281 NLRB No. 029

Malta Construction Company 276 NLRB No. 171

(statement of fellow Ee of alleged discriminatee who did not testify at trial, held inadmissible under FRE 804(a) where there was no showing that E was unable to produce fellow Ee as witness; Bd precedent establishes that requirements of rule 804(a) must be met for affidavits of unavailable witness to be admissable)

8401-9900 Other

Road Sprinkler Fitters Local Union No. 669 a/w Plumbers v. N.L.R.B. 778 F.2d 292 (C.A. D.C., Dec. 1985)

[in case involving discharge of non-U Ee allegedly unlawfully caused by U, ct held that fact that no charge of unlawful refusal to permit Ee to join U was filed did not render evidence to that effect not admissible for its probative value with regard to charged offense]

8433 EXCLUSION OF EVIDENCE

8433-1700 Privileged evidence

Asarco, Incorporated, Tennessee Mines Division 276 NLRB No. 155

(refusal to provide U with E's internal report concerning fatal accident to Ee, sought by U for further investigation of accident and prevention of recurrences, unlawful, where report, not prepared by attorney or with attorney's assistance, did not qualify for exemption from disclosure on basis of attorney-client privilege or attorney work product)

8433-5000 State of mind of union members

Bay Area-Los Angeles Express, Inc. 275 NLRB No. 152

(evidence submitted as to motivation of Ee for signing of anti-U ptn, rejected, since S.Ct ct had held evidence of this nature should be rejected inasmuch as it requires probe of Ee's subjective motivation; further, even if reliable such testimony insufficient to establish motivation of other Ees' signing ptn)

8433-6700 Subjects properly excluded

8433-6724 Hearsay

Orange Belt District Council of Painters and Allied Trades No. 48, et al. (Ghianni Drywall Construction, Inc., et al.) 275 NLRB No. 164

(U's claim that it was prejudiced by admission of improper hearsay evidence, on grounds that facts of instant case do not show *proper circumstance* to admit evidence, rejected where evidence in issue was properly admitted either because Bd was not strictly bound by Federal Rules of Evidence or because evidence was exception to hearsay rule)

8433-6727 Subjective evidence concerning prior state of mind

Felbro, Inc. 274 NLRB No. 186

(evidence of member's vote on ratification of contract, admissable as *res gestae*, since evidence was not offered for its truth of how they felt about ratifying contract but that they did, in fact, accept contract)

8433-6755 Character of preliminary investigation

Pacific Coast Metal Trades District Council 282 NLRB No. 041

[ALJ disallowed GC's attempt to show that respondent U had not cooperated with GC during investigation of 8(b)(3) case and had not presented any defense until after prosecution rested, thereby making defense arguably more suspect than identical defense raised during investigation; Bd practice prohibits consideration or even introduction of such evidence into record since cooperation by respondent with government during investigation is voluntary, and drawing of adverse inference against respondent for failure to participate in investigation would substantially degrade concept of *voluntary* participation]

8433-6762 Records and testimony of Board representative

Drukker Communications, Inc., and Its Wholly Owned Subsidiary The Daily Advance, Inc. 277 NLRB No. 032

(on remand pursuant to ct instructions to allow testimony of Bd agent, who had presided over conference leading to stipulation for certification upon consent election, as to whether parties had orally agreed to exclude individuals from unit, Bd adhered to previous finding that parties did not reach such agreement inasmuch as Bd agent could not testify with certainty that parties had orally agreed to exclude individuals)

8433-6788 Evidence in settled case involving same parties

Over-The-Road, City Transfer, Inside Employees, Local Union No. 544, a/w Teamsters (Better Home Deliveries, Inc.) 274 NLRB No. 034

(ALJ rejected evidence proferred by E where C alleged only 8(b)(7)(C) violation and rejected evidence would have been basis for 8(b)(1)(A) and 8(b)(4)(B) charges which had already been unilaterally settled. Further, offers of proof rejected also on grounds that evidence of another object proscribed by Act, such as secondary object, did not show object prohibited by 8(b)(7)(C) and conduct relevant to 8(b)(1)(A) C, such as violence, did not tend to establish recognitioned or organizational object)

8433-6796 Refusal to produce evidence under subpoena bars party's own use of it

Communications Workers, Local 1101 (New York Telephone Company) 281 NLRB No. 064

[ALJ admitted E's exhibit into evidence, notwithstanding GC's contention that it should not be admitted because document was not made available to GC pursuant to subpoena duces tecum; determination as to whether evidence, which party failed to produce pursuant to subpoena, should be excluded is matter of discretion; and exhibit had previously been made available to GC]

Ironworkers Local 433, a/w Ironworkers (United Steel) 280 NLRB No. 152

8467 EVIDENCE RELATING TO EVENTS BARRED BY 6-MONTH LIMITATION

8467-3300 Admissible for background purposes

Boilermakers, Local Lodge No. 60 (Henry Valencia, an Individual) JD-13-85

750 RES JUDICATA

0100 GENERALLY

Steelworkers, Local 15063 (Geraldine Shanks, an individual) — 281 NLRB No. 169

[U cannot relitigate in backpay proceeding its contentions raised in underlying ULP proceeding that it was not liable for discharged Ee's losses because, allegedly, the E had right to discharge Ee under contract, Ee's grievance was untimely and E had refused to arbitrate, since Bd had determined in ULP proceeding that Ee's losses were due to U's unlawful failure to fairly represent her]

Western Temporary Services, Inc. and The Classic Company, Inc. — 278 NLRB No. 073

[ALJ's granting GC's mtn to strike certain of Es' denials from their individual answers, granting mtn for summary judgment, and deciding certain issues were res judicata because previously determined by Bd in underlying R proceeding, proper, notwithstanding Es' contention that they were denied due process in R proceedings for lack of adequate notice of amendment to ptn naming them as joint Es, where GC issued C alleging them as joint Es over two weeks before R ptn amendment and hearing, one E admitted joint E status in its answer, and other E presented evidence of their relationship at R hearing]

N.L.R.B. v. Master Slack and/or Master Trousers Corp., et al. — 773 F.2d 77 (C.A. 6, Sep. 1985)

(factual finding which is necessary to support judgment in prior proceeding will bar relitigation on that issue in subsequent proceeding involving same parties)

N.L.R.B. v. Master Slack and/or Master Trousers Corp., et al. — 773 F.2d 77 (C.A. 6, Sep. 1985)

(issue preclusion should only be applied where identical issue sought to be relitigated was determined in prior proceeding in which litigant against whom doctrine is asserted had full and fair opportunity to litigate issue; factual issue is *necessarily decided* if its determination was necessary to support judgment entered in prior proceeding)

0150 PRIOR COURT OR AGENCY DECISION

Consolidated Dress Carriers, Inc., et al. — JD-(NY)-68-86

[in backpay proceeding, E's contention that issue whether economic striker, refused reinstatement upon unconditional offer to return to work, had been terminated prior to strike, was not *litigated*, rejected; E could have and should have raised such affirmative defense before ALJ; records introduced herein were in E's possession and/or available to it when trying underlying case; issue was peculiarly w/i E's knowledge and control with no explanation offered why it did not raise issue at appropriate time; and res judicata bars all claims and defenses that were or could have been raised]

Local 796, Electronic Workers IUE (Michael P. Burrow, an Individual) — JD-162-86

[decision of state ct dismissing charging party's complaint against U president for assault and battery, not dispositive of whether U president's actions were violative of Act, since criminal standard more exacting than civil one applicable in ULP procedure; further, ct's decision based on holding that action was accompanied by legitimate revocation of charging party's license to be on U's premises, but under Act such revocation not lawful since discriminatorily motivated]

N.L.R.B. v. Laborers' International Union of North America, AFL-CIO; and Pipeland Local Union No. 38 — 748 F.2d 1001 (C.A. 5, Dec. 1984)

[U's contention that discriminatees had failed to mitigate backpay by failure to accept its referrals, rejected, since Bd affirmed by another circuit ct had found U's referrals discriminatory as to these Ees in ULP proceeding]

N.L.R.B. v. Laborers' International Union of North America, AFL-CIO; and Pipeline Local Union No. 38 — 748 F.2d 1001 (C.A. 5, Dec. 1984)

N.L.R.B. v. Master Slack and/or Master Trousers Corp., et al. — 773 F.2d 77 (C.A. 6, Sep. 1985)

(findings of agencies made in course of proceedings which are judicial in nature should be given same preclusive effect as findings made by courts)

2500 FORMS OF APPLICATION

2533 COLLATERAL ESTOPPEL--SUBSEQUENT PROCEEDING BASED ON DIFFERENT CAUSE OF ACTION

Springfield Transit Management, Inc. — 281 NLRB No. 017

[subcontractor hired by state agency collaterally estopped from asserting that it was not contractually bound by agreement between U and state agency hiring it to operate transit system where question had been litigated and decided adversely to it in superior ct case]

Highway Drivers, Dockmen, Spotters, Rampmen, Meat Packing House and Allied Products Drivers and Helpers, Office Workers and Miscellaneous Employees, Local Union No. 710, a/w Teamsters (The Santa Fe Trail Transportation Company) — 279 NLRB No. 096

[even though U's 8(a)(2) and (5) charges were dismissed in prior ULP cases involving same parties as those herein, such dismissals do not collaterally estop U from raising those grounds here (in instant case) as defenses]

Alamo Cement Company — 277 NLRB No. 034

]*res judicata* principle foreclosed adjudication of supervisory status of certain individuals in instant case where they had been found nonsupervisory in prior Bd case, and, with one exception, all material evidence was available and could have been litigated in prior proceeding)

N.L.R.B. v. Chaim Babad, Bernard Steinmetz and Emanuel Steinmetz, A Co-Partnership d/b/a J.R.R. Realty Co. — 785 F.2d 46 (C.A. 2, Mar. 1986)

[Bd not collaterally estopped from finding that buyer assumed U contract because New York S.Ct found buyer did not expresly agree to adopt seller's contract with U, since collateral estoppel does not apply to issues not *essential to the judgment;* here New York cts, relying on cases requiring express agreement to arbitrate, merely determined that buyer was not bound by arbitration provision of seller's contract, not whether it was bound by other provisions of labor contract]

Plumbers, Local No. 198 v. N.L.R.B. — 747 F.2d 326 (C.A. 5, Nov. 1985)

(collateral estoppel found not to apply to prior complaints, since they were voluntarily withdrawn and lacked finality, there was little provity between prior complainants and present class of discriminatees, and present action involved more than discrimination against prior complainants)

Frye v. Steelworkers — 767 F.2d 1216 (C.A. 7, July 1985)

(issues underlying member's allegation that U violated his rights under Title I of LMRDA were fully and fairly litigated in earlier NLRB proceeding, and judgment on those issues was reached in a manner that would not have affected decision; thus, collateral estoppel precluded relitigation of issues where allegations made by GC in NLRB action were same as made by member in LMRDA action, ALJ in NLRB action reviewed all claims of procedural error raised in LMRA claim, as well as claims based on merit, or alleged lack thereof of charges and rendered decision no different than one that would be rendered by district ct in suit under LMRDA)

2533—Cont.

Frye v. Steelworkers 767 F.2d 1216 (C.A. 7, July 1985)

(in determining whether collateral estoppel should apply, while it is true actions based on one statute should not automatically be given preclusive effect in actions based on another statute, it is also true considerations of fairness can make application of collateral estoppel inappropriate for a number of reasons; however, *when all factors required for collateral estoppel are present, it is party opposing preclusion who must demonstrate that applying collateral estoppel in specific case would result in particularized unfairness*)

Frye v. Steelworkers 767 F.2d 1216 (C.A. 7, July 1985)

(in order for agency decision to be given collateral estoppel effect by ct, original action must have been properly before agency, same disputed issues of fact must have been before agency as before ct, agency must have acted in judicial capacity, and parties had adequate opportunity to litigate issues before agency)

2550 COLLATERAL ESTOPPEL--SUBSEQUENT PROCEEDING BASED ON SAME CAUSE OF ACTION

Bryan Memorial Hospital 282 NLRB No. 032

[mtn for summary judgment granted and E held to have violated Section 8(a)(5) by failing to bargain before making changes in benefits and working conditions, where issue of whether E had properly withdrawn recognition from U was raised in previous case, is res judicata, and may not herein be raised or litigated, nor does pendency of appeal of prior proceeding in federal ct necessitate dismissal of C. Since E is not entitled to refuse to bargain with certified U while it litigates validity of certification in ct of appeals]

Overseas Motors, Inc. 277 NLRB No. 061

(where Respondent E's defense was litigated in underlying ULP case and decided adversely to E, E now not merely collaterally estopped from raising these defenses in backpay proceeding under collateral estoppel or res judicata, but barred from raising these defenses under doctrine of *law of the case* since backpay proceeding merely continuation of or supplement to ULP proceeding)

Allbritton Communications Co., The News Printing Co., Inc. and The Hudson Dispatch v. N.L.R.B. 766 F.2d 812 (C.A. 3, July 1985)

(E's contention that collateral estoppel precluded Bd from making findings different than that of district ct as to E-Ee relationship in prior Sec. 301 action involving same parties, rejected, since prior 301 action was improperly removed from state ct to district ct because district ct had no original jurisdiction and therefore any *findings* made by district ct are w/o collateral estoppel effect)

Plumbers, Local No. 198 v. N.L.R.B. 747 F.2d 326 (C.A. 5, Nov. 1985)

(U's contention that it was denied due process due to lack of reasonable notice of an identifiable or recognizable group of alleged discriminatees for whom redress was sought, rejected, where C alleged broad discrimination in hiring hall operations generally, not just as to named parties; also, Bd's relegating determination of discriminatees to compliance stage let U contest individual awards and compliance procedures, whereas, if finding of general discrimination were established but redress given only named individuals, collateral estoppel might bar U from relitigating discrimination issue as to unnamed members of the class)

N.L.R.B. v. Master Slack and/or Master Trousers Corp., et al. 773 F.2d 77 (C.A. 6, Sep. 1985)

(factual finding which is necessary to support judgment in prior proceeding will bar relitigation on that issue in subsequent proceeding involving same parties)

N.L.R.B. v. Master Slack and/or Master Trousers Corp., et al. 773 F.2d 77 (C.A. 6, Sep. 1985)

(issue preclusion should only be applied where identical issue sought to be relitigated was determined in prior proceeding in which litigant against whom doctrine is asserted had full and fair opportunity to litigate issue; factual issue is *necessarily decided* if its determination was necessary to support judgment entered in prior proceeding)

2567 DIRECT ESTOPPEL - SUBSEQUENT PROCEEDING BASED ON SAME CAUSE OF ACTION

Searle Auto Glass, Inc. d/b/a Best Glass Company 280 NLRB No. 159

[contention that discriminatee was not entitled to backpay, because he would have been discharged anyway, rejected where Bd's finding that claim of legitimate reason for discharge was pretext was *res judicata*]

Evans Plumbing Co. 278 NLRB No. 089

[mtn to strike defense of alleged offer of reinstatement and supporting testimony, granted, since it was barred by res judicata where failure to reinstate had been raised as issue in C, admitted in answer, and implicity found in ALJ's decision]

5000 EFFECTS OF APPLICATION

5016 FINDINGS IN PRIOR BOARD DECISION OR SETTLEMENT AGREEMENT NOT APPLICABLE TO LATER CASE INVOLVING DIFFERENT UNFAIR LABOR PRACTICES AND DIFFERENT CONDITIONS

American Model & Pattern, Inc. 277 NLRB No. 018

(in case involving factual question of whether E had ever observed seniority for purposes of layoff and recall, ALJ was bound by collateral estoppel in finding that E in fact did observe seniority since that factual issue had been fully litigated and resolved against E in prior ULP case involving same parties)

5025 NOT CONCLUSIVE AS TO QUESTIONS OF FACT NOT ACTUALLY LITIGATED

Staff Officers Association of America (Delta Steamship Lines) 277 NLRB No. 125

(contention that charge was identical in substance and form to charge withdrawn with RD's approval, rejected, since charge herein concerns events subsequent to filing of prior charge and were not considered in investigating it; further, disposition of prior charge by RD is not res judicata as to subsequent charge filed by same charging party covering identical subject matter)

N.L.R.B. v. Master Slack and/or Master Trousers Corp., et al. 773 F.2d 77 (C.A. 6, Sep. 1985)

(issue preclusion should only be applied where identical issue sought to be relitigated was determined in prior proceeding in which litigant against whom doctrine is asserted had full and fair opportunity to litigate issue; factual issue is *necessarily decided* if its determination was necessary to support judgment entered in prior proceeding)

Frye v. Steelworkers 767 F.2d 1216 (C.A. 7, July 1985)

(issues underlying member's allegation that U violated his rights under Title I of LMRDA were fully and fairly litigated in earlier NLRB proceeding, and judgment on those issues was reached in a manner that would not have affected decision; thus, collateral estoppel precluded relitigation of issues where allegations made by GC in NLRB action were same as made by member in LMRDA action, ALJ in NLRB action reviewed all claims of procedural error raised in LMRA claim, as well as claims based on merit, or alleged lack thereof of charges and rendered decision no different than one that would be rendered by district ct in suit under LMRDA)

Frye v. Steelworkers 767 F.2d 1216 (C.A. 7, July 1985)

(express finding of fact or finding of law in earlier judgment is sufficient to give it collateral estoppel preclusive effect if that finding was necessary and essential in earlier judgment. Therefore, it is not similarity between types of litigation or actions involved but between factual issues and their roles in respective actions that is important)

Clinchfield Coal Company **275 NLRB No. 189**

(contractual language not clear and unmistakable waiver of U's right to request information where language concerning grievance procedure spoke of complaints filed by Ees, not U; mine committee's duties were confined to adjusting disputes arising out of contract that E and Ees, not U, had failed to adjust; and where *full-disclosure* provision obligated parties to disclose facts and contractual provisions relied on after grievance was filed but did not mention situations where, as here, a party sought to police the contract and obtain information to determine if a violation had occurred)

[U's contention that job referral applicant waived his rights to hiring hall information by filing charge against U, rejected, since waiver would result in depriving charging party of vested rights because he pursued those rights through use of Bd processes, and Bd would undermine its own existence if it punished charging parties for filing charges]

Reichhold Chemicals, Inc. **277 NLRB No. 073**

(E's seeking waiver of Ees' right to engage in ULP strikes, as part of no-strike clause, and right to seek redress from Bd or other tribunal for discipline imposed under clause on replaced strikers, not unlawful, since Act does not prohibit Us from waiving Ees' right to strike over ULPs; and proposed waiver of replaced strikers right to Bd's processes, absent other evidence, read as permitting only non-discriminatory application, and does not extend to appeals to Bd on other matters; since this waiver merely derivative of waiver of right to strike a mandatory subject of bargaining, it too is mandatory, thus E could insist to impasse on dual waiver)

N.L.R.B. v. Local 1131, Local 1161, Auto Workers **777 F.2d 1131 (C.A. 6, Dec. 1985)**

Local Union 1395, Electrical Workers v. N.L.R.B. (Indianapolis Power & Light Co.) **797 F.2d 1027 (C.A. D.C., Aug. 1986)**

[while U may bargain away its members' economic rights, it may not surrender rights that impair Ees' choice of their bargaining representative; thus, right to solicit support for or against bargaining representative is nonwaivable]

Local Union 1395, Electrical Workers v. N.L.R.B. (Indianapolis Power & Light Co.) **797 F.2d 1027 (C.A. D.C., Aug. 1986)**

[standards governing question whether contract *waives* statutory rights and provides defense to ULP charge do not differ from those cts apply in Sec. 301 breach of contract suits; it is not appropriate in either context to interpret agreements in vacuum; rather, they must be read in light of realities of labor relations and federal labor policy; *clear and unmistakable* test dictates that waiver of statutory rights may not be inferred casually, but it also cannot be applied woodenly; whether rights have been waived depends on circumstances of each case]

8712 RIGHT TO OBSERVE PICKET LINE

Metropolitan Edison Company **279 NLRB No. 047**

[threatening discipline, including suspension, for refusing to cross stranger picket line, not violation where broad no-strike clause waived Ee's right to honor stranger picket line, in absence of any evidence in bargaining history or past practice demonstrating that parties expresaly excluded sympathy strikes from no-strike clause coverage]

Arizona Public Company **273 NLRB No. 210**

(issuing 3-day suspensions to 8 Ees because they refused to cross a stranger picket line thus refusing to perform assigned work of removing overhead lines at municipal building complex, not violative, since E's contract with U permitted E to discipline Ees who *engage in any unauthorized stoppage, strike, intentional slowdown, or suspension of work*, and U, by letter, stated that it *had not authorized stoppage, strike, slowdown or suspension of work* at involved work site. Absent extrinsic evidence that parties intended otherwise, and general no-strike clause waives the Ees' right to engage in sympathy strikes)

Electrical Workers, Local 387 v. N.L.R.B. (Arizona Public Service Co.) **788 F.2d 1412 (C.A. 9, May 1986)**

[general no-strike clause waives Ees' statutory right to engage in sympathy strikes absent extinsic evidence that parties intended otherwise; rule is not substantive, and, rather than establishing irrebuttable presumption that broad no-strike rule bars sympathy strikes, shifts burden of proof to party making that claim and requires consideration of available evidence such as contract's other terms, negotiation of no-strike clause, and parties' bargaining history and past practices]

Local Union 1395, Electrical Workers v. N.L.R.B. (Indianapolis Power & Light Co.) **797 F.2d 1027 (C.A. D.C., Aug. 1986)**

[Ees' right under Sec. 7 to observe lawful picket lines that they encounter in course of their duties may be waived by them in bargaining agreements, but waiver of right to engage in sympathy strikes, like waiver of other rights under Act, must be *clear and unmistakable*]

Local Union 1395, Electrical Workers v. N.L.R.B. (Indianapolis Power & Light Co.) **797 F.2d 1027 (C.A. D.C., Aug. 1986)**

[ct rejected U's contention that Bd's treatment of sympathy strikes as matter of contract interpretation of no-strike clause was inconsistent with *clear and unmistakable* standard which is addressed to Ee's subjective intention to give up a statutory right rather than to objectively reasonable construction of contract that binds Ee; S.Ct has held that general no-strike clause which turns upon proper interpretation of contract, and relevant cases do not support proposition that waiver hinges upon Ee's subjective intent rather than mutual consent reflected in contract]

Local Union 1395, Electrical Workers v. N.L.R.B. (Indianapolis Power & Light Co.) **797 F.2d 1027 (C.A. D.C., Aug. 1986)**

[rejecting U's contention that Bd's treatment of waiver of sympathy strikes as matter of contract interpretation of no-strike clause was inconsistent with *clear and unmistakable* standard addressed to Ees' subjective intent to give up statutory right, ct held federal labor policy is more threatened by interposition of artificial rules of construction upon parties' mutual intent when *waiver* of sympathy strikes is at stake, than by Bd's giving effect to clear impact of contractual language]

Local Union 1395, Electrical Workers v. N.L.R.B. (Indianapolis Power & Light Co.) **797 F.2d 1027 (C.A. D.C., Aug. 1986)**

[Bd or ct is not prevented by Act from finding waiver of right to honor picket lines in contractual no-strike clause of sufficient breadth; in assessing whether broad no-strike clause covers sympathy strikes, however, unexpressed reservations of Ees cannot be treated as dispositive, and ct's task is simply to interpret parties' manifestation of mutual consent; and in determining meaning of general no-strike clause, ct is guided by S.Ct's holding that sympathy strike was w/i purview of general no-strike clause, which S.Ct based primarily on language of clause itself]

Local Union 1395, Electrical Workers v. N.L.R.B. (Indianapolis Power & Light Co.) **797 F.2d 1027 (C.A. D.C., Aug. 1986)**

[U's contention that it was entitled to Bd's prior approach in *Davis-Mckee* (238 NLRB 652), that sympathy strike was not covered by no-strike clause, rejected, since at time no-strike clause was drafted Bd was willing to find that no-strike clause waived right to honor picket line; in effect U's argument was that parties, in later ratifying pre-existing contractual language, necessarily intended to incorporate changes in law *sub silentio*; even if such speculation was appropriate, *Davis-Mckee* was not *the law* in circuit where agreement was entered]

Local Union 1395, Electrical Workers v. N.L.R.B. (Indianapolis Power & Light Co.) **797 F.2d 1027 (C.A. D.C., Aug. 1986)**

[U's contention that it was entitled to Bd's prior approach in *Davis-Mckee* (238 NLRB 652), that sympathy strike was not covered by no-strike clause, rejected; it is simply wrong to assume that *the law* to which parties refer in entering bargaining agreement's is exclusively, or even primarily, Bd law; such agreements are interpreted by arbitrators and cts as well, and cts must give broad, and virtually complete, deference to arbitrator's interpretation of agreement]

Plateau Coal Sales, Inc. **279 NLRB No. 156**
[no waiver of reinstatement by discriminatee where uncorroborated testimony by superintendent who testified he phoned discriminatee to confirm rumor that he wasn't returning to work and later told him it was true, since no showing that discriminatee was offered employment and/or asked to report to work.]

Jones Plumbing Co., Inc.; et al. d/b/a Instant Plumbing Company **277 NLRB No. 047**
(fact Ee received pay for time of unlawful layoff and signed release did not constitute waiver of public remedies of backpay, reinstatement, and notice posting, where record insufficient to determine whether payment constituted full payment of backpay under Bd law, release executed when other discriminatory acts against Ee had not been remedied, nor was charging U involved in execution)

Murbro Parking, Inc. **276 NLRB No. 009**

8725 RIGHT TO STRIKE AGAINST ULP MAY BE WAIVED BY EXPLICIT CONTRACTUAL PROVISION

Reichhold Chemicals, Inc. **277 NLRB No. 073**
(E's seeking waiver of Ees' right to engage in ULP strikes, as part of no-strike clause, and right to seek redress from Bd or other tribunal for discipline imposed under clause on replaced strikers, not unlawful, since Act does not prohibit Us from waiving Ees' right to strike over ULPs; and proposed waiver of replaced strikers right to Bd's processes, absent other evidence, read as permitting only non-discriminatory application, and does not extend to appeals to Bd on other matters; since this waiver merely derivative of waiver of right to strike a mandatory subject of bargaining, it too is mandatory, thus E could insist to impasse on dual waiver)

Indiana & Michigan Electric Company **273 NLRB No. 193**
(in finding no violation where E imposed more severe disciplinary suspensions on U stewards for violating no-strike provision, Bd considered S.Ct's *Metropolitan Edison* decision from standpoint of U's waiver of U officials' Sec. 7 rights to extent they have affirmative duty to prevent illegal work stoppages, U's lawful bargaining away of statutory protection accorded U officials, insufficiency of general no-strike clause to constitute waiver, relevance of arbitration decisions in establishing waiver, and establishment of waiver by circumstances surrounding bargaining relationship as well as by language of agreement itself)

Indiana & Michigan Electric Company **273 NLRB No. 193**
(imposition of disparate disciplinary suspensions on U stewards for violating no-strike provision, not unlawful, where U assumed duty to prevent unlawful strikes and thereby waived steward's statutory rights; while S.Ct in *Metropolitan Edison* found affirmative action cannot be required unless such requirement is bargained for, it merely held general *no-strike* clause was not enough to constitute waiver and left open what contractual language would suffice; here, contract unequivocally imposed duty to end unlawful strike, and stewards did not fulfill their contractual obligations even under most narrow construction of contract)

International Molders and Allied Workers Union, Local No. 164 v. N.L.R.B. **765 F.2d 858 (C.A. 9, July 1985)**
(blanket no-strike clause held waiver of right to strike during both arbitration proceeding and judicial review of arbitration decision, since no-strike clause presumed coterminous with arbitration process, and judicial review is part of final and binding arbitration process; contention waiver not clear and unmistakable, as required by Bd rule, as no evidence parties contemplated question of whether no-strike clause would apply to pending judicial review of arbitration award, thus clause applies only to contingencies individually identified previously as being w/i its coverage, rejected)

[U did not waive its right to bargain over decrease in wages and benefits and to protest E's actions, where U consistently took position that terms of bargaining agreement were in full force and effect; moreover E could not show that U had clear notice of E's intent to institute changes sufficiently in adherence of actual implementation nor did E demonstrate that U failed to make timely bargaining request before changes were implemented]

Whirlpool Corporation **281 NLRB No. 007**

Whirlpool Corporation **281 NLRB No. 007**
[U waives right to oppose unilateral change where it is aware of projected change in sufficient time to bargain before change is implemented and fails to request bargaining; U must prosecute its right, not merely protest the change or file ULP charge]

Handy Spot, Inc. **279 NLRB No. 177**
[E's failure to bargain with U over effects of its decision to subcontract its delivery routes in metropolitan area to independent contractors resulting in layoff or termination of its Ees unlawful notwithstanding E's contention that U waived its right to bargain, where E never advised U of sale of any of E's routes until well after sales had taken place]

EPI Corporation d/b/a Rockford Manor Intermediate Care Facility **279 NLRB No. 170**
[U waived its interest in bargaining with respect to carrier induced changes in health benefit plan, notwithstanding parties did not specifically address issue of mid-term adjustment in health program during their contract deliberations where it was clear that they negotiated complete agreement, and it was also clear that parties desired to commit unresolved issues to management prerogatives as they existed upon entry of agreement]

Ventura County Star-Free Press **279 NLRB No. 064**
[unilaterally withholding step increases from eligible Ees not unlawful where U failed to timely demand bargaining and merely protested]

BASF Wyandotte Corporation **278 NLRB No. 028**
[unilateral implementation of respirator seal rule that had effect of prohibiting wearing of facial hair by Ees whose jobs necessitated their wearing respiratory protective equipment, not violation where U waived right to bargain over rule by agreeing to management rights clause allowing E to make and enforce rules deemed necessary or proper for conduct of Ees and operation of plant]

American Stores Packing Company, A Division of Acme Markets, Inc. **277 NLRB No. 190**
[refusal to provide U with information requested for bargaining about E's decision to close plant and subcontract unit work, not violative where U had waived right to bargain over such decision; U also had no right to requested information for bargaining about new contract or about effects of decision to close plant because once E had decided to close plant and lay off all unit Ees, E had no further duty to bargain about new contract and U never stated that it was requesting information for effects bargaining]

Suffolk Child Development Center, Inc. **277 NLRB No. 158**
(no waiver of right to bargain over change in health insurance plan by U's failing to object to prior changes or agreeing to contract which did not set out plan's specifics, where Ee handbook did, to management rights clause, which did not mention it, or to zipper clause, which was not intended to *wipe slate clean*)

Clinchfield Coal Company **275 NLRB No. 189**
(contractual language not clear and unmistakable waiver of U's right to request information where language concerning grievance procedure spoke of complaints filed by Ees, not U; mine committee's duties were confined to adjusting disputes arising out of contract that E and Ees, not U, had failed to adjust; and where *full-disclosure* provision obligated parties to disclose facts and contractual provisions relied on after grievance was filed but did not mention situations where, as here, a party sought to police the contract and obtain information to determine if a violation had occurred)

Georgia Pacific Corporation **275 NLRB No. 017**
(no waiver of U's right to bargain regarding change in shift schedules by management rights clause which provided E retained right *to manage-plant and direct working forces, including right to hire, suspend, discharge, promote, or transfer Ees, providing that such power vested in company shall not be used in violation of terms of this agreement*, since change in shift schedule conflicted with work week provision of agreement, and potentially with overtime provision that was based on seniority)

Continental Telephone Company of California **274 NLRB No. 210**
(E's unilaterally instituting new *Positive Discipline* program to deal with Ees' infractionsof its rules, including attendance rules, not violative where U *waived its right* to bargain concerning such policy through management-

rights clause in parties' contract; neither U nor its representatives contested E's right to issue unilaterally new rules nor did they request bargaining)

Continental Telephone Company of California — 274 NLRB No. 210
(any claimed waiver of right to bargain concerning mandatory subjects of bargaining must be based upon evidence that is clear and unmistakable)

Kohler Company — 273 NLRB No. 195
(E's proposal to transfer unit work to another of E's plants if acceptable wage rates were not negotiated, not unlawful threat to remove unit work, as alleged, where by agreeing to broad management rights clause in contract U had waived its right to bargain over such unilateral removal)

The Setterlin Company — JD-56-86
[U's failure to demand negotiations after receiving notice of E's intent to implement unilateral changes after impasse constituted waiver of right]

Roadway Express, Inc. — JD-(SF)-78-85
(U did not clearly and unmistakably waive its presumptive statutory right to receive photocopies of supervisory reports relevant to processing grievances; contract reference to U's right to *examine* was not unmistakable indication that U consciously intended to relinquish rights to obtain photocopies of them)

My Buddy Products, A Division of S&T Industries, Inc. — JD-114-85
(U did not waive right to bargain over Ee health insurance contributions notwithstanding E raised issue during negotiations for new contract, since after some discussion, no agreement reached. W/o insisting upon express reservation to take such action and w/o zipper clause in contract, it would appear E conceded it had no right to take unilateral action. No waiver can be found unless issue was fully discussed, conscientiously explored and conscientiously yielded by U during negotiations)

Embossing Printers, Inc. — JD-19-85
(E's duty to bargain over helath insurance changes (non-contributory to contributory), suspended, where U explicitly rejected opportunity to seek bargaining over changes after receiving adequate notice that changes contemplated (6 months) and also waited 11 months to either request bargaining or protest changes)

Automobile Workers, Local 449 v. N.L.R.B. (National Lock Corp., et al.) — 802 F.2d 949 (C.A. 7, Oct. 1986)
[ct held Bd improperly found that E did not unlawfully refuse to bargain over relocation of operations because U waived its statutory right to bargain over move, since Bd incorrectly assumed that contractual relocation provision supplanted statutory right to bargain over relocation decision based at least in part on labor costs; Bd omitted mention of traditionally stringent test for waiver of statutory right, and disregarded evidence pertinent to construing wording of applicable contract provision; and Bd failed to consider parol evidence rule and evidence favoring its own position]

Local 512, Warehouse and Office Workers' Union, Ladies Garment Workers v. N.L.R.B. — 795 F.2d 705 (C.A. 9, July 1986)
[E's failure to bargain regarding layoffs, unlawful; contentions that U had waived right to bargain regarding layoffs where it received notice of impending layoffs from other sources but did not request bargaining, and that layoffs did not constitute unilateral change as in accordance with past practice, rejected, since U's information received prior to actual layoffs was conjecture and formal notice required, and E's layoff policy was ad hoc and highly discretionary]

Southwestern Steel & Supply, Inc. v. N.L.R.B. — 806 F.2d 111 (C.A. D.C., Dec. 1986)>119[U did not waive right to bargain over payments to welfare plan and pension trust after expiration of bargaining agreement by provision in payment agreement between E and fund trustees prescribing how and when revocation was permissible between E and trustees, since provision was no more than right of E to terminate agreement w/ trustees subject to obligati on to give timely notice. That qualified right to terminate can be construed as coming into play after E has complied with duty to bargain. Such provision not clear and unmistakable waiver especially where U not party to document containing alleged waiver]

Kobell v. Thorsen Tool Co. — F.Supp.———(DC M.D. PA, Dec. 1982)
[bargaining agreement provision that laid off Ees would have right of preferential hiring if E moved any or all work at specified plant did not constitute clear and unequivocal waiver of U's right to object to E's unilateral relocation of unit work]

Kobell v. Thorsen Tool Co. — F.Supp.———(DC M.D. PA, Dec. 1982)
[management rights clause that stated *company retains sole right to manage its business including but not limited to right to decide on method and place of manufacturing* did not constitute waiver by U of right to bargain regarding transfer of work, and preclude finding of reasonable cause to believe Act violated and issuance of Section 10(j) inj when E unilaterally decided to transfer work since clause might not be interpreted as waiver by Bd, where clause does not specifically reserve to E right to move part of operation to another facility in order to avoid high labor costs imposed by agreement]

8736 WAIVER IMPAIRING EMPLOYEES' RIGHTS TO CHOOSE GRIEVANCE REPRESENTATIVE

Union Carbide Corporation, Nuclear Division — 275 NLRB No. 037
(E's contention that U waived right to be present at adjustment of grievances by *ad hoc* committee formed to review problems in a section of E's plant because E told U official that committee was being formed to look into the general situation, rejected, where E did not tell U that committee would include unit Ees or that committee would interview unit Ees and E did not offer U opportunity to participate on committee; U cannot be said to have received actual notice of committee's planned membership or operations)

Local 1384, Auto Workers v. N.L.R.B. — 756 F.2d 482 (C.A. 7, Feb. 1985)
(contention that U has waived Ee rights Bd seeks to vindicate under *Gulton* rule restricting U officers' superseniority to that necessary for on-the-job contract administration, rejected; Bd is protecting, not Ees' economic right, but their right to be free of discrimination that encourages U activism, and U cannot waive it through bargaining, since its purpose is to protect Ees from U conduct that benefits U at expense of Ees' Sec. 7 rights, and waiver would impair Ees' choice of U by enabling incumbent to encourage Ees' support through lure of employment benefits tied to U positions)

8737 RIGHT TO SOLICIT OR DISTRIBUTE

Local Union 1395, Electrical Workers v. N.L.R.B. (Indianapolis Power & Light Co.) — 797 F.2d 1027 (C.A. D.C., Aug. 1986)
[while U may bargain away its members' economic rights, it may not surrender rights that impair Ees' choice of their bargaining representative; thus, right to solicit support for or against bargaining representative is non-waivable]

Pattern Makers' League of North America, AFL-CIO v. N.L.R.B. ——U.S.—— (U.S. SCT, June 1985)

8743 STRIKERS' RIGHTS

Pattern Makers' League of North America, AFL-CIO v. N.L.R.B. ——U.S.—— (U.S. SCT, June 1985)

[members of U who resigned during strike in violation of U's constitution did not waive their Sec. 7 right to abandon strike by participating in strike vote]

Government Employees (Office Employees, Local No. 2) 278 NLRB No. 055

[U did not waive striking Ees' rights to be reimbursed for unlawfully withheld annual leave benefits by raising issue in final phase of negotiations and then signing contract w/o any provision covering *lost* leave, where E gave no consideration to U's proposal that annual leave be restored]

Reichhold Chemicals, Inc. 277 NLRB No. 073

(E's seeking waiver of Ees' right to engage in ULP strikes, as part of no-strike clause, and right to seek redress from Bd or other tribunal for discipline imposed under clause on replaced strikers, not unlawful, since Act does not prohibit Us from waiving Ees' right to strike over ULPs; and proposed waiver of replaced strikers right to Bd's processes, absent other evidence, read as permitting only non-discriminatory application, and does not extend to appeals to Bd on other matters; since this waiver merely derivative of waiver of right to strike a mandatory subject of bargaining, it too is mandatory, thus E could insist to impasse on dual waiver)

Alpha Beta Company 273 NLRB No. 194

(deferral to grievance settlement agreement over issue of discharge of sympathy strikers, appropriate, where proceedings fair and regular, all parties agreed to be bound, including Ees, and though themselves not involved in negotiations, Ees authorized Us to accept settlement on their behalf knowing it contained no backpay, settlement not *palpably wrong* under law, particularly since it resulted from negotiations, U could waive Ees statutory rights here, and result not repugnant to Act notwithstanding Ees authorized acceptance of settlement solely because they wished to pursue backpay issue before Bd)

Local Union 1392, Electrical Workers v. N.L.R.B. (Indiana & Michigan Electric Co.) 786 F.2d 733 (C.A. 6, Mar. 1986)

[where E imposing more severe disciplinary suspensions on U stewards for violating no-strike provision, not unlawful where contractual language showed U intent for its officials to attempt to prevent unauthorized work stoppages, and this language constituted *clear and unmistakable waiver* of officials right to be free from selective discipline]

8753 UNION'S FAILURE TO OBJECT TO E'S PAST UNILATERAL CHANGES NOT WAIVER AS TO PRESENT CHANGES

Continental Telephone Company of California 274 NLRB No. 210

(E's unilaterally instituting new *Positive Discipline* program to deal with Ees' infractionsof its rules, including attendance rules, not violative where U *waived its right* to bargain concerning such policy through management-rights clause in parties' contract; neither U nor its representatives contested E's right to issue unilaterally new rules nor did they request bargaining)

Kobell v. Thorsen Tool Co. ——F.Supp.—— (DC M.D. PA, Dec. 1982)

[E's past failure to object to transfer of work did not constitute waiver of right to bargain regarding transfer of work where prior transfer of work did not results in layoffs or terminations]

8770 PROTEST NOT ENOUGH WITHOUT REQUEST FOR BARGAINING

Ventura County Star-Free Press 279 NLRB No. 064

[unilaterally withholding step increases from eligible Ees not unlawful where U failed to timely demand bargaining and merely protested]

My Buddy Products, A Division of S&T Industries, Inc. JD-114-85

(U did not waive right to bargain over Ee health insurance contributions when U, when presented with notice of increase, grieved, and E's response to grievance was that E could not afford increased premiums and had to pass them on to Ees; thus, U presented with fait accompli rendering demand for bargaining futile gesture)

8775 CONTRACT WAIVER OF RIGHTS TO BARGAIN CONCERNING MATTERS NOT COVERED

Challenge-Cook Brothers of Ohio, Inc. 282 NLRB No. 002

[management rights clause, authorizing E to relocate work from one plant to another at will, held not waiver of U's right to bargain about consequences resulting from such work transfer; while management rights clause conferred upon E exclusive decision-making authority regarding relocation of unit work, contract was silent over consequences of such decision; and contract's broad management rights clause, in absence of specific waiver language, did not waive U's right to bargain over effects of E's relocation decision]

Suffolk Child Development Center, Inc. 277 NLRB No. 158

(no waiver of right to bargain over health insurance plan by contract's lack of specificity about it where specifics were set out in Ee handbook)

My Buddy Products, A Division of S&T Industries, Inc. JD-114-85

(U did not waive right to bargain over Ee health insurance contributions notwithstanding E raised issue during negotiations for new contract, since after some discussion, no agreement reached. W/o insisting upon express reservation to take such action and w/o zipper clause in contract, it would appear E conceded it had no right to take unilateral action. No waiver can be found unless issue was fully discussed, conscientiously explored and conscientiously yielded U during negotiations)

International Molders and Allied Workers Union, Local No. 164 v. N.L.R.B. 765 F.2d 888 (C.A. 9, July 1985)

(blanket no-strike clause held waiver of right to strike during both arbitration proceeding and judicial review of arbitration decision, since no-strike clause presumed coterminous with arbitration process, and judicial review is part of final and binding arbitration process; contention waiver not clear and unmistakable, as required by Bd rule, as no evidence parties contemplated question of whether no-strike clause would apply to pending judicial review of arbitration award, thus clause applies only to contingencies individually identified previously as being w/i its coverage, rejected)

Electrical Workers Local 1466 v. N.L.R.B. (Columbus and Southern Ohio Electric Co.) 795 F.2d 150

[no unilateral change in wages and no requirement that E must bargain when E discontinued its past practice of 40 years of paying Christmas bonus where contract contained zipper clause that stated... contract...*shall be the sole source of all rights or claims which may be asserted in arbitration hereunder or otherwise*.... and contract silent as to Christmas bonus]

8780 RIGHT TO REPRESENT UNIT EMPLOYEES

Arizona Portland Cement Company, A Division of California Portland Cement Company, A Division of Calmat 281 NLRB No. 030

[right of international U's representative to attend grievance step 2 meeting not waived where U expressly stated that its participation in grievance procedure after E's implementation of its last proposal following impasse was w/o prejudice to its rights, parties' last contract contained oblique reference to international U's representative but was not waiver of his right to be present at step 2, U's language during negotiations about grievance procedure was silent as to representative's right, and E's implementation of last offer did not constitute waiver of rights by U]

American Television & Communications Corporation d/b/a Austin Cablevision 279 NLRB No. 075

[certified unit of cablevision clericals, renamed customer service representatives, clarified to find no historical or contractual exclusion of salesclerks or waiver of right to represent them by failing to secure inclusion in contract, where E created and staffed position during strike w/o informing U, U treated them as members by enrolling discussing work-related problems with, and filing grievances on behalf of them, U did not agree to split clerical unit or acquiesce in E's position that they were excluded throught neglect or inaction, and they shared community of interest with unit Ees]

8787 RIGHT TO ASSISTANCE OF UNION REPRESENTATIVE AT INVESTIGATORY INTERVIEW

Prudential Insurance Company of America 275 NLRB No. 030

(although *Weingarten* right is triggered only by Ee's request and although that Ee alone may have an immediate stake in outcome of interview, U's duty of fair representation allows for flexibility in collective bargaining negotiations and *Weingarten* right, like right to strike, is subject to being waived by U)

Prudential Insurance Company of America 275 NLRB No. 030

(contract provision which provides tnat neither U nor its members shall interfere with E's right *to interview any Ee with respect to any phase of his work without the grievance committee being present*, held waiver of unit Ees' *Weingarten* rights, notwithstanding arguments that clause predated S.Ct's *Weingarten* decision and referred to grievance committee rather than a representative, and that U had sought removal of clause from contract; if clause did not waive *Weingarten* rights, then it would have no meaning at all)

8799 CONTRACTUAL PROVISIONS

Ne Di Construction Co., Inc. 279 NLRB No. 071
[no waiver by U of its right to receive notice of E's termination of agreement to be bound by master contract where, upon receipt of E's letter *tendering notice of union cancellation*, U immediately sought explanation, consistently and forcefully resisted E's apparent attempt to withdraw recognition, and resisted E's announcement of unilateral changes by demanding immediate compliance with master contract]

BASF Wyandotte Corporation 278 NLRB No. 028
[unilateral implementation of respirator seal rule that had effect of prohibiting wearing of facial hair by Ees whose jobs necessitated their wearing respiratory protective equipment, not violation where U waived right to bargain over rule by agreeing to management rights clause allowing E to make and enforce rules deemed necessary or proper for conduct of Ees and operation of plant]

National Metalcrafters, Inc. and National Lock Corp. and Keystone Consolidated Industries, Inc. 276 NLRB No. 014
(U, by contract language, waived its right to bargain over department relocation decision)

Teledyne Wisconsin Motor, A Division of Teledyne Industries, Inc. 275 NLRB No. 076

Tulsa Typographical Union No. 403 (Pennwell Printing Company) 274 NLRB No. 201
(E's 8(b)(1)(B) right to have its shift foreman, who were Sec 2(11) supervisors and handled Ee grievances, free from U coercion by attempting to enforce U security clause against them, not waived by cont ract clause permitting U membership of supervisors and foreman)

General Tire & Rubber Company 274 NLRB No. 083
(E's unilaterally ceasing payments for supplemental agreement benefits for unit Ees 90 days after expiration of supplemental agreement, violative, notwithstanding provision in agreement that benefits shall be provided for 90 days following termination of agreement, where nowhere in contract provision is there mention of what is to occur to benefits after 90 days have expired; thus, there was no clear and unmistakable waiver of right to bargain over supplemental benefits after 90-day period)

N.L.R.B. v. General Tire and Rubber Company 795 F.2d 585 (C.A. 6, July 1986)
[in case involving issue of waiver of U's right to bargain over E's unilateral termination of contractual benefits, ct held waiver of collective bargaining right may only be established by *clear and unmistakable* evidence that party intentionally yielded its right; equivocal, ambiguous language in bargaining agreement is insufficient to demonstrate waiver]

N.L.R.B. v. General Tire and Rubber Company 795 F.2d 585 (C.A. 6, July 1986)
[E's unilateral discontinuance of benefits, following expiration of 90-day period after contract's termination during which benefits were to be continued, unlawful, where contract was silent on treatment of benefits after 90-day period, and neither contractual language nor prior conduct of parties demonstrated *clear and unmistakable* intent to waive U's right to bargain over payment of benefits]

N.L.R.B. v. General Tire and Rubber Company 795 F.2d 585 (C.A. 6, July 1986)
[E's unilateral discontinuance of benefits, unlawful, notwithstanding E's contention that U waived its right to bargain over benefits by failing to demand bargaining on issue following E's announcement of its intent to terminate benefits, where E did not raise waiver issue until it moved for reconsideration by Bd, which Bd properly denied since E improperly attempted to rely on new theory and on asserted facts not in stipulation entered into by parties]

N.L.R.B. v. Local 1131, Local 1161, Auto Workers 777 F.2d 1131 (C.A. 6, Dec. 1985)
[contention that Ees' right to be free of U officials' superseniority's burden on their seniority rights contained in superseniority clause is economic right subject to waiver, rejected, since it is not related to right to engage in concerted activity for economic advantage, but right to be free of discrimination that encourages U membership]

Electrical Workers, Local 387 v. N.L.R.B. (Arizona Public Service Co.) 788 F.2d 1412 (C.A. 9, May 1986)
[whether contract waives Ees' right to strike turns upon the proper interpretation of particular contract. It must be read as a whole and in light of the law relating to it when made. Other relevant considerations include bargaining history, context in which contract was negotiated, interpretation of contract by the parties, and conduct of the parties bearing upon its meaning]

N.L.R.B. v. Niagara Machine & Tool Works and Local 508, Automobile Workers 746 F.2d 143 (C.A. 2, Oct. 1984)

6075-6700—Cont.

unsettled area of law, (3) extent to which party against whom new rule is applied relied on former rule, (4) degree of burden which retroactive order imposes on party, and (5) statutory interest in applying new rule despite party's reliance on old rule)

N.L.R.B. v. Niagara Machine & Tool Works and Local 508, Automobile Workers 746 F.2d 143 (C.A. 2, Oct. 1984)

(Bd properly retroactively applied its *Gulton* decision setting forth new rule pertaining to superseniority, where instant case was not of first impression nor abrupt departure from well established practice and, instead, resolved uncertainty created by Bd's earlier decisions; there was no reliance by parties on old rule and given uncertainty created by following cases, reliance thereon would have been calculated risk, and so there was nothing to oppose *statutory interest* in applying new rule; nor was it shown retroactive order will work inordinate hardship upon them)

N.L.R.B. v. Affiliated Midwest Hospital, Inc., d/b/a Riveredge Hospital 789 F.2d 524 (C.A. 7, Apr. 1986)

N.L.R.B. v. Ensign Electric Division of Harvey Hubbell, Inc., and Steelworkers, Local 5925 (Center on National Labor Policy, Inc.) 767 F.2d 1100 (C.A. 4, July 1985)

(retroactive application of change in Bd law making application of superseniority in layoff of recording secretary and treasurer unlawful, found not unjust, since law was not settled and change therein not suprising as shown by number of cases with vocal dissents in which question was debated)

N.L.R.B. v. Affiliated Midwest Hospital, Inc., d/b/a Riveredge Hospital 789 F.2d 524 (C.A. 7, Apr. 1986)

[retroactive application of *Midland National Life Insurance Co.*, 263 NLRB 127, which held misrepresentations including those regarding Bd actions do not of themselves require setting aside of elections, not improper herein; nor was case deemed w/i *Masey Manufacturing Co. v. NLRB*, 701 F.2d 601, exception to *Midland* since did not involve changed rule on appeal following agency decision based on former policy, but rather policy change declared in *Midland* prior to NLRB's decision in this case and expansion of rule in present case, nor did E rely detrimentally on prior law

6075-6775 Where old rule not relied on by parties

N.L.R.B. v. Affiliated Midwest Hospital, Inc., d/b/a Riveredge Hospital 789 F.2d 524 (C.A. 7, Apr. 1986)

6097 ANCILLARY COURT LITIGATION

Allbritton Communications Co., The News Printing Co., Inc. and The Hudson Dispatch v. N.L.R.B. 766 F.2d 812 (C.A. 3, July 1985)

(E's contention that collateral estoppel precluded Bd from making findings different than that of district ct as to E-Ee relationship in prior Sec. 301 action involving same parties, rejected, since prior 301 action was improperly removed from state ct to district ct because district ct had no original jurisdiction and therefore any *findings* made by district ct are w/o collateral estoppel effect)

United States v. Stauffer Chemical Co. ———U.S.——— (U.S. S.Ct, Jan. 1984)

[doctrine of mutual defensive collateral estoppel is applicable against the United States Government to preclude relitigation of the same issue already litigated against the same party in another case involving virtually identical facts]

United States v. Stauffer Chemical Co. ———U.S.——— (U.S. S.Ct, Jan. 1984)

[EPA was collaterally estopped from relitigating issues in Sixth Circuit which had been previously decided by Tenth Circuit in cases involving the same parties, same facts and same legal issue since doctrine of mutual defensive collateral estoppel applies to preclude relitigation of issue conclusively determined in a prior action]

United States v. Mendoza ———U.S.——— (U.S. S.Ct, Jan. 1984)

[*offensive use of collateral estoppel occurs when a plaintiff seeks to foreclose a defendant from relitigating an issue the defendant has previously litigated unsuccessfully in another action against the same or a different party. Defensive use of collateral estoppel occurs when a defendant seeks to prevent a plaintiff from relitigating an issue the plaintiff has previously litigated unsuccessfully in another action against the same or a different party*]

United States v. Mendoza ———U.S.——— (U.S. S.Ct, Jan. 1984)

[nonmutual offensive collateral estoppel does not apply against U.S. government in such a way as to preclude relitigation of issues previously decided adversely to the government where prior case involved different parties but same legal issues; U.S. government is not the same as a private litigant both because of the geographic breadth of government litigation and most importantly, because of the nature of the issues the government litigates, frequently involving legal questions of substantial public importance]

Kawasaki Motors Corporation, U.S.A. 282 NLRB No. 028

[GC amendment to backpay specification allowed since E's objection was untimely, not having been made before ALJ]

Arizona Portland Cement Company, A Division of California Portland Cement Company, A Division of Calmat 281 NLRB No. 030

[U not estopped from objecting to exclusion of international representative from step 2 grievance discussion because it had used grievance and arbitration proceedings available under E's last proposal implemented following impasse; E's argument that it had reasonably fixed requirement that only plant level representatives of local were entitled to represent Ees at step 2, rejected]

Carpenters, Local 743, et al. (Longs Drug Stores, Inc.) 278 NLRB No. 063

[in finding E not in construction industry w/i meaning of first proviso to 8(e), ALJ rejected Us' contention that E, having entered into agreement to hire only U contractors, should be estopped from contesting its status as E in construction industry, particularly since U's in reliance upon E's contractual commitments over years, furnished carpenters to E through their various hiring halls; such contention was unavailing particularly since there was no showing that contracts were entered with mutual understanding that E would act as its own general contractor or would hire only U general contractors]

Carpenters Local 470, and Tacoma District Council of Carpenters (Tacoma Boatbuilding Company) 277 NLRB No. 020

(U was estopped to deny receipt of members' letters reducing U membership obligation to financial core where U consistently refused to accept communications from Ees crossing picket line by refusing to accept hand-delivered letters or letters sent by regular or certified mail)

James Nederlander d/b/a Ned West, Inc., d/b/a Pacific Amphitheatre 276 NLRB No. 089

(E's estoppel contention that Ee should be precluded from pursuing ULP charges alleging unlawfulness of E's contract with U because Ee had asked U negotiator to get certain concessions in contract, rejected where at the time E had already recognized U and verbal agreement had been reached; under the circumstances, Ee was presented with a *fait accompli* situation; he subsequently showed he did not want U to negotiate on his behalf; and in any event, public rights set forth in Act as distinguished from private rights must prevail)

Monarch Building Supply 276 NLRB No. 016

(E's objection to election that U had chosen a supervisor as an election observor overruled, since E had waived the objection and was estopped from raising the issue for the first time in postelection objections by its failure to comment or protest when U announced at the preelection conference that it would use as an observor an individual whom it considered a supervisor)

The May Department Stores Company JD-(SF)-13-85

(U was estopped from denying that Ee, found herein to be an agent of U, had committed acts of misconduct where Ee's misconduct was subject of prior ULP hearing brought to contest her discharge and ALJ in prior case, found that Ee had in fact engaged in misconduct which was sufficient to deny her the protection of the Act; fully litigated findings in prior case which were *pro forma* adopted by the Bd, constitute *final determinations*, and are therefore binding)

Truck Drivers Local Union No. 807, Teamsters v. N.L.R.B. (Wells Fargo Armored Service Corp.) 755 F.2d 5 (C.A. 2, Feb. 1985)

(contention that, after E had voluntarily recognized local U representing guards and nonguards, including E's guards, E's contract with local had expired, and local had rejected E's final offer, E was precluded from withdrawing recognition from said local, rejected; statutory policy considerations override theory that E is estopped, since local U here is uncertifiable, and recognition after expiration of contract must be voluntary in view of Sec 9(b)(3))

Plumbers, Local No. 198 v. N.L.R.B. 747 F.2d 326 (C.A. 5, Nov. 1985)

(U's contention that it was denied due process due to lack of reasonable notice of an identifiable or recognizable group of alleged discriminatees for whom redress was sought, rejected, where C alleged broad discrimination in hiring hall operations generally, not just as to named parties; also, Bd's relegating determination of discriminatees to compliance stage let U contest individual awards and compliance procedures, whereas, if finding of general discrimination were established but redress given only named individuals, collateral estoppel might bar U from relitigating discrimination issue as to unnamed members of the class)

0500 JURISDICTION

N.L.R.B. v. Edward Cooper Painting, Inc., and Cooper & Cooper Painting, an alter ego 804 F.2d 934 (C.A. 6, Nov. 1986)

[circuit ct, and not bankruptcy ct, has jurisdiction to determine whether automatic stay of judicial proceedings under 362(a)(1) of Bankruptcy Act applies to Bd enforcement proceedings, since applicability of automatic stay to ULP proceeding is issue of law w/i competency of ct as recognized by ct decisions, and E's reliance on this ct's prior decision, assertedly contrary to ct's holding herein, was misplaced]

0501 GENERALLY

Lone Star Steel Company v. N.L.R.B. 766 F.2d 1459 (C.A. 10, July 1985)

[ct held it has jurisdiction to consider E's supplemental ptn for review and application for enlargement of mandate in case in which Bd issued supplemental c/d order against respondent U deleting reference to *or any other E*; notwithstanding U's contention that ct is w/o jurisdiction because E did not ptn Bd for rehearing or reconsideration after Bd issued its supplemental order, where E satisfied 10(e) requirement by filing with Bd memorandum in opposition to U's mtn for clarification of Bd's supplemental order which raised issues now before ct]

0550-0100 Generally

Lone Star Steel Company v. N.L.R.B. 766 F.2d 1459 (C.A. 10, July 1985)

[ct held it has jurisdiction to consider E's supplemental ptn for review and application for enlargement of mandate in case in which Bd issued supplemental c/d order against respondent U deleting reference to *or any other E*; ct rejected Bd's contention of lack of jurisdiction on grounds Bd's *future intentions* are not reviewable final orders under 10(f), and that no case or controversy exists with respect to such future intentions]

0550-3300 Not final orders

0550-3337 Direction of election, certification, *unit clarification,* etc.

Lemon Drop Inn, Inc. v. N.L.R.B. 752 F.2d 323 (C.A. 8, Jan. 1985)

(notwithstanding nineteen month procedural dealy in case and workforce changes, Bd's provision of ULP remedies, Bd's continuation of R case not inappropriate where order provided that if Ee's disputed ballot is opened and U receives majority, U will be certified; but if U does not receive majority, results will be set aside and new election held; such a conditional order is not ripe for review as final order)

N.L.R.B. v. Carson Cable TV; et al. 795 F.2d 879 (C.A. 9, July 1986)

[while election certification does not constitute appealable final order ct here had jurisdiction to review single E and appropriateness of unit issues, where E refused to bargain in order to obtain review of those issues through appeal from bargaining order following ULP proceedings and properly preserved its objection to designation of unit]

0550-3375 Refusal to issue complaint

Worcester Steel Erectors v. N.L.R.B. ———F.2d——— (C.A. 1, Jan. 1986)

0550-3379 Withdrawal of complaint before hearing

Miles T. Jackman v. N.L.R.B. 784 F.2d 759 (C.A. 6, Mar. 1986)

[dismissal of C found nonreviewable discretionary prosecutorial act of GC rather than *final order* of Bd, since Sec. 3(d) vested GC with final authority to issue and prosecure Cs, and informal settlements of Cs, unlike formal settlements, do not require approval of Bd as well as GC and are not Bd *final orders*]

Miles T. Jackman v. N.L.R.B. 784 F.2d 759 (C.A. 6, Mar. 1986)

[ptn for review of GC's withdrawal of C and entry into informal settlement, denied, since ct lacked jurisdiction to do so where Sec. 3(d) vests GC with final authority to issue and prosecute Cs, which is unreviewable and must include power to drop C incapable of successful prosecution, and Bd regulations allowing informal settlements, which do not require Bd approval and are not Bd *final orders*, are reasonable and not in conflict with purposes of Act or congressional intent; also settlements are *lifeblood of the administrative process*, and GC's unreviewable power to negotiate them a desirable objective of the Act]

0550-6700 Final orders

0550-6750 Order dismissing complaint

Miles T. Jackman v. N.L.R.B. 784 F.2d 759 (C.A. 6, Mar. 1986)

2380-5000 Party not 'aggrieved' by favorable order

Great Southern Construction, Inc. v. N.L.R.B. F.2d (C.A. 10, Jan. 1986)

[ptn for review dismissed where petitioner was not aggrieved by Bd's order dismissing all portions of C relating to bargaining agreement to which petitioner was a party; moreover, petitioner at no time objected or asserted that bargaining agreement which it now challenges was illegal or otherwise invalid and ct, therefore, lacks jurisdiction to consider any objection that has not been presented to Bd]

N.L.R.B. v. Harvstone Manufacturing Corp., Duray Fluorescent Manufacturing Co., American Fluorescent Corp. and House-O-Lite Corp. 785 F.2d 570 (C.A. 7, Mar. 1986)

[Es' contention that U was not properly before ct, relying on 10(f) which provides that only those persons *aggrieved by final order of Bd... may obtain review of such order,* and since U received all relief it sought, it was not *aggrieved* party, and should not be allowed to intervene, rejected; E's failed to distinguish between right to *ptn* for review and right to *intervene* in proceeding; 10(f) governs only right to ptn ct for review and accordingly U was proper party]

N.L.R.B. v. Searle Auto Glass, Inc., d/b/a Best Glass Company 762 F.2d 769 (C.A. 9, June 1985)

N.L.R.B. v. Searle Auto Glass, Inc., d/b/a Best Glass Company 762 F.2d 769 (C.A. 9, June 1985)

(enforcement of Bd's order, which issued 22 months ago, not barred by doctrine of laches, where Bd's original ptn for enforcement was voluntarily dismissed w/o prejudice pending S.Ct's disposition of two cases relevant to this action and Bd filed ptn herein 5 months after S.Ct's decision, and Bd, by its delay, did not gain any advantage and respondent suffered no prejudice)

N.L.R.B. v. Atlas Microfilming, Division of Sertafilm, Inc. 753 F.2d 313 (C.A. 3, Jan. 1985)

(E's mtn for remand to Bd, concerning issue of E moving its facility and Ee turnover, denied, since ct found that there were no reasonable grounds for E's failure to apprise Bd of its *additional evidence* as required for remand. E offered no excuse for waiting almost 5 months, after all briefs were filed, to move for remand when E knew it was moving even before Bd issued its bargaining order. Delay in filing briefs was abuse of ct's and Bd's processes)

5900 SCOPE OF JUDICIAL REVIEW

5901 GENERALLY

N.L.R.B. v. Indianapolis Mack Sales and Service, Inc. 802 F.2d 280 (C.A. 7, Sept. 1986)

[where Bd offered ct several *post hoc* explanations for its decision and that of ALJ, ct noted that these arguments made after initial decision and in support of application for enforcement were inherently suspect and did not merit cts consideration; administrative agency's decisions cannot be sustained on ground appearing in record to which agency made no reference; to contrary, Bd's decision stands or falls on its express findings and reasoning]

N.L.R.B. v. Local 139, Operating Engineers 796 F.2d 985 (C.A. 7, July 1986)

[Congress narrowed ct review of Bd decisions by conferring on Bd authority to implement and interpret Act; ct must sustain Bd's position so long as its explication of a rule is not *inadequate, irrational, or arbitrary*, but ct must not make its review so deferential as to become mere *rubber stamp* of Bd's decisions]

Salt River Valley Water Users' Association v. N.L.R.B. 769 F.2d 639 (C.A. 9, Aug. 1985)

(ct adopted *deferential* standard of review-giving *great weight* to decision of Bd--rather than *plenary* standard of review in case involving question of providing relevant information to process grievance where *privacy* defense raised)

Janet Eichelberger v. N.L.R.B. 765 F.2d 851 (C.A. 9, July 1985)

[ct must uphold Bd if it correctly applied law and its findings are supported by substantial evidence on record as a whole, even though ct might reach different conclusion based on same evidence]

Glaziers Local Union 558 v. N.L.R.B. 787 F.2d 1406 (C.A. 10, Mar. 1986)

[reviewing ct may reverse decision of the Bd when it cannot concientiously find that evidence supporting that decision is substantial, when viewed in the light that the record in its entirety furnishes, including the body of evidence opposed to Bd's view]

Iron Workers, Local No. 111 v. N.L.R.B. 792 F.2d 241 (C.A. D.C., June 1986)

[in finding that Bd failed to meet APA requirement that agency's decision include its reasons or basis for its conclusions, ct held case herein was not one where legal issue raised is not substantial, e.g., there is no apparent conflict in earlier cases or reasons for departure therefrom are clear so that issue would not be *material* w/i meaning of APA, or failure to address it would come w/i meaning of APA's exemption of harmless error]

5901-5000 Reviewable *final* agency action

Local 512, Warehouse and Office Workers' Union, Ladies Garment Workers v. N.L.R.B. 795 F.2d 705 (C.A. 9, July 1986)

[Bd's contention that judicial review of its remedial order premature and that issue of backpay rights should await litigation of those rights in Bd compliance hearing, rejected, since application of doctrine of administrative exhaustion not appropriate where issue is underlying legal basis for remedial order rather than factual issues which relate to details of remedy such as amount of backpay]

5901-6700 Enforcement mandatory where Board has acted properly

The Lawson Company v. N.L.R.B. 753 F.2d (C.A. 6, Jan. 1985)

(harsh language (of ALJ) of itself does not establish prejudice. Ct does not, in instant case, approve such statements; ct took evidence adduced at open public hearing where both sides were given equal opportunity to present whatever evidence they felt appropriate; given above facts, there is substantial evidence to uphold decision of Bd)

N.L.R.B. v. Ironworkers Local Union No. 505, a/w Ironworkers 794 F.2d 1474 (C.A. 9, July 1986)

[Bd is entitled to enforcement of its order if it correctly applied the law and its findings are supported by substantial evidence in the record as a whole; ct accords considerable deference to Bd's interpretation and application of Act and will affirm its reasonable conclusions even though they may differ from those of ct]

5901-8300 Where Board overturns prior line of cases

N.L.R.B. v. Niagara Machine & Tool Works and Local 508, Automobile Workers 746 F.2d 143 (C.A. 2, Oct. 1984)

(however ct might have decided superseniority matter at issue herein, Bd's formulation of new superseniority rule in its *Gulton* decision, after reconsidering *Limpco* line of cases was reasonable in allowing superseniority for layoff purposes only if U officials needed to be present at workplace; Bd is entitled to change its mind, so long as new general standard is applicable to all litigants)

N.L.R.B. v. Niagara Machine & Tool Works and Local 508, Automobile Workers 746 F.2d 143 (C.A. 2, Oct. 1984)

(whether to give effect to new agency adjudicated rule while balancing rule's desireability against possible unfairness to litigant, ct has considered: (1) whether case is of first impression, (2) whether new rule is abrupt departure from well established practice or merely attempts to fill void in unsettled area of law, (3) extent to which party against whom new rule is applied relied on former rule, (4) degree of burden which retroactive order imposes on party, and (5) statutory interest in applying new rule despite party's reliance on old rule)

N.L.R.B. v. Affiliated Midwest Hospital, Inc., d/b/a Riveredge Hospital 789 F.2d 524 (C.A. 7, Apr. 1986)

[*generally, decision which changes existing law or policy is given retroactive effect unless retroactive application would cause manifest injustice. This ct has looked at three factors in deciding under what circumstances nonconstitutional decision will be given prospective effect only: reliance of parties on pre-existing law; effect of retroactivity on accomplishing purposes of law; and any injustice arising from retroactive application*]

Local 1384, Auto Workers v. N.L.R.B. 756 F.2d 482 (C.A. 7, Feb. 1985)

(ct cannot upset Bd's *Gulton* rule restricting superseniority of U officers to those necessary for contract administration on the job where Bd determina-

tion is not irrational or contrary to the Act; further Bd's previous decisions do not bind it in later proceedings with same force as doctrine of stare decisis binds cts and Bd is free to change its mind on matters of law w/i its competence to determine, provided its gives a reasoned analysis in support of the change)

Local Union 1395, Electrical Workers v. N.L.R.B. (Indianapolis Power & Light Co.) 797 F.2d 1027 (C.A. D.C., Aug. 1986)

[in reviewing Bd's orders, cts customarily defer to Bd's exercise of its *special function of applying the general principles of industrial life*; and such deference is not withheld simply because Bd has departed from a prior policy]

Kenneth P. Prill v. N.L.R.B. 755 F.2d 941 (C.A.D.C., Feb. 1984)

(it is not responsibility of cts to second-guess lawful judgments of Bd which has been granted broad authority to construe Act in light of its expertise and, in appropriate circumstances, Bd may even elect to abandon or modify established precedent; however, judicial deference is not accorded Bd decision when it acts pursuant to erroneous view of law and, as a consequence, fails to exercise discretion delegated to it by Congress)

Kenneth P. Prill v. N.L.R.B. 755 F.2d 941 (C.A.D.C., Feb. 1984)

(since Bd is entrusted with responsibility to adapt Act to changing patterns of industrial life, Bd's reasonable construction of Act is entitled to considerable deference; as stated by S.Ct in *Chenery Corp.* 318 U.S. 80, 95, agency decision cannot be sustained, however, where based not on agency's own judgment but on erroneous view of law, and process of reveiw requires that grounds upon which agency acted be clearly disclosed and adequately stated)

Kenneth P. Prill v. N.L.R.B. 755 F.2d 941 (C.A.D.C., Feb. 1984)

]*Myers Industries* 268 NLRB 493, in which Bd enunciated new restrictive definition of *concerted activities* and overruled *Alleluia Cushion* remanded to Bd for reconsideration since Bd's decision, which was contrary to S.Ct's intervening *City Disposal* decision, stands on faulty legal premise and w/o adequate rationale where it wrongly concluded that its adoption of narrow test for *concerted activities* was both mandated by Act and was merely return to stand on which Bd and cts relied before *Alleluia* was decided)

Kenneth P. Prill v. N.L.R.B. 755 F.2d 941 (C.A.D.C., Feb. 1984)

(in remanding Bd decision announcing new restrictive test for *concerted activities* for reconsideration because it was contrary to S.Ct's intervening *City Disposal* decision, 104 S.Ct 1505, ct held it could not say Bd's error clearly had no bearing on result reached; some of Bd's and ct's variety of definitions of concerted activities might grant relief to Ee-petitioner herein; moreover, case result often turns both on governing standard and on manner in which it is applied, which may be influenced by whether Bd believes standard is dictated by Act or adopted as policy matter)

5901-8400 Standard of review of Board decision announcing altered interpretation of Act

Westvaco, Virginia, Folding Box Division v. N.L.R.B. 795 F.2d 1171 (C.A. 4, July 1986)

[Bd abused its discretion when it held Ees to be accretion to existing unit, and departed from its existing standard for accretion of *overwhelming community of interests* w/o stating its reasons for change. Record revealed no similarity of working conditions, working area, status of Ees, methods of compensation, or fringe benefits]

Automobile Workers, Local 449 v. N.L.R.B. (National Lock Corp., et al.) 802 F.2d 969 (C.A. 7, Oct. 1986)

[where Bd made no mention of rule that waiver of statutory right must be clear and unmistakable, but there was evidence in Bd's decision that it wanted to abandon or dilute waiver rule, ct held Bd failed to follow rule that administrative agency is not allowed to change direction w/o some explanation; Bd, while not bound by *stare decisis*, can jettison its precedents only if it has adequately explicated basis of its new interpretation; and citation of previous Bd decision did not satisfy duty to explicate]

Production Workers Union of Chicago and Vicinity, Local 707, et al. v. N.L.R.B. (Checker Taxi Co., et al.) 793 F.2d 323 (C.A. D.C., June 1986)

[agency may change its interpretation of statute entrusted to its administration and, when intent of Congress is unclear, cts must uphold agency's interpretation of it if it is based on *reasonable accomodation of conflicting policies*; however, when intent of Congress is clear, ct must give effect to intent of Congress, regardless of agency's opinion]

Kenneth P. Prill v. N.L.R.B. 755 F.2d 941 (C.A.D.C., Feb. 1984)

(in remanding Bd's decision announcing new restrictive test for *concerted activities* for reconsideration because it was contrary to S.Ct's intervening *City Disposal* decision, ct did not find it necessary to consider validity of any test of concerted activity nor express any opinion on such issue but deemed it could not sustain agency decision as *harmless error* where agency failed to exercise its lawful discretion and provided no rational basis for its determination)

5901-9000 Standard of review of Board decisions involving application of Board policy (abuse of discretion)

N.L.R.B. v. Affiliated Midwest Hospital, Inc., d/b/a Riveredge Hospital 789 F.2d 524 (C.A. 7, Apr. 1986)

[*It is well settled that direct judicial review of Bd decision to certify bargaining representation on basis of election is extremely limited. We may assume soundness of election is not business of reviewing ct. Substantial evidence on record as whole standard applied to factual determinations should also apply to application of Bd's election rules to facts of given case. Abuse of discretion* standard applies only to applications of Bd policy and not to application of law to facts]

N.L.R.B. v. Affiliated Midwest Hospital, Inc., d/b/a Riveredge Hospital 789 F.2d 524 (C.A. 7, Apr. 1986)

[E has heavy burden establishing grounds for not enforcing Bd's bargaining order. In order to challenge Bd's policies directly, as opposed to application of these policies, movant must establish Bd's interpretation of law is unreasonable; i.e., E must establish that there is substantial evidence supporting conclusion that *any election irregularities or misconduct so impaired integrity of ballot result that invalidation of election is necessary*]

5907 FINDINGS OF FACT

Local Union 1395, Electrical Workers v. N.L.R.B. (Indianapolis Power & Light Co.) 797 F.2d 1027 (C.A. D.C., Aug. 1986)

[Bd is free to substitute its own view of evidence for that of ALJ, and ct must respect Bd's findings of fact if supported by substantial evidence; but ct may not *presume* that Bd made findings of fact necessary to definable decision where Bd did not explain, or even recognize, any departure from ALJ's view of evidence; accordingly, Bd's decision reversed and case remanded to Bd for further proceedings]

5907-2000 Reviewable as to whether supported by *substantial evidence on the record considered as a whole*

Herrick & Smith v. N.L.R.B. 802 F.2d 565 (C.A. 1, Sept. 1986)

[substantial evidence is more than mere scintilla; it means such relevant evidence as reasonable mind might accept as adequate to support conclusion; it must be enough to justify, if trial were to jury, refusal to direct verdict when conclusion sought to be drawn from it is one of fact for jury; it frees reviewing cts of timeconsuming and difficult task of weighing evidence; it gives proper respect to expertise of administrative tribunal and it helps promote uniform application of statute]

Local 259, Auto Workers v. N.L.R.B. 776 F.2d 23 (C.A. 2, Oct. 1985)

N.L.R.B. v. Dane County Dairy, et al. 795 F.2d 1313 (C.A. 7, July 1986)

N.L.R.B. v. Lancer Corporation 759 F.2d 458 (C.A. 5, May 1985)

(where E essentially attacked Bd's ruling that discharge was unlawful as not founded on substantial evidence by claiming Bd error in its failure to accord weight to ALJ's contrary finding, substituting its own judgment for E's business judgment, and failing to accept ALJ's findings of fact, ct affirmed Bd's finding of anti-U animus as sole motivation for Ee's discharge since substantial evidence supported such finding)

Turnbull Cone Baking Company of Tennessee v. N.L.R.B. 778 F.2d 8 (C.A. 6, Dec. 1985)

[when there is conflict in testimony it is Bd's function to resolve questions of fact and credibility, and thus, ct ordinarily will not disturb credibility evaluations by ALJ who observed witnesses' demeanor]

N.L.R.B.*, 732 F.2d 1288 (6th Cir. 1984), case on which E relied in challenging ALJ's determination]

Commercial Honing of Detroit, Ltd. v. N.L.R.B. 770 F.2d 76 (C.A. 6, Aug. 1985)

(Bd's order enforced notwithstanding E's claim that ALJ made egregiously erroneous credibility findings by crediting testimony of GC's witness and discrediting testimony of E's witness, where there was significant amount of other evidence to support ALJ's findings which Bd adopted; ALJ explained his reasons for his credibility findings; and E's failure to produce witnesses allegedly present when violations occurred permitted damaging testimony by GC's witness to go uncontradicted)

Commercial Honing of Detroit, Ltd. v. N.L.R.B. 770 F.2d 76 (C.A. 6, Aug. 1985)

(in affirming ALJ's credibility findings which were basis for finding violations adopted by Bd, ct held it is required to review case on the record and it may not substitute its judgment for that of Bd on basis of suspicion, conjecture, and theoretical speculation, rather than applying substantial evidence standard of review)

N.L.R.B. v. Del Rey Tortilleria, Inc. 787 F.2d 1118 (C.A. 7, Apr. 1986)

[there is no basis for finding that bias and partiality existed merely because ALJ resolved important factual conflicts in favor of GC's witnesses; nor is there anything inherently arbitrary in believing one side's witnesses and not the other's; and law in instant circuit has been that ct must accept Bd's credibility findings unless party challenging credibility determinations establishes *exceptional circumstances*]

N.L.R.B. v. Del Rey Tortilleria, Inc. 787 F.2d 1118 (C.A. 7, Apr. 1986)

[testimony of GC's Spanish-speaking witnesses held not too untrustworthy to constitute substantial evidence supporting Bd's findings; while ct may disregard ALJ's credibility determinations where found unreasonably self-contradictory or based on inadequate reasoning, such was not case herein where, although testimony of witnesses in Spanish was taken through interpreter, and language barrier complicated hearing process, ALJ very carefully monitored translation process to ensure accurate interpretation]

N.L.R.B. v. Del Rey Tortilleria, Inc. 787 F.2d 1118 (C.A. 7, Apr. 1986)

[ALJ, having opportunity to hear testimony and observe witnesses' demeanor, held best suited to assess credibility and to resolve conflicts in testimony]

[minor conflicts between testimony at hearing and affidavits held substantially overcome by balance of testimony and consideration of language problem arising from fact that most witnesses spoke only Spanish and such language barrier complicated hearing process]

[upon review of decision of Bd, ct gives special weight to credibility determinations made by ALJ, since ALJ is in best position to evaluate which witness is recalling facts most accurately, and reviewing ct cannot conduct de novo review of testimony to make different credibility determinations]

N.L.R.B. v. Searle Auto Glass, Inc., d/b/a Best Glass Company 762 F.2d 769 (C.A. 9, June 1985)

(where evidence is conflicting and Bd's determination rests on credibility choices, ct is bound by Bd's credibility determinations unless they are inherently unreasonable or self-contradictory; and here Bd accepted most of ALJ's factual determinations based on numerous credibility judgments which were neither unreasonable nor contradictory and were supported by adequate reasons)

[reviewing Bd's interpretation and application of Act, ct's primary function is to determine whether Bd's conclusions are rational and whether they are consistent with underlying policies of Act as well as with prior precedent; although Bd's determinations are subject to limited judicial review, this does not mean that they are immunized from judicial scrutiny]

Turnbull Cone Baking Company of Tennessee v. N.L.R.B. 778 F.2d 8 (C.A. 6, Dec. 1985)

[Bd's application of law to particular facts is reviewed under substantial evidence standard, and Bd's reasonable inferences may not be displaced on review even though ct might justifiably have reached different conclusion had matter been before it de novo]

Turnbull Cone Baking Company of Tennessee v. N.L.R.B. 778 F.2d 8 (C.A. 6, Dec. 1985)

[in application of law to particular facts, evidence is considered substantial if it is adequate, in a reasonable mind, to uphold the decision; and ct should consider evidence contrary to Bd's conclusions, but may not conduct de novo review of record; however, if Bd errs in determining proper legal standard, ct may refuse enforcement on ground that order has *no reasonable basis in law*]

(ct held Bd acted w/i its province in returning to flexible all-the-circumstances test which recognizes that E's questioning of Ee's U views is not necessarily coercive and may arise during casual conversation; standard is realistic approach to enforcement of 8(a)(1) and is consistent with Act because Bd and ALJs can determine, on case-by-case basis, whether all facts demonstrate coercive behavior)

Longshoremen's, Local 62-B v. N.L.R.B. 781 F.2d 919 (C.A. D.C., Jan. 1986)

[in reviewing 10(k) orders, as implemented by 8(b)(4)(D) proceedings, ct performs limited inquiry; to extent that Bd decisions reflect conclusions as to factual matters, for which there is *substantial evidence on the record considered as a whole,* ct must defer to Bd's conclusion; to extent that Bd decisions reflect legal conclusion, ct must determine whether decisions were *arbitrary and capricious*]

(upon ct remand ALJ properly applied principles of *Hollywood Ceramics* in assesing impact on election results of U's misstatement of law in pre-election flyer, which Bd subsequently had abandoned as standard in evaluating misrepresentation of fact or law in context of R elections, since present case was initially considered by ct under principles enunciated in *Hollywood Ceramics*)

]*much weight* must be given to ALJ's credibility determinations)

Local 259, Auto Workers v. N.L.R.B. 776 F.2d 23 (C.A. 2, Oct. 1985)

[Congress has instructed *this ct* (C.A. 2) to review decisions of Bd, *not* those of ALJ]

Janet Eichelberger v. N.L.R.B. 765 F.2d 851 (C.A. 9, July 1985)

[ct must not exclude from its consideration evidence contradicting Bd's conclusions, and such standard does not change when Bd disagrees with prior ALJ findings; in that case, latter are simply part of record to be weighed against other evidence supporting Bd]

Glaziers Local Union 558 v. N.L.R.B. 787 F.2d 1406 (C.A. 10, Mar. 1986)

[enforcement of Bd's order should be granted if Bd correctly applied the law and if its findings are supported by substantial evidence on the record as a whole; standard of review is not altered where ALJ and Bd reach contrary conclusions; however, findings of ALJ, whether contrary or supportive of

5914-5000 Experienced judgment of Board entitled to great weight

N.L.R.B. v. Insulfab Plastics, Inc., New England Division 789 F.2d 961 (C.A. 1, Apr. 1986)

[where substantial evidence supported Bd's finding that affiliation of independent U with international did not raise qcr, ct held that, since Congress has entrusted Bd with authority to interpret and implement Act, ct has generally allowed Bd wide latitude to construe its provisions and to determine how best to effectuate Act's policies, especially in areas implicating, as here, agency expertise; and thus such Bd decision should be sustained as long as it is not irrational or inconsistent with Act]

N.L.R.B. v. Preterm, Inc. 784 F.2d 436 (C.A. 1, Feb. 1986)

[whether offer to return to work was conditional or unconditional is question of fact for Bd to determine. Bd's finding deemed *conclusive* if *supported by substantial evidence on the record as a whole*]

(ct respects Bd's special competence and expertise in fashioning remedies)

N.L.R.B. v. Pratt & Whitney Air Craft Division, United Technologies Corporation (Machinist, District 91) 789 F.2d 121 (C.A. 2, Apr. 1986)

[Bd determination may only be vacated when reviewing ct cannot conscientously conclude–after looking at record as whole, including evidence opposed to Bd's view–that evidence supporting Bd's decision is substantial]

Local 259, Auto Workers v. N.L.R.B. 776 F.2d 23 (C.A. 2, Oct. 1985)

[ct's right of review is limited one. *even as to matters not requiring expertise, a ct may [not(displace the Bd's choice between two fairly conflicting views, even though the ct would justifiably have made a different choice had the matter been before it de novo*]

N.L.R.B. v. St. Joseph's Hospital 755 F.2d 260 (C.A. 2, Feb. 1985)

(in good faith bargaining issue, *scope of ct's review is somewhat limited. Although findings of fact shall be conclusive if supported by substantial evidence on the record, what constitutes failure to bargain in good faith is question of mixed law and fact. Where issues are not purely factual, Act does not explicitly direct cts to exercise particular measure of review. Manifestly, however, measure of cts; oversight increases as Bd's determination approaches the purely legal. Nevertheless determining whether party's conduct evidences lack of good faith is elusive inquirey, and ct should not lightly disregard appraisal by NLRB)*

N.L.R.B. v. Niagara Machine & Tool Works and Local 508, Automobile Workers 746 F.2d 143 (C.A. 2, Oct. 1984)

(given Bd's experience, it is ordinarily better equipped than ct to determine what circumstances constitute adequate justification for discrimination inherent in granting of superseniority for layoff purposes to U officials; and ct will defer to Bd's conclusion that particular conduct *adversely affects protected Ee interests*, unless that conclusion is not reasonably defensible)

N.L.R.B. v. Atlas Microfilming, Division of Sertafilm, Inc. 753 F.2d 313 (C.A. 3, Jan. 1985)

(scope of ct review of Bd bargaining order is particularly limited, since Bd, in choosing such remedy draws on fund of knowledge and expertise all its own and its choice of remedy must therefore be given special respect by reviewing cts)

Vokas Provision Co., d/b/a The Rich Plan of Western v. N.L.R.B. 796 F.2d 864 (C.A. 6, July 1986)

[because of Bd's *special competence* in field of labor relations, its interpretation of Act is entitled to substantial deference; nor should ct reject ruling merely because it might prefer another view of statute]

Vokas Provision Co., d/b/a The Rich Plan of Western v. N.L.R.B. 796 F.2d 864 (C.A. 6, July 1986)

[reviewing ct should be particularly hesitant to disturb Bd's conclusions where ultimate problem is balancing of conflicting legitimate interests]

Local Union 1392, Electrical Workers v. N.L.R.B. (Indiana & Michigan Electric Co.) 786 F.2d 733 (C.A. 6, Mar. 1986)

[Bd's interpretation of bargaining agreement is entitled to deference if it is reasonable and consistent with policies of Act]

N.L.R.B. v. Millwrights Local 1102, Carpenters 779 F.2d 349 (C.A. 6, Dec. 1985)

[10(k) defines no standards to guide Bd in resolving jurisdictional disputes and S.Ct has mandated Bd to use its own special expertise and common sense in disposing of similar controversies]

N.L.R.B. v. Chauffeurs, Teamsters, Warehousemen & Helpers Local 525, a/w Teamsters 773 F.2d 921 (C.A. 7, Sep. 1985)

(ct will accord weight to *the Bd's interpretation of the Act and the Bd's application of it in doubtful situations)*

Hospital & Service Employees Union, Local 399, Service Employees v. N.L.R.B. 798 F.2d 1245 (C.A. 9, Aug. 1986)

[Bd's interpretation of Act is entitled to deference and will be upheld if its interpretation is reasonably defensible]

N.L.R.B. v. Carson Cable TV; et al. 795 F.2d 879 (C.A. 9, July 1986)

[in conducting its review, ct will, in light of special expertise of Bd, defer to reasonable derivative inferences drawn by Bd from credited evidence]

General Teamsters Local No. 162 v. N.L.R.B. (Western Pacific Construction Materials Co.) 782 F.2d 839 (C.A. 9, Feb. 1986)

[Bd's interpretation and application of Act is entitled to considerable deference]

Salt River Valley Water Users' Association v. N.L.R.B. 769 F.2d 639 (C.A. 9, Aug. 1985)

(ct adopted *deferential* standard of review-giving *great weight* to decision of Bd–rather than *plenary* standard of review in case involving question of providing relevant information to process grievance where *privacy* defense raised)

George C. Foss Company v. N.L.R.B. 752 F.2d 1407 (C.A. 9, Jan. 1985)

(judicial deference to Bd's expertise in making subtle and complex distinctions between supervisors and Ees is particularly strong)

Glaziers Local Union 558 v. N.L.R.B. 787 F.2d 1486 (C.A. 10, Mar. 1986)

[while considerable deference is due Bd's expertise in weighing Ee interests against legitimate business justifications, balance struck between competing interests is not immune from judicial review and reversal]

Local Union 1395, Electrical Workers v. N.L.R.B. (Indianapolis Power & Light Co.) 797 F.2d 1027 (C.A. D.C., Aug. 1986)

[in reviewing Bd's orders cts customarily defer to Bd's exercise of its *special function of applying the general principles of industrial life*; and such deference is not withheld simply because Bd has departed from a prior policy]

5914-7500 Consideration may be given to fact Board and ALJ reached different results

N.L.R.B. v. Pratt & Whitney Air Craft Division, United Technologies Corporation (Machinist, District 91) 789 F.2d 121 (C.A. 2, Apr. 1986)

[standard for review is not altered because hearing officer and Bd disagree on some findings, but evidence that Bd uses to support conclusion may be less substantial when impartial, experienced examiner who has observed witnesses has drawn conclusions different from Bd's than when he has reached same conclusion]

Local 259, Auto Workers v. N.L.R.B. 776 F.2d 23 (C.A. 2, Oct. 1985)

[Congress has instructed *this ct* (C.A. 2) to review decisions of Bd, *not* those of ALJ]

N.L.R.B. v. Lancer Corporation 759 F.2d 458 (C.A. 5, May 1985)

(although Bd's overall judgment in finding, contrary to ALJ and w/o disturbing his credibility evaluations, discriminatory motive for discharge, which differed from that of ALJ as to proper inferences to be drawn from largely undisputed evidence concerning salient ultimate fact, ct held that on judicial review issue is, nevertheless, whether Bd's determination is supported by substantial record evidence, not whether ALJ's noncredibility inferences might be considered by ct equally as reasonable as Bd's)

John Morrison, et al. (Carriage Ford, Inc.) v. N.L.R.B. 772 F.2d 283 (C.A. 6, Sept. 1985)

[where Bd, contrary to ALJ, found that Ees had voluntarily quit after dispute over working hours and were not unlawfully discharged, Ct held Bd's findings were supported by substantial evidence and it explicated rational basis for disagreement with ALJ]

Automobile Workers, Local 449 v. N.L.R.B. (National Lock Corp., et al.) 802 F.2d 969 (C.A. 7, Oct. 1986)

[where Bd reversed ALJ's decision which contained errors, omissions, and suspect credibility findings, ct held case was not one where strong initial decision opposite to Bd's decision required ct to consider evidentiary and analytical basis of Bd's decision with special care]

N.L.R.B. v. Del Rey Tortilleria, Inc. 787 F.2d 1118 (C.A. 7, Apr. 1986)

[in determining whether there is substantial evidence in support of Bd's position, ct must be satisfied, based on its independent review of record, that result is justified by fair estimate of worth of testimony of witnesses or Bd's informed judgment on matters w/i its special competence]

N.L.R.B. v. Ironworkers Local Union No. 505, a/w Ironworkers 794 F.2d 1474 (C.A. 9, July 1986)

[Bd's disagreement with ALJ's finding of no violation by U in connection with operation of its hiring hall in no way heightened ct's level of its scrutiny, since ALJ's findings were simply part of record to be weighed against other evidence supporting Bd]

Stanley A. Dash, Jr. v. N.L.R.B. (Lawyers Co-Operative Publishing Co.) 793 F.2d 1062 (C.A. 9, July 1986)

[*when Bd and ALJ make contrary findings, we give deference to Bd, but we still consider ALJ's findings, however, and weigh them with other evidence opposing Bd's decision*]

International Guards Union of America, Local 69 v. N.L.R.B. 789 F.2d 1465 (C.A. 10, May 1986)

[standard of review not altered simply because ALJ and Bd have reached contrary conclusions]

Glaziers Local Union 558 v. N.L.R.B. 787 F.2d 1406 (C.A. 10, Mar. 1986)

[enforcement of Bd's order should be granted if Bd correctly applied the law and if its findings are supported by substantial evidence on the record as a whole; standard of review is not altered where ALJ and Bd reach contrary conclusions; however, findings of ALJ, whether contrary or supportive of Bd's determination, are part of record to be fully considered by reviewing ct]

N.L.R.B. v. L & B Cooling, Inc. 757 F.2d 236 (C.A. 10, Mar. 1985)

(ct's standard of review does not change even through Bd disagrees with findings of ALJ)

Food and Commercial Workers, Local 152 v. N.L.R.B. 768 F.2d 1463 (C.A. D.C., July 1985)

5921 MIXED QUESTIONS OF LAW AND FACT

N.L.R.B. v. St. Joseph's Hospital 755 F.2d 260 (C.A. 2, Feb. 1985)

5928 DISCRETION IN EXERCISE OF JURISDICTION

Taylor, Melvin D. v. N.L.R.B. (Ryder Truck Lines, Inc.) 786 F.2d 1516 (C.A. 11, Apr. 1986)

[ct vacated and remanded to Bd its decision which held that GC had not met its burden of affirmatively demonstrating that ULP had not received adequate consideration by arbitration committee; remand required Bd to reconsider its decision in light of ct's disapproval of Bd's standard for deferral under *Olin Corp.*, 268 NLRB 573]

5932 PROTECTED NATURE AND/OR CONCERTEDNESS OF ACTIVITY

Robert T. Ewing, an individual v. N.L.R.B. 768 F.2d 51 (C.A. 2, July 1985)

(in view of S.Ct's *City Disposal* decision stating that Bd is not required to read phrase *concerted activities* according to its dictionary definition, ct declined Bd's and E's requests to apply retroactively Bd's *Meyers* decision, in which it adopted literal definition of *concerted activities*, to instant case in which Bd found that E did not violate 8(a)(1) by failing to recall laid-off Ee, acting as individual, for filing complaint with OSHA)

5935 UNIT DETERMINATIONS

N.L.R.B. v. Action Automotive, Inc. ———U.S.——— (U.S. S.CT, Feb. 1985)

[Bd's discretion in determining appropriate unit under authority vested in it by Sec. 9(b) is broad, reflecting Congress' recognition of need for flexibility in shaping unit to particular case; in defining bargaining units, Bd's focus is on whether Ees share *community of interest;* cohesive unit, which is relatively free of conflicts of interest, serves Act's purpose of collective bargaining and prevents minority interest group from being submerged in overly large unit]

N.L.R.B. v. Action Automotive, Inc. ———U.S.——— (U.S. S.CT, Feb. 1985)

[where Bd found that Ee-relatives should be excluded from unit because their interests were aligned with those of management, ct held Bd's decision to exclude some family members is not inconsistent with fundamental structure or policies of Act; Congress has limited Bd's discretion to define bargaining units as it has done under Sec. 9(c)(5) making extent to which Ees have organized not controlling; but there is no express direction in Act that Bd define units only by reference to job-related benefits to Ee-relatives; and ct is not authorized to bind Bd in ways not mandated by Congress]

5935-0100 Generally

N.L.R.B. v. Action Automotive, Inc. ———U.S——— (U.S. S.CT, Feb. 1985)

[where issue was whether Ee-relatives should be excluded from unit because their interests were aligned with those of management, ct held its review was limited to whether Bd's practice of excluding some close relatives who do not enjoy special job-related benefits has *reasonable basis in law;* in reviewing Bd decisions ct consistently yields to Bd's reasonable interpretations and applications of Act; and Bd's orders defining bargaining units are rarely to be disturbed]

Maccabees Mutual Life Insurance Company v. N.L.R.B. 757 F.2d 767 (C.A. 6, Mar. 1985)

N.L.R.B. v. Indianapolis Mack Sales and Service, Inc. 802 F.2d 280 (C.A. 7, Sept. 1986)

[until Bd expressly modifies or repudiates rule that Ees in dealership's parts and service departments should be in *same* bargaining unit, *unless* there is affirmative showing that there is no substantial community of interest between 2 groups of Ees, Bd is bound by such rule]

N.L.R.B. v. Carson Cable TV; et al. 795 F.2d 879 (C.A. 9, July 1986)

[ct will not overturn Bd's unit designation unless its decision is arbitrary and capricious and, consequently, Bd's decision is rarely disturbed on appeal]

5935-2500 Scope

N.L.R.B. v. Parsons School of Design, A Division of The New School for Social Research 793 F.2d 503 (C.A. 2, June 1986)

[ct found part-time faculty unit appropriate, based on Bd's findings and to avoid further delay, notwithstanding it refused to enforce order that E bargain with U representing part-time faculty, since latter might not have voted for U had they been told that unit of all faculty, for which election was noticed, might be modified after election, pursuant to pre-election grant of request for review, and only part-time faculty's votes, which had been segregated, counted]

N.L.R.B. v. Indianapolis Mack Sales and Service, Inc. 802 F.2d 280 (C.A. 7, Sept. 1986)

[Bd's conclusion regarding community of interest of Ees providing for segregation of parts and service department Ees was not supported by record where ALJ did not receive evidence about E's parts department that would permit ruling on parts department Ees and Bd refused to reopen record]

N.L.R.B. v. L & B Cooling, Inc. 757 F.2d 236 (C.A. 10, Mar. 1985)

(Bd's conclusion that *extras* hired by E engaged in lettuce cooling business in prior growing season were not included in bargaining unit, is supported by substantial evidence in record even if E shows that another unit might be more appropriate)

5935-5000 Supervisory status of employee

George C. Foss Company v. N.L.R.B. 752 F.2d 1407 (C.A. 9, Jan. 1985)

(judicial deference to Bd's expertise in making subtle and complex distinctions between supervisors and Ees is particularly strong)

5935-8700 Managerial status

5935-8700—Cont.

N.L.R.B. v. Action Automotive, Inc. ——U.S.—— (U.S. S.CT, Feb. 1985)

[Bd considers variety of factors in deciding whether Ee's familial ties are sufficient to align his interests with management and thus warrant his exclusion from unit; for instance, Ee who resides with or is financially dependent on relative who owns or manages business is typically excluded; and the greater the family involvement in ownership or management, the more likely Ee-relative will be viewed as aligned with management and hence excluded]

N.L.R.B. v. Action Automotive, Inc. ——U.S.—— (U.S. S.CT, Feb. 1985)

[in deciding whether Ee's familial ties are sufficient to align his interests with management and thus warrant his exclusion, Bd is always concerned with whether Ee receives special job-related benefits such as high wages or favorable working conditions; when other criteria satisfy Bd that Ee-relative's interests are aligned with management, however, he may be excluded even though he enjoys no special job-related benefits]

N.L.R.B. v. Action Automotive, Inc. ——U.S.—— (U.S. S.CT, Feb. 1985)

[where issue was whether Ee-relatives should be excluded from unit because their interests were aligned with those of management, ct held its review was limited to whether Bd's practice of excluding some close relatives who do not enjoy special job-related benefits has *reasonable basis in law*; in reviewing Bd decisions ct consistently yields to Bd's reasonable interpretations and applications of Act; and Bd's orders defining bargaining units are rarely to be disturbed]

N.L.R.B. v. Action Automotive, Inc. ——U.S.—— (U.S. S.CT, Feb. 1985)

[where Bd found that Ee-relatives should be excluded from unit because their interests were aligned with those of management, ct held it does not make labor policy under Sec. 9(b) which vested that authority in Bd whose extensive experience in administration of Act is brought to bear on question of unit determinations; ct does not require mathematical precision and is not prepared to second-guess Bd's informed judgment that unit's community of interest may be diluted by circumstances other than job-related benefits granted to Ee-relatives of management]

5942 CONDUCT OF ELECTIONS AND CERTIFICATION OF UNIONS

5942-0100 Generally

N.L.R.B. v. Parsons School of Design, A Division of The New School for Social Research 793 F.2d 503 (C.A. 2, June 1986)

[case remanded to Bd to conduct election in part-time faculty unit, notwithstanding Bd's post election modification from all-faculty to part-time faculty unit reduced scope only 10 percent, and only part-time faculty votes were counted, since election was close, and part-time faculty might have voted differently had they known of modification in unit's scope and character for fear of insufficient strength, desire for representation of unified workforce only, and intention to rely on full-time faculty for significant amount of U work]

N.L.R.B. v. Engineers Constructors, Inc. 756 F.2d 464 (C.A. 6, Mar. 1985)

(Bd determinations whether and when election should be held are reviewable for abuse of discretion)

United Retail Workers Union Local 881 v. N.L.R.B. (May Department Stores Company, Venture Stores Division) 774 F.2d 782 (C.A. 7, Oct. 1985)

[in holding that Bd's conclusion that merger election is not solely internal U affair was rational, consistent with Act, and not arbitrary, ct sustained Bd's determination that all unit members must vote before it will sanction results of merger election]

N.L.R.B. v. Monark Boat Company 800 F.2d 191 (C.A. 8, Aug. 1986)

[on review of Bd's certification determination, standard is whether Bd reasonably exercised wide degree of discretion vested in it by Congress regarding representation matters]

N.L.R.B. v. Best Products Co., Inc. 765 F.2d 903 (C.A. 9, July 1985)

(control of election proceeding and determination of steps necessary to conduct that election are matters which Congress entrusted to Bd alone)

N.L.R.B. v. Best Products Co., Inc. 765 F.2d 903 (C.A. 9, July 1985)

(NLRB has wide discretion to determine R matters and questions arising during election proceedings, and reasoned interpretations of an act by agency charged with administering it are entitled to deference)

5942-3000 Mechanics of election

N.L.R.B. v. Tom Wood Datsun, Inc., and Tom Wood Subaru, Inc. 767 F.2d 350 (C.A. 7, July 1985)

(direct judicial review of Bd decision to certify representative on basis of election is extremely imited. This requisite deference extends to Bd's selection of rules and policies to govern elections and its application of these rules. Soundness of election rule is not the business of reviewing ct because source of Bd's authority to issue such rules are 2 statutory provisions lacking specific standards which authorize Bd to conduct representation elections)

N.L.R.B. v. L & B Cooling, Inc. 757 F.2d 236 (C.A. 10, Mar. 1985)

(majority status (of Ee bargaining representative) can be established by means other than NLRB-conducted election such as *informal-election* in instant case where with E present and consent, Ees secretly marked ballot *yes* or *no* and put ballot in hat)

5942-4000 Counting of ballots

Smith and Smith Aircraft Company v. N.L.R.B. ——F.2d—— (C.A. 10, May 1984)

[ballots of eligible voters must be counted notwithstanding names inadvertenly left off *Norris-Thermador* list where names were included in Excelsior list, U knew of omission more than 3 weeks before election, and objected to their inclusion on Excelsior list as mistake discovered in sufficient time and right to vote is important right]

5942-8000 Rulings on objections

N.L.R.B. v. Rhone-Poulenc, Inc. 789 F.2d 188 (C.A. 3, Apr. 1986)

[*Rules with respect to filing objection to election conduct and mentod of investigating them, are all Bd made rules.. Bd has discretion to interpret those rules as requiring strict compliance. NLRA confers on Bd. not on cts. responsibility for supervising choice of bargaining representative*]

Kusan Manufacturing Company, a division of Kusan, Inc. v. N.L.R.B. 749 F.2d 362 (C.A. 6, Dec. 1984)

(delay of 3-1/2 years between conduct of election and hearing held on E's objection, not prejudicial, as E presented no evidence to support claim of prejudice; furthermore, in every instance that U prevails in election, economic burden caused by any delay is borne by U and its Ees, not E)

N.L.R.B. v. Browning-Ferris Industries of Louisville, Inc. 803 F.2d 345 (C.A. 7, Oct. 1986)

[*Our review of Bd's decision to certify collective bargaining representative following election is extremely limited. We will defer to Bd's selection of rules and policies to govern particular election so long as those rules are reasonable*]

Wright Memorial Hospital v. N.L.R.B. 771 F.2d 400 (C.A. 8, Aug. 1985)

(contention that cummulative effect of pro-U activities of supervisors together with other activities required that election be overturned, rejected, since inferences drawn from facts by Bd were reasonable)

Bauer Welding and Metal Fabricators, Inc. v. N.L.R.B. 758 F.2d 308 (C.A. 8, Mar. 1985)

(although deploring U's prominent use of pre-election flyer containing misstatement of law and Bd document that easily could be understood as supporting misstatement, ct held that, since its role as reviewing ct was not to say what it would have decided had it been Bd, and since Bd's conclusions that flyer did not warrant setting aside election had support in record and reasonable basis in law, ct was constrained not to disturb them)

N.L.R.B. v. Island Film Processing Co., Inc., d/b/a Kahala Kai Photo Service 784 F.2d 1446 (C.A. 9, Mar. 1986)

[ct's standard for judging supervisory pro-U conduct that requires election to be set aside is whether solicitation contains *seeds for potential reprisal, punishment, or intimidation*]

N.L.R.B. v. Best Products Co., Inc. 765 F.2d 903 (C.A. 9, July 1985)

(ct deferred to Bd's decision to affect change in policy regarding misrepresentations in Bd elections, since there was *reasonable basis in law* for Bd's change)

N.L.R.B. v. Hudson Oxygen Therapy Sales Company 764 F.2d 729 (C.A. 9, June 1985)

(E's contention that Bd's rule prohibiting electioneering only after polls open is irrational, rejected since Bd, by announcing per se rules which establish categories of permitted and prohibited conduct, provides predictability for participants in election; rule permits voting to take place in atmosphere permitting sober reflection and calm deliberation)

5942-9000 Orders in representation proceedings

§942-9000—Cont.

N.L.R.B. v. Mississippi Power & Light Company 769 F.2d 276 (C.A. 5, July 1985)

(contract bar rule is reviewable for consistency with Act and for rationality, and if it satisfies those criteria, Bd's application of rule, if supported by substantial evidence, must be enforced)

§944 DETERMINATIONS AS TO EFFECTS OF ULPS ON REPRESENTATION ELECTIONS

N.L.R.B. v. Horizon Air Services, Inc. 761 F.2d 22 (C.A. 1, Apr. 1985)

(bargaining order, rather than election, is most salutary response by Bd where record exhibited occurrence of serious coercive practices, reasonably likely to have severe and lasting effects -threats of plant closure star chamber interrogation tactics, written admonitions, withholding of overtime, loss of employment, grant of benefits, reassignment and discharge- even in absence of direct proof of probability of recurrence)

N.L.R.B. v. Horizon Air Services, Inc. 761 F.2d 22 (C.A. 1, Apr. 1985)

(concerning precondition to bargaining order)

N.L.R.B. v. Horizon Air Services, Inc. 761 F.2d 22 (C.A. 1, Apr. 1985)

(ct respects Bd's special competence and expertise in fashioning remedies)

N.L.R.B. v. Hawaiian Flour Mill, Inc. 792 F.2d 1459 (C.A. 9, June 1986)

[Bd has broad discretion to establish safeguards and procedures necessary to conduct R elections]

§949 JURISDICTIONAL DISPUTE DETERMINATIONS

N.L.R.B. v. Longshoremen's, etc., Local 333 (Ruhert Terminals Corporation, etc.) 764 F.2d 234 (C.A. 4, June 1985)

(ct found no basis for U's contention that Es should be considered joint E of crane operators, since one E did not exercise any control over Ees of other E operating crane and operations of the Es were not functionally integrated)

Operating Engineers, Local 150 v. N.L.R.B. 755 F.2d 78 (C.A. 7, Jan. 1985)

(Bd's determination of work jurisdiction of two competing local U claimants pursuant to Section 10(k) of Act *enforced* where neither U claimant's agreement with E concerning work jurisdiction is giving way to the other)

Longshoremen's, Local 62-B v. N.L.R.B. 781 F.2d 919 (C.A. D.C., Jan. 1986)

[in reviewing 10(k) orders, as implemented by 8(b)(4)(D) proceedings, ct performs limited inquiry; to extent that Bd decisions reflect conclusions as to factual matters, for which there is *substantial evidence on the record considered as a whole*, ct must defer to Bd's conclusion; to extent that Bd decisions reflect legal conclusion, ct must determine whether decisions were *arbitrary and capricious*]

Longshoremen's, Local 62-B v. N.L.R.B. 781 F.2d 919 (C.A. D.C., Jan. 1986)

[essence of dispute in 8(b)(4)(D) and 10(k) sense is existence of dispute between 2 or more groups of Ees over which is entitled to do certain work for E and, in most instances, dispute is of so little interest to E that he is willing to assign work to either Ee group; consequently characteristics of problem that 8(b)(4)(D) and 10(k) aim to solve are that, first, E faces jurisdictional dispute that is not of his own making and, two, dispute is between 2 Ee groups]

§953 SECONDARY BOYCOTT DETERMINATIONS

Hospital & Service Employees Union, Local 399 v. N.L.R.B. ———F.2d——— (C.A. 9, Oct. 1984)

[where Bd found U's handbilling and newspaper ads directed at secondary E coercive because U thereby imposed economic pressure against secondary E designed to inflict economic injury, ct declined to review coercion issue since parties did not produce, and Bd did not require, evidence regarding economic pressure; Bd's cursory treatment and resulting ambiguity made it difficult to surmise whether handbilling and ads fit w/i S.Ct's definition of *coercion* as that which encourages consumer boycott of secondary E or that which threatens neutral parties with ruin or substantial loss]

Hospital & Service Employees Union, Local 399 v. N.L.R.B. ———F.2d——— (C.A. 9, Oct. 1984)

[ct declined to examine First Amendment issue as to U's handbills and newspaper ads directed at secondary E; ct must first address preliminary issue of coercion, resolution of which must await Bd's clarification of issue on remand; constitutional issues here are novel and complex, involving use of handbilling; constitutionality of restriction on handbills is more suspect than restraint on picketing which involves elements of conduct as well as communication of ideas; and application of 8(b)(4) to facts herein may infringe on other constitutional guarantees, freedom of press and freedom of association]

Florida Gulf Coast Building and Construction Trades Council v. N.L.R.B. 796 F.2d 1328 (C.A. 11, Aug. 1986)

[handbilling is protected by First Amendment even when designed to pressure others to act, but government has interest in certain forms of economic regulations, e.g. secondary boycotts and picketing, notwithstanding effects on rights of speech and association, as part of Congress' striking delicate balance between U's freedom of expression and neutral Es', Ees', and consumers' freedom from coerced participation in industrial strife]

Production Workers Union of Chicago and Vicinity, Local 707, et al. v. N.L.R.B. (Checker Taxi Co., et al.) 793 F.2d 323 (C.A. D.C., June 1986)

[where Bd erroneously found U unlawfully picketed general contractors on behalf of independent contractors for better leasing agreement terms, ct held Bd's definition of *secondary* was erroneous even under relatively deferential standard that agency's interpretation of statute need only be *permissible construction* that reflects *reasonable accomodation of law's conflicting policies;* such standard requires ct to determine whether agency's interpretation is arguably consistent with statutory scheme and whether issue is adequately reasoned]

§956 REMEDIAL ORDER PROVISIONS

Sure-Tan, Inc., et al. v. N.L.R.B. ———U.S.——— (US S.CT, June 1984)

[circuit ct's decision ordering Bd to provide minimum backpay for constructively discharged illegal alien Ees w/o regard to their actual losses or legal availability for work after they had left the country rather than be deported reversed, since ct order imposing minimum back pay award which was speculative in absence of evidence of Ees' individual circumstances exceeded unit ct's reviewing authority and compelled Bd to take action not w/i Bd's powers; case remanded to circuit ct with instructions to remand it to Bd for formulation of remedial order consistent with this opn]

Sure-Tan, Inc., et al. v. N.L.R.B. ———U.S.——— (US S.CT, June 1984)

[circuit ct decision modifying Bd's order to require that reinstatement offers to constructively discharged illegal alien Ees who had left the country rather than be deported be drafted in Spanish and their receipt be verified, reversed, since modification requirement exceeded ct's limited authority of judicial review; appropriate course was to remand case for reconsideration to Bd with its broad powers to fashion remedies to effectuate national labor policy and superior expertise and long experience in doing so; case remanded to ct for remand to Bd for formulation of remedial order consistent with this opn]

N.L.R.B. v. Horizon Air Services, Inc. 761 F.2d 22 (C.A. 1, Apr. 1985)

(ct respects Bd's special competence and expertise in fashioning remedies)

Vitek Electronics, Inc. v. N.L.R.B. 763 F.2d 561 (C.A. 3, June 1985)

(fact that E closed down plant and bargaining unit no longer exists did not render bargaining order moot or futile even through bargaining order did not order *effects* bargaining since it did order E to bargain concerning rates of pay, wages, hours and other terms and conditions of employment and S.Ct held in *First National Maintenance*, 452 U.S. 666, that this language mandates bargaining over effects of plant closing)

N.L.R.B. v. Atlas Microfilming, Division of Sertafilm, Inc. 753 F.2d 313 (C.A. 3, Jan. 1985)

(scope of ct review of Bd bargaining order is particularly limited, since Bd, in choosing such remedy draws on fund of knowledge and expertise all its own and its choice of remedy must therefore be given special respect by reviewing cts)

N.L.R.B. v. Atlas Microfilming, Division of Sertafilm, Inc. 753 F.2d 313 (C.A. 3, Jan. 1985)

(ct's *narrow scope of review* of Bd's R/Os exceeded if ct required Bd to independently articulate its reasons for imposing a bargaining order. S.Ct admonished lower cts to allow agencies to fashion their own rules of procedure)

N.L.R.B. v. Atlas Microfilming, Division of Sertafilm, Inc. 753 F.2d 313 (C.A. 3, Jan. 1985)

(requirement of a reasoned analysis setting forth factors justifying imposition of bargaining order was meant neither to burden Bd nor to limit issuance of bargaining orders whenever necessary. Sufficient for Bd to provide extensive list giving rise to recommendation that bargaining order be issued)

5956—Cont.

N.L.R.B. v. Seligman and Associates, Inc., and Its Wholly Owned Division, Scott Management Company **808 F.2d 1155 (C.A. 6, Dec. 1986)**

[Bd Order enforced that required E to reimburse providers of medical treatment for discriminatee even though those charges might now be subject to statute of limitations defense--discriminatee never paid providers--as Order is consistent with S.Ct's holding that *make whole* remedial power of Bd is *broad discretionary one subject to limited judicial review*]

N.L.R.B. v. Master Slack and/or Master Trousers Corp., et al. **773 F.2d 77 (C.A. 6, Sep. 1985)**

(Bd's discretion to fashion appropriate remedies for violations of Act is quite broad and its choice of remedies should be set aside only if it can be shown that order is patent attempt to achieve ends other than those which can be fairly said to effectuate policies of Act)

The Lawson Company v. N.L.R.B. **753 F.2d (C.A. 6, Jan. 1985)**

(Bd's disestablishment order enforced only with respect to stores of E which U has sought to organize and in which GC has challenged validity of E's Sales Assistant Committee)

N.L.R.B. v. Local 139, Operating Engineers **796 F.2d 985 (C.A. 7, July 1986)**

[Bd has broad authority to fashion appropriate remedial orders, and unless Bd's order is patent attempt to achieve ends other than those which can fairly be said to effectuate policies of Act, ct will not disturb Bd's award]

Food & Commercial Workers, Local No. 304A v. N.L.R.B. **772 F.2d 421 (C.A. 8, Aug. 1985)**

(Bd possesses broad discretion to fashion appropriate remedies once ULP is established, and authority of ct of appeals to review remedial provisions of Bd's order is limited)

Local 512, Warehouse and Office Workers' Union, Ladies Garment Workers v. N.L.R.B. **795 F.2d 705 (C.A. 9, July 1986)**

[*NLRB has broad discretion in fashioning remedies that will effectuate policies of Act. Ct will defer to NLRB's broad authority to construe NLRA unless NLRB's decision is irrational or inconsistent with Act. However, we must not allow our deference to NLRB to slip into judicial inertia which results in unauthorized assumption of major policy decisions properly made by Congress*]

General Teamsters Local No. 162 v. N.L.R.B. (Western Pacific Construction Materials Co.) **782 F.2d 839 (C.A. 9, Feb. 1986)**

[scope of review of Bd's remedial orders is narrower and Bd's choice of remedies will not be disturbed on review in absence of clear abuse of discretion]

N.L.R.B. v. Jack E. Hartman, a Sole Proprietorship, d/b/a Dependable Tile Company **774 F.2d 1376 (C.A. 9, Oct. 1985)**

[ct held Bd abused its discretion by ordering E to comply with bargaining agreement rectroactively to date E unlawfully refused to sign agreement, rather than from date agreement became effective, since Bd has traditionally granted relief in similar cases retroactive to inception of contract, and absent explanation for doing so Bd cannot impose different remedies; further, if make whole relief for whole period of contract not ordered then status quo not restored]

N.L.R.B. v. L & B Cooling, Inc. **757 F.2d 236 (C.A. 10, Mar. 1985)**

(----*bargaining rights conferred upon U are limited to its representation of production unit at Center,* since Bd order identifies L & B (the E) as *L & B Cooling, Inc.*, Center, Colorado and directs posting of remedial notice only at E's cooling facility in Colorado)

Food and Commercial Workers, Local 152 v. N.L.R.B. **768 F.2d 1463 (C.A. D.C., July 1985)**

(ct, remanded to Bd to fashion remedy although agreeing ALJ's recommended remedy would provide more effective relief than that of Bd, since any enlargement of remedial order should not be undertaken unilaterally by cts, but undertaken by Bd on remand)

5963 BACKPAY DETERMINATIONS

N.L.R.B. v. Ironworkers, Local 480 **———U.S.——— (U.S. S.CT, May 1984)**

[ct of appeals' decision modifying Bd's backpay order by limiting class of Ees to whom backpay may be awarded and prohibiting Bd from amending its backpay specification permitted by Bd regulations, reversed and remanded, since ct of appeals may not refuse to enforce backpay order merely because of Bd's delay subsequent to that order in formulating backpay specification; *Rutter-Rex* principles remain applicable, and by restricting beneficiaries of Bd's order for determining amount of backpay, ct of appeals' order punishes Ees for Bd's nonfeasance, which is forbidden by *Rutter-Rex*]

N.L.R.B. v. Ironworkers, Local 480 **———U.S.——— (U.S. S.CT, May 1984)**

[in reversing and remanding ct of appeals' decision modifying Bd's backpay order by limiting class of Ees to whom backpay may be awarded and prohibiting Bd from amending its backpay specification, ct did not consider whether ct of appeals may modify its original order enforcing Bd's order on grounds that Bd's long delay in formulating backpay specification demonstrated futility of identifying discriminatees and in performing claculations required by Bd's backpay formula, and that Bd's order was *punitive* and *confiscatory*; nor did ct foreclose challenges that might be raised in supplemental backpay proceedings]

N.L.R.B. v. Sumco Manufacturing Co., Inc., and Summit Grinding Company **746 F.2d 1189 (C.A. 6, Nov. 1984)**

[enforcement of Bd order determining amount of backpay due 16 named discriminatees granted where Respondent, while denying appropriateness of backpay formula and computation, presented no alternative formula or figures. Argument advanced by Respondent appears to reargue ULP case which had previously been finally decided against companies concerned]

San Francisco Web Pressmen and Platemakers' Union No. 4 v. N.L.R.B. (Michael Tenorio and Gil Fowler) **794 F.2d 420 (C.A. 9, July 1986)**

[Bd has broad discretion in fashioning backpay remedy, and remedy should stand unless it is attempt to achieve ends not w/i policies of NLRA]

5970 INTERPRETATION OF STATUTES

Robert T. Ewing, an individual v. N.L.R.B. **768 F.2d 51 (C.A. 2, July 1985)**

(in reversing and remanding to Bd because of Bd's mistaken view that it was required to interpret *concerted activities* literally because mandated by Act, ct recognized that administrative agency is not disqualified from changing its mind; and when it does, cts still sit in review of administrative decision and should not approach statutory construction issue *de novo* and w/o regard to administrative understanding of statutes; hence, ct expressed no view on what is correct interpretation of *concerted activities* as applied to instant case involving Ee's layoff for complaining to OSHA)

Hospital & Service Employees Union, Local 399 v. N.L.R.B. **743 F.2d 1417 (C.A. 9, Oct. 1984)**

[if Bd's construction of statute is reasonably defensible, it should not be rejected because ct might prefer another view of the statute]

5970-5000 NLRA

Allis-Chalmers Corp. v. Lueck **———U.S.——— (U.S. S.CT, Apr. 1985)**

[Sec. 301 (of NLRA) does not grant parties to collective-bargaining agreement ability to contract for what is illegal under state law; questions of contract interpretation, therefore underlie any finding of tort liability, regardless that state ct may choose to define tort as *independent* of any contract question; Congress has mandated that *federal law govern meaning given contract terms* in order to have unified federal body of labor-contract law]

Truck Drivers Local Union No. 807, Teamsters v. N.L.R.B. (Wells Fargo Armored Service Corp.) **755 F.2d 5 (C.A. 2, Feb. 1985)**

(Sec. 10(f) provides limited review of Bd decisions, and Bd's interpretation should be disturbed only if fundamentally inconsistent with structure of NLRA and attempt to usurp major policy decisions properly made by Congress; Bd's interpretation of Sec. 9(b)(3) found reasonable)

N.L.R.B. v. Niagara Machine & Tool Works and Local 508, Automobile Workers **746 F.2d 143 (C.A. 2, Oct. 1984)**

(under its quite narrow standard of review, ct must enforce Bd's construction of Act if it is reasonably defensible, even it ct might prefer a different interpretation; Bd's order should be reversed only if it has no reasonable basis in law, is fundamentally inconsistent with structure of Act, or moves into new area of regulation which Congress had not committed to it)

United Retail Workers Union Local 881 v. N.L.R.B. (May Department Stores Company, Venture Stores Division) **774 F.2d 752 (C.A. 7, Oct. 1985)**

[Act confers upon Bd authority to implement and interpret Act and as long as Bd's explication of rule is not inadequate, irrational or arbitrary, ct must sustain Bd's position]

United Retail Workers Union Local 881 v. N.L.R.B. (May Department Stores Company, Venture Stores Division) **774 F.2d 752 (C.A. 7, Oct. 1985)**

[in holding that Bd's conclusion that merger election is not solely internal U affair was rational, consistent with Act, and not arbitrary, ct sustained Bd's

5970-5000—Cont.

determination that all unit members must vote before it will sanction results of merger election]

N.L.R.B. v. Chauffeurs, Teamsters, Warehousemen & Helpers Local 525, a/w Teamsters — 773 F.2d 921 (C.A. 7, Sep. 1985)

(ct will accord weight to *the Bd's interpretation of the Act and the Bd's application of it in doubtful situations)*

Operating Engineers, Local 150 v. N.L.R.B. — 755 F.2d 78 (C.A. 7, Jan. 1985)

(judicial review of agency action is quite limited. Bd's interpretation of the NLRA will be upheld as long as it has *a reasonable basis in law*)

Veronica Lewis v. N.L.R.B. — 800 F.2d 818 (C.A. 8, Sept. 1986)

[Ct reviews Bd decisions under abuse of discretion standard and yields to Bd's reasonable interpretations and applications of Act]

N.L.R.B. v. Electrical Workers Local Union #46 — 793 F.2d 1026 (C.A. 9, July 1986)

[Bd's interpretation of Act is entitled to ct deference, and ct will uphold it if it is reasonably defensible; however, ct will not rubber-stamp administrative decisions it deems inconsistent with statutory mandate or that frustrates Congressional policy underlying statute]

Florida Gulf Coast Building and Construction Trades Council v. N.L.R.B. — 796 F.2d 1328 (C.A. 11, Aug. 1986)

[federal statutes are to be construed to avoid doubt of their constitutionality, and, if statutory interpretations proposed by Bd would give rise to serious constitutional questions, the *affirmative intention of Congress clearly expressed must first be identified*]

5977 INTERPRETATION OF ADMINISTRATIVE REGULATIONS

N.L.R.B. v. Rhone-Poulenc, Inc. — 789 F.2d 188 (C.A. 3, Apr. 1986)

[*Rules with respect to filing objection to election conduct and mentod of investigating them, are all Bd made rules.. Bd has discretion to interpret those rules as requiring strict compliance. NLRA confers on Bd, not on cts, responsibility for supervising choice of bargaining representative*]

N.L.R.B. v. Dane County Dairy, et al. — 795 F.2d 1313 (C.A. 7, July 1986)

[in light of Congress' authorization of Bd to make such rules as may be necessary to carry out provisions of Act, and Bd's power to construe its own rules free from judicial review unless its construction is so arbitrary as to defeat justice, ct held that Bd's determination of what constitutes *good cause* excusing failure to file timely answer must be upheld unless its construction of good cause standard is so arbitrary as to defeat justice]

N.L.R.B. v. Tom Wood Datsun, Inc., and Tom Wood Subaru, Inc. — 767 F.2d 350 (C.A. 7, July 1985)

(direct judicial review of Bd decision to certify representative on basis of election is extremely imited. This requisite deference extends to Bd's selection of rules and policies to govern elections and its application of these rules. Soundness of election rule is not the business of reviewing ct because source of Bd's authority to issue such rules are 2 statutory provisions lacking specific standards which authorize Bd to conduct representation elections)

5984 DISCRETIONARY ADMINISTRATIVE POLICIES

N.L.R.B. (Steven R. Loveall, etc.) v. Electrical Workers, Local 11 — 772 F.2d 571 (C.A. 9, Sep. 1985)

(Bd has considerable, though not unlimited, discretion to respect or disregard an arbitration decision. In exercising its discretion, Bd must balance policy in favor of settling labor disputes by arbitration with its statutory duty and authority to prevent ULPs)

N.L.R.B. (Steven R. Loveall, etc.) v. Electrical Workers, Local 11 — 772 F.2d 571 (C.A. 9, Sep. 1985)

(Bd may decline to defer to an arbitration decision *in which there is an apparent conflict of interest between the Ee and the U representing him)*

N.L.R.B. (Steven R. Loveall, etc.) v. Electrical Workers, Local 11 — 772 F.2d 571 (C.A. 9, Sep. 1985)

(while cts generally defer to arbitration decisions, our review here is not so limited because we are reviewing not an arbitration decision but NLRB's refusal to enforce such a decision)

N.L.R.B. (Steven R. Loveall, etc.) v. Electrical Workers, Local 11 — 772 F.2d 571 (C.A. 9, Sep. 1985)

(Bd did not abuse its discretion by failing to defer to arbitration decision where there was conflict of interest between Ees and U)

Marie E. Darr v. N.L.R.B. (Cone Mills Corp.) — 801 F.2d 1404 (C.A. D.C., Sept. 1986)

[ct remanded case to Bd to articulate its policy and reasons thereof on deferrals where arbitrator held that under contract Ee was fired w/o *just cause* for taking unscheduled break and engaging in protest, but Ee also guilty of insubordination in not leaving plant when ordered; under NLRA, discharge was unlawful as primary cause of discharge was her protected activity of protesting E's conduct; therefore, arbitrator ordered reinstatement but w/o backpay which is contrary to Bd's practice]

5991 CONTRACT CONSTRUCTION

Allis-Chalmers Corp. v. Lueck — ———U.S.——— (U.S. S.CT, Apr. 1985)

[Sec. 301 (of NLRA) does not grant parties to collective-bargaining agreement ability to contract for what is illegal under state law; questions of contract interpretation, therefore underlie any finding of tort liability, regardless that state ct may choose to define tort as *independent* of any contract question; Congress has mandated that *federal law govern meaning given contract terms* in order to have unified federal body of labor-contract law]

Allis-Chalmers Corp. v. Lueck — ———U.S.——— (U.S. S.CT, Apr. 1985)

[when resolution of state-law claim is substantially dependent upon analysis of terms of agreement made between parties in labor contract, that claim must either be treated as Section 301 claim, or dismissed as pre-empted by federal labor-contract law, complaint in instant case (tort action for breach of duty to act in good faith brought in state ct) should have been dismissed for failure to make use of greivance procedure established in collective-bargaining agreement]

N.L.R.B. v. Construction and General Laborers' Union Local No. 534, Laborers — 778 F.2d 284 (C.A. 6, Dec. 1985)

[Bd's interpretation of collective bargaining agreement is entitled to deference where it is reasonable and consistent with policies of Act]

Electrical Workers, Local 387 v. N.L.R.B. (Arizona Public Service Co.) — 788 F.2d 1412 (C.A. 9, May 1986)

[whether contract waives Ees' right to strike turns upon the proper interpretation of particular contract. It must be read as a whole and in light of the law relating to it when made. Other relevant considerations include bargaining history, context in which contract was negotiated, interpretation of contract by the parties, and conduct of the parties bearing upon its meaning]

N.L.R.B. v. Americana Healthcare Center — 782 F.2d 941 (C.A. 11, Feb. 1986)

[Bd order enforced where E and U duly negotiated contract for unit Ees which negotiations, inter alia, included Ee sick leave benefits were omitted from parties' written contract by inadvertence and mutual mistake, substantial evidence supported Bd's determination that parties agreed to continue sick leave benefits according to previous practice]

N.L.R.B. v. Americana Healthcare Center — 782 F.2d 941 (C.A. 11, Feb. 1986)

[*zipper* clause in instant case must be read with implied exception that it has no application to agreement negotiated (by parties) pursuant to ct order but ommitted from written contract by inadvertence and mistake. Ct's reading of *zipper* clause leaves it ample scope for application, where it will not nullify statutory policy]

Local Union 1395, Electrical Workers v. N.L.R.B. (Indianapolis Power & Light Co.) — 797 F.2d 1027 (C.A. D.C., Aug. 1986)

[while Bd may interpret bargaining agreements when they are raised as defenses in ULP proceedings, ct's approach is to extend deference to Bd's factual findings on matters bearing on intent of parties, but not to ultimate legal conclusions attached to parties' words and conduct]

Local Union 1395, Electrical Workers v. N.L.R.B. (Indianapolis Power & Light Co.) — 797 F.2d 1027 (C.A. D.C., Aug. 1986)

[Bd's interpretation of contractual provisions is entitled to no particular deference; if deference were afforded Bd's intrepretation of bargaining agreements, it would be free to apply different standards of interpretation than those applied by cts in Sec. 301 suits, thereby undermining voluntary bargaining process and exerting disruptive influence upon both negotiation and administration of collective agreements]

6300 ADDUCTION OF ADDITIONAL EVIDENCE

6325 EXISTENCE AND MATERIALITY OF PROFERRED EVIDENCE MUST BE SHOWN

6325—Cont.

N.L.R.B. v. Auburn Foundry, Inc. 791 F.2d 619 (C.A. 7, May 1986)

[appellate ct has authority to order NLRB to review new facts that impact on whether remedy ordered by Bd should be enforced. However, claims that go to need for remedy at all distinguished from claims that relate to details of appropriate remedy. Materiality of evidence must be determined with reference to scope of proceedings before NLRB. Appellate ct cannot declare *material* factual matters which under NLRB procedings are irrelevant. Thus, ct will not consider arguments concerning details of backpay. However, ct may refuse to enforce Bd order where there is unconsidered evidence that may be material to need for remedies]

6350 REASONABLE GROUNDS FOR FAILURE TO ADDUCE BEFORE BOARD

N.L.R.B. v. Atlas Microfilming, Division of Sertafilm, Inc. 753 F.2d 313 (C.A. 3, Jan. 1985)

(E's mtn for remand to Bd, concerning issue of E moving its facility and Ee turnover, denied, since ct found that there were no reasonable grounds for E's failure to apprise Bd of its *additional evidence* as required for remand. E offered no excuse for waiting almost 5 months, after all briefs were filed, to move for remand when E knew it was moving even before Bd issued its bargaining order. Delay in filing briefs was abuse of ct's and Bd's processes)

N.L.R.B. v. Auburn Foundry, Inc. 791 F.2d 619 (C.A. 7, May 1986)

[Sec. 10(e) of Act provides that no objection not urged before Bd shall be considered by ct, unless failure to urge such objection was due to extraordinary circumstances... If either party shall apply to ct for leave to adduce additional evidence and show that evidence material and that there were reasonable grounds for failure to adduce such evidence before Bd, ct may order such evidence taken... This provision does not distinguish evidence relating to remedy from that which relates to merits, thus precluding adoption of NLRB's position that new evidence relating to appropriateness of remedy be defered to compliance stage]

6375 EVIDENCE WHICH MAY NOT BE ADDUCED

6375-5000 Events subsequent to Board order

6375-5083 Union's loss of representative status

Lone Star Steel Company v. N.L.R.B. 766 F.2d 1459 (C.A. 10, July 1985)

[ct held that under established precedents enforcement action was not moot, notwithstanding factual assertions, which ct did not accept because not developed in record, that respondent U no longer represents Ees of E who no longer operates facility at which U was bargaining representative and with whom U has had no bargaining negotiations for several years, and E's assertion that it will remain in business and be dealing with U directly when it begins operations again]

6375-7500 Evidence not shown to have been unavailable at hearing

N.L.R.B. v. Auburn Foundry, Inc. 791 F.2d 619 (C.A. 7, May 1986)

[ct did not refuse to enforce Bd order mandating reinstatement for all aggrieved Ees even though E claimed to have newly discovered evidence which allegedly undermined basis for reinstatement of one discriminatee, where E was aware of such subsequent to Bd hearing but two years prior to Bd's final decision, absent evidence that E was unable to draw Bd's attention to such evidence through some form of written submission or that, following Bd's decision E made any attempt to reopen or request reconsideration]

6800 CONTENTIONS NOT RAISED BEFORE BOARD OR COURTS

6817 ISSUES NOT RAISED BEFORE BOARD WILL NOT BE CONSIDERED BY COURT

N.L.R.B. v. Edward Cooper Painting, Inc., and Cooper & Cooper Painting, an alter ego 804 F.2d 934 (C.A. 6, Nov. 1986)

[ct rejected Bd's contention that ct should not review E's claim that discharge in bankruptcy of individual who was partner in firm found to be alter ego of E barred enforcement of order against partnership, because E failed to present such claim as required by 10(e); issue was presented to Bd sufficient to meet 10(e) standard when E filed *plea in abatement due to bankruptcy* which Bd disregarded when it determined its proceeding was excepted from automatic stay under Bankrutpcy Act]

N.L.R.B. v. Auburn Foundry, Inc. 791 F.2d 619 (C.A. 7, May 1986)

[Sec. 10(e) of Act provides that no objection not urged before Bd shall be considered by ct, unless failure to urge such objection was due to extraordinary circumstances... If either party shall apply to ct for leave to adduce additional evidence and show that evidence material and that there were reasonable grounds for failure to adduce such evidence before Bd, ct may order such evidence taken... This provision does not distinguish evidence relating to remedy from that which relates to merits, thus precluding adoption of NLRB's position that new evidence relating to appropriateness of remedy be defered to compliance stage]

N.L.R.B. v. Wayne Transportation, A Division of Wayne Corporation, and Auto Workers, UAW Local 721 776 F.2d 745 (C.A. 7, Nov. 1985)

[Sec. 10(e) of Act does not foreclose issue of superseniority by cts notwithstanding parties did not ask Bd for reconsideration under R/R 102.48(d) when it announced new rule since there are 2 purposes of 10(e): 1) notice function ensures that Bd has opportunity to resolve all issues w/i its jurisdiction; 2) ensures against repetitive appeals to cts. In circumstances found here, neither policies would be served by deferral of issues to another time]

N.L.R.B. v. Speedway Petroleum, Division of Emro Marketing Company 768 F.2d 151 (C.A. 7, July 1985)

[where Bd sustained challenge to Ee's ballot on ground she was *casual Ee*, but E claimed stipulation established her eligibility, ct held that, in view of broad scope of stipulation and E's failure to raise significant allegations before RD regarding U's understanding that Ee was to be included in stipulation by reference to *all Ees*, no material and substantial issue was raised below regarding parties' understanding and, therefore, no hearing was required on issue, and it was too late to raise potential fact questions on appeal]

Wright Memorial Hospital v. N.L.R.B. 771 F.2d 400 (C.A. 8, Aug. 1985)

Hospital & Service Employees Union, Local 399, Service Employees v. N.L.R.B. 798 F.2d 1243 (C.A. 9, Aug. 1986)

[issue of whether E had actual notice of charges w/i 6 months required under 10(b) could be considered by ct, notwithstanding Bd's argument that ct may not consider actual notice issue because it was not presented to Bd on appeal where GC argued issue of actual-notice before ALJ and included issue in its request for review and exceptions before Bd; indeed, Bd addressed question of actual notice in its decision]

N.L.R.B. v. Jack E. Hartman, a Sole Proprietorship, d/b/a Dependable Tile Company 774 F.2d 1376 (C.A. 9, Oct. 1985)

[ct declined to consider allegation of unlawful refusal by E to sign contract where not alleged as violation in complaint and raised for first time on appeal. Complaint only alleged E failed to abide by contract]

N.L.R.B. v. Electrical Workers, Local 952 758 F.2d 486 (C.A. 9, Apr. 1985)

(ct was unable to reach U's claim that its conduct was protected under proviso to 8(b)(1)(A) since 10(e) foreclosed judicial consideration of claim where U did not properly preserve issue for judicial review by raising issue before Bd)

Glaziers Local Union 558 v. N.L.R.B. 787 F.2d 1406 (C.A. 10, Mar. 1986)

[Bd's contention ct was w/o jurisdiction to consider U's challenge to validity and application of presumption Bd used because U failed to raise issue before Bd, rejected, where operation of presumption did not become an issue until Bd relied on it in its decision and ALJ made only collateral reference to it w/o relying thereon]

N.L.R.B. v. L & B Cooling, Inc. 757 F.2d 236 (C.A. 10, Mar. 1985)

(ct cannot consider contention of E not properly before it for review, since any contentions advanced before ALJ which are not preserved for review in exceptions or cross-exceptions are deemed waived in absence of extraordinary circumstances; *(n)o matter not included in exceptions or cross-exceptions may thereafter be argued before Bd, or in any further proceeding* 29 C.F.R. 6825 THEORY OF CASE NOT RELIED UPON BY BOARD WILL NOT BE CONSIDERED BY COURT

Roberto Sanchez and Elva Rodriguez v. N.L.R.B. 785 F.2d 409 (C.A. 2, Mar. 1986)

[an agency's action must be upheld on basis articulated by agency itself; ptn to review Bd's dismissal of C, granted]

N.L.R.B. v. Carson Cable TV; et al. 795 F.2d 879 (C.A. 9, July 1986)

[where RD, in his decision determining appropriateness of unit, had not relied on factor proposed by Bd's counsel for finding unit appropriate, ct held it must affirm Bd upon actual ground stated in its decision, since

integrity of administrative process requires that cts may not accept appellate counsel's *post hoc* rationalizations for agency action]

6833 OBJECTIONS NOT URGED BEFORE BOARD MAY NOT BE CONSIDERED

N.L.R.B. v. Island Film Processing Co., Inc., d/b/a Kahala Kai Photo Service 784 F.2d 1446 (C.A. 9, Mar. 1986)

[E's objection to Bd's finding that individual was not supervisor, adequately preserved for ct review of ULP case, notwithstanding Bd's grant of summary judgment therein because E had simply *reiterated* objections, where Bd had discussed issue of individual's supervisory status in underlying R case in response to E's objection to supervisory involvement in election]

6833-1400 10(e) provision applicable also to 10(f) proceeding

N.L.R.B. v. Best Products Co., Inc. 765 F.2d 903 (C.A. 9, July 1985)

(E's statement in ULP proceeding that it incorporated by reference its objections to election in R case proceeding sufficient to satisfy requirements of Sec. 10(e) and preserve objection for appellate review; also Bd's decision on ULP charges showed that it had actual notice of E's attempt to press its objections in ULP proceeding)

6833-2800 Failure to except to proposed findings and order conclusive

N.L.R.B. v. Wayne Transportation, A Division of Wayne Corporation, and Auto Workers, UAW Local 721 776 F.2d 745 (C.A. 7, Nov. 1985)

[Sec. 10(e) of Act does not foreclose issue of superseniority by cts notwithstanding parties did not ask Bd for reconsideration under R/R 102.48(d) when it announced new rule since there are 2 purposes of 10(e): 1) notice function ensures that Bd has opportunity to resolve all issues w/i its jurisdiction; 2) ensures against repetitive appeals to cts. N.L.R.B. v. L & B Cooling, Inc. 757 F.2d 236 (C.A. 10, Mar. 1985)

Glaziers Local Union 558 v. N.L.R.B. 787 F.2d 1406 (C.A. 10, Mar. 1986)

[Bd's contention ct was w/o jurisdiction to consider U's challenge to validity and application of presumption Bd used because U failed to raise issue before Bd, rejected, where operation of presumption did not become an issue until Bd relied on it in its decision and ALJ made only collateral reference to it w/o relying thereon]

6833-2875 Objections raised by motion for reconsideration or other pleading

N.L.R.B. v. Affiliated Midwest Hospital, Inc., d/b/a Riveredge Hospital 789 F.2d 524 (C.A. 7, Apr. 1986)

[E deemed to have waived issue that Bd did not have before it on second remand of R case record compiled by RD pursuant to first remand, where it did not raise issue until mtn for reconsideration of bargaining order issued in enforcement proceeding, since E did not raise issue at first oportunity and has given no reason why it did not raise issue in enforcement proceeding until mtn for reconsideration, even assuming justification for not raising in certification proceeding]

Lone Star Steel Company v. N.L.R.B. 766 F.2d 1489 (C.A. 10, July 1985)

[ct held it has jurisdiction to consider E's supplemental ptn for review and application for enlargement of mandate in case in which Bd issued supplemental c/d order against respondent U deleting reference to *or any other E*; notwithstanding U's contention that ct is w/o juriadiction because E did not ptn Bd for rehearing or reconsideration after Bd issued its supplemental order, where E satisfied 10(e) requirement by filing with Bd memorandum in opposition to U's mtn for clarification of Bd's supplemental order which raised issues now before ct]

6833-8000 Unless failure to object excused because of extraordinary circumstances

N.L.R.B. v. Auburn Foundry, Inc. 791 F.2d 619 (C.A. 7, May 1986)

[Sec. 10(e) of Act provides that no objection not urged before Bd shall be considered by ct, unless failure to urge such objection was due to extraordinary circumstances... If either party shall apply to ct for leave to adduce additional evidence and show that evidence material and that there were reasonable grounds for failure to adduce such evidence before Bd, ct may order such evidence taken... N.L.R.B. v. Speedway Petroleum, Division of Emro Marketing Company 768 F.2d 151 (C.A. 7, July 1985)

[ct refused to consider E's argument that Bd erred in R proceeding by failing to review all evidence relied on by RD in finding challenged Ee ineligible to vote, since E waived its argument by failing to raise it at Bd ULP proceeding in either its answer or in its response to GC's mtn for summary judgment, and no extraordinary circumstances excused its failure to do so]

N.L.R.B. v. L & B Cooling, Inc. 757 F.2d 236 (C.A. 10, Mar. 1985)

6833-5600 Objections must be specific

Hospital & Service Employees Union, Local 399 v. N.L.R.B. 743 F.2d 1417 (C.A. 9, Oct. 1984)

[where U's brief before ct raised First Amendment issue as to its handbilling and newspaper advertisements directed at secondary E, but parties had not fully asserted predicate 8(b)(4) statutory issue of *coercion*, and Bd maintained 10(e) precluded review of issue, ct held U's exceptions to ALJ's decision were sufficiently specific to put Bd on notice that question of *coercion* was an issue; legislative purpose of 10(e) persuaded ct that concerns of statute were satisfied; and Bd had opportunity to bring its labor relations expertise to bear on problem]

6833-7000 Issues not seen to be important until controlling--decision in another case issued

N.L.R.B. v. Wayne Transportation, A Division of Wayne Corporation, and Auto Workers, UAW Local 721 776 F.2d 745 (C.A. 7, Nov. 1985)

[Sec. 10(e) of Act does not foreclose issue of superseniority by cts notwithstanding parties did not ask Bd for reconsideration under R/R 102.48(d) when it announced new rule since there are 2 purposes of 10(e): 1) notice function ensures that Bd has opportunity to resolve all issues w/i its jurisdiction; 2) ensures against repetitive appeals to cts. 6833-8400 Objections concerning orders

N.L.R.B. v. Auburn Foundry, Inc. 791 F.2d 619 (C.A. 7, May 1986)

[Sec. 10(e) of Act provides that no objection not urged before Bd shall be considered by ct, unless failure to urge such objection was due to extraordinary circumstances... N.L.R.B. v. Auburn Foundry, Inc. 791 F.2d 619 (C.A. 7, May 1986)

[appellate ct has authority to order NLRB to review new facts that impact on whether remedy ordered by Bd should be enforced. However, claims that go to need for remedy at all distinguished from claims that relate to details of appropriate remedy. Materiality of evidence must be determined with reference to scope of proceedings before NLRB. Appellate ct cannot declare *material* factual matters which under NLRB procedings are irrelevant. Thus, ct will not consider arguments concerning details of backpay. However, ct may refuse to enforce Bd order where there is unconsidered evidence that may be material to need for remedies]

N.L.R.B. v. Affiliated Midwest Hospital, Inc., d/b/a Riveredge Hospital 789 F.2d 524 (C.A. 7, Apr. 1986)

[E deemed to have waived issue that Bd did not have before it on second remand of R case record compiled by RD pursuant to first remand, where it did not raise issue until mtn for reconsideration of bargaining order issued in enforcement proceeding, since E did not raise issue at first oportunity and has given no reason why it did not raise issue in enforcement proceeding

until mtn for reconsideration, even assuming justification for not raising in certification proceeding]

Purolator Armored, Inc. v. N.L.R.B. 764 F.2d 1423 (C.A. 7, July 1985)

(remedies of backpay and reinstatement objected to for first time before court, rejected, as court is w/o jurisdiction to consider such obligations)

Local 512, Warehouse and Office Workers' Union, Ladies Garment Workers v. N.L.R.B. 795 F.2d 705 (C.A. 9, July 1986)

[ct's jurisdiction to consider legal basis of R/O order not barred by Section 10(e) requirement that no objection not urged before Bd shall be considered by ct unless failure to urge objection excused by extraordinary circumstances where no party filed mtn for reconsideration of backpay order on issuance of S.Ct case bearing on issues raised in instant case, since one of E's affirmative defenses to complaint which raised issue of entitlement of undocumented alien workers to any remedy was rejected and exception taken, thus preserving issue for judicial review]

Lone Star Steel Company v. N.L.R.B. 766 F.2d 1459 (C.A. 10, July 1985)

[ct held it has jurisdiction to consider E's supplemental ptn for review and application for enlargement of mandate in case in which Bd issued supplemental c/d order against respondent U deleting reference to *or any other E*; notwithstanding U's contention that ct is w/o jurisdiction because E did not ptn Bd for rehearing or reconsideration after Bd issued its supplemental order, where E satisfied 10(e) requirement by filing with Bd memorandum in opposition to U's mtn for clarification of Bd's supplemental order which raised issues now before ct]

Great Southern Construction, Inc. v. N.L.R.B. F.2d (C.A. 10, Jan. 1984)

[ptn for review dismissed where petitioner was not aggrieved by Bd's order dismissing all portions of C relating to bargaining agreement to which petitioner was a party; moreover, petitioner at no time objected or asserted that bargaining agreement which it now challenges was illegal or otherwise invalid and ct, therefore, lacks jurisdiction to consider any objection that has not been presented to Bd]

6850 MOOTNESS OF ISSUES

Vitek Electronics, Inc. v. N.L.R.B. 763 F.2d 561 (C.A. 3, June 1985)

(fact that E closed down plant and bargaining unit no longer exists did not render bargaining order moot or futile even through bargaining order did not order *effects* bargaining since it did order E to bargain concerning rates of pay, wages, hours and other terms and conditions of employment and S.Ct held in *First National Maintenance*, 452 U.S. 666, that this language mandates bargaining over effects of plant closing)

Lone Star Steel Company v. N.L.R.B. 766 F.2d 1459 (C.A. 10, July 1985)

[U's compliance with Bd's c/d order held not to render cause moot, depriving Bd of opportunity to secure compliance from appropriate ct]

Lone Star Steel Company v. N.L.R.B. 766 F.2d 1459 (C.A. 10, July 1985)

[ct held that under established precedents enforcement action was not moot, notwithstanding factual assertions, which ct did not accept because not developed in record, that respondent U no longer represents Ees of E who no longer operates facility at which U was bargaining representative and with whom U has had no bargaining negotiations for several years, and E's assertion that it will remain in business and be dealing with U directly when it begins operations again]

Lone Star Steel Company v. N.L.R.B. 766 F.2d 1459 (C.A. 10, July 1985)

[contention by respondent U that enforcement action was premature because Bd had not followed its own internal practices which allegedly required Bd to seek voluntary compliance before initiating enforcement action, rejected, since compliance does not render such action moot]

6883 CONTENTIONS AVAILABLE BUT NOT MADE TO COURT ON FIRST HEARING NOT AVAILABLE FOR REHEARING

N.L.R.B. v. Affiliated Midwest Hospital, Inc., d/b/a Riveredge Hospital 789 F.2d 524 (C.A. 7, Apr. 1986)

[E deemed to have waived issue that Bd did not have before it on second remand of R case record compiled by RD pursuant to first remand, where it did not raise issue until mtn for reconsideration of bargaining order issued in enforcement proceeding, since E did not raise issue at first oportunity and has given no reason why it did not raise issue in enforcement proceeding until mtn for reconsideration, even assuming justification for not raising in certification proceeding]

7200 JUDGMENT

7233 ENFORCEMENT OF BOARD ORDER

Great Southern Construction, Inc. v. N.L.R.B. F.2d (C.A. 10, Jan. 1984)

[summary enforcement of Bd's order pertaining to unlawful discharge and surveillance of Ees and prescribing appropriate remedies granted where petitioner has not challenged sufficiency of evidence underlying Bd's order pertaining to ULPs found]

7233-6700 Modification sua sponte by court

Sure-Tan, Inc., et al. v. N.L.R.B. ———U.S.——— (US S.CT, June 1984)

[circuit ct's decision ordering Bd to provide minimum backpay for constructively discharged illegal alien Ees w/o regard to their actual losses or legal availability for work after they had left the country rather than be deported reversed, since ct order imposing minimum back pay award which was speculative in absence of evidence of Ees' individual circumstances exceeded unit ct's reviewing authority and compelled Bd to take action not w/i Bd's powers; case remanded to circuit ct with instructions to remand it to Bd for formulation of remedial order consistent with this opn]

Sure-Tan, Inc., et al. v. N.L.R.B. ———U.S.——— (US S.CT, June 1984)

[circuit ct decision modifying Bd's order to require that reinstatement offers to constructively discharged illegal alien Ees who had left the country rather than be deported be drafted in Spanish and their receipt be verified, reversed, since modification requirement exceeded ct's limited authority of judicial review; appropriate course was to remand case for reconsideration to Bd with its broad powers to fashion remedies to effectuate national labor policy and superior expertise and long experience in doing so; case remanded to ct for remand to Bd for formulation of remedial order consistent with this opn]

Sure-Tan, Inc., et al. v. N.L.R.B. ———U.S——— (US S.CT, June 1984)

[circuit ct's modification of Bd's order to require that reinstatement offers to constructively discharged illegal alien Ees, who had left the country rather than be deported, be held open for four years, reversed, since circuit ct had no justifiable basis for displacing Bd's discretionary judgment about proper time period for acceptance of the reinstatement offers; instead, circuit ct was required to remand case to Bd to consider alternative grounds on which ct believed the offers to have been deficient and to decide upon new forms for the reinstatement offers]

7700 REHEARING

8100 REMAND TO BOARD

8101 GENERALLY

N.L.R.B. v. J. Coty Messenger Service, Inc. ———F.2d——— (C.A. 2, May 1985)

[in view of Bd's repeated failure to provide type of analysis ct has repeatedly requested, ct declined to remand bargaining order for further consideration]

8101-3300 Effect of remand

Robert T. Ewing, an individual v. N.L.R.B. 768 F.2d 51 (C.A. 2, July 1985)

(in reversing and remanding to Bd for second time because of Bd's mistaken view that it was required to interpret *concerted activities* literally because mandated by Act, ct held remand would not engage ct and Bd in *ping pong game*; remand, even though it may appear wasteful as regards instant case, was important for proper execution of legislative will, since proceeding on right path may require or at least permit agency to make qualifications and exceptions that the wrong one would not)

8101-3350 *Law of the case* binding on Board

Lone Star Steel Company v. N.L.R.B. 766 F.2d 1459 (C.A. 10, July 1985)

[instant case involving question of enforcement of Bd's supplemental c/d order issued against U pursuant to remand which Bd accpeted as *law of this case* held not proper case for ct to consider Bd's nonacquiescence doctrine whereby Bd reserves to itself authority to decline to follow ct of appeals decisions in future, since situation herein is not one where Bd has refused to follow ct's prior decision; rather, Bd herein expressly followed ct's remand decision]

8150 PURPOSE OF REMAND

8150-1100 Reconsideration in light of court opinion

N.L.R.B. v. Ironworkers, Local 480 ———U.S——— (U.S. S.CT, May 1984)

[ct of appeals' decision modifying Bd's backpay order by limiting class of Ees to whom backpay may be awarded and prohibiting Bd from amending its backpay specification permitted by Bd regulations, reversed and remanded, since ct of appeals may not refuse to enforce backpay order merely because of Bd's delay subsequent to that order in formulating backpay specification; *Rutter-Rex* principles remain applicable, and by restricting beneficiaries of Bd's order for determining amount of backpay, ct of appeals' order punishes Ees for Bd's nonfessance, which is forbidden by *Rutter-Rex*]

8150-1100—Cont.

N.L.R.B. v. Ironworkers, Local 480 ——U.S.—— (U.S. S.CT, May 1984)

[in reversing and remanding ct of appeals' decision modifying Bd's backpay order by limiting class of Ees to whom backpay may be awarded and prohibiting Bd from amending its backpay specification, ct did not consider whether ct of appeals may modify its original order enforcing Bd's order on grounds that Bd's long delay in formulating backpay specification demonstrated futility of identifying discriminatees and in performing claculations required by Bd's backpay formula, and that Bd's order was *punitive* and *confiscatory*; nor did ct foreclose challenges that might be raised in supplemental backpay proceedings]

Timothy Nevins v. N.L.R.B. 796 F.2d 14 (C.A. 2, June 1986)

[case remanded to Bd for findings on ULP issue of constructive discharge where issue was not considered by arbitrator and facts necessary to resolve it were not presented]

Roberto Sanchez and Elva Rodriguez v. N.L.R.B. 785 F.2d 409 (C.A. 2, Mar. 1986)

[ct remanded case for further proceedings concerning Ees who were discharged after going on strike because they believed U steward had been wrongfully discharged and whose 8(a)(3) C was dismissed by Bd; case was remanded in light of ct's decision that U steward was unlawfully discharged as result of his U activities]

Walter J. Slaughter v. N.L.R.B. (E.I. Dupont DeNemours & Co.) 794 F.2d 120 (C.A. 3, June 1986)

[case remanded to Bd where ct rejected rationale that Bd's conclusion that unorganized Ees have no right to have fellow Ee present at investigatory interview was compelled by Act]

Vitek Electronics, Inc. v. N.L.R.B. 763 F.2d 561 (C.A. 3, June 1985)

(despite failure of Bd to follow ct remand and hold R hearing but instead held ULP hearing (Federal Rules of Evidence followed in latter), ct did not order another hearing since such action would have unduly delayed further the certification of representative, and also, no prejudice shown by form of hearing)

Black Grievance Committee v. N.L.R.B. 749 F.2d 1072 (C.A. 3, Dec. 1984)

(where ct held that E violated 8(a)(1) by giving 1 of 2 minority Us preference in use of grievance procedure, ct remanded case to Bd for consideration of E's purported business justification for action, and for appropriate remedy if no such justification exists; on remand, 1 of 3 points Bd should consider is that if disfavored minority U proves its allegation that determining factor in E's decision not to accord disfavored minority U equal privileges to favored minority U was racial composition of disfavored U and membership, E will have committed independent violation of 8(a)(1) for which no business justification exists)

Black Grievance Committee v. N.L.R.B. 749 F.2d 1072 (C.A. 3, Dec. 1984)

(where ct held that E violated 8(a)(1) by giving 1 of 2 minority Us preference in use of grievance procedure, ct remanded to Bd for consideration of E's purported business justification for its action, and for appropriate remedy if no such justification exists; on remand, 1 of 3 points Bd should consider is that any purported business justification offered by E on remand may not relate to E's *preference* for favored minority U as Ee representative, for it is this very preference, and E's failure to accord disfavored minority U and its members similar status, which establishes prima facie violation of 8(a)(1))

Black Grievance Committee v. N.L.R.B. 749 F.2d 1072 (C.A. 3, Dec. 1984)

(where ct held that E violated 8(a)(1) by giving 1 of 2 minority Us preference in use of grievance procedure, ct remanded case to Bd but did not suggest that only appropriate remedies for E's conduct are to either dismantle favored minority's grievance system or to tolerate separate grievance systems for each minority U that requests one; rather, grievance system which accords all Ees, and not just members of privileged group, leverage of group representation for individual grievances will remove unlawful coercion on Ees to either join privileged group or forego group representation for individual grievances)

Baker Manufacturing Company v. N.L.R.B. 759 F.2d 1219 (C.A. 5, May 1985)

(case remanded for determination as to whether coerced reestablishment and maintenance of abolished positions is necessary to effectuate policies of the Act, notwithstanding Bd's authority to so order, or whether they are superfluous; although E abolished positions to eliminate U activists occupying them w/o considering economic factors, it must be afforded opportunity to show that recreating and maintaining them at time former occupants accept reinstatement to them would be economically inefficient, and, if so, less extreme and equally effective remedies, such as equivalent positions, may be available)

N.L.R.B. v. Construction and General Laborers' Union Local No. 534, Laborers 778 F.2d 284 (C.A. 6, Dec. 1985)

[finding of violation by U's referring U steward ahead of other applicants reversed and remanded for consideration of whether contract incorporated thirty-year practice of referring U stewards separately where analysis of contract was erroneously confined to its *four corners*, but law of shop could have been shown to govern referral of stewards]

N.L.R.B. v. Indianapolis Mack Sales and Service, Inc. 802 F.2d 280 (C.A. 7, Sept. 1986)

Iron Workers Local 118 (Waldo F. Kusterns) v. N.L.R.B. 804 F.2d 1100 (C.A. 9, Nov. 1986)

[ct remanded case for computation of back pay consistent with its opinion, where Bd improperly found that Ee, although wrongfully refused dispatch by U to job outside bargaining unit for failing to pay supplemental dues arrearages, was not entitled to back pay because he failed to mitigate damages by refusing to pay the dues, which refusal lawfully rendered him ineligible for dispatch to jobs w/i unit, thereby taking himself out of labor market; exercise of reasonable diligence to seek comparable employment did not require Ee to take affirmative steps to eliminate all potential liability of U]

Electrical Workers, Local 387 v. N.L.R.B. (Arizona Public Service Co.) 788 F.2d 1412 (C.A. 9, May 1986)

[strikers' suspension lawful based on new Bd rule that, absentextrinsic evidence of contrary intent, general no-strike clause waived right to engage in such strikes, reversed and remanded; Bd treated rule as establishing irrebuttable presumption that broad no-strike clause barred such strike, rather than as shifting burden of proving whether clause was intended to encompass sympathy strikes. Bd relied on clause and U letter disavowing strike w/o discussing intent, prior rule's impact on contract's meaning, terms, or negotiations, and parties' conduct under it as rule required]

Harold L. Wakefield v. N.L.R.B. 779 F.2d 1437 (C.A. 9, Jan. 1986)

[remand to Bd to reassess backpay due Ee, since Bd failed to apply correct legal standard and find E liable for backpay, not only for period of Ee's physical disability due to E's assault, but also for period of psychological disability resulting therefrom, and failed to base its finding on substantial record evidence that E caused Ee's psychological disability where E committed many ULPs against Ee, and GC's and E's medical witnesses identified them as psychological disability's cause]

Hospital & Service Employees Union, Local 399 v. N.L.R.B. ——F.2d—— (C.A. 9, Oct. 1984)

[ct remanded to Bd 8(b)(4) coercion issue arising from U's handbilling of secondary E for clarification, final resolution, and further hearings if necessary, consistent with ct's opn; instant case does not present exceptional situation in which crystal-clear error renders remand an unnecessary formality; instead, remand allows Bd to cast its expertise on full and complete resolution of this important issue, and remand gives proper deference to Bd as steward of nation's labor laws]

Hotel & Restaurant Employees, Local 2 v. N.L.R.B. 735 F.2d 1152 (C.A. 9, June 1984)

[where Bd had found no violation by E's refusal to bargain with local U into which six local Us had been merged, because resulting local was not successor to the six locals involved and thus there was no *continuity of representation*, where members of only one local were shown to have had the opportunity to vote on the merger, ct remanded case to the Bd to focus on significance of fact all six local memberships had voted approval of merger negotiations and consider whether this approval implied approval of the merger itself so as to support finding of successorship and violation]

8150-2200 **Reconsideration in light of intervening decisions of other courts**

Kenneth P. Prill v. N.L.R.B. 755 F.2d 941 (C.A.D.C., Feb. 1984)

]*Myers Industries* 268 NLRB 493, in which Bd enunciated new restrictive definition of *concerted activities* and overruled *Alleluia Cushion* remanded to Bd for reconsideration since Bd's decision, which was contrary to S.Ct's intervening *City Disposal* decision, stands on faulty legal premise and w/o adequate rationale where it wrongly concluded that its adoption of narrow test for *concerted activities* was both mandated by Act and was merely return to stand on which Bd and cts relied before *Alleluia* was decided)

Kenneth P. Prill v. N.L.R.B. 755 F.2d 941 (C.A.D.C., Feb. 1984)

(in remanding Bd decision announcing new restrictive test for *concerted activities* for reconsideration because it was contrary to S.Ct's intervening *City Disposal* decision, 104 S.Ct 1505, ct held it could not say Bd's error clearly had no bearing on result reached; some of Bd's and ct's variety of

8150-2200—Cont.

definitions of concerted activities might grant relief to Ee-petitioner herein; moreover, case result often turns both on governing standard and on manner in which it is applied, which may be influenced by whether Bd believes standard is dictated by Act or adopted as policy matter)

Kenneth P. Prill v. N.L.R.B. — 755 F.2d 941 (C.A.D.C., Feb. 1984)

(in remanding Bd decision announcing new restrictive test for *concerted activities* for reconsideration because of Bd's erroneous view of law, ct declined to determine for itself w/o remanding decision whether, applying S.Ct's intervening *City Disposal* decision, Ee's conduct herein was sufficiently related to actions of other Ees that it should be held protected under Sec. 7; such determination is for Bd and not ct, and remand is intended to afford Bd full opportunity to consider issues in light of analysis of Sec. 7 in *City Disposal*)

Kenneth P. Prill v. N.L.R.B. — 755 F.2d 941 (C.A.D.C., Feb. 1984)

(in remanding Bd's decision announcing new restrictive test for *concerted activities* for reconsideration because it was contrary to S.Ct's intervening *City Disposal* decision, ct did not find it necessary to consider validity of any test of concerted activity nor express any opinion on such issue but deemed it could not sustain agency decision as *harmless error* where agency failed to exercise its lawful discretion and provided no rational basis for its determination)

8150-2700 Reconsideration to determine if Board policies would be violated

Veronica Lewis v. N.L.R.B. — 800 F.2d 818 (C.A. 8, Sept. 1986)

[where Bd properly deferred issue concerning Ee's discharge to parties contractual grievance - arbitration procedures and retained jurisdiction for limited purpose of protecting Ee's contractual and statutory rights by making Bd's remedial powers available to rectify any result repugnant or inconsistent with Act, ct remanded to Bd for further consideration whether its retention of jurisdiction, limited by its terms to instances where E resisted or impeded arbitration, applied likewise to U in arbitration proceeding]

8150-3300 Reconsideration in light of subsequent Board decision

Communication Workers, Local 5008 v. N.L.R.B. (Illinois Bell Telephone Co.) — 784 F.2d 847 (C.A. 7, Mar. 1986)

[Bd's application for leave for Bd to apply new policy on remand held unnecessary since appellate cts would either grant requests automatically or be impelled into premature consideration of merits of proposed new rule]

8150-3500 Reconsideration in light of preceding Board decision

Robert T. Ewing, an individual v. N.L.R.B. — 768 F.2d 51 (C.A. 2, July 1985)

(while expressing no view on what is correct interpretation of *concerted activities* on remand to Bd of case in which Bd found no violation in layoff of Ee for complaining to OSHA, ct held Bd's rationale will be examined in light of presumption that old *Alleluia* rule effectuated policies of Act and to ensure that Bd has given a reasoned explanation of why new *Meyers* rule effectuates Act as well as or better than old rule)

Taylor, Melvin D. v. N.L.R.B. (Ryder Truck Lines, Inc.) — 786 F.2d 1516 (C.A. 11, Apr. 1986)

[ct vacated and remanded to Bd its decision which held that GC had not met its burden of affirmatively demonstrating that ULP had not received adequate consideration by arbitration committee; remand required Bd to reconsider its decision in light of ct's disapproval of Bd's standard for deferral under *Olin Corp.*, 268 NLRB 573]

Iron Workers, Local No. 111 v. N.L.R.B. — 792 F.2d 241 (C.A. D.C., June 1986)

[where Bd ordered U, which unlawfully sought to replace travelers employed by E with U's members, to compensate travelers for lost backpay, ct remanded case for further explanation why Bd decided to do so since, under APA, it was incumbent upon Bd to explain why it did not consider its decision departure from principles established in prior cases, or why it considered departure appropriate; thus, Bd failed to provide U with explanation of apparent inconsistency between decision to exercise its authority herein and to refrain from doing so in earlier cases]

8150-4900 Fashion appropriate remedy

Sure-Tan, Inc., et al. v. N.L.R.B. — ———U.S.——— (US S.CT, June 1984)

[circuit ct's decision ordering Bd to provide minimum backpay for constructively discharged illegal alien Ees w/o regard to their actual losses or legal availability for work after they had left the country rather than be deported reversed, since ct order imposing minimum back pay award which was speculative in absence of evidence of Ees' individual circumstances exceeded unit ct's reviewing authority and compelled Bd to take action not w/i Bd's powers; case remanded to circuit ct with instructions to remand it to Bd for formulation of remedial order consistent with this opn]

Sure-Tan, Inc., et al. v. N.L.R.B. — ———U.S.——— (US S.CT, June 1984)

[circuit ct decision modifying Bd's order to require that reinstatement offers to constructively discharged illegal alien Ees who had left the country rather than be deported be drafted in Spanish and their receipt be verified, reversed, since modification requirement exceeded ct's limited authority of judicial review; appropriate course was to remand case for reconsideration to Bd with its broad powers to fashion remedies to effectuate national labor policy and superior expertise and long experience in doing so; case remanded to ct for remand to Bd for formulation of remedial order consistent with this opn]

Sure-Tan, Inc., et al. v. N.L.R.B. — ———U.S.——— (US S.CT, June 1984)

[circuit ct's modification of Bd's order to require that reinstatement offers to constructively discharged illegal alien Ees, who had left the country rather than be deported, be held open for four years, reversed, since circuit ct had no justifiable basis for displacing Bd's discretionary judgment about proper time period for acceptance of the reinstatement offers; instead, circuit ct was required to remand case to Bd to consider alternative grounds on which ct believed the offers to have been deficient and to decide upon new forms for the reinstatement offers]

Black Grievance Committee v. N.L.R.B. — 749 F.2d 1072 (C.A. 3, Dec. 1984)

(where ct held that E violated 8(a)(1) by giving 1 of 2 minority Us preference in use of grievance procedure, ct remanded case to Bd for consideration of E's purported business justification for action, and for appropriate remedy if no such justification exists; on remand, 1 of 3 points Bd should consider is that if disfavored minority U proves its allegation that determining factor in E's decision not to accord disfavored minority U equal privileges to favored minority U was racial composition of disfavored U and membership, E will have committed independent violation of 8(a)(1) for which no business justification exists)

Food and Commercial Workers, Local 152 v. N.L.R.B. — 768 F.2d 1463 (C.A. D.C., July 1985)

(remand to fashion remedy for successor E's unlawful refusal to hire Ees of predecessor E and successor E's unlawful refusal to recognize and bargain with U representing Ees of predecessor, where Bd ordered successor E merely to reconsider applications using non-discriminatory criteria rather than hiring all Ees of predecessor E who had applied, as recommended by ALJ, and where ct had reversed Bd in holding Respondent E was successor and its refusal to recognize and bargain was violative)

8150-6600 Rerun election

N.L.R.B. v. Parsons School of Design, A Division of The New School for Social Research — 793 F.2d 503 (C.A. 2, June 1986)

[case remanded to Bd to conduct election in part-time faculty unit, notwithstanding Bd's post election modification from all-faculty to part-time faculty unit reduced scope only 10 percent, and only part-time faculty votes were counted, since election was close, and part-time faculty might have voted differently had they known of modification in unit's scope and character for fear of insufficient strength, desire for representation of unified workforce only, and intention to rely on full-time faculty for significant amount of U work]

8150-7700 Additional findings

8150-7710 Objections to election

Monark Boat Company — 276 NLRB No. 121

(ALJ properly refused to expand scope of hearing where circuit ct specifically remanded certain objections for further hearing and consideration by Bd; and such objections, therefore, were only matters before Bd)

8150-7727 Appropriateness of unit

N.L.R.B. v. Parsons School of Design, A Division of The New School for Social Research — 793 F.2d 503 (C.A. 2, June 1986)

[case remanded to Bd to conduct election in part-time faculty unit, notwithstanding Bd's post election modification from all-faculty to part-time faculty unit reduced scope only 10 percent, and only part-time faculty votes were counted, since election was close, and part-time faculty might have voted differently had they known of modification in unit's scope and character for fear of insufficient strength, desire for representation of unified workforce only, and intention to rely on full-time faculty for significant amount of U work]

Automobile Workers, Local 449 v. N.L.R.B. (National Lock Corp., et al.) 802 F.2d 969 (C.A. 7, Oct. 1986)

[ct set aside Bd's decision and remanded case to Bd where Bd's decision, that E did not unlawfully refuse to bargain over relocation of operations because U waived its statutory right to bargain over move, did not contain reasoned analysis of law and evidence]

8150-7730 Supervisory status

N.L.R.B. v. Wolff & Munier, Inc. 747 F.2d 156 (C.A. 3, Oct. 1984)

[where Bd assertedly refused to defer to joint committee's findings that dischargees were foremen and could be discharged at will for lack of evidence that the committee considered the ULP issue of whether they were discharged due to E's antiU motivation, ct remanded case to Bd to determine whether the committee findings resolved the statutory issue by deciding that the foremen were supervisors and not protected by the Act and whether the committee's findings were repugnant to the Act]

8150-7735 Determination of impact of employer's unfair labor practices on employees' union adherence or protected activities

Robert T. Ewing, an individual v. N.L.R.B. 768 F.2d 51 (C.A. 2, July 1985)

(in reversing and remanding to Bd case in which Bd incorrectly concluded that Ee activity is *concerted* only if it involves some sort of *group action*, ct left to Bd to determine whether individual Ee's layoff for supposed safety complaint he made to OSHA had *chilling effect* on collective rights of other Ees)

8150-7740 Backpay determination

N.L.R.B. v. Seligman and Associates, Inc., and Its Wholly Owned Division, Scott Management Company 808 F.2d 1155 (C.A. 6, Dec. 1986)

[enforcement of Bd's *backpay* award denied and cause remanded to Bd for recomputation by taking into account ct's determination that discriminatees willfully failed to seek other comparable employment in mitigation of their losses]

Harold L. Wakefield v. N.L.R.B. 779 F.2d 1437 (C.A. 9, Jan. 1986)

[remand to Bd to reassess backpay due Ee, since Bd failed to apply correct legal standard and find E liable for backpay, not only for period of Ee's physical disability due to E's assault, but also for period of psychological disability resulting therefrom, and failed to base its finding on substantial record evidence that E caused Ee's psychological disability where E committed many ULPs against Ee, and GC's and E's medical witnesses identified them as psychological disability's cause]

John Cuneo, Inc. v. N.L.R.B. 792 F.2d 1181 (C.A. D.C., June 1986)

[remand to Bd to decide whether Ee forfeited permanent status with Respondent E, which status would effect his entitlement to backpay, when he deliberately misrepresented to Respondent on employment application that he was unemployed when in fact he was temporarily laid off at another E, and to determine what Respondent E must prove to show it would not have hired Ee had it known his true employment status]

8150-7750 Motivation for respondent's action

International Hat Company v. N.L.R.B. 771 F.2d 1170 (C.A. 8, Sep. 1985)

(remand to consider whether change in pay rate from *per order* to *bulk cutting method* of U adherent who was material cutter at hat manufacturer would have occurred absent his U activities)

M. W. Kellogg Constructors, Inc. v. N.L.R.B. 806 F.2d 1435 (C.A. 9, Dec. 1986)

[ct denies enforcement of Bd decision that found U and E unlawfully preferred local U members over travellers in layoff and overtime decisions, and remands for findings concerning whether statements of supervisors and stewards that locals would receive such preference constituted admissions of unlawful motive or were instead, as Respondents contended, merely descriptions of practical affect of applying lawful 8(f)(4) agreement]

8150-7755 For consideration of appropriate relief

Baker Manufacturing Company v. N.L.R.B. 759 F.2d 1219 (C.A. 5, May 1985)

(case remanded for determination as to whether coerced reestablishment and maintenance of abolished positions is necessary to effectuate policies of the Act, notwithstanding Bd's authority to so order, or whether they are superfluous; although E abolished positions to eliminate U activists occupying them w/o considering economic factors, it must be afforded opportunity to show that recreating and maintaining them at time former occupants accept reinstatement to them would be economically inefficient, and, if so, less extreme and equally effective remedies, such as equivalent positions, may be available)

8150-7777 Explain basis for decision

N.L.R.B. v. Horizon Air Services, Inc. 761 F.2d 22 (C.A. 1, Apr. 1985)

(Bd need not make independent findings or conduct separate analysis of factors prompting order if it specifically adopts findings and reasoning of ALJ)

Robert T. Ewing, an individual v. N.L.R.B. 768 F.2d 51 (C.A. 2, July 1985)

(because Bd mistakenly interpreted *concerted activities* literally in case in which Bd found Ee's layoff for complaining to OSHA not unlawful, ct reversed and remanded to Bd with directions either to provide sustainable basis for its definition of *concerted activities* as applied herein, or to reinstate ALJ's decision that layoff was unlawful)

Automobile Workers, Local 449 v. N.L.R.B. (National Lock Corp., et al.) 802 F.2d 969 (C.A. 7, Oct. 1986)

[ct set aside Bd's decision and remanded case to Bd where Bd's decision, that E did not unlawfully refuse to bargain over relocation of operations because U waived its statutory right to bargain over move, did not contain reasoned analysis of law and evidence]

Marie E. Darr v. N.L.R.B. (Cone Mills Corp.) 801 F.2d 1404 (C.A. D.C., Sept. 1986)

[ct remanded case to Bd to articulate its policy and reasons thereof on deferrals where arbitrator held that under contract Ee was fired w/o *just cause* for taking unscheduled break and engaging in protest, but Ee also guilty of insubordination in not leaving plant when ordered; under NLRA, discharge was unlawful as primary cause of discharge was her protected activity of protesting E's conduct; therefore, arbitrator ordered reinstatement but w/o backpay which is contrary to Bd's practice]

Local Union 1395, Electrical Workers v. N.L.R.B. (Indianapolis Power & Light Co.) 797 F.2d 1027 (C.A. D.C., Aug. 1986)

[Bd is free to substitute its own view of evidence for that of ALJ, and ct must respect Bd's findings of fact if supported by substantial evidence; but ct may not *presume* that Bd made findings of fact necessary to definsible decision where Bd did not explain, or even recognize, any departure from ALJ's view of evidence; accordingly, Bd's decision reversed and case remanded to Bd for further proceedings]

8150-7779 Successorship determination

Aquabrom, Division of Great Lakes Chemical Corp., as Successor To Bromine Division, Drug Research, Inc. Tesco Chemicals v. N.L.R.B. 746 F.2d 334 (C.A. 6, Oct. 1984)

[where Bd had ordered present E to bargain based on prior E's refusal to do so w/o deciding whether present E was prior E's successor and asked ct to hold present E in contempt for not complying with ct order enforcing Bd's bargaining order, ct decided that, despite special master's hearing on successorship, Bd was proper forum to determine successorship and remanded case to Bd to determine successorship and whether E's claimed structural changes in operations rendered it not liable as successor]

8150-7780 Successor employer liability

Aquabrom, Division of Great Lakes Chemical Corp., as Successor To Bromine Division, Drug Research, Inc. Tesco Chemicals v. N.L.R.B. 746 F.2d 334 (C.A. 6, Oct. 1984)

[where Bd had ordered present E to bargain based on prior E's refusal to do so w/o deciding whether present E was prior E's successor and asked ct to hold present E in contempt for not complying with ct order enforcing Bd's bargaining order, ct decided that, despite special master's hearing on successorship, Bd was proper forum to determine successorship and remanded case to Bd to determine successorship and whether E's claimed structural changes in operations rendered it not liable as successor]

[in finding that Bd applied wrong standard in determining that U's picketing of general contractors on behalf of independent contractors for better leasing agreement terms was unlawful, ct remanded to Bd so that it may apply correct standard: 8(b)(4) does not exclude U involvement in all picketing by

8150-7785—Cont.

independent contractors; rather, its proscription is limited to picketing against neutral parties]

Local Union No. 501, Electrical Workers v. N.L.R.B. 756 F.2d 888 (C.A.D.C., Apr. 1985)

(remand to Bd to determine if U could have conveyed its grievance to public at site other than neutral gate which U chose to picket in lieu of picketing at primary gate which was located on dead end alley, unused by public, since communicating grievance to members of public is important aspect of area standards picketing)

8150-7790 Fairness of arbitration proceedings

N.L.R.B. v. Wolff & Munier, Inc. 747 F.2d 156 (C.A. 3, Oct. 1984)

[where Bd assertedly refused to defer to joint committee's findings that dischargees were foremen and could be discharged at will for lack of evidence that the committee considered the ULP issue of whether they were discharged due to E's antiU motivation, ct remanded case to Bd to determine whether the committee findings resolved the statutory issue by deciding that the foremen were supervisors and not protected by the Act and whether the committee's findings were repugnant to the Act]

Veronica Lewis v. N.L.R.B. 800 F.2d 818 (C.A. 8, Sept. 1986)

[where Bd properly deferred issue concerning Ee's discharge to parties contractual grievance - arbitration procedures and retained jurisdiction for limited purpose of protecting Ee's contractual and statutory rights by making Bd's remedial powers available to rectify any result repugnant or inconsistent with Act, ct remanded to Bd for further consideration whether its retention of jurisdiction, limited by its terms to instances where E resisted or impeded arbitration, applied likewise to U in arbitration proceeding]

Marie E. Darr v. N.L.R.B. (Cone Mills Corp.) 801 F.2d 1404 (C.A. D.C., Sept. 1986)

[ct remanded case to Bd to articulate its policy and reasons thereof on deferrals where arbitrator held that under contract Ee was fired w/o *just cause* for taking unscheduled break and engaging in protest, but Ee also guilty of insubordination in not leaving plant when ordered; under NLRA, discharge was unlawful as primary cause of discharge was her protected activity of protesting E's conduct; therefore, arbitrator ordered reinstatement but w/o backpay which is contrary to Bd's practice]

N.L.R.B. v. Construction and General Laborers' Union Local No. 534, Laborers 778 F.2d 284 (C.A. 6, Dec. 1985)

[finding of violation by U's referring U steward ahead of other applicants reversed and remanded for consideration of whether incorporated thirty-year practice of referring U stewards separately where analysis of contract was erroneously confined to its *four corners*, but law of shop could have been shown to govern referral of stewards]

K & I Transfer & Storage, Inc. and City Cartage and Moving, Inc. v. N.L.R.B. 805 F.2d 749 (C.A. 7, Nov. 1986)

[where Bd failed to address E's application for fees incurred in its opposition to GC's mtn to amend C, ct held that, while its scope of review under EAJA was limited, it could not fulfill its responsibilities unless it had before it Bd's determination, and remanded case to Bd to make appropriate findings and conclusions]

Electrical Workers, Local 387 v. N.L.R.B. (Arizona Public Service Co.) 788 F.2d 1412 (C.A. 9, May 1986)

[sympathy strikers' suspension lawful based on new Bd rule that, absent extrinsic evidence of contrary intent, general no-strike clause waived right to engage in such strikes, reversed and remanded; Bd treated rule as establishing irrebutable presumption that broad no-strike clause barred such strike, rather than as shifting burden of proving whether clause was intended to encompass sympathy strikes. Bd relied on clause and U letter disavowing strike w/o discussing intent, prior rule's impact on contract's meaning, tterms, or negotiations, and parties; conduct under it as rule required]

Hospital & Service Employees Union, Local 399 v. N.L.R.B. ———F.2d——— (C.A. 9, Oct. 1984)

[ct remanded to Bd 8(b)(4) coercion issue arising from U's handbilling of secondary E for clarification, final resolution, and further hearings if necessary, consistent with ct's opn; instant case does not present exceptional situation in which crystal-clear error renders remand an unnecessary formality; instead, remand allows Bd to cast its expertise on full and complete resolution of this important issue, and remand gives proper deference to Bd as steward of nation's labor laws]

8150-8800 Modification of order

Food and Commercial Workers, Local 152 v. N.L.R.B. 768 F.2d 1463 (C.A. D.C., July 1985)

(ct, remanded to Bd to fashion remedy although agreeing ALJ's recommended remedy would provide more effective relief than that of Bd, since any enlargement of remedial order should not be undertaken unilaterally by cts, but undertaken by Bd on remand)

8600 COSTS AND FEES

Palmas Del Mar Company v. N.L.R.B. 797 F.2d 39 (C.A. 1, July 1986)

[where ptn for review, in light of evidence and findings of Bd, was frivolous, ct assessed petitioner double costs and reasonable attorney's fees in amount of $3,000]

8667 AWARDS UNDER FRAP 38 (Damages for delay)

Herrick & Smith v. N.L.R.B. 802 F.2d 565 (C.A. 1, Sept. 1986)

[costs charged against Bd where ct found case to be burden on its time for review because it involved single question of fact and was most inflated case about minimum matter with extraordinarily voluminous record and lengthy ALJ decision; ct felt justified in saying that, while GC may present any case he wants to, instant case had become gross imposition that Bd, with its supervisory authority over trial counsel and ALJ, should never have inflicted on ct]

Sure-Tan, Inc., et al. v. N.L.R.B. ———U.S.——— (US S.CT, June 1984)

(sanctions of imprisonment and monetary fines are available in both civil and criminal contempt proceedings; however, imprisonment and/or fine imposed in criminal contempt proceeding is culmination of typical criminal trial in which contemnor is punished by way of sentence; in contrast, civil contempt judgment results in imprisonment or conditional fine to induce purging of contemptuous conduct)

In re Martha R. Kave — 760 F.2d 343 (C.A. 1, Mar. 1985)

2017 JURISDICTION OF U.S. DISTRICT COURTS

N.L.R.B. v. Brown Transport Corporation **620 F.Supp. 648 (DC N.D. IL, Oct. 1985)**

[E's contention that ALJ's rejection of parts of subpoena operated to revoke entire subpoena and thus ct has no jurisdiction to consider Bd's application for enforcement of subpoena since E has not refused to obey issued subpoena, rejected, inasmuch as partial invalidity of subpoena does not infect remainder]

2029 STANDARD OF REVIEW

N.L.R.B. v. Americana Healthcare Center **782 F.2d 941 (C.A. 11, Feb. 1986)**

[when federal ct is asked for injunctive or other prospective relief, *...the standards of the public interest, not the requirements of private litigation, measure the propriety and need for injunctive relief in these cases.* Even if U were plaintiff in a civil suit, its negligence (not reading final negotiated contract in instant case) would not bar reformation and enforcement of the contract as reformed]

N.L.R.B. v. Brown Transport Corporation **620 F.Supp. 648 (DC N.D. IL, Oct. 1985)**

[district ct has extremely narrow scope of review of subpoenas issued by Bd in proceedings to enforce such subpoenas, even though ALJ has rejected parts of subpoena but ct may restrict subpoena issued by Bd where it would impose unreasonable or undue burden on party from whom production is sought]

2033 SCOPE OF COURT INQUIRY

2033-4000 Administrative regularity of issuance of subpoena

N.L.R.B. v. Brown Transport Corporation **620 F.Supp. 648 (DC N.D. IL, Oct. 1985)**

[E's contention that ALJ's rejection of parts of subpoena operated to revoke entire subpoena and thus ct has no jurisdiction to consider Bd's application for enforcement of subpoena since E has not refused to obey issued subpoena, rejected, inasmuch as partial invalidity of subpoena does not infect remainder]

2033-8000 Relevance of materials requested or testimony sought to matters under investigation

N.L.R.B. v. Brown Transport Corporation **620 F.Supp. 648 (DC N.D. IL, Oct. 1985)**

[subpoena of names of Ees who were terminated during their probationary period related to allegations of unlawful discharge of allegedly probationary Ee and upheld, since such documents, even those concerning termination procedures at E's facilities other than one at which Ee had been employed, relevant to whether Ee was terminated pursuant to E's termination procedures for probationary Ees rather than for his activities on behalf of competing U]

N.L.R.B. v. Brown Transport Corporation **620 F.Supp. 648 (DC N.D. IL, Oct. 1985)**

[subpoena not overly broad where requested material necessary to examination of E's structual organization since C alleged application of bargaining agreements to Ees outside bargaining unit]

2050-2000 List of employees and employment data

2083-5600 Hardship

N.L.R.B. v. Brown Transport Corporation **620 F.Supp. 648 (DC N.D. IL, Oct. 1985)**

[E's assertion that it would take two people two weeks to review files to produce documents sought, at cost of approximately $5,000, did not establish burdensomeness, absent evidence compliance would threaten E's normal operations and affidavit to support conclusory assertion to that effect]

4000 INJUNCTIVE RELIEF UNDER SECTION 10(j)

4001 GENERALLY

4001-5000 Nature of proceeding

Arthur Eisenberg, etc., et al. v. Tubari, Ltd., Inc. **_____ F.Supp._____ (DC NJ, July 1985)**

[in 10(j) proceeding, ct held issues arising in 8(a)(2) cases, especially when assistance to favored U is rendered in connection with organizing drive by rival U, cannot be delegated to arbitration since it would impact on Ees' choice of bargaining representative, a matter exclusively w/i expertise of Bd]

4001-7500 Purpose of proceeding to maintain status quo pending Board determination

N.L.R.B. v. Ona Corporation, a division of Onan Corporation **605 F.Supp. 874 (DC N.D. AL, Mar. 1985)**

]Section 10(j) of Act authorizing RD to apply to district ct for temporary inj in ULP cases to preserve status quo pending NLRB procedures mandates considerable deference by district ct to RD's decision to petition for temporary relief]

4008 COURT PROCEDURE

4008-6000 Parties

Kobell v. Thorsen Tool Co. **_____ F.Supp._____ (DC M.D. PA, Dec. 1982)**

[international U has standing to file ULP charges against E, notwithstanding contention that since bargaining agreement only with local U and thus E need only bargain with local, thus, local would be only party with standing to file charges herein, where several sections of contract, such as provision for grievance procedure, require that international play a role, preamble to contract cites local as affiliated with international, international representative participated in negotiations leading to agreement, and signed contract as agent of international]

4008-8000 Intervention

4008-8067 Persons other than charging party

Arthur Eisenberg, etc., et al. v. Tubari, Ltd., Inc. **_____ F.Supp._____ (DC NJ, July 1985)**

[mtn by incumbent U to intervene in 10(j) proceeding arising from rival U's filing of ULP charges against E, granted, where incumbent U was party to Bd proceedings and entitled to intervene under FRCP as matter of right or permissively; while incumbent U's only cognizable interest was representation of E's Ees, it will be impeded in its attempts to represent interest of current Ees whose jobs were jeopardized by Bd's seeking in instant proceeding reinstatement of certain Ees]

4016 TEMPORARY RESTRAINING ORDER

4016-7500 Criteria for granting

4016-7533 Imminent danger of irreparable injury

Joseph H. Solien, RD (NLRB) v. Automotive, Petroleum and Allied Industries Employees Union, Local No. 618, etc. F.Supp.——(DC E.D. MO, Jan. 1984)

[subsequent Bd order would be rendered in effectual as financial strain of strike might pressure E into acceding to Us' allegedly unlawful conditions that E execute area agreement and state riders where E and Us agreed on contract which U asserted was only local addendum to area agreement and state riders which must be agreed to also by E, and economic losses would not be recoverable in actions for damages because alleged ULPs were peaceful in nature]

4032 SCOPE OF COURT INQUIRY

4032-6700 **Reasonable cause to believe unfair labor practice has occurred**

Robert S. Fuchs, RD (NLRB) v. Jet Spray Corporation 725 F.2d 664 (C.A. 1, Oct. 1983)

[in granting temporary inj pursuant to Section 10(j) district ct must make two decisions: that reasonable cause to believe that ULP's have been committed and that requested relief is just and proper]

Gerald Kobell, RD (NLRB) v. Suburban Lines, Inc. 721 F.2d 1076 (C.A. 3, Mar. 1984)

[appellate ct adopted bifurcated standard for reviewing legal and factual issue components of district ct's reasonable cause determination whereby determination of whether there was an explicit or implicit legal theory to support ULP finding was subject to plenary review, and determination of facts and whether facts satisfied legal theory was subject to clearly erroneous standard of review]

Kobell v. Thorsen Tool Co. F.Supp.——(DC M.D. PA, Dec. 1982)

[*reasonable cause to believe violations of Act have occured exists when RD has made out prima facie case of violations by Respondent. Once prima facie case has been shown, injunctive relief appropriate where district ct believes inj is in public interest and would not serve solely to vindicate purely private rights. Of major consideration in this regard is need to preserve status quo*]

Kobell v. Thorsen Tool Co. F.Supp.——(DC M.D. PA, Dec. 1982)

[temporary inj not granted in regard to E's alleged refusal to turn over to U its financial books and records for U to determine profitability of E's plant whose work was being relocated to out-of-state location, but did turn over charts and graphs on which relocation decision based since no reasonable cause to believe Act vidated and inj against further refusals to comply with request for financial records would be unjust and improper]

George Squillacote, RD (NLRB) v. U.S. Marine Corporation, a wholly owned subsidiary of Bayliner Marine Corporation F.Supp.——(DC E.D. WI, May 1984)

[inj granted pending decision by Bd on charge of Sec. 8(a)(5) violation for refusal to furnish information and to bargain by purchaser with U that represented Ees of seller, and interim bargaining order granted in order to prevent irrepable decimation of U's strength among Ees, and protect public interest, since cause to believe Act violated where E's position that it could delay bargaining obligations until full complement of Ees hired had been rejected by circuit ct]

4032-6701 Generally

Arthur Eisenberg, etc., et al. v. Tubari, Ltd., Inc. F.Supp.——(DC NJ, July 1985)

[in order to be entitled to 10(j) relief, RD must satisfy ct (1) that there is *reasonable cause* to believe violation of Act has been committed, and (2) that issuance of injunction would be *just and proper* under circumstances presented]

Arthur Eisenberg, etc., et al. v. Tubari, Ltd., Inc. F.Supp.——(DC NJ, July 1985)

[under law of circuit, district ct may not deny 10(j) relief for lack of reasonable cause unless it finds (1) that there is no legal theory implicit or explicit in RD's argument that is substantial and not frivolous, or (2) that taking facts in light most favorable to Bd there is insufficent evidence to support any non-frivolous theory appropriate to case; and ct of appeals has characterized this standing as *low threshold of proof* and that such burden faced by RD is *relatively insubstantial*]

Joseph A. Szabo, Acting RD v. Capital Freight Lines, Inc. F.Supp.——(DC W.D. WI, May 1984)

[in determining reasonable cause, district ct must determine only whether there is reasonable cause to believe that elements of a ULP are present and that the RD is proceeding upon a theory that is substantial and not frivolous, drawing all reasonable inference in favor of petitioner, whose burden of proof is *relatively insubstantial*]

4032-6733 On facts

Gerald Kobell, RD (NLRB) v. Suburban Lines, Inc. 731 F.2d 1076 (C.A. 3, Mar. 1984)

[district ct's finding of no reasonable cause to believe unlawful refusal by successor E to hire predecessor's Ees had occurred, legally insufficient and erroenous; ct erroneously found that said Ees had not applied for employment, that anti-U animus need not be sole motive for E's action in order for it to be unlawful, and that E's improper behavior was not but-for cause of alleged harm since predecessor's Ees refused to work at successor E's proffered wage rates]

N.L.R.B. v. Ona Corporation, a division of Onan Corporation 605 F.Supp. 874 (DC N.D. AL, Mar. 1985)

]*In determining whether reasonable cause exists to believe that ULPs have been committed district ct need only decide that Bd's theories of law and fact are not insubstantial or frivolous*)

N.L.R.B. v. Ona Corporation, a division of Onan Corporation 605 F.Supp. 874 (DC N.D. AL, Mar. 1985)

]*Section 10(j) of Act authorizing RD to apply to district ct for temporary inj in ULP cases to preserve status quo pending NLRB procedures mandates considerable deference by district ct to RD's decision to petition for temporary relief*)

Glenn A. Zipp, RD (NLRB) v. Trout Express, Inc. F.Supp.——(DC N.D. IL, July 1985)

[reasonable cause existed to believe that newly established E and original E seeking disguised continuation as new E were *alter egos* and single E which will continue to engage in conduct calculated to avoid its bargaining obligation with U and to discriminate against Ees terminated upon original E's announcement, w/o prior notice to U, that it was going out of business, by failing to recognize and bargain with U and by refusing to hire dischharged Ees for discriminatory reasons]

Local 33, Marine and Shipbuilding Workers, and James C. Harmon, Executive Secretary, etc. v. Marine and Shipbuilding Workers F.Supp.——(DC MD, May 1984)

[*when reasonable cause to believe turns on disputed issues of fact, RD may assume these in favor of charge and district ct should sustain him if his choice is w/i range of rationality. If differing inferences may fairly be drawn from facts he has found, he may choose one more favorable to charging party, and this too should be upheld. Even on issues of law, district ct should be hospitable to views of GC, however novel*]

Arthur Eisenberg, etc., et al. v. Tubari, Ltd., Inc. F.Supp.——(DC NJ, July 1985)

[in 10(j) case involving incumbent U and charging party rival U seeking representation of E's Ees, ct held that drawing all reasonable inferences in favor of Bd and applying low threshold of proof under *reasonable cause* test, facts of case supported substantial legal theories of violations by E of 8(a)(1), (2), and (3), and that 10(j) relief requested was *right and proper* where facts did not rebut presumption of harm to bargaining process]

Arthur Eisenberg, etc., et al. v. Tubari, Ltd., Inc. F.Supp.——(DC NJ, July 1985)

[in 10(j) proceeding, ct held reasonable cause existed for belief that arbitrator's award, finding that suspension and subsequent discharge of Ee, were lawful and not based on Ee's protected activity, did not meet Bd's requirements for deferral]

Joseph A. Szabo, Acting RD v. Capital Freight Lines, Inc. F.Supp.——(DC W.D. WI, May 1984)

[ct found reasonable cause where circumstances suggested Ees were discharged in retaliation for, and to discourage, their organizing in violation of 8(a)(3); asking Ee how he voted and discharging him almost immediately thereafter and telling Ees that certifying U might result in Ees being laid off suggested violation of 8(a)(1); and E's delaying tactics in negotiations, including failure to provide requested information as to its financial condition, suggested violation of 8(a)(5)]

4032-6767 As matter of law

Gerald Kobell, RD (NLRB) v. Suburban Lines, Inc. **731 F.2d 1076 (C.A. 3, Mar. 1984)**

[district ct's finding of no reasonable cause to believe unlawful refusal by successor E to hire predecessor's Ees had occurred, legally insufficient and erroneous; ct erroneously found that said Ees had not applied for employment, that anti-U animus need not be sole motive for E's action in order for it to be unlawful, and that E's improper behavior was not but-for cause of alleged harm since predecessor's Ees refused to work at successor E's proffered wage rates]

N.L.R.B. v. Ona Corporation, a division of Onan Corporation **605 F.Supp. 874 (DC N.D. AL, Mar. 1985)**

]In determining whether reasonable cause exists to believe that ULPs have been committed district ct need only decide that Bd's theories of law and fact are not unsubstantial or frivolous]

Local 33, Marine and Shipbuilding Workers, and James C. Harmon, Executive Secretary, etc. v. Marine and Shipbuilding Workers **F.Supp.——(DC MD, May 1984)**

[when reasonable cause to believe turns on disputed issues of fact, RD may assume these in favor of charge and district ct should sustain him if his choice is w/i range of rationality. If differing inferences may fairly be drawn from facts he has found, he may choose one more favorable to charging party, and this too should be upheld. Even on issues of law, district ct should be hospitable to views of GC, however novel]

4032-8300 Equitable necessity

Robert S. Fuchs, RD (NLRB) v. Jet Spray Corporation **725 F.2d 664 (C.A. 1, Oct. 1983)**

[in granting temporary inj pursuant to Section 10(j) district ct must make two decisions: that reasonable cause to believe that ULP's have been committed and that requested relief is just and proper]

Gerald Kobell, RD (NLRB) v. Suburban Lines, Inc. **731 F.2d 1076 (C.A. 3, Mar. 1984)**

[district ct should determine whether failure to grant 10(j) inj would prevent Bd, acting with reasonable expedition, from exercising its ultimate remedial powers because of passage of time due to adjudication; ct's factual findings should not be disturbed under abuse of discretion standard unless clearly erroneous, or its decision reversed unless its undisturbed factual findings do not substantially relate to its conclusions; inj, however, is not substitute for Bd order, and, in determining whether to grant it, ct should give evidentiary weight to any unexplained delay by Bd which allows change in status quo]

Gerald Kobell, RD (NLRB) v. Suburban Lines, Inc. **731 F.2d 1076 (C.A. 3, Mar. 1984)**

[denial of inj affirmed since, although district ct erred in finding no reasonable cause to believe ULP had occurred, it did not, in absence of contrary factual showing, impermissibly err in holding that, because small and intimate U herein could easily reconstitute itself upon Bd's reinstatement of its members that successor E had allegedly refused to hire, interim reinstatement pursuant to 10(j) inj was not just and proper]

4039 CRITERIA FOR GRANT OF RELIEF

4039-2000 Purpose of Act frustrated absent relief

N.L.R.B. v. Ona Corporation, a division of Onan Corporation **605 F.Supp. 874 (DC N.D. AL, Mar. 1985)**

]Section 10(j) relief is appropriate when Ee or U has committed such egregious ULPs that any final order of Bd will be meaningless or so devoid of force that remedial purposes of Act will be frustrated]

Joseph G. Norton, Acting RD (NLRB) v. New Hope Industries, Inc., and its alter ego and owner, Emil Brandt Thiac **F.Supp.——(DC M.D. LA, June 1985)**

[TRO and inj granted where ct found that acting RD had reasonable cause to believe that Respondent engaged in various ULPs which would give rise to Respondents' liability for backpay to unlawfully discharged strikers and that Respondent threatened to dissipate its assets and close plant, which it did, prior to any Bd backpay remedy]

Joseph H. Solien, RD (NLRB) v. Automotive, Petroleum and Allied Industries Employees Union, Local No. 618, etc. **F.Supp.——(DC E.D. MO, Jan. 1984)**

[subsequent Bd order would be rendered in effectual as financial strain of strike might pressure E into acceding to Us' allegedly unlawful conditions that E execute area agreement and state riders where E and Us agreed on contract which U asserted was only local addendum to area agreement and state riders which must be agreed to also by E, and economic losses would not be recoverable in actions for damages because alleged ULPs were peaceful in nature]

Kobell v. Thorsen Tool Co. **F.Supp.——(DC M.D. PA, Dec. 1982)**

[purpose of Sec. 10(j) proceeding is to preserve or restore status quo and prevent frustration of national labor policy pending resolution of charges before NLRB. Three factors are said to be relevant in determining whether Sec. 10(j) relief is appropriate: (1) traditional equitable considerations such as need to preserve or restore status quo; (2) need to prevent frustration of basic remedial purposes of Act; and (3) degree to which public interest is affected by continuing violation]

Joseph A. Szabo, Acting RD v. Capital Freight Lines, Inc. **F.Supp.——(DC W.D. WI, May 1984)**

[inj to prevent dissipation of E's assets so that any Ees ultimately found to have been wronged would not be w/o remedy held just and proper so as to prevent frustration of national labor policy]

4039-4000 Threat to public interest

Arthur Eisenberg, etc., et al. v. Tubari, Ltd., Inc. **F.Supp.——(DC NJ, July 1985)**

[in regard to question of whether 10(j) injunction reinstating discharged Ees is *just and proper*, ct's principal determination is whether, absent 10(j) relief, ultimate remedial power of Bd would be undermined; because in seeking such relief Bd is acting in public interest, neither private interest of discharged Ees nor that of E and its replacement Ees is dispositive of propriety of 10(j) relief]

Kobell v. Thorsen Tool Co. **F.Supp.——(DC M.D. PA, Dec. 1982)**

[purpose of Sec. 10(j) proceeding is to preserve or restore status quo and prevent frustration of national labor policy pending resolution of charges before NLRB. Three factors are said to be relevant in determining whether Sec. 10(j) relief is appropriate: (1) traditional equitable considerations such as need to preserve or restore status quo; (2) need to prevent frustration of basic remedial purposes of Act; and (3) degree to which public interest is affected by continuing violation]

George Squillacote, RD (NLRB) v. U.S. Marine Corporation, a wholly owned subsidiary of Bayliner Marine Corporation **F.Supp.——(DC E.D. WI, May 1984)**

4039-6000 Imminent danger of irreparable harm

Glenn A. Zipp, RD (NLRB) v. Trout Express, Inc. **F.Supp.——(DC N.D. IL, July 1985)**

[where it could fairly be anticipated that, unless enjoined, E will continue conduct calculated to avoid its bargaining obligation with U and discriminate against terminated Ees by refusing to recognize and bargain with U and by refusing to hire discharged Ees, ct enjoined E from commission or continuation, and repetition of similar acts and conduct for purpose of avoiding substantial irreparable, immediate and continuing injury to Act's policies]

Local 33, Shipbuilders v. Shipbuilders (Louis J. D'Amico, RD, N.L.R.B.) **F.Supp.——(DC MD, Feb. 1985)**

[Respondent's mtn to dissolve 10(j) injunction, on grounds that ALJ had issued decision recommending dismissal of C in its entirety, denied since decision of ALJ is not *final agency action* where, on review, Bd may decide to make *de novo* determination of the facts and is free to draw its own inferences from the record, and Bd may decline to follow ALJ's findings even as to credibility of witnesses (and a number of GC's exceptions in instant case deal with issues of credibility which are not solely dependent for their resolution on demeanor)]

Joseph H. Solien, RD (NLRB) v. Automotive, Petroleum and Allied Industries Employees Union, Local No. 618, etc. **F.Supp.——(DC E.D. MO, Jan. 1984)**

Arthur Eisenberg, etc., et al. v. Tuhari, Ltd., Inc.
F.Supp.————(DC NJ, July 1985)

[in ordering reinstatement of discharged supporters of U challenging incumbent U's representation of Ees, ct held unremedied discharge of such Ees risks serious impact on Ee support for rival U; if discharged Ees were not reinstated for many months, rival U would likely lose momentum of its organizing drive, and Bd would be unable to remedy such effects with ultimate reinstatement; consequently, presumption of harm to bargaining process was not rebutted by facts on record, and issuance of 10(j) reinstatement relief would be *just and proper*]

4039-7000 Resumption or continuation of conduct

N.L.R.B. v. Ona Corporation, a division of Onan Corporation
605 F.Supp. 874 (DC N.D. AL, Mar. 1985)

[Section 10(j) relief is appropriate when Ee or U has committed such egregious ULPs that any final order of Bd will be meaningless or so devoid of force that remedial purposes of Act will be frustrated]

Glenn A. Zipp, RD (NLRB) v. Trout Express, Inc.
F.Supp.————(DC N.D. IL, July 1985)

[where it could fairly be anticipated that, unless enjoined, E will continue conduct calculated to avoid its bargaining obligation with U and discriminate against terminated Ees by refusing to recognize and bargain with U and by refusing to hire discharged Ees, ct enjoined E from commission or continuation, and repetition of similar acts and conduct for purpose of avoiding substantial irreparable, immediate and continuing injury to Act's policies]

4039-8000 Maintenance of status quo

Samuel M. Kaynard, RD (NLRB) v. MMIC, Inc.
734 F.2d 980 (C.A. 2, May 1984)

[interim bargaining order rather than c/d order proper relief in instant case under Section 10(j) of Act, c/d order would have effect only of freezing post-election situation; bargaining order restores status quo of conditions as they existed before E's unlawful campaign; namely, E must bargain with majority representative]

Local 33, Shipbuilders v. Shipbuilders (Louis J. D'Amico, RD, N.L.R.B.)
F.Supp.————(DC MD, Feb. 1985)

[Respondent's mtn to dissolve 10(j) injunction, on grounds that ALJ had issued decision recommending dismissal of C in its entirety, denied since decision of ALJ is not *final agency action* where, on review, Bd may decide to make *de novo* determination of the facts and is free to draw its own inferences from the record, and Bd may decline to follow ALJ's findings even as to credibility of witnesses (and a number of GC's exceptions in instant case deal with issues of credibility which are not solely dependent for their resolution on demeanor)]

Arthur Eisenberg, etc., et al. v. Tuhari, Ltd., Inc.
F.Supp.————(DC NJ, July 1985)

[in 10(j) case involving incumbent U and charging party rival U seeking representation of E's Ees, ct held that drawing all reasonable inferences in favor of Bd and applying low threshold of proof under *reasonable cause* test, facts of case supported substantial legal theories of violations by E of 8(a)(1), (2), and (3), and that 10(j) relief requested was *right and proper* where facts did not rebut presumption of harm to bargaining process]

Arthur Eisenberg, etc., et al. v. Tuhari, Ltd., Inc
F.Supp.————(DC NJ, July 1985)

[it is abuse of discretion for district ct to deny 10(j) relief reinstating discharged Ees simply because Bd could order reinstatement with back pay at later date; where Bd, faced with E tactics undermining U support, seeks 10(j) relief, focus should not be on what relief may ultimately be granted Ees but on likelihood of harm to bargaining process in interim; and presumption is that where reasonable cause exists to believe U supporters have been unlawfully discharged, ultimate reinstatement is unlikely adequately to vindicate Bd's remedial powers]

Arthur Eisenberg, etc., et al. v. Tuhari, Ltd., Inc.
F.Supp.————(DC NJ, July 1985)

[in ordering reinstatement of discharged supporters of U challenging incumbent U's representation of Ees, ct held unremedied discharge of such Ees risks serious impact on Ee support for rival U; if discharged Ees were not reinstated for many months, rival U would likely lose momentum of its organizing drive, and Bd would be unable to remedy such effects with ultimate reinstatement; consequently, presumption of harm to bargaining process was not rebutted by facts on record, and issuance of 10(j) reinstatement relief would be *just and proper*]

4043-2500 Adequate business reason

Kobell v. Thorsen Tool Co.
F.Supp.————(DC M.D. PA, Dec. 1982)

[inj not granted in regard to lay off of Ees following decision to relocate operations to location in another state, since no reason to believe Act violated, where no showing supporting contention Ees laid off for U activities or as result of E's attempt to avoid reaching agreement with U over relocation; E able to show that layoffs were result of shortage of work]

4043-5000 Delay in seeking injunction

Joseph H. Solien, RD (NLRB) v. Automotive, Petroleum and Allied Industries Employees Union, Local No. 618, etc.
F.Supp.————(DC E.D. MO, Jan. 1984)

[seven-month delay between most recent ULPs alleged by E and Bd's request for relief was excusable because E filed charges more than two months after strike began and 5 month delay between time charges filed and Bd requested relief may not be attributed to Bd and preclude requested relief]

4043-7500 Noncoercive communication

Kobell v. Thorsen Tool Co.
F.Supp.————(DC M.D. PA, Dec. 1982)

[temporary inj enjoining E who had unilaterally decided to relocate bargaining unit work to out of state facility from conducting meetings with Ees to explain move w/o notifying U, denied, absent evidence E acted in coercive manner, since Act does not prohibit es from communicating provisions of bargaining offers directly to Ees in non-coercive manner]

4047 SCOPE OF RELIEF

4047-5000 Persons affected

Glenn A. Zipp, RD (NLRB) v. Trout Express, Inc.
F.Supp.————(DC N.D. IL, July 1985)

[E ordered to offer immediate employment to Ees who were terminated when E announced, w/o prior notice to U, that it was going out of business and then established new E as disguised continuation, or alter ego, of old business in order to avoid its bargaining obligation with U]

4047-8300 Duration

Joseph H. Solien, RD (NLRB) v. Automotive, Petroleum and Allied Industries Employees Union, Local No. 618, etc.
F.Supp.————(DC E.D. MO, Jan. 1984)

[injunctive orders shall remain in effect until Bd or E certified to ct that a) U has resumed bargaining in good faith; or b) date 6 months and 5 days after temporary inj order]

Kobell v. Thorsen Tool Co.
F.Supp.————(DC M.D. PA, Dec. 1982)

[ct of appeals has ruled that Sec. 10(j) inj should include explicit time limitations which do not exceed 6 months. Thus herein inj to restrain E from relocating operations effective for no more than 6 months, which is ample time for NLRB to decide merits of ULP charges; further, in little more than 6 months agreement between E and U will expire, and upon expiration, E may relocate after negotiating to impasse with U. Thus it would be inappropriate to enjoin E from relocating work after expiration of agreement, absent evidence it failed to bargain in good faith]

4055 COURT DECISION

4055-6700 Ultimate relief is for Board

4055-6700—Cont.

Arthur Eisenberg, etc., et al. v. Tubari, Ltd., Inc. ——— F.Supp.———(DC NJ, July 1985)

[10(j) was designed to enable Bd to vindicate its ultimate remedial power by affording limited interim relief where failure to grant such relief until case is adjudicated on its merits might dissipate effective exercise of such power; by same token, relief to be granted is only that reasonably necessary to preserve ultimate remedial power of Bd and is not to be substitute for exercise of that power]

Arthur Eisenberg, etc., et al. v. Tubari, Ltd., Inc. ——— F.Supp.———(DC NJ, July 1985)

[in regard to question of whether 10(j) injunction reinstating discharged Ees is *just and proper,* ct's principal determination is whether, absent 10(j) relief, ultimate remedial power of Bd would be undermined; because in seeking such relief Bd is acting in public interest, neither private interest of discharged Ees nor that of E and its replacement Ees is dispositive of propriety of 10(j) relief]

4057 COURT OF APPEALS REVIEW

4057-5000 Scope of review

4057-5025 Findings of fact

Gerald Kobell, RD (NLRB) v. Suburban Lines, Inc. 731 F.2d 1076 (C.A. 3, Mar. 1984)

[appellate ct adopted bifurcated standard for reviewing legal and factual issue components of district ct's reasonable cause determination whereby determination of whether there was an explicit or implicit legal theory to support ULP finding was subject to plenary review, and determination of facts and whether facts satisfied legal theory was subject to clearly erroneous standard of review]

Gerald Kobell, RD (NLRB) v. Suburban Lines, Inc. 731 F.2d 1076 (C.A. 3, Mar. 1984)

[district ct's finding of no reasonable cause to believe unlawful refusal by successor E to hire predecessor's Ees had occurred, legally insufficient and erroenous; ct erroneously found that said Ees had not applied for employment, that anti-U animus need not be sole motive for E's action in order for it to be unlawful, and that E's improper behavior was not but-for cause of alleged harm since predecessor's Ees refused to work at successor E's proffered wage rates]

4057-5050 Legal conclusions

Robert S. Fuchs, RD (NLRB) v. Jet Spray Corporation 725 F.2d 664 (C.A. 1, Oct. 1983)

[ct of appeals review of district ct's grant of temporary Section 10(j) inj is limited: ct of appeals must accept district ct detemination of reasonable cause, existed to believe Act violated unless factual findings clearly erroneous or conclusions of law in error, and that injunctive relief just and proper unless ct abused discretion]

Gerald Kobell, RD (NLRB) v. Suburban Lines, Inc. 731 F.2d 1076 (C.A. 3, Mar. 1984)

[appellate ct adopted bifurcated standard for reviewing legal and factual issue components of district ct's reasonable cause determination whereby determination of whether there was an explicit or implicit legal theory to support ULP finding was subject to plenary review, and determination of facts and whether facts satisfied legal theory was subject to clearly erroneous standard of review]

Gerald Kobell, RD (NLRB) v. Suburban Lines, Inc. 731 F.2d 1076 (C.A. 3, Mar. 1984)

[district ct's finding of no reasonable cause to believe unlawful refusal by successor E to hire predecessor's Ees had occurred, legally insufficient and erroenous; ct erroneously found that said Ees had not applied for employment, that anti-U animus need not be sole motive for E's action in order for it to be unlawful, and that E's improper behavior was not but-for cause of alleged harm since predecessor's Ees refused to work at successor E's proffered wage rates]

4057-5075 Need for equitable relief

Robert S. Fuchs, RD (NLRB) v. Jet Spray Corporation 725 F.2d 664 (C.A. 1, Oct. 1983)

[ct of appeals review of district ct's grant of temporary Section 10(j) inj is limited: ct of appeals must accept district ct detemination of reasonable cause, existed to believe Act violated unless factual findings clearly erroneous or conclusions of law in error, and that injunctive relief just and proper unless ct abused discretion]

Gerald Kobell, RD (NLRB) v. Suburban Lines, Inc. 731 F.2d 1076 (C.A. 3, Mar. 1984)

[district ct should determine whether failure to grant 10(j) inj would prevent Bd, acting with reasonable expedition, from exercising its ultimate remedial powers because of passage of time due to adjudication; ct's factual findings should not be disturbed under abuse of discretion standard unless clearly erroneous, or its decision reversed unless its undisturbed factual findings do not substantially relate to its conclusions; inj, however, is not substitute for Bd order, and, in determining whether to grant it, ct should give evidentiary weight to any unexplained delay by Bd which allows change in status quo]

Gerald Kobell, RD (NLRB) v. Suburban Lines, Inc. 731 F.2d 1076 (C.A. 3, Mar. 1984)

[denial of inj affirmed since, although district ct erred in finding no reasonable cause to believe ULP had occurred, it did not, in absence of contrary factual showing, impermissibly err in holding that, because small and intimate U herein could easily reconstitute itself upon Bd's reinstatement of its members that successor E had allegedly refused to hire, interim reinstatement pursuant to 10(j) inj was not just and proper]

4070 EMPLOYER CONDUCT INVOLVED

4070-0800 Assistance to union

Arthur Eisenberg, etc., et al. v. Tubari, Ltd., Inc. ——— F.Supp.———(DC NJ, July 1985)

[in 10(j) case involving incumbent U and charging party rival U seeking representation of E's Ees, ct held that drawing all reasonable inferences in favor of Bd and applying low threshold of proof under *reasonable cause* test, facts of case supported substantial legal theories of violations by E of 8(a)(1), (2), and (3), and that 10(j) relief requested was *right and proper* where facts did not rebut presumption of harm to bargaining process]

Arthur Eisenberg, etc., et al. v. Tubari, Ltd., Inc. ——— F.Supp.———(DC NJ, July 1985)

[in 10(j) proceeding, ct held issues arising in 8(a)(2) cases, especially when assistance to favored U is rendered in connection with organizing drive by rival U, cannot be delegated to arbitration since it would impact on Ees' choice of bargaining representative, a matter exclusively w/i expertise of Bd]

4070-1700 Discharges

N.L.R.B. v. Ona Corporation, a division of Onan Corporation 605 F.Supp. 874 (DC N.D. AL, Mar. 1985)

(inj ordering immediate reinstatement of U adherent, appropriate, in view of E's previous massive and coercive ULPs committed by Respondent during U's organizing efforts and need for a signal that further U activity will not cause kind of E retaliation that has occurred in past)

Arthur Eisenberg, etc., et al. v. Tubari, Ltd., Inc. ——— F.Supp.———(DC NJ, July 1985)

[in 10(j) case involving incumbent U and charging party rival U seeking representation of E's Ees, ct held that drawing all reasonable inferences in favor of Bd and applying low threshold of proof under *reasonable cause* test, facts of case supported substantial legal theories of violations by E of 8(a)(1), (2), and (3), and that 10(j) relief requested was *right and proper* where facts did not rebut presumption of harm to bargaining process]

4070-4200 Disposal of assets

Joseph G. Norton, Acting RD (NLRB) v. New Hope Industries, Inc., and its alter ego and owner, Enid Brandt Thiac ——— F.Supp.———(DC M.D. LA, June 1985)

[TRO and inj granted where ct found that acting RD had reasonable cause to believe that Respondent engaged in various ULPs which would give rise to Respondents' liability for backpay to unlawfully discharged strikers and that Respondent threatened to dissipate its assets and close plant, which it did, prior to any Bd backpay remedy]

4070-4600 Relocating unit work during midterm of contract

Kobell v. Thorsen Tool Co. ——— F.Supp.———(DC M.D. PA, Dec. 1982)

[inj granted enjoining E for six months from relocating operation to facility in another state w/o prior agreement with U, since there is reasonable cause to believe E's unilateral decision to relocate is violative, and there is need to preserve status quo since relocation would result in lay offs and have strong detrimental effect on Ees' support for U, and once relocation fait accompli Bd order for restoration of status quo might be considered unenforceable]

4070-5000 Refusal to recognize

Gerald Kobell, RD (NLRB) v. Suburban Lines, Inc. 731 F.2d 1076 (C.A. 3, Mar. 1984)

[where Bd sought inj to prevent successor Es' alleged unlawful elimination of U representing predecessor's Ees by discriminatorily refusing to hire them, district ct's denial of inj ordering reinstatement of predecessor's Ees held not impermissably erroneous and, in addition, dispositive of Bd's re-

4070-5000—Cont.

quest for order that E bargain with and honor contract with U representing predecessor's Ees and of need to decide issue of predecessor E's joint liability with successor E]

George Squillacote, RD (NLRB) v. U.S. Marine Corporation, a wholly owned subsidiary of Bayliner Marine Corporation

F.Supp.————(DC E.D. WI, May 1984)

[inj granted pending decision by Bd on charge of Sec. 8(a)(5) violation for refusal to furnish information and to bargain by purchaser with U that represented Ees of seller, and interim bargaining order granted in order to prevent irrepable decimation of U's strength among Ees, and protect public interest, since cause to believe Act violated where E's position that it could delay bargaining obligations until full complement of Ees hired had been rejected by circuit ct]

4070-5800 Refusal to honor contract

Gerald Kobell, RD (NLRB) v. Suburban Lines, Inc. 731 F.2d 1076 (C.A. 3, Mar. 1984)

[where Bd sought inj to prevent successor Es' alleged unlawful elimination of U representing predecessor's Ees by discriminatorily refusing to hire them, district ct's denial of inj ordering reinstatement of predecessor's Ees held not impermissably erroneous and, in addition, dispositive of Bd's request for order that E bargain with and honor contract with U representing predecessor's Ees and of need to decide issue of predecessor E's joint liability with successor E]

Local 33, Marine and Shipbuilding Workers, and James C. Harmon, Executive Secretary, etc. v. Marine and Shipbuilding Workers

F.Supp.————(DC MD, May 1984)

[Bd has traditionally not deferred to parties' expedited contractual grievance procedures where issue is whether new agreement was properly entered into and, therefore, valid]

4070-6700 Refusal to bargain in good faith

George Squillacote, RD (NLRB) v. U.S. Marine Corporation, a wholly owned subsidiary of Bayliner Marine Corporation

F.Supp.————(DC E.D. WI, May 1984)

[inj granted pending decision by Bd on charge of Sec. 8(a)(5) violation for refusal to furnish information and to bargain by purchaser with U that represented Ees of seller, and interim bargaining order granted in order to prevent irrepable decimation of U's strength among Ees, and protect public interest, since cause to believe Act violated where E's position that it could delay bargaining obligations until full complement of Ees hired had been rejected by circuit ct]

4070-8300 Discriminatory hiring practices

Gerald Kobell, RD (NLRB) v. Suburban Lines, Inc. 731 F.2d 1076 (C.A. 3, Mar. 1984)

[where Bd sought inj to prevent successor Es' alleged unlawful elimination of U representing predecessor's Ees by discriminatorily refusing to hire them, district ct's denial of inj ordering reinstatement of predecessor's Ees held not impermissably erroneous and, in addition, dispositive of Bd's request for order that E bargain with and honor contract with U representing predecessor's Ees and of need to decide issue of predecessor E's joint liability with successor E]

4078 UNION CONDUCT INVOLVED

4078-2800 Strikes

Joseph H. Solien, RD (NLRB) v. Automotive, Petroleum and Allied Industries Employees Union, Local No. 618, etc.

F.Supp.————(DC E.D. MO, Jan. 1984)

[reasonable cause existed to believe that financial strain of strike might pressure E into acceding to U's allegedly unlawful conditions that E execute area agreement and state riders also whereas E agreed on contract which U asserted was only local addendum to area agreement and state riders, and these latter contracts provided for grievance adjustment by representatives not of E's choosing]

4085 RELIEF AGAINST EMPLOYERS

4085-0800 Bargain with majority representative

Samuel M. Kaynard, RD (NLRB) v. MMIC, Inc. 734 F.2d 950 (C.A. 2, May 1984)

[bargaining order just and proper in 10(j) proceeding where election process has been rendered so meaningless by E's coercive ULPs that authorization cards are clearly superior gauge of Ee sentiment]

4085-3300 Reinstate employees

N.L.R.B. v. Ona Corporation, a division of Onan Corporation 605 F.Supp. 874 (DC N.D. AL, Mar. 1985)

(inj ordering immediate reinstatement of U adherent, appropriate, in view of E's previous massive and coercive ULPs committed by Respondent during U's organizing efforts and need for a signal that further U activity will not cause kind of E retaliation that has occurred in past)

Arthur Eisenberg, etc., et al. v. Tubari, Ltd., Inc.

F.Supp.————(DC NJ, July 1985)

[in ordering reinstatement of discharged supporters of U challenging incumbent U's representation of Ees, ct held unremedied discharge of such Ees risks serious impact on Ee support for rival U; if discharged Ees were not reinstated for many months, rival U would likely lose momentum of its organizing drive, and Bd would be unable to remedy such effects with ultimate reinstatement; consequently, presumption of harm to bargaining process was not rebutted by facts on record, and issuance of 10(j) reinstatement relief would be *just and proper*]

4093 RELIEF AGAINST UNIONS

4093-2000 Submit agreement to membership and/or execute agreed upon contract

Joseph H. Solien, RD (NLRB) v. Automotive, Petroleum and Allied Industries Employees Union, Local No. 618, etc.

F.Supp.————(DC E.D. MO, Jan. 1984)

[Us ordered to 1) c/d from insisting to impasse that E execute area agreement and state riders as these terms were not negotiated or agreed to by E and which provide for grievance adjustment by representatives not of E's choosing; 2) striking, picketing, or engaging in any other economic conduct against E; 3) in any other manner either failing or refusing to bargain in good faith or restrain or coerce E in its selection of representatives for collective bargaining or grievance adjustment]

6000 INJUNCTIVE RELIEF UNDER SECTION 10(l)

6001 GENERALLY

6001-6200 Jurisdiction of District Court

Fred A. Lewis, RD (NLRB) v. New Orleans Clerks & Checkers, I.L.A. Local No. 1497, etc., et al. 724 F.2d 1109 (C.A. 5, Jan. 1984)

[ct of appeals rejected contention that district ct had no jurisdiction to grant temporary 10(l) inj since may be granted only during preliminary investigation of charges and issues raised herein had been finally adjudicated by Bd in another case, and that application for inj should be made to ct of appeals in which that case on appeal; since instant case involves different local Us and factual context, and ct of appeals could not have jurisdiction pursuant to Sections 10(e) and (f) since Bd has not issued order in this case]

6007 PROCEDURE

6007-1400 Preliminary investigation by Board

Fred A. Lewis, RD (NLRB) v. New Orleans Clerks & Checkers, I.L.A. Local No. 1497, etc., et al. 724 F.2d 1109 (C.A. 5, Jan. 1984)

6021 SCOPE OF COURT INQUIRY

6021-5000 Standard of court's inquiry

6021-5072 Reasonable cause to believe Act has been violated

Fred A. Lewis, RD (NLRB) v. New Orleans Clerks & Checkers, I.L.A. Local No. 1497, etc., et al. 724 F.2d 1109 (C.A. 5, Jan. 1984)

[ct of appeals affirmed district ct's grant of Sec. 10(l) inj since ct did not abuse discretion in granting temporary inj and ct of appeals not convinced Bd could not find ULPs on underlying Sec. 8(e) and 8(b)(4)(ii)(B) charges, since Bd could reasonably conclude that rule, providing that longshoremen must transport shipping containers destined for short term storage, herein constituted unlawful work acquisition agreement, if work not diverted from pier by containerization, but work of longshoremen, historically duplicated by warehouse Ees, eliminated]

6021-5072—Cont.

[*in deciding whether to grant Section 10(e) inj. district ct is not to determine whether ULP has in fact been committed but simply to determine whether there is reasonable cause to believe violation of Act has occured. If there is reasonable basis on which RD would be able to sustain his charge before Bd. reasonable cause standard is satisfied*]

Fred A. Lewis, RD (NLRB) v. New Orleans Clerks & Checkers, I.L.A. Local No. 1497, etc., et al. 724 F.2d 1109 (C.A. 5, Jan. 1984)

[*in reviewing district ct's finding that reasonable cause exists to believe ULP charges ae true, ct must inquire into substantiality of RD's theories - not their correctness. Only if ct is convinced that Bd could not find ULPs or underlying charges should it reject finding of reasonable cause. [ct of appeals can only reject district ct's finding that there is reasonable cause to believe Act violated if convinced Bd could not find ULPs based on underlying charges. Statute authorizes district ct to grant temporary relief as it deems just and proper. Determination as to whether to grant equitable relief left to discretion of district ct. Ct of Appeals will only reverse grant of relief if it finds abuse of discretion]

6021-5081 Existence of ULP not within court's province

6049 GRANT OF RELIEF

6049-3700 Duration of injunction

6049-3767 Until final adjudication of Board

Fred A. Lewis, RD (NLRB) v. New Orleans Clerks & Checkers, I.L.A. Local No. 1497, etc., et al. 724 F.2d 1109 (C.A. 5, Jan. 1984)

[Section 10(l) inj proceedings are ancillary to main ULP case and any inj issued thereunder expires when Bd issues its final decision in underlying ULP proceeding]

6063 COURT OF APPEALS REVIEW

6063-6000 Scope of review

6063-6033 Findings of District Court will not be disturbed where not plainly erroneous

Fred A. Lewis, RD (NLRB) v. New Orleans Clerks & Checkers, I.L.A. Local No. 1497, etc., et al. 724 F.2d 1109 (C.A. 5, Jan. 1984)

Ct of Appeals will only reverse grant of relief if it finds abuse of discretion]

6091 DEFENSES

6091-3700 Dismissal of complaint by ALJ

Local 33, Shipbuilders v. Shipbuilders (Louis J. D'Amico, RD, N.L.R.B.)

F.Supp.————(DC MD, Feb. 1985)

[Respondent's mtn to dissolve 10(j) injunction, on grounds that ALJ had issued decision recommending dismissal of C in its entirety, denied since decision of ALJ is not *final agency action* where, on review, Bd may decide to make *de novo* determination of the facts and is free to draw its own inferences from the record, and Bd may decline to follow ALJ's findings even as to credibility of witnesses (and a number of GC's exceptions in instant case deal with issues of credibility which are not solely dependent for their resolution on demeanor)]

8000 INJUNCTIVE RELIEF UNDER SECTION 10(e)

867 PROCEEDINGS COLLATERAL TO BOARD PROCEEDINGS

0100 GENERALLY

2500 PROCEEDINGS AGAINST AGENCY

2501 GENERALLY

N.L.R.B. v. Superior Fowarding, Inc. 763 F.2d 695 (C.A. 8, May 1985)

(bankruptcy ct had discretion and authority to enjoin federal regulatory proceedings when those proceedings would threaten debtor's estate, and when ct has jurisdiction over ptn in bankruptcy under 28 U.S.C. Sec. 1471)

Adventist Living Centers, Inc. d/b/a River Pines Community Health Center v. N.L.R.B. F.Supp.——(DC N.D. IL, Mar. 1985)

[district cts generally do not have jurisdiction to enjoin Bd from conducting R or ULP proceedings; exclusive means of obtaining judicial review of Bd rulings is in ct of appeals with only two exceptions to this congressionally mandated procedural route as recognized by US S.CT: (1) plain violations of Act by Bd; and (2) questions of national interest with international implications]

2501-5000 Exhaustion of administrative remedies

Telephone Commerical Employees Union v. Arthur Eisenberg, RD (NLRB) 587 F.Supp. 546 (DC E.D. IL, July 1984)

[plaintiff U's mtn for summary judgment on its requested inj to require RD to hold hearing on unit clarification ptn before Ees can be deprived of plaintiff's representation, denied, as plaintiff has not exhausted administrative remedies since unit clarification ptn still pending and RD may yet order hearing, but if RD grants ptn w/o holding hearing, plaintiff may obtain review by Bd of RD's decision not to hold hearing]

2520 PROCEEDINGS TO ENJOIN OR MANDAMUS BOARD ACTION

2520-0100 Generally

Sheetmetal Workers, Local Union No. 263 v. N.L.R.B. ——F.2d—— (DC N.D. IA, Mar. 1984)

[in district ct, action by U seeking inj restraining Bd from proceeding to hear ULP charge filed by E association against U, dismissed for lack of subject matter jurisdiction, since Bd has sole authority, subject to review in cts of appeals, to administer Act's provisions, and U failed to show that instant case falls w/i any exception to general principle that Bd proceedings are not reviewable in district cts]

2520-6200 Jurisdiction of court

2520-6201 Generally

N.L.R.B. v. Superior Fowarding, Inc. 763 F.2d 695 (C.A. 8, May 1985)

(controversy between parties not rendered moot by settlement agreement where agreement provided unambiguously that ULP charges conditionally withdrawn could be reinstated)

Teamsters Local Union No. 435 v. W. Bruce Gillis, Jr., RD (NLRB & Super Valu Stores, Inc.) ——F.2d—— (DC CO, Mar. 1986)

[plaintiff's mtn for preliminary inj to prevent R hearing on UC ptn, concerning whether single or two city warehouse unit of Ee's is covered by contract with U, denied, since ct could not say that in scheduling hearing for *unit clarifications,* Regional Director is proceeding in excess of his authority and *contrary to a specific prohibition in the Act.* Preemptive order from the District Ct would be contrary to public policy of limited judicial involvement in disputes arising under NLRA]

2520-6201-5000 Board actions reviewable under Sections 10(e) and (f)

Adventist Living Centers, Inc. d/b/a River Pines Community Health Center v. N.L.R.B. F.Supp.——(DC N.D. IL, Mar. 1985)

[what remains of *Fay v. Douds* doctrine that claim concerning denial of constitutional right which is not asserted in district ct, transparently frivolous *applies only to situations where party seeking to invoke equity jurisdiction of district ct asserts vested property right with respect to collective bargaining contract where he has no way of ultimately obtaining judicial review;* not where alleged constitutional violation, as here, is hardly *violation of right;* plaintiff will have opportunity to raise constitutional issue before ct of appeals]

Centra, Inc., et al. v. Peter W. Hirsch, RD (NLRB) 606 F.Supp. 530 (DC E.D. PA, Apr. 1985)

[petitioning Es' claim that district ct had jurisdiction under 28 U.S.C. Sec. 1331, which grants it jurisdiction over constitutional questions, to compel Bd to postpone pending ULP hearing and c/d from prosecuting pending 10(j) inj because Bd had denied their due process rights by refusing to postpone ULP hearing, rejected, since district ct cannot exercise jurisdiction under 28 U.S.C. Sec. 1331 whenever constitutional issue is raised; rather Es must exhaust their administrative remedies and can only appeal Bd's final orders, and review of Bd's final orders is vested exclusively in ct of appeals]

Centra, Inc., et al. v. Peter W. Hirsch, RD (NLRB) 606 F.Supp. 530 (DC E.D. PA, Apr. 1985)

[petitioning Es' claim that district ct had jurisdiction under 29 U.S.C. Sec. 144 of NLRA to compel Bd to postpone ULP hearing and c/d from prosecuting pending 10(j) inj because Bd had denied their due process rights by refusing to postpone pending ULP hearing, rejected; S.Ct has held that direct review of Bd's final orders provided by Sec. 10(f) of NLRA exclusive means of judicial review and that district cts are w/o jurisdiction to enjoin Bd during ULP proceeding; even allegation of unconstitutional harm does not warrant district ct's intervention where administrative remedies might make it unnecessary]

2520-6225 No jurisdiction except where constitutional issue or agency action contrary to express statutory provision

Adventist Living Centers, Inc. d/b/a River Pines Community Health Center v. N.L.R.B. F.Supp.——(DC N.D. IL, Mar. 1985)

[district cts generally do not have jurisdiction to enjoin Bd from conducting R or ULP proceedings; exclusive means of obtaining judicial review of Bd rulings is in ct of appeals with only two exceptions to this congressionally mandated procedural route as recognized by US S.CT: (1) plain violations of Act by Bd; and (2) questions of national interest with international implications]

Local 6, International Federation of Health Professionals, a/w Longshoremen's v. William Lubbers, GC (NLRB) F.Supp.——(DC S.D. NY, July 1984)

[in mandamus action by U to revoke Bd's decertification order, to enjoin GC from harassing U, and to award U monetary damages, ct held it had jurisdiction of matter only if Bd acted in excess of its delegated powers and contrary to specific prohibition of Act; such narrow exception does not permit ct review of Bd certification orders because of Bd's erroneous assessment of facts which led it to conclusion not comporting with law; Congress limited judicial review in such a situation to appeals cts when certification dispute results in ULP finding]

Adventist Living Centers, Inc. d/b/a River Pines Community Health Center v. N.L.R.B.

F.Supp.——(DC N.D. IL, Mar. 1985)

[district cts generally do not have jurisdiction to enjoin Bd from conducting R or ULP proceedings; exclusive means of obtaining judicial review of Bd rulings is in ct of appeals with only two exceptions to this congressionally mandated procedural route as recognized by US S.CT: (1) plain violations of Act by Bd; and (2) questions of national interest with international implications]

Paul Hewmastrin, etc. v. Chicago Truck Drivers (NLRB)

F.Supp.——(DC N.D. IL, Feb. 1985)

[Ees' C seeking to mandamus order Bd to immediately process ULP charge blocking processing of their decertification ptn so that decertification proceedings might begin, dismissed for lack of subject matter jurisdiction, since, after Bd affirmed on multiple other grounds, Rd's dismissal of ptn solely on blocking charge grounds, question of whether there was an exception to nonreviewability of representation proceedings due to Bd action in excess of its delegated powers or in violation of unambiguous, mandatory NLRA provision no longer existed]

Armour Oil Company v. N.L.R.B.

F.Supp.——(DC C.D. CA, June 1985)

[in action brought in bankruptcy ct to enjoin ULP hearing on grounds that filing of bankruptcy ptn automatically stays ULP hearing, ct held that Bd is *governmental unit* and ULP proceeding is an action by the Bd to enforce its regulatory power, therefore, Bd's ULP proceeding is not automatically stayed by filing of ptn]

2520-6225-6000 Actions found to raise constitutional questions

Adventist Living Centers, Inc. d/b/a River Pines Community Health Center v. N.L.R.B.

F.Supp.——(DC N.D. IL, Mar. 1985)

[claim of denial of a constitutional right which is not *transparently frivolous* can be asserted in a district ct notwithstanding Section 10 of Act, as means of obtaining judicial review of Bd rulings]

Adventist Living Centers, Inc. d/b/a River Pines Community Health Center v. N.L.R.B.

F.Supp.——(DC N.D. IL, Mar. 1985)

[what remains of *Fay v. Douds* doctrine that claim concerning denial of constitutional right which is not asserted in district ct, transparently frivolous *applies only to situations where party seeking to invoke equity jurisdiction of district ct asserts vested property right with respect to collective bargaining contract where he has no way of ultimately obtaining judicial review;* not where alleged constitutional violation, as here, is hardly *violation of right;* plaintiff will have opportunity to raise constitutional issue before ct of appeals]

Centra, Inc., et al. v. Peter W. Hirsch, RD (NLRB) **606 F.Supp. 530 (DC E.D. PA, Apr. 1985)**

[petitioning Es' claim that district ct had jurisdiction under 28 U.S.C. Sec. 1331, which grants it jurisdiction over constitutional questions, to compel Bd to postpone pending ULP hearing and c/d from prosecuting pending 10(j) inj because Bd had denied their due process rights by refusing to postpone ULP hearing, rejected, since district ct cannot exercise jurisdiction under 28 U.S.C. Sec. 1331 whenever constitutional issue is raised; rather Es must exhaust their administrative remedies and can only appeal Bd's final orders, and review of Bd's final orders is vested exclusively in ct of appeals]

2520-6225-8000 Actions found not to raise constitutional questions

Adventist Living Centers, Inc. d/b/a River Pines Community Health Center v. N.L.R.B.

F.Supp.——(DC N.D. IL, Mar. 1985)

[claim of denial of a constitutional right which is not *transparently frivolous* can be asserted in a district ct notwithstanding Section 10 of Act, as means of obtaining judicial review of Bd rulings]

John J. Fuller v. N.L.R.B.

F.Supp.——(DC MA, Mar. 1986)

[mere conclusionary allegations of charging party whose charge was dismissed after appeal to GC, that GC's refusal to categorize his letter expressing only his own opinion of supervisors as protected activity violated his right to due process and free speech, insufficient to merit ct inquiry as failure of GC to issue C is not denial of constitutional rights]

John J. Fuller v. N.L.R.B.

——F.Supp.—— (DC MA, Mar. 1986)

[mere conclusionary allegations of charging party whose charge was dismissed after appeal to GC, that GC's refusal to categorize his letter expressing only his own opinion of supervisors as protected activity violated his right to due process and free speech, insufficient to merit ct inquiry as failure of GC to issue C is not denial of constitutional rights]

Local 6, International Federation of Health Professionals, a/w Longshoremen's v. William Lubbers, GC (NLRB)

F.Supp.——(DC S.D. NY, July 1984)

[U's mandamus action to revoke Bd's decertification order, to enjoin GC from harassing U, and to award U monetary damages, dismissed, where U's claimed denial of due process flew in face of its failure to exhaust its administrative remedies; U's bare bones accusations of *prejudice* and *irrational animosity,* and unsupported statements about deprivation of property plainly did not rise to level of constitutional violation and constituted patent attempt to bypass prohibition against interlocutory district ct review of Bd determinations]

Centra, Inc., et al. v. Peter W. Hirsch, RD (NLRB) **606 F.Supp. 530 (DC E.D. PA, Apr. 1985)**

[petitioning Es' claim that district ct had jurisdiction under Mandamus Act, 28 U.S.C. Sec. 1361, to compel Bd to postpone hearing and c/d from prosecuring pending 10(j) inj because Bd had denied their due process rights by refusing to postpone pending ULP hearing, rejected; although the ct has jurisdiction to hear claims of violation of due process by failure to hold a hearing, failure to postpone one does not rise to constitutitional level; there was no non-discretionary duty or exhaustion of administrative remedies as Act requires and no irrational exercise of discretion by Bd]

Teamsters Local Union No. 435 v. W. Bruce Gillis, Jr., RD (NLRB & Super Valu Stores, Inc.) ——F.2d—— (DC CO, Mar. 1986)

[plaintiff's mtn for preliminary inj to prevent R hearing on UC ptn, concerning whether single or two city warehouse unit of Ee's is covered by contract with U, denied, since ct could not say that in scheduling hearing for *unit clarifications,* Regional Director is proceeding in excess of his authority and *contrary to a specific prohibition in the Act.* Preemptive order from the District Ct would be contrary to public policy of limited judicial involvement in disputes arising under NLRA]

Telephone Commerical Employees Union v. Arthur Eisenberg, RD (NLRB) **587 F.Supp. 546 (DC E.D. IL, July 1984)**

[plaintiff U's mtn for summary judgment on its requested inj to require RD to hold hearing on unit clarification ptn before Ees can be deprived of plaintiff's representation, denied, as plaintiff has not exhausted administrative remedies since unit clarification ptn still pending and RD may yet order hearing, but if RD grants ptn w/o holding hearing, plaintiff may obtain review by Bd of RD's decision not to hold hearing]

Centra, Inc., et al. v. Peter W. Hirsch, RD (NLRB) 606 F.Supp. 530 (DC E.D. PA, Apr. 1985)

[E's ptn to district ct to grant inj to compel Bd to c/d from prosecuting pending 10(j) inj allegedly filed in retaliation for E's exercise of due process rights by seeking postponement of ULP hearing, denied; E presented no evidence that Bd filed inj solely in retaliation; if there is such evidence, there is no reason to believe district ct where proceeding is pending would not consider it as defense, and that hearing is adequate and exclusive remedy; if aggrieved by grant of inj, E may appeal to ct of appeals]

2520-7567-5000 Conduct of hearing

Shanrod Construction and John Shane (Debtor)
F.Supp.——(BC W.D. NY, Aug. 1985)

[Bankruptcy Ct (ct) stayed Bd from holding ULP hearing filed against debtor-in-possession (debtor) before debtor filed ptn under Chap. 11, holding that under 11 U.S.C. Sec. 1113 ct and only ct had authority to determine issue of whether debtor could reject collective bargaining agreement, an executory agreement]

Storer Communications, Inc. v. N.L.R.B.
F.Supp.——(DC E.D. OH, Oct. 1984)

[district ct lacks subject matter jurisdiction over E's C alleging due process requires Bd to hold evidentiary hearing. prior to ULP proceeding, concerning allegations that U's counsel should be disqualified under ABA's DR 5-102(A) because E has subpoenaed him to testify about substance of ULP charges, since U's counsel is being called by E *as its* witness, and thus is not proscribed from testifying by DR 5-102(A)]

Storer Communications, Inc. v. N.L.R.B.
F.Supp.——(DC E.D. OH, Oct. 1984)

[district ct lacks subject matter jurisdiction over E's C alleging due process requires Bd to hold evidentiary hearing, prior to ULP proceeding, concerning allegations that U's counsel should be disqualified under ABA's DR 5-102(A) because E has subpoenaed him to testify about substance of ULP charges, since, although testimony did not reveal whether U would call counsel as its witness, due process does not require a hearing on this matter, since E has not shown that qualified right to have opposing counsel disqualified is a property right and E may renew mtn to disqualify should U call counsel as its witness]

Centra, Inc., et al. v. Peter W. Hirsch, RD (NLRB) 606 F.Supp. 530 (DC E.D. PA, Apr. 1985)

[Es' ptn to district ct under 28 U.S.C. Sec. 1331 (federal questions), NLRA, and Mandamus Act for TRO restraining Bd from holding pending ULP hearing because of violation of due process by failing to postpone hearing dismissed for lack of jurisdiction; Es must exhaust administrative remedies, appealing Bd order to ct of appeals, and district ct may not intervene prematurely; also, failure to postpone hearing is not violation of constitutional due process and does not meet Mandamus Act's jurisdictional requirements of non-discretionary duty or irrational exercise of discretion]

Armour Oil Company v. N.L.R.B.

Paul Hovenstein, etc. v. Chicago Truck Drivers (NLRB)
——F.Supp.—— DC N.D. IL, Feb. 1985)

[Ees' C seeking to mandamus order Bd to immediately process ULP charge blocking processing of their decertification ptn so that decertification proceedings might begin, dismissed for lack of subject matter jurisdiction, since, after Bd affirmed on multiple other grounds, Rd's dismissal of ptn solely on blocking charge grounds, question of whether there was an exception to nonreviewability of representation proceedings due to Bd action in excess of its delegated powers or in violation of unambiguous, mandatory NLRA provision no longer existed]

2520-8733-5000 Issuance of certification

Commercial Workers, Local 400 v. Donald R. Dotson, et al. (NLRB) 628 F.Supp. 1 (DC D.C., June 1984)

[district court does not have jurisdiction to mandate that Bd certify results of R election in which Bd found 40% of voters were supervisors; though Bd had previously certified U, subsequent Bd case threw supervisory status of some voters into question, thus case was remanded to RD for new election. Bd has considerable discretion to appraise atmosphere surrounding an election in which supervisors have particupated]

Local 6, International Federation of Health Professionals, a/w Longshoremen's v. William Lubbers, GC (NLRB)
F.Supp.——(DC S.D. NY, July 1984)

Centra, Inc., et al. v. Peter W. Hirsch, RD (NLRB) 606 F.Supp. 530 (DC E.D. PA, Apr. 1985)

[even if district ct had jurisdiction to grant E's ptn for TRO restraining Bd from holding pending ULP hearing and mandamus order to compel Bd to postpone hearing, they would be denied, since E has not shown likelihood of obtaining final inj on the merits; counsels failed to establish reasons for their alleged lack of time to prepare for ULP hearing, providing no evidence of their alleged other commitments and failing to persuade the ct that no officers with knowledge of ULPs charged were available to assist them]

2540-5000 Jurisdiction of court

2540-5025 Jurisdiction under APA Section 10, 5 U.S.C. Section 701, et seq.

Mobilab Union, Inc. v. N.L.R.B. **600 F.Supp. 826 (DC NJ, Jan. 1985)**

(U held to have no right to ct review under APA of GC's refusal to issue C in view of fact that under Section 701(a) there is an exception to the Act's presumption of availability of judicial review to the extent that *agency action is committed to agency discretion by law*)

Mobilab Union, Inc. v. N.L.R.B. **600 F.Supp. 826 (DC NJ, Jan. 1985)**

(U held to have no private right under NLRA to mandate GC to issue C or fully explain reason for refusing to do so, since the *final authority* language of Sec. 3(d) has been uniformly construed as precluding judicial review of GC's decision not to issue a C)

2540-5050 Clear error of legal interpretation

Mobilab Union, Inc. v. N.L.R.B. **600 F.Supp. 826 (DC NJ, Jan. 1985)**

(no right to ct review of GC's refusal to issue C as a decision *wholly without basis in law* found, since such an exception to unreviewability of GC's determination has never been recognized by any ct and, where alluded to, has been considered as equivalent to, but not an enlargement of the *Leedom v. Kyne* exception, which U did not plead)

2540-5067 Arbitrary and capricious action constituting denial of constitutional due process

Mobilab Union, Inc. v. N.L.R.B. **600 F.Supp. 826 (DC NJ, Jan. 1985)**

(due process not violated by GC's refusal to issue C; charging party has no right to issuance of a C, in view of Act's limitations, including GC's exercise of discretion; due process rights have been confined to rights to an explanation and to administrative appeal, which have been satisfied here; point-by-point response to each objection seems no more useful or constitutionally mandated for GC than for ct of appeals)

2540-6700 **Action sought to be enjoined**

N.L.R.B. v. Superior Fowarding, Inc. **762 F.2d 695 (C.A. 8, May 1985)**

N.L.R.B. v. Superior Fowarding, Inc. **762 F.2d 695 (C.A. 8, May 1985)**

(bankruptcy ct can enjoin Bd from filing or processing ULP charges arising from modification of contract since, if Bd can neither file charges against nor find debtor-in-possession guilty of ULP for unilaterally rejecting or modifying contract, certainly it cannot proceed with hearings on ULP charges arising under that contract)

N.L.R.B. v. Superior Fowarding, Inc. **762 F.2d 695 (C.A. 8, May 1985)**

(whether alleged ULP stems from debtor's rejection or modification of bargaining agreement or from debtor's failure to bargain over terms of new contract, is question of contract construction, one of law, to be determined by bankruptcy ct when debtor petitions ct to enjoin Bd proceedings notwithstanding contention that Bd is exclusive forum for determining whether conduct falls *w/i Bildisco* protected conduct)

N.L.R.B. v. Superior Fowarding, Inc. **762 F.2d 695 (C.A. 8, May 1985)**

(ct should deny debtor's mtn to enjoin Bd proceedings on charge if ULP charge stems from debtor's failure to bargain in good faith over terms and conditions of new contract)

N.L.R.B. v. Superior Fowarding, Inc. **762 F.2d 695 (C.A. 8, May 1985)**

[state law denying unemployment compensation to laid-off Ees who, by paying U dues, financed strikes at other locations that led to their layoffs, not pre-empted by federal law, notwithstanding right to make such payments is protected by Sec. 7; Ees found to have voluntarily caused own unemployment, as there was meaningful connection between Ees' decision to pay dues, ensuing strikes and their own layoffs, and layoffs were untainted by any unlawful conduct by E; histories of NLRA and Title IX of SSA show that Congress intended to allow such conflict between federal law and state unemployment compensation law]

[U's 301 suit against neutral subcontractor to enforce arbitration award granting U *time-in-lieu* payments inconsistent with Bd's 10(k) determination held to constitute secondary coercion of primary E since U may not enforce award when effect is to encourage neutral E to pressure primary E to hire U Ees]

Longshoremen's ILA, Local 32 v. Pacific Maritime Association and Cresent City Marine Ways and Drydock Company, Inc. (NLRB) 773 F.2d 1012 (C.A. 9, Oct. 1985)

[ct upheld district ct's refusal to confirm arbitration award which conflicted with 10(k) work assignment, notwithstanding U's contention that applicable state statute of limitations precluded E and Bd from raising as defense *supremacy doctrine* barring arbitrator from making award inconsistent with 10(k) determination, because failure to move to vacate arbitration award w/i applicable limitations period did not preclude prior or subsequent 10(k) decision from invalidating contrary award]

Longshoremen's ILA, Local 32 v. Pacific Maritime Association and Cresent City Marine Ways and Drydock Company, Inc. (NLRB) 773 F.2d 1012 (C.A. 9, Oct. 1985)

[there was no reasonable basis in law for U's grievance and Sec. 301 suit, since it is well established that the *supremacy doctrine* bars arbitrator from making award inconsistent with Bd's 10(k) determination]

Sheetmetal Workers, Local Union No. 263 v. N.L.R.B. ——— F.2d ——— (DC N.D. IA, Mar. 1984)

[mtn by Bd and E association to dismiss plaintiff U's action seeking order enforcing arbitration award in attempt to enforce *interest arbitration clause*, granted since under FRCP 12(b)(6) mtn to dismiss should not be granted unless it appears that plaintiff is entitled to no relief under any set of circumstances which could be proved in support of claim; for purposes of mtn, C must be construed in light most favorable to pleader and its allegations taken as true; and interest arbitration clause is unenforceable insofar as it applies, as here, to inclusion of similar clause in new contract]

Sheetmetal Workers, Local Union No. 263 v. N.L.R.B. ——— F.2d ——— (DC N.D. IA, Mar. 1984)

[in granting mtn to dismiss U's action seeking order enforcing arbitration award in attempt to enforce *interest arbitration clause* in current contract to compel inclusion of similar contract in new contract, ct held it was not necessary to vacate interest arbitration provision of arbitrator's award since no action will lie to enforce it]

5060-6700 Bankruptcy proceedings

Martin Arsham Sewing Co., a/k/a Marsco, Inc. 275 NLRB No. 090

(mtn for Determination of Personal Liability, by award or hearing under Bd's backpay order, denied where E filed ptn for voluntary bankruptcy identifying owner of E as sole secured creditor and Bd as unsecured creditor (via its backpay order), since GC made no factual assertion which could warrant finding sole secured creditor perpetrated fraud, dissipated or diverted corporate assets, intermingled personal and corporate assets or otherwise attempted to thwart E's backpay liability)

N.L.R.B. v. Edward Cooper Painting, Inc., and Cooper & Cooper Painting, an alter ego 804 F.2d 934 (C.A. 6, Nov. 1986)

[Bd's order against E in bankruptcy proceeding held not void because Bd failed to ptn bankruptcy ct for relief from automatic stay under Bankruptcy Act before proceeding against E; governmental unit which determines that its police powers or regulatory proceeding is excepted from automatic stay under 362(b)(4) of Bankruptcy Act is not required to ptn bankruptcy ct for relief from stay prior to continuing its proceeding, and legislative history of Bankruptcy Act evinces congressional intent to such effect]

N.L.R.B. v. Edward Cooper Painting, Inc., and Cooper & Cooper Painting, an alter ego 804 F.2d 934 (C.A. 6, Nov. 1986)

[Bd, acting on belief that its ULP proceeding was excepted from operation of automatic stay under Bankruptcy Act, held to have permissibly proceeded with ULP hearing w/o obtaining relief from stay in bankruptcy ct; however, Bd proceeded at its own risk and, if it was later determined that proceeding was *not* excepted from automatic stay, entire Bd proceeding would be void *ab initio*; nonetheless, exercise of governmental unit's police or regulatory powers is not void merely because used in belief that its action was excepted from automatic stay]

N.L.R.B. v. Edward Cooper Painting, Inc., and Cooper & Cooper Painting, an alter ego 804 F.2d 934 (C.A. 6, Nov. 1986)

[Sec. 362 of Bankruptcy Act does not require that Bd ptn bankruptcy ct for permission to proceed with ULP proceeding, and legislative history of 362 shows that when action is excepted from automatic stay, trustee is required to move ct into action, rather than requiring stayed party to request relief from stay; however, Bankruptcy Act empowers bankruptcy ct to stay proceedings that are excepted from operation of automatic stay if assets of debtor's estate are threatened]

5060-6767 To protect proceeding or order

N.L.R.B. v. Superior Fowarding, Inc. 762 F.2d 695 (C.A. 8, May 1985)

(expenses incurred in defending against ULP charges held to constitute threat to assets of debtor's estate given the time and effort of management to defend 52 ULP charges)

N.L.R.B. v. Superior Fowarding, Inc. 762 F.2d 695 (C.A. 8, May 1985)

(bankruptcy ct can enjoin Bd from filing or processing ULP charges arising from modification of contract since, if Bd can neither file charges against nor find debtor-in-possession guilty of ULP for unilaterally rejecting or modifying contract, certainly it cannot proceed with hearings on ULP charges arising under that contract)

The Rath Packing Company v. N.L.R.B. ——— F.Supp. ——— (BC N.D. IA, Mar. 1984)

[ct refused debtor injunctive relief from U and Bd filing any charges arising out of debtor's rejection of its collective bargaining agreement or debtor's imposition of new terms and conditions after such rejection, as no charges were pending as yet request for injunctive relief was not ripe for judicial resolution]

The Rath Packing Company v. N.L.R.B. ——— F.Supp. ——— (BC N.D. IA, Mar. 1984)

[based on Norris-LaGuardia Act, ct refused to enjoin Bd from holding ULP hearing on C where debtor was respondent]

The Rath Packing Company v. N.L.R.B. ——— F.Supp. ——— (BC N.D. IA, Mar. 1984)

[ct refused to enjoin Bd from holding ULP hearing where debtor was respondent, rejecting claim that automatic stay provision of 11 U.S.C. Section 362(a)(1) applies to Bd]

The Rath Packing Company v. N.L.R.B. ——— F.Supp. ——— (BC N.D. IA, Mar. 1984)

[while ct may have power under 11 U.S.C. Section 105 to issue orders enjoining Bd from holding ULP hearing where debtor is respondent, such stays may be justified only when challenged administrative proceedings *threaten* assets of bankruptcy estate. Threats of litigation expense and discouragement to potential buyers or investors are not sufficient]

Shanrod Construction and John Shane (Debtor) ——— F.Supp. ——— (BC W.D. NY, Aug. 1985)

[Bankruptcy Ct (ct) stayed Bd from holding ULP hearing filed against debtor-in-possession (debtor) before debtor filed ptn under Chap. 11, holding that under 11 U.S.C. Sec. 1113 ct and only ct had authority to determine issue of whether debtor could reject collective bargaining agreement, an executory agreement]

General Highway Express, Inc. v. Teamsters Local Union No. 20 (NLRB) ——— F.2d ——— (BC N.D. OH, Jan. 1985)

[bankruptcy ct refused to enjoin NLRB from hearing ULP C arising out of events that occurred during operation of debtor in possession notwithstanding 11 U.S.C. Sec. 502 (c)(1) arguably authorizes ct to decide U's ULP claims against debtor, since Congress entrusted NLRB to adjudicate ULP claims and S.Ct expressed strong preference for allowing NLRB to do so

Wheeling-Pittsburgh Steel Corporation, et al. v. Pennsylvania Human Relations Commission, et al. ——— F.2d ——— (BC W.D. PA, Aug. 1986)

[injunctive relief to stay proceedings of Bd and other government agencies against debtor in bankruptcy, denied, where proceedings were excepted from automatic stay provisions of Bankruptcy Act since, in investigating and prosecuting alleged violations, agencies acted pursuant to their police powers; and since agencies only wished to enter, but not execute on, money judgments, and to enforce non-monetary judgments, agencies were permitted under Bankruptcy Act to seek to obtain judgments for backpay and back benefits and to enforce back to work orders]

Wheeling-Pittsburgh Steel Corporation, et al. v. Pennsylvania Human Relations Commission, et al. ——— F.2d ——— (BC W.D. PA, Aug. 1986)

[in bankruptcy proceeding, ct held enforcement of back to work order was not tantamount to enforcement of money judgment, as in backpay and benefit orders, which is not enforceable in bankruptcy w/o ct order; back to work order is not intended to provide monetary compensation for past injuries but rather to redress future harm arising from continued unemployment as result of wrongful termination, and is not attempt to enforce money judgment; and payment of money to reinstated Ee is consideration for past-reinstatement work and not compensation for past harm]

Wheeling-Pittsburgh Steel Corporation, et al. v. Pennsylvania Human Relations Commission, et al. ——— F.2d ——— (BC W.D. PA, Aug. 1986)

[in denying injunctive relief to stay proceedings of Bd and other agencies against debtor in bankruptcy, and assuming that costs of defending against agencies' claims, either alone or together with debtor's limited staff problems, jeopardized reorganization, ct held that, absent legal authority to weigh such considerations under Bankruptcy Act, it was unable to override its clear direction that government agencies, acting pursuant to their police powers, be permitted to investigate and prosecute claims to extent provided by Bankruptcy Act's provisions]

5060-6767-5000 Circumstances to be considered by bankruptcy court in rejection of bargaining agreement

N.L.R.B. v. Bildisco & Bildisco, Debtor-in-Possession, et al. ———U.S.——— (U.S. S.Ct, Feb. 1984)

[before acting on ptn to modify or reject unexpired bargaining agreement, Bankruptcy Ct should be persuaded that reasonable efforts to negotiate voluntary modification have been made and are not likely to produce prompt and satisfactory solution. Ct need not determine that parties have bargained to impasse or make any other determination outside its expertise]

N.L.R.B. v. Bildisco & Bildisco, Debtor-in-Possession, et al. ———U.S.——— (U.S. S.Ct, Feb. 1984)

[debtor-in-possession does not need to comply with mid-term contract modification procedures set forth in Sec. 8(d) because bargaining agreement is not enforceable contract w/i meaning of 8(d); therefore, because modification accomplished by operation of law (Bankuptcy Code) and not by unilateral action of E, it follows that debtor-in-possession need not comply with provisions of Sec. 8(d) prior to seeking Bankruptcy Ct's permission to reject agreement]

N.L.R.B. v. Bildisco & Bildisco, Debtor-in-Possession, et al. ———U.S.——— (U.S. S.Ct, Feb. 1984)

[S.Ct held standard for allowing rejection of unexpired bargaining agreement by debtor-in-possession is stricter than traditional *business judgment* but less than need to demonstrate that reorganization will fail unless rejection of agreement is permitted]

N.L.R.B. v. Bildisco & Bildisco, Debtor-in-Possession, et al. ———U.S.——— (U.S. S.Ct, Feb. 1984)

[debtor-in-possession is E under NLRA and is obligated to bargain collectively with certified representative over terms of new contract pending rejection of existing contract or following formal approval of rejection by Bankruptcy Ct, but no ULP by unilaterally breaching contract before formal Bankruptcy Ct action]

N.L.R.B. v. Superior Fowarding, Inc. 762 F.2d 695 (C.A. 8, May 1985)

(whether alleged ULP stems from debtor's rejection or modification of bargaining agreement or from debtor's failure to bargain over terms of new contract, is question of contract construction, one of law, to be determined by bankruptcy ct when debtor petitions ct to enjoin Bd proceedings notwithstanding contention that Bd is exclusive forum for determining whether conduct falls w/i *Bildisco* protected conduct)

[ct of appeals held that it could not reach merits of appellants' argument that district ct's interpretation of parties' short form agreement was erroneous on grounds that it was inconsistent with requirements of Sec. 8(d) of NLRA, since federal cts lack jurisdiction to consider claims based on violation of Sec. 8 of NLRA]

8767-3300 Position of Agency substantially justified

Abbott House, Inc. 277 NLRB No. 024

(GC's case had reasonable basis in fact and law and was substantially justified where case involved close question of interpretation of settlement stipulation and prior collective bargaining agreements and, in part, credibility determination of witnesses)

Stonehouse Coal Company 276 NLRB No. 140

(GC *substantially justified* where she was prevailing party on two of three issues charged in C; respondent could only claim to have prevailed on one issue that was resolved by arbitrator in its favor, and this was result of change in law less than three weeks before hearing that could not have been anticipated by GC)

American Trucking Associations, Inc. and Tidewater Motor Truck Association v. N.L.R.B. ———F.2d——— (C.A. 4, Oct. 1985)

[application denied since position of United States throughout litigation was substantially justified where governing norms in litigation were not clearly established and result was not clearly dictated by extant law but was crystallization of cogent briefing, elucidating oral argument, development of full factual record, and extensive litigation process before Bd, federal cts and S.Ct]

8767-3301-4800 Clarity of existing law

Prairie Tank Southern, Inc. v. N.L.R.B. ———F.2d——— (C.A. 7, Feb. 1984)

2501-3300 Purpose of Act

American Commercial Barge Lines Company v. N.L.R.B — 758 F.2d 1109 (C.A. 6, Apr. 1985)

(prevailing party in FOIA action not entitled to attorney fees, since reasonable basis in law for NLRB's initial withholding of position statement of U in closed ULP proceeding, where party sought information to prepare its defense in related open proceeding; fact document subsequently disclosed w/ i time covered by NLRB's guidelines to establish reasonable basis for withholding did not give rise to inference that agency did not consider document exempt, nor need agencies' grounds for withholding document ultimately be vindicated; further, penalizing agency for disclosure at any stage not in spirit of FOIA)

American Commercial Barge Lines Company v. N.L.R.B — 758 F.2d 1109 (C.A. 6, Apr. 1985)

(agency disclosure of document requested under FOIA does not logically give rise to inference that agency does not consider document exempt from disclosure. FOIA does not prohibit disclosure of documents covered by exemptions. Exemptions are only permissive and mark outer limits of information that may be withheld where agency makes specific determination that public interest and specific circumstances presented dictate that information should be withheld)

American Commercial Barge Line Company v. N.L.R.B. — ——— F.Supp. ——— (DC S.D. IN, April 1986)

[release of requested information for purpose of making report to Congress concerning Bd's abuse in investigation and prosecution of ULP charges, although of benefit to plaintiff to extent it felt discriminated against by Bd, would be of primary benefit to public by holding Bd accountable to its congressional mandate and vindicating FOIA and thus justified award of attorney's fees where plaintiff substantially prevailed by obtaining requested information]

American Commercial Barge Line Company v. N.L.R.B. — ——— F.Supp. ——— (DC S.D. IN, April 1986)

[*witness statements in closed cases not exempt under 7(A) of FOIA since Bd has not shown that disclosure of these statements would interfere with a specific proceeding that is currently pending*; therefore, no risk that witness can be intimidated]

R. Eddie Wayland v. N.L.R.B. 627 F.Supp. 1473 (DC M.D. TN, Feb. 1986)

[highly personal data normally found in Ee's personnel file that would *constitute an unwarranted invasion of personal privacy* is nondisclosable under 7(C) of FOIA. [information concerning Ee wage rates, job performance and personnel action that would typically be found in a personnel file exempt under 7(C) as Ees have legitimate privacy interest in this type of information. Ct directs Bd to *redact the portions of withheld documents concerning above mentioned information*]

2567-8367-5600 Exemption 7(D)

United Technologies Corp. v. N.L.R.B. 777 F.2d 90 (C.A. 2, Nov. 1985)

[a source is considered *confidential* under Exemption 7(D) if he or she provides information under an express assurance of confidentiality or in circumstances from which such an assurance could be reasonably inferred]

United Technologies Corp. v. N.L.R.B. 777 F.2d 90 (C.A. 2, Nov. 1985)

[two internal Bd memoranda written by Bd agent who at pre-hearing meeting received from Ee of E charged with ULPs unauthorized pre-trial documents of E held memoranda constituting investigatory records for law enforcement purposes; memoranda were not merely post-investigatory reports or wrap-ups of events at meeting; rather, both memoranda primarily contained information obtained as part of investigatory phase and pre-hearing strategy of Bd's proceedings against E, satisfying threshold criteria for Exemption 7]

United Technologies Corp. v. N.L.R.B. 777 F.2d 90 (C.A. 2, Nov. 1985)

[whether circumstances show an implied assurance of confidentiality that would exempt from disclosure documents containing identity of confidential sources is ordinarily question of fact; and Ee-informant's fear of E retaliation can give rise to justified expectation of confidentiality]

United Technologies Corp. v. N.L.R.B. 777 F.2d 90 (C.A. 2, Nov. 1985)

[district ct properly held that, in view of protracted and bitter struggle between E and U, pro-U Ees, one of whom gave Bd agent unauthorized pre-trial documents of E charged with ULPs, had reason to believe that Bd would keep their identities and their statements about E confidential; also, Bd agent's action in returning to Ee unauthorized documents and explaining seriousness of situation underscored confidential nature of meeting with Bd agent]

United Technologies Corp. v. N.L.R.B. 777 F.2d 90 (C.A. 2, Nov. 1985)

[*potential witness rule* that Ee-informant at pre-hearing investigation of his E may not be considered *confidential source* if Ee-informant is potential witness for investigating agency held not to defeat Bd's claim that E's Ees were confidential sources under Exemption 7(D); term *confidential source* includes informant who is promised or reasonably expects confidentiality unless and until agency needs to call him as witness at trial; Exemption 7(D) is particularly important to Bd which must depend on information provided by charging party and its witnesses]

United Technologies Corp. v. N.L.R.B. 777 F.2d 90 (C.A. 2, Nov. 1985)

[ct rejected under any circumstances *potential witness rule* that Ee-informant at pre-hearing investigation of his E charged with ULPs may not be considered *confidential source* if Ee-informant is potential witness; regardless of whether underlying enforcement proceeding has been dismissed before hear-

United Technologies Corp. v. N.L.R.B. 777 F.2d 90 (C.A. 2, Nov. 1985)

[E held not entitled to disclosure of Ee's identity, who was confidential source under Exemption 7(D), contained in internal Bd memoranda of Bd agent concerning pre-hearing meeting at which Bd agent received from Ee unauthorized pre-trial documents of E charged with ULPs]

United Technologies Corp. v. N.L.R.B. 777 F.2d 90 (C.A. 2, Nov. 1985)

[E held not entitled to disclosure of identity of Bd agent contained in internal Bd memoranda concerning pre-hearing meeting at which Bd agent received from Ee unauthorized pre-trial documents of E charged with ULPs; Ee involved was found confidential source and E's possible reason for seeking disclosure of Bd agent's identity was that it would facilitate discovery of Ee's identity, and E should not be permitted to obtain through indirect means what Exemption 7(D) does not entitle it to obtain directly]

United Technologies Corp. v. N.L.R.B. 777 F.2d 90 (C.A. 2, Nov. 1985)

[Bd did not waive protection of Exemption 7(D) by disclosing to U counsel identities of people at Bd pre-hearing meeting with Bd agent at which agent received from Ee unauthorized pre-trial documents of E charged with ULPs; under Exemption 7(D), agency's ability to withhold information, if it so chooses, derives from grant of confidentiality to source of information; such privilege belongs to beneficiary of promise of continues until he or she waives it]

Van Borg, Allen, Weinberg & Roger v. N.L.R.B. 751 F.2d 982 (C.A. 9, Jan. 1985)

(witnesses' affidavits held not exempt under exemption 7(D) where there was no finding that there was any express or implied assurance of confidentiality; Bd's contention that witnesses who submit affidavits are confidential sources under exemption 7(D), rejected because persons submitting affidavits to agency have no reasonable expectation of confidentiality and should expect their names and testimony to be revealed if investigation results in formal hearing)

United Technologies Corp. v. N.L.R.B. 632 F.Supp. 776 (DC CT, Mar. 1985)

[Bd agent's notes to file containing the names of persons cooperating in investigation who had supplied to Bd agent copies of E's pre-trial work product memoranda and which contained names of Bd's potential witnesses, held exempt from disclosure under 7(D), notwithstanding ULP charges had been withdrawn, since Ees participating in investigation could reasonably fear retaliation from E in light of bitter dispute instant E had with U; further, Ees had reason to believe Bd would keep identities confidential even if they overstepped bounds of allowable conduct during a labor dispute]

United Technologies Corp. v. N.L.R.B. 632 F.Supp. 776 (DC CT, Mar. 1985)

[Bd did not waive any FOIA privileges when it disclosed names of Ees, who supplied Bd agent copies of E's pre-trial work product memoranda, to charging party U, since Bd and charging party shared common interests and were aligned as E's adversaries in prosecuting ULP case; further, privilege against disclosure can be waived only by person to whom confidentiality was promised and instant Ees had not done so]

Robert W. Kilroy, et al. v. N.L.R.B., et al. 633 F.Supp. 136 (DC S.D. OH, Dec. 1985)

[Ee affidavits, statements given to Bd agents and U position statements were not protected from disclosure by Exemption 7(D) since identity of individuals was a matter of public record where they were charging parties and Bd's guarantee of confidentiality applies only while case is still open and in instant case, all cases were closed]

R. Eddie Wayland v. N.L.R.B. 627 F.Supp. 1473 (DC M.D. TN, Feb. 1986)

[in order to establish individual who provides information to an agency is confidential source, agency must show that the information was given either *under an express promise of confidentiality or in circumstances under which such an assurance could be reasonably inferred*]

R. Eddie Wayland v. N.L.R.B. 627 F.Supp. 1473 (DC M.D. TN, Feb. 1986)

[witness statements contained in Bd's closed case files given under grant of *confidentiality* may remain protected even after investigative file has been closed; *Akron Standard v. Donovan* No. 84-3650 (6th Cir., filed January 8, 1986). Accordingly, in instant case, ct concludes that *identity* of those individuals who provided witness statements under grant of confidentiality fall w/i exemption 7(D) and rejects *potential witness* doctrine]

2583 SUITS TO ENFORCE OBLIGATION

2583-0200 Withholding of agency records

American Commercial Barge Lines Company v. N.L.R.B 758 F.2d 1109 (C.A. 6, Apr. 1985)

(prevailing party in FOIA action not entitled to attorney fees, since reasonable basis in law for NLRB's initial withholding of position statement of U in closed ULP proceeding, where party sought information to prepare its defense in related open proceeding; fact document subsequently disclosed w/ i time covered by NLRB's guidelines to establish reasonable basis for withholding did not give rise to inference that agency did not consider document exempt, nor need agencies' grounds for withholding document ultimately be vindicated; further, penalizing agency for disclosure at any stage not in spirit of FOIA)

R. Eddie Wayland v. N.L.R.B. 627 F.Supp. 1473 (DC M.D. TN, Feb. 1986)

[ct holds that none of information contained in withheld documents will be disclosed based on plantiff's incorporation argument (that withheld documents contain information incorporated into final agency decision, since agency's decision to approve withdrawal of charge in instant case *did not* incorporate information contained in withheld documents, but was instead based on charging parties' request made after disputes had been settled]

2583-0500 Court jurisdiction

R. Eddie Wayland v. N.L.R.B. 627——— F.Supp.————1473 (DC M.D. TN, Feb. 1986)

2583-3000 In camera inspection of requested records

R. Eddie Wayland v. N.L.R.B. 627 F.Supp. 1473 (DC M.D. TN, Feb. 1986)

[*in camera* inspection of documents withheld, in instant case, unnecessary because affidavit filed by defendants pursuant to ct's previous order was sufficiently detailed to enable plaintiff to challenge, and ct to resolve, applicability of claimed exemption. Plaintiff has not shown either existence of strong public interest in issues presented or of actual agency bad faith in claiming relevant exemptions]

American Commercial Barge Line Company v. N.L.R.B. ——— F.Supp. ——— (DC S.D. IN, April 1986)

[argument that ct should issue inj and declaratory relief because of defendant's possible repetition of violation, rejected, since ct had no further duty where plaintiff had received all existing information required, and case was moot and should be dismissed]

2583-8000 Attorney's fees and costs

American Commercial Barge Line Company v. N.L.R.B. ——— F.Supp. ——— (DC S.D. IN, April 1986)

[release of requested information for purpose of making report to Congress concerning Bd's abuse in investigation and prosecution of ULP charges, although of benefit to plaintiff to extent it felt discriminated against by Bd, would be of primary benefit to public by holding Bd accountable to its congressional mandate and vindicating FOIA and thus justified award of attorney's fees where plaintiff substantially prevailed by obtaining requested information]

American Commercial Barge Line Company v. N.L.R.B. ——— F.Supp. ——— (DC S.D. IN, April 1986)

[although plaintiff must substantially prevail in order to be awarded attorney's fees, ct must also consider whether result benefitted the public, whether plaintiff received any commercial benefit, nature of plaintiff's interest in information sought, and whether Government had reasonable basis in law for withholding information]

American Commercial Barge Line Company v. N.L.R.B. ——— F.Supp. ——— (DC S.D. IN, April 1986)

[defense to request for attorney's fees that plaintiff inadequately described information requested, rejected where defendants offered no affidavits or other supporting evidence and failed to explain delay in answering request thereby unnecessarily hindering policy of encouraging public access to government information]
